Coun. KELLY—I was glad to hear that Councilor Kinsella introduced this order. Some time, about three years ago, Mr. President,—I think it was back in 1941, if my memory serves me right,—I was the first member of the City Council who introduced a similar order, and I trust that the trustees of the Elevated will take steps so that the boys in the armed services who are working for as low as \$50 a month will be able to get free car rides on the Elevated. I have been reading in the newspapers lately that the Elevated is finally on a paying basis, according to their own figures, and I don't think it would do them any harm if they let down the bars to the boys in the service, who are making this country a safer country to live in, and consideration be given by the Boston Elevated to these boys to enable them to at least get free car rides on the Elevated system.

The order was passed under suspension of the rule.

INTENTIONS OF NAVY DEPARTMENT RE HOUSE OF CORRECTION.

Coun. KINSELLA offered the following:

Ordered, That his Honor the Mayor be requested to ascertain for the benefit of the Boston City Council, the intentions of the Navy Department with regard to the House of Correction at Deer Island.

Coun. KINSELLA—Mr. President, last Thursday I understand that a Navy captain and a commander, in company with State Corrections Commissioner Lyman and his deputy, Frank Dwyer, paid a formal visit to Deer Island. I say to the President and members of the Body that I don't know what the results of the visit were, nor do I know the purposes of the visit, but it goes without saying that when a captain of the United States Navy and a commander were both at Deer Island to look over the situation, something is brewing. And I think the Council ought to be mindful of the civil service employees of the Institutions Department, which is charged with the conduct of Deer Island as a county institution. In the last war, I am informed, the Navy Department took over for the incarceration of alien enemies at Deer Island. I don't know the purpose this year, but I did receive over the week end numerous calls from people,—I don't care to identify them, but, frankly, people who are employees of the Penal Institutions Department,—and I think it is incumbent on the members of the Council to ascertain, even if the Mayor also does, what the purpose of the visit was, and what disposition the department intends to make of the civilian personnel, not only of the island, but also of the City Hall office. I think we owe them all the protection that we can throw around them. I don't believe that it is fair recognition of the existence of this Body to do anything at all without first consulting the Council. We saw right after Pearl Harbor how the Army moved in arbitrarily, and without so much as a "By your leave," and took over the parks and playgrounds, which was perfectly all right, in the interest of national security, but which didn't even throw a sop to the vanity of twenty-two of us who have to answer to the people of our districts. Now, this is, of course, a broad problem, in the sense that people concerned with the conduct of Deer Island come from all over the country. Let us for once try to maintain our position and find out what is brewing. If the Navy must have it for recalcitrant sailors who have gotten into trouble and must be confined, let us try to find out about the civilian personnel. I don't think we could make any more moderate request than to ask what is to be done with it. I ask suspension of the rules and passage of the order.

The order was passed under suspension of the rules.

AIRLINE SERVICE TO BOSTON.

Coun. KINSELLA offered the following:

Resolved, Whereas New England is today being unwittingly discriminated against in the issuance of transcontinental airline certificates; and

Whereas, There does not exist in the entire United States a situation in air transportation comparable to that of New England generally, and Boston in particular; of the five largest metropolitan areas in America—New York, Philadelphia, Chicago, Los Angeles and Boston—only Boston is so isolated as to be served by only one transcontinental airline; and

Whereas, Washington, which was also served by but one transcontinental airline, has had its situation rectified by the action of the Civil Aeronautics Board so as to enjoy today the facilities of all the transcontinental airlines; and

Whereas, This situation is working to the detriment of New England's commercial and industrial development; be it

Resolved, That the City Council of the City of Boston demand that the Civil Aeronautics Board grant permits to competing transcontinental airlines to bring all communities in New England up to an equal footing with all other comparable communities in the United States; and be it further

Resolved, That copies of this resolution be forwarded to each member of the Civil Aeronautics

Board, and to the Congressional delegation of the Commonwealth of Massachusetts, and to such other persons and bodies as may have the interest and authority to assure Massachusetts of its rightful place in the air world.

The question came on the adoption of the resolution.

Coun. KINSELLA—I filed this resolution at the request of a gentleman very well known to every member of this Body, and possibly to everyone in this chamber. At the time I spoke to him, I believe last Thursday or Friday, he said to me, "I am leaving tonight for Los Angeles, where I am going to confer with Howard Hughes, and he is going to give me, among others, a preview of an airplane that weighs 440,000 pounds, with eight motors for power, and so forth, which they intend to use on various lines now in operation by this company." And he said, "If there is the slightest interest in air traffic after the war, that is the type of traffic we will see if our facilities are developed to such an extent that they can handle the trade they expect." We do read in the paper of plans that large interests have in developing air termini all over the country, and we are led to believe that ocean transportation will be almost passé when this war is over. There were several major points about which the gentleman spoke and about which we have heard some talk in here, and the details are very well known to everyone. But I would respectfully request of every member present, although it may be a little unusual, the passage of this order. The request is that the members unanimously adopt this resolution and show that they understand what the development has to do with Boston, and forward such a document to the Civil Aeronautics Authority in Washington. It can be readily understood, with approval of the Council and the Mayor, that certainly Boston, in the membership of its Council, the city fathers, is so interested as to approve of the granting of further permits, not to one or two airlines, mind you, but to all of the large competing airlines. I ask suspension of the rule and passage of the order.

The order was passed under suspension of the rule.

PROTECTION OF THE VATICAN.

Coun. RUSSO offered the following:

Whereas, The Military Forces of the United States, Great Britain and Germany are reported to be engaged in combat in the territory surrounding Vatican City at Rome, Italy; and

Whereas, It appears that there is grave danger that there will be a destruction of real and personal property that is irreplaceable and is of great educational, cultural and historical value; and

Whereas, The life of his Holiness Pope Pius XII and the lives of his official family situated within Vatican City are in great peril; and

Whereas, The United States, Great Britain and Germany have a large population of the Roman Catholic faith, and within these countries are also inhabitants who, although not of the Roman Catholic faith, have great respect and revere the sacredness of these properties located within Vatican City; therefore, be it

Resolved, That the Congress of the United States adopt an immediate plan that will accomplish the protection of these valuable properties of the Roman Catholic people, within the Vatican City, and also insure the safety of his Holiness Pope Pius XII, Christ's Vicar on Earth; and be it further

Resolved, That the City Council, in meeting assembled, adopt this resolution and that copies be sent immediately to each Senator and Congressman representing the State of Massachusetts.

Coun. RUSSO—Mr. President, in this era of civilization, where men are supposed to be at a state more civilized than the world has ever before known, we are, nevertheless, witnessing with heartaches the destruction of personal property and the destruction of humanity,—and especially now when this conflict is in the surroundings of Vatican City, where most of these valuable properties have been stored for centuries. I believe that there are in the Vatican City great paintings that the hand of man cannot replace, ever. I believe there are Scriptures and manuscripts, which the hand of man has written, that are in peril of destruction. I am still in hopes that the people, not only of the Catholic faith, but those not of the Catholic faith, have still a spot of respect and admiration, enough to see that all these sacred belongings not only of the Catholic faith and of the Catholic Church, but every man throughout the world, may be safeguarded and protected. I still believe and maintain that the Congress of the United States, with its representation, may devise ways and means whereby they may lead the way so that Germany, Great Britain and the United States can bring about a truce whereby these properties may be protected and safeguarded for all time. We have read in the past several days where his Holiness Pope Pius is asking various governments that are in this conflict that Vatican City and all those things that are sacred may be safeguarded. It is not up to me or to you to decide the question whether or not charges that have been made are true, but I believe that we, the people of the City of Boston, in this historic section of our country, in Boston, which saw the birth of our independence and which is primarily of Catholic faith, should be the first one to raise our voice to bring about all

these things which I have previously stated. The government of Vatican City, with its representations in every country of the world, through its cardinals and bishops and the ones that have been spreading the gospel, spreading the word of charity—not only by means of our lips, but the charity that comes from the heart—that government has maintained itself in strict neutrality, the government that loves all people, not only those of the Catholic faith, but all mankind throughout the world of which his Holiness Pope Pius has stated time and time again, "Let us all pray that mankind may come back to its proper sense, and bring about an honest and just peace." What victory can we or any nation have if the peace that will come therefrom is not a just one? And now we find that the Pope's very life and the lives of his official family are in great peril. I therefore ask that this resolution be adopted, that copies may be sent to each Senator and Congressman representing the State of Massachusetts, whereby something may be done in order to preserve all those beautiful things of educational, historical and cultural value for many years to come. I therefore ask suspension of the rules and passage of my resolution.

The resolution was passed under suspension of the rule.

SERVING OF ALCOHOL TO MINORS.

Coun. HANNON offered the following:

Ordered, That the Police Commissioner and the Licensing Board be requested to arrange for more strict enforcement of the regulations which provide that no alcoholic beverages be served to patrons under twenty-one years of age.

Coun. HANNON—I don't know what we can do, but something certainly should be done about the growing tendency to serve drinks to people who are under twenty-one years of age. Only last week, in the Dorchester Court, there were two boys there, seventeen years of age, who were arrested for drunkenness. They bought their liquor in a tavern or barroom, whatever you want to call it, and the same thing goes on in every section of the city, day in and day out. Now, they are not supposed to be served drinks until they are twenty-one years of age, and the burden is upon somebody; and I think, for the benefit of the whole city, we should have more strict enforcement of this particular rule, even if it is necessary to have people carry birth certificates, even if it is necessary to assign an officer to each place that serves alcoholic beverages. I think for the preservation of our youth, for the preservation of the morale of the city, and the safeguarding of the morals of our young people, we ought to be sure that this rule is enforced and that nobody under twenty-one years of age will be served liquor.

The order was passed under suspension of the rule.

APPLICATIONS TO HOUSING AUTHORITY.

Coun. HANNON offered the following:

Ordered, That the Boston Housing Authority be directed, through his Honor the Mayor, to acknowledge receipt of every application for housing, and within thirty days thereafter notify the applicant of the status of said application.

Coun. HANNON—Mr. President, one of the conundrums of the city government is the Boston Housing Authority. People go down there daily and make applications for apartments. The applications are received. Then nothing more is heard. They call up every politician in the city and try to find out whether or not they are eligible to get in there. In order to determine that, the politician has to call up the Housing Authority, and then we are told the matter is being investigated, it is being checked. Now, I think, Mr. President, if they do take these applications from people and give them the impression that they are being considered as applicants for the Housing Authority, they should forward those people some notification of what has become of the application. Sometimes they tell you there is no chance to get in, that there are one or two thousand people on the waiting list. Well, if that is true, why take these applications? They must throw them in a corner and let them gather moss down there. Sometimes they are there three, four and five months, and people never hear a word about it. The other day a lady told me she had filed her application six years ago, when the projects first started, and she hasn't heard a word from that and has put in one or two more since then. I think the burden should be taken off those who hold public office. Those people down there take applications from honest-to-God citizens who feel they are entitled to apartments in the projects. I think they should notify these people of what is being done with the applications, notify them if they are not eligible, notify them that they are being investigated, notify them that there is no vacancy, or notify them that at some future time they will be considered. At least they should not take these applications and throw them in a pile, and I believe that is what becomes of them now.

The order was passed under suspension of the rule.

FLAGPOLE IN FENS STADIUM.

Coun. BAYLEY and CHASE offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to immediately erect a flagpole in the Fens Stadium.

Passed under suspension of the rule.

HEAT FOR BUS SHELTER, CLEVELAND CIRCLE.

Coun. DWYER offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to provide heat for the bus shelter at Cleveland Circle, Ward 21.

Passed under suspension of the rule.

TAXES OF NEW YORK, NEW HAVEN AND HARTFORD RAILROAD.

Coun. KERRIGAN offered the following:

Resolved, That the Mayor of Boston instruct the Corporation Counsel to confer with the Honorable Justice of the United States District Court at New Haven, Connecticut, Carroll C. Hinks, requesting that Judge Hinks instruct the trustees of the New York, New Haven and Hartford Railroad Company to make payment in full for taxes owed by said company to the City of Boston, amounting to approximately \$5,000,000; and be it further

Resolved, That the fact be stressed by the City of Boston's legal representative that said City of Boston favored certain legislation in 1941 which allowed certain exemptions to the New York, New Haven and Hartford Railroad with the belief that taxes due would be paid to the city; and be it further

Resolved, That the City of Boston Corporation Counsel be instructed that there is to be no settlement in lieu of payment but that all taxes in full be paid to the City of Boston; and be it further

Resolved, That the City of Boston Corporation Counsel be directed to proceed with the same legal action that said city would employ in the collection of taxes owed by any other taxpayer.

The resolutions were adopted under suspension of the rule.

NAMING OF AIRCRAFT CARRIER FOR DORCHESTER HEIGHTS.

Coun. KERRIGAN offered the following:

Resolved, That the City Council of the City of Boston, in meeting assembled, records itself in favor of perpetuating on the sea the exploits at Dorchester Heights by naming an aircraft carrier after that illustrious and historical spot.

The resolution was adopted under suspension of the rule.

HEARINGS ON ANNUAL BUDGET.

Coun. MUCHNICK announced that the Committee on Appropriations would meet at ten o'clock Wednesday morning, February 23, to consider the annual budget submitted by the Mayor.

RECESS.

On motion of Coun. COFFEY, the Council voted to take a recess of five minutes, and shortly thereafter were called to order by President KERRIGAN.

CONFIRMATION OF EXECUTIVE APPOINTMENTS.

On motion of Coun. TAYLOR, the Council took up, under unfinished business, Nos. 1 and 2 on the calendar, viz.:

1. Action on appointment submitted by the Mayor February 14, 1944, of Irving A. Wickes to be a Constable without authority to serve civil process and to serve without bond.
2. Action on appointments submitted by the Mayor February 14, 1944, of Timothy Henderson, John Buckley, James Thomson, Paul Edwards, Edward Connelly, to be Weighers of Goods.

The question came on confirmation of the appointments, Committee, Coun. Taylor and Coffey. Whole number of ballots 12, yes 12, and the appointments were confirmed.

RETIREMENT ON HALF PAY AFTER TWENTY YEARS.

Coun. COFFEY offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to prepare legislation for presentation at the next session of the Legislature whereby city employees may be permitted to accept a pension by the city on half-pay after twenty years of service in order to create vacancies for returning veterans.

Passed under suspension of the rule.

USE OF TRAFFIC SIGNALS UNTIL MID-NIGHT, EGLESTON SQUARE.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Traffic Commissioner to extend the "Stop" and "Go" traffic lights at Egleston square until 12 midnight and thus reduce the hazards created by heavy flow of traffic at this intersection.
Passed under suspension of the rule.

ELECTRIC LIGHTS ON WASHINGTON STREET TO FOREST HILLS TERMINAL.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Public Works Commissioner to install electric street lights on Washington street, from Egleston square to Forest Hills terminal, when Federal authorities allow new installations of lights.
Passed under suspension of the rule.

RESURFACING OF CERTAIN WARD 11 STREETS.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Public Works Commissioner to resurface with smooth pavement Egleston street, Germania street, Copley street, Washington street, Ward 11.
Passed under suspension of the rule.

SURVEY OF PRIVATE WAYS, WARD 11.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Street Commissioners to make a survey of all private ways in Ward 11 for the purpose of accepting, laying out and constructing as public ways, when and if construction of streets will be allowed by the Federal Government.
Passed under suspension of the rule.

Adjourned, on motion of Coun. DWYER, at 3.15 p. m., to meet on Monday, February 28, 1944, at 2 p. m.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS. (STATE.)

STATE EXAMINERS OF ELECTRICIANS, 1944.

Examinations will be held at the following points and on the following dates:

- BOSTON, Wednesday, April 5.
- SPRINGFIELD, Thursday, April 6.
- BOSTON, Wednesday, May 3.
- WORCESTER, Thursday, May 4.
- BOSTON, Wednesday, June 7.
- BOSTON, Wednesday, September 6.
- WORCESTER, Thursday, September 7.
- SPRINGFIELD, Wednesday, October 4.
- PITTSFIELD, Thursday, October 5.
- BOSTON, Wednesday, November 1.
- LOWELL, Thursday, November 2.
- BOSTON, Wednesday, December 6.
- NEW BEDFORD, Thursday, December 7.
- NEW BEDFORD, Friday, December 8.

Rules for Examinations.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined either for a Master or Journeyman Certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examinations will be held and only those so notified will be examined on that day.

STEPHEN C. GARRITY,
JULIUS E. WARREN,
ULYSSES J. LUPINI,
BERTRAM L. WHITEMORE,
SAMUEL J. DONNELLY,
State Examiners of Electricians.

For application blanks or other information apply to State Examiners of Electricians, Room 406, 15 Ashburton place, Boston, Mass.

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

FREE SERVICE TO EMPLOYERS AND APPLICANTS.

CITY OF BOSTON.

BOSTON TRAFFIC COMMISSION.

CHANGES IN TRAFFIC REGULATIONS.

Voted, That the Revised Traffic Rules and Regulations of the City of Boston are amended as follows, effective March 13, 1944:

Section 24, Part 1 (One-way Streets), is amended by striking out the following: St. Stephen Street, Roxbury.

From Massachusetts avenue to Gainsborough street.

Section 24, Part 1 (One-way Streets), is amended by adding the following: St. Stephen Street, Roxbury.

From Public Alley No. 801 to Gainsborough street.

Section 35 (Left Turns Prohibited) is amended by adding the following: Nashua Street, Boston Proper, South-bound.

Into the archway of the Hotel Manger, from 4 p. m. to 6 p. m., when signs are in place.

Section 36 (Right Turns Regulated) is amended by adding the following:

(10) The driver of a vehicle proceeding in a northeasterly direction in St. Stephen street, Roxbury, upon reaching its intersection with Massachusetts avenue, shall, if proceeding, drive into Massachusetts avenue southeasterly and in no other direction.

(11) The driver of a vehicle proceeding in a westerly direction in Causeway street, upon reaching its intersection with Nashua street, shall, if proceeding, drive into Nashua street northerly and in no other direction, from 4 p. m. to 6 p. m., when signs are in place.

WILLIAM P. HICKEY,
Commissioner.

(March 4-11.)

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING GROUNDWOOD-SULFITE WRITING PAPER IN PACKAGES AND BLOCKS FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at the several school buildings, in accordance with orders, groundwood-sulfite writing paper in packages and blocks. Proposal forms, for which a charge is made, are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Groundwood-Sulfite Writing Paper." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check in the amount of at least 5 per cent of the total bid, payable to the City of Boston, must be left at the office of the Business Manager on or before 12 o'clock m. on Wednesday, March 15, 1944. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The School Committee reserves the right to reject any or all bids, and to accept such bid or part of bid as may be deemed best for the interests of the city. The successful bidder will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(March 4.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING SURGICAL SUPPLIES AND NEEDLES (SURGICAL AND HYPODERMIC).

The Supply Department of the City of Boston invites proposals for furnishing surgical supplies and needles (surgical and hypodermic), as required, for city departments. The bidder must use the form of proposal to be obtained at the office of the Superintendent of Supplies, Room 1001, City Hall Annex, and the successful bidder must furnish a bond for one half the total estimated amount of the bid with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. *There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out.* The bid, with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out, must be left at the office of the Superintendent of Supplies, before 12 m., on Tuesday, March 14, 1944, at which time and place they will be publicly opened and read. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and marked "Proposal for Surgical Supplies."* The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

FRANCIS X. LANG,
(March 4.) *Superintendent of Supplies.*

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING PAPER, BLANK BOOKS, NOTEBOOKS AND ENVELOPES FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at the Supply Room, 440 Brookline avenue, Boston, paper, blank books, notebooks and envelopes as per schedule. Proposal forms, for which a charge is made, are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Paper, Blank Books, Notebooks and Envelopes." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check in the amount of 5 per cent of the total bid, payable to the City of Boston, must be left at the office of the Business Manager on or before 12 o'clock m. on Monday, March 20, 1944. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The School Committee reserves the right to reject any or all bids, and to accept such bid or part of bid as it deems best for the interests of the city. The successful bidder will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about ten hundred nine (1,009) square feet of land, with the buildings thereon, on the northeasterly side of Northfield street, Boston, numbered forty-six (46) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5612, page 246, on Tuesday, March 7, 1944, at 10 a. m., on the premises, at a minimum price of four hundred dollars (\$400).

A deposit required at the time and place of sale of one hundred dollars (\$100), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
(Feb. 26-March 4.) *Chairman.*

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about eleven hundred fifty (1,150) square feet of land, with the buildings thereon, on the northerly side of Fairbury street, Roxbury, numbered twenty-eight (28) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5612, page 310, on Tuesday, March 7, 1944, at 11 a. m., on the premises, at a minimum price of two hundred dollars (\$200).

A deposit required at the time and place of sale of fifty dollars (\$50), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
(Feb. 26-March 4.) *Chairman.*

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR PAINTING THE INTERIOR AND EXTERIOR AND FIRE ESCAPES AT THE PRINCE SCHOOL, EXETER AND NEWBURY STREETS, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority invites sealed proposals for painting work at the school as listed above.

Proposals will be received until 12 o'clock noon, Wednesday, March 15, 1944, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Tuesday, March 7, 1944, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be the public interest so to do.

JAMES J. MAHAR,
(March 4.) *Superintendent of Construction.*

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 36.

SATURDAY, MARCH 11, 1944.

No. 11

BUILDING DEPARTMENT, IN PROGRESSIVE SURVEY, REPORTS FINDING 624 STRUCTURES UNSAFE FOR RESIDENCE OR BUSINESS, OR IN DILAPIDATED OR DANGEROUS CONDITION, COMMISSIONER JAMES H. MOONEY MAKES REPORT TO MAYOR TOBIN — 552 OF THE BUILDINGS INCLUDED IN REPORT FOUND TO BE VACANT — RECOMMENDATION MADE THAT 261 BE RAZED AND 363 BE BOARDED UP SO AS TO PREVENT POSSIBLE VANDALISM.

Building Commissioner James H. Mooney has reported to Mayor Tobin a total to date of 624 buildings in the city that are in such condition as to warrant either razing or boarding up so as to safeguard the city from the hazards of fire and other menaces. Of this number it has been found by the agents of the commissioner who are conducting the survey of the city that 552 are vacant structures. The report thus made is one of progress only and as the supervisors continue their work more structures will be found to be menaces to health, hazards or nuisances and will have to either be razed or occupancy prevented.

Of the 624 structures thus far reported on, razing has been recommended for 261 and boarding up for 363. The survey is aimed to take in all types of structures, residential and business, that are in a dilapidated, unsafe or dangerous condition.

In conducting the survey the commissioner issued the following bulletin of instruction.

COMMISSIONER'S BULLETIN No. 138.

Subject: Survey of Buildings of All Types — Residential and Business — that are in a Dilapidated, Unsafe and Dangerous Condition.

To Supervisors Keohane and O'Flaherty and Inspector Blain.

Immediately the construction supervisors shall arrange to conduct a survey throughout the city to determine the number of buildings, both residential and business, that warrant condemnation proceedings or that are in such dilapidated condition that they will, through deterioration or vandalism, become unsafe and dangerous.

Catalogue separately by street, number and ward:

- (a) Buildings found to be unsafe or dangerous and requiring immediate attention.
- (b) Buildings found to be dilapidated and unfit for occupancy which, through deterioration or vandalism, may become unsafe and dangerous.

State the type of building, such as, one, two or three family wood dwelling, garage, store, office building, etc.

Inspectors will report daily to supervisors the complete cataloguing of the previous day's work so that the entries of final day's work in catalogue will complete the list of each district.

It is understood that Mr. Keohane and Mr. O'Flaherty will arrange for each construction inspector to make the survey in his respective district; however, where the district is so large that inspection by one individual might delay completion of the survey they will be privileged to assign additional men to assist in this work. Before assignment of other men they should discuss the matter with the commissioner.

Also it is understood that Mr. Josephat C. Blain will study the reports submitted each day and ascertain whether or not each respective building reported is city-owned or privately-owned, and obtain the ownership so that legal proceedings may be instituted.

The information above requested is desired by the City Council and for this reason all persons assigned to participate in making the survey must devote as much time as possible to it, as report must be forwarded to the City Council within two weeks from this date.

JAMES H. MOONEY, *Building Commissioner.*

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

PUBLIC WORKS COMMISSIONER GEORGE G. HYLAND MOVES TO HAVE BOSTON STREETS BETTER LIGHTED—WRITES LETTER TO EDISON COMPANY REQUESTING THAT DIMOUT SHIELD BE REMOVED FROM APPROXIMATELY 5,200 LAMPS IN CITY STREETS—BOTH 80 AND 250 CANDLE-POWER LIGHTS TO BE AFFECTED.

Boston is to be entirely freed from all dimout experience in the very near future, according to announcement from the office of the Public Works Commissioner, George G. Hyland. Commissioner Hyland has addressed a letter to the Boston Edison Company, requesting that all exterior dimout shields be removed from the 80 candle power and the 250 candle power located in the city. The request will affect approximately 5,200 lamps in the city.

The communication to the Edison Company reads as follows:

BOSTON, March 9, 1944.

BOSTON EDISON COMPANY, 39 Boylston Street, Boston, Mass.

Attention Mr. Edgar F. Stevens, Municipal Sales, Power Sales Division.

DEAR SIRs,—In my opinion, public safety necessitates the removal of all exterior dimout shields from all 80 candle power and 250 candle power lamps that are located in the various streets in this city.

Most of the latter-referenced types of lamps are located on the residential streets, and I feel that in the interests of pedestrian safety, these streets should be given the full benefit of all available street lighting facilities.

In view of this, as stated above, it is my opinion that all outside shields should be removed, as the restoration of dimout requirements is extremely remote.

The removal of these shields will be done with the understanding that I will accept full responsibility for such action, in the event that the dimout regulations are ordered restored by Federal authorities.

Yours very truly,

GEORGE G. HYLAND,
Commissioner of Public Works.

POLICE DEPARTMENT ORDERS.

General Order No. 85.

Acting under provisions of chapter 521, Acts of 1922, as amended, creating the Contributory Retirement System, the Boston Retirement Board has notified this department that it has approved for retirement on account of accidental disability, the following-named police officers, members of said Contributory Retirement System, to take effect at the close of business Friday, March 31, 1944.

Wherefore, In view of this operation of law the Police Commissioner states that on and after March 31, 1944, at the hour stated, the said police officers shall no longer be active members of this department, and it is hereby ordered that its records be so amended.

Patrolman Walter G. Jones, Division 4.
Patrolman William F. Hemsworth, Division 16.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

MAYOR TOBIN PRESENTED WITH PORTRAIT OF HIMSELF BY NOTED ARTIST.

On Tuesday, March 7, Mayor Tobin was presented with a large-sized portrait of himself done by Private Kenneth Huie, a Chinese air student attached to the First Training Section, United States Army Air Corp, Drew Field, Florida. In the absence of Private Huie, the presentation was made on his behalf by Harry Chin, a former employer of Private Huie.

On Private Huie's last visit to Boston a number of months ago, he presented to Wellesley University a portrait of Madame Chiang Kai-shek, which he had done. His work is done with chalk with the finger tips and brushes are not used. His spare moments at Drew Field have been utilized for work on portraits. It took him about five months to complete the picture of the Mayor. He had never seen the Mayor and his work was done solely by a photograph which was presented to him.

EXTENSION OF CONTRACT.

FIRE DEPARTMENT.

An extension of time for the performance of the contract with the American La France Foamite Corporation for rebuilding Ladder Truck 8 to February 19, 1944, has been approved. The contract was approved by your Honor on July 13, 1943, and should have been completed January 5, 1944.

This extension of time is necessary because of the fact that the American La France Foamite Corporation is doing a great amount of work for the Army and Navy which must be given preference over work for cities, towns, etc. The actual rebuilding was completed February 1 and the truck is now in the process of having various accessories and equipment attached to it. The truck will then be given its final test before shipment to Boston.

FIRE DEPARTMENT ORDERS.

General Order No. 14.

I. CHAPTER 143, GENERAL LAWS, SECTION 3A.

Laws relating to the erection, alteration, inspection, and use of buildings, General Laws, chapter 143, as amended by chapter 694, Acts of 1941, and chapters 544 and 546, Acts of 1943.

Copies of the above-mentioned law have been distributed to the officers and inspectors of the department. They are ordered to make a very thorough study of this law in order that they may properly carry out any duties that apply to the Fire Department.

On Tuesday, March 7, in accordance with section 3A of chapter 143, the Building Commissioner and Fire Commissioner, acting jointly, will send out a special detail of five men each, for the express purpose of locating premises coming within the scope of this act. The five building inspectors will start in South Boston and the five inspectors from the Fire Prevention Division will start in East Boston.

In order to augment this work, all officers and inspectors when making regular inspections shall make a written report in duplicate on Form 12A. These reports are to be in addition to any other information required by standard forms now in use.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

General Order No. 15.

I. ASSIGNMENTS.

The following assignment of a provisional military substitute for fireman, which became effective as of 8 a. m., Thursday, March 2, 1944, is hereby announced:

Frederick M. Dolan to Engine Company 6.

The following assignment of a provisional military substitute for fireman, which will become effective at 8 a. m. Wednesday, March 8, 1944, is hereby announced:

Joseph M. Dowd to Ladder Company 4.

(Continued on page 215.)

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

SUPPLY DEPARTMENT.

Upon March 2 the Mayor approved a contract with lowest bidders as indicated for furnishing toilet paper, etc., for the city departments, as required, from February 1, 1944, to April 30, 1944. The approximate totals of awards were as follows:

Fort Hill Paper Company, \$2,493.75; Carter, Rice & Co. Corporation, \$960. Total, \$3,453.75.

Bids, opened January 31, were as follows:

200 Cases Oval Toilet Paper, 100 Rolls to Case, as Per Specifications, Per Case.—Merit Paper and Chemical Corporation, \$5.39, subject to acceptance of bidder's mill; Carter, Rice & Co. Corporation, \$4.80,* No. 902; Stone & Forsyth Company, \$7.40, one case shipment; \$6.25, two to four case shipment; \$5.80, five to nine case shipment; \$5.65, ten to twenty-four case shipment; \$5.55, twenty-five cases and over.

50 Cases Interfolded Toilet Paper, Single Interfold, 1,000 Sheets to Package, 100 Packages to Case, Per Case.—Merit Paper and Chemical Corporation, \$5.69; Fort Hill Paper Company, \$5.35*; Carter, Rice & Co. Corporation, \$5.90, No. 810; Stone & Forsyth Company, \$5.74.

150 Cases Interfolded Toilet Paper, Double Interfold, 1,000 Sheets to Package, 100 Packages to Carton, Per Case.—Merit Paper and Chemical Corporation, \$6.19; Fort Hill Paper Company, \$5.85*; Carter, Rice & Co. Corporation, \$6.10, No. 8; Stone & Forsyth Company, \$6.28.

325 Cases Round White Toilet Paper, Double Interfold, 1,000 Sheets to Package, 100 Packages to Carton, Per Case.—Merit Paper and Chemical Corporation, \$4.79, 2,000 sheets to package, 50 packages to carton; Fort Hill Paper Company, \$4.15,* rolls, 4½ by 4½; Carter, Rice & Co. Corporation, \$4.85, rolls, No. 508.

600 Cartons Interfolded Paper Towels, Approximately 10 Inches by Fifteen Inches, 3,750 Towels to Carton, Weight Approximately 3½ Pounds.—No bids.

150 Cartons Single Fold Paper Towels, Ten and One Half Inches by Ten Inches.—No bids.

Cash Discount, Ten Days.—Merit Paper and Chemical Corporation, 2 per cent; Fort Hill Paper Company, 2 per cent; Carter, Rice & Co. Corporation, 2 per cent, thirty days; Stone & Forsyth Company, 2 per cent.

* Contract awarded.

Upon March 6 the Mayor approved a contract with lowest bidders as indicated for furnishing hay, grain, straw, etc., for the city departments, as required, during February, 1944. The approximate totals of awards were as follows:

George H. Parker Grain Company, \$2,804; John J. White Company, \$740.50; L. E. Page, Inc., \$630. Total, \$4,174.50. Bids, opened January 21, were as follows:

40,000 Pounds Hay, No. 2 United States Timothy Only, Per Hundredweight.—L. E. Page, Inc., \$1.575*; John J. White Company, \$1.69.

10,000 Pounds Oats, No. 2, Per Hundredweight.—John J. White Company, \$3.58.*

1,000 Pounds Rye Straw, Per Hundredweight.—John J. White Company, \$2.50.*

1,000 Pounds Oat Straw, Per Hundredweight.—John J. White Company, \$1.50.*
2,000 Pounds Bran, Per Hundredweight.—John J. White Company, \$2.75.*
500 Pounds Cracked Yellow Corn, No. 2, Per Hundredweight.—John J. White Company, \$3.50.*

400 Pounds Sunflower Seed, Per Hundredweight.—John J. White Company, \$30.*

4,000 Pounds Cracked Oats, Per Hundredweight.—John J. White Company, \$3.75.*

30 Tons Beacon Broiler Ration, Per Hundredweight.—George H. Parker Grain Company, \$78.90 per ton.*

5 Tons Beacon Starter Ration, Per Hundredweight.—George H. Parker Grain Company, \$87.40 per ton.*

Cash Discount, Ten Days.—George H. Parker Grain Company, 2 per cent; John J. White Company, 1 per cent; an allowance of ten cents per hundredweight will be made for any merchandise taken at bidder's warehouse.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, commercial houses, etc., for supplies, labor, etc. Communications from the heads of the departments interested were as follows:

INSTITUTIONS DEPARTMENT.

Boston, February 23, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—On Friday and Saturday, February 10 and 11, 1944, considerable damage was done to the front wharf at Long Island in the docking of steamers at that time because of wind, gale and stormy weather, resulting in breaking of pile clusters, separators, bolts, etc.

It is necessary that this wharf be repaired at the earliest possible opportunity. By mail an estimate has been received from James B. Rendle Company, 1 Salem street, Malden, in the sum of \$1,470 (one thousand four hundred seventy dollars) for this work. The Roy B. Rendle Company, 364 Border street, East Boston, has declined to bid at this time of year, as well as other concerns.

Since time is the essence in this emergency, I feel the best interests of the city would be served by issuing an order in this amount to the James B. Rendle Company without the usual form of advertising and I respectfully request your approval of said order.

HUGH J. CAMPBELL,
Commissioner.

PUBLIC WORKS DEPARTMENT.

Boston, February 8, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—This department owns four sixteen-ton gas rollers, three sixteen-ton steam rollers, two six-ton tandem gas rollers and seven two-ton sidewalk gas rollers, all of which are used on roadway and sidewalk construction and reconstruction work that is done by department forces.

It has been the policy of the department to have the necessary repairs on these rollers made by the manufacturer, namely, the Buffalo-Springfield Roller Company, because the repair work has

CONTRACTS AWARDED WITHOUT ADVERTISING.

(Continued from page 213.)

been most satisfactory and nothing would be gained by having the repairs done at some other shop that would, in turn, have to obtain the parts from the Buffalo-Springfield Roller Company. The repair work for the current year will exceed \$2,000 and probably will be in the vicinity of \$4,000 and, in view of this, it is necessary for the department to obtain your permission to award a contract, without advertising.

I respectfully request, therefore, that you approve the award of a contract, without publicly advertising for bids, and for reasons as outlined in this communication, to the Buffalo-Springfield Roller Company of 296 Binney street, Cambridge, in the amount of \$4,000, for repairing sidewalk and road rollers that are owned by the department and which will have to be repaired during the current year.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

COMMISSION FOR THE CARE, CUSTODY AND CONTROL OF THE SUFFOLK COUNTY COURT HOUSE.

BOSTON, February 23, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Because of the satisfactory service rendered over a period of years by the W. C. Holmes Cleaning Company of Boston, in supplying window cleaning service to the Suffolk County Court House, the Court House Commission believes that it would be for the best interest of the City of Boston and the County of Suffolk to continue this service with the W. C. Holmes Cleaning Company for the fiscal year 1944, and requests your authority for awarding a contract, without advertising, to the W. C. Holmes Cleaning Company for the calendar year 1944, on the basis of cleaning about 1,700 windows and transoms three times per year for the sum of \$1,875, and/or four times per year for the sum of \$2,400.

The aforesaid company carries the required Public Liability and Workmen's Compensation with the Employers' Liability Assurance Company, Limited, of Boston.

The W. C. Holmes Cleaning Company has the necessary equipment and the "know-how" to perform this service with the least possible disturbance to daily functions at the Court House.

Cordially yours,

COMMISSION FOR THE CARE, CUSTODY AND CONTROL, SUFFOLK COUNTY COURT HOUSE,

by ARNO I. DREW, Chairman.

MUNICIPAL COURT OF THE SOUTH

BOSTON DISTRICT.

BOSTON, February 5, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—In accordance with chapter 156 of the Acts of 1939, I herewith furnish you with signed statement giving in detail the reasons for not inviting bids by advertisement for the transportation of prisoners to and from the South Boston Municipal Court for the year 1944:

1. The physical condition of some prisoners, both men and women, demand responsibility of operator as well as immediate transportation.

2. This work has been done satisfactorily for several years by present operator, who is available for the year 1944.

3. Prices charged and to be charged are reasonable.

4. Although impossible to estimate exactly, average cost per year is about \$1,300.

Respectfully submitted,

LEO H. LEARY, Justice.

BOSTON, February 5, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—In accordance with chapter 156 of the Acts of 1939, I write to ask if you will grant me the written authority to dispense with advertising in the City Record proposals for bids for the transportation of prisoners to and from the South Boston Mu-

municipal Court for the year 1944. The proposed charges for transportation are as follows:

One prisoner to or from boat or jail, \$2; two prisoners to or from boat or jail, \$3.50; three prisoners to or from boat or jail, \$3.50; four prisoners to or from boat or jail, \$4; five prisoners to or from boat or jail, \$4.50.

One trip can accommodate five prisoners.

I inclose a signed statement which may be published in the *City Record*, giving in detail the reasons for not inviting bids by advertisement.

Yours respectfully,

LEO H. LEARY, *Justice.*

FIRE DEPARTMENT ORDERS.

(Continued from page 211.)

II. PROMOTIONS.

The following promotions, which will become effective at 8 a. m. Wednesday, March 8, 1944, are hereby announced: Capt. Walter E. Crouch, Ladder 12, to district chief (M. S.).

Lieut. Gerald F. Keenan, Engine 28, to captain (M. S.).

Lieut. William F. Dewan, Ladder 3, to captain (M. S.).

Lieut. Philip J. Flynn, Ladder 30, to captain (M. S.).

Lieut. John F. McGloan, Engine 28, to captain (M. S.).

III. TRANSFERS.

The following transfers, which took effect at 8 a. m. Thursday, March 2, 1944, are hereby announced:

Lieut. Gerald F. Cremin, from Engine 26 to Engine 19.

Lieut. (M. S.) Francis J. Maloney, from Engine 6 to Engine 26.

The following transfers, which will take effect at 8 a. m. Wednesday, March 8, 1944, are hereby announced:

District Chief (M. S.) Walter E. Crouch, from Ladder 12 to District 9.

Captain John J. McHugh, from Ladder 27 to Ladder 12.

Captain (M. S.) Gerald F. Keenan, from Engine 28 to Engine 34.

Captain (M. S.) William F. Dewan, from Ladder 3 to Engine 37.

Captain (M. S.) Philip J. Flynn, from Ladder 30 to Engine 17.

Captain (M. S.) John F. McGloan, from Engine 28 to Ladder 27.

Lieut. John T. Buckley, from Engine 14 to Ladder 12.

IV. RESIGNATION.

The following resignation, which will become effective at 8 a. m. Wednesday, March 8, 1944, is hereby announced:

Provisional Military Substitute Francis X. McCormick of Ladder Company 4.

V. NEW FIRE ALARM BOX.

A new fire alarm box, 12-2794, will shortly be installed in the United States Veterans' Hospital, 1400 Veterans of Foreign Wars Parkway, West Roxbury. The box will be located in the telephone office on the first floor of the Administration Building. The box will be connected into Circuit No. 13 and assignment cards should read as follows:

12-2794, United States Veterans' Hospital, Veterans of Foreign Wars Parkway.

Ladder Company 10 check asterisk (*) on assignment card so company will respond.

VI. A. D. T. ASSIGNMENT.

The following signal number is to be added to the running cards of the American District Telegraph Company in this department:

Signal 491, Babson Dow Manufacturing Company, Inc., 60 Fulda street and 21-45 Vale street and rear. (Sprinkler.) Apparatus to respond: Engine 14, Ladder 30, District Chief 8. Nearest box is 2267.

VII. COMMENDATION.

Ladderman Thomas J. Clark of Ladder Company 27 is hereby commended for responding to and working at fire, Box 3521, February 29, 1944, while off duty.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

SEA-GOING DRY DOCKS.

Bigger than a battleship! That's the rough proportion of some of the new Navy floating dry docks which can be towed or self-propelled at speeds sufficient to follow our fleet into action. Indeed, the dry docks are large enough to handle even a mighty battleship when it needs repairs or overhauling.

Never before have floating dry docks been built so large, taken so far. Never before have docks of this character been so mobile. The Navy has spent upward of \$300,000,000 on their floating dry dock program and it has been a shrewd investment. Now, instead of damaged warships traveling the thousands of miles from the theaters of action to an American coastal dry dock for repairs, it can be placed in a floating dry dock on the spot in a matter of hours, thus saving precious time.

PROCEEDINGS OF CITY COUNCIL.

Monday, February 28, 1944.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. Hurley, Russo, Scannell and Taylor.

The meeting was opened with the salute to the Flag.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments, viz.:

Weights of Coal: Gertrude Ballem, 33 Monmouth street, East Boston, Mass.; Helen VanWart, 114 Chestnut Hill avenue, Jamaica Plain, Mass. Severally laid over a week under the law.

TRANSFER FROM PARKMAN FUND IN-COME.

The following was received:

City of Boston,
Office of the Mayor, February 28, 1944.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of \$28,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, February 23, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$28,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... \$28,000

When making up the budget estimates for the year 1944, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1944, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
FRANK R. KELLEY,
Acting Chairman.

Ordered, That the sum of \$28,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887, Maintenance and Improvement of..... \$28,000

Referred to Committee on Parkman Fund.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Earle T. Cheney, for compensation for injuries caused by an alleged defect in Nashua street.

Charles Connors, to be reimbursed for execution issued against him.

Mary G. Donahue, for compensation for injuries caused by an alleged defect at Peters and East Sixth streets.

Salvatore T. Falcone, for compensation for damage to car caused by faulty curbstone at 297 Kittredge street, Rosindale.

Elizabeth Felty, for compensation for injuries caused by an alleged defect at 799 Boylston street.

Mark J. Flaherty, for compensation for damage to car while being used for police duty.

William F. Frieburger, to be reimbursed for execution issued against him.

William F. Frieburger, to be reimbursed for execution issued against him.

William F. Frieburger, to be reimbursed for execution issued against him.

Sarah L. Karnow, for compensation for damage to car and injuries caused by city car.

Robert B. Osgood, M. D., for compensation for damage to car by snowplow.

Lena Spectre, for compensation for damage to property at 9 Linden street, Dorchester, caused by break in water main.

Committee on Licenses.

Petition of Morgan Memorial Co-operative Stores and Industries, Inc., for driveway opening at 41 Kirkland street, Ward 5.

RECLASSIFICATION OF POSITIONS IN WELFARE DEPARTMENT.

A communication was received from Ulysses J. Lupien, Director of Civil Service, in regard to reclassification of positions in the Welfare Department.

Later in the session the letter was read in full by the clerk.

The communication was referred to the Committee on Public Welfare.

PAYMENTS TO SURVIVORS OF CERTAIN DECEASED CITY EMPLOYEES.

Coun. KINSELLA offered the following:

Ordered, That the Corporation Counsel be requested, by his Honor the Mayor, to investigate the legality of paying the survivors of deceased city employees for overtime work for which the deceased worker was never paid or given time off.

Coun. KINSELLA—Mr. President, this order was inspired by the fact that there are survivors of recently deceased city employees who at the time of their death had accumulated overtime work for which they have never been compensated in money or time off. This morning I consulted with one of the department heads who said that a lot of this obligation had accumulated. I believe, therefore, that the survivors of deceased city employees who had never been paid or given time off for overtime work should, in simple justice, receive what was due the employees before their deaths. Where the employees were entitled to compensation or time off, and did not receive it, their survivors should be entitled to something, particularly as I understand that quite an amount has accumulated in this way. I certainly trust that the order will be passed and, if legal, that the survivors will be paid for the overtime work the amount due the deceased employees. Therefore, I trust that the order will be passed under suspension of the rule.

The order was passed under suspension of the rule.

PAYMENT TO DEPENDENTS OF CITY EMPLOYEES IN ARMED SERVICES.

Coun. KINSELLA offered the following:

Ordered, That his Honor the Mayor be requested to confer with the City Auditor, the Corporation Counsel and the Budget Commissioner for the purpose of establishing the legality and practicability of paying to the dependents of city employees who go into the armed services the \$200 Emergency Allotment granted by his Honor the Mayor one year ago.

Coun. KINSELLA—Mr. President, we have a situation in Boston with regard to municipal employees that should be seriously considered at this time. We have young married men with several children, and in some cases only a wife, who have been totally dependent on their earnings as city employees, and when they have gone into the service the wife gets only a pittance and the husband at the present time is removed from the municipal pay roll. While this may seem a radical departure, it seems to me that if the \$200 were paid to the dependents of the employees who have gone into or who may go into the armed services, the \$16.67 per month would do a great deal in the way of helping them to get along in the absence of the husband, son, brother or father in the armed services.

The order was passed under suspension of the rule.

REPRESENTATIVE OF GENERAL PUBLIC ON INSURANCE BOARDS OF DIRECTORS.

Coun. KERRIGAN and KINSELLA offered the following:

Ordered, That the Corporation Counsel, through his Honor the Mayor, be instructed to prepare, for presentation to the next General Court, a bill whose purpose is to require, by law, the admission to membership on the Boards of Directors of insurance companies of at least one member, on each Board of Directors, whose place on the Board would be that of a representative of the general public.

Coun. KINSELLA—Mr. President, with the Chair's permission, I would like to recount the circumstances under which this order was motivated. Several weeks ago the President of this Body and myself attended a dinner to the new Corporation Counsel, which was followed by a discussion of several hours. Among others, ex-Mayor Fitzgerald was present, and it was brought out that the insurance companies produce a profit of \$12,000,000 a month, or \$144,000,000 a year, and that there is no outlet for the use of that money, and ex-Mayor Fitzgerald offered it as his opinion that the general public was not properly recognized or represented on the boards of directors of the insurance companies. While

I am a believer in free enterprise, I do feel that under the circumstances the public should be represented in such a situation as this, although at the present time it is not represented. I trust that the order will be passed.

The order was passed under suspension of the rule.

DE-RATTING OF BUILDINGS BEFORE DEMOLITION.

Coun. KINSELLA offered the following:

Ordered, That the Corporation Counsel be instructed by his Honor the Mayor to draft, for presentation to the next General Court, appropriate legislation that will require the de-ratting of all buildings, both publicly or privately owned, before demolition work on those buildings is instituted.

Coun. KINSELLA—Mr. President, I want to give credit to Councilor Scannell for having introduced a similar order four years ago, when we had a debate upon this matter. I don't want to detract from the efforts made by any man in this or other matters. But in 1941 I tried to initiate action as a member of the General Court, looking to the same end. I would have carried the matter farther along in the Legislature, but I did not go back to the Legislature in 1943, and the matter had escaped my mind until recently, when I have received complaints about damage that rats have done to children and others in Boston. Of course, everybody knows about the damage done by rats not only during the night, but during the day in any section of our city where there is the menace from these old rat-infested buildings. I heard a story this last week where a rat bit a child's thumb, and where the child had to be taken to the hospital and the rat's jaw broken in order to release it. There is nothing humorous in this matter, because we know the damage that rats do every year. There are other dangers, as everybody knows, from rats. And the number of rats is increasing in this city and in the country at large. Some of our troops coming back from the South Pacific are bringing with them rats. They come back in the ships, and they have means of getting ashore. We know how prolific the rats are, that one pair can be responsible for as many as four million others in one year. Therefore, in the interest of the public health, I believe every member of the Body should bring whatever pressure he can to bear on the solution of the problem. I am not speaking particularly of the property damage, because what I am particularly concerned with is the threat to our lives and our health. I believe that we should all work for legislation, for example, which will require every public or private owner to get the rats out of buildings. We all know that when a building is demolished the rats go to the next house and carry with them death and disease and recreate themselves in large numbers. Certainly the rats are a great menace to the whole community, and we should do everything we can to get rid of them. I trust, therefore, that the order will be passed under suspension of the rule.

Coun. CHASE—Mr. President, this order is a very good one, and I sympathize with it. On several occasions in the past I have introduced similar orders. If I remember correctly, two years back I spoke in favor of a W. P. A. project looking to the destruction of rats in my neighborhood and other neighborhoods. There is no question that rodent life in this city is one of the most serious menaces with which we are faced, because rats are to be found in every congested district and particularly in old buildings. I don't know why our municipal authorities have not seen fit to tackle this problem from a logical standpoint. As I understand it, the Health Department has just one rat exterminator, who spends practically all his time down around the wharves, endeavoring to de-rat the waterfront. There is in my section a railroad terminal, the Boston and Albany freight yard, from which the rats overrun every section of the Back Bay. They have infested practically every house, and I don't know of any efforts that the City of Boston has made to dislodge them. I submit to you that the Health Department is very careful to take preventive action against the various diseases, particularly looking after restaurants and that sort of thing, but, sir, one of the many really active sources of disease is rodents. It is a known fact that rats carry disease. Only a short time ago one of the councilors from Dorchester called attention to the fact that a rat had attacked a small child, injuring his face, arms and body. I myself know of a case a few months ago where a young housewife was scared and fell down a stairway leading to the street because of a large rat running around in the hallway. She got in touch with the Health Department, and a representative of the Health Department the next day saw the property owner of the house and insisted that the property owner take adequate steps to rid the house of rodents. That is only one house among many thousands in the City of Boston. We assume that the property owner went to the pains of complying with the wishes of the Health Department and clearing that particular house of rats. But that is simply one case out of many. How about the other houses in Boston? I know that there are many houses in my section, and in Ward 5 and Ward 3, as well as in many other sections of the city, where this menace exists. What pains has the Health Department taken to rid those

other houses of rats? I have no intention of condemning the Health Department because they have not adopted adequate means dealing with this matter. I merely say that the city fathers and city officials have not tackled the problem in the right way. You must go to the sources of the trouble, and the only thing to do is to destroy rodent life. And how can you destroy it by simply dealing with a house here or there, when you have practically every house in an area affected? There is only one way of tackling the problem, and that is by creating a rodent exterminating committee or board which will adopt scientific means of relieving the city of rodents. It cannot be done in any other way. The proof that this menace is rampant is the number of rodent exterminators that you see in the telephone book. Thousands of dollars are spent annually in New York to deal with this problem, appointing men whose business it is to de-rat houses and areas. That has been done in New York for some years, and we have as serious a problem here as you will find anywhere. As I say, it is farthest from my thought to seriously criticize the Health Department, but I do think this is a matter that should be tackled in earnest. I hope the Mayor will recognize the evil and will furnish experts who know how to de-rat houses and areas. Such action will bring in substantial returns from the standpoint of economy and health, and it is a matter which should be taken up at once in Boston and in the metropolitan area. Therefore, I trust, sir, that our city fathers will endeavor to take every possible measure to rid the city of this terrible menace.

Coun. CAREY—Mr. President, I am heartily in sympathy with the purposes of the order, and with the purposes that it is desired to attain, but I am wondering about the desirability of a resort to the Legislature, when we have only a special session this year which cannot take up things not particularly assigned to it and when we would have to look forward for legislative results to next year's regular session. I recall the demolition of houses in my district some years ago. The debris from those houses was carried to a considerable distance, and the result was a spreading of this rodent menace. For many months the danger to the lives of adults and children was such that one dare not go on the street at night, or hardly during the day. I think in the meantime the Health Department take necessary precautions, as I understand that there is to be \$125,000 supplied in this year's budget to deal with the demolition of buildings, and that this year there are 167 buildings in such condition that they should be demolished. No doubt the razing of these buildings will again increase the rat menace, and I believe that the Health Department, before action can be taken by the Legislature, should be asked to do some de-ratting, so that the menace from the razing of these buildings may be to some extent at least done away with. I am in hearty accord with the order, but I suggest that the Health Department in the meantime be requested to take care of the situation in any houses that may be razed.

Coun. KINSELLA—Mr. President, I desire to speak just briefly. With regard to Councilor Carey's suggested amendment, I am reminded of Councilor Chase's statement that the Health Department has but one rat man. Obviously, he cannot do it all by himself. I suppose that if at the proposed special session of the Legislature they will not consider anything that is not specifically outlined in the call for the session, there is nothing we can do until the next regular session. But I do feel that the Committee on Public Health should consider a proposed bill on its merits, and I trust that in the meantime something may be done to deal with the rodent menace. It may be that nothing of an extraneous nature can be considered at the special session of the Legislature this year, but I do trust that something can be done in some way having in mind the removal of this menace. I am sincerely in favor of anything by which the proposed action may be carried out. The order was passed under suspension of the rule.

CONDEMNATION OF PROGRAM, "RADIO NEWSREEL."

Coun. KINSELLA offered the following:

Resolved, That the Boston City Council, in meeting assembled, unanimously condemns the contents of the program, "Radio Newsreel," as presented by the Mutual Broadcasting Company, Inc., through its local station, on Monday night, February 21, 1944; and be it further

Resolved, That the Boston City Council deplores the gratuitous insult and castigation of a large portion of the citizenry of Boston who are loyal and patriotic Americans; and be it further

Resolved, That the Boston City Council expresses its abhorrence of such insult and castigation freely given for no other reason than to further the sale of a book, which is replete with lies and calumnies throughout, especially in those parts that refer to Boston; and be it further

Resolved, That the Federal Communications Commission, at Washington, D. C., be informed of the lax control by the Mutual System in the broadcasting of such programs that are designed, not only as advertising efforts, but as a means of holding up to public scorn, ridicule and contempt any segment of the population of any city, whose

views on any public issue do not coincide with the views of the program sponsor.

Coun. KINSELLA—Mr. President, I might say for the edification of the members of the Body who probably did not hear the program referred to, "Radio Newsreel," on Monday night, February 21, that I myself did not hear it over the air but heard of it a number of times Wednesday when I came into City Hall, Tuesday, being a holiday. I contacted the local station in Boston, and found that the broadcast originated in London, and was taken in New York by WOR and distributed to all of the Mutual Broadcasting network stations. Of course, the Boston station has to take what it gets, and I am not going to name it, because I don't want to do the station any harm. What I have in mind is simply the contents of the program, which was just intended to advertise a book of the "Under Cover" stripe. The title of this new book, for which this is a build-up, is "Assignment, U. S. A." These radio talks are on the order of "The March of Time," when the commentator takes people on a tour of different cities. The commentator reviewed the various American cities, among which was Boston, and when he reached Boston in his radio tour this is what he had to say about our city:

"City Councilor Michael L. Kinsella rose in his seat, on the floor of the City Council and said:—and I might say, as I have already stated, that I did not myself hear this broadcast over the air, but I heard of it 150 or 200 times from friends and acquaintances who listened to it. Referring to myself, the commentator said:

"Michael L. Kinsella said, in the Boston City Council: 'I believe in a certain form of isolationism. America should ring itself with steel and say to the rest of the world, "We are no longer interested in your petty quarrels. We will not fight for you, nor will we feed you."'

The commentator then said that this was indicative of the bigoted attitude of the Irish of Boston. "They are anti-Jew, anti-Roosevelt, anti-New Deal, anti-Russian." I don't know to what else they are anti, unless they are anti-Kinsella! Continuing further, he said:

"There are two kinds of Irish, the lace curtain Irish and the ignorant Irish, who have nothing, and who have been taught that poverty is a virtue and that it is a crime to acquire anything."

I rose from my seat on this floor several weeks ago and made a feeble, if honest, attempt to answer Walter Winchell, who called us a city of bums,—a city, Mr. President, that prides itself upon having in the armed services between 60,000 and 75,000 boys, coming from families that be maligned and characterized as bums. I have yet to find that high social standards must be met by those who are in the service of the armed forces of this country. I might say that the book in question, "Assignment, U. S. A.," was written by a man by the name of Menafee, who apparently is following in the footsteps of the gentleman who wrote "Under Cover," and who found the same evidences of all this anti-anti that his predecessor found. I wonder what his attitude would be if, instead of finding an overwhelming Irish population in Boston, he found that they were Swedish, Polish or French? I am tired of a good deal of the talk we hear about the preservation of free speech and of our democratic principles, when we are subjected to this sort of attack, particularly when one of the foundation stones of our government is the right to criticize, within just and reasonable limits, things we see going on around us that we don't like, and when those of the public who indulge in their right to properly express themselves are represented as anti-Semite, or anti-something else that is supposed to be disgraceful. Can you imagine a situation like this, that attempts to bridge free speech on the one hand and allows on the other such an advertising campaign, the purpose of which is to sell a book which disgracefully attacks the people of this city, who have given 50,000 of their own flesh and blood to the armed services in the present crisis, and yet I am "anti" if I don't agree with that sort of thing. I accept the appellation and prefer that I should be called such names rather than to hold the views of any such detractor who travels over the country, using funds derived from questionable sources and attempts to engender bigotry and hatred where it has not existed before. And I say, in justice to the poor people of Boston, whether they are Irish, Swedish, German or Italian, that they have proved their Americanism at all times in the history of this country and that it is outrageous that they should be publicly maligned over the Mutual Network in any such manner. I now tell you gentlemen that, in so far as that broadcast applies to me, I have already taken the proper legal steps. My interests in this matter are in the hands of a capable attorney, and I will not quit for a compromise or for anything else. If they want to fight, they will get a fight. They have been asking for it a long time, and now I am ready to tear the veil off. I will not temporize further. That is not characteristic of the type of people from whom I come. And that is final.

Coun. KEENAN—Mr. President, as a member of this Body who was born in Ireland, coming to this country with my parents at the age of two years and three months, I wish to say that I am certainly in accord with my colleague, Councilor Kinsella, and I think I can say for all the folks who have come from Ireland, including myself, that we are 100 per cent with people of every race and color in the City of Boston.

Coun. HANLEY—Mr. President, I would like to speak a little on Councilor Kinsella's resolution,

but I wish also to make a point prior to that. Can you inform me, Mr. President, why some of these people have come here today, and what magazine they represent?

President KERRIGAN—I gave them permission to come in, as I believed I had a right to do.

Coun. HANLEY—I realize that, Mr. President. President KERRIGAN—I believe they are here from "Life" magazine.

Coun. HANLEY—Mr. President, about one year ago I entered into debate on the side of my distinguished friend and colleague from Charlestown (Coun. Kinsella), and I recall the hypocrisy that was woven around the euphonious title of "World Federation of States." In that debate the councilor from Ward 2 (Coun. Kinsella) brought out most emphatically and without equivocation what America stands for, that the American sentiment is national and not international; and I remember the quotation by my colleague from one of our notorious commentators that was intended to jeopardize my colleagues and myself not only in Boston but throughout the length and breadth of the air waves. I refer to one who appears on the air from New York every Sunday, Walter Winchell, a former vaudevillian and hooper, who is now associated with the most degenerate journalism of all time, looking over the transom and through the keyhole, trying to besmirch all and sundry. He tries to stigmatize every man in public or private life whose opinions are opposite to his, besmirching reputations and trying to bring men into disrepute; and he referred to the members of this Body as "bums." To my mind, one of the greatest victories of this war was not won at Guadalcanal or any distant part of the world, but the greatest victory the American people have obtained was last week in the Congress of the United States, when Senator Barkley of Kentucky rose in the midst of the Senators and lacerated a highly-placed man, who, while supposed to be a servant of the people, has been trying to obtain for himself, by usurpation of the powers of the legislative branches of our country, a dominating position in the political life of our country. I refer specifically to Franklin Delano Roosevelt. The greatest victory the American people have achieved in this war was last week in the Congress of the United States, in over-riding the veto by the President of the tax bill. The name of the gentleman who helped to win that victory is not important. The important thing is that it was a great victory for the people. Senator Barkley probably was not motivated by political reasons. He knew full well that he would never be elected again Senator from Kentucky as long as he opposed the New Deal. But the fact was that he took his courage in his hands and did oppose the President in that matter of the tax bill. I believe Franklin Delano Roosevelt is making the same mistake that Woodrow Wilson made toward the end of his term of office, when he refused to collaborate with the legislative branch of our government. I wish to say to you, Councilor Kinsella, speaking as the member from Charlestown, that I consider it a great privilege to be honored by being in the same Body to which we have both been elected. I have considered it a privilege to be a friend of yours and associated with you since I have known you in private and public life. You sometimes reach certain heights and assail principles as well as certain men. You always stand for freedom of speech and freedom of opinion, and you realize, as I believe we all should realize, that America does not mean internationalism. America means nationalism. America means the Jew, the Protestant, the Catholic. America means every race in the world, under the Stars and Stripes. America means the same freedom for the colored man as for the white man; just treatment for the Negro, the only race in the world that did not come here of their own volition. I admire your courage, councilor, and I only hope that some day the power of your voice will be multiplied and extended in the hallowed halls of the Congress of America, and will be carried to the American people everywhere within the bounds of our great land, and beyond.

Coun. MUCHNICK—Mr. President, in much that has been said by Councilor Kinsella I have every reason to believe he is quoting the facts correctly; and I am happy to say that this past week I was joined with him and many of my colleagues of Irish descent in a petition to the various Representatives and Senators in Washington, urging the passage of two resolutions pending in Congress trying to relieve the people of my race and religion of the plight they find themselves in. It seems to me that is the best answer to those who accuse the people of Boston of being anti-Semitic. I want at this time to thank my colleagues for their position on that matter. As far as Councilor Kinsella is concerned, when I spoke to him over the telephone his answer was "Anything I can do that will be of help or relief any of the downtrodden of any creed or color, I will do at all times."

Coun. KINSELLA—Mr. President, I would be derelict in my duty if I did not say a word of appreciation of the good word spoken of me by Councilor Muchnick. I wish to thank the councilor because, unknown to the public and in a way that he need not have expressed himself, he has shown his broadmindedness and his belief in freedom and liberty for people of every race, religion and color. I also feel proud and happy over the fact that nineteen members here signed a

telegram, or authorized their signature to be attached, recently to a telegram to Washington that showed clearly their broadmindedness and freedom from all racial or religious bias. To me that seems a pretty good indication of what democracy can be, if tried. Councilor Muchnick is a Jew, and I am an Irish Catholic. He is proud of what he is, and I am proud of what I am. His views do not clash with mine, because if he cannot have what he should have I cannot have what I should have. Thank you.

Coun. D. F. SULLIVAN—Mr. President, I move that the resolution be sent to the Executive Committee, and that the Corporation Counsel be sent for.

The motion was carried and the matter was referred to the Executive Committee.

STAGE SHOWS ON SUNDAY EVENINGS.

Coun. HANNON offered the following:

Ordered, That his Honor the Mayor be requested to petition the Governor to exercise his war emergency powers to permit the presentation of legitimate stage shows—other than burlesque—on Sunday evenings in Boston, in order to provide proper recreation and entertainment for our men in the armed forces.

Coun. HANNON—Mr. President, today Boston seems to be the butt of sarcasm of many other parts of the country, in this matter of Sunday evening entertainment, particularly where there is no form of Sunday evening entertainment other than what some of the hotels, the movies and the radio can produce. Many times I think the fault lies with us. We go about Sunday evenings and find that the legitimate theaters are not permitted to open because of some archaic or Puritanical law. At the same time, the beer gardens and night clubs are allowed to carry on. The many young men in the armed forces who are here for a week-end to enjoy themselves naturally seek to go out for Sunday evening and have a good time, have some entertainment, but they are forced to go to the movie houses or to the corner tavern. They cannot have legitimate shows on the stage, but have to seek their enjoyment in drinking places of entertainment. The girls who go out with the young fellows at first don't enjoy the drinking, but sometimes if they are forced to combine a show with a drinking place they get used to it, in order to be considered good sports. It seems to me it is about time that we got away from these old, archaic laws. Let us wake up. Let us provide proper entertainment for those who are here for a week-end. They would like proper entertainment, and why shouldn't they have it? The only thing that stops it is the antiquated law that prohibits dancing, for example, on Sunday, and because of this law they cannot have legitimate stage shows. Therefore, they have to resort to entertainment that is not so good for them. I think we are not doing anything to provide such entertainment for the boys in the armed services, and I think we should give them proper entertainment, that they might have a chance, for example, to go to a legitimate theater.

The order was passed under suspension of the rule.

INFORMATION ASKED FROM HOUSING AUTHORITY.

Coun. HANNON offered the following:

Ordered, That the Boston Housing Authority be directed, through his Honor the Mayor, to furnish each member of the City Council with a copy of the facts concerning the demolition of the properties in the South End and South Boston, i. e., why these properties were demolished? Why no construction has been started, and what effort, if any, has been made toward obtaining priorities for the contemplated construction of these buildings? What are the future plans for these locations?

Coun. HANNON—Mr. President, I was not in public office when the so-called housing projects were accepted by the city and when the preliminary action was taken by the Boston Housing Authority. I am not going to criticize the Housing Authority. As a matter of fact, I am simply seeking some information from them. After the preliminary steps were taken, I sometimes wonder what happened,—whether action stopped because of the financial plight of the city, the shortage of money, or what the real reason was. But certainly it looked as if something was going to be done, and active steps were taken to prepare for the erection of the housing units, and then who was responsible or what was responsible for the ceasing of operations, after the demolition of the properties in the South End and South Boston? As we all know, a great deal of land was taken in those districts, property being destroyed that was bringing in good revenues to the city. Many of us are familiar, for instance, with what happened in South Boston and what the result has been since. I recently attended Mass over there, and the church was only half filled. The reason was the destruction of the tenement houses the occupants of which had filled the church, but there is nothing there now but waste land, waste property. Such a situation is a blight on the city, and an invitation to crime, and I believe it should be remedied. What the remedy is I don't know. I would not say at this time that I would favor the

construction of more housing units. I don't know that we need them. They have served a useful purpose, but I don't know that we need to have them carried on farther. But I do wonder what is going to become of these properties, where we simply have waste land, without the buildings or the stores that were once there. The buildings seem to have been torn down without any proper contract having been made for their replacement. I wonder how much effort has been expended to procure priorities in order that the contemplated buildings may be proceeded with? I wonder if anybody is now working on the matter of these projects, or if it is simply a case of buildings having been torn down and the land being left vacant, going to the devil. Certainly what we see in South Boston and the South End does not seem like a profitable business. As a matter of fact, some of those properties on Broadway were doing a profitable business. There were houses that seemed to be in pretty good shape, prosperous stores that were paying into the city treasury good money in taxes, the same as was being done by the houses. And yet those buildings have been torn down, and there is nothing yet in sight to take their place. All this preliminary work was done two or three years ago. The buildings were removed, and no effort has been made to replace them. Is it any wonder that we are up against it financially, that we have no money? I wonder what they are going to do with these places? If they are not going to use them for another year or two, we might as well have the grounds leveled off for young people to play on. We are members of the city government and we ought to know what is going on. The Boston Housing Authority is a part of the functioning body of the city. People are continually asking me, "What are you going to do with this land? If they are going to do something with it, why don't they get under way?" Well, I am as ignorant in the matter as the rest of the Council. I think the order I have offered is a fair one. Somebody in power in the City of Boston or in Washington ought to rise and explain. We have seen the demolition of the buildings, and we now see nothing more done. Somebody is responsible for the non-replacement of the buildings. What are they going to do? I would like to know, and I think every member of the Council is entitled to know, and I think the Housing Authority should be willing to let us know what the future plans are following the demolition of the buildings—why nothing has been done so far, what the plans are, and what prospect of having something done in the future is.

Coun. FISH—Mr. President, I think if we get that information it will be a revelation. There is the same situation on the Heath street project, where there has also been demolition. When they demolish, why don't they carry on construction at the same time? But we have had tax property wiped out and nothing has been put in its place. I am sorry that the former chairman of the Boston Housing Authority is not on the job.

The order was read for the information of Coun. Carey.

Coun. CAREY—Mr. President, while I would welcome the information requested in the order, I doubt very much if it will at any time be given the members of the Council. We had before the Council Committee on Appropriations representatives of the City Planning Board and, so far as post-war projects are concerned, they have just two plans for the City of Boston. I might add that, so far as the proposed units in the South End and South Boston are concerned, we never have been consulted, the demolition has been carried on and the land has been vacant for some time. I am one of those inclined to believe that we haven't enough housing units in Boston at the present time, but I think we have reason to criticize the character of the units. When these units were proposed we were given to understand that they were intended to make living conditions better for those who could only afford low rents. But what do we find today? At least two of the units have been reserved entirely for families who by no stretch of the imagination can be included in the low-rent group. Instead of the projects being carried out as we originally thought would be the case, they have brought into the city hundreds of families from the South, as far away as Texas, who are now living in the area and, as we get into unfortunate times, I am afraid we are going to find that we will have to take care of those families. I don't believe that we need any more so-called low-rent housing projects in Boston. I think action should be taken which would lead to real estate improvement in this city. I am wondering if the order might not be amended by attempting to obtain a release, if necessary, from the Housing Authority, in order that post-war plans of the city might include plans to develop the areas that have been left isolated in these sections, constructing something that might well contribute to the assessed valuation of the City of Boston. I understand that the assessors are starting out this week and going through the city with a fine-toothed comb, to see if they can find some way of jacking up valuations in the City of Boston. Let the city, if possible,—and I think it is possible,—reclaim those areas, constructing houses that would bring a fair rent. I think that is one of the ways in which the City Planning Board and others interested in post-war plans for the City of Boston might proceed.

The order was passed under suspension of the rule.

JEWISH COMMONWEALTH IN PALESTINE.

Coun. MUCHNICK offered the following:

Whereas, Twenty-six years ago, in the midst of a world at war, the government of the British Commonwealth of Nations issued the Balfour Declaration as a solemn covenant by which it pledged its help in the re-establishment of a Jewish national home in Palestine; and

Whereas, This Balfour Declaration was subsequently indorsed by fifty-two nations, including, by unanimous resolution, the Congress of the United States; and

Whereas, In the quarter century that followed thousands of Europe's Jews found refuge and a home in Palestine during which time they achieved a miracle in present-day colonization by draining swamps and planting forests, by irrigating the deserts and building cities that transformed a neglected land into a country of great fertility; and

Whereas, Because the Palestine White Paper of May, 1939, by restricting Jewish immigration and land settlement and prohibiting all Jewish immigration from April 1, 1944, threatens the existence of the Jewish national home at a time when millions of Europe's Jews have perished at the hands of the Nazi oppressor; and

Whereas, This is a time when it is crystal clear as never before, that the solution of the problem of the homeless European Jewry is in the re-establishment of Palestine as a Jewish Commonwealth; and

Whereas, The British White Paper of 1939 was condemned at the time by the Permanent Mandates Commission of the League of Nations, and was denounced then as a breach of trust by men who are today leading Great Britain in her hour of darkest trial; therefore, be it

Resolved, That the Boston City Council declares its deepest sympathy with the aspirations of the suffering Jewish people and urges the adoption by the Senate and Congress of the United States of the Taft-Wagner and Wright-Compton Resolutions, respectively; and be it further

Resolved, That the Boston City Council urges the President of the United States, the Prime Minister of Great Britain and the leaders of the Government of the United Nations to take appropriate action to insure the withdrawal in its entirety of the Palestine White Paper of May, 1939, and the establishment of a Jewish Commonwealth in Palestine; and be it further

Resolved, That certified copies of this resolution be forwarded to the President of the United States, the Secretary of State, the two Senators from Massachusetts and the Representatives in Congress from Boston.

Coun. MUCHNICK—Mr. President, there are at present pending in the House and Senate in Washington two similar resolutions, each urging the United States to use its good offices along this line, so that eventually a Jewish Commonwealth may be set up in Palestine. It is with that in mind that this resolution is introduced today. Some people have the mistaken notion that it is not the problem, or is not the province of this government, to have anything to do with what happens in Palestine. That, however, is a very mistaken idea; it is decidedly our affair as well as that of Great Britain and the other allied countries throughout the world. Prior to the issuance of the Balfour Declaration, the Prime Minister of England, Lloyd George, consulted with Woodrow Wilson, the President of this country, and received his approval and the approval of our nation to the establishment of the Jewish national home in Palestine. Subsequently, the fifty-two nations comprising the League of Nations ratified and confirmed the Balfour Declaration issued by Great Britain, and in 1922 our House and Senate went on record as being a party to the declaration. And thereafter, in 1924, by special treaty between the United States and Great Britain, it was definitely decided and agreed between Great Britain and the United States that that action should be taken and that nothing to the contrary should be done without obtaining the prior consent of the United States. But after that, in 1939, the so-called British White Paper was issued, in May, restricting Jewish immigration and land settlement and prohibiting all Jewish immigration from April 1, 1944, threatening the existence of the Jewish National Home at a time when millions of Europe's Jews have perished and are threatened at the hands of the Nazi oppressors. It is certainly clear that now, as never before, the solution of the problem of the homeless European Jewry is in the reestablishment of Palestine as a Jewish Commonwealth, and that Palestine should be kept open to the Jews as was originally agreed upon. They should certainly be given the "Go ahead" sign. These people have no fate in store for them other than a horrible death by starvation or otherwise unless they can be taken into their own country. The present inhabitants of Palestine have by their own efforts and by their armed services during the El Alamein campaign, by their activities at the front and otherwise, by producing food and weapons of war, shown their right to help and protection. Certainly they should be protected from death and other calamities. I certainly trust that this resolution will be passed by unanimous action, and that it will be forwarded to the President, the Secretary of State, the two Senators from Massachusetts, and the Representatives in Congress from Boston.

Coun. HANLEY—Mr. President, at this time I would like to congratulate the councilor from Ward 14 (Coun. Muchnick) on the presentation

of this resolution. About one year ago I lashed out bitterly at the British Government for violating the Balfour agreement, which had been signed and sealed in 1917, allowing Palestine to be a home for the Jewish people. The British White Paper of 1939 violated that agreement, and I lashed out at that violation bitterly because the Arabs at that time were supplied with arms, to persecute and try to destroy the Jewish population of Palestine. Palestine has approximately 10,000 square miles of territory, about the size of Belgium. To me and to every Christian the name of Palestine is writ large in history, because from Palestine came the founder of my holy religion. The Jewish people have been persecuted down through the corridors of time. No race in the whole world has ever so suffered from the persecutions that have been meted out to the Jew. He has been tortured and lashed throughout the entire continents of Europe and of Asia. The Irish race have been persecuted and persecuted for approximately 700 years, but the Jewish race have been persecuted throughout the entire length and breadth of the corridors of time. They have been led into captivity by the Assyrians, the Egyptians and the Romans. They have been denied the right to worship their God according to the dictates of their conscience. They have held the line through the ages against rampant paganism and today Palestine is the seat of our holy place. Balfour was one of the most honored, eminent and great statesmen England has ever produced, and he saw fit in 1917 to take action which would allow Palestine to be opened to the Jews. But between England and Great Britain there is as much difference as between day and night. England is the nationality, a country to be respected at all times; Great Britain is an economic ulcer, which has seized power throughout the entire world, following the Machiavellian theory of "Divide, conquer and rule." In our own country, in the so-called Civil War, they divided the North and South. In Europe they have always utilized the buffer state idea in order to keep their flag aloft. In Palestine they have carried out that same theory, divide and rule, by setting against each other the Jews and the Arabs. It seems to me that now is the time for the passage of the resolution looking to the establishment of a Jewish home in Palestine to be adopted. There are two practically similar resolutions of that kind which should be passed, pending in Congress, and the Boston City Council should record itself in favor of them. No longer should people be persecuted or prosecuted because of their race or religion. No person or group of persons should suffer in any such way because they are caught in the cataclysm of a world war. Of course any man should be prosecuted, no matter what his religion or race, if he has committed a felony or a crime against human society, but an entire race should not be persecuted because of the misdeeds of others. Out of this war will come chaos, unless Jews, Christians and all others collaborate in the peace. In the last war, World War I, Woodrow Wilson would not allow the Pope to sit in, even though he represented 350,000,000 people. He said, practically, "What does he want to butt in for?" Surely there will never be a just peace as long as a man is unjustly treated because of his race or religion. And at the termination of this war the rights of every man should be recognized, and there should be no persecution of certain ones because of the misdeeds of others. I only hope and pray that with the termination of this war, the perpetrators of the war, both domestic and foreign, will be punished for decimating and pulling down the population of the world in the greatest cataclysm of war that the world has ever seen. I congratulate you, councilor, on the presentation of this resolution, and I trust that it will pass unanimously, both here and in Congress, and that the provisions of the British Balfour bill will be allowed to continue, for the safety and protection of the Jewish populations of Europe.

Coun. COFFEY—Mr. President, as long as we are going into international questions, I would like to get some information. Can some one enlighten me as to who owns Palestine?

Coun. HANLEY—Mr. President, I believe it is under the domain of the British empire—Christians, Jews and Arabs. In certain sections of the old city are memorials to Jew and Christian, but it is under the mandate of the British Government. The Balfour agreement of 1917 allowed Palestine to be opened to the oppressed Jewish populations of Europe but, as the councilor from Ward 14 (Coun. Muchnick) brought out, at Munich, under the Munich appeasement policy, they changed the arrangement so that at the termination of 1945 no Jew will be allowed to migrate to Palestine.

Coun. COFFEY—Is that date 1945 or 1943?

Coun. MUCHNICK—April 1, 1944.

Coun. COFFEY—Mr. President, usually these resolutions are sent to the Committee on Rules, but evidently this is so important, it seems, that it must be acted upon today. I want to amend the resolution. I don't want to draw up a separate order, but I wish to amend this resolution. I would move to amend, as long as Palestine is under British mandate, the same as Ireland, that we request in the resolution that Ireland also receive her freedom. I would like to so amend this resolution, not putting in a separate order.

President KERRIGAN—Can't the gentleman offer a separate order?

Coun. COFFEY—No, Mr. President, I don't wish to do that. Both of these areas come under the jurisdiction of England, and Ireland has suffered for 750 years, as the Jews have also suffered persecution. I would ask, therefore, that we request the good offices of our Government on behalf of Ireland, in this matter, the same as on behalf of the Jews.

The resolution was referred to the Executive Committee.

SURVEY OF PRIVATE WAYS IN WARD 20.

Coun. SHANNON offered the following:
Ordered, That his Honor the Mayor request the Street Commissioners to make a survey of all private ways in Ward 20 for the purpose of accepting, laying out and constructing as public ways, when and if construction of streets will be allowed by the Federal Government.

Passed under suspension of the rule.

SALARIES OF PAYMASTERS IN TREASURY DEPARTMENT.

Coun. CAREY offered the following:
Ordered, That the City Treasurer be requested, through his Honor the Mayor, to increase the salaries of all paymasters in his department to \$4,000 per year.

Coun. CAREY—Mr. President, there is in the employ of the city and county a group of some seven paymasters in number, I believe, whose financial responsibility is exceeded only by that of the Mayor and Treasurer. The last time when paymasters working out of the treasury office received an increase of pay, I am informed, was eighteen years ago, under Mayor Nichols. At the present time they receive but \$3,000 a year, and they handle, as I am given to understand, on a conservative estimate, \$30,000,000 to \$35,000,000 in cash a year. They are bonded as far as the city itself is concerned from any other losses, but so far as any sums paid out by those paymasters are concerned, if there is a mistake or something of the sort, it must be made good out of the pockets of the men. It is my personal belief that men handling \$30,000,000 to \$35,000,000 in cash per year are entitled to a salary of more than \$3,000 a year, and I am surprised that proper recognition of that fact has not been made before now. I hope that this order will not find its way into the waste basket. These men are certainly entitled to over \$3,000 a year, and I hope that the Mayor and the City Treasurer will agree with my order, that their pay be increased to \$4,000 a year. I sincerely trust that that increase will be granted.

Coun. DWYER—Mr. President, if this order passes, I would like to ask the councilor whether he has in mind the fact that the Mayor has introduced the budget at the present time,—or is he going to ask the Mayor to send in a supplementary budget that will include the provisions of this order?

Coun. CAREY—Mr. President, I have been in the Council longer than the councilor, but in your experience, Mr. Councilor, you must know that in a matter of this kind budgets do not make any difference. It makes no difference, in my opinion, whether the budget is before the Council at the present time or not. You have sat in on budget hearings, and you were asked the question before: "Where did you get the money?" You have asked that question of department heads. Sometimes a clear answer could be given, and sometimes it could not. It makes no difference, councilor, whether these amounts are included in the budget or not, it will not necessitate the recalling of the budget by the Mayor.

The order was passed under suspension of the rule.

EXTERMINATION OF RODENT LIFE.

Coun. CHASE offered the following:
Ordered, That his Honor the Mayor be requested to appoint a special commission of experts for the purpose of formulating a plan whereby ways and means will be provided for the scientific extermination of rodent life in the city; and be it further

Ordered, That his Honor the Mayor create a permanent rodent extermination and prevention department adequately manned with experts in order that the plans and recommendations of the commission will be fully carried out.

Passed under suspension of the rule.

SKELETON FORCE, MARCH 18.

Coun. D. F. SULLIVAN offered the following:
Ordered, That his Honor the Mayor be requested to authorize department heads to maintain a skeleton force of employees on Saturday, March 18, 1944.

Passed under suspension of the rule.

INDORSEMENT OF CLEAN-UP CAMPAIGN.

Coun. FISH offered the following:
Resolved, That the Boston City Council go on record as indorsing the Clean-up Campaign and

unanimously recommend that such a campaign be inaugurated at City Hall itself and that this building be cleaned up both internally and externally, thereby restoring it to its pristine beauty, and thus make a proper impression upon the general public.

Coun. FISH—Mr. President, at first it may seem to be a laugh, and I don't doubt they have occasion to laugh, but I read in the paper—this morning I think it was—that we were going to have a clean-up campaign in Boston. I don't know any better place to start than City Hall. There is no need of my standing up here enumerating the many things, because no matter how much I say about it everyone could add just as much more. I think the building should be sandblasted in the first place. If it were possible to accomplish my real wish, I think the building should be entirely blasted and a new one put up. But since we can't do that, or we can't erect any housing projects, we should at least paint the walls, wash the windows, so we can at least look across the street. I think we have got valuable oil paintings in City Hall. They don't look the part now. You can hardly recognize what they are. I am not going to take any more time. I really believe if there is to be a clean-up campaign we should start in right here in City Hall and clean this building up so it will be presentable to people when they come in and look at it and pay the high taxes they are called upon to pay.

The order was passed under suspension of the rule.

CLASSIFICATION IN PUBLIC WELFARE DEPARTMENT.

Coun. KEENAN, D. F. SULLIVAN, FISH and COFFEY offered the following:

Resolved, That the Boston City Council, in meeting assembled, hereby favors the abolition of junior and senior clerk ratings in the Boston Public Welfare Department by the Civil Service Commission, so that all employees in these groups will be classified as clerks.

Coun. KEENAN—I would also like to have the letter read from Mr. Lupien for the city record. The clerk read the letter as follows:

The Commonwealth of Massachusetts,
Department of Civil Service and Registration,
State House, Boston,
February 21, 1944.

Mr. W. J. Doyle,
City Clerk.

Dear Sir,—Acknowledging receipt of the resolution of the Boston City Council of February 14, 1944, relative to the reclassification of positions in the Boston Welfare Department, I would state that in the reclassification of every group which has been undertaken to date, the policy of this department has been to insist

1. That there be no reduction in salary.
2. That seniority rights of all employees be preserved.
3. That present incumbents shall be entitled to receive the maximum salary already provided for in an employment policy existing prior to reclassification.
4. That any changes in minimum and maximum salaries would affect persons appointed after the date of reclassification.

It should, however, be brought to the attention of the City Council that the protection of the rights of civil service employees does not stop with the observation of the foregoing points. It should go at least one step further, namely, to assure the employees of the department that they would not be compelled to work out of their civil service classification. In this connection, I might add that there have been found perhaps more violations of civil service in this respect during the Boston Department of Public Welfare reclassification than have been found in any other group which has been reclassified. It would, therefore, appear to me that the City Council might quite properly pass another resolution, commanding all city department heads to observe the provisions of the civil service law and rules.

Very truly yours,

ULYSSES J. LUPINEN,
Director of Civil Service.

Coun. KELLY—Mr. President, this is the greatest game of passing the buck I have ever witnessed in my seven years as City Councilor in the City of Boston. What the girls are really interested in, knowing who appeared before the Committee on Public Welfare and the other members of the City Council, is who is responsible for setting up the ratings of junior clerk and senior clerk. For the members of the Boston City Council to go on record as to the abolishing of the titles of junior and senior clerk doesn't, in my opinion, in any way give the information to the girls who appeared before the Committee on Public Welfare and the other members of the Boston City Council who saw fit to attend the public hearing. It doesn't in any way, Mr. President, give them the facts of the case. In other words, I mean what went on behind the closed doors down on Hawkins street. I think that is what the girls are interested in. Now, we have read in the newspaper—I don't happen to buy the *Globe*—but we read in the newspaper last Tuesday morning—I haven't got the paper here, but I have the copy. The title is "Lupien Hits City Welfare for Lapses in Civil

Service." And then it goes on in the article. Mr. President, quite a lengthy article, as to what protection of the rights of civil service employees is, and goes on further and says: "It should go at least one step further, namely, to assure the employees of the department that they would not be compelled to work out of their civil service classification." And it goes on, and it throws the classification of the junior and senior clerks right back into the laps of the officials of the Welfare Department. Now, I don't think I am so stupid as to stand on the floor of the Council and be "kidded" that nobody had anything to do with classifying these girls as junior and senior clerks. We have been told on the one hand—and I am reading from a questionnaire—of course a lot of people didn't think I would be able to dig up these two, but I was able to dig them up—from August 13, 1941. And this was a classification survey of city and town welfare departments. Article 1 says on it: "The Division of Civil Service is undertaking a survey to establish a position classification plan for certain positions in local welfare departments in the cities and towns under civil service, for the purpose of obtaining a better basis of personnel recruitment and salary administration. This survey pertains only to positions involving investigation and the administration and supervision thereof." Now, this is the article that interests me. This was sent down August 13, 1941. "The survey will not include positions involving primarily clerical, stenographic, bookkeeping or accounting classes. The Department of Public Welfare is cooperating with this division by offering the services of its District Staff for the explanation of the questionnaire form." Mr. President, that questionnaire was not given to those employees in question. And down at the bottom of the instruction it says: "Instructions to the Supervisors." "Allow the employee to make an independent statement"—and follow this, Mr. President,— "Allow the employee to make an independent statement, and do not alter it, but indicate corrections and additions in the space provided on the front of the form or on a supplemental sheet." And then, "Submit the completed questionnaires for your unit through your immediate superior within three weeks from the time they were distributed to employees. If possible, allow office time for completion of the questionnaires." That was back, Mr. President, on August 13, 1941. Now, we will continue. Here is No. 2. Here is one here. Something must have happened between August 13, 1941, and February 5, 1942, because here is the second memorandum they received, and everybody received one of those. I understand, every one of the employees, including the girls who were named junior clerks and also the girls who were going to be made senior clerks. And down at the bottom of this memorandum it says the same as it says in No. 1: "Instructions to the Supervisors." "Do not alter any of the questionnaires." Therefore, that brings it as far as the employees making out the questionnaires are concerned, and as far as the supervisors not altering it. In the paper last Tuesday morning Mr. Lupien says he is not responsible for the ratings. Mr. Murphy and Mr. O'Hare testified before the Committee on Public Welfare—that is, the public hearing that was open to the public—that they were not responsible for the ratings. So I am wondering still more who was responsible. I am wondering if we have got some individual down at the Welfare Building—Mr. President, nobody seems to know what his or her title is—who suddenly put the titles on these employees. Now, I say, and the girls up in the balcony know I am telling the truth and that I don't lie, and every member of the Council knows I am telling the truth, that the morale of the Welfare Department down in Hawkins street is at its lowest ebb. What these girls want is ratings on experience. The stand I took at the public hearing of the Welfare Department, and the stand I am taking today is that the girls with the longest number of years of experience should be given the senior ratings, and the girls who have been there only a few years should be given the junior ratings. What I can't for the life of me understand is who is responsible for the fixing of these titles. Somebody is responsible, but they haven't got the courage to come forward. It is like anything else, when something comes out in the open then they have to "duck." It would be nice for every member of the Council—of course, we will never find out probably all of the information we want—to know what happened at some of these closed meetings between the Overseers of Public Welfare and the employees of the Welfare Department, and between the members of the Board of Overseers of Public Welfare and certain other gentlemen in the City of Boston. I know what went on at one of the hearings between the members of the Board of Overseers of Public Welfare and the girls, the employees in the department, and who felt that they were being unjustly treated, and I agree with them, Mr. President,—when they were called up before the meeting of the Board of Overseers of Public Welfare. Some very interesting things took place down in the Welfare building, and I understand, and I want to remind the girls, that they are all protected by civil service, and if anything ever happens down at the Welfare building, I wish they would come to me. On Friday, February 18, the supervisors—I imagine those are the people referred to down at the

bottom of these two classifications—the supervisors held a private meeting. You see even the supervisors haven't confidence in one another. They hold a private meeting, but it gets out. The supervisors held a private meeting in the Board room to discuss the best means to protect their new title to prevent the classification from being held up. The same day a certain gentleman who is head of the Settlement Division down there—I am not going to mention his name, but I have the facts; if what I say is not the truth I will give him a chance to deny it and then I will mention his name before the Council—returned from the so-called private meeting of the supervisors and opened a discussion in his office with the girls who were so unfortunate as to work under him as a boss, and said things to those girls and really threatened those girls' positions if they tried to do anything in any way to speak up in behalf of themselves. Now, that is a fact. A couple of supervisors are up in the balcony and they know I am telling the truth. They know who the gentleman is. I want to tell those girls that they want to speak their minds down at the Welfare building, as was said here on the floor of the Boston City Council today, and we all agreed. Free speech should reign, and if it reigns in the Boston City Council it should reign down in the Welfare building and not except a little clique of ten that exists down there. So those girls told this Mr. Quinn, the head of the Settlement Division, in no uncertain terms that they would speak their minds. Now, last Monday four girls appeared before the Welfare Board regarding their reclassifications, and what do you suppose happened? Mr. President, later on this year you will want to meet a lot of people and you will want to be able to talk to them, and you won't want to be denied free speech, because if you are, it is going to be a handicap to you. You will want to meet a lot of people and will want to bring home a lot of things to them in your behalf, and you don't want anybody to deny you that opportunity of free speech. And what do you suppose happened before this board? They were taken over the coals because they had the courage and the gumption to take their appeal before the members of the Boston City Council. And before the meeting I understand—and I have confidence in the truth of this, because I have a signed statement; don't think anybody would sign a statement if it wasn't the truth—they were advised by a certain gentleman down in the Welfare building on what to say and what not to say on the floor. Do you call that free speech, Mr. President? Then, the next procedure. On February 23—let me get the dates right—the 22d was last Tuesday, and the 23d would be Wednesday—out of a clear sky, I understand, some new questionnaires were given out down at the Welfare building. Nobody seems to know where they came from. I suppose the questionnaires came from the same person, this mysterious individual, that holds forth down at the Welfare building—I suppose he had something to do with the putting on of these titles of junior and senior clerk—I suppose the questionnaires came from the same place. So they were asked to fill out the questionnaires last Wednesday, stating their duties which they were performing in the Welfare Department on February 3, 1944, to the present time. I wonder, Mr. President. February 3—it seems to me that date has a meaning to me—I wonder if that wasn't the same date that the employees were notified that they were to receive the ratings of junior and senior clerk by this mysterious individual that nobody seems to know who he or she is. Isn't it very peculiar that in some matters that have come up before the Boston City Council free speech has not reigned, and that in other matters that have come up before the Boston City Council where the girls are looking for something which they are justly entitled to, certain people try to do everything in their power to stop the girls from telling the truth. I wonder what is back of all this. I wonder if the true story will really ever come out. What these girls are interested in is trying to find out who is responsible for fixing these titles before their names. It is the greatest game of "passing the buck" I have ever seen. Personally I put myself in the girls' position. I have known what it is all my life to work hard, and I realize what they are up against. They are only asking for something that they have earned. They have only asked for something that a girl down there twelve years should be rated a senior clerk in preference to a girl who has only been there three years. And to top the thing all off, February 21, this last Monday, during an audience with one of the councilors of the Boston City Council the girls were asked by the councilor, "How is it you have so much time off from work to come down here? A lot of people are wondering how you get so much time off." I wonder who is wondering how they got so much time off? I wonder if it is the same mysterious individual who won't come forth and make his identity known. I wonder if that is the individual, or whether it is a certain group or clique that have had things their own way for a certain length of time. There is one thing I have always done as a member of the City Council, and one thing I will always do, and that is I will always take the floor and speak my mind, and there isn't any group or groups that control me. I represent the people of my ward who sent me here, and I am responsible to them, and any vote of mine in the Boston City Council is a matter of public record, and I have not had one criticized

in all my six years as a member of the City Council. So, therefore, I must have come pretty near doing what was right. Mr. President, I am going to ask to have these papers incorporated in the record, the *Daily Globe* of last Tuesday, and there is another interesting article appearing in the *Traveler*, I think, of February 18. The headlines of it are "Titles Don't Mean a Thing in Welfare Department Shuffle." It is a very interesting article. I am not going to read it. I can't make too much out of it myself, but I am not surprised. Even though we are elected officials of the City of Boston, I, at least, have not been able to find out from what has gone on at the public hearings who has been responsible for these titles. So I am not surprised at the article that appears in the *Traveler*, because evidently the gentleman who wrote it, Bob Sibley, doesn't know any more about it than I do, and I am a member of the Boston City Council. So I reiterate again, I want the article in the *Traveler* put in the record; I want the *Globe* article put in the record, and I am going to ask the stenographer when he has copied them to return them to me personally. I may be able to use them some time. This is Exhibit 1, August 15, 1941. I want that to go in the record. I also want this Exhibit 2 to go in the record, the article of February 5, 1942. This personal letter I will keep myself, because there are some signatures attached to it. Certain people would love to know what the signatures are, but I will assure the owners of them who gave me the signatures, I am a man of my word. When I give you a promise, I will keep it. Nobody will find out what the signatures are. But I ask you, in your duties down at the Welfare Department, to let me know if anybody tries to bring pressure on you, because I have only said about one-tenth of what I can say on the floor of the City Council. I have been tame today. I have only started, and the taxpayers of the City of Boston would like to be enlightened as to what is going on down at the Welfare Department. I don't punch below the belt, but if they take an unjust advantage of you through their positions I will be forced to bring out some of the doings down at the Welfare Department. A lot of people in Boston know I will be speaking the truth, and we will get them in the record, and print them, so the taxpayers will find out what is going on at the Welfare building. Right today it is safe to assume the morale at the department of Welfare is at its lowest ebb, and the right way to get this thing corrected is to give the right titles to the girls who deserve them,—that is, to give the girls down there with the longest number of years' experience the title of senior clerk, and the ones with the shortest number of years of experience the title of junior clerks. Now, I understand there are other persons down there who are affected by this. I haven't anything personal against them. If they are able to get a raise for themselves, good luck to them, but I am interested, Mr. President, in the difference between the senior and junior clerks. That is what I am vitally interested in. And, as I said before, if any of those girls are bothered down at the Welfare Department, I am in the Council this and next year, anyway, and I shall be forced to get up on the floor of the City Council and recite to the members some of the things that are really taking place down at the Welfare Department. So I would advise those in charge to go very carefully down at the Welfare Department, Gentlemen, I have the facts and I can use them.

(The memoranda submitted by Coun. Kelly were as follows:

(From the *Globe* of February 22, 1944.)

"Lupien Hits City Welfare for Lapses in Civil Service.

"Hitting back at criticism of proposed reclassification of Boston Welfare Department employees, State Civil Service Director Ulysses J. Lupien declared yesterday that more violations of civil service classifications had been found in the department than in any other group.

"Lupien made the remark in a letter to Boston City Clerk W. J. Doyle in acknowledging a resolution of the City Council protesting changes 'which will unfairly and inequitably affect the present civil service salaries and opportunities.'

"The state official said his department's policy insists in reclassifying groups that there be no salary reductions, that seniority rights be preserved, that incumbents be entitled to maximum salary already provided and that any salary changes affect only persons appointed after the reclassification date.

"It should, however, be brought to the attention of the City Council that the protection of the rights of civil service employees does not stop with the observation of the foregoing points," the letter said. "It should go at least one step further, namely, to assure the employees of the department, that they would not be compelled to work out of their civil service classification. In this connection, I might add that there have been found perhaps more violations of civil service in this respect during the Boston Department of Public Welfare reclassification than have been found in any other group which has been reclassified. It would, therefore, appear to me that the City Council might quite properly pass another resolution, commanding all city department heads to observe the provisions of the civil service law and rules."

(From the Boston *Transfer* of February 18.)

"Titles Don't Mean a Thing in Welfare Department Shuffle. By Bob Sibley.

"What is a chief social work supervisor? A head social work supervisor? A principal social work supervisor?"

"What's the difference between 'head,' 'chief,' and 'principal'?"

"Oh, you don't see what the difference would be? Jobs reclassified."

"Well, employees of the Boston Department of Public Welfare are having similar trouble."

"Disturbed and somewhat baffled by the fact that their jobs have been reclassified and renamed, they are busy trying to figure things out."

"The reclassification was done by the state civil service division, and if you happen to be at the right place at the right time you might hear welfare personnel getting the facts by use of the civil service division's little handbook on rules, regulations and specifications. Such as this:

"Q. Is the principal social work supervisor the head social work supervisor? A. Oh, no. He is neither the head social work supervisor nor the chief social work supervisor."

"Q. Well, if one is 'principal,' another 'chief,' and a third 'head,' who is the boss? A. I'll bite. Wait till I look in the book. It says the principal social work supervisor supervises social workers. It's a coincidence."

"They supervise."

"Q. What else does the principal social work supervisor do? A. He supervises a 'group of social workers engaged in determining eligibility and extent of need of cases for public assistance and welfare services, etc.'"

"Q. What does the head social work supervisor do? A. Oh, he supervises the people who are supervising the social work supervisors 'engaged in determining eligibility and extent of need of cases for public assistance and welfare services, etc.'"

"Q. And the chief social work supervisor? A. Well, he works to plan and organize and to supervise, 'through head social work supervisors, principal social work supervisors and social work supervisors, the work of the social service division of the Boston public welfare department.'"

"Q. To engage in determining eligibility and extent, and so on? A. Wrong guess. To 'do related work as required.'"

"What about clerks?"

"Q. Is a senior clerk a principal clerk? A. Oh, no. A senior clerk is 'under supervision.'"

"Q. And a principal clerk? A. Under 'general supervision.'"

"Q. And the senior clerk a work? A. 'Clerical work of more than ordinary difficulty,' etc."

"Q. And the principal clerk, a 'Clerical work of a high degree of difficulty,' etc."

"Q. What, no funny pictures? A. No funny pictures."

(The following is Exhibit 1.)

"The Commonwealth of Massachusetts.
Division of Civil Service.
State House, Boston."

"Classification Survey—City and Town Welfare Departments."

"Memorandum Accompanying Position-Classification Questionnaire."

"The Division of Civil Service is undertaking a survey to establish a position classification plan for certain positions in the local welfare departments in the cities and towns under Civil Service, for the purpose of obtaining a better basis of personnel recruitment and salary administration. This survey pertains only to positions involving investigation and the administration and supervision thereof. The survey will not include positions involving primarily clerical, stenographic, bookkeeping or accounting classes. The Department of Public Welfare is cooperating with this Division by offering the services of its District Staff for the explanation of the questionnaire form."

"The survey will be based largely on information obtained through the accompanying questionnaire. The information will be used in determining (1) what classes of positions the local departments should contain, (2) how the classes should be defined and compensated in relation to each other, and to other classes of positions in the State, and (3) in what class each position belongs."

"Each class will consist of a group of positions so similar as to duties and responsibilities that the same qualifications and the same examinations are suitable measures of the fitness of candidates for the positions, and that the same salary range is fair and proper."

"As a result of the survey a specification will be written for each class, stating typical duties and responsibilities, describing the supervision received and exercised (if any), outlining minimum qualifications in terms of experience and training and knowledge and abilities, and indicating probable lines of promotion to and from the class."

"This survey is not concerned with evaluation of efficiency on the job, and the questionnaire will not be used for that purpose."

"Instructions to Employees:

"For maximum usefulness the description of duties and responsibilities should be prepared independently in your own words. Organize it carefully with related duties together in paragraphs arranged in order of importance and regularity of duties. Include temporary duties and responsibilities, indicating that they are

temporary. Do not include duties you have not had in the last six months unless they are annually recurring duties. Give your best estimate of the percentage of time devoted to each duty or group of related duties. Do not slight any part of your description just because certain features seem to be covered by the check list. The check list is not an adequate substitute for your own description."

"Do not use indefinite expressions like 'I assist' or 'I handle' or 'I prepare' without your definite explanation of what your work is or how it is done. Do not describe the work of your unit without identifying your own part in it. Insofar as possible without sacrificing clarity and completeness as to the nature of your duties and responsibilities, avoid going into details as to procedures."

"The space provided will suffice for most positions if the description is carefully written and typed with single spacing. However, do not hesitate to write more, if you wish, on an additional sheet."

"The questionnaire is to be made out in triplicate. Return two copies of the completed form (typewritten) to your immediate superior, within two weeks from the time you received it. You may keep the third copy unless your superior requests it."

"Instructions to the Supervisors:

"Allow the employee to make an independent statement and do not alter it, but indicate corrections and additions in the space provided on the front of the form or on a supplemental sheet."

"Submit the completed questionnaires for your unit through your immediate superior within three weeks from the time they were distributed to employees. If possible, allow office time for completion of the questionnaires."

— ULYSSES J. LUPIN,
Director of Civil Service.

August 15, 1941."

Do not slight any part of your description just because certain features seem to be covered by the check list. The check list is not an adequate substitute for your own description."

"Do not use indefinite expressions like 'I assist,' or 'I handle,' or 'I prepare,' without more definite explanation of what your work is or how it is done. Do not describe the work of your unit without identifying your own part in it. Insofar as possible without sacrificing clarity and completeness as to the nature of your duties and responsibilities, avoid going into details as to procedures."

"The space provided will suffice for most positions if the description is carefully written and typed with single spacing. However, do not hesitate to write more, if you wish, on an additional sheet."

"The questionnaire is to be made out in triplicate. Return two copies of the completed form (typewritten) to your immediate superior, within two weeks from the time you received it. You may keep the third copy unless your superior requests it."

"Instructions to the Supervisors:

"Allow the employee to make an independent statement and do not alter it, but indicate corrections and additions in the space provided on the front of the form or on a supplemental sheet."

"Submit the completed questionnaires for your unit through your immediate superior within three weeks from the time they were distributed to employees. If possible, allow office time for completion of the questionnaires."

— ULYSSES J. LUPIN,
Director of Civil Service.

February 5, 1942.")

The resolution was passed under suspension of the rule.

RECESS.

The Council voted, on motion of Coun. COFFEY, to take a recess at 4.30 p. m. The members reassembled and were called to order by President KERRIGAN at 5.47 p. m.

SOLDIERS' RELIEF.

Coun. SCANNELL, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families in the City of Boston for the month of February.

The report was accepted and the order was passed.

EXECUTIVE COMMITTEE REPORTS.

Coun. HANLEY, for the Executive Committee, submitted the following:

1. Report on resolution (referred today) condemning program "Radio Newsreel"—that same ought to pass.

The report was accepted and the question came on the passage of the resolution.

Coun. CHASE—Mr. President.

Coun. COFFEY—Mr. President, I doubt the presence of a quorum.

The roll was called, showing the following members present:

Coun. Bayley, Chase, Coffey, Dwyer, Feeney, Hanley, Keenan, Kerrigan, McCormack, Muchnick, D. F. Sullivan—11.

President KERRIGAN—A quorum not being present, the Chair declares the meeting adjourned.

Adjourned at 5.50 p. m., to meet on Monday, March 6, 1944, at 2 p. m.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

INDUSTRIAL INSTRUCTOR (BLACKSMITH), APRIL 1, 1944.

Last date for filing applications, Monday, March 13, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,680 a year plus a temporary increase of 15 per cent; the maximum salary is \$2,160 a year.

Subjects and Weights: Training and experience, 2; practical questions, 3; total 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

PROCEEDINGS OF SCHOOL COMMITTEE.

Feb. 15, 1944

A regular meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 5.40 o'clock P. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Ward and White.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as presented with the exception of the action on the amendment to Section 291, paragraph 2 of the Regulations.

Chairman. In conference the question has been raised as to whether the recent amendment to the regulations, authorizing the employment of vice-principals in schools of six rooms or more, was legally adopted, for the reason that the proposed amendment had not been read twice in its entirety.

In order to obviate any doubt in the mind of any of the members, I am asking that the amendment be read now in its entirety and that a vote then be taken on its passage.

The Secretary read the amendment which had been presented and laid over at the meeting of Nov. 8, 1943, as follows:

Section 291, paragraph 2 (d). In the fourteenth line, strike out the word—twelve—and substitute in place thereof "six"—so that the paragraph shall read as follows:

(d) One vice principal in each district. One additional vice principal in girls' districts where there is no submaster. One additional vice principal in girls' districts where the number of girls in grades above the third exceeds 800. One additional vice principal in mixed districts where the number of girls above the third exceeds 600. One vice principal in each school building, other than the main building of the district, in which there are six or more teachers of any grade, including kindergartens, but no submasters.

A roll call being ordered, the amendment passed by the following vote:

YEAS—Messrs. Foley, McDevitt and White—3.

NAYS—Mr. Ward—1.

ABSENT—Mr. Norton—1.

APPROVAL OF STATE-AIDED WORK

A communication was received from M. Norcross Stratton, Director, Division of Vocational Education, reporting that the re-establishment of the course in radio and the course in refrigeration in the Boston Trade High School Evening Classes has been approved in accordance with plans set forth and submitted in memoranda on file in the office

of the Division of Vocational Education in the Department of Education.

If the plans as submitted are carried out, the work of these courses will be given approval and the city of Boston recommended for reimbursement under the provisions of Chapter 74 of the General Laws, as amended, reimbursement to date from September 27, 1943.

Placed on file.

A communication was received from M. Norcross Stratton, Director, Division of Vocational Education, reporting that the re-establishment of a course in machine shop in the Boston Trade High School, Evening Classes, has been approved in accordance with plans set forth and submitted in memoranda on file in the office of the Division of Vocational Education in the Department of Education.

If the plans as submitted are carried out, the work of this course will be given approval and the city of Boston recommended for reimbursement under the provisions of Chapter 74 of the General Laws, as amended, reimbursement to date from September 27, 1943.

Placed on file.

TUITION OF NON-RESIDENT PUPILS

A communication was received from M. Norcross Stratton, Director, Division of Vocational Education, under date of Jan. 27, 1944, reporting that a tuition rate of \$.15 per hour of service is approved and effective Jan. 3, 1944, for non-resident pupils attending the Boston Part-time Distributive Occupations School.

Placed on file.

RESIGNATIONS

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:

Henry L. Pierce District—Katherine F. Magullion, teacher, elementary, Jan. 31, 1944.

Minot District—Edith R. Eldracher, teacher, elementary, Jan. 28, 1944.

Accepted.

APPOINTMENTS

The following appointments by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

(FROM THE ELIGIBLE LIST)

South Boston High School—Alwin K. Milch, cooperative instructor (from shop instructor, cooperative branches), Jan. 1, 1944.

The rules were suspended and the appointment approved.

(BY PROMOTION)

Henry L. Higginson District—Isabel H. Owens, vice principal (from teacher, intermediate, Patrick T. Campbell Intermediate District), Mar. 1, 1944.

James P. Timility Intermediate District—Mary J. Carroll, vice principal (from teacher, intermediate, James P. Timility Intermediate District), Mar. 1, 1944.

Jefferson District—Virginia M. Dente, vice principal (from teacher, intermediate, Donald McKay Intermediate District), Mar. 1, 1944.

Julia Ward Howe District—Marjorie H. Ellis, vice principal (from teacher, elementary, Roger Wolcott District), Mar. 1, 1944.

The rules were suspended and the appointments approved.

(RE-ENTRY INTO SERVICE)

(Under a suspension of Section 274 of the Regulations)

Ulysses S. Grant District—Thomas F. Luby, submaster, tenth year (resigned from Theodore Lyman District Aug. 31, 1937), Mar. 1, 1944.

The rules were suspended and the appointment approved by the following vote:

YEAS—Messrs. Foley, McDevitt, Ward, and White—4.

ABSENT—Mr. Norton—1.

LIST OF TEACHERS APPROVED FOR TEMPORARY SERVICE

The Superintendent submitted, under the provisions of section 265, paragraph 3 of the regulations, the following list of teachers approved by him from which assignments may be made for temporary service:

Day High Schools—Samuel P. Bayard, Frances English Early, Mary Richmond Kaplan, Ivan S. A. Kostjanov, Joseph F. Krebs, Evelyn R. Learner, Ruth McLaughlin McCaffrey, Mary C. E. Mooney, Helen A. Mullett, Mary Davey Tobin, Mary Bernardine Travers, K. Mildred Trask.

Day Intermediate Schools—Marion T. Costello, Michael F. Harkins, Beatrice DeLorey Judge, Joseph F. Krebs, Agnes B. Middleton, Mary C. E. Mooney, Irene Culatti Separini, Marie E. Teixeira.

Day Elementary Schools—Margaret Flanagan Connelly, Margaret Mahoney Cosgrove, Marie G. deFalco, Louise Casey Doherty, Katherine Walsh Donohoe, Frances English Early, June Amsden Good, Edith Eldracher Grove, Rose Greenburg Hamburg, Ursula Dixon Hebert, Olive Crane Kelly, Marjorie Webber Linvill, Alice Willis McCarron, Alice Treacy McElroy, Lucille McCutcheon, Martha Volk Mealwitz, Elinor M. Nicholson, Gertrude Lennon Nolan, Katharine Magullion Stanton.

Kindergartens—Frances English Early, Barbara Mulkerrin.

Boston Trade High School—John J. Queally.

Special Classes—June Amsden Good, Helen Buckley Logan, Ardelle L. Magwood.

Department of Household Science and Arts—Katherine D. Collins, Virginia H. Moody, Helen A. Mullett, teachers of cookery. Katherine D. Collins, teacher of sewing.

Department of Physical Education—Joseph F. Fielding, Jr.

Department of Music—Olive Day Owens.
Approved.

STUDENT ASSISTANT

(New Appointment)

Dorchester High School for Boys—Robert C. Bertazzoni, mechanical department, Jan. 17, 1944.
Approved.

TEMPORARY SCHOOL NURSES

Department of School Hygiene—Theresa D. Lally, Jan. 3, 1944, Madeline F. Duwan, Feb. 14, 1944.
Approved.

Mr. White: May I ask a question on the temporary appointment of nurses? Are those appointments to fill the places of nurses on leave?

Superintendent: Yes. Nurses who are absent because of illness.

LEAVES OF ABSENCE

On the report of the Superintendent, leave of absence was granted the following-named teacher for the period specified:

Clarence R. Edwards Intermediate District—Thomas J. Teehan, teacher, intermediate, Jan. 13, 14, 1944, two days, court summons.

On the report of the Superintendent and under a suspension of the regulations, leave of absence was granted the following-named teacher for the term specified:

Department of Household Science and Arts—Kathryne Sasserno, teacher of sewing, Jan. 3 to Mar. 31, 1944, without pay.

On the report of the Superintendent and under a suspension of the regulations, leave of absence was granted the following-named clerical assistant for the term specified:

Jamaica Plain High School and Charles Summer District—Annette M. Clarke, clerical assistant, Jan. 3 to Apr. 30, 1944, without pay.

ASSIGNMENT

A communication was received from the Superintendent, under date of Feb. 15, 1944, reporting that subject to the approval of the School Committee, he has assigned Thomas F. Luby, submaster, Ulysses S. Grant District, to the Bureau of Child Accounting, without change of rank or salary, to take effect Mar. 1, 1944, and to continue for the school year end-

ing Aug. 31, 1944, unless earlier terminated by the Superintendent with the approval of the School Committee.

Placed on file and the assignment approved, to take effect on the date stated.

TEACHER OF PHYSICALLY HANDICAPPED CHILDREN

A communication was received from the Superintendent, under date of Feb. 15, 1944, reporting that subject to the approval of the School Committee, he has assigned Barbara R. Kelley, temporary teacher, for home instruction of physically handicapped children, to take effect Feb. 14, 1944.

Approved.

WARTIME CHILD CARE CENTERS

A communication was received from the Superintendent, under date of Feb. 15, 1944, reporting that subject to the approval of the School Committee, he has appointed as provisional appointees the following-named persons for service in the Wartime Child Care Centers to take effect on the dates stated:

Head teacher—Vilma Magoch, Feb. 14, 1944.

Assistant teachers—Barbara J. Rowe, Feb. 14, 1944; Virginia M. Guidrey, Feb. 10, 1944.

Helpers—Gertrude V. Haggerty, Feb. 14, 1944; Helen Ellis, Feb. 14, 1944.

Approved.

EMERGENCY EMPLOYMENT IN AFTERNOON KINDERGARTENS.

On motion of the Superintendent, it was

ORDERED, That the emergency employment of the following-named kindergarten teachers is hereby authorized in the kindergartens indicated for the periods specified, and that they be allowed and paid for this emergency service additional compensation at the rate of two dollars (\$2) per session:

Marjorie T. Kelley, kindergarten teacher, Eliot School Eliot District, in the afternoon session in that district, Jan. 25, 1944.

Ann A. Mackie, kindergarten teacher, Nathan Hale School, Dudley District, in the afternoon session, Margaret Fuller School, Agassiz District, Jan. 20 to 28, 1944, inclusive; and in the Beethoven School, Beethoven District, Feb. 1 to 4, 1944, inclusive.

Frances G. Condon, kindergarten teacher, Mozart School, Longfellow District, in the afternoon session, Patrick F. Lyndon School, Patrick F. Lyndon District, Feb. 1, 1944.

Mary B. D'Arcy, kindergarten teacher, Philip H. Sheridan School, Emerson District, in the afternoon session, in that district, Feb. 1, 2 and 3, 1944.

GARDENING, SEASON OF 1944

The Superintendent offered the following five orders:

ORDERED, That the Superintendent is hereby authorized to conduct instruction in gardening during the season 1944 from February 1 to December 31, the summer term of which shall coincide with the summer vacation period.

ORDERED, That the Superintendent is hereby authorized to appoint teachers of gardening to the following ranks for service during the season 1944:

Supervisor of gardening
Garden assistant

ORDERED: That the Superintendent is hereby authorized to make such emergency appointments as may be necessary for service in the gardens during the season 1944.

ORDERED, That any teacher of gardening appointed for the season 1944 may be transferred by the Superintendent from one position to another for which said teacher holds the required license, and said teacher shall be paid according to the schedule established for the position actually filled during any session certified to by the Associate Director of Manual Arts.

ORDERED, That the hours of service of teachers and custodians employed in gardening during the season 1944, unless otherwise specified, shall be such portion of the time between eight o'clock A. M. and eight o'clock P. M. as the Superintendent may direct.

The five orders passed.

COMPENSATION OF EMPLOYEES IN ATHLETICS

ORDERED, That the rank of attendant, games, basketball, is hereby established, compensation to be at the rate of two dollars and fifty cents (\$2.50) per day of service, to take effect Feb. 15, 1944.

SALARY OF MILITARY SUBSTITUTE ARMORER

On motion of the Superintendent, it was

ORDERED, That the salary of Frank N. Zuke, military substitute armorer, is hereby established at the rate of sixteen hundred eighty dollars (\$1,680) per annum, to take effect Jan. 25, 1944, and to continue until otherwise ordered.

ADVISORY COMMITTEE

A communication was received from the Superintendent, under date of Feb. 15, 1944, submitting the following appointments to the Advisory Committee on Safety:

For the term ending Aug. 31 1944:

Frank A. Goodwin, Registrar of Motor Vehicles, 100 Nashua st. Boston 14.

William Arthur Reilly, Fire Commissioner, Fire Department 60 Bristol st., Boston 18

For the term ending Aug. 31. 1945:

John F. Stokes, Commissioner, Department of Public Safety, 1010 Commonwealth ave., Boston 15.

Thomas F. Sullivan, Commissioner, Police Department, 154 Berkeley st., Boston 16.

John J. Walsh, Executive Director, Committee on Public Safety, 55 Tremont st., Boston 8.

For the term ending Aug. 31. 1946:

Edward N. Montgomery, Deputy Chief, Fire Department, 60 Bristol st., Boston 18.

Miss Mary E. Murray, Dean, Massachusetts School of Art, Brookline and Longwood aves., Boston 15.

Approved.

ANNUAL REPORT OF
SUPERINTENDENT

A communication was received from the Superintendent, under date of Feb. 15, 1944, submitting the sixty-first annual report of the Superintendent of Public Schools. The report covers the school year ending Aug. 31, 1943.

The report was accepted.

On motion, it was

ORDERED, That this Committee hereby adopts as its Annual Report for the year 1943, the Annual Report of the Superintendent, being School Document No. 10. 1943.

APPROPRIATIONS AND EX-
PENDITURES TO JAN. 1, 1944

A communication was received from the Business Manager, under date of Dec. 31, 1943, submitting the final statement on the cost of maintenance of the public schools for the fiscal year 1943, showing the appropriations, the expenditures, and the balances for the fiscal year 1943, the expenditures for the fiscal year 1942, and the increase and decreases in the several items.

Placed on file.

ACTING BUSINESS MANAGER

A communication was received from the Business Manager, under date of Feb. 15, 1944, recommending the passage of the accompanying order authorizing the Assistant Business Manager, or in his absence, Joseph W. Fellows, Voucher Clerk, to act as Business Manager during the current fiscal

year, only during the time that the Business Manager is absent or otherwise unable to act.

Placed on file.

On motion, it was

ORDERED, That under the provisions of Chapter 231 of the Acts of 1932, the Assistant Business Manager, or in his absence, Joseph W. Fellows, Voucher Clerk, shall act as Business Manager during the current fiscal year, only during the time that the Business Manager is absent or otherwise unable to act, and shall, during such time, exercise all the powers and perform all the duties of said Business Manager; and be it further

ORDERED, That Joseph W. Fellows, Voucher Clerk, shall be paid, in addition to his regular compensation, at the rate of five dollars (\$5) per day of service as Acting Business Manager.

RETIREMENT OF CUSTODIAN

A communication was received from the Acting Schoolhouse Custodian, under date of Feb. 15, 1944, reporting the retirement of Dennis J. Lenehan, senior custodian, Patrick T. Campbell Schoolhouse, a member of the Boston Retirement System, to take effect Jan. 31 1944.

Placed on file.

TRANSFERS OF CUSTODIANS

A communication was received from the Acting Schoolhouse Custodian, under date of Feb. 15, 1944, recommending that the following-named senior custodians, standing at the head of their respective lists, be transferred to positions indicated, to take effect Feb. 27, 1944:

Dominic S. Cannata from the George T. Angell to the custodianship of the Hyde School-house.

Joseph S. DeLory from the Nathan Hale to the custodianship of the Peter Faneuil School-house.

Philip D. Doherty from the Winship to the custodianship of the Bigelow School-house.

John J. Houlthaus from the William Barton Rogers to the custodianship of the Dorchester High School for Boys.

John B. Houlihan from the Ellen H. Richards to the custodianship of the Richard Olney School-house.

William J. Kearns from the Spencer Memorial to the custodianship of the Oliver Holden School-house.

Herbert J. Kine from the William Blackstone to the custodianship of the Patrick T. Campbell School-house.

William J. Maskill from the John A. Andrew to the custodianship of the Roger Clap School-house.

Edward J. McDonald from the Thomas Gardner to the custodianship of the Charlestown High School-house.

Placed on file and the transfers approved, to take effect on the date stated.

SALARY FOR JUNIOR
CUSTODIANS

On motion, it was

ORDERED, That junior custodians appointed on a salary less than thirty-five dollars (\$35) per week shall be paid thirty-five dollars (\$35) per week beginning Jan. 1, 1944.

REPORTS ON AUDITS OF
BOOKS AND ACCOUNTS

A communication was received from Andrew W. Welch & Company, under date of Feb. 2, 1944, submitting report on their audit of the books and accounts of the Boston Trade High School, the Trade School for Girls, the Brandeis Vocational High School, and the lunch account of the High School of Practical Arts, for the year 1942.

Placed on file.

A communication was received from Andrew W. Welch & Company, under date of Feb. 2, 1944, submitting report on their audit of the books and accounts of the coordinators of the cooperative industrial courses in the several high schools for the year ended Dec. 31, 1942.

Placed on file.

HORTICULTURAL EDUCATION
IN BOSTON

Mr. Ward: I would like to have spread upon the records of the Committee this compilation of items on the numerous institutions, schools, private estates, etc., which have for years been contributing factors to the present status of horticultural education in Boston. It comes from the Agricultural Department of the Jamaica Plain High School, Head Master, John B. Casey.

The following statement prepared by Thomas P. Dooley, Head of the Department of Agriculture, Jamaica Plain High School, was thereupon ordered spread upon the records:

These separate items have been contributed by Agricultural teachers and their pupils from readings, observations and hearsay. The Agricultural teachers at the Jamaica Plain High School are:

Henry G. Wendler — Poultry, Fruit.

Frederick W. Swan — Landscape Gardening.

Dennis M. Crowley — Floriculture.

John W. McGuckian — Market Gardening.

Edward J. Donaghy — Dairy Manufactures.

There has been a marked impetus in horticultural interests in Boston within the last twenty years as noted by many leading educational authorities and professional horticulturists. The general public seems to be responding to the many different types of horticultural education on the part of Harvard University, (Ar-

nold Arboretum, Harvard Botanical Gardens), the Massachusetts Horticultural Society, the Boston Park System, the Jamaica Plain High School Agricultural Department and the scores of other institutions located in Metropolitan Boston.

The Spring Flower Show is held annually in March under the auspices of the Massachusetts Horticultural Society at Mechanics Building. This show originated in 1929 to celebrate the centennial of the founding of this society. Yearly this show attracts about 75,000 paying visitors, though some years it has had an attendance of 100,000. Other shows are held either monthly or bi-monthly at Horticultural Hall for the display of plants that are in their best form for show and competitive condition. These smaller shows usually attract hundreds of visitors. This society has the largest horticultural library in the world which again is encouraging an increase in people who visit the book shelves to read up on various phases of horticulture and agriculture. The annual show for the "Exhibition of the Products of Children's Gardens" started in 1890, is held annually late in August. There are distributed hundreds of cash prizes for the best products in the form of vegetables and flowers from the children's gardens of Metropolitan Boston.

The Arnold Arboretum in Jamaica Plain, a part of Harvard University, has recently attracted as many as 45,000 visitors who came to view the lilacs in bloom. Visitors are constantly going through the grounds at other seasons to view and to study the trees and shrubs. A new venture in the Arboretum is the setting aside of a plot of land for the Massachusetts College of Pharmacy to use in the study of the growth of Medicinal herbs. The administrative building has thousands of dried specimens of plants from all over the world and is used by many plant scientists as means to study these plants. There is also an extensive library located in this building. The Arboretum is recognized as the largest living tree and shrub collection in the world.

The Boston Park System, considered one of the finest of park systems in America, offers many fine attractions for students of Horticulture. The Rose Gardens in the Back Bay Fens and in Franklin Park, attract hundreds of visitors to see and study the varied types of roses in bloom. The planting of trees at Marine Park, South Boston, has been used by college students to study trees adapted to locations near the salt water. Franklin Park, with the zoo and bird exhibits, is visited Sundays by scores of visitors from Boston for recreation and study purposes. The Public Garden in the heart of the city is visited by

thousands of men and women yearly, especially during the period when the tulips and pansies are in bloom.

The Forest Hills Cemetery, located in Forest Hills, Jamaica Plain, is considered one of the finest landscaped cemeteries in America.

Mount Auburn Cemetery in Cambridge, sometimes called "The Cemetery of Poets," is another one noted for its artistic beauty of plants. Its beautiful setting is enhanced by the fact that here are buried Henry W. Longfellow, James Russell Lowell, Oliver Wendell Holmes, Charles Sumner, Edward Everett, Louis Agassiz and Phillips Brooks.

Harvard University in Cambridge has the famous glass flowers on exhibition in the Agassiz Museum as a part of the University Museum. This unique collection of artificial flowers is visited daily by hundreds of people, including students of botany, to see and study these, the only replicas of flowers in glass in the world.

The Isabelle Stewart Gardner Museum in the Back Bay Fens, a marble palace filled with rare art treasures from all over the world, is further vivified by the beautiful arrays of flowering plants in bloom during the various seasons of the year.

The Jamaica Plain High School with its fine agricultural department, the second largest in this country under the Smith Hughes Act, in its twenty-second year, is doing its part in educating high school students of Boston who are interested in Horticulture and Agriculture. Its annual enrollment of one hundred students and its graduate list of over 2,000 students scattered in all parts of this country—in the various professions of Horticulture and Agriculture—has shown that there is a place for this new and most important type of education. The yearly exhibitions and flower judging contests of this school at the annual Spring Flower Show have done much to develop the interest of the younger generation of high school age in the various lines of Horticultural professions.

The Farm and Trade School, situated on Thompson's Island, Boston harbor, is the first, oldest and most famous secondary school of agriculture in America, having started in 1833. This famous school has, during the trying times since its early start, trained hundreds of students in agricultural pursuits.

Metropolitan Boston has achieved fame in the origin and development of many of our past and present important fruits, vegetables and ornamental plants. Three of the outstanding examples of varieties of fruit that are still used as a "yard stick" to measure the qualities of our new and modern fruits are:

The Baldwin Apple, Bartlett Pear and Concord Grape. We have in the vegetable field: the Dan-

vers Carrot, Crosby's Beet, Arlington White Spine Cucumber. Among the ornamental plants should be noted the Boston Fern, Boston Ivy, Beauty Bush, Sargent Cherry, the Lawson Carnation, which sold for \$50,000, the work of Dawson and Walsh on Roses, and the introduction of the Regal Lily. Again we might note the development of the Hybrid Yews, the Rhododendrons (sandwich), Beach Plum, Blueberry and the Cranberry on Cape Cod.

Miss Marion R. Case of Weston has been conducting a summer school for the training of about thirty boys each year at her Hillcrest Gardens. This pioneer movement has done much to motivate the careers of hundreds of these boys toward a more happy and contented life in connection with the various professions now followed by these graduates.

The Market Garden Field Station of the Massachusetts State College at Waltham, started twenty-five years ago, yearly about the first of August, conducts a Field Day for the benefit of vegetable and flower growers in Metropolitan Boston. In 1940, 1300 visitors attended this Field Day to examine the trial plots of vegetables, to see the friendly competition among rival manufacturers of tractors, cultivators, and other gardening implements. The staff is engaged in research demonstration, and service work in general, horticulture, vegetable, fruit, floriculture and nursing stock. Short course lectures are conducted annually in both commercial and amateur gardening. This field station has developed the fine strains of Hutchinson Carrot, Bel-May Lettuce, Waltham Beauty Pepper, Summer Pascal Celery, the trellis and forcing varieties of tomato and last but not least a "crook neck" squash without a crook in the neck.

Metropolitan Boston possesses many outstanding estates which are periodically opened to the general public for their edification and study. Among these estates may be mentioned the Lars Anderson, Brandegee, Bacon, Lyman, Tudor, Sears, Sargent and many others, too numerous to mention. Visitors after viewing the plantings leave with new and inspiring ideas to try out in their own gardens.

The Burroughs Newsboy Foundation is doing a very unique piece of agricultural educational work at the Agassiz Village, West Poland, Maine. They maintain large vegetable gardens, have poultry, horses, and extensive landscaped grounds with rock gardens, etc.

The hundreds of newsboys who spend a period of two weeks at this camp are assigned daily to what is called an "Improvement Hour" where they do such chores as the care of the vegetable garden, poultry, horses and the care of the grounds including the plants, flowers, etc. Nature courses are given daily. Many of these newsboys have developed through these

agricultural contacts, a desire to study agriculture and horticulture for life work.

The 1941 convention of the Department of Garden Education as a part of the National Education Association of the United States celebrated the fiftieth anniversary of the founding of the first school garden in America. The scene of this school garden was at the George Putnam School, Roxbury, in 1891. Garden work since that event in 1891 has been developed by the varied private interests in Boston until it was accepted officially by the Boston School authorities, in 1916. Its conservative but steady growth, will be noted by the scores of school gardens and home gardens as conducted by the private and public schools interested in gardens in all sections of Boston and its Metropolitan district.

It is needless to say that Boston is proud of its many and varied achievements and accomplishments along educational lines. Though conservative, this growth has been steady so that today it offers our visitors many varied types from the adult to the children, types of projects including the many Shrines of original educational endeavor which are offered to our visitors to bring back to their native habitations to cherish and possibly serve as examples of what our noble pioneers did in this, the original and finest profession of man—that of the raising of plants for their beauty and food value. What more could Boston show today during the stress and strain of a second World War?

HEARING RE EMPLOYMENT OF MARRIED WOMEN AS TEACHERS

Chairman: For the information of the press and the members of the school service present, on Thursday of this week at half-past four in the afternoon, the School Committee is holding a public hearing on the petition of the Citizens' Committee for Teachers' Rights with regard to whether a female teacher in the schools of Boston shall be permitted to retain her status as a permanent teacher following marriage.

I would like the press to publicize this hearing so that we may have the views of the proponents of this petition as well as those who are opposed to it.

ADDITIONAL WARTIME CHILD CARE CENTERS

Mr. Ward: I think the Superintendent has a statement to make with reference to a telegram received from the senior Senator from Massachusetts relative to Government approval of child care centers. I wish he would read it.

Superintendent: A telegram was received from Hon. David I. Walsh stating that the funds for

opening three more child care centers, making seven in all, as we had originally requested, had been approved by the Federal Works Agency, and that we would receive official information at an early date.

Mr. Ward: I think we should send a letter to Senator Walsh thanking him for his efforts on behalf of the Boston schools.

It was so agreed.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

To raze the building at 213 West Second street, Ward 6, by agreement with the City Building Wrecking Company, 185 Somerville avenue, Somerville.

Due to the structurally unsafe condition of the building at 25 Chadwick street, Ward 8, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 27 Chadwick street, Ward 8, to enter the premises and remove the building.

Consistent with the provisions of the Boston Building Code, section 116, chapter 479, Acts of 1938 as amended, to vacate the fourth floor of the building at 368-372 West Broadway, as the said floor shows excessive deflection and is in an unsafe and dangerous condition.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING ART EDUCATION AND MECHANICAL DRAWING SUPPLIES FOR BOSTON PUBLIC HIGH AND SPECIAL SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at the several schools as directed by the Business Manager, art education and mechanical drawing supplies as per schedule. Proposal forms, for which a charge is made, are obtainable at the office of the Business Manager of the School Committee, 15 Beacon street, tenth floor. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Art Education and Mechanical Drawing Supplies." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check payable to the City of Boston in the amount of at least 5 per cent of the total bid must be left at the office of the Business Manager on or before 12 o'clock m. on Thursday, March 23, 1944. Copies filed with the Business Manager will be publicly opened at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The School Committee reserves the right to reject any or all bids, and to accept such bid or part of bid as may be deemed best for the interests of the city. The successful bidders will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(March 11.)

CITY OF BOSTON.

PUBLIC BUILDINGS DEPARTMENT.

PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR PAINTING; THE INTERIOR PAINTING OF THE STAIRHALLS, STAIRS AND CORRIDORS, AND THE EXTERIOR PAINTING OF THE BOSTON CITY HALL.

The Superintendent of Public Buildings of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for painting work as listed above.

Proposals will be received until 12 o'clock noon, Thursday, March 16, 1944, at the office of the Awarding Authority, 1005 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Monday, March 13, 1944, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

LEO F. POWER,
Superintendent of Public Buildings.
(March 11.)

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about twelve thousand six hundred sixty (12,660) square feet of land, with the buildings thereon, on the southeasterly side of Orleans street, East Boston, numbered one hundred forty-seven (147) and one hundred forty-nine (149) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5648, page 261, on Tuesday, March 21, 1944, at 11 a. m., on the premises, at a minimum price of seventeen hundred and fifty dollars (\$1,750).

A deposit of three hundred dollars (\$300), in cash or certified check, is required at the time and place of sale, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
Chairman.
(March 11-18.)

CITY OF BOSTON.

POLICE DEPARTMENT.

PROPOSALS FOR MAKING AND DELIVERING
POLICE UNIFORM GARMENTS.

The Police Department of the City of Boston invites proposals for making and delivering uniform garments. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for \$1,000, payable to and to become the property of the Police Commissioner for the City of Boston if the proposal is not carried out. Proposals will be publicly opened and read on Thursday, March 16, 1944, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any or all proposals or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

THOMAS F. SULLIVAN,
Police Commissioner.

THE SCHOOL COMMITTEE OF THE
CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING BASEBALL UNIFORMS
AND SUPPLIES FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing baseball uniforms and supplies for the Boston public schools. Proposal forms, for which a charge is made, are obtainable at the office of the Business Manager of the School Committee, 15 Beacon street, tenth floor. Envelopes containing proposals must be sealed and plainly marked "Proposal for Baseball Uniforms and Supplies." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check payable to the City of Boston, in the amount of at least 5 per cent of the total bid, must be left at the office of the Business Manager on or before 12 o'clock m. on Wednesday, March 22, 1944. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for opening bids. The School Committee reserves the right to reject any or all bids, and to accept the bid or bids which it deems best for the interests of the city. The successful bidder will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(March 11.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING AUTOMOBILE MOTOR OIL.

The Supply Department of the City of Boston invites proposals for furnishing automobile motor oil, as per specifications contained in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposals for Automobile Motor Oil." There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. The bids will be publicly opened and read Tuesday, March 21, 1944, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

FRANCIS X. LANG,
(March 11.) Superintendent of Supplies.

CITY OF BOSTON.

HOSPITAL DEPARTMENT, SANATORIUM
DIVISION.

PROPOSALS FOR WINDOW CLEANERS.

The Trustees of the Boston City Hospital invite sealed proposals for window cleaning of the Sanatorium Division, 249 River street, Mattapan, for the year 1944, and giving bond of a surety company therefor in the sum of 45 per cent of the estimate. Only proposals obtained at the office of the Assistant Superintendent, 249 River street, Mattapan, and left before 12 o'clock noon of Wednesday, March 22, 1944, with a certified check for \$50, payable to the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. The bids must be made in duplicate; the one with the check to be left at the Sanatorium, the other one to be filed with the City Auditor, City Hall, before 12 o'clock noon on the date given above for receiving proposals. The proposals are to be addressed "Boston City Hospital, Sanatorium Division, Proposals for Window Cleaning." The successful bidder will be required to provide insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Trustees reserve the right to reject any and all proposals.

JAMES W. MANARY, M. D.,
(March 11.) Superintendent.

CITY OF BOSTON.

BOARD OF REAL ESTATE
COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about eight hundred thirty-eight (838) square feet of land on the northeasterly side of Everett street, East Boston (formerly), numbered eighty-two (82) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5479, page 593, on Tuesday, March 21, 1944, at 10 a. m., on the premises, at a minimum price of one hundred and seventy-five dollars (\$175).

A deposit of fifty dollars (\$50), in cash or certified check, is required at the time and place of sale, balance to be paid in ninety (90) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
(March 11-18.) Chairman.

THE SCHOOL COMMITTEE OF THE
CITY OF BOSTON.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, March 20, at 2 p. m.
Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

POLICE DEPARTMENT ORDERS.

General Order No. 86.

The resignation of Patrolman Michael S. Keaveney of Division 17 having been presented, it is hereby accepted, to take effect as of Wednesday, March 8, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 87.

A trial board consisting of Captains Duggan, McNabb and DiSessa, having heard by reference a complaint made by Frank H. Sliney, captain, Division 2, against Joseph P. Donahue, patrolman, Division 2, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge: Conduct unbecoming an officer.

Specification: In that on the 24th day of February, 1944, said Patrolman Joseph P. Donahue, while off duty and in uniform, in the Ashmont Station of the Boston Elevated Railway, was under the influence of intoxicating liquor to such an extent that he would be unable to perform the duties of a police officer if called upon so to do,

has submitted the following finding and recommendation:

"The Board after hearing and carefully considering all the evidence find the said Patrolman Joseph P. Donahue guilty as charged and respectfully recommends that he be suspended for a period of thirty (30) days, effective as of 12.30 a. m., February 25, 1944, and at the expiration of said period of suspension he perform 315 hours of punishment duty."

The commissioner accepts the finding and recommendation of the Trial Board and hereby orders that the said Patrolman Joseph P. Donahue be suspended from duty for a period of thirty (30) days, effective as of February 25, 1944, at 12.30 a. m., and that at the expiration of the said period of suspension the said Patrolman Joseph P. Donahue perform 315 hours of punishment duty.

General Laws, chapter 31, section 46C, as amended, requires approval of the Director of Civil Service before reinstatement.

Chapter 31.

"Section 46C (as amended). An officer or employee of the Commonwealth or of a city or town who has become separated from the classified civil service through fault or delinquency of his own shall, within thirty days after the filing of a written request by the appointing officer, be entitled to a hearing before the director. Upon good cause shown, the director may, subject to section 46C, authorize his reinstatement in the same position or in a position in the same class and grade as that formerly held by him."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

SUPPLY DEPARTMENT.

Upon March 11 the Mayor approved a contract with lowest bidders as indicated for furnishing paper cups for the city departments, as required, from February 2, 1944, to December 31, 1944, with the privilege of purchasing on same terms and conditions extended to January 31, 1945. The approximate totals of awards were as follows:

Massachusetts Envelope Company, \$4,830; H. J. Dowd Company, Inc., \$1,099. Total, \$5,929.

Bids, opened February 7, were as follows:

3,000,000 American Sanitary, One-Piece, Flat Bottom Paper Drinking Cups, or Equal, Per M.—Massachusetts Envelope Company, No. 45 Sunshine, \$1.61.*

500,000 Flat, Envelope Style, Paper Drinking Cups, 250 to Box, for Long Island and Sanatorium, Etc., Per M.—H. J. Dowd Company, Inc., 90 cents*; Massachusetts Envelope Company, Meco Sanitary Safety Edge, 90 cents.

550,000 "Vortex," or Equal, Drinking Cups, Per M.—H. J. Dowd Company, Inc., \$1.18*; Massachusetts Envelope Company, Dixie Vortex, \$1.30.

Cash Discount, Ten Days.—H. J. Dowd Company, Inc., 2 per cent; Massachusetts Envelope Company, 2 per cent, ten days or thirty days.

Remarks.—H. J. Dowd Company, Inc., subject to any governmental regulations which would interfere or any conditions beyond bidder's control.

* Contract awarded.

Upon March 11 the Mayor approved a contract with F. H. Woodruff & Sons, Inc., for furnishing grass seed for the Franklin Park yard, Park Department. The amount of the contract was \$2,185.

Bids, opened February 7, were as follows:

5,000 Pounds Grass Seed, as Per Specifications, Per Pound Delivered.—Collins Seed Service Company, 45.5 cents; Joseph Breck & Sons, 57.39 cents; F. H. Woodruff & Sons, Inc., 43.7 cents*; O. M. Scott Company, 43.5 cents, bid irregular, both copies of bid filed at City Auditor's office; The Belt Seed Company, Inc., 44.4 cents.

Total.—Collins Seed Service Company, \$2,275; Joseph Breck & Sons, \$2,869.50; F. H. Woodruff & Sons, Inc., \$2,185; O. M. Scott Company, \$2,425; The Belt Seed Company, Inc., \$2,220.

Cash Discount, Ten Days.—Collins Seed Service Company, 1 per cent; Joseph Breck & Sons, 2 per cent; O. M. Scott Company, 1 per cent; The Belt Seed Company, Inc., 1 per cent.

Net Total.—Collins Seed Service Company, \$2,252.25; Joseph Breck & Sons, \$2,812.11; F. H. Woodruff & Sons, Inc., \$2,185; O. M. Scott Company, \$2,400.75; The Belt Seed Company, Inc., \$2,217.22.

Earliest Delivery Date.—Collins Seed Service Company, March 30, 1944; Joseph Breck & Sons, early March; F. H. Woodruff & Sons, Inc., ten days after receipt of order; O. M. Scott Company, ten days; The Belt Seed Company, Inc., forty-eight hours from receipt of order.

Remarks.—Joseph Breck & Sons, see specifications, Oregon; The Belt Seed

Company, Inc., bid is for acceptance in seven days unless extension is especially requested.

* Contract awarded.

Upon March 11 the Mayor approved contracts with the lowest average bidder, the Basch Cap Company, for furnishing uniform caps for the Boston Fire Department, as required, until December 31, 1944. The approximate amount of the contract was \$1,375. Bids, opened February 24, were as follows:

500 Privates' Winter Caps, B. F. D., as Per Specifications, Each.—Basch Cap Company, \$2.25*; Wentworth-Forman Company, Inc., \$2.35.

100 Officers' Winter Caps, B. F. D., as Per Specifications, Each.—Basch Cap Company, \$2.50*; Wentworth-Forman Company, Inc., \$2.45.

Cost of Material, Per Yard.—Basch Cap Company, \$3.95*; Wentworth-Forman Company, Inc., \$3.95.

Total.—Basch Cap Company, \$1,375; Wentworth-Forman Company, Inc., \$1,420.

Cash Discount, Ten Days.—Basch Cap Company, 2 per cent; Wentworth-Forman Company, Inc., 1 per cent.

Net Total.—Basch Cap Company, \$1,347.50; Wentworth-Forman Company, Inc., \$1,405.80.

Upon March 11 the Mayor approved a contract with the United States Rubber Company for furnishing 200 rubber coats for the Boston Fire Department, as required, at a price of \$6.40 each for sizes 36 to 46, inclusive, plus 25 cents per size for sizes larger than 46. The approximate amount of the contract was \$1,300. Bids, opened February 24, were as follows:

200 Boston Fire Department Standard Fire Rubber Coats, Color Black, Each.—United States Rubber Company, \$6.40, sizes 36 to 46, inclusive, 25 cents extra per size for sizes larger than 46*; total, \$1,300.

* Contract awarded.

WITHOUT ADVERTISING.

The Mayor has approved the following request of the Penal Institutions Department:

PENAL INSTITUTIONS DEPARTMENT.

Boston, March 8, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Owing to a recent law passed, chapter 69, Acts of 1941, which provides "that all persons committed for any crime unless the court otherwise orders, take or cause to be taken his name, age, height, weight, photograph, and general description and copies of his finger prints in accordance with the finger print system of identification of criminals. All such photographs and identifying matter shall be transmitted forthwith to the Commissioner of Public Safety." The above law took effect as of June 8, 1941, and it is compulsory that all inmates be photographed upon commitment on and after that date.

In accordance with the above law, I therefore respectfully request permission to award a contract, without publicly advertising, to the Fay Foto Service Company for the performance of taking photographs of all persons committed to the House of Correction. Deer Island,

in the sum of one and twenty-five-hundredths dollars, (\$1.25) per picture. Estimated cost will exceed \$1,000.

This type of work is necessarily of a very confidential nature. The Fay Foto Service Company has done this work for the past seven years in a highly satisfactory manner. Because this company has guarded carefully these confidences, and because confidential matter is best entrusted to one company, I feel that the city's interest will be best served by continuing their services.

Respectfully yours,

JOSEPH P. DONAHUE,
Penal Institutions Commissioner.

CIVIL SERVICE EXAMINATIONS. (STATE AND CITY.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

STOREKEEPER. MAY 6, 1944.

CIVIL SERVICE EXAMINATIONS.
(STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

SOCIAL WORKER, DEPARTMENT OF CORRECTION, MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,440 a year plus a temporary increase of \$240; the maximum salary is \$2,160 a year.

Vacancies: At present there are the following vacancies:

One vacancy for a permanent Social Work at State Prison.

One vacancy for a permanent Social Worker in the main office of the Department of Correction.

One vacancy for a male military substitute at Massachusetts Reformatory, due to induction into the service of the permanent employee.

One vacancy for a male military substitute at State Farm, due to induction into the service of the permanent employee.

Duties: To interview inmates for detailed information concerning personal history, family history, personality, etc., as a basis for field investigation; to contact by visit and correspondence sources of information such as police, courts, social agencies, family members, etc.; to compose detailed case histories from field investigation notes and correspondence, concluding with diagnosis and suggested treatments; to consult with and advise officials concerning cases presenting special institutional problems; to organize investigation material so that decision can be made concerning classi-

fication and suitability for transfer or commitment to other institutions; to assist in the selection of inmates suitable for transfer and to prepare detailed transfer summaries on inmates transferred; to make special investigations in the cases of alcoholics sentenced to the State Farm and Reformatory for Women, to assist their families in meeting special problems which might arise, and to assist in the rehabilitation of the alcoholics following their release; to perform certain specific clerical duties relating to the records of the alcoholics, such as records of their transfers, paroles, parole violations, revocation warrants, etc., and to handle notifications and inquiries received from courts, police, Massachusetts Board of Probation, social agencies, etc., concerning the alcoholics under the care of the Massachusetts Department of Correction.

Entrance Requirements: Applicants who have not reached their twenty-second birthday or who have passed their forty-fifth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Applicants must have had at least two years of satisfactory, full-time paid experience within the last five years in any or all of the following: (1) in work in a penal, probational, parole, or correctional institution, department, or agency, including training schools; (2) in work in a social case work capacity with an acceptable agency dealing with family or individual problems of maladjustment. *Substitution:* Graduation from a recognized college with major study in the social sciences may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

STATISTICAL MACHINE OPERATOR (I. B. M. MACHINES), MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,140 a year plus a temporary increase of \$240; the maximum salary is \$1,440 a year.

Vacancies: From time to time.

Duties: To operate I. B. M. machines, punching cards from data previously coded; and to perform related work as required.

Entrance Requirement: Applicants must have had at least six months' full-time paid experience in the operation of I. B. M. machines.

Subjects and Weights: Training and experience, 2; practical questions, including practical tests in the operation of I. B. M. machines, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CIVIL SERVICE EXAMINATIONS.
(STATE AND CITY.)

X-RAY TECHNICIAN, QUINCY CITY HOSPITAL, MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

This examination is open to residents of the state.

Salary: \$90 a month, with maintenance.

Vacancies: At present there is one vacancy for a female.

Duties: To execute X-ray examinations which are ordered by doctors on their patients, such as examinations of fractures, gastro-intestinal series, etc., and to perform related work as required.

A knowledge of anatomy and X-ray technique is required.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

LABORATORY TECHNICIAN, QUINCY CITY HOSPITAL, MAY 6, 1944.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

PSYCHIATRIC SOCIAL WORKER, DEPARTMENT OF MENTAL HEALTH, MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,680 a year, plus a temporary increase of 15 per cent; the maximum salary is \$2,160 a year.

Vacancies: At present there are the following vacancies:

Two vacancies for permanent appointment at the Worcester Child Guidance Clinic and one vacancy for permanent appointment at the Springfield Child Guidance Clinic.

Four vacancies for permanent appointment in the field of adult psychiatric social work, at Metropolitan, Westborough, Worcester, and Monson State Hospitals.

A promotional examination is to be held on the same date. Certifications to fill these vacancies will be made first from the list established as a result of the promotional examination. If the promotional list is not sufficient to meet the needs of the department, names will then be certified from the list established as a result of this examination.

Duties—*In Child Guidance Clinics:* To act as member of the therapeutic team of psychiatrist, psychologist and social worker; to take case histories, in which emotional and psychological data, and medical information and diagnoses are elicited; to work with child patients, eliciting preoccupations, anxieties, and other psychological stresses, and in some instances to make diagnostic decisions

and institute therapeutic procedure under supervision; to interview and counsel parents and others responsible for the child patient on a therapeutic level; to elicit and interpret information from workers representing other social agencies and to transmit to such correlating agencies expert opinion, advice and reports; to interpret the Clinic's findings to representatives of the public school system and to obtain their cooperation in the program mapped out for the child patient; on occasion, to address public meetings of laymen, and other conferences relative to child hygiene matters; to assist in the instruction, guidance, and supervision of work of students in social work assigned to the Clinic by accredited schools.

Duties—*In the field of adult psychiatric social work:* Under supervision to perform the more important social service case work in connection with the care and treatment of psychiatric patients or inmates of State institutions, or investigation involving the determination of the mental condition of individuals, either as to their need for institutional care, or their adjustment to conditions in the community; to assist in the investigation of cases pending before the Courts in which Psychiatric problems are involved; in some cases to work with and instruct employees of lower grades, in smaller institutions or when assigned to act in the capacity of Head Social Worker; to attend and assist at psychiatric clinics in the community, inspecting and giving advice to family care patients and caretakers; to investigate and report on proposed family care homes, and at times to seek employment for persons leaving the hospital who are in suitable condition for placement in an occupation; to represent the hospital in the community by delivering lectures before groups and participation in round table discussions, seminars, etc., and to perform related work as required.

Entrance Requirement: One year's full-time experience in supervised social work in an agency devoted to family case work and children's problems; in cooperative case work with other community agencies, schools, courts, hospitals and physicians; in dealing with adults and children in their social, economic and emotional problems. *Substitution:* Successful completion of two years' training in a recognized school of social work may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CIVIL SERVICE EXAMINATIONS.

AMENDED NOTICE.

(Change in Age Limit.)

PUBLIC HEALTH NURSE, BOSTON HEALTH DEPARTMENT, APRIL 15, 1944.

Last date for filing applications, Monday, March 27, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,400 a year; the maximum salary is \$1,800 a year.

Vacancies: At present there are eleven vacancies for permanent Public Health

Nurses, and five vacancies for military substitutes, due to induction into the service of the permanent employees.

Duties: Under the guidance of supervisors of public health nursing, to plan and execute public health nursing work in the fields of tuberculosis, school nursing, communicable diseases, health service for day nurseries, and nursery schools, and to teach health practices in connection with all these fields.

Examples of Duties: Follow-up work in connection with clinic service for well children, tuberculosis, etc.; attendance at Health Department clinics, assisting the physicians, and home visits for health instruction on all necessary cases; daily visits to give health service in the parochial schools and in day nurseries.

Applicants must have a knowledge of pediatrics, mental hygiene, nutrition, skin diseases, communicable diseases, and personal and community hygiene.

Entrance Requirements: Applicants who have not reached their twenty-first birthday or who have passed their fiftieth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Applicants must be registered nurses under the State Board of Registration in Nursing on the date of filing application.

Applicants must have at least one year's paid experience in public health nursing. *Substitution:* Completion of an approved course in public health nursing may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

ODD ITEMS FOR WAR PRODUCTION.

Many an unusual item has crept into the shopping lists of automobile purchasing agents as a result of war production needs.

Toothpicks, dish mops, pure mutton tallow, dry ice, canvas foot covers, police whistles and razor blades are just a few of such implements being used by one company in its production of aircraft engines and combat vehicles. Toothpicks are used by the first-aid departments for medical dressings.

SEA-GOING DRY DOCKS.

Bigger than a battleship! That's the rough proportion of some of the new Navy floating dry docks which can be towed or self-propelled at speeds sufficient to follow our fleet into action. Indeed, the dry docks are large enough to handle even a mighty battleship when it needs repairs or overhauling.

Never before have floating dry docks been built so large, taken so far. Never before have docks of this character been so mobile. The Navy has spent upward of \$300,000,000 on their floating dry dock program and it has been a shrewd investment. Now, instead of damaged warships traveling the thousands of miles from the theaters of action to an American coastal dry dock for repairs, it can be placed in a floating dry dock on the spot in a matter of hours, thus saving precious time.

PROCEEDINGS OF CITY COUNCIL.

Monday, March 6, 1944.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. Hurley, Russo, Scannell and Taylor.

The meeting was opened with the salute to the Flag.

Kaye, Ward 3; Joseph Maltzman, Ward 3; Charles L. Marcon, Ward 3; Alfred J. Marotto, Ward 3; Israel Miller, Ward 3; Louis Weiner, Ward 3; Henry Brown, Ward 4; Edwin A. Knowlton, Ward 4; George G. Murray, Ward 4; Merrit R. Bridge, Ward 5; LeRoy J. Briggs, Ward 5; James J. Hayes, Ward 5; Harry Penn, Ward 5; Donald O. Richardson, Ward 5; Giovanni Tozzi, Ward 5; Wendell E. Lanzendofer, Ward 6; George F. Matthews, Ward 6; James Israel Segol, Ward 6; Philip Bird, Ward 7; William K. Fletcher, Ward 7; Charles E. Jacob, Ward 7; Thomas F. King, Ward 7; Alton H. Swanson, Ward 7; John H. DeBesse, Ward 8; Walter L. Rollins, Ward 8; Robert D. Symon, Ward 8; William H. Whelton, Ward 8; Louis W. Cramer, Jr., Ward 9; Louis A. Curtis, Ward 9; Patrick J. Higgins, Ward 9; Everett E. Robinson, Ward 9; Frederick Young, Ward 9; John G. Foundas, Ward 10; Michael Keenan, Ward 10; Joseph Moran, Ward 10; Frederick V. Paul, Ward 10; Walter J. Rau, Ward 10; Bernard F. Travers, Ward 10; Charles A. Wells, Ward 10; Frank C. Harzbecker, Ward 11; Joseph McCormick, Ward 11; Patrick Morris, Jr., Ward 11; Milton E. Oberlander, Ward 11; Kenneth O. Brothers, Ward 12; Robert M. Eppe, Ward 12; John D. Fortune, Ward 12; Joseph Isler, Ward 12; Harry Komins, Ward 12; Julius Millman, Ward 12; George F. Barton, Ward 13; Patrick Costello, Ward 13; Eugene H. Curtis, Ward 13; Arthur F. Rogers, Ward 13; Patrick J. Veldon, Ward 13; Maurice Buchman, Ward 14.

William J. Davis, Ward 14; Joseph T. Dooley, Ward 14; George H. Feingold, Ward 14; Hyman Goldstein, Ward 14; Julius E. Rosengard, Ward 14; Morris Ruden, Ward 14; Theodore Segelman, Ward 14; Robert P. Severy, Ward 14; Benjamin Green, Ward 15; James H. LeGere, Ward 15; Thomas E. Rayel, Ward 15; John J. Shea, Ward 15; George A. Berg, Ward 16; William J. Connors, Ward 16; James C. Emerson, Jr., Ward 16; Harley F. Parker, Ward 16; Edward A. Smith, Ward 16; Frederick J. Tochterman, Ward 16; Kermit P. Atkinson, Ward 17; Harry Boeholtz, Ward 17; Vinton E. Delano, Ward 17; George N. Donahue, Ward 17; Henry T. Lahey, Ward 17; Russell G. Munroe, Ward 17; Wilbur J. Perley, Ward 17; Harry M. Wassersug, Ward 17; Simon Adelberg, Ward 18; Russell Diknak, Ward 18; John M. Gordon, Ward 18; Loftus C. McGuire, Ward 18; Melton A. Nielsen, Ward 18; George F.

Oakes, Ward 18; Oscar F. Porter, Ward 18; Ralph F. MacKendrick, Ward 19; Franz Michelberger, Ward 19; Elmer J. Ryan, Ward 19; Howard D. Slauenwhite, Ward 19; George H. Brauer, Ward 20; James Leo Callahan, Ward 20; Lyder C. Gullackson, Ward 21; Gerald E. Munroe, Ward 21; Myer Eteoff, Ward 21; Harry D. Shore, Ward 21; Saul Smokler, Ward 21; Leo J. Webber, Ward 21; John Coyne, Ward 22; Frank G. Licciardi, Ward 22; Leigh E. McLellan, Ward 22; Thomas R. Quinlan, Ward 22; Thomas W. Sullivan, Ward 22.

APPOINTMENT BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointment, viz.:
Weigher of Coal: James Arthur Essensa, 103 Suffolk avenue, Revere, Mass.
Laid over a week under the law.

STREET LIGHTS ON WASHINGTON STREET.

The following was received:

City of Boston,
Office of the Mayor, March 6, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works regarding the installation of electric street lights on Washington street, from Eggleston square to Forest Hills terminal, when Federal authorities allow new installations of lights.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
February 29, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council under date of February 21:

"Ordered, That his Honor the Mayor request the Public Works Commissioner to install electric street lights on Washington street, from Eggleston square to Forest Hills terminal, when Federal authorities allow new installations of lights."

Appropriate action will be taken on the above-referenced order at such time as the materials needed to effect the above-referenced improvement will be available for purchase by the Boston Edison Company.

At the present time the War Production Board will not approve the installation of any substantial number of new street lights, and, in view of this, of course, no favorable action regarding this order can be taken at this time.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

PAYMENT OF CADET NURSES CORPS.

The following was received:

City of Boston,
Office of the Mayor, March 6, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the trustees of the Boston City Hospital regarding your order of February 14, 1944, with regard to the immediate payment of the United States Cadet Nurses Corps, now engaged at the Boston City Hospital as trainees.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Hospital Department, February 28, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—At a meeting of the Board of Trustees held on February 25, the following order of the City Council was presented:

"Ordered, That the trustees of the Boston City Hospital be requested, through his Honor the Mayor, to immediately pay the United States Cadet Nurses Corps, now engaged at the Boston City Hospital as trainees."

The trustees instructed me to inform you that the cadet nurses are paid as promptly as the trustees are in receipt of Federal money.

Respectfully yours,
JAMES W. MANARY, M. D.,
Superintendent.

Placed on file.

EXTRA COMPENSATION FOR FIRE DEPARTMENT DIVERS.

The following was received:

City of Boston,
Office of the Mayor, March 6, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Fire Commissioner regarding your

order of January 24, 1944, concerning extra compensation for members of the department who become divers.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Fire Department, February 28, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—I am in receipt of the City Council order dated January 24, 1944, regarding extra compensation for those members of the department who become divers. At the present time in the Fire Department there are three men capable of rendering special service in case of emergencies requiring under-water work.

In most cases professional divers are hired for this type of work so that in recent years we have not had many incidents requiring the services of our department divers.

However, it is necessary for these men to practice periodically and there is no question but that extra compensation would induce more members of the department, particularly those connected with our fireboats, to become interested in this type of work and become qualified for such service.

Some time ago I talked with one of the members of the department who is qualified for diving work and at that time I said that at a latter date I would present this matter for your attention. Meanwhile, there are other special branches of our service more active in their particular specialty who, I believe, are equally entitled to extra compensation, and until such groups are the recipients of extra allowances for their work I would not initiate a recommendation for extra compensation to the divers. However, this in no way indicates that such compensation is not warranted but like all other matters of this kind depends upon the financial capacity of the city to meet the many demands which are made for extra pay to employees qualified to do special work.

Sincerely yours,
WM. ARTHUR REILLY,
Fire Commissioner.

Placed on file.

RESURFACING OF CERTAIN WARD 11 STREETS.

The following was received:

City of Boston,
Office of the Mayor, March 6, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works regarding your order of February 21, 1944, concerning the resurfacing with smooth pavement of Eggleston street, Germania street, Copley street, Washington street, Ward 11.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
February 29, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed by the City Council under date of February 21:

"Ordered, That his Honor the Mayor request the Public Works Commissioner to resurface with smooth pavement Eggleston street, Germania street, Copley street, Washington street, Ward 11."

An immediate survey will be made to determine the necessity of resurfacing the above-referenced streets, and every reasonable effort will be made to comply with the above-referenced provisions during the current year, assuming that the results of the survey will show that such action is necessary.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

PENSIONING OF CERTAIN CITY EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, March 6, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel regarding your order of February 21, 1944, concerning a petition for presentation to the next session of the Legislature for the enactment of legislation permitting employees of the City of Boston who have served as such for a period of twenty years to be pensioned on an annual pension measured by one half of their annual compensation in order that vacancies thereby created may be filled by returning veterans.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, February 28, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I have your communication of February 24, 1944, inclosing a copy of the City Council order of February 21, 1944, to the

effect that a petition be prepared for presentation to the next session of the Legislature for the enactment of legislation permitting employees of the City of Boston who have served the city as such for a period of twenty years to be pensioned on an annual pension measured by one half of their annual compensation in order that vacancies thereby created may be filled by returning veterans.

This matter will be given careful consideration by the Law Department when the time arrives for preparing petitions to be presented to the next General Court.

Yours very truly,
FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

PAYMENT TO TOWN OF NORWOOD.

The following was received:

City of Boston,
Office of the Mayor, March 6, 1944.
To the City Council.
Gentlemen,—The town of Norwood, Massachusetts, requests reimbursement for loss sustained by it under the following circumstances:

On Saturday evening, November 28, 1942, in response to the appeal made by Fire Commissioner Reilly to the nearby cities and towns for aid and assistance by making available transportation facilities to be used in removing to the hospitals in and near the City of Boston persons injured in the fire at the Coconut Grove, the town of Norwood generously dispatched to the scene of the fire an ambulance containing full equipment. During the course of the rescue work certain equipment, consisting of a Bomgardner Cot equipped with side arms and foot rest, a sponge rubber mattress and a sponge rubber cover, became lost or misplaced, and the ambulance was returned to the town with such equipment missing. When the loss was reported to the Boston Fire Department a diligent search was conducted to no avail. The amount of the loss claimed to have been suffered by the town of Norwood is in the amount of one hundred ninety-five (195) dollars.

It is a matter of general knowledge that many lives of persons injured in the fire were saved only because they received prompt medical care and treatment in the hospitals. It would not have been possible to convey large numbers of the injured to the medical centers in our community in such a short space of time without the aid and assistance given by our neighboring cities and towns in making available ambulances. In the emergency which confronted our public safety agencies the response of the surrounding communities will forever remain an inspiring example of sympathy and cooperation. The assistance rendered by the town of Norwood in the emergency was of incalculable value to the City of Boston, and I believe that the public interest will be served in reimbursing the town for the loss it sustained. Accordingly, I recommend passage of the accompanying order.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That there be, and hereby is, allowed, and there shall be paid, to the town of Norwood, Massachusetts, the sum of one hundred ninety-five dollars (\$195) as reimbursement for the loss of a Bomgardner Cot with side arms and foot rest, a sponge rubber mattress and a sponge rubber cover, which occurred on November 28, 1942, during the rescue work at the Coconut Grove fire to which an ambulance, belonging to said town, in which such articles were contained, was dispatched in response to an appeal therefor made by officers of the City of Boston in charge of public safety operations at said fire; said sum to be charged to the Contingent Fund.

Referred to Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Leonie W. Barry, for compensation for loss of ash barrels at 125 Commonwealth avenue.

Beacon Fast Freight Company, for compensation for damage to car by city truck.

Patrick J. Connolly, to be reimbursed as result of accident which occurred while in performance of duty.

Ruth Hendrikson, for compensation for injuries caused by an alleged defect at 48 Rutland square.

Walter C. Mackie, to be reimbursed as result of accident which occurred while in performance of duty.

Joseph W. O'Brien, to be reimbursed as result of accident which occurred while in performance of duty.

Katherine E. Phelan, for compensation for injuries caused by an alleged defect at 22 Orkney road.

Edward A. Ryan, for compensation for damage to property at 37 Edson street, caused by drain being stopped up.

L. J. Saquet, for compensation for damage to property at 38 Hanson street, caused by water coming in from sewer.

Joseph J. Shortall, for compensation for loss of clothing at City Hospital.

Stella M. Phillips, for compensation for injuries caused by an alleged defect at 126 Appleton street.

INTEREST IN CONTRACT.

Notice was received from William H. Ellis, member of Board of Appeal, of interest in contract for making repairs to Chelsea North Draw Pier.

Placed on file.

APPROVAL OF CONSTABLE'S BOND.

The constable's bond of Frederick Fishman, having been duly approved by the City Treasurer, was received and approved by the Council.

MAXIMUM SALARY IN THREE YEARS FOR FIRE AND POLICE DEPARTMENT MEMBERS.

Coun. HANNON and FISH offered the following:

Ordered, That his Honor the Mayor be requested to direct the Fire Commissioner and the Police Commissioner to establish the rule that permanent employees of the Fire and Police Department attain their maximum salary in three years rather than the existing period of five years.

Passed under suspension of the rule.

SOLDIERS' VOTE.

Coun. HANNON and HANLEY offered the following:

Resolved, That the City Council indorse the effort being made by the Congress of the United States to provide proper voting facilities for men in the armed service and recommend that the right to vote be extended to all members of the armed forces, without regard to age.

Coun. HANNON—Mr. President, there is a great deal of talk in the papers nowadays about permitting the members of the armed forces to perform their natural function of voting, thereby expressing their preferences on election day. The argument is now being generally used that the age limit for voting by members of the armed forces should be reduced from twenty-one to eighteen years, with the feeling that those old enough to fight are old enough to vote. With that I agree, and in this order I am trying to give voice to that argument. It is true, of course, that there are many boys in the armed forces who are but seventeen years of age, or perhaps only sixteen. But I agree with the general argument that those who are old enough to fight for their country, offering their lives, are old enough to vote.

Coun. KELLY—Mr. President, I am glad to see this order introduced today. Ten months ago, or even perhaps longer ago, I introduced a similar order that boys of eighteen should be allowed to vote. I had a copy of that order sent to every member of Congress, and I certainly trust that steps may be taken so that these boys who are old enough to fight for their country when they have reached the age of eighteen are old enough to vote.

Coun. HANNON—Mr. President, out of curiosity, since my friend has suggested that ten months ago he offered such an order and that members of Congress received copies of it, I would like to ask—simply, as I say, as a matter of curiosity—if he got a reply back from members of Congress. Was that order ever noticed by them?

Coun. KELLY—Mr. President, I did receive some replies.

Coun. COFFEY—Mr. President, does the order read "boys of over eighteen," or does it simply refer to those in the service?

The order was read, and the question came on its passage.

Coun. HANNON—Mr. President, I would like to ask for a roll call on that order.

President KERRIGAN—The question comes on the passage of the order, and the clerk will call the roll.

Coun. CHASE—Mr. President, this order does not come within the regular category of city business, and I would move, therefore, that it be referred to the Committee on Rules without debate.

Coun. HANLEY—Mr. President, I rise to a point of information. Is it within the province of any member of the Council to ask for a roll call on any order or resolution, or does the Chair have the arbitrary power to order a roll call; and after the roll call has been ordered, is it within the power of a member of the Council to move to refer to committee?

President KERRIGAN—The Chair will rule that the motion to refer to a committee was made too late. So the clerk will call the roll.

The clerk called the roll, and the order was passed, yeas 14, nays 2:

Yeas—Coun. Carey, Coffey, Feeney, Fish, Hanley, Hannon, Keenan, Kelly, Kerrigan,

Kinsella, McCormack, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan—15.

Nays—Coun. Bayley, Chase (Coun. Chase at first not voting, but later voting No)—2.

Coun. COFFEY—Mr. President, I move a reconsideration, although, of course, I voted for the order. I believe anyone old enough to fight for his country is old enough to vote. I am wondering if there is not some confusion here. Of course, we know some big, husky boys who are in the service and who are only fourteen years old, some distance from eighteen, and there are many who are sixteen and seventeen; and I wonder if other boys, who may not happen to be in the service at the present time, may not holler for the vote before they have reached the ordinary age limit of twenty-one, asking that they have the same right as the boys of the same age in the service? The reason why I asked to have the order read again was because I thought it was rather indefinite in regard to the boys of eighteen who might be referred to, whether it was those in the service or boys of eighteen generally. But it is a fact that boys of eighteen generally are liable for service, and I certainly have no objection to such boys voting. If they are old enough to shoulder a gun and play the part of men in the service of our country, I certainly don't see why they should not have the right to vote.

Coun. CAREY—Mr. President, I cast my vote for the order when the roll was called, because I think such a proceeding shows proper consideration for the boys who are in uniform. Nevertheless, I think there might be some fault found with the order in some respects. Councilor Coffey brought out the point that some of the boys in the service are even younger. There may be some of those boys who are well developed and who are really young men, able to go into the service, where they are not even eighteen years of age. There might also be some difference of opinion as to the desirability of all boys of eighteen being given the vote, regardless of whether or not they are in the service. There are some questions that can be raised in regard to this order, and therefore I would move its reference to the Committee on Rules, so that there may be a chance to look into it before final action is taken.

Coun. CHASE—Mr. President, there are many times when this City Council has been held up to ridicule on different orders, because we have acted on matters that were entirely outside of our scope, entirely outside of the regular transaction of municipal business. I think if you will look back into our records and endeavor to find out the source of most of the criticism of the City Council, you will find that in the majority of cases it has been due to the fact that we are acting on matters which are not within our province. We were elected, sir, by the citizens of Boston to transact the city's business, and it is not within our province to advocate such a matter as is now before us. I submit, sir, without entering into debate on the merits of the order, that it is about time that we attended to our own legitimate business and allowed Congress to run its business. The members of Congress who represent us are elected by the people of Boston to attend to certain Congressional business as representing their Congressional districts. We are elected for the sole purpose of conducting the city's business, and it does not behoove this Body to tell the members of Congress what to do, in the form of a resolution or otherwise. I have no objection to any individual member of the Body writing to representatives in Congress, stating his individual opinion. That is the privilege of every man, to write to his Congressional representative, expressing his opinion on certain matters that may be pending before Congress. But for the Boston City Council to advocate this or that matter, which comes within the province of either Congress or the Legislature, is something I believe we should not do. That is the reason why we have had so many editorials in the newspapers criticizing the City Council, because we are endeavoring to mind everybody's business but our own. Week after week we have such resolutions and orders here, dealing with matters that have no proper place in the City Council. In doing so, we hold ourselves up to the ridicule of everyone, as trying to mind everybody's business but our own. I say to you, therefore, sir, that we of this Boston City Council should refrain from doing those things that are simply holding us up to ridicule. Let us conduct our municipal business; let us go along doing what we are elected to do, conducting municipal business. Let us confine ourselves to the power conferred upon us by the City Charter. This matter before us today has nothing whatever to do with any municipal undertaking. It is something entirely outside our power as a City Council, something entirely within the authority of the Legislature or of Congress. I hope, sir, that we will refrain from taking this kind of action. Certainly there are many things to be considered before allowing fifteen and sixteen-year-old boys to vote, and I certainly don't want to hold myself up to the ridicule of the public, and I feel sure that most of the members of the Body do not want to hold themselves up to the ridicule of the public, by passing orders like this, minding everybody's business but our own. I move, therefore, that the order be referred to the Committee on Rules.

Coun. HANLEY—Mr. President, I have just been a member of the State Legislature or the Boston City Council as long as the distinguished councilor from the Back Bay, but, perusing the past

records of the City Council, I believe that the councilor has brought in more resolutions than the combination that is here today on controversial subjects and on every subject that he thought would obtain a small item in the Boston newspapers. Now, councilor, I don't know what your background is as a private citizen or as a public official, but I don't intend to sit idly by and allow you to stultify me by some of those remarks that you made a few minutes ago. A United States citizen, councilor, is any man who has taken allegiance to the Stars and Stripes. In our country the most powerful man in the United States of America is the individual, and you, councilor, have been the beneficiary of our type of government. You have been elected to public office. You have been elected to protect the type of government that has allowed you to become a public official and it is not only your right, but it is your duty at all times to protect your constituents both from within and from without. A resolution, as we all know, is elementary. It is merely an expression of opinion. It neither compels, coerces nor intimidates any man in public life. The opinions expressed in this Body on various occasions have been on controversial subjects, and sometimes we have not seen eye to eye with certain individuals in the laity, in the press and in the clergy. We have been held up, councilor, to ridicule by men who refuse to sign their names, once they write an editorial. Who they are we don't know, but we know this, that the coercive power behind the press—the coercive power behind the press, councilor—is the paid advertisers. For your information, an editorial is merely a comment, a comment on news that tomorrow is ancient history. Now, the press, I believe, has recorded some of your remarks. I hope you will receive the publicity that you have in the past. Councilor, my name was affixed to that order by Councilor Hannon, and over fourteen months ago I lashed out at our Congress for conscripting the flower of our country to be offered on the sacrificial altars. The right to vote in this country is a most powerful force, the most powerful force that any free people can have. It is the most powerful force for creating and destroying a man in public life. You, councilor, were created by the power of the ballot, and you are going to be destroyed some day by the power of the ballot. And yet, councilor, consider young men who are dying and suffering today in Tarawa, Guadalcanal and Salerno and every part of the world,—you claim the inference is drawn they are too immature to be able to go into a private ballot box and strike a name or a cross, rather, against your name or mine. Councilor, you would not use the word "moron," but you inferred as much, that these men are immature. I say, and I say it again, I believe the majority of the Council will agree, that any man, regardless of age, who is capable and able to protect our form of government in a time of war should be given the proper right and the privilege of voting for a man in public office. Now, I don't like to enter into debate, councilor, but I know this, that this war is political, a political means of affecting the science of government. This war was brought about by politics. Mussolini was a politician; Herr Hitler is a politician; Churchill is a politician; and Roosevelt is a politician. And where politics is unscrupulous men it is your right and duty as an American citizen to protect the type of government you have been born into. This is an opinion, and the Boston City Council, representing the pulsation of common people, has a right to go on record at any time for or against it, and to direct the City Clerk to write to Congress or to the State Legislature when any right or liberty is being jeopardized. And, councilor, you have been very fortunate, very fortunate, in public life. Today you speak as a City Councilor. In an emergency, if the State Legislature convenes, you speak as a state legislator; two things in one. And yet, under the Stars and Stripes you can aspire for the presidency while you still retain the two offices you had before. Still, according to your remarks, you will try to deny individuals that make your government strong any power.

Coun. KINSELLA—Mr. President, there isn't much doubt that extending the franchise to young men of that age, eighteen, means in the opinion of many, going back into adolescence, falling short of young manhood. That point is debatable, but my purpose in rising to my feet at this moment is to discuss the objections of the councilor from Ward 4. I have always said of him, and I think I will always continue to say, that his objections to or his support of any measure can always be said to be truly honest. I don't think he ever manufactures an interest in anything. I think he is honest, genuine and sincere, but, none the less, in some instances, like many of us, dead wrong. I think Councilor Chase has probably forgotten for the moment that our Congressmen in Washington are remote from us. They are 300 or 400 miles away. They are there for weeks at a time, during which any correspondence they may receive from their respective districts is in the nature of personal communication that probably doesn't give a very workable idea of the opinion of the people in their districts. If they should be canvassed in matters of this kind, they would probably then come to the understanding that the opinion of their district one way or the other is a matter of vital public concern. As to his objections it isn't any of our business, I think that is limiting our interests too

much. After all, every Congressman who comes from Boston has to go to the selfsame type of people that we ourselves in the individual wards have to go to. There isn't any radical difference between the people in any two wards in one part of the city or another, and unless we here make what we believe to be the honest opinion of the people known to the Congressmen we cannot expect to obtain action. We have not forfeited the right of objection simply because we have been let out of the category of private citizenship and put into a public character. We don't lose any of our identity as private citizens. Our interests still run along. It occurs to me as I am talking that Congress has taken a lot unto itself that might otherwise, if they voted that power back to us, enable us to have the power in the Council that is ours and we haven't got. They have taken state's rights away from us, so that all we have now are boundaries to bind the states. The sovereignty of states has been reduced to the vanishing point. And if a state hasn't any power, I don't know how it can pass it on to a city body, which is just an observation of mine and not as important as it sounds. But while we remain entities, still we remain characters, public or private, within the corporate limits of the City of Boston, or any other city, we still have rights as individuals or as a representative body of the people who have created the Congress. They have given us a huge, burdensome and onerous task, and it reaches into the hovel as well as the mansion. Are not we to say anything about that? I can understand a man saying to confine ourselves to purely municipal matters, but just what are municipal matters,—a license, or a permit, or a birth record, a transfer for some city employee, or a job? Are we to be that provincial in our outlook that we cannot look beyond the twenty-two wards of Boston? Are we going to be allowed the right to speak to men who come to us for their facts, or are we going to blame it on the war, as so many other things have been blamed onto the war? This is wartime, and those men should not be bothered, we may be told. Well, if it were not wartime we wouldn't have children fighting. And while I don't like to see the power of the ballot extended to boys and girls, too, in their adolescence, it appears to me that the eighteen-year-old today is as capable of making his way as anyone in here, judging from some of them with whom I come in contact. There are many of them that can buy and sell us, and we are double their age. And further than that I believe that any boy that has the good sense to interpret an order from his commanding officer, who can subject himself to rigid discipline, can be trusted to vote for the average politician we get in Boston. But, aside from all that, let us go a little more carefully than we have gone in the past in ruling out matters of interest to Boston—City Council resolutions, that come before us in all propriety. And we have our opinions on other matters. Call it a forum if you wish; call it a sounding board; call it a good means of publicity, but there are many things discussed in this Body that have been worthwhile and have turned out to the interest of the city. Let them condemn us, let them criticize us to their heart's content. That is the freedom, that is the right, they have. We exercise our right to talk on controversial matters in here that concern not the charter, a legal instrument, but that concern people.

Coun. KELLY—Mr. President, I want to be corrected in my remarks. I said some ten months ago I indorsed a resolution. I find it was seventeen months ago, on November 16, 1942. Councilor Kelly offered the following resolve:

"Resolved, That the City Council of Boston be, and hereby is, recorded in favor of legislation which will permit boys and girls eighteen years of age and over to vote; and be it further

"Resolved, That a copy of this resolution be sent to each member of Congress from Massachusetts."

I wonder if we did receive any answer from that, Mr. President?

President KERRIGAN—The Chair will state that the City Clerk sent that resolution along to Congress, and the receipt was acknowledged by each Congressman.

Coun. KELLY—You didn't get any action from the Congressmen?

President KERRIGAN—We have no record of any action.

Coun. KELLY—And my remarks on that day were:

"I feel that this proposed legislation is in line with the feeling of the people not only in Massachusetts but of the entire country. In Massachusetts and in many of the states, eighteen is considered the age of maturity for girls, and I certainly feel, inasmuch as boys and girls both are now being called upon to perform the full duty of citizenship at eighteen, they should be allowed to vote. In our labor laws and otherwise, boys and girls of eighteen are considered to be full grown, as far as taking part in the problems of life is concerned. As a matter of fact, with our educational facilities and otherwise, the youths of eighteen are now in possession of a better education and have really had more life experience than their grandfathers and grandmothers had at the age of thirty-five."

This resolution was passed under suspension of the rule. Talking on reconsideration, Mr. President, it is very amazing to me, I suppose, that some member of the Council will get up and tell

us that the present war has nothing to do with any member of the Council, even though that member of the Council has some member of his family in the armed services. I think this is a very important resolution. All the resolution asks is to indorse the effort being made by the Congress of the United States to provide proper voting facilities for men in the armed services, and recommending that the right to vote be extended to all members of the armed services. There might be an amendment put on there as regards age. I don't know how the other members of the Council feel, but I certainly am glad that a roll call was asked for. And I think anything pertaining to the boys who have gone into the service to make this country safer for you and me to live in is of great importance. There are a lot of members of the Boston City Council who probably won't go into the armed services of the country, but at least we should give consideration to those boys of eighteen years and over. At least they should have the same right you and I have at home, and the same right to cast their ballot on election day. Surely if they are old enough to fight for you and me they are old enough to vote, and I trust this order will pass and that copies will be sent to all members of Congress from Massachusetts, and that the members will see fit to answer it.

Coun. COFFEY—Mr. President, this is the first time I have heard of an order in any city government, and I have yet to hear of any bill in the Legislature throughout the country, referring to all of those in the armed services being given the privilege of voting. I had read where a national legislator and also other city and state legislators proposed the eighteen-year-old vote, so when this was brought up today the first thing that entered my mind was the fact that some in the service were only fourteen years of age. Some had doctored up their birth certificates to get into the Navy. Nevertheless, they are in there. There must be hundreds throughout the country. So I think this deserves a little study. I am for it, definitely for it, but I think we could make a little study of it, and I would say that if reconsideration prevails, I would then ask that this order be referred to the Committee on Legislative Matters.

Coun. CHASE—Mr. President, I don't know of any public demand being made by either the youngsters in the service or their parents that these young men and women below the age of twenty-one be given the right to vote. There is no public clamor for it by the citizens of this state, to my knowledge. No one has asked me to advocate such legislation. As a matter of fact, I have two nephews in the service. One is just a little over seventeen. He enlisted in the Navy with the consent of his parents, and the other brother, when he was seventeen, enlisted in the Navy and is just over eighteen. He came back from service in the South Pacific. He has seen a lot of action. He never volunteered or insisted on any such thing, that the men in government arrange that men such as he be given the right to vote. And I doubt very much, Mr. President, that these youngsters in the service are anxious to vote. Furthermore, I would like to call to your attention something which is very, very important. The laws of this state are based on the English common law. Our laws in this state are based on reason and logic, so that no person under the age of twenty-one is liable in an action of contract. And that law is based on the fact that our lawmakers through the centuries, through constant study, through a process of reasoning, have come to the very definite conclusion that any person under the age of twenty-one has not the reasoning power, has not reached that full stage of a mature person, so that he can compete with an individual of over twenty-one years of age. In other words, our lawmakers through the centuries have held that a person below the age of twenty-one has not attained the reasoning power to compete with full adults. Now, we will assume that the lawmakers give these youngsters of sixteen to seventeen years of age the right to vote. They can go into a court of law after binding, or purporting to bind themselves to a contract, and the judge will say, "You are not liable; you are not old enough; you haven't enough brains; you haven't the reasoning power; you can't compete with that man you intended to contract with, because you are too immature; you haven't enough experience in business; your mind is not fully developed; you cannot reason. And this court of law won't hold you liable to this contract, no matter if you get \$10,000 in your pocket because of the contract. You are not liable." Now, our laws in this Commonwealth are based on common sense and common reason and logic. Our lawmakers through the centuries have given considerable study to this subject, as to whether or not an infant, a person below the age of twenty-one, shall be liable for his contract, and they have always come to the conclusion that the man's mind, or the person's mind, is too immature; he hasn't had sufficient worldly experience to compete with the adult. And yet, by this order, you would give a youngster of sixteen or seventeen years of age the right to go in and vote for some person who, if elected, would be instrumental in making the laws of this nation. Now, this is not a wise order. This is something that doesn't belong before this Body, to begin with. And, secondly, it is not a wise request, in my opinion, and I doubt very much if the citizens of Boston will think it is a wise request, to give a youngster sixteen or seventeen years of age the right to vote. They are

immature, irrespective of what has been said on this, in so far as they haven't the reasoning power, haven't the worldly experience to compete with the adult. And I trust that you will consider that when you pass on this. I hope that the matter is referred to the Committee on Rules.

Coun. HANNON—It is pretty hard sometimes to sit in your seat and hold your peace and listen to somebody who is supposed to be the epitome of wisdom, who is supposed to be the spokesman of the intelligentsia, who is supposed to represent the highest in intellectual learning, get up here and tell twenty-one other members that we are wasting our time on a matter which he, from all his lofty consideration, believes does not properly, or should not properly, come before us. I am well acquainted with the gentleman from the Ward 4 district of Boston. I have known him over a period of years, and I think he himself contradicts his own statement about being able to reach a proper decision when he, after listening to the order here which has been read twice and has been well debated, does not find himself able, with all his intelligence, to reach a conclusion as to whether he should vote Yes or whether he should vote No. The first test of ability to vote is not age. The first test of ability to vote is intelligence, whether or not you can understand, whether or not you can reach a just conclusion. Last week I sat here for about ten minutes and I heard the gentleman from the Back Bay give a lengthy dissertation on rats. Well, maybe rats are more important to the councilor than are the men in the armed forces. Maybe I am wrong. Maybe the rats in the Back Bay mean more to the people of Boston than the boys and girls who are fighting for us on foreign shores, for perhaps the rats are educated. Perhaps the rats are more in line with what we should consider than are the basic problems concerning every man in the service, concerning every home that has sent a man or woman to do battle for us on foreign fields. I don't know whether or not this is a party issue. If it is, then perhaps I should not have introduced it. And of course we are a non-partisan body. But, believe me, it more or less strikes home when you find one Republican voting against it and the other Republican can't make up his mind how to vote, but he gets up and talks against it. We are elected, certainly, for some purpose. We are certainly elected to voice our opinions. I am here to voice the opinion of the 25,000 or 26,000 people who live in Ward 13. I am not here to keep quiet, and I am not here to be afraid to vote. I know everybody is not going to agree with me, and I know, too, that I am not going to agree with everybody. But when I disagree at least I hope I will have courage enough to vote Yes or No and not sit in my seat and hope to God I don't have to vote. Mr. President, we are here to discuss matters of public interest. If the matters before Congress are not of public interest, then what matters are? And if matters pertaining to the veterans are not of public interest, then what matters are of public interest? Oh, I am not afraid of reconsideration. I don't mind the members of this Body taking a matter and considering it. I wish we would do it more often. I wish our committees would function and we would consider these matters, but I do hope and I do believe that when matters come in here, from men in here, regardless of party, regardless of the district represented, a man should have courage enough to make his vote known either Yes or No, instead of straddling, getting up and trying to be a good fellow and play both sides and the middle. We are told, "I don't believe the matter belongs here." The matter is properly here, but I don't think that members belong here unless they have courage enough to state and express their proper vote. This matter, as far as I am concerned, is properly before us. If the gentleman from the Back Bay is against it, let him say so, like a man. Let him not straddle. After all, there are straddlers enough without bringing them in here on the floor of the City Council. As far as I am concerned, the only question before us here is this, if a boy or a man has courage enough, has intelligence enough, has wisdom enough to offer his life for your protection and my protection, isn't that boy smart enough, intelligent enough, to vote for you or me for public office? I know there will be troubles, as the gentleman from East Boston says. There are some in the armed forces who are below seventeen years of age. I agree with that. He said that in the vote when they come back here there will be a mix up because some men of eighteen or nineteen will be voting, and some of eighteen or nineteen will not be voting. That, likewise, is true, but the same condition is going to prevail whether or not we lower the age to eighteen. They will come back then and they will be nineteen or twenty, and yet they can vote, and other men who will be nineteen or twenty will be denied the vote. I know there will be difficulties but I want you to know, sir, even now we have people who are under twenty-one who vote. They lie about their age. We run across people who are not even citizens and they vote. So we are going to have difficulty just the same as before. As I said, I don't mind if reconsideration prevails. As I am not one to stop an honest consideration of any problem presented here, but I don't like straddlers. When people get up and even enter into law, they quote the law for you, and the gentleman who quoted it is a member of the General Court, and up in the General Court if a person wants to present a

petition they bring it up there and present it, and I don't know that every petition presented there belongs in the General Court. But I do know that this resolution does belong here. This is merely an expression of our opinion. As far as contracts are concerned, he states that the boy under twenty-one cannot enter into a contract. Maybe he is right. I am a lawyer, but I don't want to waste legal advice here for nothing. However, a boy under twenty-one cannot make a contract, he says. No, but when they draft the boys of eighteen a contract is made for them. Uncle Sam says, "I am going to give you \$50 a month; that is my side of the contract, and your side is this: you will go where I tell you; you will do as I say; and you will even lay down your life if necessary for that \$50 a month." Isn't that a contract? If it isn't, let the boy under twenty-one break the contract. No, the question here is this, do we want to go on record as saying openly that those boys or those men who are big enough, strong enough, smart enough, able enough, intelligent enough to fight for us, aren't big enough, strong enough, able enough and intelligent enough to vote for the right man for public office?

Coun. BAYLEY—I voted in the negative on this order. In fact, I alone voted in the negative, although I am not at least opposed to the general idea, but it is my habit, since I have been a member of this Body to vote on every measure that comes before me and to be present at every committee meeting at which I am expected to be. Therefore, I voted on this. I am not opposed to it in general. I think it should be referred to an appropriate committee to discuss this further. Furthermore, I am in favor of reconsideration. And I am also wondering if this is really the Council's business. Lately, at least for the past five or ten years, there has been a growing tendency of governments, even the National Government, to take over affairs that don't belong in their sphere. The American freedom of constitutional government we know has been repeatedly falling away from us because we have been afflicted with a horde of locusts, and it is about time the American people stood up and threw off that horde of locusts that trouble us. Therefore, I say we should not be too hasty in asking Congress to do something which lies peculiarly in their province. I say to you we should attend to municipal business here and tell Washington to try to attend to its business there and not take over state and municipal affairs as they have been trying to do. That is the reason I voted in the negative. I hope that reconsideration will prevail and that the matter will be referred to the proper committee.

Coun. CAREY—There are arguments on both sides of this question, and the arguments, of course, in favor of the question far outweigh those against it. I hope reconsideration will prevail. There is many a competent thought that finds its birth here on the floor of the Council, but because of hasty action here the ultimate good that might be arrived at is destroyed. I have not been able to ascertain in this order or in any newspaper I have read what is going to be done with the vote of these eighteen or possibly sixteen and seventeen-year olds after they come out of uniform. Some will not approach their maturity for three or four years after they come out of the service. It is a splendid issue. I will agree on that. It is an issue I like to be with. As a matter of fact, two years ago, as a candidate for Congress, I openly expressed myself on more than one occasion as against the drafting of boys of eighteen years of age who had no right to vote, and to send to Congress and other high offices in the Government men who are going to point a finger at them and say, "You are going to fight whether you like it or not." Let us not be too hasty. Let it lay over a week or two. I certainly hope, therefore, that the Council will exercise good judgment. I think it is capable, and I hope reconsideration will prevail and that the order perhaps will be brought back here in a form more acceptable to the entire Body.

Coun. McCORMACK—I was out of the room when the vote was taken, but I would like unanimous consent to vote in favor. (Consent was given.)

Coun. CHASE—Mr. President, in answer to the gentleman from Dorchester, I would like to state I don't know how I can any more forcibly go on record as being against it than by the two speeches I have already made as a matter of public record. Furthermore, I would like to call the attention of the Council to the fact that I have never been given the pleasure and honor of being President of this Body, but if I had been given the pleasure and honor of being President of this Body, I never would have ducked an issue, as one of the trustees of the George Robert White Fund did, when the Council was endeavoring to secure information from the secretary of the George Robert White Fund, insisting that the trustees of the George Robert White Fund explain to them how they arrived at this World War Memorial. I was unfortunate enough not to be the President of the City Council who acted as one of the trustees in making that decision, but if I had been and attended the executive session at the time the gentleman from East Boston and other councilors were endeavoring to secure information from the secretary of the George Robert White Fund, and if I had voted in favor or against, or whatever attitude I had taken on this War Memorial, I say to you I would at least have had the courage, too, to say to you gentlemen, "I am a former President of the City Council

and I was one of the trustees that voted on this War Memorial." I wouldn't have ducked that issue where millions of dollars were involved and when the councilors wanted information from the trustees, I wouldn't have remained silent when those questions were hurled across the table to the secretary, when I was one of those responsible for this War Memorial. Nor would I have ducked out of the executive room so that questions would not have been asked of me. I have never ducked an issue since I was a member of this Body, sir, and I am not afraid to fight when I know I am right. And I say to you that we are recording ourselves forever in the eyes of the public in advocating a measure where the lawmakers of the United States and the state are asked to give infants, young men and young women of sixteen and seventeen years of age, the right to vote. Mr. President, you know as well as I do that the average person of sixteen or seventeen years of age cannot compete in any reasoning contest with an adult. They haven't had enough worldly experience, and that is why we have the laws on the books today. That is why we have laws in this state and throughout the United States that men and women below the age of twenty-one have not the right to vote. That is why they haven't the right to contract and enter into a bona fide, law-upholding contract, because men skilled in the art of reasoning throughout the centuries have arrived at that decision, that young people must attain the age of twenty-one before they can hope to engage in legal business, in competitive business, with adults. And I submit to you that the franchise of voting which is extended to people over the age of twenty-one is an all-important matter. The citizens of the United States are called upon to elect their lawmakers. And those laws that we expect the lawmakers to enact should be reasonable laws, should be laws well founded in common sense. And you know, sir, as well as I do, that if you had a son or a daughter, or if you had nephews or nieces, you know from your daily intercourse with those young people that they have not the intelligence, mature intelligence, the experienced intelligence, that people of twenty-one years of age have. Oh, I say to you, sir, do not hold up the Boston City Council to the ridicule of the Commonwealth. I say to you, submit this order to the Committee on Rules and give careful thought to it before making a final passage on it. That is the only logical thing to do, and I trust, sir, that the members of your Body will see fit to refer it to the Committee on Rules.

Coun. FISH—Mr. President, before this debate got under way there may have been in my mind some controversial measure that entered into it, but I think that has all dissipated itself by the remarks of one councilor, the councilor from Ward 4. I just made a brief note. "They haven't got brains enough," is one remark. "Their minds are undeveloped; they can't reason; they are immature; they cannot compete in contracts." Every one of those reasons against eighteen and nineteen-year-old service men. If anybody in life was called upon at any time to coordinate thought and action, these young men are being called to do it every hour of the day now. And yet, they haven't got brains enough, no intelligence; they are immature and they cannot compete in contracts; they haven't got brains enough, with the coordination of thought and action they are called upon to use today, to vote for local politicians! To me, that takes all the controversial matter out of this order.

Coun. KINSELLA—I suppose I shouldn't say it. I don't want to prolong this, but several utterances of Councilor Chase have been very revealing. A few minutes back he said our laws were based on old English common law, which was pretty dependable and pretty reliable. Well, the old English common law, as I understand it, was conceived hundreds of years ago when people matured, you might say, physically at an age earlier than the age today at which they mature, because of the process of evolution. I don't intend to go into that, but everyone knows it is true, that in these days expectancy of life is more than it was at that time, and at twenty-one a man was supposed to have lived a good deal of his life. He was the head of a family and inherited a father's rights. But that situation doesn't obtain today, and if we are going back to old English law of hundreds of years ago, then where is our progress and what has become of advanced thought? Why should we repose such great confidence in old, archaic and obsolete law? These boys are doing an awful lot towards the protection of those rights. If there is any doubt in any one's mind about how efficient or how intelligent those boys are, you need only go down to the newsreel theaters and take a close-up of those boys fighting their way through jungles. Is it to come back and find out the country you went through such miseries for as Councilor Hannon said, without being consulted, or without your parents' consent—or, as Councilor Chase phrases it, still an infant—is it to come back to a situation in which you are not wanted as a voting part? I don't think that is in keeping with the democratic principles that have been held up as so worthy of perpetuation. Now, I don't want to make any political capital out of this by drawing inferences. I would much rather make a plain statement, and that will be understood for what it is, and I won't be accused of hinting at anything and having my remarks of another date discredited. But it is a rather

significant thing that those of us who are sponsoring this thing come from districts that have supplied so many eighteen-year-old boys. And I don't in any sense attack the loyalty or patriotism of Councilor Chase or the people he represents. I want to make the statement again, carefully, that the sponsors of this order come from districts that have been denuded of young men of every age. You never pick a paper up and read about an aristocratic young man of fourteen or fifteen who falsifies his age. It is always some kid with more courage than common sense that is kicked out of the service because they find out he is fourteen or fifteen years of age. And let it be known to the councilors here and now for future reference, any boy of eighteen that goes into the service, with or without his parents' consent, any boy that goes into the service, under eighteen years of age, forfeits his right to a pension. I wonder if that is taken as seriously as it is meant to be. You forfeit your right. You have no claim on the Government when the war is over if you are under eighteen years of age. And bear that in mind when you see some youth with his life ruined, crippled, blind or insane, or stitched up from head to foot. And what a small return to make to that boy, to give him the right to walk into a polling place and exercise enough common sense to vote for anyone. Go to your adult population and ask them what reasons they have had for voting for or against any two candidates for any office at any different time, and the variety of reasons will amaze you. Adult people, with every reasoning power, will tell you that they voted for a man only because he is a good fellow or because they went to school with him, or because he is a next door neighbor, or because so many nice people speak so well of him—is that fair and sufficient reasoning? If it is, the eighteen-year-olds can use it. What is wrong with it? There is nothing wrong, because it is democracy to vote for a man for a good or bad reason, or to withhold your vote for no reason at all. You don't have to account to the candidate; you don't have to account to a candidate for the stand you take. If the candidate upon winning is worth his salt and has the manhood he represented himself as having, why can't the eighteen-year-olds use the same reasoning process? In years gone by the adult population of Boston has inflicted some terrible monstrosities on Boston, because they succeeded in hoodwinking and kidding them into believing that they were grand guys and their first interest in life was the furtherance of the public good. And you must know it, if nobody else does. And I contend that if an eighteen-year-old boy is going to go through the hardships and the tribulations and the dangers of those who are twenty-one or over, then, by God, he has a right to share any reason that an adult has for giving us some of our greatest fakirs.

Coun. HANLEY—Mr. President, I don't care to enter into this argument. There are few points that the councilor from Ward 4 has brought out that can go along without refutation. He may believe himself to be correct. First of all, in executive session a man is requested to be present because he has some knowledge or learning on the particular subject to be brought before us. On the afternoon of the George Robert White Fund a man was requested to be present because he was able to answer every question aimed at him by the twenty-two councilors, and I believe I am correct in stating that the distinguished councilor from Ward 1, Councilor James S. Coffey, requested certain information on the edifice that was to be erected in the Fens relative to the boys in the armed forces in every war that our country engaged in. And I believe I am correct that the chairman recognized the distinguished councilor and he asked his points of information not from Councilor Thomas Hannon, but from the man who answered our request and who gave to the best of his knowledge anything he knew about it. Councilor Thomas Hannon was the President of this Honorable Body the year preceding you, Mr. President. When he leaves that pedestal up there he is not known as Mr. President outside of our confines. He is a City Councilor. And when you go into executive session you have your own chairman in there, who regulates business according to parliamentary procedure, and no councilor is there for the purpose of giving testimony. He is there for one purpose, of interrogating any person who may come. I have known Councilor Tom Hannon in my public career, and prior to that I knew not of him. From my acquaintance with him I consider him one of the finest individuals that I have ever been acquainted with in private or in public life, in private industry or as a public official. I have been acquainted with the clergy and the laity and members of the press, and I place Councilor Tom Hannon on the highest pedestal on which any word of mine could ever place him. And I find words inadequate to express the acme of perfection as symbolized in the distinguished councilor from Ward 13. Now, councilor, I believe we fought a revolutionary war at one time, and it was for one purpose, of breaking from all political entanglements with any foreign nation. At that time we were under the domain of the British government. And through our forefathers we severed that relationship for all time politically. Now, you bring in your English law, councilor. I am not familiar with it. But the greatest law of all is the moral law. No man-made laws, councilor, are for the one purpose of supplementing the moral law as it is proclaimed in the Ten Commandments, namely, the fatherhood of God, the brotherhood of

man. Now, all man-made laws, councilor, whether on the Federal, State or City books are for one purpose, merely to supplement, not to take precedence, nor to take over by inhibition. Now, the first ten amendments to the Constitution are commonly known as the Bill of Rights. Those ten amendments can never be changed, but every succeeding amendment can be changed by processes that you should know of. And one amendment that they have seen fit to place upon the statute books was that women were allowed to vote. At the time of the English law they were merely utilized as pawns; they were merely utilized as instruments for the lustful desires of mankind. But down through the years the people grew up in intelligence as well as stature, and they saw fit to give the right to vote to women who go down into the abyss in order to propagate the children of this world and the children of the next. I suppose you would be against that, councilor, if you were a little older. That step was taken some years ago. Law, councilor, can be changed. That is why it is elastic. That is why we can expand or contract it, according to the exigencies that our Government passes through. Every amendment has been brought about by public clamor, and this is one amendment, without going into the realm of prophecy, that you and I will see in a very few years.

The question came on reconsideration. The roll was called, yeas 7, nays 10, and the motion for reconsideration was lost.

Yeas—Coun. Bayley, Carey, Chase, Coffey, Dwyer, Kinsella, D. F. Sullivan—7.

Nays—Coun. Feeney, Fish, Hanley, Hannon, Keenan, Kelly, Kerrigan, McCormack, Muchnick, Shannon—10.

PAYMENT OF POLICE ASSIGNED TO SPECIAL DETAIL WORK.

Coun. DWYER, FISH and HANNON offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Police Commissioner for the purpose of devising ways and means of adequately compensating patrolmen and superior officers of the Police Department who are assigned to special detail work.

Coun. DWYER—I submit this order, Mr. President, along with my two colleagues, Councilor Fish and Hannon, hoping that if it passes it will result in a more liberal and adequate pay for patrolmen and superior officers in the Police Department. At the present time, as I understand it, patrolmen and superior officers in the Police Department who go on special details are paid a very menial wage. That wage is, for patrolmen, \$1.25 an hour for the first two hours, and any number of hours after that 75 cents; except on two special details, one that our own city creates, namely, the School Department; and when there are football games or baseball games in the various ball parks throughout the season and there is more than one game, and patrolmen and superior officers are made to stay there for a great many hours, and the pay for patrolmen is \$3, and has been for a great many years. There is the exception of one game, that game being the Thanksgiving Day game, where the patrolmen receive \$4. Also the First National Bank of Boston is allowed by special act or special rule to hire patrolmen at their banks and the various branches of their banks during the day, no matter how many hours they work or whether they work in two or three banks in a particular district, and all those patrolmen receive for that detail is \$3. Now, along with my colleagues, I feel that it is high time that the patrolmen in uniform or the superior officers in uniform being hired by private industry, private corporations, should be paid an adequate wage. I hope, sir, if my colleagues do not care to speak on this matter, that the rules will be suspended and the order will pass.

The order was passed under suspension of the rule.

BROADCAST, "WORDS AT WAR."

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to obtain an electrical transcription or script of the entire broadcast given through the National Broadcasting Company, on February 22, 11.30 p. m., 1944, under the title "Words at War." Assignment, U. S. A., and that the Corporation Counsel inform the members of the City Council just what action, if any, the city can take in behalf of those persons who have been maligned.

Coun. D. F. SULLIVAN moved that the order be referred to the Executive Committee.

Coun. KINSELLA—Mr. President, not that I am going to talk to the motion, but I have been trying to drum up enough courage, and I think I ought to make a public apology for my haste in respect to this subject matter here. Of course, I was guided by the information that came to me from interested parties, and in my haste to make answer without letting it run three or four weeks, as we did in the Winchell affair, I couldn't check properly and did hurt the feelings of the Mutual station in Boston, which was not at all at fault.

In connection with that I offer an apology to the *Daily Record*, which went to some pains to spread

it in its newspaper. Last Wednesday I wrote a letter to Mr. Travers, vice president of the Yankee Network, making apology, and a similar letter to the *Daily Record*. It is the first time I have made a public apology. I was quick enough to make my charges, and I mean to be just as quick to retract when they injure innocent people.

Coun. D. F. SULLIVAN moved that No. 2 on the calendar be referred to the Executive Committee.

The order and No. 2 on the calendar were declared referred to the Executive Committee.

TENANCY IN HOUSING PROJECTS.

Coun. KINSELLA offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Boston Housing Authority for the purpose of considering the possibility of suspending the acceptance of further Housing applications for any period of time that would enable the Authority to place many applicants who are now listed in their files, as eligible for tenancy.

Coun. KINSELLA—Some time last fall I had occasion to meet with one of the members of the Boston Housing Authority out here on School street. The meeting was purely accidental. During the course of our remarks I mentioned to the gentleman that it seemed to me it might be a good plan to suspend further acceptance of any application until those in the pool had been liquidated, and he said, giving it as snap judgment, that it might be an excellent idea. Now, I don't know what the rest of the councilors have to contend with, but I do know that I am up against a very acute problem in my district, not only as concerns people in my district, but people who have moved out of Charlestown long since and have known me in years gone by, and call me up and urge upon me the sponsorship of their interests. Mr. President, it goes without saying that the average applicant for housing in these project areas takes it for granted that when the application is accepted immediate tenancy, or almost immediate tenancy, results therefrom; and we know that that is not so. There are people whose names have been on file in the Boston Housing Authority's records for several years. They not only haven't got in, but have very little chance of ever getting in. To go back to the conversation with the Authority member, Mr. President, I said to him, "Why is it that you continue to accept these applications, knowing right well that there is no chance of tenancy?" And he started to smile, but didn't answer me directly. So I said to him, "Do you want to build up an enormous reserve that you can show the Washington authorities after the war as how the Washington authorities are getting in wedge by which to get more public housing in Boston?" And he said, "Well, something like that." In other words, it seems to me as though these people are being permitted to file applications on which no public action will be taken, because, according to figures that are not two hours old, there are about 5,700 units. That means apartments in all of the projects in operation in Boston. And up to date, those units are 99 1/2 per cent occupied,—99 1/2 per cent, approximately 5,700 units are occupied. You can't come any closer without going into, right into, 100 per cent. And allowing for the proper turnover by reason of people who are removed by the Authority or people who get out voluntarily, or people whose family size increases to such a size they can no longer occupy the rooms they were then occupying and must go back to private housing,—allowing for all that, it wouldn't in any given time reduce 99 1/2 per cent, and I think, really and truly, the Boston Housing Authority owes to the public of Boston, that was never too much recognized in giving out these quarters, because of directives from Washington to reserve for defense workers, some explanation and that we suspend the further acceptance of these applications for a period of six months or a year, until we can liquidate some of the eligible applications in our files now. I hope suspension of the rule prevails, and the order is passed.

Coun. KEENAN—I am very much opposed to the order that the councilor from Ward 2 introduces, because I am very much interested in a family in my ward. I think it is the most pathetic case I have heard of in my years of experience. There is a family with six children, and expecting another within a month, and they are living in a house in my ward where the water has been shut off since the 13th of December. The father is working now in the Navy Yard, making \$60 a week, six days. I had occasion to go up to the house the other night, and I have been to that home five times, and I have lighted matches going up to the front door. I have rapped on the front door and the family has been in and hasn't even heard me at the front door on account of living in the kitchen with no heat. I got in the other night and talked with the woman. I had to go down to the back door rather than the front door, it was so dark. And I think if we stop applications going in for the housing projects we are depriving a family like this from going in there. I am against Federal housing, but I say if we are going to do anything at all, let us investigate the Federal housing and those living in it and throw out of Federal housing those that come from Maine, New Hampshire and Vermont, living on the fat of the land of Boston, and give to the people of Boston, those who are entitled

and needy cases—let them move into the Federal housing. I hope the councilor from Ward 2 will withdraw the resolution, and see that applications of this kind are received.

Coun. CAREY—I dislike to disagree with the councilor from Ward 2. In the last few months I had an instance of a family in the Jamaica Plain section that had lived in a hovel, so to speak, where they had no heat and no water for several weeks. I agree with the councilor there might be some justification for suspending applications. The councilor from Ward 17 has brought out a good point. We might well suspend taking on applications from out-of-town people. But if we were to deny the submitting of the application of this family who, thank God, went into the Mission Hill housing unit on March 1, we would be performing a work that could do nothing but call for severest condemnation of this Body. We don't know from day to day what cases might come before the attention of the members of the Council that should be approved and accepted by the Housing Authority. There are some people who are living in hovels today who would like to apply for an apartment in the housing unit, and they have heard so much of the red tape that must be gone through that they would rather submit to the conditions they are living under. We are, however, bound to come across cases from time to time, as has been my own experience, and the case I have mentioned here is but one of several where an application should be taken, and not only taken, but immediate action taken on it. True it is that there are hundreds of applications before the Housing Authority of people who should have been admitted months or years ago. Likewise, there are no doubt some people living in the units who have no right there. I do feel, however, that we should go very slowly on accepting an order worded such as this order is, because we are going to have cases come to us from time to time where we are going to find the specifications are of such a nature that there should be no restrictions.

The order was declared referred to the Executive Committee.

Coun. COFFEY—As to the wisdom of sending the order into Executive, I think we could thresh it out right here and now. I appeal from the Chair's decision.

President KERRIGAN—There was no vote taken on the order. The Chair will recall the reference.

Coun. COFFEY—I think we can settle everything at a moment's notice here. I think there are a lot of worthy cases in Boston, and will be in the near future, of Bostonians who not only will file applications but they will come into the areas, the projects. I would like to amend this order to read that the Housing Authority in Boston will not accept applications from anybody living outside of the City of Boston.

Coun. KINSELLA—I don't want to be contentious with anyone. There is an awful lot of truth in what Councilor Keenan and Councilor Carey have said. But I am faced with a condition that is new, if not unknown. As to Councilor Coffey's suggestion, we cannot blame the Housing Authority of Boston for what they are ordered to do. They get their orders from Washington, and it is amazing the number of people that don't realize that this is a Boston organization the same as the Boston Fire Department. Fifty-seven hundred, the actual figure of occupancy, is actually 99½ per cent, so there are, for fifty-seven, which would be one per cent, about twenty-nine available apartments today. In that twenty-nine, unquestionably the Authority has probably started those twenty-nine along, because in the inevitable course of life there people are moving all the time. There is a turnover. What I want to avoid is this. I don't have any lack of interest in the poor of the city who need this type of housing, and my record is such no one will challenge my statement, but I am asking the Authority to take one of two stands,—just one of two stands,—either give those people to understand all they are doing is contributing to a pool the size of which later on can be used as a weapon in Washington for more housing, or that they are actually going in in a reasonably short time after a check up is made of their application. Is that too much to ask support upon? Why draw it out for month and month and have people come to you continually and perpetually? It is true, as Councilor Carey said, lots of people in Boston will go in, but lots of nice people don't go in because of them having month after month added to a list that has now become almost overbalanced. Why file an application, in brief, and find out you have met all the requirements with no hope of getting in? I have had them come to me and tell me, personally and boldly,—“I found out I was unqualified. This is where you come in.” My answer inevitably and invariably is this: “You want me to get them to set some one else aside for you, a case just as worthy as yours if it stood up under inspection. You are a worthy case, but you are not the only case. I will go forward with you when they are setting you aside for some one else, but any one with priority over you must be respected.” You might say that is a radical thing for a fellow in the Council to tell a constituent, but I might just as well go and have some one relegated to the scrap heap, and if I don't like the condition I won't contribute to it. Let us make an issue with the Authority, either by suspending the applications

and making it painfully clear they intend to do something for the people on the list for years, or else let them understand perfectly that all they are doing is lending their name and application to a list that will be used in the future to prove in Washington that we want more housing in Boston. It isn't difficult to go along with that, and I can urge Councilor Keenan's illustration over and over again; yet it doesn't help. There was a great to-do made here last week about notifying them within thirty days as to whether or not they were accepted or rejected. At least there is little doubt before the check is made, but when the check is made and it is definitely determined that they are eligible, those people instantly think, having met all the requirements and having been told they are eligible—“I am going in very soon.” Months drag on,—and here I am repeating myself I don't know why the Council can't go along with it. Let us force their hand. Let us have them recognize the supremacy of the general public in these matters. Let us not contribute to the opinion that too many people have in Boston—a dangerous opinion for a democratic city—that those tenants in the Housing project are wards of the city. I have heard that damned opinion expressed too many times. They are not wards of the city, nor paupers in any shape, manner or form. I said they are not paupers in any shape, manner or form, but there is too much of a disposition to regard those project tenants as wards of the city, and if you don't like the designation for yourself, let us see we don't contribute to applying it to anyone else. Let us get their hand. That is the only way you will get these people in that have to live in kitchens. It is small credit to you, and I am not isolating you as individuals,—it is small credit to any of us to encourage them to file, see them meet the rigid specifications, and then have to admit a couple of weeks later that we can't budge them because there are no apartments of the size they want. You can't crowd people who normally want five rooms into four; and you can't give people four rooms who require only three, and where it is at a minimum let us at least try to achieve a minimum of interest on their part. Bear in mind what I told you about wards of the city. They are not, unless we encourage that opinion.

Coun. FISH—I hope this order of Councilor Kinsella's won't be defeated, and at the same time I hope it won't be passed upon today. I would like to see it placed in the hands of one of our committees, and if we haven't a committee that has the authority to act on such a matter, I think we should have such a committee, because it is my intention to place many more orders in here which have a direct bearing on the Boston Housing Authority. They may deny us the right to look at their books. They may deny us the right to look at any lists they may have. But we must bear in mind that they will come before the City Council when they need more money, when we have to authorize them to enter into negotiations with the Federal Government for more money for Federal housing. And in the meantime, should they be discourteous to a committee which you, Mr. President, may form, I think we can act accordingly at that time. So I would recommend that this be referred to either one of the standing committees or the special committee you may appoint.

Coun. D. F. SULLIVAN—Mr. President, I cannot go along and vote for the order in its original form. I am not going to vote to deprive anybody that is going to get any place in the Housing Authority,—deprive anyone of putting an application into the Boston Housing Authority. Regardless of what headaches from persons being told they are eligible, just as many as are being told they are not eligible, because anybody, no matter who they are, may go down to the Boston Housing Authority and make an application and they will accept it. It is safe to say that a good percentage of those they have now on file will never be eligible for apartments. Yet we are going through a period now where married men are going into the service and leaving wives and several children at home, and they are eligible to make application for an apartment in the various projects. Just here recently there happened to be a home burned out in the adjoining ward. As it happened, two of the families happened to be very large—I believe there were eight in one family and eleven in another. You can imagine trying to go out and get an apartment in a private dwelling for families such as that size. Their only chance is to make an application for an apartment in a housing project. I don't believe that we should pass this order. I believe that this order here should be referred to the Executive, and that we should ask that somebody from the Boston Housing Authority appear before the Executive Committee next Monday.

The order was referred to the Executive Committee.

PAYMENT FOR OVERTIME WORK.

Coun. FISH and KEENAN offered the following:

Ordered, That wherever practical, all city and county employees be paid for overtime work rather than be given time off.

Passed under suspension of the rule.

CONDITIONS AT CITY HOSPITAL.

Coun. FISH and HANNON offered the following:

Ordered, That the Hospital Committee of the City Council investigate conditions at the City Hospital and report any inequities as to wages, working conditions, etc., that they might find to exist at this institution.

Passed under suspension of the rule.

LIGHTING FACILITIES, SAVIN HILL SECTION.

Coun. HANNON offered the following:

Ordered, That the Commissioner of Public Works be requested to improve the present lighting facilities in the Savin Hill section of Dorchester, particularly on Savin Hill avenue near Dillingham street.

Passed under suspension of the rule.

PAYMENT FOR OVERTIME WORK.

Coun. CAREY offered the following:

Ordered, That his Honor the Mayor be requested to instruct all department heads to pay employees for overtime work instead of allowing them time off.

Coun. CAREY—I am going to take a moment to speak on the order, because I think that the practice rampant in this city is grossly unfair to large numbers of our employees. It is a matter I have brought on this floor on previous occasions. It is a matter I feel should be adjusted without further delay. We are now hearing the budget, and we have had certain department heads appear before the committee, informing us that their employees are paid for overtime work. Other department heads inform us that their employees are given time off. On questioning one of the department heads, he informed the committee that not only are his employees not given money for supper, but they have to go home for supper and then pay their own carfare in going home and coming back again. Most of the city employees affected here are working for the average pay of \$5 a day or \$5.50 a day. It does those employees no good whatsoever to be put out of pocket for the expense of providing their own supper, paying carfare home and back again to their place of employment, and then to be compensated by time off. What good does time off in the middle of winter do to a city employee working for \$25 or \$30 a week. They can't go to Miami or Palm Beach or any place. In the meantime they are denied the opportunity to be with their families during the evening hours and on Saturday afternoons and on Sunday. I think it is a most unfair practice. You may raise the question that private business doesn't pay for overtime. Private business in some cases does, but the system in private businesses is different from that of a political system, working for a Municipal or Federal or State Government. I have been in private business and I have seen what value it is to work overtime. Your cooperation and your willingness to help out are recognized. You are repaid through pay increases or promotions, but because of the system that prevails in municipal employment, unless you are in, you are out, not only from the standpoint of being promoted or getting pay increases, but you are out of pocket for the expense you must go to when you are forced to work overtime. I don't see any justification for demanding that employees of the city work overtime without being compensated for it. That is the only fair way to do, and I sincerely hope that this is the last time that matter must be brought on the floor of this Council. I hope the Mayor will see to it that all department heads are instructed from now on to pay those employees for overtime work and quit the practice which gives them time off.

Coun. FISH—I didn't intend to speak on it, and I won't say much except this. I would like to bring out before the Body one question I asked of the Budget Commissioner during the budget hearings. I asked him if it were permissible for any department to pay overtime, and his answer was Yes. Now, it seems to me that there are some department heads who are trying to make some sort of a record. I don't know what record they are trying to accomplish, but it is at the expense of city employees. They seem determined that they don't want to pay overtime, and for that reason will give time off. In many cases they get time off and have an accumulation of twenty or thirty days, and they are denied that and are asked to come in to work. I can quote many cases where there has been an accumulation of time and they can't get it from the department head. I think the whole thing can be clarified if they pay them money for any overtime.

Coun. KINSELLA—Last Monday I put in an order asking that they pass some means of paying the city employees who had overtime and were given time off which they never received. The particular case that inspired that was a thirty-five-year-old man who died in the City Hospital with an accumulation of fifteen days behind him, with a total of about \$75 in money. No one can get it because the rule is that when you die benefits of that description die with you. We have just been

put in the position of "welchers" when we won't pay the survivors of men who don't take time off and don't get paid.

Coun. COFFEY—I doubt a quorum.

The roll was called, and a quorum was present.

Coun. COFFEY—I now move that No. 3 be taken off the calendar.

President KERRIGAN—We have an order before that. Councilor Carey moves suspension of the rules and passage of the order.

The order was passed under suspension of the rules.

CONFIRMATION OF APPOINTMENTS.

By direction of President KERRIGAN the Council took up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on appointments submitted by the Mayor February 28, 1944, of Gertrude Ballem and Helen Van Wart, to be Weighers of Coal.

The question came on confirmation. Committee, Coun. Coffey and Dwyer. Whole number of ballots 12, nays 0, and the appointments were confirmed.

RELAXATION OF DIMOUT REGULATIONS.

Coun. CAREY and D. F. SULLIVAN offered the following:

Ordered. That his Honor the Mayor be requested to confer with the officials of the First Service Command with a view to having restrictions relaxed, at least in part, relative to dimout regulations, especially in so far as small-sized electrically lighted street lamps are concerned.

Coun. CAREY—That matter likewise has been brought before the Council on previous occasions, and I think the time has now come when the officials of the First Service Command, the officials of the Army and others concerned, should recognize the necessity of doing something immediately. This order specifically asks that regulations be relaxed relative to small-sized electrically lighted street lamps. There is hardly a night in our district—and it has happened in other sections of the city—when on poorly lighted streets, and that poor light comes only because of dimout regulations now in force—when women are not being accosted and chased home. All of those cases are not reported to the Police Department because of the reluctance on the part of these women to have a cruising car stop at their door. The question arises as to what necessitates a cruising car outside the door. But within the last week in my district I have had three cases of women attacked on very poorly lighted streets, on streets where we have the small-sized electric lamps, where there was no necessity to dim them out. You can go through the city and find lights on marquees and display signs going full tilt. There is plenty of sky glow reflected from those lights. There have recently been two or three women found dead, one in the Franklin Park section and another down town here. I think it might be that some of these women are perhaps dying from fright, the streets are so poorly lighted. They must be out for some reason or other, and because of the darkness of the streets they are affected. We know that as we go about the city and observe these small-sized electric street lamps that they don't throw off a great deal of light. As a matter of fact, I hope one of the first things the city does as soon as this war is over is to double and triple the street lamps on practically every street of this city. As I said in my opening, this matter has been here on this floor before. With the exception of the dimout being removed from gas lamps, that never should have been put on in the first place, nothing has been done to afford protection for women who must be out at night, and I hope something can be done to provide better street lighting.

The order was passed under suspension of the rule.

RESOLUTIONS RE JEWISH SETTLEMENT OF PALESTINE.

On motion of Coun. COFFEY, the Council took up, under unfinished business, No. 3 on the calendar, viz.:

3. Report of the Executive Committee, ought to pass, on the resolution indorsing the Taft-Wagner and Wright-Compton Resolutions in Congress relative to the Jewish settlement of Palestine.

Coun. COFFEY—In view of the fact that I feel this resolution has outlived its usefulness, and the statements that I have read both from the Archbishop in this morning's paper and also from a General in the United States Army, I think that some twenty signatures of members of the Boston City Council have been sent down to Washington, and I think that is sufficient. I don't think there is any sense in our carrying this resolution on the calendar from week to week. I think it should be taken up on the floor now, because if there is anything to come of it, it will come from the telegram already sent to Washington, signed by some twenty members of the Council.

President KERRIGAN—The question is on the report of the committee, on the indefinite postponement of the resolution.

Coun. CHASE—I rise to a point of order. President KERRIGAN—State your point.

Coun. CHASE—Has this matter any relation to municipal business?

President KERRIGAN—It is on the calendar and comes before the Body.

Coun. CHASE—I move that it be sent to the Committee on Rules for further study.

President KERRIGAN—The motion before the Body is on accepting the report of the committee and the indefinite postponement.

The report was accepted and the matter was indefinitely postponed.

RECESS.

The Council voted at 4.47 p. m., on motion of Coun. COFFEY, to take a recess subject to the call of the Chair. The members reassembled and were called to order by President KERRIGAN at 5.39 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. HANLEY, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) for payment to town of Norwood of \$195 for loss of property from ambulance used at Coconut Grove fire—that same ought to pass.

Report accepted; order passed, yeas 13, nays 0.

2. Report on order (referred today) that electrical transcription or script of broadcast given through National Broadcasting Company February 22 be obtained—that same ought to pass.

Report accepted; order passed.

Adjourned, on motion of Coun. HANLEY, at 5.41 p. m., to meet on Monday, March 13, 1944, at 2 p. m.

CIVIL SERVICE EXAMINATIONS. (STATE AND CITY SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

TELEPHONE OPERATOR, APRIL 29, 1944.

Last date for filing applications, Monday, April 10, 1944, at 4.30 p. m.

This examination is to establish eligible lists for the State service, for all cities and for such towns as are classified under Civil Service.

Salary: For State service, the entrance salary, with maintenance, is \$480 a year plus a temporary increase of \$240; the maximum salary, with maintenance, is \$900 a year. The entrance salary, without maintenance, is \$840 a year plus a temporary increase of \$240; the maximum salary, without maintenance, is \$1,260 a year. For the various cities and towns the salary ranges vary.

Vacancies: From time to time.

Duties: To operate a telephone switchboard; to perform simple clerical work in connection therewith; and to perform related work as required.

Subjects and Weights: Training and experience, 5; memory test, 1; practical questions, 4; total, 10.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

RADIUM PHYSICIST, DEPARTMENT OF PUBLIC HEALTH, APRIL 29, 1944.

Last date for filing applications, Monday, April 10, 1944, at 4.30 p. m.

Salary: The entrance salary is \$2,400 a year, plus a temporary increase of 15 per cent; the maximum salary is \$3,000 a year.

Vacancies: At present there is one vacancy at Pondville Hospital.

Duties: To supervise and keep in repair the radium emanation plant of the Pond-

ville Hospital, and to take off radon emanation as required for the use of the department; to measure radium and radon applicators used in the hospital in terms of gamma radiation; to confer with the medical staff of the hospital upon request in working out desired ranges of radiation therapy; to advise and assist in the necessary calibration of the X-ray therapy apparatus of the hospital; to advise on the selection of radiographic and roentgen therapy apparatus for the uses of the hospital; to advise on the proper protection of the hospital personnel from direct and from scattered radiation.

Examples of Duties: Take off radium emanation and the preparation of radon seeds; measurement of dosages of radiation therapy in treatment of patients; calibration of institutional radiographic and X-ray therapy units; measurement of scattered radiation in connection with therapy and protection of hospital personnel.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

OCCUPATIONAL THERAPIST, CAMBRIDGE SANATORIUM, CAMBRIDGE, APRIL 29, 1944.

Last date for filing applications, Monday, April 10, 1944, at 4.30 p. m.

This examination is open to residents of the State.

Salary: \$1,200 a year with maintenance, for full-time service.

Vacancies: At present there is one vacancy for a female.

Duties: To prepare and teach projects in handcraft to patients; to order craft materials; to plan and arrange for entertainments; to supervise the hospital library service to patients; to supervise the hospital store; to supervise the hospital newspaper; to supervise card project being carried on for ambulatory patients; to supervise correspondence courses; with the consent and advice of the hospital superintendent, to initiate and develop any other activities or occupations which seem therapeutic for patients; to perform necessary clerical and bookkeeping work in connection with any of the activities; and to perform related work as required.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

THE AIRCRAFT CARRIER—AN AMERICAN IDEA.

No weapon has changed the history of modern times more than the aircraft carrier. America made the first shipboard takeoffs and landings. The first takeoff was by Eugene Ely flying a biplane in November, 1910. The first shipboard landing was made on an improvised deck installed on the U. S. S. Pennsylvania, two months later, January 18, 1911.

Today's modern American aircraft carrier is the largest ship afloat. She is fleet and well provided with hard-hitting anti-aircraft guns. She has both speed and striking power—for an aircraft carrier is the No. 1 objective of enemy bombers and torpedo planes.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

STATISTICAL MACHINE OPERATOR (REMINGTON-RAND MACHINES), MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,140 a year plus a temporary increase of \$240; the maximum salary is \$1,440 a year.

Vacancies: From time to time.

Duties: To operate Remington-Rand machines, punching cards from data previously coded; and to perform related work as required.

Entrance Requirement: Applicants must have had at least six months' full-time paid experience in the operation of Remington-Rand machines.

Subjects and Weights: Training and experience, 2; practical questions, including practical tests in the operation of Remington-Rand machines, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CIVIL SERVICE EXAMINATIONS.

PUBLIC HEALTH NURSE, BOSTON HEALTH DEPARTMENT, APRIL 15, 1944.

Last date for filing applications, Monday, March 27, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,400 a year; the maximum salary is \$1,800 a year.

Vacancies: At present there are eleven vacancies for permanent Public Health Nurses, and five vacancies for military substitutes, due to induction into the service of the permanent employees.

Duties: Under the guidance of supervisors of public health nursing, to plan and execute public health nursing work in the fields of tuberculosis, school nursing, communicable disease, health service for day nurseries, and nursery schools, and to teach health practices in connection with all these fields.

Examples of Duties: Follow-up work in connection with clinic service for well children, tuberculosis, etc.; attendance at health department clinics, assisting

the physicians, and home visits for health instruction on all necessary cases; daily visits to give health service in the parochial schools and in day nurseries.

Applicants must have a knowledge of pediatrics, mental hygiene, nutrition, skin diseases, communicable diseases, and personal and community hygiene.

Entrance Requirements: Applicants who have not reached their twenty-fifth birthday or who have passed their fiftieth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Applicants must be registered nurses under the State Board of Registration in Nursing on the date of filing application.

Applicants must have at least one year's paid experience in public health nursing. Substitution: Completion of an approved course in public health nursing may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

NEW BEDFORD, Friday, December 8.

Rules for Examinations.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined either for a Master or Journeyman Certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examinations will be held and only those so notified will be examined on that day.

FOOD INSPECTIONS.

Seventeen inspectors were employed in this division of the Boston Health Department in 1942 for the purpose of insuring the food supply of the city. During 1942 the various activities of the Division were as follows:

Inspections in market area, 75,916; inspections of markets, 17,729; inspections in districts outside of market area, 22,769; reinspections, 1,450; inspections of food terminals, 184; inspections of pedlers' vehicles, 13,579; inspections of food stands, 6,987; inspections for victualers' licenses, 932; inspections of bakeries, 1,834; inspections of ice cream plants and stores, 4,193; inspections, special, 798; inspections of retail milk establishments, 4,791; complaints adjusted, 280; nuisances abated, 390.

MILK PLANT INSPECTION SERVICES IN BOSTON FOR THE YEAR 1942.

Total number of services, 170,516; dairies inspected, 126; inspections of country creameries, 1,054; bacteriological examinations at country creameries, 8,931; milk cans inspected, 108,371; milk cans condemned, 6,443; milk temperature tests, 47,804; inspections of licensed dealers, 2,563; inspections of establishments for pasteurization of milk, 1,414; inspections of ice cream plants, 98; investigation of high counts, 149; laboratory inspections, 6; abatement notices served on licensed dealers, 719; dairies excluded because of poor quality milk, 945; dairies readmitted after compliance with requirements, 822.

SLAUGHTERING OF ANIMALS IN BOSTON.

In Boston all slaughtering of animals and dressing of meat must be conducted at the Brighton Abattoir. This establishment, known officially as the Butchers' Slaughtering and Melting Association, was founded in 1870 by an act of the General Court in order to prevent the existence of numerous slaughterhouses within the city limits. Private individuals, if living within six miles of Faneuil Hall, were required to bring their animals to Brighton for slaughter. This step was taken since the very nature of the business frequently gives rise to public health problems, chief of which are noxious odors and rodent control.

In 1876 an inspector of the Board of Health was first stationed at the Abattoir to supervise slaughtering operations and to prevent the use of diseased or under age animals for food purposes. At that time the Abattoir was the main source of meat supply for the entire city, since transportation facilities did not yet permit the shipment of dressed meat for any distance. During 1876 approximately 74,000 cattle, 274,000 sheep and 8,000 calves were slaughtered. In 1942 the Brighton Abattoir handled a total of 149,948 animals.

Animals Slaughtered.

Cattle, 43,158; calves, 75,675; swine, 27,505; sheep, 3,012; goats, 598.

Total Weight of Condemned Animals and Parts.

Whole animals, 21,676 pounds; parts of animals, 20,211 pounds; putrid meat, 615 pounds. Total, 42,502 pounds.

SEEKS COMMUNITY AID IN ARMY CAMP CITIES.

The army welcomes the aid of civic organizations in helping to protect soldiers from intemperance and vice when they are away from their duty stations.

The War Department is endeavoring in various ways to protect its personnel from temptations while at military posts and camps. Healthful and wholesome entertainment is furnished. Commissioned officers are charged with the responsibility for the men in their commission. Understanding leaders offer them advice and counsel, and medical officers guard their physical well-being. —*American City Magazine*.

MODEL FOR BLACKOUT ORDINANCES.

The National Institute of Municipal Law Officers has prepared a blackout ordinance, approved by the Office of Civilian Defense; it delegates reasonable administrative powers to the proper executive officer and contemplates both actual air raid conditions and those of practice blackouts. Several state leagues of municipalities have also prepared model ordinances.

The first city to enact a blackout ordinance was Seattle, Washington, early last year. Many others have done so more recently, the ordinances ranging in character from the type that delegates all authority to the mayor or city manager to those providing no delegation of power but outlining completely the rules for civilian conduct during blackouts. In some cases, at least, the city is declared not liable for damage to persons or property resulting from an authorized blackout. —*Municipal Review*.

STATE AID AND LOCAL REVENUE.

Study of the Division of State and Local Government from the Bureau of the Census shows that in 1941 state aid took 29.5 per cent of the revenues of the forty-eight states and amounted to 24.3 per cent of the total revenues of local governments.

The relative importance of state aid to local government varied widely from state to state, however, ranging from a low in Oregon, where only 5.9 per cent of state revenues were turned over to the localities and accounted for only 6.1 per cent of all local revenues, to a high in Colorado, where state aid took 44.5 per cent of all state revenues and accounted for 36.6 per cent of all local revenues. In Delaware state aid accounted for the highest percentage of local revenues—48.8 per cent, but it represented only 33 per cent of the state's revenues. In all, the study shows, state aid to local governments amounted to \$1,697,814,000.

VOTE FOR PRESIDENT IN MASSACHUSETTS, NOVEMBER 3, 1936.

Vote in the State for President: 942,716 for Roosevelt (Dem.); 768,613 for Landon (Rep.); 118,639 for Lemke (Union); 5,111 for Thomas (Soc.); 2,930 for Browder (Comm.); 1,305 for Aiken (Soc. Lab.); 1,032 for Colvin (Proh.); all others, 11; total votes, 1,840,357; blanks, 34,768. Plurality for Roosevelt, 174,103. There were 18,097 more ballots cast for President than for Governor.

1943 GREAT LAKES COAL AND GRAIN TRAFFIC.

For the 1943 season of navigation, through December 4, coal forwarded to Great Lakes docks from American ports on Lake Erie totaled 45,518,603 tons, according to a report by Solid Fuel Administrator Ickes. This was 1,858,604 tons less than in 1942, the report said. Lake navigation began a month later than it did in 1942 and strikes in the coal producing areas in May and June and in October and November temporarily reduced the flow of coal toward the Lake Erie ports. Coal received at American docks on Lake Superior, according to the report, totaled 11,111,625 tons in the 1943 season of navigation, 15 per cent above the 9,828,000 tons received there in 1942. The 1943 total, it said, exceeded the season's quota by more than 300,000 tons.

War Food Administration officials expressed the opinion that final figures would show a total of 190,000,000 bushels of grain moved via the Great Lakes to northeast ports for domestic consumption in 1943. This was greatly in excess of the 135,000,000 bushels set as the year's quota. The War Shipping Administration said that the larger quota had been set in view of added facilities to be available in 1944. These included thirteen vessels returned to the Great Lakes from ocean service by the W. S. A. and the completion by November 30, 1943, of sixteen new ore carriers for the Maritime Commission, all of which would be available for Great Lakes transportation in 1944.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town policy, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

\$50,000,000 WATER-SUPPLY PROJECT IN CALIFORNIA.

The city of San Jose has entered into contract with the Water Properties Company, Ltd., of San Francisco, to provide the city water from the head waters of the American river in the vicinity of Lake Tahoe. The agreement is for thirty years, during which time the municipality will acquire title to the local distribution system and receive a proportionate share of the production and transmission systems.

A NEW POSITIVE WATER-METER TESTER.

The large majority of waterworks, particularly the smaller ones, seldom have accurate or positive means of testing their meters. Often when a meter is repaired, the man making the repairs simply blows through the meter to see if it runs, when it is again put into service with the assumption that it is accurate. Sometimes meters are hooked up in series with a new meter and water is run through to see if the readings check. This is better than the lung-power method, but still is far from accurate or dependable, in that the test meter may be in error by 2 per cent or even more. Several states have regulations governing water utilities, both municipal and private, and require a positive method of testing water meters in every meter shop.—*American City Magazine.*

TO PROTECT MINORS.

Buffalo is considering an ordinance, similar to the one in effect in New York City, for the protection of minors in theaters. It permits children, unaccompanied by adults, only in theaters licensed as to adequate sanitary and safety provisions, sets aside a certain section for them and requires the presence of a licensed matron.

TANKERS DO DOUBLE DUTY.

American shipyards are now making it possible for our tankers to carry extra loads. A scaffold-type extra deck enables a modern tanker to carry a load of extra freight the equivalent of 10 per cent of its normal load capacity. Some tankers now carry, in addition to its load of gasoline, deck loads of ambulances, planes, jeeps and trucks.

BOND SALES.

Labor, farm, school and women's groups were responsible for 1943's greatest sale of E Bonds.

Using the person to person approach, Payroll Savings added two million workers—bringing its ranks to 26.4 million. Payroll Savings allotments jumped from 355 million in December, 1942, to 445 million in October, 1943. Thousands of labor-management War Bond committees were organized.

Farm committees worked intensively through personal solicitation and farmers organizations to convert a large share of the largest farm income in history into War Bonds.

In the schools, the nation's youngest group of Bond buyers is rapidly enlisting every pupil in America.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

MONEY IN CIRCULATION.

Money in circulation in the United States reached a new national high of \$19,250,000,000 in October, 1943. This new peak for money in circulation represents an increase of \$410,000,000 over September, 1943, the previous high.

—Office of War Information.

CITY OF BOSTON.**SUPPLY DEPARTMENT.****PROPOSALS FOR FURNISHING HAY, GRAIN, STRAW, ETC.**

The Supply Department of the City of Boston invites proposals for furnishing hay, grain, straw, poultry feed, etc., for city departments as per specifications contained in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Envelopes containing bids to be sealed and plainly marked "Proposal for Hay, Grain, Straw, Poultry Feed, Etc." There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. The bids will be publicly opened and read Thursday, March 23, 1944, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

FRANCIS X. LANG,

(March 18.) Superintendent of Supplies.

CITY OF BOSTON.**BOARD OF REAL ESTATE COMMISSIONERS.****PUBLIC AUCTION.**

The City of Boston will sell at public auction all its right, title and interest in and to about eight hundred thirty-eight (838) square feet of land on the northeasterly side of Everett street, East Boston (formerly), numbered eighty-two (82) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5479, page 593, on Tuesday, March 21, 1944, at 10 a. m., on the premises, at a minimum price of one hundred and seventy-five dollars (\$175).

A deposit of fifty dollars (\$50), in cash or certified check, is required at the time and place of sale, balance to be paid in ninety (90) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
Chairman.

(March 11-18.)

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 36.

SATURDAY, MARCH 25, 1944.

No. 13

BOSTON'S MARCH DRIVE FOR SALVAGE OF WASTE PAPER AND TIN BIDS FAIR TO EXCEED SUCCESS OF PREVIOUS MONTHS DESPITE UPSET IN SCHEDULED PROGRAM BECAUSE OF WEATHER CONDITIONS—FUNDS REALIZED FROM COLLECTIONS TO BE TURNED OVER TO RED CROSS TO AID IN DRIVE AND ALSO TO KNIGHTS OF COLUMBUS SERVICEMEN'S CLUB—SCHOOLS AIDING IN DRIVE TO BE GIVEN CITATION OF MERIT CERTIFICATES.

Boston's March drive for the salvage of waste paper and scrap tin opened Thursday when collections were made by city trucks in the first ten wards of the city — East Boston, Charlestown, the City Proper, the North, West and South Ends, Back Bay, South Boston, and Wards 8, 9, and 10 of Roxbury.

On Friday the collections were made in Wards 11 and 12 of Roxbury and Wards 13 to 17, inclusive, of Dorchester. On Saturday final collections of the week were made in Wards 18 to 22.

Householders and proprietors of business places in the first ten wards of the city placed their waste paper bundles and tin cans on the sidewalk and salvage trucks picked them up to start them on their way to war industries.

A goal of 1,500,000 pounds of paper and a third of a million pounds of tin cans has been set by Salvage Director George G. Hyland. Director Hyland emphasized that every kind of waste paper is wanted — newspapers, magazines, corrugated cardboard, paper bags, wrapping paper and other miscellaneous paper, such as envelopes, circulars and small pieces of paper.

Material Much Needed.

Newspapers should be tied in one bundle, he advised. Magazines in a second bundle. Corrugated cardboard, wrapping paper, and paper bags in a third bundle. Miscellaneous pieces of small paper should be flattened, placed in a cardboard box and tied.

"Operators of paper mills where war materials are being manufactured report that their stock piles are dangerously low," Hyland declared. "We must help to supply the paper that is so vitally needed for important war purposes. Here in Boston we can play our part by seeing that every possible pound of paper is put out for the collectors during the drive of the next three days."

The Salvage Committee voted to turn over the entire proceeds of the city-wide collection to the Red Cross War Fund, and it is hoped that it will be possible to realize \$5,000 from the sale of the paper and tin contributed to the war effort by the people of Boston. Indications are that the collection was the best ever held.

Last month the Salvage Committee turned a check for \$4,000 over to the Red Cross, representing the proceeds obtained from the sale of waste paper received in the February collection.

In addition, the Salvage Committee has voted to give \$1,000 from its fund to the Knights of Columbus Servicemen's Club at 30 Commonwealth avenue.

The assistance of the school teachers of the city also was enlisted by Red Cross and salvage officials in a campaign to recruit thousands of additional school children for the paper salvage work.

Chairman Rowley announced that "in appreciation of the aid which this program means to the war effort in general, and particularly to the men in uniform whom the Red Cross is helping, the Red Cross will plan to give a 'Citation of Merit' certificate award to each school cooperating in this program for increasing the March paper salvage collection."

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by
NATHAN HASKELL DOLE.

CITY RECORD.

Published weekly in Boston by the Board of Trustees of the Statistics Department of the City of Boston, under the direction of the Mayor, in accordance with legislative act and city ordinance.

JOSHUA H. JONES, Editor.
P. NICHOLAS PETROCELLI, Associate Editor.
EDWARD F. O'DOWD, Business Agent, 73 City Hall, Boston.

Entered as second class matter at Boston Post Office.

By Subscription \$2.00 per year
Single Copies 10 cents

IN ADVANCE.

STREET AGENCIES.

Old South News Stand, Old South entrance to subway. Also News Stand, first floor, City Hall Annex.

Advertising.

A rate of \$2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, 73 City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, March 27, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

To THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

To THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

To THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

To THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

To THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

To THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

To THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

To THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

To THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MAYOR TOBIN DELIVERS ADDRESS AT EVACUATION DAY "NIGHT BEFORE" OBSERVANCE—EXPRESSES JOY THAT AMERICANS ARE STILL CITIZENS OF A FREE LAND, AND CALLS ATTENTION TO CONTRIBUTIONS MEN AND WOMEN OF IRISH BLOOD HAVE MADE TO PROGRESS OF CITY AND DEVELOPMENT OF NATION—HOPES FOR RESTORATION OF WORLD TO PEACE AND PROSPERITY SOON.

At the "Night Before" observance of Evacuation Day Mayor Tobin spoke, in part, as follows:

Mr. Toastmaster, Distinguished Guests, Ladies and Gentlemen.

Few indeed have been the events in the history of the United States that have left a deeper impression on the country than the date we observe by this gathering and the festivities we share tomorrow, March 17. The day the British evacuated Boston assured the success of the Revolution which gave us this country of ours, endowed with the spirit of tolerance and freedom.

The day also has a world-wide significance because it is, according to the best historians, the birth date of the patron saint of Ireland, St. Patrick. Because of these facts there is both happiness and thrill in the hearts of all Boston citizens as each calendar year brings this date into our lives.

We are happy that we are still citizens of a free country. We are thrilled because members of the race that gave us St. Patrick, from long before the Revolution, contributed so largely to the development of this land of ours. We are thrilled because of the records of men of Irish blood who fought in General Washington's Army, both as leaders and as ordinary soldiers. We are thrilled because men of Irish blood and ancestry have given of their life's blood and toil in the years and wars that have followed by which the United States have grown to the stature of a leading world power.

Here in Boston immigrants from Ireland and their descendants have made brilliant the pages of the city's history by their achievements and their contributions to the civic, political, scientific and social life of the community. They have contributed to that freedom of movement and existence that have made it possible for all races, all creeds, and all colors to share in the progress and growth that has been Boston's.

It was here in Boston that the blood of several racial and religious strains was mingled that the colonies might emerge into freedom as a nation. That fraternal and sacrificial spirit which gave us the Boston Massacre as a date to remember and venerate; the spirit that gave us Evacuation Day; that gave us the dates April 19 and June 17, and made historic Lexington, Concord and Bunker Hill exists today, stronger than ever. That spirit has sent our sons, white and colored, Jew and Gentile, Catholic and Protestant, into the far flung corners of the earth in order that Evacuation Day might always have its original significance, a freedom that shall ever shape and direct civilization and be the goal toward which all peoples shall look with hope and eager desire.

We are citizens of a war-weary world. We are called upon to do battle at home and on the battle fronts to restore peace and prosperity and tranquillity that we may enjoy the fruits of the struggles through which our parents passed while they made the dreams of liberty and freedom for all come true.

May our citizenry more and more know the beauties and joys of happy and serene existence such as was experienced when the invaders quit our shores on that eventful day long ago which has come to us as Evacuation Day.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

SUPPLY DEPARTMENT.

Upon March 11 the Mayor approved a contract with Donohue & Riordan for furnishing uniforms and uniform overcoats for the Boston Fire Department, as required, until December 31, 1944, with the privilege of purchasing on the same terms and conditions extended to February 1, 1945.

As Donohue & Riordan's previous contract for uniforms and uniform overcoats for the Fire Department expires May 1, 1944, this contract to commence deliveries on or after May 2, 1944. The approximate amount of the contract was \$36,035. Bids, opened February 24, were as follows:

18-Ounce Oakes Uniform Cloth.

800 Pairs Winter Uniform Trousers, as Per Specifications, Per Pair.—Donohue & Riordan, \$12.50*; M. Linsky & Brothers, Inc., \$13.50.

325 Private Sack Coats, as Per Specifications, Each.—Donohue & Riordan, \$25*; M. Linsky & Brothers, Inc., \$26.

80 Officer Sack Coats, as Per Specifications, Each.—Donohue & Riordan, \$27*; M. Linsky & Brothers, Inc., \$27.

30-Ounce Oakes Cloth.

50 Officer Overcoats, as Per Specifications, Each.—Donohue & Riordan, \$45*; M. Linsky & Brothers, Inc., \$46.50.

300 Private Overcoats, as Per Specifications, Each.—Donohue & Riordan, \$45*; M. Linsky & Brothers, Inc., \$46.50.

Cost of Material, Per Yard.—Donohue & Riordan, \$3.95, 18-ounce material; \$5.30, 30-ounce material; M. Linsky & Brothers, Inc., \$3.95, 18-ounce material; \$5.30, 30-ounce material.

Total.—Donohue & Riordan, \$36,035; M. Linsky & Brothers, Inc., \$37,685.

Cash Discount, Ten Days.—Donohue & Riordan, one half of 1 per cent.

* Contract awarded.

Upon March 11 the Mayor approved a contract with Dwinell-Wright Company for furnishing coffee for the city departments, as required, from November 1, 1943, to December 31, 1943, with the privilege of purchasing on the same terms and conditions extended to April 30, 1944. The approximate amount of the contract was \$8,788.50. Bids, opened October 1, were as follows:

100-Pound Bags Coffee, Unground, Fresh Roasted as Needed.

5,000 Pounds Coffee, Deer Island, to be Delivered via Shirley Gut, Winthrop, as Per Specifications, Per Pound.—J. L. McCormick & Co., 20.75 cents; La Touraine Coffee Company, 21.07 cents; Dwinell-Wright Company, 18.9 cents.*

1,500 Pounds Coffee, Suffolk County Jail, Charles Street, as Per Specifications, Per Pound.—J. L. McCormick & Co., 20.75 cents; La Touraine Coffee Company, 21.07 cents; Dwinell-Wright Company, 18.9 cents.*

Approximate Total.—J. L. McCormick & Co., \$1,348.75; La Touraine Coffee Company, \$1,369.55; Dwinell-Wright Company, \$1,228.50.

25-Pound Kegs, Per Hundredweight.—National-Boston Lead Company, \$11.

Twelve and One Half Pound Kegs, Per Hundredweight.—National-Boston Lead Company, \$11.25.*

Approximate Total.—National-Boston Lead Company, \$54.38.

* Contract awarded.

POLICE DEPARTMENT ORDERS.

General Order No. 88.

Whereas, It appears that Patrolman William J. Wilkins of the Traffic Division has performed faithful service in the Police Department for twenty-two and seven-twelfths years and that the Medical Board, provided for by chapter 521 of the Acts of 1922, has certified that the said Patrolman William J. Wilkins is physically incapacitated, it is the judgment of the Police Commissioner that the said Patrolman Wilkins is permanently physically incapacitated for useful service in the Police Department

ment on account of injuries received in the actual performance of duty as a police officer; therefore, it is hereby

Ordered, That, with the approval of his Honor the Mayor, the said Patrolman Wilkins be retired from active service in the Police Department under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6, Acts of the year 1920, and chapter 387, Acts of the year 1930, and that his name be placed upon the department pension roll with pay at the rate of eleven hundred and fifty (1,150) dollars per annum, said sum being one half of the amount of compensation received

by him in the office from which he is retired.

The retirement of Patrolman Wilkins, as herein provided, will take effect at 7.45 o'clock a. m., Thursday, March 16, 1944.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 89.

The police officer hereinafter named having performed faithful service in the

POLICE DEPARTMENT ORDERS.

(Continued from page 263.)

Police Department for the years stated; and the Medical Board, provided for by section 18, chapter 521, Acts of 1922, having certified that he is incapacitated for useful service on the Police Force of the City of Boston, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department, under provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the department pension roll with pay at the rate set out (to be paid monthly), said sum being one half of the amount of compensation received by him in the office from which he is retired; to take effect, Thursday, March 16, 1944, at 7.45 o'clock a. m.

Patrolman Bartholomew Murphy, Division 7, 24 3-12 years of service, \$1,150 per annum.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 90.

The following communication is published for the information of the department:

"CITY OF BOSTON,
COMMITTEE ON PUBLIC SAFETY,
55 TREMONT STREET,
BOSTON, MASSACHUSETTS.

Subject: State-wide Practice Blackout, Sunday, March 26, 1944.

In accordance with directions received from the Army and the Massachusetts Committee on Public Safety, a Practice Blackout and Air Raid Test will be held as indicated below.

1. Date: Sunday, March 26, 1944.
2. Time: The first signal (Practice Yellow) will be sent out at 8.30 p. m. Subsequent signals will follow at approximately the times scheduled below:
 - Practice 1st Blue, 8.50 p. m.
 - Practice Red, 9.05 p. m.
 - Practice 2d Blue, 9.15 p. m.
 - Practice White, 9.30 p. m.

The above schedule is for the information of all concerned to indicate the time at which the respective signals will be originated from CARW. Cities and towns, however, should not sound their audible signals before the appropriate warning signals are received from their Warning Centers. The period of the test will be governed by the signals as received and not by the above timetable.

3. Purpose of Test: The exercise will be a state-wide test of
 - a. Mobilization (of all personnel).
 - b. Blackout (to be complete—no exemptions).
 - c. Audible signals.
 - d. Communications.

4. Incidents at Local Levels: C. P. X. Exercises in cities and towns during the test are at local option, but, in any event, all personnel will be fully mobilized.

5. Regional Incident with State Headquarters: Each Regional Operations Room will be furnished with one incident from State Headquarters as the basis for a practice exercise between Regional Headquarters and State Headquarters.

Special Note.

1. All concerned should remember that traffic, both pedestrian and vehicular, should *not* be stopped during the period of the two Blues.

2. During the period of the Red Signal, all traffic is to be stopped, except vehicles carrying Civilian Defense pennants and vehicles belonging to Army, Navy, State Guard, Red Cross, Police, Fire, etc., generally referred to as "Emergency Vehicles."

CITY OF BOSTON COMMITTEE ON PUBLIC SAFETY,

by MAYOR MAURICE J. TOBIN, *Chairman.*
JOHN J. WALSH, *Executive Director.*

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 91.

The resignation of Provisional Temporary Patrolman Eli L. Freeman of Division 10 having been presented, it is hereby accepted, to take effect as of Friday, March 17, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 92.

The resignation of Provisional Temporary Patrolman Edward A. Ford of Division 11 having been presented, it is hereby accepted, to take effect as of Saturday, March 18, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

Gordon (reassessed from Ida Gordon)—Land, with the buildings thereon, on the northwesterly side of Spring street, numbered 13, between an estate of Guiseppe Russo and another and an estate of Max A. Dudar, and supposed to contain about 975 feet, tax for 1940.....\$203 00
Paid on account.....90 00

Balance due.....113 00
Water and costs for 1939.....63 91
Tax for 1941.....198 00
Water and costs for 1940.....9 80
Tax for 1942.....205 00

Morris and Julia Miller for 1940, Max Liberman for 1941, and Rose Liberman for 1942—Land, with buildings thereon, on the northwesterly side of Washington street, numbered 791, 793, 795, 797 and 799, between an estate of York Realty, Inc., and an estate of Wyman Realty Corporation, and supposed to contain 6,798 feet, tax for 1940.....\$2,436 00
Paid on account.....1,050 00

Balance due.....1,386 00
Tax for 1941.....2,178 00
Tax for 1942.....1,845 00
Water and costs for 1941.....21 25

WARD FOUR.

Ella F. Moran for 1935; Elizabeth Gaudet for 1936, 1937, 1938, 1939 and 1940; Peter B., Earl F. and Peter B. Gaudet, Jr., for 1941; Peter B., Earl F. and Peter B. Gaudet, Jr. (reassessed from Norah Salah), for 1942 (supposed present owner Nora Salah)—Land, with the buildings thereon, on the northeasterly side of Pembroke street, numbered 139, between an estate of Delia Lydon and an estate of Minnie A. Burlingame, and supposed to contain about 1,680 feet, tax for 1935....\$370 00
Tax for 1936.....861 00
Tax for 1937.....367 65
Tax for 1938.....392 35
Tax for 1939.....339 15
Tax for 1940.....304 50

Water and costs for 1939.....34 47
Tax for 1941.....277 20
Water and costs for 1940.....22 93
Tax for 1942.....266 50

Fred Willis (reassessed from Sarah Lawless)—Land, with the buildings thereon, on the southeasterly side of Lawrence street, numbered 31, between an estate of Nellie O'Connell and an estate of Mary Harrington, and supposed to contain about 990 feet, tax for 1940.....162 40
Water and costs for 1939.....21 86
Tax for 1941.....153 40
Tax for 1942.....164 00
Water and costs for 1941.....6 52

WARD SEVEN.

Frank L., Sidney K., Richard and Florence Martha Clapp (reassessed from William C. Clapp Heirs)—About 45,098 feet of land on the southwesterly side of West Bellflower street, bounded and described as follows: Northeasterly by West Bellflower street; northwesterly by an estate of Clara P. Horton and others; southeasterly by Boston street and by estates of John Fraszewicz and another, and Bradford M. Hill and another; southwesterly by an estate of Frederick G. Clapp; excepting therefrom the land described in finding made by the Land Court dated January 24, 1944, in case No. 7480 Misc. and set forth in Notice of Final Disposition dated January 28, 1944, and recorded on January 31, 1944, with Suffolk Registry of Deeds, Instrument Number 43, tax for 1941.....\$245 52
Tax for 1942.....254 20

Edward L. Kligman—Land, with buildings thereon, on the northeasterly side of Old Colony avenue, not numbered, making the easterly corner of Lark street, adjoining an estate of Helen Odenweller, being lot 2, William E. Hannan plan, dated May 21, 1923, and supposed to contain 5,485 feet, registered in the Suffolk Registry District of Land Court, certificate number 38370, Book 187, page 170, tax for 1940.....97 44
Tax for 1941.....91 08
Tax for 1942.....94 30

WARD THIRTEEN.

Cornelius T. Fitzpatrick (supposed present owner Morris Goodman, Trustee)—Land, with buildings thereon, on the northeasterly side of Napier park (formerly Francis park), numbered 4, between an estate of Morris Goodman, trustee, and an estate of Samuel Segal, and supposed to contain 5,476 feet, tax for 1938.....\$495 60

WARD SIXTEEN.

Michael J. Verrochi (reassessed from Mary E. Day and Willard Welsh and Ellis L. Gates, Trustees of Lawrence Estates Land Trust)—About 147,289 feet of land, lying in the rear from the southerly side of Neponset avenue, bounded and described as follows: Northerly by another estate of said Verrochi; westerly by Great Creek; southerly by Great Creek; easterly by another estate of said Verrochi, tax for 1938.....\$119 77
Tax for 1939.....115 71
Tax for 1940.....117 74
Tax for 1941.....114 84
Tax for 1942.....118 90

WARD NINETEEN.

Massachusetts Bond and Mortgage Company—About 32,177 feet of land on the easterly side of Everett street, extending through to Call street, adjoining an estate of Volunteer Co-operative Bank, being the lot shown on Fink and Fink plan, dated August 20, 1929, registered in the Suffolk Registry District of Land Court, certificate number 26937, Book 130, page 137, tax for 1931.....\$406 35
Tax for 1932.....457 95
Tax for 1933.....295 20

MERRITT THOMPSON,
Collector of Taxes for the City of Boston.

FIRE DEPARTMENT ORDERS.

General Order No. 16.

I. EDWARD A. FINNERTY.

It is with deep regret that the Acting Fire Commissioner announces the death, on March 8, 1944, of Hoseman Edward A. Finnerty of Engine Company 10. Hoseman Finnerty was appointed to the department February 2, 1914.

The funeral was held from his late home, 866 Washington street, Dorchester, at 9.30 a. m. Saturday, March 11, 1944, followed by services at St. Gregory's Church, Dorchester avenue, at 9.45 a. m.

The Chief of Department made the customary detail to act as a funeral escort and the members of Engine Company 10 were excused in order to attend the funeral.

II. ASSIGNMENTS OF PROVISIONAL MILITARY SUBSTITUTES.

The following assignment of a provisional military substitute for fireman, which became effective at 8 a. m. Wednesday, March 15, 1944, is hereby announced:

Patrick J. Quinn to Ladder Company 13.

The following assignments of provisional military substitutes for firemen, which will take effect at 8 a. m. Wednesday, March 22, 1944, are hereby announced:

John J. Bock to Ladder Company 21.
Anthony R. Menno to Engine Company 52.

William J. Sullivan to Ladder Company 29.

III. TRANSFERS.

The following transfers, which will become effective at 8 a. m. Wednesday, March 22, 1944, are hereby announced:

Johan G. W. Holmberg, from Ladder Company 29 to Ladder Company 17.
Howard W. Burns, from Engine Company 9 to Engine Company 33.

IV. RETIREMENTS.

The following retirement, which became effective at 8 a. m. Wednesday, February 2, 1944, is hereby announced:
Hoseman William H. McNeil of Engine Company 16.

The following retirement, which will become effective at 8 a. m. Saturday, April 1, 1944, is hereby announced:
Hoseman John E. Kamb of Engine Company 36.

Hoseman McNeil was appointed to the department on May 15, 1925, and Hoseman Kamb was appointed on February 8, 1929. Both these men leave the department with the best wishes of their associates.

V. RESIGNATIONS.

The following resignation, which became effective at 8 a. m. Friday, March 10, 1944, is hereby announced:

P. M. S. Francis J. Fuller of Engine Company 33.

The following resignation, which will become effective at 8 a. m. Thursday, March 16, 1944, is hereby announced:

P. M. S. Lawrence H. Sheehan of Ladder Company 13.

P. M. S. Fuller was appointed to the department on February 23, 1944; and P. M. S. Sheehan on November 3, 1943.

VI. A. D. T. ASSIGNMENT.

The following signal number is to be added to the running cards of the A. D. T. Company in this department:

Signal 549, Otis Elevator Company, 130 Clarendon street. (Sprinkler System.) Apparatus to respond: Engine 22, Ladder 13, District Chief 7. Nearest box is 1547.

VII. G. A. C. ASSIGNMENT.

The following signal number is to be added to running cards of the G. A. C. in this department:

Signal 231, Palmer & Parker Company, 103 Medford street, Charlestown. (Sprinkler System.) Apparatus to respond: Engine 36, Ladder 22, District Chief 2. Nearest box is 4148.

VIII. DISCONTINUANCE OF BOSTON AUTOMATIC SIGNAL.

Notice has been received from the Boston Automatic Fire Alarm Company that the following signal has been discontinued as of March 13, 1944:

Signal 535, building, 224 and 226 Milk street.

IX. COMMENDATION.

Ladderman William A. McLaughlin of Ladder Company 22 is hereby commended for responding to and working at fire, Box 4141, on March 7, 1944, while off duty.

By order of Acting Fire Commissioner
SAMUEL J. POPE.

General Order No. 17.

I. FIRST ANNUAL COMMUNION SUNDAY.

The first Annual Communion Sunday for Catholic members of the Boston Fire and Protective Departments will be held May 7, 1944, in St. Clements Church, Boylston and Ipswich streets, at 9 a. m.

Following the Communion services, a breakfast will be held at the Hotel Statler. The cost per person for the breakfast is \$1.25.

Company commanders should submit the names of all the members who wish to attend to Mr. Charles F. Connors at Fire Headquarters, as soon as possible, and not later than April 5, in order that adequate reservations may be made.

All members of the department of other denominations are cordially invited to attend.

Members who desire to attend this First Annual Communion are privileged to exchange time.

By order of Acting Fire Commissioner
SAMUEL J. POPE.

General Order No. 18.

I. INSPECTION OF DRY CLEANING ESTABLISHMENTS.

The following extract is from a memorandum of the United States Conference of Mayors under date of March 9, 1944:

"The War Production Board appeals to all state and municipal fire prevention and police officials to carefully inspect all dry cleaning establishments equipped to use synthetic solvents of the chlorinated hydrocarbon family to make sure that such establishments are not using petroleum-base solvents in their equipment.

Due to heavy military demands, synthetic solvents are not available for dry cleaning purposes, and, as a result, many establishments are attempting to use petroleum solvents in equipment designed only to use synthetic solvents. Such use constitutes a serious fire hazard and generally is in violation of safety ordinances. Two costly fires have already resulted from misuse of dry cleaning equipment designed to use only synthetic solvents. Further fires can be prevented if inspections of all dry cleaning establishments are made by responsible officials who should warn against the improper use of petroleum solvents.

It is suggested that samples of cleaning solvents being used by dry cleaning establishments be examined to make certain that petroleum-base solvents or mixtures of petroleum and synthetic solvents are not being used in unsuitable equipment. Fire hazards inherent in the use of petroleum-base solvents require special safeguards such as adequate ventilation, segregation of boiler and electrical equipment, location of drying tumbler in a separate room and observance of certain structural requirements of the building or portion of building in which the dry cleaning system is located.

The washing and drying of garments or materials in the same machine, as is the case with most equipment designed to use synthetic solvents, is possible because of the volatility of the solvent used. Synthetic solvents being extremely volatile are evaporated, or dried, at relatively low temperatures. Petroleum-base solvents require much greater temperatures for drying. Although it is possible to alter these machines to permit the use of petroleum solvents, such conversions should be strictly

supervised so that all local or state safety requirements will be met.

Since the shortage of chlorine-base solvents and the resultant misuse of equipment designed for such solvents is a temporary matter, revision of existing ordinances to control the situation should not be necessary."

Company inspectors are requested to notify the Fire Prevention Division, giving the location wherein there are cleansing machines which previously used a synthetic solvent such as carbon tetrachloride and are now using a petroleum-base.

By order of Acting Fire Commissioner
SAMUEL J. POPE.

General Order No. 20.

I. ASSIGNMENT OF PROVISIONAL MILITARY SUBSTITUTE.

The following assignment of a provisional military substitute for fireman, which will take effect at 8 a. m. Wednesday, March 22, 1944, is hereby announced:

Frank A. Mango to Engine Company 11.

II. G. A. C. ASSIGNMENT.

The following signal number is to be added to running cards of the General Alarm Corporation in this department:

Signal 282, Whitehall Company, Ltd., 92 Berkeley street. (Sprinkler System.) Apparatus to respond: Engine 22, Ladder 13, District Chief 7. Nearest box is 1524.

III. COMMENDATIONS.

Ladderman Edward J. Meleedy of Ladder Company 30 is hereby commended for responding to and working at fire, Box 3621, March 14, 1944, while off duty.

Apparatus Operator James J. Devaney of Engine Company 41 is hereby commended for responding to and working at fire, Box 5215, March 18, 1944, while off duty.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

CLAIMS DISAPPROVED.

The following ninety-two claims have been disapproved by the Law Department:

Fire Department, eleven claims; Hospital Department, two claims; Licensing Division, one claim; Mayor's Office, one claim; Park Department, two claims; Police Department, one claim; Public Buildings Department, two claims; Public Works Department, seventy-two claims.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of the National Emergency, parking of vehicles is prohibited, except that vehicles owned by the United States Government may be parked without time limit, in the following street, effective March 15, 1944:

North Harvard Street, Brighton.

Southeast side, from a point fifty (50) feet southwest of Soldiers Field road to a point one hundred and seventy-five (175) feet southwest of Soldiers Field road, twenty-four hours.

PROCEEDINGS OF CITY COUNCIL.

Monday, March 13, 1944.

Regular meeting of the City Council, in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. Seannell.

The meeting was opened with the salute to the Flag.

TRANSFER OF LAND AT 206 BROADWAY.

The following was received:

City of Boston,
Office of the Mayor, March 13, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Board of Real Estate Commissioners in which he sets forth a recommendation for the transfer of a parcel of land located at 206 Broadway, Boston, adjoining the fire station and containing approximately 1,260 square feet of land. It is assessed for \$3,700 and was acquired through foreclosure of the tax lien on December 23, 1937.

As the Board of Real Estate Commissioners have no immediate use for this parcel of land and no immediate prospect for sale I recommend transfer of this property to the Fire Department as the additional land may be utilized by that department for much needed yard space.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Board of Real Estate Commissioners,
March 10, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I am presenting for your approval and that of the City Council, an order for the transfer from the Board of Real Estate Commissioners to the Fire Department of a parcel of vacant land.

This property is located at 206 Broadway, Boston, next to the fire station. It contains 1,260 square feet of land, and is assessed for \$3,700. The parcel was acquired through foreclosure of the tax lien on December 23, 1937.

I recommend this transfer because the land will provide much-needed yard space for the firemen in this station.

Very truly yours,
DANIEL M. DRISCOLL, Chairman.

Whereas, The City of Boston by a decree of the Land Court, Suffolk Registry District, in Case No. 6196 T.L., dated December 23, 1937, foreclosed a right of redemption under a tax deed recorded with Suffolk Deeds, Book 5365, page 288, on about one thousand two hundred sixty (1,260) square feet of land on the northeasterly side of and numbered 206 Broadway, Boston Proper; and

Whereas, The said parcel of foreclosed tax title property is in the care, custody, management and control of the Chairman, Board of Real Estate Commissioners of the City of Boston; and

Whereas, The Fire Commissioner of the City of Boston desires to use said parcel of foreclosed tax title property for Fire Department purposes; now, therefore, it is hereby

Ordered, That the parcel of foreclosed tax title property containing one thousand two hundred sixty (1,260) square feet on the northeasterly side of and numbered 206 Broadway, Boston Proper, be, and the same is, transferred from the care, custody, management and control of the Chairman, Board of Real Estate Commissioners, to the care, custody, management and control of the Fire Department.

Referred to Executive Committee.

APPROPRIATION FOR "CLEAN-UP" CAMPAIGN.

The following was received:

City of Boston,
Office of the Mayor, March 13, 1944.
To the City Council.

Gentlemen,—I submit herewith an order authorizing the expenditure from the Contingent Fund of a sum not in excess of five thousand dollars in connection with the annual "clean-up" campaign to be conducted under the direction of the Health and Public Works Departments between now and Easter. This appropriation will be used to stimulate community interest in the campaign and to educate our citizens, both old and young alike, as to the necessity and desirability of keeping our streets, alleys and public ways free and clear from dirt and rubbish. Through the medium of circulars and other literature distributed in the public schools, moving picture reels to be shown in all local theaters and billboard advertising, every endeavor will be made during the next three weeks to stimulate interest and cooperative action in an outstanding municipal housecleaning operation. I respectfully recommend adoption of the accompanying order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That a sum not in excess of five thousand dollars be, and hereby is, appropriated, to be expended under the direction of the Mayor for printing, advertising and other expenses involved in the 1944 "clean-up" campaign, said sum to be charged to the Contingent Fund when established.

Referred to Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Catherine G. Buckley, for compensation for damage to property at 3 French terrace, Roxbury, caused by leak in water meter.

Nancy M. Corbett, for compensation for injuries caused by an alleged defect in Chauncy street.

Charles H. Fosbroke, for compensation for damage to car by police car.

Lillian J. Gagnon, for compensation for damage to car caused by an alleged defect in Chelsea Bridge.

Salvatore Grassa, for compensation for damage to car and injuries caused by police wagon.

John J. Hanlon, to be reimbursed for execution issued against him.

John F. Hurley, for compensation for loss of clothing while a patient at City Hospital.

Mrs. William T. McHugh, for compensation for damage to property at 62 Waverly street, Brighton, caused by backing up of sewage.

George W. Negus, for compensation for damage to clothing caused by a "No Parking" sign.

Thomas J. Reilly, to be reimbursed for execution issued against him.

Committee on Licenses.

Petition of Boston Elevated Railway Company for license to operate motor vehicles between Maverick square and the General Logan Airport, over Maverick square, Sumner street, Bremen street, Maverick street and the public way leading from Maverick street to the General Logan Airport; return over the public way leading from the General Logan Airport to Maverick street, Maverick street and Maverick square.

PERMIT FOR CHILDREN.

Petition of Hazel Boone for children under fifteen years of age to appear at New England Mutual Hall, March 15, 1944.

Permit granted under usual conditions.

EMERGENCY COMPENSATION FOR OFFICIALS.

The following was received:

City of Boston,
Office of the Mayor, January 2, 1944.
Wilfred J. Doyle,
City Clerk.

Dear Sir,—By virtue of the authority granted me by the provisions of section two of chapter five hundred and sixteen of the Acts of the year nineteen hundred and forty-three I, as Mayor of the City of Boston, do hereby order and direct that there shall be continued in full force and effect, for the fiscal year of the City of Boston beginning January one, nineteen hundred and forty-four, and ending December thirty-one, nineteen hundred and forty-four, the provisions of section one of said chapter five hundred and sixteen authorizing an emergency compensation allotment of two hundred dollars per annum to be paid from the treasury of the city to any officer or employee of the City of Boston or of the County of Suffolk whose salary is paid in whole or in part from the treasury of the city, notwithstanding any provisions of general or special law which determine or limit the salary of such officer or employee.

Very truly yours,
MAURICE J. TOBIN, Mayor.

Placed on file.

CERTIFICATION OF CITY AUDITOR.

Notice was received from the Director of Civil Service that Charles J. Fox had passed examination for position of Boston City Auditor and his name certified for said position.

Placed on file.

HOLIDAY FOR CITY EMPLOYEES ON GOOD FRIDAY.

Coun. HANNON offered the following:

Ordered, That his Honor the Mayor be requested to declare a holiday for all municipal employees on the Friday preceding Easter—Good Friday.

Passed under suspension of the rule.

CATHOLIC REPRESENTATIVE ON SCHOOL SURVEY.

Coun. HANNON offered the following:
Ordered, That his Honor the Mayor be requested to ask the Finance Commission to include in the list of investigators of the Boston public school system some representative of higher Catholic learning in Boston.

Passed under suspension of the rule.

SUPPLEMENTARY BUDGET FOR CERTAIN DEPARTMENTS.

Coun. DWYER and CAREY offered the following:

Ordered, That his Honor the Mayor be requested to submit to the City Council a supplementary budget providing an additional appropriation of \$75,000 for the Public Works Department, Bridges, Repairs, etc., also an additional appropriation of \$55,000 for the Institutions Department, Special Improvements and Repairs at the Long Island Hospital.

Coun. DWYER—Mr. President, I have submitted this order, along with Councilor Carey, after what I learned from attending two different hearings of the Committee on Appropriations last week. In the first place, I was both surprised and amazed to see the Commissioner of Public Works come before the Committee on Appropriations and to find that after he had requested an appropriation of \$512,500 for bridge repairs throughout the city, he was allowed by the Mayor only \$25,000. I was further amazed and alarmed to find that the first bridge on the program to repair was the Allston Bridge, in my district, a bridge on Cambridge street, a bridge that is over the rail tracks in that particular district, over which, as the Commissioner of Public Works stated, there is a tremendous traffic day and night. Also the buses carrying the people throughout that particular part of the city to the Elevated stations are continually going over this bridge. And he stated this is the first bridge that he intended to repair, and he stated that it was necessary to repair this bridge. Mr. President, I think that his Honor the Mayor does not realize the seriousness of this situation. I think that if he did, he wouldn't allow the Budget Commissioner to cut this particular budget as he has cut it, from over half a million dollars to \$25,000. Mr. President, I hope that his Honor the Mayor will grant the additional \$75,000 that I ask for, along with Councilor Carey, in this order, as the Public Works Commissioner, along with the division engineer on bridges, stated in front of the Budget Commissioner that he needed for the necessary work on repairs and bridges throughout the city this year \$100,000. And I hope that his Honor the Mayor will at once send up a supplementary budget with an additional \$75,000 in that appropriation. And the next day I was more than amazed—I was horrified—on last Friday to find the Commissioner of Institutions, the Long Island commissioner, coming before us on a special appropriation for Long Island Hospital, for improvements and repairs. And that department head asked for \$170,000 and was allowed by the Budget Commissioner and his Honor the Mayor \$20,000. It is true that they had a balance in this appropriation from last year of \$35,798. They have just opened bids on the building of a nurses' home at Long Island, and the contract price on that home is \$47,342. If they award this contract—or, as the commissioner said, if they throw all bids out and ask for new bids—the commissioner stated if they do that the price will be approximately the same. They will have from this total of \$55,000, after awarding this contract, a matter of a mere \$8,000. In this statement of a breakdown on the proposed budget for construction, the Institutions Commissioner had to say, on Item 2, "At present knob and cleat wiring is dangerous from the standpoint of fire, and has been ordered out by the Wire Division." This refers to cable of various sizes which distributes electric light and power to the buildings, notably the women's dormitory and the hospital, and it is therefore a fire risk. The knob and cleat cable has been condemned by the Fire Department. I say, his Honor the Mayor never knew about this drastic cut at Long Island, and I for one don't wish to add to this overburdened budget at the present time; but I say, in reference to this particular item we have to take care of, that this particular item is liable to cause a major catastrophe in the City of Boston and should be immediately remedied, that his Honor the Mayor should grant this \$55,000 that Councilor Carey and myself ask for in this order. The doctor at Long Island stated that every night when he goes to bed down there he lays his head on the pillow worried to death over conditions down there. I say it is high time, if the Mayor and Budget Commissioner are going to slash the budget, to slash it in the proper places, but don't slash it at Long Island, where it means the saving of lives of patients down there, and don't slash it in the bridge department, particularly in my district, where people in my district and the adjoining district are having their lives put in jeopardy. I hope the Council will pass this order.

Coun. CAREY—The word "catastrophe" was used by the councilor from Ward 21 in a very advised way. It was indeed an eye opener to sit here last week and to think of those who should be, by appointment in a high position, able to know when they submit their budget that what they want is reasonable. And I, too, was dumb-

founded to hear the Commissioner of Public Works demand that more money be provided in his bridge budget in order that the lives of those using the bridge on Cambridge street in Allston might be safeguarded. I cannot understand why it is when confidence enough is shown in an official to appoint him head of a department, presuming that he knows his business, and he has for his guidance engineers who have spent their lives making a study of the particular matter, why a Budget Commissioner, or anyone else who isn't so well experienced and qualified, should take it upon himself to reduce an item. As a matter of fact, Commissioner Hyland said last week when he appeared here on the Bridge Division budget that he needs at least \$100,000 more to carry on much-needed work on the various bridges of the city, but that the bridge on Cambridge street in Allston would not permit of any delay. It is hard to understand why it is that anyone should take upon themselves responsibility of eliminating a sum of \$75,000 to \$100,000 which from the standpoint of the tax rate is infinitesimal. We know what bearing a matter of \$75,000 or \$100,000 will have on the budget. It isn't worth quibbling about, but the lives and the safety of the thousands of people who use that bridge day and night certainly is worth talking about, and I hope that in that particular instance the Mayor will lose no time; for, if time is lost now in providing sufficient money, the time will never be made up if an accident happens on that bridge. Now, to get to the request that was made for \$55,000 used for fire protection necessities at Long Island. We have here another instance where it is very difficult to understand why the Budget Commissioner of the City of Boston—and these remarks are not personal, because I like the gentleman, but, after all, there are certain ones in certain jobs in every municipality, whether it is Boston or some other city or town, that have to do the buffing off. I don't know whether the Budget Commissioner was doing any buffing here or not, but he had better do a little pulling for the sake of the suffering of those poor unfortunates that are being hospitalized and cared for at Long Island. Recommendations that have been made by the Fire Department that have brought about the request contained in the order submitted here are not requests made by members of the City Council. They are requests that have been made by the Fire Department of the City of Boston, by a group of men who, of course, are supposed to know their job, a job that they are spending every hour of the day at. And yet, although the Fire Department makes certain recommendations that will safeguard the lives of the patients at Long Island, mind you, upon asking Commissioner Campbell as to the age of the patients, he said the average age of patients at Long Island is seventy-five years, and that many of them are bed-ridden patients. The only means of contact we have with Long Island today is a boat, the "O'Meara," which is such a sizable affair that the wind in the harbor would not permit the boat to dock here a few days ago. So you can well imagine what might happen if a fire started down there. I hope the fireboats of the city are better able to navigate. The councilor from Ward 21 didn't go into specific detail, as did Commissioner Campbell, when he gave us his remarks relative to his request for the much-needed money to make repairs at Long Island. I might continue the remarks of the councilor, because I think these remarks should be in the record. "We had a Cocoanut Grove catastrophe in Boston, and we don't want a Long Island catastrophe in Boston." And, continuing his remarks, he said, "The knob and cleat cable has been condemned by the Fire Department. Some of it is too small for the load which it is obliged to carry. Even under normal operating conditions the passage of heavy current through it generates enough heat to be perceptible upon touching the outside of the installation, and the Wire Division of the Fire Department notified us that this old-style cable must be replaced by a conduit protected cable of a size to carry the load without overheating." I have observed on more than one occasion that many a fire has been started because of overheating of cable in buildings, and yet, even in view of the recommendations of the Fire Department, the commissioner has been denied the money necessary to purchase the material and the equipment to safeguard the lives of the patients at the island. Now, the matter of priorities was brought into the discussion Friday, but, as a matter of fact, priorities have not been sought because there was no sense seeking priorities for this material without having the money first of all to purchase it. I personally do not believe that the Mayor is aware of the reduction in this particular budget, for I am sure if he knew about it he would not have stood for any reduction in it. But the opportunity has been given to him now, through the filing of this order, asking that he furnish the money necessary to make these improvements, and I certainly hope before the budget hearings have been completed we will have been supplied with a supplementary request by the Mayor which will take care of it.

Coun. D. F. SULLIVAN—I would like to know from either one of the two gentlemen just how long this condition has existed down at Long Island.

Coun. DWYER—Mr. President, I don't know how long it has existed. Without making my colleague a short answer over there, I think it is sufficient, as long as it does exist, to take immediate steps to remedy the situation. I think if other members of the Council had known that

there was any condition like that existing there, they would have tried to remedy the situation before this. The first I ever knew of the condition was when I attended the hearing of the Committee on Appropriations last Friday and heard the commissioner state that such were the facts, submitting a sheet in black and white showing what the facts were there.

Coun. CAREY—Mr. President, it is my impression that this condition has not been of recent acquirement, because, if I recall, a little over a year ago I read in the newspapers that the Fire Department was making an investigation and survey at Long Island to see what vitally needed repairs were necessary. If I do recall correctly, I think something was said at the hearing Friday to the effect that some of these figures were included in the budget a year ago. As a matter of fact, most of that, as I get it, has been laid to the belief that priorities could not be obtained in order that this material might be furnished.

Well, this matter here is of sufficient importance to bring proper pressure on the Congressmen in Washington. The gentlemen representing the Boston district are familiar with Long Island, and I don't think they would have any difficulty in convincing the War Production Board officials of the location of the island and the inability to get to it, and various other circumstances in connection with it. We don't want to lock the door after the horse has been stolen. We don't want something to happen and then have an attempt made to "pass the buck." Let us get this money to supply material and then some of us, as individuals, will see what we can do to see that proper priorities are granted. I myself have personal knowledge of one instance in this city when priorities were granted in a section of the city for so-called housing defense units, in an area eight miles removed from a defense plant. And you can't convince me that priority won't be granted.

Coun. D. F. SULLIVAN—The only reason I asked the question is, as brought out, that this condition has existed over a year. We have a Hospital Committee, and every time the Council has gone down there as a body the doctor and the superintendent have made recommendations on the things they needed. I would like to know, has the Clerk of Committees or the hospital chairman made any report of such a condition existing down there? I think it would be worth our while to go into this and find out what has been done and refer this matter to the Executive Committee.

Coun. FISH—Mr. President. I guess you have only to read some of the items to realize that this condition has existed for many years. This is probably the original wiring that was installed, and the original construction. Let us take some of the fire hazards—defected bolts and in-swinging doors, for example. It is safe to assume that those doors have been swinging the same way since the building was erected. Replace wooden doors with metal-covered doors. They went into the original construction. Smoke doors through the various tunnels, standpipes in some of the wards; additional exits needed—in several places we have additional exits. That gives a truthful picture of the original construction of the buildings at Long Island, so the conditions have existed quite a few years. In fact, I am willing to believe that they existed long before we had W. P. A., and why wasn't it done under W. P. A., under the Federal funds, similar to the work done at the Boston City Hospital? This isn't the first time I have taken the floor on the conditions at Long Island. I had an open fight with Mayor Tobin because I called Hugh Campbell on the matter a year ago. And I am willing to continue that discussion with the Mayor at any time. This is a clear indictment by the commissioner himself. He comes up here and gives a list which is a clear indictment. If there were any other place in Boston to house these patients, I would ask that the Building Department immediately bolt and lock the doors in Long Island. It is a positive disgrace, and I now accuse Commissioner Campbell of neglect of duty when he wouldn't put these improvements into effect under W. P. A., when he could have had those projects approved, as they did at the City Hospital. I think the man has been very neglectful. I don't think he should be allowed in his position placed over an expensive institution, letting it go to rack and ruin. I believe the man should be removed from his office.

Coun. KINSELLA—Well, in the days of the W. P. A., I know that they built a fire house down there. It was the talk of the city, because every man whose skill or trade was needed in that building was trying to get transferred to that project. I think if you check the record it took them something like close to two years to build a single story fire house. The design of construction was not elaborate. If my memory serves me correctly, I don't think it was as long as this chamber is wide, and it was the talk of W. P. A. circles at that time that it was the best project in Boston in which to work, the fire house at Long Island. Instead of fixing up the institution where people live, sleep, eat, play and are sick, they poured money into a W. P. A. project that was the pride and joy of those who loved dilatory tactics. I don't know how much of the culpability is Mr. Campbell's, in this particular instance, but I can say truthfully that the W. P. A. fire house was built before Mr. Campbell became commissioner. It was built back in the fairly early thirties,—'33 or '35,—and even though this is a

rather late date, it might be pertinent to ask why that money was not sunk in the institution itself, to correct faulty and dangerous wiring, doors, standpipes, and the like. As I say, it was a tremendously popular project, for no other reason than that it was good for two years' work when normally, outside, it might have been done in three months.

The order was referred to the Executive Committee.

REPORT OF COMMITTEE ON LICENSES.

Coun. COFFEY, for the Committee on Licenses, submitted the following:

Report on petition of Canton and Blue Hill Bus Line, Inc. (referred February 21), for license to operate motor vehicles from Milton line on Blue Hill avenue to Mattapan terminal—that same ought to pass.

Coun. COFFEY—Mr. President, in this particular line there is a gentleman from Canton who has been running the bus line for some twenty-six years. He runs two buses into Boston limits, as far as Mattapan station. All he wants to do now is to add the word "Incorporated." The committee of seven who sat at the hearing last Friday all agreed that he could have that privilege of adding the word "Incorporated" for his own protection.

The report was accepted and the license granted under the usual conditions.

APPROVAL OF AMERICAN LEGION OMNIBUS BILL.

Coun. COFFEY and KERRIGAN offered the following:

Resolved, That the members of the Boston City Council, in meeting assembled, go on record as favoring passage of the American Legion Omnibus Bill now pending in Congress; and be it further Resolved, That a copy of this resolution be forwarded to the Massachusetts delegation in Washington.

The resolution was adopted.

CONGRATULATIONS TO NAVY YARD EMPLOYEES.

Coun. COFFEY offered the following:

Resolved, That the members of the Boston City Council in meeting assembled, hereby extend their congratulations to the employees of the Boston Navy Yard for their efforts in war production which gained for them a fourth star award.

The resolution was adopted.

FLAGPOLE IN CENTRAL SQUARE.

Coun. COFFEY offered the following:

Ordered, That the City Messenger be instructed to erect a flagpole in Central square, East Boston, Ward 1.

Passed under suspension of the rule.

ELIGIBILITY OF SHIP LOADERS FOR HOUSING PROJECTS.

Coun. KINSELLA offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Boston Housing Authority for the purpose of arranging the acceptance, by the Authority, of people engaged in the loading and discharge of ship cargoes, as defense workers, eligible to become tenants of the Boston Housing Authority, in its various projects.

Coun. KINSELLA—Six or seven weeks ago I believe, Mr. President, I filed a similar order, and I used up the time in an argument that hasn't particularly changed in my statements today. The longshoremen are not classified as defense workers, and therefore, because of their large earnings, they cannot be accepted in the low rent category. But the fact of the ruling that they are not defense workers is more or less arbitrary. I stated before, and I will state again very briefly for the record, that these men are not at any time since Pearl Harbor engaged in loading of boats for trade or commerce. Every tool that they pick up to load or unload, every article of merchandise that they handle on the wharves loading and unloading is a tool and instrument of war. It amazes me that the Boston Housing Authority or the Authority in Washington won't grant to them preference as defense workers when they are not engaged in ordinary commercial work. I think if we just got an answer from the Authority as to their attitude in this matter it might help to clarify the situation in the minds of several thousands who are not considered to be eligible, even though they are handling defense, as tenants in the Boston Housing Authority projects. I hope the order passes.

The order was passed under suspension of the rule.

ROBERTS PLAYGROUND IMPROVEMENTS.

Coun. KEENAN offered the following:
Ordered, That the Park Commission be requested, through his Honor the Mayor, to immediately arrange for the following improvements at the Roberts Playground in Ward 17: Repair tennis courts, install additional drinking fountains, resod and grade the entire playground.

Coun. KEENAN—Speaking on this order, Mr. President, I understand that the Park Commissioner plans to do four playgrounds in the City of Boston this summer,—one in the Back Bay, one in Roslindale, one in South Boston, and another one in a part of Dorchester. In Ward 17 we have only one playground, the Roberts Playground. I think the condition at the Roberts Playground is such that the Park Commissioner should definitely fix that up and make it a place where boys from the high school and in the neighborhood could play.

The order was passed under suspension of the rule.

RESURFACING OF CERTAIN WARD 17 STREETS.

Coun. KEENAN offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface the following streets in Ward 17: Hooper street, Wellesley park.

Passed under suspension of the rule.

Coun. RUSSO in the chair.

ERECTION OF FENCE AT RAILROAD STATION.

Coun. KEENAN, MUCHNICK and HANNON offered the following:

Ordered, That the officials of the New York, New Haven and Hartford Railroad be requested, through his Honor the Mayor, to take immediate steps to erect a fence at the railroad station at the corner of Milton and Woodrow avenues, as a means of protecting the lives of the children of the neighborhood.

Coun. KEENAN—Mr. President, this week we have had a terrible tragedy in Dorchester, in regard to children being killed and injured. We have also had another death in Dorchester. I think this is one of the most dangerous spots on the line of the New Haven Railroad. I think the New Haven Railroad should immediately go out there and erect a fence or something in order to keep the children off the railroad, so that they won't be killed or mangled for the rest of their lives.

The order was passed under suspension of the rule.

INTEREST ON UNPAID TAXES.

Coun. FISH offered the following:
Ordered, That the legislative committee of the Boston City Council petition for legislation reducing the amount of interest on overdue real estate and personal property taxes from four (4) per cent to two (2) per cent.

Coun. FISH—Mr. President, I think in these days of low interest and discount that it is time that the present high rate of interest charged on taxes should be reduced from 4 to 2 per cent. Any deposits in the savings banks have, in the past years, been reduced from 5 or 5½ per cent to the present 2 per cent. We borrow money the first of the year in anticipation of taxes to operate this city for 44 one-hundredths of one per cent,—less than one half of one per cent,—and I think we charge 4 per cent to people who may run a month or two over on meeting their real estate obligations. And another reason, I may add, is this, Mr. President, the tax bills are not sent out until the latter part of August or September, and the property owners don't seem to have sufficient time to meet their tremendous obligations before the date when interest starts to accrue, which, possibly is a month later. In that respect I would strongly urge that the survey department or somebody be appointed whereby we possibly could set the tax rate a little earlier in the year and get the tax bills out earlier. If that is not possible, then extend the time before interest accrues from October 1st possibly to the end of December.

The order was passed under suspension of the rule.

FENCE ALONG RAILROAD TRACKS.

Coun. KELLY offered the following:
Ordered, That his Honor the Mayor be requested to immediately appoint a safety survey committee to investigate hazardous areas along the tracks of the New York, New Haven and Hartford Railroad with a view to having fences erected at all dangerous locations along the tracks within the City of Boston, particularly on the Olney street side of the Geneva Avenue Bridge.

Coun. KELLY—Mr. President, Friday about noon I received a telephone call that there had

been an awful tragedy up on the railroad bridge, up at Geneva avenue, on the Olney street side. On going up there I witnessed one of the worst sights I have ever witnessed in my life, namely, one child about three and a half years of age had been accidentally killed by an on-coming express train that was running from Providence, and the other child was a little bit more fortunate. In trying to get out of the way of the train she fell down through the trestles and dropped some 20 or 25 feet to the sidewalk. That child was rushed into the City Hospital. She had a broken arm and a fractured skull. There was a question for many hours whether that child would pull through or not. Mr. President, something drastic, some drastic action ought to be taken. It is all right to say that mothers of children should know at all times where they are, but these railroad crossings, especially that cross main streets like Geneva avenue, Columbia road, Bird street and Quincy street, should be protected so that little children would not be able to go across the tracks. Friday I spent three hours in those two homes, Friday night, and I saw the sorrow that that accident and that tragedy brought into those two homes. I saw one mother who could see her child at about 11.30 in the morning go out of the house alive, and the next time she saw that child, that poor child she was lying out cold and dead before her. I can picture, too, Mr. President, how the fathers of those two children will feel. They are both in the service of our country. I can picture how the father of that child who was accidentally killed—that father who is out some place in the vicinity of California—I can picture his feelings. I can picture that father picking up that child when he was going away in the service and kissing the child good-bye, never dreaming, Mr. President, he would receive an urgent call from the Red Cross to come home,—not to pick up that child alive, but to see that little three and a half year old child dead before him. Action should be taken. That is why I am asking this Survey Committee to be appointed. It is not alone on Geneva avenue. These conditions exist all over Dorchester and the City of Boston and nothing is done, Mr. President, until it is too late; nothing is done until some human life has been snuffed out. Now is the time, Mr. President. It doesn't matter how much it costs, whether it costs the New York, New Haven and Hartford Railroad money or whether it costs the taxpayers of the City of Boston money. I am interested in having these conditions remedied throughout the City of Boston. It doesn't matter, as I said before, what the cost is if the cost would save the life of one child. An editorial appeared in this morning's *Post* as a result of a piece I had in Sunday's *Post*. I am going to read the editorial that appeared in this morning's *Post*. It is an editorial headed "Safety Surveys."

"There is a movement in Dorchester to fence in the railroad line where a small child was killed last week. Unfortunately there are many pitfalls like this in our communities, but they go unnoticed until tragedy strikes.

"The City of Boston and, in fact, any community might well consider conducting a safety survey to discover hazardous areas and then take steps to make them safe. Police and fire officials could direct such surveys. Whatever small expense might be entailed would be made up many times over by the savings of lives and tears."

I am going to ask that that editorial be incorporated in the record, Mr. President. I am going to ask his Honor the Mayor to take immediate action so that every section of Boston will be protected, not alone the two sections of Dorchester where the fatal accidents happened, but that every section of Boston will be taken care of so that never again in all time will we see this tragedy come into the homes, not alone of Dorchester, but in any home in the City of Boston. It is all right, as I said before, to say that the children's place is at home. I am the father of six children, and when a three or four-year-old tot goes out in the back yard the first thing they think about is to run out into the street, and until they grow a little older they don't realize the dangers to life. I don't know how many children have been playing up there. On one side of this particular railroad, on the Columbia road side, there is a high fence erected, and it is next to a schoolhouse. On the other side is a vacant lot where any day of the week you can see small children playing, and there is a direct footway to the railroad, to the tracks, with no fence there. This thing ought to be remedied, and remedied right away, and I trust that his Honor the Mayor will kindly appoint a safety survey committee to remedy these conditions in Dorchester, and also throughout the City of Boston.

Coun. CAREY —Is the New Haven road specified particularly in the order?

Chairman RUSSO—The clerk will read the order. (The order was read.)

Coun. CAREY—I am wondering, inasmuch as the Boston and Albany also runs through the City of Boston and, as a matter of fact, the Elevated has a rapid transit line, if you would include those roads in the order?

Coun. KELLY—It is all right to amend the order to include all railroad crossings.

Chairman RUSSO—Councillor Kelly accepts the amendment and moves the passage of the order as amended.

The order was amended to include all railroad crossings and as amended was passed, under suspension of the rule.

ESCALATOR AT NORTHAMPTON STREET ELEVATED STATION.

Coun. D. F. SULLIVAN offered the following:
Ordered, That his Honor the Mayor confer with officials of the Boston Elevated Railway in an effort to bring about the erection of an escalator at the Northampton street elevated structure.

Passed under suspension of the rule.

INCREASE TO CITY EMPLOYEES IN ARMED FORCES ON RETURN.

Coun. D. F. SULLIVAN offered the following:
Ordered, That his Honor the Mayor grant to all those city employees who are now in the armed forces a \$200 pay increase when they return to their positions.

Passed under suspension of the rule.

ASSISTANCE TO OLD AGE ASSISTANCE RECIPIENTS.

Coun. CHASE offered the following:
Ordered, That the Boston Overseers of Public Welfare be requested, through his Honor the Mayor, to make arrangements for a system whereby there will be prompt and efficient assistance given to old age assistance recipients who are in need of false teeth, eyeglasses and other necessities which they are entitled to under the old age assistance law.

Coun. CHASE—Mr. President, last week one of my elderly constituents sought my help in securing a set of false teeth for himself. It was an old man, crippled with arthritis, and he had a bad heart. For the last five months he apparently has been tossed around, so to speak, by his particular visitor, who wasn't any too anxious to give him help that he had his own teeth removed because of his arthritis and his health condition, and during that five months he has been without teeth it has been necessary for him to eat soft foods. He hasn't had any real nourishing food, and the Welfare visitor apparently was not concerned with his well-being, because to date he hasn't received any teeth. I don't quite understand the unwillingness of some of our old age assistance visitors to help some of these aged recipients. The state law specifically entitles these old age recipients to the fullest of aid, and that aid includes false teeth, eyeglasses, and anything else essential to their well-being. Why the visitors should duck that responsibility in helping these people, I don't understand. I know Mr. O'Hare, who contacted me last week after he heard of the case, said he would arrange to have prompt service given to this particular individual. Now, if prompt service can be given this individual, why couldn't prompt service be given to everyone under old age assistance? Why is it necessary that these people must appeal to us councilors for help? The state law says they are entitled to something, and the visitor should make every effort to give them that assistance within a reasonable time. And I don't think five months, as is the circumstance in this case, is a reasonable time. This man could have been dead because he wasn't getting the proper nourishment because of his teeth. Now, I sincerely hope that his Honor the Mayor will see to it that the Overseers of Public Welfare adopt a system where prompt and efficient service will be given these elderly people. These long waits are unnecessary, to my way of thinking. It is either meanness on the part of the visitor or it is from some ulterior motive on the part of the department.

Coun. D. F. SULLIVAN—The gentleman who introduced the order, as a member of the Legislature, would have the bill up there, and if they would cut some of the red tape some of these old age recipients could get the things they really want and need. There is all that red tape to be gone through before the visitor can get them their teeth or glasses, or whatever it may be. A lot of red tape has to be gone through before they can finally grant that glasses or false teeth should be given. I think up in the Legislature they should cut out some of the red tape.

Coun. CHASE—In answer to the gentleman from Roxbury, may I state that the Massachusetts Legislature has, to the utmost of its ability, been doing everything within its power to give proper assistance to these old people. As a matter of fact, we have championed their interests, as well as have the councilors in this city. May I remind the gentleman from Roxbury it was the Massachusetts Legislature some few years back that passed a state law which called upon all cities and towns throughout the Commonwealth to provide a decent, Christian burial for the people on old age assistance and on welfare? And the state law provided that no less than \$100 should be given to maintain these pauper burials. And I would call it to the attention of the Boston Overseers of the Welfare Department that the city has assistance from the state in order to make sure the elderly people in Boston are given the rights that the state law calls for them. Now, may I also state that the Boston Overseers of Public Welfare have certain discretionary powers they may exercise for the well-being of these people, and they constantly have gone ahead behind some subterfuge in order to escape their responsibility, instead of exercising those discretionary powers, for some unknown

reason. Maybe to save a few paltry dollars in some budget they have evaded their responsibility. It isn't the state Legislature's fault; it is the fault of these visitors, not only in Boston, but throughout the Commonwealth, who are doing, in many cases, everything in their power to deny these people everything that they are entitled to.

The order was passed under suspension of the rule.

ROPING OFF STREETS, APRIL 8.

Coun. HURLEY offered the following:

Ordered, That the City Messenger be requested to rope off the streets along the route of the annual ten-mile road race of the Cathedral Club to be conducted on Saturday, April 8, 1944, particularly that section of Union Park street between Washington street and Harrison avenue to Canton street, Ward 8, the expense of which is to be charged to the appropriation for Stakes, Flags and Ropes.

Passed under suspension of the rule.

REDUCTION OF WATER RATES.

Coun. FISH and CAREY offered the following: Ordered, That, in view of the fact that the City of Boston is at present realizing a profit of approximately 20 per cent on water supplied to taxpayers' the Commissioner of Public Works be requested, through his Honor the Mayor, to take immediate steps to reduce the present excessive water rates proportionately.

Coun. FISH—Mr. Chairman, it was brought out at the budget hearings this past week that for about the sixth consecutive year we have shown, or realized, a big profit in water income. Just in the past year, 1943, the intake was \$5,357,198 as against \$4,200,000. We showed a profit of \$1,110,233. I don't think this city is in business, whether in a revenue or any other department. We are not in business for a profit. I think we should supply that water to the consumers at cost. Maybe it is just a little trick that the powers have of circumventing the true tax rate. We apply this revenue that we receive to the general fund, and thereby reduce the tax rate. But I have seen so many untrue pictures in the budget as presented this year, I think they should be wiped out and given a little truer picture of the budget, and let the tax rate soar where it may. At a later time I propose to ask the assessors to place the proper value on property so that the people in Boston, as well as about, will know that the tax rate should be about \$65 rather than \$41. So I am asking that we be honest with the people. If the revenue department can collect 100 per cent of its costs, then the city should be thankful to accept only the 100 per cent and no more.

The order was passed under suspension of the rule.

RECESS.

On motion of Coun. D. F. SULLIVAN the Council took a recess at 3.20 p. m. The members reassembled and were called to order by President KERRIGAN at 4.43 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. HANLEY, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) that a sum not in excess of \$5,000 be appropriated, to be expended under direction of the Mayor, for printing, advertising and other expenses involved in 1944 "Clean-up" campaign—that same ought to pass.

The report was accepted and the question came on the passage of the order.

Coun. CAREY—Mr. President, I as a member of the Committee on Appropriations, have spent most of three weeks looking over department budgets, many of which budgets could call for questioning or criticism in the way of saving, at least, some money. My eyes were opened here last Friday, and last Thursday, also as a matter of fact, when on Thursday the Public Works Commissioner informed us of the necessity for having more money to make badly needed repairs on the bridge on Cambridge street in Allston. And on Friday we had the Commissioner of Institutions, Mr. Campbell, here, when he acquainted us with the fact he had been denied thousands of dollars, certainly badly needed, and needed on recommendation of the Fire Department, to make the most necessary repairs in order that the lives and safety of the infirm and aged patients might be protected at Long Island. To take the budget of the Commissioner of Institutions, his special appropriations for Long Island repairs ask for \$170,000, and that was reduced to \$20,000,—keeping in mind, of course, there was an unexpended balance of \$35,798.54 from the previous year, leaving a total of some \$55,000 for him to spend. Yet, as he himself said before the committee and members of the Council present, he still had been denied thousands of dollars required for the safety and protection of those patients. Yet we have here now a request—there is nothing personal about this—we have a request for the transfer of \$5,000 to be spent on an advertising

campaign in order that the streets and the appearance of the city might be made to look a little better. I for one am not going to vote for any \$5,000. I don't see the necessity of spending \$5,000 in advertising that "Clean-up" campaign. A couple of radio addresses and letters to the public and private school officials in the city will do as much as anything else. We might spend \$25,000 or \$50,000, and it would not be too much, here in the building in which we are today. The Superintendent of Buildings, as a matter of fact, informs us he needs to make repairs but he hasn't been allowed to do some of the painting and cleaning that has to be done here. I think \$5,000 for advertising is altogether too excessive an amount to request. You can't tell me that that advertising over the air, two or three radio addresses, and communications to the schools of the city, both public and parochial, schools,—you can't tell me that in that way as much work won't be accomplished. If we are going to be excessive in our expenditure of money, let us provide some of the vital necessities that the Fire Department has demanded, especially in the wooden buildings in Long Island. I therefore move that the amount of the request be reduced from \$5,000 to \$1,000, sincerely believing that as much advertising will be accomplished with the \$1,000, and, that through the communications to the schools and the radio speeches the matter is going to be brought sufficiently to the attention of the public. Let the people know through the radio and through the press. I am sure the press will be only too glad to cooperate because we have had criticism from the newspapers on the condition of the streets. And by advertising over the radio and communicating requests to the schools of the city, I think \$1,000 would be sufficient. Therefore, I move the order be amended to \$1,000.

The motion to amend the amount to \$1,000 was not carried. Coun. CAREY asked for a roll call, and the amendment was defeated, yeas 6, nays 9:

Yeas—Coun. Carey, Dwyer, Feeney, Fish, Hanley, Keenan—6.

Nays—Coun. Bayley, Chase, Hannon, Kerrigan, McCormack, Russo, Shannon, D. F. Sullivan, Taylor—9.

The question came on the passage of the order, and the roll was called, yeas 11, nays 3:

Yeas—Coun. Bayley, Chase, Hanley, Hannon, Keenan, Kerrigan, McCormack, Russo, Shannon, D. F. Sullivan, Taylor—11.

Nays—Coun. Carey, Feeney, Fish—3.

Twelve affirmative votes being required the order failed of passage.

Coun. TAYLOR—I move reconsideration and laying over one week for the purpose of getting information from his Honor the Mayor as to how the money is to be expended.

Coun. HANLEY—I believe in the communication he specifies what it is to be expended for, if the clerk will read it.

(The clerk read the communication.)

Coun. TAYLOR—I don't think that states in detail just exactly what each item will cost. I think perhaps the Council might get more information and might have a change of heart. I therefore move reconsideration.

Coun. FISH—My purpose in voting against any amount on this is that I don't know how the money is to be spent, whether it is to be advertised or just passed out. One particular thing I don't think is going to add to it, and that is the circulars given to children. I think we have enough papers around the streets now, and I think we will agree that children are no different now than they were when we were their age, and they might throw them around the streets. If that item might be eliminated, I might reconsider.

Coun. CHASE—I sincerely hope the Council will not vote against this motion to reconsider. It was only a few weeks back, in Charlestown, we were told of a condition where rodents attacked children. If I remember correctly, I read something in the newspapers about it. The councilor from Dorchester told of a child being bitten by a rat. I know from experience in my district that the rodents are causing considerable damage and are a terrible health menace to the people, and I think this is one particular way that his Honor the Mayor can go in educating the public as to the prevention of disease and just what can be accomplished in the way of educating the public as to greater cleanliness, and so forth. Boston is the capital city of New England. It has a population of approximately 800,000. Obviously, if the Health Department and the Public Works Commissioner are going to conduct a cleanliness campaign, they naturally would have to spend more than \$5,000 if we are going to engage radio broadcasting services, motion pictures and circulars to be distributed. I can easily see how they can spend \$5,000, and I doubt that sum, if they are going to do the job right. Putting two and two together, when you are going to conduct a campaign in your district, how much money do you spend? Advertising is costly, especially radio and motion picture programs. I don't think the Health Department or the Public Works Commissioner are going to waste the taxpayers' money in this instance. If I thought so I would be against the order. I know that conditions in my district, particularly in the alleys, demand some sort of educational program, and I am willing to go a long way with the Mayor in cleaning up our city. As to conditions that actually do exist, it is about time we actually did something. I don't think \$5,000 is actually

excessive. I hope this Council will reconsider and vote favorably for passage of the order.

Coun. RUSSO—Mr. President, I heartily agree with my colleague, the councilor from Ward 4, and the reason I am for it is that if \$5,000 of advertising could bring about a change of conditions, in so far as our sanitary situation is concerned here in the City of Boston, well, five times more than that would be worth while spending. I only hope it will accomplish the purpose because, as the councilor from Ward 4 said, the City of Boston is the capital city of New England, and I think it is high time that we here in the City of Boston should try to do everything in our power to remedy conditions and see that the visitors from other sections of the state and country that visit our fair city will not go away and leave Boston with a bad taste in their mouths, stating that the City of Boston is not a clean city. I know that I have heard that time and time again, and I believe that each and every one of us has heard those rumors. They are sometimes rumors, but we know deep down in our hearts that this is the truth. Let us face the fact; it is the truth. Go into the North End, and you will find in that historical section of the City of Boston the conditions of our streets are very deplorable,—where people go to visit the shrine of Paul Revere and various other places, such as the Old North Church. Do that, and then you can visualize and realize the conditions that do exist. I say, if \$5,000 could be spent to remedy that situation it would be worthwhile, at least, investing \$5,000, and I only hope that a campaign will be carried on, and not only until Easter. I have been on this floor time and time again. There was an instance last year, at Christmas, when a girl living in the neighborhood came over to me and said, "I have friends of mine coming from New York, and look at the streets, look at the conditions they are in."—and I couldn't help but agree with her when I went through them—and she said, "I am not going to be present at home when they come. I will not stay home and face my friends from out of town, coming in and seeing the street in that condition." I say, let us carry on a program for the entire year and see that we accomplish the purpose of making the City of Boston one of the best and cleanest cities in the entire nation.

Coun. CAREY—I hope reconsideration will prevail, and I hope that the members who have spoken do not have any feeling that they have any more pride in the city than I have. I will admit the appearance of the city is a disgrace, and has been a disgrace, but this \$5,000 is not going to provide money for ratty alleys and houses. It is not going to provide for shovels and rakes and the hiring of trucks. There have been, and I believe there are at the present time, billboard signs displayed around the city reading "Keep Boston Clean." All we can gather in this communication is that the money is to be used in an advertising manner, and I don't think that there is any necessity for spending \$5,000 on advertising. I want to see the city cleaner, and I have been on the floor of this Council on numerous occasions in that regard. But when we had a chance to provide for that, before the war-time demands on man power came about, we didn't find money to put more laborers to work in the streets. We couldn't find money to buy more street cleaning machines. We couldn't find money for the equipment and man power, if we had them, to be utilized today. I think it is a shame to spend \$5,000 on an advertising campaign. If we are going to do something, let us do it in the right way, a way that might be of some permanency. Let us yell louder for more men, more brooms, more street sweepers, and things like that. If we had the men and the equipment, we wouldn't from time to time spend money in advertising campaigns. We would have the labor and the material with which to work to keep these streets clean. I want to see Boston kept clean but I want to see the money spent in some worthwhile way.

The question came on reconsideration, and reconsideration was carried, yeas 15, nays 0:

Yeas—Coun. Bayley, Carey, Chase, Feeney, Fish, Hanley, Hannon, Keenan, Kelly, Kerrigan, McCormack, Russo, Shannon, D. F. Sullivan, Taylor—15.

Nays 0.
Coun. TAYLOR—I move that the order lie on the table for one week.

The motion was carried and the order was laid on the table for one week.

2. Report on order (referred today) that Mayor be requested to submit to Council a supplementary budget providing an additional appropriation of \$75,000 for Public Works Department, Bridges, Repairs, etc., also additional appropriation of \$55,000 for Institutions Department, Special Improvements and Repairs at Long Island Hospital—that same ought to pass.

Report accepted; said order passed.
3. Report on message of Mayor and order (referred today) for transfer of land at 206 Broadway to Fire Department, from Board of Real Estate Commissioners—that same ought to pass.
Report accepted; order passed.

CONFIRMATION OF EXECUTIVE APPOINTMENT

President KERRIGAN called up, under unfinished business, No. 1 on the calendar, viz:

1. Action on appointment by the Mayor March 6, 1944, of James A. Essensa to be a Weigher of Coal.

The question came on confirmation of the appointment. Committee, Coun. Russo and Shannon. Whole number of ballots 12, yes 12, and the appointment was confirmed.

REPORT OF COMMITTEE ON PUBLIC WELFARE.

Coun. KEENAN, for the Committee on Public Welfare, submitted the following:

Report on order (referred February 14) that Mayor confer with Civil Service Commission relative to recent reclassification of all Welfare employees in an effort to bring about more satisfactory adjustment for those affected—that same ought to pass.

Report accepted; said order passed.

INVITATION TO MARCH 17 CELEBRATION.

President KERRIGAN extended an invitation to all the members to be present at the Evacuation Day celebration in South Boston on March 17, 1944.

ROPING OFF STREETS, MARCH 17.

Coun. KERRIGAN offered the following: Ordered, That the City Messenger be directed to rope off the streets along the route of the Evacuation Day parade to be held in South Boston on March 17, the expense of same to be charged to the City Council appropriation for Ropes, Flags and Stakes.

Passed under suspension of the rule.

Adjourned, on motion of Coun. SHANNON, at 5.08 p. m., to meet on Monday, March 20, 1944, at 2 p. m.

CIVIL SERVICE EXAMINATIONS. (STATE AND CITY.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING LABORATORY SUPPLIES AND EQUIPMENT FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing laboratory supplies and equipment for the Boston public schools. Proposal forms, for which a charge is made, are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Laboratory Supplies and Equipment." The bid must be in duplicate. One copy, signed by the bidder and accompanied by a certified check, payable to the City of Boston, in the amount of at least 5 per cent of the total bid, must be left at the office of the Business Manager on or before 12 o'clock m. on Monday, April 10, 1944. Copies filed with the Business Manager will be publicly opened at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of bids. The School Committee reserves the right to reject any or all bids, and to accept such bid or part of bid as may be deemed best for the interests of the city. The successful bidder will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(March 25.)

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PROPOSALS FOR FURNISHING AND DELIVERING METALWORKING MACHINES IN VARIOUS SCHOOLS, BOSTON, MASS.

The Superintendent of Construction, Department of School Buildings, City of Boston, invites sealed proposals for furnishing and delivering metalworking machines in various schools, Boston, Mass. Forms of proposals may be obtained at the office of the Superintendent of Construction, fourth floor, 26 Norman street, Boston, Mass. Each proposal must be signed by the bidder, placed in an envelope, properly sealed, and marked "Proposal for Furnishing and Delivering Metalworking Machines in Various Schools, Boston, Mass.," and left at the office of the Superintendent of Construction, fourth floor, 26 Norman street, Boston, Mass., before 12 noon Saturday, April 1, 1944, accompanied by cash or certified check, payable to the City of Boston, in the sum of \$250, to become and be the property of the City of Boston as liquidated damages, if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other without cash, certified check or certificate of deposit to be filed with the City Auditor, City Hall, Boston, before the time stated above for the opening of proposals.

Plans and specifications may be obtained at the office of the Superintendent of Construction, Department of School Buildings, fourth floor, 26 Norman street, Boston. All plans and specifications must be returned in good condition to said office at the time of the filing of bids.

A bond of a surety company, approved by the Superintendent of Construction, in the full amount of the contract, to secure the due performance of the contract and the full protection of the city, will be required. The Superintendent of Construction reserves the right to reject any and all bids if it be in the public interest so to do.

JAMES J. MAHAR,
Superintendent of Construction.
(March 25.)

CITY OF BOSTON.

POLICE DEPARTMENT.

PROPOSALS FOR CLOTH.

The Police Department of the City of Boston invites proposals for furnishing and delivering 14-ounce cloth, 16-ounce trouser cloth, 20-ounce dresscoat cloth, and 30-ounce overcoat cloth. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for \$1,000, payable to and to become the property of the Police Commissioner for the City of Boston if the proposal is not carried out. Proposals will be publicly opened and read on Friday, March 31, 1944, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any and all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required from the successful bidder in an amount equivalent to 50 per cent of the estimated amount of the contract.

THOMAS F. SULLIVAN,
Police Commissioner.
(March 25.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING GROCERIES, CANNED GOODS, ETC. (SIX MONTHS.)

The Supply Department of the City of Boston invites proposals for furnishing groceries, canned goods, etc., as per specifications contained in forms which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. The bidder must leave his proposal with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposals for Groceries, Canned Goods, Etc." There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out.* The bids will be publicly opened and read Tuesday, April 11, 1944, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

FRANCIS X. LANG,
Superintendent of Supplies.
(March 25.)

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 36.

SATURDAY, APRIL 1, 1944.

NO. 14

RED CROSS COFFERS ARE RICHER BY \$11,300 AS RESULT OF SALVAGE DRIVE BY BOSTON SALVAGE COMMITTEE, OF WHICH PUBLIC WORKS COMMISSIONER GEORGE G. HYLAND IS CHAIRMAN—LAST WEEK'S DRIVE NETTED \$7,300 FOR THE ORGANIZATION, AND THE SUM HAS BEEN TURNED OVER TO RED CROSS OFFICIALS—SINCE NOVEMBER A TOTAL OF 4,838,000 POUNDS OF WASTE PAPER HAVE BEEN COLLECTED IN ADDITION TO WHAT HAS BEEN GATHERED IN BY JUNK DEALERS—SHORTAGE OF PAPER AT MILLS RELIEVED.

Boston's drive last week for the salvage of waste paper and tin cans yielded \$7,300 for the Red Cross, Salvage Director George G. Hyland has announced after final reports had been submitted to him.

Hyland already has turned a check for \$5,000 over to the Red Cross, and an additional contribution of \$2,300 representing the balance of the proceeds from the sale of the paper and tin salvaged by patriotic Bostonians will be forwarded to Red Cross officials before the end of the week.

In February a check for \$4,000 was presented to the Red Cross, representing the money realized from the paper obtained during that month's city-wide canvas.

Thus, during the past two months, Boston householders, through their efforts to help provide the waste paper and scrap tin needed for vital war purposes, have sent \$11,300 into the fund of the Red Cross to help finance its mercy work.

"I am happy to report to the people of Boston that their efforts to save paper and tin has served a twofold purpose," Hyland declared. "In addition to helping meet most dangerous shortages of materials needed for important war purposes, they have in the past two months contributed \$11,300 to the Red Cross in the form of paper and tin they have put out for our collectors."

Commodore Wilfred N. Derby of the Coast Guard last night joined in the appeals to the people of Boston and throughout New England to see that every ounce of paper is sent to war. Commodore Derby issued a reminder that the bundle of paper salvaged by a single family may become part of a shell that brings down a Jap plane.

"Of all the manifestations of patriotism," said Commodore Derby, who is the District Coast Guard officer in Boston, "it seems to me that the waste paper drive is the most revealing of real American character—because it is so small a gesture.

"I say 'small' advisedly, for actually it is anything but small, yet it is small indeed to the giving of one's life on a battlefield. Because it is so seemingly unimportant, however, many people may put it off or forget it. 'I will give my blood,' they say, 'or my life if necessary. But what difference can a little bundle of paper make?'

"They forget," the commodore went on, "that a little bundle of paper may become part of a shell which sinks a sub or brings down a Jap plane; that their little bundle of paper may be part of a carton containing blood plasma for their own sons.

"And they forget, too, that there are 130 million other Americans with 'little bundles'—and that adds up. But everyone must do his share, no matter how insignificant he thinks it is. That's victory. And more than that, it's democracy," declared Commodore Derby.

Meanwhile salvage officials disclosed that one mill within 100 miles of Boston has been shut down for the past three days because of the lack of paper, citing this to show the necessity of seeing that no waste paper is dropped in trash barrels that could be salvaged for war purposes.

A report also was forwarded to Washington yesterday showing that since November house-to-house collections by salvage trucks in Boston have produced 4,838,000 pounds of waste paper. This is in addition to the amount sold by householders to junk collectors during that period.

A very substantial amount of paper was realized yesterday from the bins at strategic locations throughout Boston, where commuters and office workers discarded their newspapers in response to appeals by salvage officials.

Four bins have been installed at the North Station, four at the South Station, three on the Lafayette Mall of Boston Common, one in front of the State House, one in front of City Hall, one at 40 Court street, one at 50 State street and one at the Hotel Statler. These bins are to be emptied daily.

"O Boston, fair City enthroned like a radiant queen.

From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

NATHAN HASKELL DOLE.

CITY RECORD.

Published weekly in Boston by the Board of Trustees of the Statistics Department of the City of Boston, under the direction of the Mayor, in accordance with legislative act and city ordinance.

JOSHUA H. JONES, Editor.

STREET AGENCIES.

Old South News Stand, Old South entrance to subway. Also News Stand, first floor, City Hall Annex.

Advertising.

A rate of \$2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, 73 City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, April 3, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

For week ending March 25, 1944.

Population as of July, 1943, Massachusetts State Census, 817,713; population estimated July, 1944, United States Census Bureau, 766,340; number of deaths (stillbirths excluded): Residents, 164; nonresidents, 43; total, 207.

Death rate per 1,000 of population: All deaths, 14.04; nonresidents deducted, 11.13.

Death rate per 1,000 of population:

Last week, 16.49; corresponding week last year, 19.65.

Deaths by age periods, sex, etc.: Under one year, 11; one year to four years, inclusive, 1; sixty years and over, 130. Total deaths: Male, 123; female, 84; deaths in hospitals and institutions, 132.

NEW REGULATIONS ARE PROMULGATED BY BUILDING COMMISSIONER JAMES H. MOONEY, RELATIVE TO RAZING OF DANGEROUS OR UNSAFE BUILDINGS—RULINGS MADE TO CONFORM TO NEW BUILDING LAWS PASSED BY LEGISLATURE AND ADOPTED BY CITY COUNCIL.

The following bulletins have been issued by the Building Commissioner to take effect immediately:

COMMISSIONER'S BULLETIN No. 140.

Subject: Razing of Dangerous or Unsafe Buildings.

Effective as of Tuesday, April 4, 1944, there will be posted in the Building Department on said date, and on each succeeding Tuesday, a list of buildings to be demolished by the Building Department under authority of section 116, chapter 479, Acts of 1938 as amended.

Unless otherwise specified, proposals for the buildings to be demolished will be received in the Commissioner's Office not later than 12 o'clock noon of each Monday following the Tuesday the list is posted.

Public opening of estimates will be held only when request for estimates is advertised in the *City Record*. When request is not advertised, estimates shall be delivered or mailed, in duplicate, to James H. Mooney, Building Commissioner, 901 City Hall Annex, Boston 8, Massachusetts.

All razing operations shall be conducted within the provisions of chapter 479, Acts of 1938 as amended, and regulations established thereunder, as enumerated in Commissioner's Bulletin No. 49, revised January 2, 1944, copy herewith attached.

Wrecking contractors possessing public liability and workmen's compensation insurance, and able to submit for each specific contract a certificate of insurance, will be permitted to submit estimates. Estimates from concerns not possessing such insurance will not be honored.

No further notice of buildings to be razed will be furnished other than those which may be advertised from time to time in the *City Record*.

JAMES H. MOONEY,
Building Commissioner.

COMMISSIONER'S BULLETIN No. 49. (Revised.)

January 2, 1944.

Subject: Rules and Regulations Governing the Taking Down of Buildings or Other Structures.

Consistent with the provisions of chapter 479, Acts of 1938 as amended, section 116, the following rules and regulations governing the tearing down of buildings or other structures are hereby established:

1. *Insurance.* In all contracts negotiated by and involving City of Boston departments the following requirements shall be inserted in said contracts:

"Before commencing performance of this contract, the contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. Failure to provide and continue in force such insurance as aforesaid shall be deemed a material breach of this contract and shall operate as an immediate termination hereof. The contractor shall, without limiting the generality of the foregoing, conform to the provisions of section 34A of chapter 149 of the General Laws, which section is incorporated herein by reference and made a part hereof."

Also it is understood that the contractor shall provide for public liability insurance, and sufficient proof of compliance with furnishing of stipulated insurances shall be furnished to every City of Boston department in the form of certificates, all as required.

2. *Permits and Licenses.* All work of razing or taking down buildings or other structures shall be performed after receipt of Building Department permit and in accordance with requirements of Building Law and regulations established under the Acts mentioned above, in cooperation with Building Department inspectors.

Necessary permits shall be those issued by the Building Department, Public Works Department (sidewalk, hydrant and street permits), and Health Department, all as applicable.

It shall be understood that the application for permit to raze, submitted to the Building Department, shall bear the signature of a licensed wrecker, and that permit card will not be issued until such signature is acquired, and it shall also be understood that for every structure razed the licensed wrecker whose signature appears on the application shall, throughout the length of the operation, supervise the work of razing or wrecking in accordance with these requirements. If the owner or contractor wishes to dispense with the services of the licensed wrecker whose name appears on the application, he may do so by recording in the Building Department prior to the change, on forms provided for this purpose, the name of the licensed wrecker who will continue the supervision of the operation, all in accordance with the requirements of section 120, chapter 479, Acts of 1938 as amended.

3. *Protection of Public.* (a) When directed by Building Department supervisors of construction, through the agency of building inspectors or otherwise, each licensed wrecker who is responsible for the work operation shall erect a properly constructed bridge and a brow and apron in location as directed by authorities mentioned above for the protection of pedestrians and vehicular traffic.

(b) Also on each work operation the licensed wrecker shall be obliged to furnish the services of a uniformed Boston police officer or a special police officer unless this requirement is waived by the Building Commissioner.

(c) As required by Building and Health Departments of the City of Boston and as directed by proper authorities employed in said departments, practical methods to eliminate the hazard and nuisance of dust must be effected.

That the hazard and nuisance of fire and dust may be coped with, it shall be understood that the licensed wrecker, if so ordered by the Building Commissioner, shall have available sufficient length of fire hose to extend from fire hydrant located in sidewalk and serviced from City of Boston mains to the most remote section of the premises on which structure is being razed, by dimension between fire hydrant and such remote section. For the purpose of this requirement the licensed wrecker shall obtain a permit from the Public Works Department, City of Boston, for the use of hydrant and water from same.

(d) Upon completion of razing operations the licensed wrecker shall be obliged to construct a substantial fence at least three rails high with suitable anchorage and posts enclosing that portion of lot or basement and cellar areas not protected by adjacent buildings or other structures.

4. *Termination of Services.* The licensed wrecker in charge of work operations shall be held accountable for the permanent termination of services, such as gas, electric, telephone, water, and sewer services, and must make all arrangements whereby same may be accomplished.

5. *Precautionary Measures.* Each licensed wrecker shall be held responsible for the safety of all persons employed on his project and shall cause to be erected by a licensed builder or shorer proper shoring of any weakened portion of the structure or building, such as floors, walls, chimneys, trusses, etc., and he shall be obliged to have installed necessary shoring to protect walls of adjoining buildings which are dependent upon the structure being razed for their stability, and to this extent will be required to leave in place shorings and bracings required by the Building Department. Also, if conditions warrant, the licensed wrecker shall not proceed with the work until sufficient ties, either temporary or permanent, are installed to protect adjoining structures, all as directed by the Building Department. Also it shall be understood that in no instance will the licensed wrecker permit the loading of floors beyond their designed capacity.

Where existing chimneys service both the building or buildings to be razed and buildings adjoining they shall not be disturbed, or when a chimney is so constructed as to afford stability to a wall of an adjoining building, whether it services same or not, it shall not be disturbed unless so ordered by the Building Commissioner.

6. *Extent of Work.* (a) When a building or structure is to be so razed that no portion of same shall be left standing above the level of the surrounding grades or ground level it shall be understood to include the taking down of all materials, including interior masonry walls, masonry piers, masonry and frame partitions, to the cellar or basement grade, excepting the exterior foundation walls below the surrounding grade or ground level. Such exterior walls shall remain.

(b) When buildings or other structures are only partially razed the licensed wrecker shall be responsible for the removal of all materials of any description, excepting undisturbed materials, and he shall also be responsible for the installation of proper ties, anchorage, etc., to cause the undisturbed portion of the structure to be left in stable condition satisfactory to Building Department authorities.

(c) All rubbish shall be removed completely from the premises and incombustible debris caused by razing operations, other than metal rods, pipes, structural steel, iron and metal appurtenances, shall be left in basement area. No wood or other combustible material of any descrip-

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon March 16 the Mayor approved a contract with Albert D. Howlett Company, the lowest bidder, for painting the interior, exterior and fire escapes of the Prince School, in the sum of \$4,839. The following bids were opened on March 15:

Albert D. Howlett Company, \$4,938; C. Dale Garbutt, \$5,830; J. D. Ahern, \$5,710; J. S. Leonard, \$5,122; Bay State Painting Company, \$4,870; Bond Brothers, \$5,630; M. L. McDonald, \$5,440.

SUPPLY DEPARTMENT.

Upon March 20 the Mayor approved a contract with low bidders as indicated in the following communication:

BOSTON, March 13, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Attached find summary of advertised bids on lead pipe for the city departments, as required, until December 31, 1944, with the privilege of purchasing on the same terms and conditions extended to January 31, 1945. The bids were publicly opened and read on March 6, 1944.

I respectfully recommend that the contract be awarded to the National-Boston Lead Company, a low bidder, at a price of \$2.25 per hundredweight over the American Smelting and Refining Company price of pig lead in New York on the day order is received, less 2 per cent cash discount for payment in ten days.

The American Smelting and Refining Company price of pig lead in New York on the day of the opening of the bids was \$6.50 per hundredweight.

The approximate amount of the contract will be \$4,418.75.

Respectfully yours,

FRANCIS X. LANG,
Superintendent of Supplies.

Bids were as follows:

CONTRACTS AWARDED.

(Continued from page 269.)

3-foot lengths; 43 per cent, 18 inches, 21 inches, 24 inches, 3-foot lengths; 39 per cent, 27 inches, 30 inches, 3-foot lengths; 35 per cent, 33 inches, 36 inches, 3 foot lengths.

Cash Discount, Ten Days.—Portland Stone Ware Company, 3 per cent; J. P. O'Connell Company, 3 per cent; The Whittemore Company, 2 per cent; The Robinson Clay Products Company, 3 per cent; Waldo Brothers Company, 3 per cent.

* Contract awarded.
† Deliveries can be made only as long as present factory inventories are available. From the attached W. P. B. Limitation Order L-316 it will be noted those sizes indicated by a dagger are no longer manufactured.

Upon March 23 the Mayor approved a contract with the Portland Stone Ware Company for furnishing approximately 80,000 sewer bricks for the Public Works Department, as required, until December 31, 1944, with the privilege of purchasing on the same terms and conditions extended to January 31, 1945, at a price of \$19.48 per thousand, less 50 cents per thousand cash discount for payment in ten days. The approximate amount of the contract was \$1,558.40. Bids, opened March 8, were as follows:

Approximately 80,000 Sewer Bricks, as per Specifications, Per M.—Portland Stone Ware Company, \$19.48; J. P. O'Connell Company, \$20; The Whittemore Company, \$23, in full loads, 4,500 to load.

Approximate Total.—Portland Stone Ware Company, \$1,558.40; J. P. O'Connell Company, \$1,600; The Whittemore Company, \$1,840.

Cash Discount, Ten Days.—Portland Stone Ware Company, 50 cents per M.; J. P. O'Connell Company, 3 per cent; The Whittemore Company, 2 per cent.

Approximate Net Total.—Portland Stone Ware Company, \$1,518.40; J. P. O'Connell Company, \$1,552; The Whittemore Company, \$1,803.20.

Upon March 20 the Mayor approved a contract with the Trimount Bituminous Products Company for furnishing approximately 4,500 tons bituminous patching mixture to be delivered to the city departments, as required, until December 31, 1944, at a price of \$4.37 per ton, less 2 per cent cash discount for payment in ten days. The approximate amount of the contract was \$19,665. Bids, opened March 6, were as follows:

Approximately 4,500 Tons Bituminous Patching Mixture, as Per Specifications, Per Ton.—Old Colony Crushed Stone Company, \$6.20; Warren Brothers Roads Company, \$5.95; S. J. Tomasello Corporation, \$5.94; National Contractors Company, Inc., \$4.75; Trimount Bituminous Products Company, \$4.37.

Approximate Total.—Old Colony Crushed Stone Company, \$27,900; Warren Brothers Roads Company, \$26,775; S. J. Tomasello Corporation, \$26,730; National Contractors Company, Inc., \$21,375; Trimount Bituminous Products Company, \$19,665.

Cash Discount, Ten Days.—Old Colony Crushed Stone Company, 1 per cent; S. J. Tomasello Corporation, 2 per cent; National Contractors Company, Inc., 2 per cent; Trimount Bituminous Products Company, 2 per cent.

Approximate Net Total.—Old Colony Crushed Stone Company, \$27,621; Warren Brothers Roads Company, \$26,775; S. J. Tomasello Corporation, \$26,195.40; National Contractors Company, Inc., \$20,947.50; Trimount Bituminous Products Company, \$19,271.70.

FIRE DEPARTMENT ORDERS.

General Order No. 22.

I. ASSIGNMENTS OF PROVISIONAL MILITARY SUBSTITUTES.

The following assignment of a provisional military substitute for fireman, which took effect at 8 a. m. Wednesday, March 22, 1944, is hereby announced:

Ralph A. Hallberg to Ladder Company 29.

The following assignments of provisional military substitutes for firemen, which will become effective at 8 a. m. Wednesday, April 5, 1944, are hereby announced:

William A. Connell to Ladder Company 27.

Francis P. McCarthy to Engine Company 45.

John G. Shea to Engine Company 28.

II. RETIREMENTS.

The following retirements, which will become effective at 8 a. m. Wednesday, March 29, 1944, are hereby announced:

District Chief Allen J. Jarvis, District 15.

Lieut. John J. Sullivan, Ladder Company 22.

Hoseman John F. Dowd, Engine Company 15.

Hoseman Thomas F. Lydon, Engine Company 33.

District Chief Jarvis was appointed May 3, 1911. He was promoted to lieutenant February 1, 1924; to captain May 31, 1929; and to district chief February 16, 1934. Lieutenant Sullivan was appointed December 8, 1905, and was promoted to lieutenant June 4, 1927. Hoseman Dowd was appointed October 9, 1903, and Hoseman Lydon was appointed September 3, 1920.

All the foregoing named men leave the department with the best wishes of their associates.

III. CANCELLATION OF ASSIGNMENT.

The assignment of Provisional Military Substitute for Fireman John J. Bock to Ladder Company 21, which was announced in General Orders No. 16, (c. s.), is hereby canceled, effective as of 8 a. m. March 22, 1944.

IV. RESIGNATIONS.

The following resignation, which became effective at 8 a. m. Thursday, March 23, 1944, as hereby announced:

P. M. S. Charles J. Connolly, Engine Company 38.

The following resignations, which will become effective at 8 a. m. Wednesday, March 29, 1944, are hereby announced:

P. M. S. Joseph T. Heim, Ladder Company 29,

P. M. S. Matthew R. Souza, Engine Company 38.

P. M. S. Connolly was appointed to the department January 26, 1944; P. M. S. Heim was appointed to the department September 1, 1943; and P. M. S. Souza was appointed to the department December 1, 1943.

Provisional Military Substitutes Connolly and Heim have resigned in order to enter the armed forces of the United States.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 93.

The following communication is published for the information of the Department:

"CITY OF BOSTON,
COMMITTEE ON PUBLIC SAFETY,
55 TREMONT STREET,
BOSTON 8, MASSACHUSETTS.

March 20, 1944.

Subject: Digest of Duties and Responsibilities of A. R. P. Personnel and the General Public During the March 26, 1944, State-Wide Practice Blackout.

The following digest of duties and responsibilities of A. R. P. personnel has been received from J. W. Farley, Executive Director of the Massachusetts Committee on Public Safety. All of these rules and regulations are to apply during the blackout test in Boston on March 26, 1944.

1. Warning signal (practice First Blue). Steady or long blasts. Should not exceed two minutes.

a. Street lights turned out.

b. All house and other building lights visible from outdoors turned out or blacked out.

c. All plants except those doing war production work black out.

d. Automobiles continue to travel with lights on low beam. (This does not mean parking lights.)

e. Pedestrians may move but should keep an eye out for nearest available shelter when the Alarm (Red) signal is sounded.

f. Workers may remain at their jobs.

g. All branches of Civilian Defense mobilize.

2. Alarm signal (practice Red). Series of short blasts. Should not exceed two minutes.

a. All traffic must stop except vehicles carrying Civilian Defense pennants and vehicles belonging to the

Army, Navy, State Guard, Red Cross, Police, Fire, etc., generally referred to as emergency vehicles. These may continue with lights on low beam and should move without challenge.

b. All plants doing war production work, except a very few specifically exempted by Army order must blackout for the entire ten-minute Alarm (practice Red) period. A list of such specifically exempted plants will be furnished the Police Department and Civilian Defense Headquarters in localities where such plants are situated by the Massachusetts Committee on Public Safety.

c. Trolley cars and buses (except in subways or tunnels) will stop and extinguish all lights.

d. Members of the Federal and State armed forces, F. B. I. agents, police personnel, essential public utilities personnel, private plant guards, under orders to report to their stations in case of an alert must be allowed to proceed during the Alarm (practice Red) period upon proper identification.

e. All other persons, except authorized A. R. P. personnel on duty and wearing their proper armbands, should immediately take shelter during this period.

SPECIAL NOTE.—The handling of vehicular traffic, including trolley cars and buses, is the responsibility of the Police and Auxiliary Police and not that of the wardens.

3. Warning signal (practice Second Blue). Steady or long blasts. Should not exceed two minutes.

a. All lights, including street lights, house lights, lights in office buildings, hotels, etc., continue out. (See "f" below for industrial plants).

b. Pedestrians and workers may leave their shelters and resume activities.

c. Householders remain indoors. (House lights remain extinguished or blacked out.)

d. All automobiles may resume driving with lights on low beam (not parking lights).

e. All Civilian Defense remains mobilized.

f. Only industrial plants doing war work may relight.

4. All Clear (practice White) signal. Steady blast. Should not exceed ten seconds.

a. Blackout ends. All lights previously extinguished may now be relighted.

b. Civilian Defense may demobilize when their duties have been fulfilled.

CITY OF BOSTON COMMITTEE ON PUBLIC SAFETY,

by:

MAYOR MAURICE J. TOBIN, *Chairman.*
JOHN J. WALSH, *Executive Director.*

Special Notice.—Dimout in Massachusetts was suspended by Army order November 1, 1943. That suspension, however, does not affect Blackout regulations which continue unchanged, and everyone should comply."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 94.

The resignation of Provisional Temporary Policewoman Florence L. Allstrom of the Crime Prevention Bureau having been presented, it is hereby accepted, to take effect on Thursday, March 30, 1944, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 95.

A trial board consisting of Captains Duggan, McNabb and DiSessa, having heard by reference a complaint against Patrolman Lawrence J. McLaughlin of Division 13, charging him with neglect of duty, has reported to the Commissioner a finding of guilty as charged. In accordance with which it is hereby ordered that the said Patrolman Lawrence J. McLaughlin perform two hundred and ten (210) hours' punishment duty.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 96.

The police officer hereinafter named having performed faithful service in the Police Department for the years stated; and the Medical Board, provided for by section 18, chapter 521, Acts of 1922, having certified that he is incapacitated for useful service on the Police Force of the City of Boston, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department, under provisions of chapter 353, Acts of 1892, as amended by chapter 6, Acts of 1920, and chapter 387, Acts of 1930, and that his name be placed upon the department pension roll with pay at the rate set out (to be paid monthly),

said sum being one half of the amount of compensation received by him in the office from which he is retired; effective Tuesday, March 28, 1944, at 7.45 o'clock a. m.

Patrolman Joseph Decker, Bureau of Criminal Investigation, 24.4-12 years of service, \$1,150 per annum.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 97.

The following transfers to the Superintendent's Office, of officers now in the armed service of the United States are hereby ordered, to take effect Wednesday, March 29, 1944, at 7.45 o'clock a. m.:

Patrolmen.

John J. Connolly, Florence J. McCarthy, Division 2.

Joseph J. Cummings, Carl F. Engler, Daniel J. Moynihan, Division 3.

John Campbell, Denis J. Murphy, Division 4.

James J. Donlin, Division 6.

Robert B. Lee, Division 7.

William F. Lydon, Eugene J. Pastore, John J. Young, Division 9.

Walter G. Francis, Coleman L. Nee, Division 10.

Arthur J. Gallant, Joseph R. Lyons, John Stevens, John J. Gannon, Division 11.

Paul A. McLeod, Division 13.

Francis J. Collins, Fred H. Shulenberg, Division 15.

George J. Floyd, Division 17.

Frank J. Joyce, George J. T. McGarrell, Division 18.

Albert D. Grotte, John F. Preston, Division 19.

Frank C. Lentini, Alton L. McKenney, Traffic.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 98.

The resignation of Provisional Temporary Patrolman Samuel J. Tucker of Division 17 having been presented, it is hereby accepted, to take effect Wednesday, March 29, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

EXTENSION OF CONTRACT.

HOSPITAL DEPARTMENT.

Peter F. Rossi has been granted an extension of time for completion of contract made July 10, 1943, for installation of Edison stand-by service at the Boston City Hospital, from November 7, 1943, to June 2, 1944. This extension is requested because of the delay in the receipt of priority ratings, which has impeded the progress of the work called for in Mr. Rossi's contract.

BUILDING DEPARTMENT.

NEW BUILDING REGULATIONS—RELATIVE TO RAZING.

(Continued from page 267.)

tion shall be left on the site or in the debris permitted to remain in basement area.

(d) Whenever a building or structure is to be removed in whole or in part the licensed wrecker will before disturbing any supporting or structural member, remove all interior finish, lath, plaster and wall surfaces, and structural member coverings, to make accessible to view for authorized members of the Building Department all parts of the structure. Materials referred to shall be removed from the building before actual razing of the structure or portions of building is started.

JAMES H. MOONEY,
Building Commissioner.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway construction, estimated to be thirty (30) days, the following rules are effective March 27, 1944:

The following street is one way in the direction indicated:

Washington Street, Roxbury.

From Columbus avenue to West Walnut park.

Parking of vehicles is prohibited in the following streets:

Washington Street, Roxbury.

Both sides, from Columbus avenue to West Walnut park.

West Walnut Park, Roxbury.

Both sides, from Columbus avenue to Washington street.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway construction, in Washington street, Roxbury, estimated to be thirty (30) days,

the following rules are effective March 29, 1944:

The following street is one way in the direction indicated:

Columbus Avenue, Roxbury.

West side, from West Walnut park to Washington street.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

STATISTICAL MACHINE OPERATOR (REMINGTON-RAND MACHINES), MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,140 a year plus a temporary increase of \$240; the maximum salary is \$1,440 a year.

Vacancies: From time to time.

Duties: To operate Remington-Rand machines, punching cards from data previously coded; and to perform related work as required.

Entrance Requirement: Applicants must have had at least six months' full-time paid experience in the operation of Remington-Rand machines.

Subjects and Weights: Training and experience, 2; practical questions, including practical tests in the operation of Remington-Rand machines, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

PROCEEDINGS OF CITY COUNCIL.

Monday, March 20, 1944.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. McCormack and Scannell.

The meeting was opened with the salute to the Flag.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

W. M. Auclair Transportation Company, for compensation for damage to truck by city truck.

Julia A. Carey, for compensation for injuries caused by an alleged defect at Bowdoin and Topliff streets.

Mrs. Milton M. Davis, for compensation for injuries caused by an alleged defect in Harold street, Roxbury.

John J. McEvoy, for compensation for collapse of water boiler at 84 Regent street.

Catherine McGrail, for compensation for injuries caused by an alleged defect at 7 Melrose street.

Clarence McLellan, for compensation for damage to car by police car.

C. Pappas Company, Inc., to be reimbursed for fee paid for sign permit.

Katharine V. Sullivan, for compensation for injuries caused by an alleged defect in William Jackson avenue.

United States Post Office, for compensation for damage to truck caused by an alleged defect at Kneeland and Tyler streets.

Mary White, for compensation for injuries and damage to property caused by an alleged defect at 1677 Commonwealth avenue.

Executive.

Petition of Boston American League Baseball Company for license for Sunday sports.

Petition of Boston Elevated Railway Company for approval of construction of railway on land between Bennington street and Revere line.

Coun. COFFEY—Before that is referred to the Executive Committee, may I first make a few remarks? The Boston Elevated wants to run an extension of their car line into Suffolk Downs. This is a case where, through a state commission they have under their control, they want to come in and extend the car line into Suffolk Downs. I don't think I need tell you much about Suffolk Downs when it comes to Bostonians getting a job. They love to load the place with Southerners. Now they are coming in and asking a permit to extend their car line to Suffolk Downs so to be sure Suffolk Downs gets enough suckers down there during the summer months.

PETITION FOR CHILDREN TO APPEAR.

A petition from the Massachusetts Committee on Russian War Relief for children to appear at Boston Opera House on April 3 was received.

Permit granted under usual conditions.

APPOINTMENT OF EDWARD F. MULLEN.

Notice was received from the Secretary of State of the appointment by the Governor of Edward F. Mullen as member of Finance Commission for term ending August 18, 1945.

Placed on file.

COMMENDATION OF POLICE.

Coun. KINSELLA offered the following: Resolved, That the Boston City Council, in meeting assembled, unanimously extends to the police of Division 15 its sincerest and most grateful appreciation for their excellent service to the people of Boston in solving three brutal murders, one committed in 1942 and the other two committed just recently, each against defenseless women; and be it further

Resolved, That the Boston City Council, desires to commend, particularly, Police Captain Louis DiSessa of Division 15, Captain Edward Keating of the Homicide Squad, Boston Police Department, Sergeants John V. Miller and John Cullinan of Division 15, and Special Officers James Mahoney, Cyril Montgomery and John Donovan of Division 15, City square, Charlestown; and be it further

Resolved, That a copy of this resolution be forwarded to the office of Division 15 and

a copy be forwarded to the office of the Police Commissioner.

Coun. KINSELLA—Mr. President, I need not remark on the horror that overcame everybody as the result of the exposure of these murders. For awhile, nobody in Boston, particularly no middle-aged woman, felt safe on any of the streets of Boston. When one contemplates the bestiality and the brutality of the natures of the men who committed these crimes, it stuns the imagination to believe that a human being made in the image and likeness of his God could stoop to such depths of depravity as to inflict upon those defenseless women the tortures that were discovered along with their dead bodies. It is rather a gruesome and morbid subject to talk about, but I ask the indulgence of your Body, Mr. President, just a few moments while I point out the possibility that these crimes could have been committed in any section of Boston or Massachusetts, or any section of the world, for that matter, because of the peculiar mental process of the people who commit this type of crime. I was present at the police station on Saturday night, during the grilling of these two beasts, and I want to say to your Body, Mr. President, in all sincerity, that on the face of one all I could detect was what appeared to be a smile of satisfaction at having done a good day's work,—the type of smile that only some one who has done something meritorious is entitled to wear. The other creature appeared to be stunned and bewildered and amazed at the proceedings, as though he didn't understand what they were all about. But let us contemplate that it cost three women their lives, and let us not have any pity for them, because of the slow or retarded mentality of the men. The ends of justice in these cases will never be served unless these men pay the supreme penalty. Now, as to the work of the police in Charlestown, I can tell the members of your Body, Mr. President, that they went sleepless for four nights. They were seen on the streets at three, four and five o'clock in the morning, running down clues and tips that we all know have led to the solution of these murders. Ordinarily this type of resolution does not come before your Body, Mr. President, but when we realize the close contact that we as public servants have with the Police Department of the city, I think there is a great feeling of satisfaction that possesses us at the knowledge that those men are capable of matching the worst that the depraved and criminal mind can offer. I don't believe that we should stint one word in our praise of these men who have made the streets of Boston a little bit safer; and, as a last thought, I ask the members of this Body to believe that any one of these victims might well have been his elderly mother, given the proper conditions, because we know that they haven't the courage of a worm to attack anyone who has the slightest hope of fighting back. I hope that the resolution is passed.

Coun. COFFEY—While I don't oppose the resolution, and the police ought to be congratulated, I cannot help taking my feet on a resolution such as this. To begin with, the members of the Boston Police Department are paid a salary to do such jobs as this. Regarding the remark my brother councilor from Ward 2 (Coun. Kinsella) made, that the police went two or three nights without sleep, I say that the police were for two years sound asleep. One murder was committed in 1942, and the police would never have detected that murder, never known anything about it, but for the fact that they happened to question a young girl who was attacked by somebody in Charlestown a couple of years ago. As a result of that questioning of that girl and that girl's squealing as to the man who attacked her, the police in a routine check-up happened to discover that this 1942 murder was to be laid at the doors of these men who are now charged with these two new crimes, that have been committed in the past few weeks in the Charlestown district. I don't see why we here should give credit to any members of the Police Department for doing a duty which they are paid to do. In fact, I think we should condemn them for not having done their duty in 1942 when the murder was first committed. As I said a moment ago, they wouldn't have even attached these murders to the previous murders committed in Charlestown in 1942 but for the fact that a young girl happened to squeal as to who made an attack on her a couple of years ago. The police don't deserve one bit of credit for bringing these murderers to trial. I question the councilor from Ward 2 when he says he was present at the questioning of these men, and I ask what right the Police Department has to have an outsider, whether in public office or not, in their presence when they are questioning two men

as to whether or not they have committed a series of murders. I am going along with the resolution for only one reason, that the murderers are apprehended. They are supposed to have committed these murders, and supposed to have made confessions that they have committed these murders, but, gentlemen, let us give the Police Department no credit for something that came to them by accident, because a young girl who was attacked two years ago squealed on the man that attacked her, and when this man is brought in for questioning, after grilling him for three or four hours, he finally breaks down and admits he committed a murder a couple of years ago in Charlestown, and we find another man is implicated. If the Police Department want credit, I will give them credit when they go up and clean up sections like Scollay square. Only yesterday I picked up a national magazine and read an article written by a man who says he has had over fifteen fights with soldiers and sailors about the Boston area. They are stationed up here and go back to their home towns on a furlough and claim that Boston is a city of bums, and that street walkers are walking the streets of Boston. Only yesterday I picked that up and read that article in "Pic" magazine—I think it was "Pic." He told about having some fifteen or twenty fights, and that others from the Boston section were saying, "Why don't the authorities in Boston do something about the Scollay square section and the Boston Common section of Boston?" The same is true of Chelsea street in Charlestown. That could be cleaned up, and if the Charlestown police want any credit let them close up those parking lots owned by racketeers. Let them clean up the district of Charlestown once and for all, and I will take to my feet and go on record for their doing a good job in Boston. I think most of the people in Charlestown will agree with me that Chelsea street in Charlestown is just as bad as Scollay square. And I will never take to my feet and give credit to the Police Force with a dozen unsolved murders to its credit, or a Police Force that is big enough and strong enough and powerful enough politically to make the Attorney-General of this Commonwealth back water and take a back seat. All these things have happened under our present Governor, who is in charge of the Police Department. I lay every crime at his door, because no Police Commissioner has a chance to go out and do an honest job,—not one. They have a man now who would love to do a good job, Captain Sheehan. And I know one instance in Boston where they told him to get out a pinball machine, and the operator said, "Leave it in. I will have Captain Sheehan talked to." And the pinball machine is still in there, and everybody knows that Captain Sheehan wants to do a good job. I will never give credit to any Boston Police Department until I find out that the Boston Police Department is honestly and efficiently manned, when every cop on the street can go out and make an arrest if he sees fit, and get a prosecution—not to bring them in and have politicians work for them and wait for a certain judge to sit on the bench, and then have the case disposed of. It is rotten all over the city. In Charlestown when a defense worker parks his car on the street he gets a tag and goes into court and is fined \$20, for only one reason, and that reason, of course, is to force him to park his car in some lot owned by the city, but hired by a politician or somebody in the racket in Charlestown. It has been a disgrace. I will go in favor of the resolution for only one reason, that there have been a couple of murders solved, but I don't think the Boston Police Department deserves any credit for it, because, as I said, it wasn't any extraordinary act on the part of the Boston Police Department that brought about the solution of these so-called murders. It is only the fact that a girl happened to squeal, and in the grilling of these men the men broke down and admitted that they had committed these recent murders, and along with that they admitted they had committed a murder in 1942. And I would like to ask why we are going on record giving the police of the Charlestown division any credit, because it wasn't any master detective work on the part of the Police Department in Charlestown, but just because a girl happened to squeal on who had attacked her, and as a result of questioning of that man they found he had committed a couple of murders.

Coun. KINSELLA—Well, I never thought saying a good word about anybody would bring about a tirade of that sort down on their heads or on mine. Mr. President, there are a couple of items on which the gentleman from East Boston is wholly uninformed. For one thing, the murder in 1942 went unsolved until the present time in part be-

cause, as the councilor said, some girl squealed, but that played a small part in the solution. The fact of the matter is this. Nobody here would dare—not even Councilor Coffey would dare—if he saw the pictures of that McGinley woman, to attempt to describe them to anybody else. There are some things if once seen you would want to forget, and the conflicting reports on her death between the Fire Department officials and the Medical Examiner were sufficient to affect seriously the time element, as a result of which the police were thrown off the track, and that is part of the official inquest that was held. The fire must have been burning for twenty-five minutes, during which the woman was alive. The Fire Department said the fire couldn't have gone more than ten minutes because of lack of oxygen circulating around the body. Whether or not that is true, we are in no position to say, because we are not doctors, and neither are the police, and all they have to rely upon is the expert testimony of the Medical Examiner and the Fire Department officials who found themselves in conflict. There was a gap of fifteen minutes which, if properly accounted for, might have led to the solution at that time. As to my presence in the police station, I said distinctly that I was in the police station and the door of the captain's office was open during part of the proceedings, and I could see the boy being questioned. There wasn't a mark on him and no abuse was practiced. Under the conditions it might well have been, but it was not. As to conditions in Charlestown, it is nice for a councilor to think his district is lily-white and beyond reproach, but if it will do the councilor any good to defend a councilor for doing something to help his district, I will say he may commend me for having driven the pinballs out in three weeks' time. I expect him also to say I refused a sum of money to let an arcade on Chelsea street, because I won't have Charlestown turned into a bordello whether I hold an office or not. While I have a tongue in my head I will not be quiet while there are so-called amusement centers that are nothing more nor less than distribution points for tricky politicians, for procurers and for panderers. That is how much I think of the town, and if there is anything wrong with the town—and there isn't, ordinarily—we can thank our transient population that comes in there and uses the town in which to earn its living and then goes home nightly, with the streets rotten and filthy from the newspapers and lunch boxes they throw on the streets. There is nothing wrong with the Charlestown people, who are the town itself, and, as to the police, it is a pity that once in a while you can't say anything nice about them, because the next thing you are going to see your best efforts questioned when the matter could have gone along without any debate and in the full and decent appreciation of the fact that only by the will of the gods were those murders committed where they were and not in East Boston, which isn't to say that East Boston is not one bit less estimable than any other part of the city. But to condemn a town because a few human beasts are on the loose, and no one knows who they are, is wrong. I challenge Councilor Coffey to tell me when the next murder is to be committed. He doesn't know any more than we do, and let him be honest and fair in his criticism. Let him say that the police, as the record will show, were thrown off the track when they investigated the McGinley killing in 1942. And let us have no more reference to the unfortunate dead, who died probably more horrible deaths than anybody else except those who died exactly as they did. It is a shame you can't say these nice things and let it go at that. As to the police being paid, it is true. They draw their money every week whether they succeed or fail in the prosecution of their work. Isn't it true that we do? We go in and get our money on the 1st and the 16th whether we are sick in bed, in the hospital or at home; whether we are away on vacation or just coming in here for appearance sake. It is nothing to our credit to discharge our duties promptly and efficiently and honestly and profitably for somebody else. Our lives aren't at stake twenty-four hours a day. We don't place our lives in the line when we go out in the morning. Right now at some place in this city some cop may probably be being killed—I hope not—and for pity's sake, let us applaud them; let us not give them half applause. If we can't say anything whole-heartedly and in the proper spirit let us say nothing.

Coun. COFFEY—Well, I get a kick out of the remarks from the councilor from Charlestown. He doesn't want any criticism—he, above anybody, doesn't want any criticism—on an order he introduces. Let anybody else introduce an order and see how quick he

jumps in if there is a piece of publicity in it for him. And he, above anybody in here, defending the Boston Police Department! There is where I get a kick,—a man who has condemned and crucified them up until the time he has decided he might need them if he aspires for higher office. And only a couple of years ago, up in the executive chamber, when I introduced an order for an increase in salary for the Boston police and firemen, he was one of the eight that voted against it. He was one who wanted the entire City of Boston employees included in it. That day was the first time I ever made the plea, and I challenge anybody here to say I asked them to ever vote for anything I introduced. I never have. It is up to you people to use your own common sense and judgment but there isn't one member here, or in any other body I serve, who can say I ever asked him to give me a vote on any order I introduced. I just throw it in, and if you see fit to pass it, it is all right. As soon as the vote was over, if you fought against the passage, as soon as we left this chamber there wasn't a cross word from me and I never continued the argument. The gentleman wants to give the police of the Charlestown district credit for something. I think they don't deserve credit for that something because if it wasn't for the fact that the girl squealed a murder would still be unsolved. The murder was committed in 1942. I don't care what the Police or the Fire Department was supposed to report on it. All I know is what I read in the newspapers, and when they refer to the McGinley murder—that is the name—they always refer to it as the unsolved murder, not the unsolved accident or death by fire but the unsolved murder. And I say again, the police of Charlestown must be damned lax in their duty to take a murderer in and start questioning him and leave the door open so that anybody that might enter the police station would hear their line of questioning. What in hell kind of a Boston Police Department have you that will do that, leave the door open, so every Tom, Dick and Harry could come in there and listen to the questioning? Now, I wonder if there was any collusion on the part of the councilor and the police of Charlestown when they left that door open—were they looking forward to getting some publicity or some credit for something? I say they should hang their heads in shame, allowing a murder committed two years ago to go unsolved until a couple of more murders are committed and then go down and question a girl who had been attacked and she squeals on the man who attacked her, and they bring the man in for questioning and leave the door open and Councilor Kinsella can hear the Police Department asking this man if he committed a murder and the man breaks down and says, "Yes" he did. As to the pinball machine, he doesn't deserve any credit for that. Captain Sheehan decided with Commissioner Sullivan about a month ago he was going to get rid of the pinball machines in Boston, and you can check that with Captain Sheehan or Commissioner Sullivan, because three weeks ago I sent them a copy of the minutes of the meeting where I got a report from the Law Department in 1942 stating that pinball machines were, in the opinion of the Law Department, illegal. So if anybody wants credit for the pinball machines, all they have to do is check with them, because I sent them all a copy of the minutes of the meeting so they would have something to stand up with when they went into court to drive these pinball machines out of Boston. Now the gentleman from Charlestown was a member here when I introduced an order attacking the former Police Commissioner, and you all remember my stating that in Roughan's Hall in Charlestown, right in the central section of the Charlestown district, a stone's throw from the police station, there was a ninety-million-dollar lottery ring being operated, and about nine or ten months later the fact was brought out because the Attorney-General went in and made raids upon the place and made a statement to the press there was a ninety-million-dollar racket being operated within a stone's throw of the Charlestown police station. I wonder why these detectives over there didn't know that that ring was being operated in Roughan's Hall for a number of years; I wonder if they don't know that all along Chelsea street in Charlestown every joint over there is infested with tramps picking up sailors. They take bets on the horses; everybody knows that. They didn't close down until the Attorney-General started to bring pressure; then they closed down. I never got up here and said that East Boston was a place that the rest of the city could look up to. I have condemned my captain, in fact, I have condemned every

captain that has ever been over there. I have named places there, horse rooms being operated in East Boston, pool rooms operating numbers. I have named them—at least I have named them and tried to drive them out of the district. The gentleman from Charlestown on the ninety-million-dollar lottery never opened his mouth, never said a word. He didn't take the floor at the time; he just sat here, dumb. He didn't defend the town at that time, and I don't know why he is trying to defend it now. I put Chelsea street, Charlestown, and everybody will agree with me, in the same category as Scollay square, Boston, and before I will go on record as giving the police credit for anything, I want to see them do something for the City of Boston. I don't want kids in the service writing letters home saying that they have to fist fight with fellows from the South up here doing duty in the Boston area and going back there on furlough and saying that Boston is a city of bums, tramps and streetwalkers, and that Scollay square and Boston Common are two of the worst sections in the country. That can be had for the buying of a national magazine for ten cents, because I read it only yesterday. I say that I put Chelsea street, Charlestown, in the same category, and I repeat the charges of the parking lots in Charlestown owned by racketeers and having them work in with the judge over there so that every man on defense work, some getting \$35, \$48 and some \$60, if they leave their car in the street and don't put it in the parking lot, where some politician can stick them for \$2 a week, they are brought into court and get a \$20 fine on the first offense. There is a kid running the elevator out there who, the first week he worked in the Navy Yard, took his mother's car, and got two tags that week and was fined \$45 for parking his car twice in the Charlestown district. They have to get the cars off the street into the parking lot where the politicians and racketeers can collect. Who gets the cut? There are no parking lots in my district; I have stopped them, you bet. And I don't say now I take any credit for stopping them. As to the gentleman's statement, very seldom does he ever get on the floor and name names like I do. He never brings out facts but I just want to bring this in for the record. It is a letter written to me from Congressman Curley, regarding my taking the floor and attacking the Charlestown councilor when he said that Curley sent for him and said to him, "Leo, if you will be with me in the mayoralty fight we will make a lot of money together." Now, everybody knows in that contest that Galvin was with Tobin and it cost him his election, but he was. He was with Tobin and Tobin was with Galvin, but there was nothing for Kinsella to pretend he was with Curley, or Curley to pretend he was with Kinsella because Galvin and Tobin were one. And this letter referred to the gentleman from Charlestown, Councilor Kinsella: "I never had any such conversation with him as he states, and some day I may have the opportunity to pay him back in full." This letter came from James Michael Curley, and I am not here defending Curley because, the way I am, if I like a fellow I am with him, but if I think tomorrow he is wrong I am against him. That has been my tactics since I have been in politics and it always will be. Let us not try pulling the wool over everybody's eyes giving credit to a Police Department that deserves no credit because of anything masterful on their part. They got most of their information in this case from a girl that they happened to remember was attacked and was lying in the hospital for a couple of years, and they took a guess they would go up and take a chance and question her, and as a result she told who had attacked her, and they brought that man in for questioning and asked if he committed any recent murders, or a murder in 1942, and the police obligingly left the door open so Councilor Kinsella could hear them questioning an alleged murderer.

Coun. RUSSO—Mr. President, of course, I don't wish to take any issue with any one of my colleagues, although I am always open-minded, but speaking on the resolution I would say that in Charlestown today there is a captain who has been faced with very serious crimes in the short space of time he has been a captain in Charlestown. I believe we ought to give credit where credit is due and I am always of the opinion to give credit where credit is due and to criticize them when they ought to be criticized. I say that the captain and his attaches in Charlestown have done a good job in bringing about the solution of these particular crimes. Speaking in so far as my ward is concerned, such as the Scollay square section, I don't maintain as the councilor from Ward 1 (Coun. Coffey) has said of his ward, that

my ward is any better than the next one. Neither is it inferior to any other one. We find in all districts good and bad. I only wonder what brings about in Scollay square the conditions that exists today. As my colleague from Ward 1 has stated, he has received letters, or families that he knows have received letters, condemning the Scollay square section of the city, and referring to fist fights there with men in the armed forces of our country. I really don't know at this time what we can do in order to remedy that situation. In so far as the pinball machines are concerned, I have taken the floor time and time again and I have stated, and I do maintain up to now, that ever since the time that those arcades were put into the Scollay square section of our city, conditions have been not too healthy. It is a haven for the men of our armed forces, plus young ladies and young girls, not from the district of the North End or the South End or the West End, but from out of town, coming into the Scollay square section of our city. I know that our City Censor gave an order that they should be closed at 1 a. m., and open at 8 a. m. I have passed by Scollay square at various times, and I find that they are open later than the hour of 1 a. m. I have brought that to the attention of our City Censor and he has stated to me he would take it up with them—and this is only about two weeks ago, the last time I spoke with him. I am of the opinion, and the councilor from Ward 1 can correct me if I am wrong, that there was a ruling in the Middlesex County court, that the pinball machines are legal. If that is so, then I don't know what action we can take about it. If that is not so, which I do contend, and they are illegally run, then I say the Police Department, or the officials that have anything to do with them, should make an attempt right now, immediately, to close them up. Take away the things that are rotten, the things that gave opportunity to the young girls and boys of our city to gather around where the morale is not too healthy and we have eliminated conditions that have brought about what we hear so much of today, the problem of our child delinquency. In so far as the resolution is concerned, I am heartily in favor of it.

Coun. COFFEY—Before the resolution is referred I still want to talk on it. Mr. President, in answer to the gentleman from Ward 3, who wants to give credit where credit is due, I hope that old Italian question is not going to be brought in here now, because the captain of Charlestown happens to be an Italian. I might tell the gentleman from Ward 3 that, if this new captain is such a brilliant detective when he was lieutenant down in Station 1 of the North End of Boston—and to my memory there must have been several others—one "Goofy" Campbell was killed down there, and they never found him. Another fellow called "Slim Chick" had twenty machine gun bullets put in his body, right at the little park where the new Charles River station is, and people could go down there for days afterwards and see the bullet holes in the billboard. I don't remember the captain from Charlestown who was then the lieutenant solving those two murders. And there has been another murder committed in the North End section of Boston while he was lieutenant, and that fellow was a fellow by the name of Fantasia. His murder was never solved, although two men were brought up and tried, and, for the first time in the history of the country, both men were charged with first degree murder, although they admitted that only one bullet was fired. And after they found one man guilty, then the other man was squealed upon by a streetwalker or a prostitute, and after squealing on this other fellow, after this one had been charged with the murder, the other fellow was tried again and the case was dismissed. His name was Cero, and he was deported from the country, and after he got out of the country the girl got up again and the other man was found not guilty. So that is unsolved. There are three—there must be others—but there are three that the captain of Charlestown, then a lieutenant at the North End station, never solved. So I think no credit should be given where credit is not due. When a murder can go on unsolved for two years, I say something is wrong with the Police Department, because, as I stated before, every time I read a Boston newspaper it always referred to the unsolved murder in Charlestown in 1942, and I still maintain they never would have found out who the murderer was if it wasn't a girl, who after two years, came forward and told who had made an attack on her.

Coun. KINSELLA—This resolution has certainly gone far afield. We wind up, after trying to commend the police for doing the very thing we expect of them, which is some-

thing we have a right to expect—we wind up in personalities. So, apparently, the resolution is not at fault, apparently, the sponsor is. Now that Councilor Coffey has talked long and well, it appears his sole objection now, although he says he will go along with it, his sole objection now is the commending of a police captain whose boy very nearly removed him from the political scene in East Boston on many occasions, Peter DiSessa. Mr. President, as far as the ninety-million-dollar ring in Charlestown is concerned, I wonder if Councilor Coffey finds it possible to be in two places at one time. For instance, he takes good care of Ward 1, to hear him tell it. Apparently he is home all the time. Well, either he is at home all the time and at that process, at the self-same time, he is elsewhere, or else he has a staff of rounders that he has described as stool pigeons when they give the police any aid on a murder case. I don't find it possible to be at home and listen to people every night in the week and also to be around Thompson square and Hancock square and Sullivan square, wondering who is operating illegal games. As a matter of fact, it is of no concern to me at all that the thing is revealed. If it was there, in years prior to my going in it was there, then I inherit the blame and the police get the credit. I wonder if the councilor would not delve in a little deeper and find out who brought them in. In the first place, in view of the fact that I didn't come into politics until New Year's Day, 1941, by way of the Legislature, yet "Doc." Sagansky was tried only a year ago and sent to State Prison for operating a racket that had been years old. What was said on the floor of the chamber prior to my election to this Body about anything that resembled a ninety-million-dollar lottery ring and who protected "Doc." Sagansky all those years? "Doc." Sagansky was unknown to me, along with all those big shot racketeers, for the reason I had no time to cultivate the gentleman and for a second reason, that it would be against my instinct to know a person like him if I could have known him. But, by his own light, he might be a decent guy; most of them are from what I hear. As to the parking lot in Charlestown, I took a street car ride in that territory at about quarter of five, down around Bunker Hill street, and the streets in the neighborhood of the Navy Yard were jammed with automobiles, bumper to bumper. Now, it doesn't take any stretch of the imagination to say you could probably stand in the middle of several of those streets—I say probably—and touch the walls on either side with your outstretched fingertips. I often wonder what would happen down that way if we had a fire in the old tenements that have not been removed, the like of which supplied the murder scene for Mrs. Sheridan. The Navy Yard officials have wanted those streets kept free and clear for the ingress of fire apparatus in case of fire. At the self-same time that they make that request of the police, they want the Street Commissioner to allow unlimited parking for men who come in to work in their automobiles. That situation is entirely similar to being in two places at one time, which is a physical impossibility, much as it is impossible to have streets cleared and blocked up at a precise moment. The police owe me nothing. The police owe me less than nothing. The reason I was one of the eight who felt that the police alone should not be favored two years ago, for the good and sufficient reason that, if my memory is not faulty, Councilor Sullivan asked that the hospital employees be included in the order that Councilor Coffey filed. What is wrong with that? We have people out there working under trying conditions for little or nothing, who, if they don't take their meals there, don't get the money—or they didn't then. There is nothing inconsistent in that. Councilor Coffey said, in winding up his remarks, that if he likes a guy he is with him; if he doesn't like him he will speak clearly of him. I am entitled to that self-same position. I can condemn the police and reduce them to kindling, like anyone else can in here, when the police are at fault, but when they have done something meritorious, in spite of it being their sworn duty to do it, I don't know why anyone should object to giving them a little pat on the back. I am drawing completely on memory when I remember the fire that cost the lives of six men in a cave-in somewhere around November, 1942, two weeks to the day, I believe, before the Grove disaster. Six firemen were killed. I am drawing wholly on memory and I think I am right, when I say that Councilor Coffey commended the Fire Department for the excellent work at the time he spoke of the irreparable loss to the families of those six men. How long since the firemen are working for nothing? How long since they have been charged with less responsibility than the police? And no

one got up to question the merit of the order or resolution, that saw fit to speak in high terms of the men who lost their six comrades. Most of the Body that is here today was here in December of 1942, when Councilor Coffey offered that resolve. And what is worse still, if he didn't offer such a resolve, he should have. It is all very well to say we are getting paid—we are getting paid—there is a little more to public service than that. We are always talking about the inadequacy of the pay for public servants, including ourselves, and it ill becomes any one of us to say that men who solve brutal murders of this type should not be commended publicly by the responsible body of this city of which the objector is one. Then a final word about the good Congressman from the 11th district. I made statements here about Curley, and my tongue wasn't in my cheek. I made them in all sincerity. I ask all of you but Councilor Coffey to believe this; I don't suppose he will. I made them in all sincerity from the bottom of my heart, because I think, to use the slang expression, that he was getting what we call a "bum shake" and I meant every word I said on Councilor Hurley's resolution. I take no word of it back. Neither do I take back one syllable of any word passed between us at the Park Square Building, when I kept a two o'clock appointment with him on Columbus Day afternoon in 1941. If I were to die the next minute I could say that and have no lie on my tongue. You don't expect there would be a record of that, do you? You will find in a previous remark several weeks ago, that I identified the time and place, just as I did a minute ago—the Park Square Building, headquarters of James Michael Curley, for Mayor, at a two o'clock appointment on Columbus Day afternoon, 1941. And I didn't refresh my memory when the councilor took me to task about making misstatements about the good and genial James Michael Curley, as to Curley's hopes and desires to get back at me, as he phrases it, on another occasion. That is all very well. That is part and parcel of his political technique which cost him four major offices. It cost him the contest against young Lodge; it cost him the contest against Maurice Tobin; it cost him the contest against Saltonstall in 1938 and it cost him, again, the mayoralty in 1941,—the tactics of 1890 that won't go today. And if I were to know, beyond all peradventure of a doubt, that today was my last day on earth, I say for the third time, that those words passed between James M. Curley and me, in the Park Square Building, Boston, on Columbus Day, October 12, 1941, when I kept a two o'clock appointment with him. And as long as Councilor Coffey went into the contest itself very briefly, I will try and go into it very briefly my own self. He said that Tobin was Galvin; everyone knew it. Galvin was Tobin; everyone knew it. I told Curley I didn't want to wind up going in on his coat tails, and it appears that that is exactly what happened, because in the precincts where I got my lowest vote Mayor Tobin got his lowest vote. To give you the specific figures in Precinct 8: Curley 389 votes to 410 for Galvin. I got 157 votes and Tobin got 189. That is Precinct 8. And that shows you whether or not they voted Curley and Kinsella in the Curley stronghold. We then had seventeen precincts in Charlestown and the total vote is very revealing so far as we have got it: 5,900, right to the town, James M. Curley received. I received about 1,100 less. William J. Galvin received 4,600; and Maurice Tobin received 3,268. You can see now how much of a vote I got that was strictly Curley, but I do wish in spite of the fact, I suppose he sent that letter over his own signature—and this is no sop to Curley or any of his supporters, old or new, I wish him the best, and I mean it, gentlemen. I would like to see him absolved. I think it is a pity for a man to go out at the age of seventy, after having done so many nice things that he has undoubtedly done for the city and for the people. I didn't inject his name here, nor did I inject politics. That was thrown at me gratis, but I would be less than a man if I didn't make some effort to straighten out the record. The parking lot situation in Charlestown, as far as I am concerned, is a police matter. When the Navy Yard officials once make their minds up you can't park cars. You can't park cars and have vacant spaces at the same time. If the Charlestown people want to keep the streets clean they have to have the gutters brushed and clear of cars. You can't very well brush a section of the gutter that is parked with half a dozen or a dozen cars. That is a physical impossibility. And, incidentally, I hope this order doesn't go to Executive. It has not developed contention. No one else has spoken on the order, and, even though the objector is going to vote for it, I ask suspension of the rules.

Coun. RUSSO—Mr. President, just a matter of straightening out the record. I would like to call the attention of my good friend and colleague from Ward 1 (Coun. Coffey) and ask what he means when he tells about the police officer, "Just because he happened to be an Italian." I am only wondering how long it is going to take us to stop and realize that we are Americans, regardless of our race, color or creed, and I am only wondering why it is, whenever I get up to speak, because I happen to be of Italian extraction—of which I am darn proud now and at all times—that I have to be looked upon as taking sides because a person concerned happened to be an Italian. I have only stated what I have because the man had only been a captain for about a month or so, and the man that has been promoted to the position has concerned himself with two murders, one after the other, in addition to the other duties that are found in that position, and the solution has been brought about by apprehending the individuals who have committed the crimes. I say that we ought to commend that person, not on account of his race, color or creed but on account of his being an American, that he has fulfilled his duty. I stated that I would be the first one to criticize any individual in any department if they needed to be criticized. But I want to praise them when they need to be praised. We are all Americans and I say that the man who has no pride in whatever country he sprung from, has no right to be protected by our Stars and Stripes if he has taken the Oath of Allegiance to our country. But we have nothing to say and nothing to do, in so far as our race, color or creed is concerned. I say that I was born in Italy, came to this country when I was eight and a half years old, have been in the country for thirty years, and I bow my head to no one, whether he be the President of the United States or whether he be the poorest and the lowest individual. I am proud of the fact that I took the pledge of allegiance and I cherish that in my heart, and when I get up to speak I am proud first, to be an American, but I shall be proud of my ancestry until my dying day. So let us be not confused. I do not wish to eulogize any individual because he happened to be of any extraction that I might be in favor of, but I will admire the person, respect him and give him credit in such a case as the case that has presented itself, in the solving of these two murders, that the ones that have committed the crime have been apprehended, regardless of what the clues were. I wish to state here, I wonder how many crimes would have been solved if it hadn't been for the individual that committed the crime having broken down, or where someone else who had knowledge of the crime came forth and gave whatever information they had. I wonder how many criminals would have been apprehended if it hadn't been for those facts?

Coun. COFFEY—Mr. President, first, answering the gentleman from Ward 3, I still reiterate the only reason for his coming into the argument is that the captain over in Charlestown happens to be of Italian extraction. When I mentioned that the councilor from Ward 3 (Coun. Russo) brings out the fact that we are all Americans, he knows I know that, just as well as he knows it, because I represent twice as many Italians in my ward as he has in his ward and in my last contest against DiSessa—his last fight in the Senate contest, look up the vote in the Italian precincts and you will find I carried two to one over the gentleman from Ward 3. So I know what I am talking about. Catch us all flatfooted and say, at a moment's notice, "What nationality are you?" and it will come out, "I am Irish, Italian—" and a moment later you will think and say "No, I am American." That is only natural. Sure we are all Americans. I think I have done as much as, if not more than, the gentleman from Ward 3, for the Italian people of Boston, and it is only natural I should, because I have twice the Italian population in my ward as the gentleman from Ward 3. Now, bringing in DiSessa's name, I never mentioned it until the gentleman from Charlestown mentioned it and said that his son almost unseated me. He almost unseated me 400 votes, which is a hell of a lot of votes. I was almost unseated before that with thirteen votes, and I am even getting a little stronger, so I think I am doing all right. But I brought out the fact in my ward where every horse room and number racket was operating, and I did not use any stool pigeons. And I can be in two places at one time because I do have a lot of time, because I don't hold two jobs like the gentleman from Charlestown does, up until he lost his \$60 job in the Navy Yard, employed by a private contractor, the contractor thinking he might get more contracts with his being kept on the pay roll

which he was for quite a length of time. It wasn't under Galvin I introduced the order telling about the hundred-million-dollar ring in Charlestown. It was while he sat next to me, and he never opened his mouth one way or the other. And, as I said before, the facts were brought out when the investigation was made by the Attorney-General, and they did find a ninety-million-dollar ring operating within a stone's throw of the police station in the Charlestown district, where the gentleman on my right comes from. But he did say in his speeches, when he was running against Galvin, when he was elected, that O'Neil was the czar of the racket men in Charlestown. But he wasn't in office a month when he was friendly with O'Neil, the so-called czar, according to his own statement on the public platform in Charlestown. Time and time again he made that statement, that he would drive the racket men out of Charlestown if he was elected, but I notice they are still there and still operating and will continue while he is councilor from the district because he will do nothing about driving them out. At least I have come here and named names and places and named them in Charlestown and West Roxbury and Roxbury and other sections, and especially did I name them in my own ward, and I have closed them up, not because the police wanted to, but because of the fact I brought public attention to the fact that these places were operating. Now, the parking space situation over there in Charlestown everybody knows is a joke. Everybody knows if you park your car on the street you are going to be hauled into court and fined \$20, so there is only one thing for you to do,—park your car in a parking lot and pay a couple of dollars a week of the money you go in there and sweat and earn. And when the Traffic Commission saw fit to set aside certain back streets in Charlestown, where there aren't any property owners, to allow defense workers to park, the gentleman from Ward 2 (Coun. Kinsella) went before the Traffic Board and demanded they take those parking signs down. He said they were making \$90 a week and could afford to spend 15 cents a day to keep their cars in parking lots. That statement came from one of the men who represents the machinists' union in executive chamber of the Boston City Council, and the street signs were taken down and the poor suckers over there have to go back in the parking lot and pay \$2 a week, or go into court and pay \$20 fine, which they can ill afford to pay. Now, since Captain DiSessa has been brought to the front, and politics have been brought in—DiSessa is no fool when it comes to politics. He has played Governor Saltonstall and gotten a payoff because Saltonstall, through his stooge Lupien, allowed Captain DiSessa to go from No. 13 on the list to No. 6 and Sullivan wasn't appointed long enough to know where the Police Headquarters was before DiSessa was the one appointed captain and given the Charlestown district. It stinks with politics, the Police Department. Only a few weeks ago I said that 90 per cent of the cops were with Saltonstall. Why doesn't he give us home rule? He can do it in the incoming Legislature if he has the guts. Let us run our own racketeers out. Let us be our own bosses. And if Bushnell decides to step in and take any of these racketeers, let Saltonstall quit and not force Bushnell to quit. He is supposed to have taken moving pictures of the police taking graft. Where are those pictures? He was supposed to have all kinds of testimony, including people that worked in the Court House, testimony of Sagansky, and offer such a small sentence, and get people to testify. Saltonstall is responsible for every rotten condition that is going on in Boston because he is in control of the Boston Police Department. Let him give Boston home rule. The only reason he kept Timilty there was because he was forced to keep Timilty there. Don't let anybody "kid" you that the blueblood from Beacon Hill is the type of man who wouldn't stoop to do anything wrong. Racketeer after racketeer in this city have spent thousands of dollars backing Saltonstall because they knew he wouldn't force Timilty's hand, and now he makes another appointment. A man who before the Executive Committee made a statement that "Salty" was a great guy. He never knew Timilty was going to be removed; he had no idea. You can imagine, after getting this appointment for seven years, he is going to do his utmost to keep the Police Department 98 per cent Democratic! He is going to keep them in the Republican ranks. I blame Saltonstall for every rotten condition in Boston. I blame him for the unsolved murders and I will have lost my faith in the Attorney-General if he quits cold to get back in the good graces of the Republican Party so he can be elected again. I think it is high time the Democrats got together. We can wipe them out.

I had an example on St. Patrick's Day at the parade when it could truthfully be called Orange Day parade from what I saw, wearing big ribbons and marching along to the applause of the few Irish that are left—and I say "few" because after what I have seen take place there, the Irish people are thinning out fast in the City of Boston, and if something isn't done in a few years they will all be Yankees. Every Democrat in the state is afraid to run this year against the Republican Party because of the bootleggers that are serving up on Beacon Hill that invite these people to the kind of affairs they have no right to be at. I don't condemn them, but I don't think it is the likes of my kind that should invite them there, telling people what great guys they are, eulogizing them to the skies, and one little rat up there says so-and-so is a good fellow and that so-and-so goes up there into a high political office. God help him when he goes up there, because he will be thrown out of the State House if he is seeking a job. I know from the old days, in 1929 and 1930, when Leo Birmingham and Frank Jones and the rest of us were there. You couldn't get in a bill, whether Democratic or Republican. In the last Legislature you couldn't get thirty men to stand up for roll call to force the matter of Suffolk Downs and the old age pension, and because of the failure of those thirty men to stand up and get a roll call, every dollar of that would have gone to old age pension instead of into the pockets of those running Suffolk Downs. It is the money the people failed to claim on winning tickets that year. I am sick and disgusted with all this hobnobbing around with them. I will give credit where credit is due, but I can't see any credit coming to the Police Department in solving a murder two years old when they have other murders to spur them on and by some act of God they go down and a girl squeals she is attacked. Let us be honest and let us talk facts and not talk double talk.

Coun. TAYLOR—I move the previous question.

The PRESIDENT—The question is on suspension of the rules.

The resolution was read a second time and passed under suspension of the rule.

"CLEAN-UP" CAMPAIGN.

Coun. TAYLOR called up, under unfinished business, assignment No. 1 on the calendar, viz.:

1. Ordered, That a sum not in excess of five thousand dollars be, and hereby is, appropriated to be expended under the direction of the Mayor for printing, advertising and other expenses involved in the 1944 "Clean-up" campaign, said sum to be charged to the Contingent Fund, when established.

The question came on the passage of the order.

Coun. CAREY—Mr. President, one week ago today I voted against this order. That I intend to do again today. And I was sorry to know that as a result of my opposition to the order last Monday the Mayor of the city saw fit to publicly criticize me for voting against his request. In other words, the Mayor of Boston said to me and to those who voted along with me last Monday, against this appropriation, that I have no right to my personal opinion. If the Mayor wants to dispute that right, I suppose that is his privilege, but it is the right of every man and every woman, whether they hold public office or not, to have and to express their own opinion. And I have been more than pleased during the past week, at the communications that I have received, not only from Ward 10, the ward that I represent in the City Council, but from Ward 3 and Ward 5, from South Boston and Charlestown, from East Boston and Dorchester, from Allston, Jamaica Plain, and every section of this city, commending me for having had the courage to exercise that right that God gave me, and that right that was invested in me when I was elected by the people in my district to come here and represent them, not for one term, not for two terms, as was customary in Ward 10 but for the third and the fourth term. So, in so far as that particular phase of the question is concerned, I am going to rely on the good people of Ward 10 who have faith in me and in my judgment on matters that come here before us as members of the City Council, to question as to whether or not I am acting in their interests, their best interests, and the best interests of the City of Boston, when I see fit to hold up an appropriation such as was asked for here last Monday. We don't need \$5,000 to tell the people, not only of Boston, but all over the country, and in points beyond the shores of this country, that Boston is filthy. We know it and we have known it and there is no member of this Body who has asked on more occasions than I have that men and money and equipment be furnished to clean up the filthy streets and the filthy conditions that have been existing here in Boston for a long time. We don't need reels in the theaters telling the people of Boston how to be clean. I say it is a pitiful

age, when the Mayor of this city has to use the moving picture theater to tell the people that Bostonians are dirty. Bostonians are clean. They can take care of themselves. They always have. But when it comes to dirty conditions, filthy conditions, in our streets and alleyways, people of the city have to have cooperation in order to remove those conditions. I have constantly asked that something be done about it, not only in orders in this Council but if I had the Public Works Commissioner here now he could well tell the members of this Council and the people of Boston that on innumerable occasions Councilor Carey has asked that equipment be bought, that men be supplied, not only to clean the streets of Ward 10 but the entire city. Why the Mayor saw fit to publicly criticize me, I don't know. There is nothing I have ever done, excepting to act here with the God-given judgment that came to me when I came upon this earth. I might be independent; thank God that I am. I intend to stay that way. And there is no individual, be he Mayor of the city or anyone else who is going to steer me into voting against that God-given judgment. When I think I am right I intend to stand my ground. All you have to do, not only as a resident of this city but as a visitor of the city, is to go around this town and see the filth and dirt for yourself. I like clean streets, definitely. They are an asset to any community. I have my right here, the right that I intend to keep, to express myself and to call things as I see them. It is a splendid thing to go along with the Mayor of the city. I would like to cooperate with him, and, upon his own admission, not in one instance have I been unfair with him. In the little over six years I have served here—he and I came into the city administration at the same time—I have always tried to cooperate with him, and I dislike this criticism that is most unfair. I am over seven years of age, and I am able to exercise the judgment, the sensible judgment, that I feel I possess. If the Mayor of Boston feels that an advertising campaign is necessary, that is going to cost the taxpayers \$5,000, and I don't—then we should be allowed to differ without public criticism. But I can well imagine in these days, especially, of paper shortages the necessity of conserving all kinds of waste paper, be it newsprint, pasteboard or whatever you might call it, and yet we find that a great deal of this \$5,000 is to be spent to print 130,000 pledge cards. I have had some experience in political life, not only on my own account but on behalf of other candidates in whose interest I worked, and I have found it to be my experience that pledges do not mean a thing. It is an easy thing to make a pledge. It is a far different thing to keep it. We don't need to advertise this condition. We need clean streets. We need clean alleyways. I have confidence in the people of this city, that if they are given men and given equipment, if they are cooperated with in having regular collections, regular sweep-ups, a little more broom and a little less posterage, that the streets will not attract the criticism that they have in recent months,—as a matter of fact, in recent years. I want to see Boston clean. I represent the city and the City Council. I am proud of the city. I want to do everything I can to help this city, but if we are going to spend \$5,000 of the taxpayers' money, let us spend it in a way that is going to bring about the purpose for which it was intended, to actually clean and clear away the filth and make Boston a city we will well be proud of.

Coun. FISH—One week ago today I stood here as an individual. I exercised the right which the people invested in me when they elected me to the City Council, the right of using my own judgment. That judgment was probably criticized. Today, after talking with hundreds of people during the past week, I speak principally for them and possibly repeat some of what I personally said last week. I wonder if the same criticism will be forthcoming tomorrow morning to the people. Last Tuesday morning, through the medium of the press, the people of my district and of Boston as a whole were told that I was not acting in their best interests. This was told to them by the Mayor—and all because I questioned the advisability of spending \$5,000 of the already overburdened taxpayers' money to allow him to be portrayed in a motion picture throughout Boston as a recent exponent of cleanliness. \$5,000 may not be much to him, but it is a lot of money to the home owners who pay the bill. There are some in this Council who have so firmly attached themselves to this, if I may say so, "\$5,000 Hollywood star" that they will undoubtedly rise to their feet and possibly tell you that it is only appealing to the people to—might I say—keep clean. May I say to them, in return, "Why does he now, after six years, feel that he has to spend \$5,000 to appeal to the very people who, during that same period of time, have in vain pleaded with him for the same purpose?" Let me say to him, neither his censure nor the various editorials which have appeared in the press during the past week have given me any reason to change my opinion. On the contrary, my convictions have been made much firmer during the past week by the hundreds of people with whom I have spoken. I am now more convinced than ever that I am on the right side, of the people. It isn't me that they have censured, but rather the Mayor. Some question his true motive in this advertising expenditure. A great many have accused him of going Hollywood at their expense. Others say "What heights has he reached that we should pay

admission to hear him talk on cleanliness?" Still others say he has traveled so fast and often that he hasn't had an opportunity to see the filth of the city which he leaves behind. There may be a great deal of truth in what they say, but I say, Mr. President, for six years he has blinded himself to the conditions of the city which has been so fair in its treatment of him. For six years he has repeatedly ignored the pleadings of this Council and of the people to clean up Boston. Now, only after a public protest by the press—a meeting of indignation by a large group of women who recently stormed City Hall—and I may add, the recent order which I introduced here strongly indorsing the "Cleanup campaign"—does he decide not to do anything, not to provide ways and means of doing it, but to take to the moving pictures and the billboards to advertise it. You probably excuse yourself, Mr. Mayor, under the heading of "Economy." But where is this mysterious economy of which you speak? Is it hidden in a \$41 tax rate, high municipal budgets, high valuations? Or is his idea of economy to prevent underpaid city employees from getting a permanent raise to meet the rising living costs. Are they the only ones to plead economy, while at the same time—and I want to read this one right—while at the same time one department head getting \$7,000 is allowed \$5,500 for a position in another department. Are you being fair with the people of Boston, Mr. Mayor? Either you or Mr. Frank W. Buxton, former chairman and present member of the Library Trustees of the Boston Public Library and the editorial writer of the Boston Herald—either one of you is wrong, when Mr. Buxton editorially states, in substance, that more money is spent for far less useful projects. By right of the City Charter, Mr. Mayor, you have the sole appropriating power, and if Mr. Buxton is right you are alone to blame. What right has any department head to spend or obligate the city for money that has not already been provided and allocated for the specific purpose? Would you not censure them or take them to task for doing this? You should. Only last week you sent a request for \$5,000 to this Council. It wasn't granted, and if I am to believe the papers, you, yourself, are guilty of ordering this \$5,000 spent before it had been properly allocated and provided for that specific purpose. What special privileges do you enjoy with the taxpayers' money even if you are the Mayor of Boston? And what would you do to meet these bills if you should suddenly lose your present hold on the City Council? No, Mr. Mayor, the people don't want you to remotely tell them of the dirt and filth of our city. They already know it. But what they don't know, and would like to have you tell them, was why, with improvements curtailed, with no permanent increases for the city employees, why, with a \$41 tax rate, with the highest budget in the history of our city, with high valuations, why they could not expect to have at least the gutters cleaned for them? Other Mayors did it, even when the tax rate was \$20. I think the people would like your answer, Mr. Mayor.

Coun. CHASE—Mr. President, I don't think his Honor the Mayor is asking for an excessive amount of money, nor do I think he is asking for a very unusual thing. After all, Mr. President, his Honor the Mayor is the Chief Executive of the city. It behooves him to take every reasonable means to properly conduct municipal business. The Public Works Department and the Health Department and other agencies of our government are endeavoring to carry on their particular functions as best they can under adverse conditions. As I understand, both of those departments are undermanned to a certain extent, not due to the unwillingness of his Honor the Mayor to have them properly equipped but because of the shortage of manpower. I know the Public Works Commissioner and the Health Commissioner, as far as I am concerned, have always responded to my cry for assistance in cleaning up any sections of my area, and they have done so gladly and willingly. But, Mr. President, as I see it, his Honor the Mayor is asking for this money to educate that portion of the public, whoever it may be, to cooperate with his municipal agencies in cleaning the city up. That is not an unusual request, Mr. President. The city of New York spends many more thousands per year in endeavoring to call to the attention of the public the need for full cooperation in maintaining the city in a clean manner. I sincerely hope, Mr. President, the City Council will see fit today to pass this appropriation. It is a reasonable request, and I feel certain it will be put to good use and that dividends will be returned to the citizens of Boston, to the taxpayers, by the expenditure of this money. I am sure that the money will be properly expended, be spent to educate the public to the need of their full cooperation with the municipal authorities to clean the streets, the alleys and everything else that requires cleaning. This money will be spent for the purpose of educating the public as to the results of uncleanness, as to the many diseases that are caused by uncleanness. And I may say at this time, Mr. President, that I hope particularly that his Honor the Mayor, in his advertising campaign of education, will ask for the full cooperation of the citizens to do something in order to abate the rodent menace which does exist in this city. I fully appreciate, Mr. President, that certain offices of our agencies are undermanned, and that some time in the future his Honor the Mayor, when the opportunity

presents itself, will see that they are properly manned. But in the meantime let us cooperate with his Honor, let us go half way with him, and give him an opportunity to prove what he contends and that is that this expenditure will be spent so as to give dividends to the taxpayers in helping to cooperate in maintaining a clean city. I trust, sir, the order will be passed.

Coun. BAYLEY—Mr. President, I am very strongly in favor of this drive to clean up the City of Boston, not only to make it a bright and shining city by Easter but to keep it so throughout this year and every other year. I, too, have been in contact with the people of my ward, which, as most of you know, is one of the largest taxpaying wards of this city, and they are very much in favor of this drive and this appropriation to help in this cause. They contacted me and have instructed me and asked me to vote in favor of it and I am going to do so. But before we pass on that, I wish to commend those who have brought public attention to this drive. I first wish to commend the newspapers for their cooperation and especially the *Herald-Traveler*, which has undertaken a campaign. I do commend the editorial writer, Mr. Buxton, and Miss Katherine Coyne, and I especially wish to commend the women's organizations and more particularly the Public Affairs Committee of the Women's City Club, that have done so much to push this drive and bring it to the attention of the people; and, third, I wish to commend the Mayor for his part in this drive. We have excellent people working in the Street Cleaning Department who need the cooperation of the citizens. This is one way we will further get the cooperation of the citizens. \$5,000 isn't a great amount of money to spend in view of the benefits to be received. So, Mr. President, I hope the City Council will show that it is in favor of a clean and shining city by Easter and will pass this order.

Coun. RUSSO—I rise to speak on this matter not in defense, in so far as the Mayor of the City of Boston is concerned, but rather on the situation that does exist, and conditions that exist in our city today. I am in favor of this campaign, as I stated last week. Not only should it be for two weeks, but it should be for the whole year round. The Sanitary Division of our city naturally needs the cooperation of the people, and the people need the cooperation of our Sanitary Division. One against the other, we can't accomplish what we set out to do. We need cooperation of both and still both are one, because who is the city and who are the people but a united whole? I wish to remind his Honor the Mayor to stress upon, in cleaning up our city, the individuals who have businesses in our city and don't live in our city. There are individuals who have business in our district and don't live in the district. If they cooperate we can and we will get a better and cleaner city. That is a very important argument, Mr. President, because I maintain that if the people whom I represent are not cooperating I will be the first one to tell them that they ought to cooperate, because I know that there are good and bad in every district. As I stated before, I am sure that if the people who don't live in the district but have businesses in the district would just cooperate a little bit there is no question in my mind but what we could have a better and cleaner city to live in and then if the Sanitary Department does not cooperate I will be back on my feet asking that department why they are not cooperating. I do hope the order will pass.

Coun. FEENEY—Mr. President, last week I was one of the members who voted against this \$5,000 transfer order of the Mayor. I made no comment at that time because I felt that the position I took had been ably brought out by previous speakers in the Council who likewise objected to this \$5,000 order. However, I did vote against it. I did so, Mr. President, with good and solid reasons. The Mayor sent this order, this communication, in to us in the form in which it is listed in the Council Minutes. He failed, or refused to submit a cost breakdown of the estimated expenditures. The least he should have done was to offer a reasonable explanation as to just how the money was to be spent. Now, I am against giving the Mayor a blank check whether it be Mayor Tobin or any other Mayor and as far as I am concerned, this communication from his Honor represents nothing better than a pig in a poke and I will take no part in playing blind pig with the people's money. Now, Mr. President, the Mayor made an unwarranted and uncalled-for attack upon the members of this City Council. And that attack, sir, has reflected against the integrity of your Council and has held it up to public ridicule. Why he did it, I don't know. Certainly there was no justification for it. I have tried to come to some conclusion as to why he made this statement or the charge that we voted against the best interests of the people. The only conclusion, sir, that I could come to was perhaps that his pride was hurt, perhaps he was deeply wounded by our opposition,—pride that he thought he could come into this Council with any kind of an appropriation order for any amount and get it. It is common gossip, it has been before I became a member of the Council, and I presume it is still common gossip, that it has always been the Mayor's pride and boast that he holds this City Council in the palm of his hand, that it is a docile and subservient group of men, that he can do with it as he wishes, and that since he has been Mayor of

Boston he hardly knew there was a City Council in Boston City Hall. Well, the day of that boast is over. This is not a subservient or docile City Council. We are going to scrutinize every order that he sends in here for an appropriation of the people's money. We are going to see to it that there is an end to the extravagance and to the waste of this administration. It is true that Boston is filthy but the Council is not responsible for it. It isn't our job, individually, to clean it up. We haven't the administrative power to order that it be cleaned up. Yes, Mr. President, it is true, too, that we have a sky-high tax rate and a stratosphere budget and we are not responsible for that, either. We don't set a tax rate, we don't make up the budget; we don't originate the appropriations on the loans, on the transfers. That prerogative, sir, is the prerogative and the right of the Mayor, and of him alone, and nobody else. He gives the orders. He prepares the budget. He determines the policy of the city, and he spends the money. We haven't the power to originate the appropriation of a single dollar. We haven't the power, sir, to spend a single penny of it. He has been elected to govern the city, and that and the cleaning up of the city are his specific duties and not ours,—not just for a campaign drive but fifty-two weeks in the year. If the city is a going organization he gets the credit for it. If it is filthy and decadent and run down, as it is now, that is to his credit also, not ours. We didn't block the cleaning of Boston's streets here last week. We couldn't do it, sir, if we wanted to. But what we did do is this, we blocked an attempt to steamroller through this budget a \$5,000 pig in a poke. That is what we did, sir, and I think every member of your Body who voted as I did, is glad that he did and will repeat that vote again today. I can't recall hearing the mayors of the cities of Quincy and Brockton and Cambridge and Newton asking their City Councils to appropriate \$5,000 to educate their people as to the virtues of cleanliness. Of course not. We have had drives, sir, educational programs, during recent months in the city. We have had aluminum and scrap metal drives and have been successful. The newspapers cooperated with the officials in charge of these drives. The drives went over the top without any appropriation or cost to the taxpayers. We have had tin can drives and scrap rubber drives—yes, and drives for clothes for the Russians and for Britain and never an appropriation. Right now we have a waste paper drive. And they have all been successful, and I have reason to believe this one will also be successful. Yes, Mr. President, Boston is filthy and this City Hall is neglected and downright filthy personified, and there is not a person who comes in here that can deny a single word of that. Go out to Commonwealth avenue, Mr. President, and view the statue of one of the greatest Mayors Boston ever had, Patrick A. Collins. Go out and view it for yourself and see how the inscription is practically obliterated with the dirt and corrosion that cover the entire memorial which was established by the citizens of this city many years ago to commemorate a great name. Go out to Boylston street and see the statue out there of John Boyle O'Reilly,—a disgrace to this administration. He doesn't have to educate the people to clean the statue of John Boyle O'Reilly and Patrick A. Collins, or this City Hall either. Let him see to it that the job is done. He was elected to do that job, to see that the city was kept clean, among other things. Is it any wonder, Mr. President, that this city has become decadent, when the administration has so badly neglected its duties in the matter of cleanliness. It would be interesting to know just how many people in this city have been treated at the Boston City Hospital for eye ailments due to foreign particles of dust and dirt being blown in their eyes from the filthy streets of the City of Boston. I think, Mr. President, in the future the Mayor of the City of Boston will conceal his wrath when the members of this City Council see fit to disagree with him. We were sent here by our people in our respective wards to think for ourselves and act independently and not be rubber stamps for the administration. He has to expect that this Council has to act and think for itself and is not going to be sent back to vote for orders like this, just because the order is transmitted over his signature. I hope, Mr. President, that in the future Mayor Tobin will accept the responsibility for the run-down condition of Boston and the filth that covers its streets and public ways and that he will not attack us as a subterfuge for his own failure to do the job he was elected to do. I hope, further, Mr. President, that you and the members of your Council will join with me in giving the people of this city a break and stopping this extravagant and foolish spending of the people's money and defeat this \$5,000 raid on the city's treasury once and for all.

Coun. DWYER—Mr. President, I, too, was one who was publicly criticized by his Honor the Mayor after the meeting of last week. Mr. President, in my length of service in here I have never stood on this floor before and publicly criticized his Honor the Mayor. No matter whether I differed with him or not, I have never arisen to criticize him publicly. And, Mr. President, I think his criticism was most unjust because the facts were not stated. I voted to give his Honor \$1,000, which I thought was ample, but when he singled me out and said that one member by not voting didn't work for the best interest of his district and the people of the city—ah, Mr. President, the people of my district

elected me to judge by my vote, on the casting of my vote, what is for their best interest, and not his Honor the Mayor. And I hope, Mr. President, that his Honor the Mayor, after I vote today, and I will vote against this appropriation of \$5,000 today, will see fit to mind his business and not criticize me publicly and force me to criticize him as I am about to do now. I say, Mr. President, there was a story that appeared in one of the leading evening papers last week, stating what his Honor the Mayor said he would get. He claimed he would receive this appropriation this week from the Council, and, knowing that, he was ordering his department heads to go ahead with this work, and spend the money—well, I say, Mr. President, his Honor the Mayor should be ashamed if he made that statement, because, as Mayor of Boston, he knows and he knows well, sir, that under the charter he has no right to order this money spent until it is voted by his Council, the transfer that he is requesting today. And so, Mr. President, I publicly criticize him, sir, if he had made that statement and I hope, Mr. President, that this order will be defeated.

Coun. MUCHNICK—I intended to move the previous question.

Coun. HANLEY—I believe that the order should be tabled.

Coun. KINSELLA—Mr. President, I hope the gentlemen who objected will be good enough to extend to me the right to object to their reasonings. I wasn't here last week and for the life of me I can't recall having read it, but it was quite likely I was in conversation with somebody and so didn't hear it. However, it appears to me, if the Mayor was a little intemperate in taking the gentlemen to task in the manner in which they have spoken they are in their rights when they feel offended. But it appears, on the second reading of the bill, the matter has become more or less personal and it is a pity that the gentlemen would interpret it that way. However, I am firmly convinced, and I hope I am not wrong, that the same gentlemen who speak in opposition, Councilors Carey, Fish, Feeney and Dwyer, will be exactly what I always thought they were, men enough to change their opinion, if there is sufficient reason for it. To begin with, we spend many dollars more than \$5,000 for less meritorious projects. The Mayor didn't experience any great difficulty recently in getting \$75,000 for a survey of the schools. I will grant that the gentlemen who opposed the \$5,000 were, in the main, against the \$75,000, but that is entirely beside the point, as the self-same Council is made up today as it was then in its personnel, so just by the skin of its teeth and by that alone he got what he wanted. I didn't vote for it. I listened to argument against it for four hours. Now, I have listened for almost an hour to some of the best reasons for it. It breaks down to a ward expenditure of about \$227. In other words, pick any ward at random and the average cost for cleaning that ward up by way of advertising, not physical work, is about \$227. And yet there isn't a ward in the city that hasn't a few million dollars of valuation,—any ward, any one ward, more money than others; but the meat of the whole matter is the second point I have jotted down here and I don't like to be too critical of anybody no matter where they come from. But I would blame much of this on the transient population that comes into Boston and litters and dirties up the streets of Boston and then goes back to the suburbs without any responsibility of keeping the place clean and there is no legal means at our disposal for attaching them as a community for the dirt and filth they bring in. I ask any councilor to follow groups of transients that come up on foot from the North Station and watch them discard their newspapers. They throw them in the gutter, in doorways, lay them on windowsills. I have seen it repeatedly. I haven't been slow in condemning the children when we were discussing juvenile delinquency for tipping over ash barrels and conditions such as that, but not all the blame is the children's; much is that of the adult population. You know as well as I do that the harmless and disused cigarette or cigar butt thrown into the street—I grant we can't have cuspidors on every corner—but with hundreds of those thrown away every day it adds to the problem. Who throws them away? Do just Boston people throw them away? Not them, and them only. Many, many of the million and a half that come in here to work, shop or play every day in the week, and that is why it is necessary to impress upon them the necessity for cooperating with the people of Boston who, as Councilor Carey so aptly said, are clean and want to be cleaner. Councilor Feeney made a pertinent observation, and I would like to dwell on it for a moment. He said we are not expected personally to go out and clean up. No, we are not. But neither are we expected to hamstring the efforts of those who want to clean up. And I use the word "hamstring" advisedly because it is the best word that comes to my mind at the moment. "Obstruct" might be a better word. Now, Mr. President, no one is going to get rich on the expenditure of \$5,000 to advertise something that otherwise could not be brought to the attention of the offenders. I will ask every councilor in this Body to call a house committee meeting in his ward and I will tell you the type of people that will show up, and I will tell you about the size of the room that you will need to house them for the short time they are asked to be there. You won't need a room as big as this chamber. The only ones that ever show up are the ones that are clean in mind and action, habits

and behavior. The dirty ones never show up to have their guilt and their faults pointed out to them. I know, because I have attended those meetings. I think these gentlemen that object are altogether in the use of any shallow reason. I am going to be a little concerned and amazed that the reasons I have advanced are not sufficient for the man who is not personally biased and I charge no man in here with personal bias. Councilor Carey, at the outset made the remark, said something about having come into the administration on the same day that the Mayor came in as mayor. That will be January, 1938. And that he had consistently and persistently advocated a broader Sanitary Division with more men. Am I right, councilor? It may well be that in the early days of Mayor Tobin's administration—and Mr. Tobin doesn't own me any more than he owns Councilor Carey, let that be understood, please. I could condemn him right to the lowest if he is wrong, and I will; and when he is right I think he ought to be defended. In the early days of his administration, 1938 and 1939 and 1940, up to the end of June, 1941, Mayor Tobin had access to thousands of W. P. A. and Welfare help, amply distributed around the various wards of Boston, to do nothing but maintain and perpetuate the street cleanliness in those various wards. So great was the number of men that the ordinary city laborer who was on Civil Service was given charge of gangs of men, numbering in each gang from twenty to fifty, and every man here knows that. And then in 1941, on June 27, when the appropriation for country-wide W. P. A. was cut from the customary billion and a quarter to something like \$875,000,000, Massachusetts alone suffered a cut of 23,000 workers, the bulk of them in Boston,—the bulk of them in Boston. Shortly thereafter we went into the war, some five months later. In the meantime, defense industries had been mushrooming into growth, and many, many, many of those men, often of very poor physical condition, went into defense work and are still there. How can any reasonable person, taxpayer or property owner, or any type you wish to put him, expect the city to maintain services today that requires a greater number of hands that are not available? It is not reasonable. You can't have light and darkness in the same place at one moment. You can't have a scarcity of labor and an over-abundance of labor at one time. If you can, I would like to know by what alchemy you do it. On the 9th of April, this year, something has been said by the councilor from the Back Bay about cleaning up the city, and keeping it clean beyond Easter. That is one of the finest conditions we could wish upon the city, but unless we drive it home forcibly to the guilty parties who caused this mess, by the way of advertising, we will never get the cooperation of the people who come into the city and make their living here, in many instances. And it is too bad we can't suspend the vote for another week and let each one of us watch the didoes of the ones on the way to the office in the morning, discarding their newspapers—and one newspaper, when it blows about, can give any one man all he can do in gathering it up, and it gives the street sweeper just as much trouble. I would just like to appeal to these gentlemen who objected and ask them out of a sense of justice and civic pride in the city, to go along with the order.

Coun. CAREY—Mr. President, I deeply appreciate the remarks of the councilor from Ward 2, but I want to tell him and his Honor the Mayor that neither he nor the Mayor need appeal to my sense of civic pride in voting to withhold the waste of \$5,000 of the taxpayers' money in such a foolish and useless manner. I have always had civic pride, and before I came to the City Council, I was amazed at the remarks of the councilors from Wards 3 and 4. On more than one occasion, if I recall correctly, the councilor from Ward 4 has taken the floor and told not only the Council but the people of Boston of the filthy conditions in the alleyways of his district. Now he is going to set aside the people who sent him here to City Hall and tell them that they are ignorant and it will take the Mayor of the City of Boston to tell us how to be clean and how to keep your alleyways from being filthy. The councilor from Ward 3 until very, very recently, would almost put his hand, or his fist, through his desk in the bitterness which he used in describing the dictatorial attitude of the Mayor of Boston. I wonder what has happened in recent months that has turned over so completely the attitude and the judgment of the councilor from Ward 3. He took the floor here a few weeks ago and told about the filthy condition existing when the people were coming to visit him, I believe, at his home at Christmas-time, and how ashamed he was to have those people come into his neighborhood and find filth that had not been collected, dirty streets, full of litter and garbage. In one breath he blames the sanitary officials and the employees of the Sanitary Division, but in the next breath he blames the people who visit and the people of his district. I wonder who is to blame? But it certainly is amazing to see the dictator of a few months ago be glorified so much on this floor today. Boston has always been known for its culture and its cleanliness. It has been known, world-wide, as the Hub of the Universe. But at the present time we have a Mayor and I find out today members of his Council—who, through the expenditure of \$5,000, want to tell the now ignorant people of Boston, in their minds, how to be clean,—I suppose badly and from a sense of civic pride. Well, I think the people of Boston

are as good today as they were before the present Mayor took office and before those members of the Council who now try to lay the blame at your feet took office. And I think we owe a debt of gratitude to the so-called transients who come into Boston day in and day out and who do their share to maintain this city. They eat here and they shop here. They come to the moving picture houses here. They certainly do their share in keeping, or, in other words, having tried to keep down the present exorbitant tax rate. I think we should welcome them instead of blaming them in the manner they have been blamed today,—not to point the finger at them and say, "If it hadn't been for you Boston wouldn't be dirty." The people of Boston and the people who come to Boston to spend their money here and to maintain our city clean, they are cultured and they are not ignorant. All they need is cooperation. I don't say the Mayor needs it, but those people need cooperation, especially those who live here, so that when they put that ash barrel or garbage container out they may be certain that it will be taken away. No, it isn't the people who live here or the people who come here to spend their money who are ignorant. They are still cultured, still as good as they ever were. We owe them thanks. Let us do something for them. Let us clean up the city, Mr. President. In this instance here, not a five-cent piece is to be spent in physically doing that job. Of course the filth and the dirt has been well advertised. The press has done a splendid job and I think also, as a matter of fact, it might be well if we introduced another resolution here today, thanking the press and the women's organizations for having brought the filth and the dirt to the front. They are the ones who deserve some thanks today. Many of the members of this Council have had orders here asking that the dirt and the filth be cleaned up, but our requests, to a large extent, have been ignored. But it took the press and it took the women, some of whom visited this building, to make the demands and to bring out the picture in the light that was necessary, who now ask that something be done about it. But let us take that \$5,000 and do something with it. We don't need to further advertise the condition that is existing and that has existed for a long time past.

Coun. DWYER—Answering the gentleman from Ward 2—and I am sorry that he is not in the chamber, or I don't see him, to hear my remarks—I want to say that I am big enough in stature at all times to be fair on any matter that his Honor the Mayor sends up here, and that is why I voted to give him \$1,000, Mr. President. I bent over backwards when I cast that vote, because I think, Mr. President, along with what Councilor Carey has just said now, not one cent is needed for advertising this program. Although Councilor Carey has covered all the ground very well in the matter, I am not going to delay this Council meeting of this vote by going into it, but, Mr. President, when the councilor said that a matter of some \$200 would be spent in each ward to educate the people of the ward, well, Mr. President, the only word of criticism I heard of it, in the entire thing, as far as I am concerned, was by his Honor the Mayor. And I want to inform the councilor from Ward 2 now that not one person in my ward had condemned my action of last week, but, rather, Mr. President, scores of people have met me on the street and commended me for my action, and shook my hand and said what Councilor Carey has just said,—“It is time for a little action. Stop kidding the people. Give us action. We don't want to hear any more stories. We don't want to have any pledge cards or any speeches.” Let us do a little work and spend this money where it should be spent. And, Mr. President, I am happy to say that this morning when I arrived one of the messengers gave me a card to call up a lady in the Back Bay, part of my district, who is president of an organization, and informed me that they had mailed me a letter with over 100 names signed to it, commending my action and hoping that I would not vote for one cent for advertising purposes, Mr. President. I want the councilor from Ward 2 to know that all times I am big enough in stature to vote, and vote fairly and squarely. I never duck a vote. And I always vote as my conscience dictates. And when I didn't vote last week for the \$5,000 I had already voted to give his Honor the Mayor \$1,000, and I thought I was going a long way with him in doing that, and the reason I didn't vote on the \$5,000 was that I felt that a negative vote might be construed by the people in my district as being opposed to the “Clean-up,” whereas I am absolutely in favor of the “Clean-up.” But, once again, my able colleague, Councilor Carey, has said all that could be said regarding the fact of people knowing whether or not we need a clean-up. And, Mr. President, I certainly hope this matter will be defeated.

Coun. HANNON—Mr. President, last Monday I was one of the fifteen who sat through here, and I was one of the eleven who voted for the \$5,000. I voted for it because I felt that it was a very small investment when we considered the valuation of the city and the size of the expenditure over the course of a year, and if it could produce any results, even if they were negligible, the expenditure of that money would, I thought, be well paid for. In fact, I have found as yet no reason for changing my position, but I do

believe that every councilor has a right to his own opinion, and I think the four that had courage enough—the three—to vote against it and the one who refused to vote, should be commended rather than censured because, after all, we have our part in this city government. We have our function to perform, and I know, Mr. President, during my tenure of office in the President's chair, I had many problems that presented themselves at the last minute,—at the last minute when we get up here on Monday afternoon, suddenly financial matters were thrown before us and, as President, I knew nothing about them. And I have no reason for believing, Mr. President, that you know any more during your term of office than I knew. I commend the men who have the honesty of their own convictions not to vote for every financial matter that is presented here. I tried in all sincerity to talk to his Honor last year, and when these monetary matters were coming in to see if some members of the Council couldn't be called down, couldn't have these matters talked over with them because, after all, we are part of the government and we ought to know what is going on. And yet, I don't think the system has changed any, from what happened last week, and I think still, at the last minute, we are going to get these orders for transfers. I wish, really, that his Honor would take the Council into his confidence. I wish he would let us know what he wants these moneys for and when he wants them. We want to work with him, and I say it is small stuff if four men are singled out of twenty-two men present here simply because they differed with him. I agreed with him. I intend to agree with him today but, at the same time, I think more of the men who have got the honesty of their own judgment, more of the men who, following their own judgment, will follow along and reason as they think best. We are going to differ sometimes, but when we differ let us not claim that it is pro-Mayor or anti-Mayor. I am not differing for those reasons. I vote as I see fit, and like to feel that each and every member of the Council does likewise, and if a man here, in his own judgment, decides to differ with me, I don't censure him. He has got just as good reasoning faculties as I have. He has just as much right to his opinion as I have to mine. And I say again that I will vote for the appropriation, but I am disturbed and bothered by the fact that honorable and honest members of the Council cannot have an opinion without being censured.

Coun. HANLEY—One week ago in the executive session, of which I have the great honor of being the chairman, it passed unanimously that each and every member of the Boston City Council could debate in open session. Some of these members who, according to the classifications, are sometimes categorically classified as pro-Tobin, some of these men presented themselves without casting a vote. On reconsideration, asked for by Councilor Taylor, it passed unanimously, fifteen in the affirmative and nothing in the negative. Fifteen of those men, who had the courage to ask for reconsideration and show by their vote that they were open-minded and through their intelligence that an omnipotent Creator endowed them with, came here today to vote either for or against it. But it seems, by the grapevine system that is used so effectively in the City Hall, his Honor the Mayor was acquainted that four honorable gentlemen of the Boston City Council who had seen fit to utilize their prerogative as public officials,—three to vote against and one not to vote,—his Honor the Mayor, utilizing emotionalism instead of the intelligence that God gave him and the maturity that his position demanded, lacerated and castigated verbally four public officials who had as much honor and as much respect within the confines of Boston as his Honor the Mayor. I am a member of the Boston City Council. To me it is an honor and a privilege. I consider it the greatest honor bestowed upon me as a private citizen to be catapulted to the pedestal of a public official. And the twenty-one members with whom I am associated,—I consider them the finest that I have ever been associated with. I differ with men, and I don't care what their names are or what their racial terminology or their religious convictions are. But I will differ with men at all times, regardless of what position they hold in private or in public life, when it seems to me necessary. I differed with his Honor the Mayor in my first term in office, with the result that he went to North Africa to bring home a boy to defeat me. Some people would throw out their chest, some people would consistently get up on the public forum and denounce any man who would go to the extent of purging another man in public life. But I have said on numerous occasions that life is too short, and I have always utilized that as the axiom of my life. But I don't intend to sit idly by and allow four outstanding gentlemen who have had the same honor conferred upon them as I have to be castigated by the press, by his Honor the Mayor, by his Excellency the Governor, or by the President. Each and every one of us are creatures of the public in public life. We are the servants, and not the masters. Docility is the first requisite in the legislative body for dictatorship, whether it is a City, State or Federal Government,—docility is the first requisite. We call it in American slang “a rubber stamp.” Four weeks ago, in the Congress of the United States,—the docility of which Congress allowed us to be put into this war—a voice was raised for the first time for the American people. His name was Senator Barkley. And for the first

time in the City Council of Boston in the administration of his Honor the Mayor, four distinguished gentlemen refused to coincide with his way of thinking, and immediately they became the target of his vicious tongue, through the columns of the press. Now, his Honor the Mayor, as I said, in private is one of the most honored and respected members outside the corporate limits of Boston. Within the limits of Boston, which constitutes twenty-two wards, he is one of the most hated and one of the most despised men that Boston has ever had, because he is not able or capable of distinguishing between puppet and constructive criticism. Some people have eulogized him, or said that he is one of the most handsome men the City of Boston has ever given as the Mayor of Boston, and I will agree with them, but handsome features are given, and you must accept what you get. One way of portraying your features is in the columns of the press, but one of the most powerful is in the cinema, for any type of face you might desire; and as soon as you are placed upon a pedestal and people look at you and listen to your eloquence, immediately they utilize emotionalism as a deciding factor for the timber of your voice. It is elementary, but evidently the callous guards on the second floor are trying to utilize it. I voted for the \$5,000. I also voted for the \$1,000 as offered by Councilor Dwyer, and I did it for one purpose, because I wanted to see the City of Boston rid itself of the filth and the refuse that permeates every ward of our fair city. And I might also say that the dung that overshadows and falls from the zoo in Franklin Park bluish in shame. It clings on the building. I wouldn't like to use the gutter English in describing it, but that would be more appropriate at the present time. His Honor the Mayor, like all men, human and frail, makes mistakes, and the mistake that all men who have been given too much power make, is to index the intelligence of a legislative body in the category of a moron. I hope Councilors Feeney and Dwyer and Carey and Fish, that I shall never be placed in the category of a moron, and I hope that I shall never be classified as a docile man. I hope, in your estimation, whether I am here for one day or thousands of days, that I shall take the floor at any time and try, to the best of my ability, to protect the honor and integrity of any body that I belong to. His Honor the Mayor has made a tremendous mistake in castigating any one member or group of members in the Boston City Council. About two weeks ago every City Councilor here present, and those who have asserted themselves, together with his Honor the Mayor, was invited to attend a labor meeting on the installation of officers at Faneuil Hall, and I had the great honor and the privilege of being the only member of the Boston City Council that was present. His Honor the Mayor refused to come, but he did send a representative. Faneuil Hall never saw the likes of that throng, not even when Daniel Webster took the floor. There were approximately 1,300 persons present. Right in Faneuil Hall was the making of the greatest repercussion in the entire city since we have been given the charter, when labor was demanding a living wage for their efforts in order to comply with the high cost of living. Those men and women attended for the purpose of listening to you and to me and to his Honor the Mayor, and through the interpretation that the chairman placed upon the Charter of Boston, you and the Mayor of Boston were castigated vociferously. I could have lashed out at his Honor the Mayor. I received an ovation, not because of myself, but because I was the only one who attended. But I refuse at any time to drive a dagger into the back of any man, even though he may be miles distant. In order to be consistent, I voted for the \$5,000, and I never thought that any other member of the Boston City Council would take the floor today. I thought it was only right that the four members who were the targets of his Honor the Mayor should uphold their integrity and their honor. In order to be consistent I will vote, and I will say to his Honor the Mayor, through the grapevine system,—because I know it will go down—if I am here I will amplify the inarticulate voice of the laborers and the high assessment on the homes of Boston, and the exorbitant tax rate levied on the City of Boston, and the castigating charges hurled at our great city,—and not one word has come by way of the press, or the cinema, or the radio, to hold up our great city against the scorn of the forty-eight states of our Union. And you, Mr. President, in your speech on the night before March 17, delivered one of the finest speeches on what Boston stands for, what it has been, and what it will be.

Coun. RUSSO—I realize, Mr. President, that we have taken more time perhaps than we should have, but at the outset let me say to the councilor from Ward 10, whether he interpreted it right or not when I first spoke, that I didn't get up to defend his Honor the Mayor. And I don't get up to defend his Honor the Mayor at this time. I believe that I have never questioned the motive of any one councilor in so far as their vote is concerned and I do hope they will not question mine. Those that have known me for the past five years that I have had the honor of being a member of this Council, know very well that if I am not convinced within myself, all the speeches in the world, all the forces in the world, will not be able to change my opinion. And I assure the councilor from Ward 10 that nothing has happened in the last few weeks between his Honor the Mayor

and myself. I am with him when I believe he is right, and I will oppose him when I believe that I am right.

Coun. FISH—Mr. President, I would like to have it made clear here today that if the vote is what you may call plebiscite, of those I contacted in my own ward during the past week,—if the majority told me I might be wrong in my judgment I would change my vote today; but just the opposite is true. For that reason I feel that I am casting the vote for those people today. Now, I respect the right of the members of this Council to exercise their judgment. I am not going to attempt in any way to convert it, but I may repeat how I personally feel. Five thousand dollars is five thousand dollars of the taxpayers' money, whether it is broken down to \$200 in a ward or to ten cents in a precinct. And I am against what I consider an unnecessary expenditure which will do just the opposite of what we are trying to do,—bring down the \$41 tax rate, bring down the high assessed values, and reduce, as Councilor Feeney says, the sky budget.

Coun. KELLY—Mr. President, I have sat here now for a couple of hours and heard all the discussions pro and con. Last week I happened to be out of the chamber when this particular order came up for vote. However, I was in the chamber when reconsideration was asked, and I was one of the fifteen members of the Council who voted for reconsideration. During the past week, Mr. President, I feel that I have got the sentiment of the people of my district, and I feel that every councilor is sent here to represent the people of his district, and every councilor is sent here to speak his own mind. I don't think any member of the Council should get up and try to influence any other member of the Council on how he should vote. The people of every ward of the City of Boston are intelligent enough when they go into the polls every two years to select a man to represent them in the Boston City Council, and I think that the people have confidence in that man, that that man will vote the way they want him to. Of course I realize, Mr. President, it is not always the case. But I don't believe any member of the Council should get up and try to influence another member of the Council as to how to vote. Personally, no member of this Council has ever influenced me or my vote since I have been a member of this Council for the past seven years. I have always voted the way the people of my district wanted me to, and that is why not one of my votes has ever been criticised during the past seven years. I am going to vote in this matter the way my people want me to and the way they have instructed me to. I think every member of the Council should go along in a straight line, and if there is one thing that will turn the vote of any councilor, it is to have some members get up on the floor and try to influence him in his vote. Personally, I would never be influenced. I would rather be handled in a different manner. I think there has been a lot of wasted time here. I don't think there has been one vote changed in the past two hours. The vote on this matter two hours ago was 14 to 5, and it still remains the same, so we probably have wasted two hours in talking. The only reason I have gotten up to talk now, as a matter of fact, is that some members that got up and talked could sit in their chairs a little longer. I sat here for two hours. I am going to make them sit and listen to me. So I say, Mr. President, that if every member of the Council was left alone by the other members of the Council I think things would go along a lot smoother and, as I said, I don't think all these speeches on the floor of the Council today will influence anybody. I know they haven't changed my mind, because my mind was made up when I entered City Hall today, how I should vote, and how the people of my district felt. And that is the way I have always voted, and no pressure in the world would ever change my vote; if I thought the people of my district wanted me to vote for a thing I would vote for it. If I thought they wanted me to vote against it I would vote against it, if I was the only member of the Council to vote against it. I have shown that in the past, and I will show it in the future. So I say, Mr. President, when these matters come out on the floor of the Council, because some members of the Council are for a thing they should not get up on the floor and try to influence those members who feel they are opposed to it and feel that the residents of their district are opposed to it. After all, it takes twenty-two members of the Boston City Council to make up the Boston City Council, and everybody is entitled to their own opinion, and everybody is sent here by their respective wards. So I say, my mind is made up when I entered the Council Chamber today as to how I should vote, and it hasn't been changed by any speech on the floor of the Council, and it never will be changed,—it never has in days gone by and it never will be in the future.

Coun. KINSELLA—Mr. President, I always thought every member of an elective body has a right to advance his opinion to that body openly and in public for the purpose of pointing out the logic and common sense in changing your view if there is any doubt in your mind, or if there is any danger you might be wrong. But I find here today that the Boston City Council is advised to throw away any honest persuasion that could be used for or against a measure. Now, my memory is not so faulty that I don't recall sitting here, minding my own business, a short while ago when the gentleman from Ward 15 came over and asked

me to vote for his lottery bill. He didn't let me enjoy the privilege that he demands today that we all have,—hear an order and then decide. On another occasion I recall, some time in January or February of 1942, the same gentleman from Ward 15 came over and, as is his right—he can do it again tomorrow—he asked me to vote for him for the office of President, and the record will show that on one ballot I did. Persuasion? Persuasion? Why, of course it is persuasion. Why is it, if that is the situation, we have a rule on reconsideration. Isn't that a form of persuasion, when Councilor Carey or Coffey or Dwyer or Feeney or any other man in this Council, asks to have an order read by the clerk? Isn't he actually attempting to persuade his colleagues to support him? Who ever puts in an order and says, "I hope you don't go along with me"? Isn't there a tacit understanding in filing an order you are asking for support? Whenever anyone takes his seat, isn't he attempting to change this or that fellow over? I don't think that is the proper kind of advice for a man with the long public record that John Kelly has behind him to offer in this chamber. Now, parliamentary law allows for debate on these matters. But what, Mr. President, is legislation? Isn't it the best of the pro and con in any matter? Isn't legislation a compromise between those who are for and those who are against? Hasn't there always been some opposition to something, and when the obstacles can be ironed out, in many instances, you bring out a more meritorious and better piece of legislation in the common good? Why can't I get up on this chamber floor and talk to the agitators about this \$5,000 and make an earnest plea that they change their vote? I cast no reflections on their honesty of purpose in opposing it. I can't say that their ego is so delicate that they cannot be questioned as to the right or wrong of their position. I don't say they are lacking in civic pride or civic fortitude. All I ask is that they draw on that which they have. I don't ask them to assert anything they don't have, because I will say here that any one of the four objectors has as much civic pride and civic mindedness as the Mayor of Boston, who, let me repeat myself, had absolutely no right to take them to task for the free exercise of their own vote, any more than any one of the four has a right to attack me for supporting the Mayor. But I hope that the councilor from Ward 15 will agree with me that that is exactly what we are doing, attempting to persuade each other on each and every matter that comes in here; and that we not only do it but we have the right to do it. In other words, let me tell you I have sat in this chamber for well over 200 or 100 minutes, and there were times, gentlemen, when my mind was made up coming into this chamber, and somebody's persuasion caused me to change my intended vote, and that is the condition that obtains with me today. Show me that I am wrong and I will vote your way and immediately proclaim myself as right when I am convinced. But let us not again say in the open forum here that no one has a right to persuade a colleague to change his mind when he thinks that the colleague may conceivably be in error. I don't attack Councilor Kelly's integrity, but I am truly astonished that Mr. Kelly, with his long experience behind him, would say he never persuaded or attempted to persuade anyone to see things his way. I am glad to have the right way pointed out to me many times. That doesn't preclude the possibility of John Kelly or anybody else in this chamber talking to me, but, for heaven's sake, don't forget that you did.

Coun. DWYER—I now move that we refer this order to the Executive Committee, Mr. President. The reason I make that motion is that I feel, taking a leaf out of Councilor Feeney's book, that the Council before voting on a matter of this kind, of this amount, should know where it is going, who is going to spend it and how they are going to spend it. And I think we should at least get a breakdown on this expenditure of \$5,000 before we attempt to appropriate it or transfer it so it can be spent therefor. I hope this matter will be referred to the Executive Committee.

Coun. TAYLOR—Just one word: I think this motion is strictly for the purposes of delay.

Coun. DWYER—Mr. President, I rise to a point of order. I think, Mr. President, that the gentleman should live up to the rules of this Council and not question any member's motive when he offers a motion here.

Coun. KELLY—Talking on the motion, Mr. President, I have always been a great believer in free speech on the floor of the Boston City Council, and in my remarks a few minutes ago—the stenographer will bear me out—I said no member of the Boston City Council would get up on the floor of the Council and dictate to me or attempt to change my vote if I knew what the feelings of the people in my district were when I came into the Council Chamber this afternoon. I have had a lot of conversations with various members of the Council in my seven years in the Boston City Council, not alone with Councilor Kinsella, but probably with forty, fifty or sixty members of the Boston City Council. I have even had Councilor Kinsella ask me if I wouldn't give him a vote for certain things, and I promised him I would if the opportunity presented itself. I have had Councilor Kinsella on two or three other occasions ask if I would vote for a certain measure that he introduced in the Boston City Council, and I assured him I would go along with him. But that was in confidence. I don't think those things should be discussed on the floor of the Boston City Council. I don't

think any conversation that takes place between any members of the Boston City Council, before or after a meeting, has any place in the Boston City Council. We can get up on the floor and say a lot of things, but any discussion I have ever had with a member of the Boston City Council has always been in confidence, and if a member of the Boston City Council asked me to go along, and I gave him my word I would go along before a meeting, then there isn't anybody, Mr. President, that would change my mind. I am surprised at the gentleman from Ward 2 getting up on the floor of the Council and saying I cannot be advised, because I am probably the easiest member of the Boston City Council that ever served to talk to, and one that when he makes a promise will keep it. My word has always been my bond. Any member of the present Council will tell you when John Kelly gives his word—and any former member of the City Council during the seven years I have served here—they will always tell you if you get John Kelly's word on anything you can depend on it. I said this, and I reiterate it, and I have seven years' experience in the Council,—I say no member of the Council will get up on the floor and change my vote when I know what the people of my district want. I don't care what any other member tries to persuade me to do or to dictate to me, I will go along with the people of my district. I have always been an advocate of free speech. I like discussions pro and con, but I say that this discussion, which probably has run into three hours today, hasn't, in my opinion, changed one vote. I looked around the Council Chamber and I know what the councilors' feelings are in the matter, and I said a while ago that the vote was 14 to 5 and it still remains 14 to 5. So, councilor, never get up on the floor and say that John Kelly won't be advised, because John Kelly will always be advised, and that is why he has been successful out in Ward 15, and that is why he has carried it four consecutive times and run twice unopposed, because he will listen to people and listen to reason. So, councilor, you will never change my mind by what you have to offer when I am satisfied I know what the people of my district want. I have taken that stand on previous occasions when I was the only Democratic member that saw fit to vote against Federal Housing. I called a public hearing and I got the sentiment. I know what the people of my district want today, and I say that no member of the Council will get up on the floor and dictate to me. And also, anything you have told me, anything in confidence, will never go any further, and I have never got up on the floor and told what you asked me to do. What you have asked me will remain a secret between you and me. So, I hope it will be the last time, councilor, you ever get up on the floor and say that John Kelly doesn't want to hear free speech on the floor, because I am an advocate, the greatest advocate of free speech of any member of the City Council. But I say that it is all right to have a discussion pro and con—but no one will ever get up on the floor of the Council and dictate to me or try to change my mind when I know and have investigated what the feelings of my district are. No councilor will get up on the floor and dictate to me or try to persuade me that I should vote against the feelings of the people of my district who have been so good to me and honored me by sending me here for eight years.

Coun. KINSELLA—It seems to me we have changed over from persuasion to dictatorship now. There was nothing at all said about dictatorship by anybody. I am practicing a right that I have here to try to persuade anybody, as they have me. Councilor Kelly has made a great to-do about things I have asked. I grant you I have had conversations with him on Council matters, the same as I have had with scores of others, and there isn't anything about our conversation that wasn't public business. I think that the records back in 1942, very early, will show that Councilor Linehan, of South Boston, a former member of the Legislature, and myself, who was then a member of the Legislature, Councilor Chase of Back Bay, who was then and still is a member of the Legislature, got up here and argued for some respectful order and decorum, and self-respect for the secrecy that is supposed to prevail in that room. I found as a former member of the Legislature, and you know as a former Representative, and Councilor Hannon knows as a former Representative, and Councilors Feeney and Chase know as former and present Representatives, that the one rule up there that you can't break is the rule of secrecy on matters pertaining to the matters of Executive Session. And we have pleaded down here to have that rule adopted and respected, and who is breaking the rule? Who was it that went into that chamber there repeatedly and still does it, and will sit there and say nothing when matters are under consultation, but will wait to come out here and reveal secrets that are supposed to be in secret and inviolable, but I am taken to task for breaking a word. What was it secret, when anyone asks you to go along with something, if that person later on makes any statement he won't be dictated to, and then his word not mean that he won't be persuaded, but will be guided by the people in his district, and that is where he found his first allegiance? I grant you, but what is so secret about it? That is public business. Anything I have ever asked anybody in here pertaining to these round table discussions can be brought out here freely at any time. There never was a pledge of secrecy that didn't imply low

morals. What other defense will you offer against a man who says he won't be persuaded, but will be guided by the people in his district, and says that because he said these things and because you speak of them in public you violated a confidence? We have elections of Presidents here every year. We know many of these matters are settled in Thompson's Spa, but they come in here, and Mr. Kelly, on more than one occasion, supported my view that too much was done in Purcell's or Thompson's Spa. Numerous others who are now former councilors have supported my view, and if they can discuss city business in Thompson's Spa or Purcell's, what will the councilor from Ward 15 call that—if they can discuss city business in Thompson's Spa and Purcell's, when I can't discuss it here? It is of great importance to the city. And that is public business. It is of great importance with some possible pending legislation as to what action this Council takes. What was the state secret in the two instances I spoke about? Dictatorship, to be sure. That is one form of dictatorship, Mr. Kelly, and that is the dictatorship that comes from the opinion in your ward. You do well to practice it, but that is not to malign any individual who is in opposition to me. If Mr. Kelly is the easy gentleman to talk to that he says he is, then no offense is given. You will find I am an amenable gentleman, too. I listen to reason, and sometimes get myself embroiled. If it is public business, let us refer to it at all times as city business.

Coun. KELLY—I just want to correct a few things for the record. I have been in the Boston City Council for seven years and I have been in Purcell's since since I have been in the Boston City Council, and enjoyed meeting with a few councilors. One day there was necessity I have lunch with them and I asked where they were going and they said to Purcell's. We went over. Now, I don't recall that particular day there was any particular discussion going on at Purcell's or any city business or any private business, but I can assure you, councilor, if there was any discussion going on in Purcell's that no one would know anything of the discussion that went on that I heard of. It has been my pleasure also to go in Thompson's Spa on a number of occasions. I like their ice cream sodas pretty well, but I think only a few times since I have been in public office have I had the pleasure of going into Thompson's Spa. I don't remember any discussion going on while I was in Thompson's Spa. Last Friday I had the pleasure of being, for the first time, in Billy Hurley's Log Cabin. You see, councilor, the difference between myself and a lot of men in public life is that I have always been what you call a Ward Councilor. I always spend my time around the people who were good enough to send me to public office, and these intown discussions I am not interested in, councilor. And you will never find Councilor Kelly in Thompson's Spa or in Purcell's during any conversation, whether about private or public business. And if you did find Councilor Kelly there, councilor, you would never find him getting up on the floor of the Boston City Council and telling of any conversation that did take place then, because any conversation that I have had with any councilor, including yourself, has always remained inside this gentleman; or any conversation I have had with any member of the Council has always remained alone between myself and that member of the Council. Now, to clear up something else, Mr. Councilor. I am always noted in Executive Session, that if I don't understand what is going on I ask, and I have always been of the opinion there shouldn't be any Executive Session of the Boston City Council. Everything should be discussed pro and con on the floor of the Council so that everybody in the balcony could hear what is going on. So if anything is revealed on the floor of the Council that happens to go on in Executive Session, I have always thought the taxpayers of the City of Boston are supposed to know what is going on.

Coun. KINSELLA—Mr. Chairman.

Coun. KELLY—I yield.

Coun. KINSELLA—Councilor Kelly, haven't you heard me support that view about open sessions?

Coun. KELLY—I might answer the councilor by saying he made some statements on the floor of the Council, and as Councilor Kelly's name was the only name mentioned, of course some might have thought it was Councilor Kelly that sat silent in Executive, but I never sit silent when I want information. I always ask a lot of questions, and you can take your book and go back since the beginning of time in the Council and you will see I have as much space as any member of the Boston City Council, so I have never remained silent while I have been a member of the Boston City Council, and I won't this year or next year. But, now, to get back to the main point. I have to compliment myself again when I say that I will always listen to the people of my district. The people of my district come first, before anybody in the City Hall or anybody else. If the people of my district want me to vote a certain way, and they are not dictating to me as you said on the floor of the Council, they are telling me how they feel—and they have been very good to me out there—and I am willing to abide by the way they feel—and I am always carried along those lines, and you and I have been the best of friends in here, and always will be. But never get up on the floor of the City Council and say that Councilor Kelly asked you to do this or that, because Councilor Kelly can come back at you, but Councilor Kelly doesn't operate that way. No matter what

you say to Councilor Kelly it will remain with him. I have never operated that way. You can inquire about me around Dorchester—

Coun. CHASE—I rise to a point of order.

President KERRIGAN—State your point of order.

Coun. CHASE—The gentleman should address the Chair.

Coun. KELLY—I apologize.

Coun. KINSELLA—That is a legislative rule that doesn't prevail here.

Coun. KELLY—Then I am in order.

President KERRIGAN—That prevails in all legislative bodies.

Coun. KELLY—Then I still apologize. I thought that Councilor Chase was going to bring out another point of order. I was leading up to my point. Sometimes it takes quite a while. But, as I say, in my campaigns in Ward 15, and you can check up around there—

Coun. CHASE—Mr. President, the gentleman is not addressing the Chair.

Coun. KELLY—I apologize. The gentleman from Ward 4 is very technical.

President KERRIGAN—You don't have to look at the Chair.

Coun. KELLY—Then I am in order. I will withdraw my apology. I don't want to take up too much time, because I want to be home at seven o'clock, but I would like to clear up the thing for the matter of the record. I say this in all sincerity, that during any one of my campaigns in Dorchester I have never mentioned an opponent's name. I have always campaigned along the name of John Kelly. Campaigning for high office I have never mentioned an opponent's name.

Coun. CHASE—The gentleman is not addressing the Chair.

President KERRIGAN—The Chair will rule that the gentleman is in order.

Coun. KELLY—I think the gentleman is trying to interrupt me so I will forget what I am saying, so I am going to close by saying, by reiterating once again that the people of my district always come first, because anything I have got in public life I owe to them. I am serving with a lot of good fellows, and I have made a lot of good acquaintanceship in the Boston City Council and the State Legislature, but my first thought is the people who sent me here, and as long as I am satisfied by being in contact with the people, by being what I call a Ward Councilor and not a councilor that would be in the discussions at Thompson's Spa and Purcell's, I think I know what the people in my district want. And when I get that sentiment, although I may be easy to talk to, I won't be persuaded. And there was nothing personal in getting up here. I sat here for two hours. I thought I could cast my vote without getting up. I waited two hours. I thought the time had come to cast a vote. I saw different members of the Council getting up two or three different times and I thought it was time for me to get up, and I am the last man in the world to ever criticize a councilor. I never have in the seven years in public office, and I never will. And any conversation I have ever had with any councilor—and I have had hundreds, both with present and past councilors—that remains between me and the councilor. If a councilor asks me to go along with something and I give him my word, I will keep my word. If I don't want to go along I will tell him that I am not interested in going along, but no one else will know that conversation but the councilor and myself. You and I have had conversations. I am sure your conversations with me have always been above board. There was nothing wrong with our conversations, and my conversation with every member of the Council has always been above board. And there is one thing I won't stand for while I am a member of the Council and that is, when I know people of my district—whatever you call it, use your own term—I am not changing my first remarks on the floor of the Council; if you call it persuasion I will agree with you; if you call it dictatorship I will agree; or if you call it something else I will agree—but whatever it is, I don't want any part of it. I will vote the way the people of my district, who are so good to me and sent me here, want me to vote.

Coun. TAYLOR—In view of the fact that two members of the Council that were present have suddenly disappeared, I make a motion to lay it on the table for one week.

President KERRIGAN—There is no debate on the motion.

Coun. DWYER—I make a motion that we now adjourn.

The motion was declared lost.

President KERRIGAN—The question now comes on the motion to lay on the table for one week.

The motion was declared lost.

President KERRIGAN—The question now comes on Councilor Dwyer's motion to refer to Executive.

Coun. M. H. SULLIVAN—I question the vote on the laying on the table.

Coun. FISH—I rise to a point of order. The vote has already been announced.

President KERRIGAN—Councilor Sullivan is in order. We will call the roll.

The motion to lay on the table was lost, yeas 4, nays, 12:

Yeas—Coun Hurley, Muchnick, M. H. Sullivan, Taylor—4.

Nays—Coun. Bayley, Carey, Chase, Coffey, Dwyer, Feeney, Fish, Keenan, Kelly, Kinsella, Russo, D. F. Sullivan—12.

Coun. DWYER—Mr. President, I would like to withdraw my motion to refer to Executive.

Coun. TAYLOR—Mr. President, I move it be referred to Executive.

Coun. FISH—Mr. President, I think I was recognized first. I move the previous question.

Coun. MUCHNICK—I rise to a point of order. It is my understanding under the rules that without unanimous consent the motion cannot be withdrawn.

Coun. DWYER—Mr. President, there was no objection when I withdrew my motion.

President KERRIGAN—The question now comes on the passage of the order and the clerk will call the roll.

Coun. TAYLOR—I was recognized on my motion to refer to Executive, and I don't think it has been put to a vote.

President KERRIGAN—The clerk will call the roll.

The order failed of passage, 12 affirmative votes being required, yeas 11, nays 6:

Yeas—Coun. Bayley, Chase, Coffey, Hurley, Kerrigan, Kinsella, Muchnick, Russo, D. F. Sullivan, M. H. Sullivan, Taylor—11.

Nays—Coun. Carey, Dwyer, Feeney, Fish, Keenan, Kelly—6.

Coun. CHASE—I move reconsideration.

President KERRIGAN—The motion is out of order; the matter has been once reconsidered.

Coun. CHASE—I rise to a point of inquiry. This matter was not reconsidered at this meeting. It was reconsidered at a former meeting.

President KERRIGAN—The Chair will refer the gentleman to Rule 20.

Coun. M. H. SULLIVAN—I appeal from the ruling of the Chair and ask for a roll call of the entire membership.

Coun. BAYLEY—I second that.

Coun. FISH—I rise to a point of order. I would like to have the rule read which permits this reconsideration.

President KERRIGAN—The Chair has declared that the motion was out of order to reconsider. The question now is on appeal from the decision.

Coun. FEENEY—I rise to a point of inquiry. Mr. President, what is the appeal from the Chair? On what ruling does the gentleman from Brighton appeal the ruling of the Chair?

President KERRIGAN—Rule 20. Any decision of the Chair can be appealed from.

Coun. FEENEY—Any specific ruling of the Chair may be appealed by a member of the Council?

President KERRIGAN—That is exactly right.

Coun. FEENEY—I rise to a further point of parliamentary inquiry. What is the vote necessary to appeal from the Chair?

President KERRIGAN—A majority of those present.

Coun. FEENEY—I rise to a further point of inquiry. What vote is necessary to amend the rules of this Council?

President KERRIGAN—Two thirds vote.

Coun. DWYER—I move that we now adjourn.

President KERRIGAN—The motion is out of order. There is an appeal from the decision of the Chair made and seconded.

Coun. TAYLOR—I rise to a point of order. I wish Councilor Sullivan would withdraw his motion. The Mayor has a right to send up a new order next week.

Coun. M. H. SULLIVAN—I withdraw.

President KERRIGAN—All those in favor? Councilor Dwyer moves that we now adjourn.

The question is on adjournment.

The motion to adjourn was lost.

FURNISHING OF ASH BARRELS BY LANDLORDS.

Coun. D. F. SULLIVAN offered the following:

Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to confer with the Corporation Counsel for the purpose of drafting an ordinance which will compel landlords owning one or more apartments in Boston to furnish ash barrels for the tenants of said apartments.

Passed under suspension of the rule.

SALES OF LIQUOR.

Coun. CHASE offered the following:

Ordered, That the Licensing Board be requested to furnish information to the City Council as to what measures are taken for the enforcement of laws pertaining to the prohibiting of sales of liquor to intoxicated persons, especially women; and be it further

Ordered, That the Licensing Board, through his Honor the Mayor, be requested to order an immediate investigation of places where liquor is sold to women with a view to seeing that the laws are fully enforced; and be it further

Ordered, That the Boston Licensing Board be requested, through his Honor the Mayor, to advise the City Council as to whether or

not they will need additional inspectors to strictly supervise places where liquor is sold to women.

Coun. CHASE—I consider this a very important order, in view of the various murders that have occurred in our city during the past few months. I submit to you, Mr. President, that the murder that happened over in the South End of Boston was of a woman by the name of Hanson. If I remember the evidence correctly, a woman by the name of Hanson was intoxicated, or had been drinking in one of these "honkytonk" restaurants that serve liquor to women, and she apparently had been escorted home by a man who subsequently murdered her. The woman who was recently murdered over in Charlestown also had been frequenting a place where liquor was sold to women, and she, too, Mr. President, was accompanied home by a man who subsequently murdered her. I also have in mind, Mr. President, a case which happened in my district some few months ago, about a year and a half ago, where a woman of about fifty years of age was intoxicated and was served liquor by a restaurant keeper until she was drunk. She walked home and was followed by someone who subsequently raped her and murdered her, and her dead body was found in a hallway a few steps away from the place that sold her liquor while she was intoxicated. Now, Mr. President, I think that in view of these murders, these murders of women—

Coun. COFFEY—I rise to a point of order. May we have quiet here so that the gentleman may be heard.

President KERRIGAN—The Council will be in order.

Coun. CHASE—Mr. President, I think in view of the fact that these three murders were all of intoxicated women, women who apparently were sold this liquor by agents of property licensed by the City of Boston to do business, that our regular law enforcement agencies have either been lax in enforcing the laws pertaining to the sale of liquor to people who are intoxicated or else we haven't got enough inspectors in the Licensing Board to properly supervise these places where they sell liquor. But I say to you, Mr. President, it is about time, in view of the evidence given to us through the medium of the newspapers that three women in this city in the past few months were murdered in cold blood, and in two of the cases raped, women intoxicated who received this liquor from proprietors of stores licensed by our Licensing Board, something should be done. I don't know, Mr. President, whether our law enforcement agencies are lax in enforcing the state law, which provides that no agency dispensing liquor shall give it to any person who is intoxicated. But it would seem to me, Mr. President, that the evidence given to us tends to show there is a laxity in our law enforcement of this particular branch of the law, and I say to you, Mr. President, unless something is done about it the condition will grow worse and worse. This is a very unfortunate thing. Three murders of intoxicated women, women raped, and who is to blame? I place the blame directly on the law enforcement agencies. I blame the people who are dispensing this liquor, people allowing these women to become in such an intoxicated state that men will ravish and destroy them. Oh, Mr. President, this is a very important matter. This is something which apparently has been overlooked by our law enforcement agencies, and I would like to get the desired information from the Licensing Board, whether or not they are able to properly supervise these places that are dispensing liquor to women. Have we an adequate number of inspectors who will visit these places frequently to determine whether or not they are fully complying with the law? I know in many sections of the city this law is frequently violated. I have seen it with my own eyes. I have seen women, personally, intoxicated and staggering out of these places, annoying the public on the street, and making a general nuisance of themselves. But, sir, when conditions go beyond ordinary nuisances and general nuisances, when things can get so bad that we are tracing three wicked murders, horrible murders, directly to the dispensers of liquor, then I say to you it is about time our law enforcement agencies are told to make sure that this law is enforced. And I hope, Mr. President, that the regular authorities will endeavor to press down on this thing and completely compel the dispensers of liquor to follow and adequately carry out the law as our lawmakers intended it to be carried out.

The order was passed.

CONSTRUCTION OF WALL ON WALLEY STREET.

Coun. COFFEY offered the following:
Ordered, That the Public Works Commissioner be requested, by his Honor the Mayor, not to grant any licenses for the sioner be requested, through his Honor the street, at the junction of Gladstone street and Orient avenue, Ward 1.

Passed under suspension of the rule.

GRANTING OF BUS LICENSES.

Coun. COFFEY offered the following:
Ordered, That the State Department of the Mayor not to grant any licenses for the

operation of buses in the City of Boston until they first notify the Committee on Licenses of the Boston City Council.

Coun. COFFEY—I think this is a vitally important matter to the members of the Council here, because if it isn't we might as well abolish the Body and do away with committees. To my amazement, last Saturday morning the Boston Elevated Railway started a bus line from Maverick square station, along Bremen street, to the Airport, and back the same route. The Boston Elevated Railway filed a petition here last Monday for this bus line. I intended to call a meeting this week of the Committee on Licenses and talk the matter over between the trustees of the Boston Elevated and the members of the Committee on Licenses, but without waiting, without any warning, they go before the Department of Public Utilities and get a sixty-day permit to run buses over that route, without consulting members of this Body in any way whatsoever. We have the sole power of granting that permit, and I think we should get up on our hind legs and let the Department of Public Utilities know that the members of the Boston City Council, through their Committee on Licenses, will hold a meeting and will either grant or turn down permits as they see fit. And we don't think they should step in and give a sixty-day permit to the Boston Elevated Railway or any other bus line without action being first taken by the Boston City Council. Some of you gentlemen here will recall a meeting we had in 1942, and the meeting we had last year, when the trustees of the Boston Elevated Railway sent down on one occasion Mr. Downey, and on another occasion Mr. Hall, and they wanted to run a bus line along Maverick street to the Airport and back. When I asked them if they had any intentions of taking off the Jeffries Point car line, they said, "Yes, we will have to do away with the Jeffries Point car line and run these buses along Sumner street, Webster street and Jeffries street to the Airport and back,—and Maverick street." And the committee went along with me, and people from East Boston who attended that meeting turned it down, but we asked if they wouldn't run a bus line to the Airport and back to satisfy the people that work at the Airport and the people in Maverick square station who would take that bus line. Now, again, last year, without a petition being filed, some agitation was brought about, and some action was demanded by the trustees of the Boston Elevated Railway that came down here last year, and I held a meeting in the Executive Chamber. Nearly every member of the Committee on Licenses was present, and I asked them then why they wanted the line, and they said to satisfy the personnel of the East Boston Airport. And I asked what they intended to do with the old Jeffries Point car line, and they said they would have to abolish it. Now, without any notification whatsoever, without any hearing or meeting by the Committee on Licenses, the Department of Public Utilities say that, without consulting us. And I might go on record here by saying that for the three years I have been chairman of the Committee on Licenses I have called up the Department of Public Utilities every two months and asked them never to grant a permit to run buses over the streets of Boston, or never to change any route or add additional buses without first notifying the members of the Boston City Council, and especially myself, as chairman of the Committee on Licenses. Only last week I called them up and they said nothing about this permit being before them for a temporary sixty-day license. Now, when I talked with Mr. Downey or Mr. Hall Saturday morning, I am told that they never said anything about the removing of the Jeffries Point car line. I hate to call a man a liar who is not here to defend himself. But I want to go on record as saying that both Mr. Downey and Mr. Hall, trustees of the Boston Elevated Railway, are liars when they made that statement to me Saturday morning, that they never said anything about taking away the old Jeffries Point car line, because there are men sitting in these chairs now that know that at that meeting we had some forty women from East Boston that were opposed to doing away with that Jeffries Point car line, and they said they would have to take away the old Jeffries Point car line. Now they deny that. This comes down to one thing. The Governor of the Commonwealth of Massachusetts is mixed up with it. He is mixed up in stealing the Boston Airport. That is all you can call it. There is no room for an Airport in East Boston. They are going to build four runs of concrete, four 7,000-foot runways, out into the harbor. Go out into Newton where the Governor lives. There is plenty of vacant land. Let them build there. They are stealing Wood Island Park. We have only got four parks in East Boston and they have taken two away, because the Governor is in with the cliques of the Boston Airport and he is stealing that town and going to take it house by house. He is going to take Wood Island Park and Annermo Park, and the most natural and best playground in the whole country is going to be taken away from the people in our district for one reason, that the Governor has made up his mind, come hell or high water, he is going to enlarge that Airport and spend forty or fifty million dollars on it, and they aren't even going to give us permissible legislation. They are going to take it

away from us, not on an act passed last year, which means they will come before this Body and the Mayor, but by an old act passed in 1840, they are going to take it by eminent domain. You can take my word for it, I don't trust a soul in that Department of Public Utilities. They made fools of themselves when they granted that bus line in Lynn. After several hundred people went up and sent petitions, and the bus drivers went on strike, they discovered something was rotten in Denmark. I don't know whether graft had been paid,—I wouldn't say it wasn't. If I did, I would name some who took it. They backed water on that, and I want them to back water on this. I don't want the Department of Public Utilities, even if this is the Governor's pet project, to steal East Boston and grant a permit. I don't want them to grant any permit on the streets of Boston without first consulting this Body and the Mayor himself, and especially the Committee on Licenses. You recall last year we had a hearing for four different companies that appeared here that wanted to run buses from the Airport to the Statler Hotel. We knew they couldn't get the vehicles, and we knew there wasn't any necessity for it, because the personnel of the Airport is about one half what it was before the war. My only objection here now is the fact that these people went ahead and granted this permit without first letting the members of the Boston City Council take action. I have got calls from Mr. Downey and Mr. Hall and Mr. Dana, asking me to hold hearings on changes of routes, and we have held those hearings within forty-eight hours. We didn't object to it. We know there is no graft as far as the Boston Elevated Railway is concerned, and we are willing to abide by that reasoning. I don't think they have any right to step into the city without a permit, and it is up to us to stand on our hind legs and demand that any bus permit or street car permit granted in the City of Boston, to be run over the streets of the City of Boston—they at least ought to have the decency to hold a hearing and let us decide. They have a situation at Maverick square where they are running buses up one side. They have made that a one-way. Nobody that has ever driven a car in East Boston in the past twenty years knows which way to go on entering the Maverick square section of East Boston. We are overloaded with buses. Only last week the Boston Elevated was asked to take buses from Winthrop and go through the Sumner Tunnel. But of course they wouldn't do that. They make them go into Maverick square ramp, overloading us with traffic. And you can appreciate what it will be over there when the horse and dog track season opens. I think this should be submitted to some committee, and show the Department of Public Utilities that in future they should not try to give licenses to anybody within the confines of the City of Boston without first getting permission from the Committee on Licenses. Otherwise we might as well take the committee and dispose of them.

The order was passed.

DEMOLITION OF CERTAIN STRUCTURES IN WARD 1.

Coun. COFFEY offered the following:

Ordered, That the Building Commissioner be requested, through his Honor the Mayor, to make immediate arrangements for the demolition of the following structures in Ward 1, which are dilapidated and a menace to the community:

Wooley's Laundry, Brooks and Condor streets; Textile Manufacturers' Laundry, 1083 Bennington street; building formerly used by the Jeffries Point Athletic Association at Jeffries and Sumner streets.

Passed under suspension of the rule.

Coun. COFFEY—Mr. President, I ask that this letter be incorporated in the record.

President KERRIGAN—If there is no objection the paper will be incorporated in the record.

"World War II Allied Veterans, Inc.
General Edwards Inn,
Revere, Massachusetts.

March 20, 1944.

City Councilor James Coffey, Boston City Council,
City Hall, Boston, Mass.

Dear Councilor Coffey: At a recent meeting of the East Boston Veterans' Council it was voted to ask your cooperation in the following matters:

1. The urgent need for a paving brick wall on Walley street at the junction of Gladstone street and Orient avenue.

2. In connection with the Mayor's plan for demolition, the desirability of demolishing the following buildings: Wooley's Laundry at Brooks and Condor streets, Textile Manufacturers' Laundry at 1083 Bennington street, building formerly used by the Jeffries Point Athletic Association at Jeffries and Sumner streets.

Your cooperation in these matters will be gratefully appreciated.

Yours in comradeship,
THOMAS E. BARRY, Commander."

NEUTRALITY OF EIRE.

Coun. FEENEY offered the following:

Whereas, The friendship of America and Eire is traditional; and

Whereas, America is engaged in a great war, and Eire is, by choice of its people, neutral; and

Whereas, America is fighting for, among other worthy objectives, the principle of self-determination of small nations; and

Whereas, Eire, by virtue of the principle of self-determination of small nations, is neutral; and

Whereas, A misunderstanding with respect to their particular objectives has developed between America and Eire; be it

Resolved, That the differences between America and Eire be amicably adjusted on a basis consistent with the particular objectives of both countries, to the end that the traditional friendship of America and Eire shall always be maintained; and be it further

Resolved, That copies of this resolution be forwarded to the President of the United States and to the Massachusetts members of Congress.

Coun. COFFEY—Mr. President, I am not going to read this article that appeared in yesterday's *Post* in regard to Eire. I think however, it is one of the best things I have read in any Boston newspaper on this matter, and I am going to ask that it be incorporated in our minutes along with the order.

Coun. Coffey's motion was carried.

The resolution was adopted.

(The quotation from the *Sunday Post* of March 19, 1943, is as follows:

Order to Ireland Strikes Shattering Blow Against All Ideals of America.

Raises Point as to What Nation Can Do to Remain Neutral in This War Despite "Four Freedoms."

By John Griffin.

The United States is in a war of survival and it is natural to expect that anyone who steps in our way or refuses to get out of our way is going to get hurt. Any nation, large or small, that interferes with our chances of victory, or with our plans for victory, can be assured that it is courting trouble in large quantities and at frequent intervals.

Thus Eire can look forward to nothing but woe as far as her relations with the United States are concerned. It has been decided—by our military leaders according to a recent despatch—that by permitting the diplomatic representatives of our enemies to stay in Eire, that country is jeopardizing our invasion project and imperilling our troops.

So we are going to punish Eire for her refusal to help us. We have pointed out, with threat and warning, that she cannot expect anything from now on but trouble unless she does our bidding. And we even tell her that she can also anticipate very little at the peace table.

Isolated Eire.

We're going to see to it, along with our ally, Britain, that Eire gets no more than is absolutely necessary to keep her producing food for Britain. We are going to see to it that she gets no ships from us—as if we were in the habit of providing ships for her.

All right, if we've got to do it to win victory and safeguard American lives, by all means do it—without hesitation and without limit.

But is it too much to ask now that all the sanctimonious twaddle about "four freedoms" cooked up at a meeting between Mr. Churchill and President Roosevelt, and all the big talk about the rights of small nations be immediately junked and placed in a position where they cannot be dragged forth to falsify a situation.

When we tell a nation that is honestly neutral—a fact admitted by the Allies—that unless she makes a warlike move against our enemies she will be subjected to punishment from us, we are shattering all the ideals of America.

When we tell a defenseless neutral that unless she makes a move against our enemies, which might subject her to destruction from the air, we will use economic weapons in punishment, we are throwing the rights of small nations into the ash can.

Can't Be Surprised.

When we tell a small, honestly neutral nation that she has no right to remain neutral and must enter the war on our side upon pain of immediate punishment and future discrimination, we can hardly be surprised if the neutral world looks astonished.

Of course, the neutral world should not be surprised at this event, for we have indicated before that the determination of the American people is to win the war at all costs; that it is a question of survival. But unfortunately at the same time we have been preaching to the world about freedom from fear and freedom from aggression and other noble principles.

Have the people of Eire now been assured of a freedom from fear and aggression? Is it impossible for them to remain neutral because their neighbors want them to fight? Perhaps it is impossible from the practical and realistic viewpoint. But let's not talk about ideals and freedoms in that connection.

As for freedom, certainly Eire should be free to stay out of the war if that is the desire of her people. But, says one commentator and editorialist, Eire is only "technically right, but is morally and strategically wrong."

This is a view that might be presented to a man standing on his head. If Eire is right at all, she is morally right. And as far as being "strategically wrong" that must mean that she is unfortunate enough to be geographically situated "in the middle."

No Lend-Lease.

Let's get a few things straight. In the first place, Eire has not been given anything by this country. The ships she got were bought from us and paid for, and were bought only after long months of negotiations in which we tried to bargain for the use of certain Irish ports, which we held were essential to our safety.

This argument was later dropped when it developed that the ports were not necessary for our safety. At a time when we were giving food and other materials to many nations, neutral as well as belligerent, on a lend-lease basis—that is, we were giving it away—Eire was unsuccessfully trying to buy from us.

The Eire minister in Washington said publicly that the State Department assured him there "has not been a single instance of known leakage of military information through Ireland in the past two years."

And the United States note to Eire in which that government was asked to break off diplomatic relations with Axis countries said: "We do not question the good faith of the Irish government in its efforts to suppress espionage."

What, then, does a neutral nation have to do to remain out of war? Here is one that has been honestly neutral, that has done everything possible to prevent espionage within its borders, that has expressed the will of its people in its official policy, yet it is being told by two powerful nations that it must immediately take steps which would lead it into war or else suffer punishment for remaining at peace.

A Practical View.

We have been faced with situations in which idealism clashed with realism. There was the question of whether we would be realistic enough to deal with French leaders in North Africa who could save the lives of many American soldiers. From the moral standpoint, and certainly from the standpoint of idealism, we should not have had anything to do with them. But from the practical standpoint we would have been utterly foolish to refuse dealing with them.

Certainly the parents of thousands of American boys were happy that a deal was made that saved untold thousands of American lives.

If the measures to be taken against Eire also result in saving American lives, as the military men say they will, there won't be any outcry of protest from Americans.

But it is strictly a practical matter and sets aside all the brave talk about ideals and freedoms. As if they weren't shattered much earlier by the experience of Estonia, Latvia, Lithuania and other small nations.

Do what we have to do, but let's be honest about it.)

RESURFACING OF CERTAIN WARD 15 STREETS.

Coun. KELLY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface the following streets in Ward 15: Blakeville street, Clarkson street, Stonehurst street, Speedwell street, Long-fellow street.

Passed under suspension of the rule.

Adjourned, on motion of Coun. DWYER, at 6:27 p. m., to meet on Monday, March 27, 1944, at 2 p. m.

PROCEEDINGS OF SCHOOL COMMITTEE.

Mar. 7, 1944

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6.40 P. M., the Chairman presiding.

Present: Messrs Foley, McDevitt, Norton, Ward, and White.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

DEATHS

The Superintendent reported the deaths of the following-named teachers:

Dorchester High School for Girls—Edna Willis, assistant, Mar. 2, 1944.

Edward Everett District—E. Mabel Clarke, teacher, elementary, Feb. 24, 1944.

Placed on file.

The Superintendent reported the deaths of the following-named teachers who had been retired on pension:

Dwight District—Minnie A. Noyes, Dec. 24, 1943.

John Winthrop District—Mary F. O'Brien, Feb. 13, 1944.

Placed on file.

The Superintendent reported the death on Mar. 5, 1944, of Carrie L. Tewksbury, secretary, English High School, who had been retired under the provisions of the Boston Retirement System.

Placed on file.

The Superintendent reported the death of the following-named supervisor of attendance:

Department of Attendance—John J. Sullivan, Jan. 6, 1944.

Placed on file.

RESIGNATIONS

The following resignations, reported by the Superintendent to take effect on the dates stated, were presented:

Roslindale High School—M. Barbara Dee, assistant, Feb. 29, 1944.

Hyde District—Alice V. Campbell, vice principal, Feb. 25, 1944.

James J. Chittick District—Mary C. Matthes, teacher, elementary, Feb. 11, 1944.

John Marshall District—Sophie Adelson, assistant, special classes, Feb. 25, 1944.

Washington Allston District—Bertha C. McGinty, teacher, elementary, Feb. 29, 1944.

Accepted.

RETIREMENT ON PENSION

The Superintendent offered the following:

ORDERED, That in accordance with the provisions of Section 58 of Chapter 32 of the General Laws,

as amended by Chapter 261 of the Acts of 1922, and by Chapter 386 of the Acts of 1923, and with the consent of His Honor the Mayor, Z. Carleton Staples, master, Dorchester High School for Boys, an honorably discharged veteran of the World War, who has been in the service of the city for thirty years, is in accordance with his application, hereby retired from active service, at one-half his net rate of compensation per annum, namely nineteen hundred and forty-four dollars (\$1944), to take effect Feb. 29, 1944, and to be paid from the appropriation item "General School Purposes."

Passed unanimously.

APPOINTMENTS

The following appointments by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

LIST OF TEACHERS APPROVED FOR TEMPORARY SERVICE

Approved.

Katherine A. Carney, assistant, Grover Cleveland Evening School, to the same position in the Franklin Evening School, Feb. 8, 1944 (one evening).

Sara M. Curran, assistant, Patrick F. Gavin Evening School, to the same position in the Patrick T. Campbell Evening School, Feb. 17, 1944 (one evening).

Marjorie A. Lowney, assistant, Edward Everett Evening School, to the same position in the Grover Cleveland Evening School, Feb. 14 and 17, 1944 (two evenings).

Approved.

LEAVES OF ABSENCE

On the report of the Superintendent, leave of absence under a suspension of the regulations was granted each of the following-named teachers:

Girls' Latin School—Angela M. Cadigan, assistant, Sept. 1, 1942 to June 30, 1944, without pay.

Patrick T. Campbell Intermediate District—Frances A. Keefe, teacher, intermediate, Mar. 1 to June 22, 1944, without pay.

On the report of the Superintendent, leave of absence for study under a suspension of the regulation was granted the following-named teacher for the term specified:

Patrick T. Campbell Intermediate District—Anna T. Burke, teacher, intermediate, from Mar. 1 to Aug. 31, 1944, for study.

On the report of the Superintendent, leave of absence for military

service, without pay, was granted each of the following-named teachers, to take effect on the dates stated, and to continue for the duration of the war, unless earlier terminated by the Superintendent with the approval of the School Committee:

Mechanic Arts High School—Warren J. Moran, junior master, Feb. 28, 1944

James J. Chittick District—Paul J. Sullivan, submaster, Mar. 1, 1944.

Theodore Roosevelt Intermediate District—William L. Cannon, teacher, intermediate, Feb. 28, 1944.

Department of Manual Arts—Primo Lorenzoni, shop instructor, Mar. 9, 1944.

ASSIGNMENTS

A communication was received from the Superintendent, under date of Mar. 7, 1944, reporting that subject to the approval of the School Committee, he has terminated the assignment of William R. Dougherty, shop instructor, Department of Manual Arts, to supervise the construction of aircraft models for the Navy Bureau of Aeronautics, to take effect Feb. 28, 1944.

Placed on file and the termination of assignment approved from the date stated.

A communication was received from the Superintendent, under date of Mar. 7, 1944, reporting that subject to the approval of the School Committee, he has assigned Dorothy M. Burnham, teacher, elementary, Agassiz District, to a special class in that district, without change of rank or salary, to take effect Mar. 1, 1944, and to continue for the school year ending Aug. 31, 1944, unless earlier terminated by the Superintendent with the approval of the School Committee.

Placed on file and the assignment approved from the date stated.

DESIGNATIONS

A communication was received from the Superintendent, under date of Mar. 7, 1944, reporting that he has made the following designations of teachers to serve in the positions indicated until such time as they shall be filled otherwise in accordance with the rules and regulations but not beyond Aug. 31, 1944:

Charlestown High School—Ralph C. Benedict, head of department, men, as acting head master, (vice John J. Connelly, Jr., absent on leave), Feb. 9, 1944.

Agassiz District—Louise F. Dorey, teacher, elementary, as acting vice principal, Feb. 1, 1944

Jefferson District—Esther M. Hanney, teacher, elementary, as acting vice principal (vice Virginia M. Dente, absent on leave), Mar. 1, 1944.

William E. Russell District—Alice M. Roche, vice principal, as

acting principal, (vice John M. McDonnell, absent on leave), Feb. 14, 1944.

Placed on file.

CLOSING OF EVENING SCHOOL TERM

The Superintendent offered the following:

ORDERED, That the closing exercises of the evening commercial high schools, the evening elementary schools, and the Evening Opportunity School, shall be held on Wednesday evening Apr. 12, 1944.

The rules were suspended and the order passed.

The Superintendent offered the following:

ORDERED, That the closing exercises of the Central Evening High School shall be held on Thursday evening, May 25, 1944.

The rules were suspended and the order passed.

GRADUATING EXERCISES

The Superintendent offered the following:

ORDERED, That for the current school year, the Superintendent is hereby authorized to advance the date of the graduating exercises of The Teachers College, Latin and day high schools to the week beginning Monday, June 5.

The rules were suspended and the order passed.

ATTENDANCE AT CONVENTIONS

On motion of the Superintendent, it was

ORDERED, That Dennis C. Haley, Assistant Superintendent, is hereby authorized to attend the Eastern Commercial Teachers Association Convention, to be held in Philadelphia, Apr. 5 to 8, 1944, inclusive, at an expense to the city not to exceed ninety dollars (\$90).

On motion of the Superintendent, it was

ORDERED, That Mary W. Cauley, Director of Household Science and Arts, is hereby authorized to attend the North Atlantic Regional Conference on Home Economics Education, to be held in New York City, Apr. 11 to 14, 1944, inclusive, at an expense to the city not to exceed fifty dollars (\$50).

On motion of the Superintendent, it was

ORDERED, That Helen E. Cleaves, Director of Manual Arts, is hereby authorized to attend the convention of the Eastern Arts Association, to be held in New York City, Apr. 13 to 15, 1944, at an expense to the city not to exceed forty-five dollars (\$45).

Mr. Norton: I hope that these heads of departments and others will travel as much as possible, that they will get around and

see what is going on. At present we have in Boston probably the most successful convention of its kind in the world—the national convention of the Coca-Cola Company.

You, Mr. Ward, saw with me not only the president of that company but the chairman of the board. At that convention were such men as former Postmaster General Farley and other men prominent in public life. I asked them what they were here for. They were here to meet with their people and to converse with them. The gathering included representatives of the company from the multi-millionaire who owns it down to the lowest man.

RANKS AND COMPENSATION FOR BASKETBALL

On motion of the Superintendent, it was

ORDERED, That beginning Feb. 15, 1944, and for the remainder of the school year ending Aug. 31, 1944, the following ranks and compensation are hereby established:

BASKETBALL

Officials, per day.....\$ 6
Physicians, per day..... 10

WARTIME CHILD CARE CENTERS

On motion of the Superintendent, it was

ORDERED, That the offer of the United States for re-establishing and maintaining five Wartime Child Care Centers from Jan. 1, 1944, through Dec. 31, 1944, made under the Lanham Act subject to the wartime child care facilities, terms and conditions (FWA Form No. WS-102 dated June 1, 1943) with the approval of the Boston City Council in compliance with Chapter 492 of the Acts of 1943 of the Commonwealth of Massachusetts, be accepted.

On motion of the Superintendent, it was

ORDERED, That the offer of the United States for continuing and maintaining two Wartime Child Care Centers from Jan. 1, 1944, through Dec. 31, 1944, made under the Lanham Act subject to the wartime child care facilities, terms and conditions (FWA Form No. WS-102 dated June 1, 1943) with the approval of the Boston City Council in compliance with Chapter 492 of the Acts of 1943 of the Commonwealth of Massachusetts be accepted.

WARTIME TRAINING PROGRAM

On motion of the Superintendent, it was

ORDERED, that the Superintendent is hereby authorized, in his discretion and in cooperation with the State Department of Education, to conduct a Wartime Train-

ing Program for Store Supervisors and Department Heads, beginning Jan. 3, 1944, reimbursement for the cost of salaries of supervisor and instructors in the amount of fifty per cent (50%) to be covered by Federal funds for training in Distributive Occupations administered by the Commissioner of Education and allotted by special distribution made by the State Department of Education to the City of Boston.

ASSISTANT LIBRARIAN

On motion, it was ORDERED, That the rank of assistant librarian, Roslindale High School, is hereby established, to take effect Mar. 13, 1944.

On motion, it was ORDERED, That the salary of the rank of assistant librarian, Roslindale High School, is hereby established as follows, to take effect Mar. 13, 1944, and to continue during the school year ending Aug. 31, 1944:

Minimum, \$1632; annual increment, \$96; maximum \$2016.

Appointment of Assistant Librarian

Roslindale High School—Josephine A. Kelley, assistant librarian, Mar. 13, 1944.

The Secretary was directed to call the roll, and the members respectively voted as follows:

YEAS—Messrs. Foley, McDevitt, Norton, Ward and White—5.

NAYS—0.

The Chairman declared Josephine A. Kelley appointed assistant librarian, to take effect on the date stated.

SPECIAL CLASSES

A communication was received from the Superintendent, under date of Mar. 7, 1944, reporting that subject to the approval of the School Committee, he has established a special class in the Agassiz District, to take effect Mar. 1, 1944.

Approved.

APPOINTMENT OF CLERICAL ASSISTANT

A communication was received from the Superintendent, under date of Mar. 7, 1944, reporting that subject to the approval of the School Committee and with the approval of the Division of Civil Service, and the Commissioner of Public Safety, he has appointed Beverly Keating as clerical assistant, fourth year, Harvard and Warren Districts, by transfer from the Massachusetts Public Safety Department, to take effect Feb. 17, 1944.

Placed on file and the appointment approved, to take effect on the date stated.

ADVISORY COMMITTEE

A communication was received from the Superintendent, under date of Mar. 7, 1944, submitting the following appointment to the Advisory Committee on the Co-operative Industrial Course, Brighton High School, for the term ending Aug. 31, 1946:

Harry P. Grages, Secretary-Business Representative, Central Labor Union of Boston, 120 Boylston st., Boston.

Approved.

LEAVE OF ABSENCE TO SUPERVISOR OF ATTENDANCE

A communication was received from the Head Supervisor of Attendance, under date of Feb. 29, 1944, recommending that Anna B. McCue, supervisor of attendance, be granted further leave of absence for the period Mar. 1 to May 31, 1944, inclusive, because of personal illness.

Placed on file and leave of absence granted for the period specified.

RESIGNATION OF SUPERVISOR OF ATTENDANCE

A communication was received from the Head Supervisor of Attendance, under date of Mar. 7, 1944, transmitting the resignation of William H. Hawkins, Jr., as supervisor of attendance, to take effect Feb. 29, 1944.

Placed on file and the resignation accepted, to take effect on the date stated.

APPOINTMENT OF SUPERVISOR OF ATTENDANCE

A communication was received from the Secretary under date of Mar. 7, 1944, reporting that the Division of Civil Service has certified the following-named persons as eligible for appointment as supervisor of attendance in the Department of Attendance:

James A. Sullivan, John G. McCarthy, Ernest P. Monroe.

Placed on file.

On motion, James A. Sullivan, who stands highest on the list, was duly appointed supervisor of attendance, third year, Department of Attendance, to take effect Mar. 20, 1944.

CHIEF CLERK, OFFICE OF BUSINESS MANAGER

A communication was received from the Business Manager, under late of Mar. 7, 1944, recommending, with the approval of the Department of Civil Service and Registration, the temporary transfer of Joseph W. Fellows from the position of Voucher Clerk to that of Male Chief Clerk at a salary of \$65 per week, for a period of six months, pending the result of a competitive promotional Civil Service examination.

Placed on file.

On motion, it was

ORDERED, That Joseph W. Fellows is temporarily transferred from the position of Voucher Clerk to that of Male Chief Clerk at sixty-five dollars (\$65) per week, to take effect Mar. 15, 1944, for a period of six months, pending the result of a competitive promotional Civil Service examination.

RESIGNATION OF CUSTODIAN

A communication was received from the Acting Schoolhouse Custodian, under date of Mar. 7, 1944, reporting the resignation of Francis J. Sheehan, senior custodian, Hugh Roe O'Donnell School-house, to take effect Feb. 19, 1944.

Placed on file and the resignation accepted, to take effect on the date stated.

RETIREMENT OF CUSTODIAN

A communication was received from the Acting Schoolhouse Custodian, under date of Mar. 7, 1944, reporting the retirement from active service of Joseph T. Keenan, senior custodian, Benjamin Pope School-house, a member of the Boston Retirement System, to take effect Feb. 28, 1944.

Placed on file.

LEAVES OF ABSENCE TO CUSTODIANS

A communication was received from the Acting Schoolhouse Custodian, under date of Mar. 7, 1944, recommending that the following-named custodians be granted leaves of absence on one-half compensation for the periods specified because of personal illness:

Thomas F. Barry, senior custodian, Harriet A. Baldwin School-house, Mar. 7 to Apr. 30, 1944, inclusive.

John Dellea, senior custodian, Henry Vane School-house, Mar. 1 to 31, 1944, inclusive.

James E. Quinn, junior custodian, Mary E. Curley School-house, Feb. 22 to Mar. 31, 1944, inclusive.

George E. Whittemore, junior custodian, Dorchester High School for Boys, Feb. 27 to Mar. 31, 1944, inclusive.

Placed on file and leaves of absence on one-half compensation granted for the periods specified.

TRANSFERS OF CUSTODIANS

A communication was received from the Acting Schoolhouse Custodian, under date of Mar. 7, 1944, recommending the rescinding of the action of this Committee at the meeting of Feb. 15, 1944, which approved the transfers of Philip D. Doherty, senior custodian of the Bigelow School-house, and John B. Houlihan, senior custodian, Richard Olney School-house.

Placed on file and the action approving the transfers rescinded.

EMPLOYMENT OF WOMEN TEACHERS AFTER MAR- RIAGE

Chairman: If there is no objection we will take up the question of possible suspension for the duration of the regulation requiring resignation of women teachers who marry.

Now that we have the full committee, I believe the members are ready to vote.

The chair recognized speakers from the floor as follows:

Mr. Jack Prager: I would like to make a brief statement. I am here representing the Massachusetts State CIO. At the outset I would like to say that I did not think it would be necessary for our organization to send a representative here again on this matter.

It was our expectation and our hope that the petition that was presented to your Committee several weeks ago would have been passed favorably by you gentlemen. However, it was not.

Our surprise was not only in the fact that it was not passed but that there was no public statement as to the reasons why it was rejected. Our organization would like to have the reasons why it was rejected made known to the public.

So far as Mr. Norton's motion is concerned, that was presented at your conference, I would like to have it noted here by the Committee members that although the motion does not fully coincide with the policy of the CIO, nevertheless, for want of a better one, we believe it is a progressive step, and I would like to have it known that the Massachusetts State CIO want to go on record as being in favor of Mr. Norton's motion.

Chairman: Question comes on suspending for the duration the regulation requiring the resignation of women teachers who marry.

Mr. Norton: There has been a question raised as to the rule of 1880. This memorandum that I have here reads as follows:

"This rule is not on the books and has not been on since its adoption. For instance, this rule is not to be found in the Rules of years 1883, 1888, 1893, 1895, 1897, the only years examined. There is much collateral evidence to suggest that the Rule was not enforced. It was not initiated by any Superintendent.

"The rule at issue was adopted in 1900, stating that marriage constitutes automatic resignation for female teachers.

"The 1880 Rule—never printed in the Rule books—reads as follows:

"No married women shall be employed as a teacher in the public schools, except by favorable action of the Board, upon a report of the Division Committee, stating the reason in each case why such appointment should be made."

"This would probably preclude using them as substitutes or in any other capacity."

Last week the main motion was that the rule of 1880, as understood by the majority of the members of the Board to be in effect, shall be retained,—that when a woman marries she shall automatically lose her job as a teacher.

At that time I suggested an amendment and that amendment was to the effect that the rule be abrogated for the duration of the present war period. As I understand it, that is what we are now voting on.

Mr. Ward: A suspension of the rule I believe is unnecessary, because the widows of all veterans are allowed to re-enter the school system on the completion of an examination in a single subject. This is practically a reinstatement.

The wife of any veteran who is incapacitated and is dependent on herself for support is accorded the same privilege under the School Department rules.

Mr. White: There seems to be an opinion that we should abrogate this rule on account of the great shortage of teachers. In the Boston school system we have no shortage of permanent teachers, and we have a waiting list of 1500 girls on various lists from primary grade to high school, waiting to be appointed.

Mr. Norton: Those are 1500 graduates of Boston Teachers College?

Mr. White: On our various lists there are 1500 girls, from primary grade to high school.

Mr. Norton: After listening to the argumentation that has taken place here I am of the opinion that when a woman marries at present she is automatically discharged and loses her job. If she comes back she does so at a much lower salary.

Mr. Ward: I think it is up to the Committee to determine that.

Mr. Norton: Have we ever had a teacher marry and come back at the same salary?

Mr. White: Once she gives proof that her husband is dead, or incapacitated and unable to support her, we allow her to take an examination in the major subject and be readmitted to the school system.

Mr. Norton: How many of those have there been?

Mr. White: I know of at least seven.

Mr. Norton: Did they come back at their old salary?

Mr. White: They came in at the minimum salary and received the regular increments.

A year ago, as a result of a petition, the School Committee, in a recommendation to the Board of Apportionment, said that we would make an adjustment in the salaries of those re-entrant widows. The Business Manager quoted a law that said we could not change a salary schedule in the middle of the year; that changes in the salary schedule must take effect September 1.

Mr. Norton: As far as I can find out not one person has come back at her former salary. When a teacher marries she loses her increments.

Mr. White: We have a considerable number of married women teachers who are engaged in teaching the incapacitated children.

Mr. Norton: At a very reduced salary as compared to their regular salary.

Mr. White: A married woman with children wants an assignment near her home.

Mr. Norton: If I listen much longer to this argument I am afraid I will agree that a married woman has just as good a chance in the Boston schools as a single woman.

Chairman: You have a right to your own thought.

The question comes on the suspension for the duration of the regulation requiring the resignation of women teachers who marry.

Mr. Norton: Every large city in the country, including twelve or thirteen of the very largest, gives the married woman teacher a chance to hold her job after marriage.

Mrs. Rose Norwood: I represent the Boston Women's Trade Union League. We have gone on record for a number of years that women should maintain the same standard of wages whether they are married or single.

It seems to me that we have both the A. F. of L. and CIO on record for this measure and there have been all kinds of subterfuges and excuses, and it seems to me you are confusing the issue.

Here is a woman who has a profession, who has been teaching for a number of years and, because she married, she loses all her rights and everything else. It seems to me you are not looking at it fairly.

Mr. White: The one question for a School Committee to look at is, What is the greatest benefit to the youngsters in the schools and what is the best method of giving them an education? Along with that is the question by whom and how the giving of such an education is most efficiently administered.

Mrs. Norwood: Mr. Chairman:

Chairman: This is not a public hearing. We have not asked the proponents or the objectors to be heard.

Mrs. Norwood: If you are looking for proponents you have them here in the A. F. of L., the CIO and the Women's Trade Union League. If you are thinking of votes, you certainly have them for this measure.

Mr. White: We are not looking for votes. We are looking towards the welfare of the children.

Mr. Norton: Here we have a soldier, and if his wife comes back to teach she gets half the pay that she got as a regular teacher.

Mr. Ward: If he becomes disabled she can come back and eventually get her full salary.

Mr. White: By passing an examination in the major subject she comes back on the regular salary schedule.

Pfc. Lee A. Lorch, U. S. A.: At exactly one-half my wife's salary as an unmarried teacher.

Mr. White: Last year the School Committee recommended, after a review of the question, that an adjustment of the salaries for re-entrant widows be made in connection with the 1944 budget.

Mr. Lorch: On your docket today there was a petition of five re-entrant teachers for salary adjustment.

Mr. White: It was not denied. It is to be put in the budget as a mandate from last year's meeting. The action of last year was reaffirmed.

Mr. Lorch: My furlough is about up and I will not be around here for any hearing. I am making it quite clear that I am not speaking in any sense as a member of the Army, but I would like to place on the record my own thoughts.

I am stationed out in Will Rogers Field, Oklahoma. When I showed some people out there or told them what had happened to a lady who committed the crime of matrimony, that she was penalized and dismissed from her employment, they would not believe me. I had to write my wife and get the clippings from the Boston papers. What has happened here does not happen elsewhere.

In order for me to feel at all certain that my wife's future will be taken care of, I understand I will have to be killed or incapacitated. For instance, if I were to come back and find a little difficulty in securing employment—I have no job to come back to and I have no money to fall back upon—my wife is in the same situation.

The only real hope I have that my wife might have a chance to pursue her chosen profession, to which she has given her entire adult life, is that I be killed, or incapacitated to the satisfaction of the School Committee. She would have to prove to the Committee's satisfaction that I had been incapacitated in order for the Committee to consider her need.

If I am killed, or incapacitated to the satisfaction of the Committee, my wife, whose present salary is in excess of \$2,300, would be permitted to re-enter the system under the present rules at \$1,200, or approximately half of her present salary. No matter what any member of the Committee says as to what might happen in the future, that is the present situation, and that is the thing I have to bear in mind in going back.

I am very sorry that a person who was an efficient and an effective teacher over a period of many years, who was following her profession satisfactorily and happily, should be cut off from that income because of her marriage to me.

As a result I have to go back with the thought in mind that no matter what would happen to me during my time in the Army, or if I do not come back from the Army, there is not the assurance that the rest of her life is secure.

The question of what happens to the education of the children of Boston is something for you folks to decide. Of course, a teacher who has taught many years is presumed to be a more effective and capable teacher than one who has had no such experience, and it is too bad that she is thus dismissed from the system.

Mr. White: For the benefit of those interested, I would like to say she is not being dismissed from the system. She resigned from the system. She is teaching at present at the salary schedule established for temporary teachers and she is pursuing her chosen occupation as a teacher in the schools. She is not deprived of following her own occupation. That is not cut off at all.

She is now teaching in the Boston schools at the salary established for those doing temporary work, either per diem or on long-term assignment.

Mrs. Lorch: I did not resign. I was notified that I was retired because of marriage. Although I was retired, the notification did not say anything about a pension. It did say I was retired.

I would like to mention one thing, if I may, and that is the fact that the people who have come here to plead for a change in the rule, either a permanent change or a change for the duration, were people representing reputable organizations, people of standing in the community, from labor organizations or other well known organizations. The people who came up here to oppose the abrogation of the present rule, with the exception of the substitute teachers who felt they had reasons for opposing it—and I am making a distinction between them and the very rowdy people who appeared here for the retention of the present rule—

Mr. White: I thought the people who represented the opposition were a very high type. I consider Miss Birmingham an outstanding young lady. She is a woman for whom I have profound respect.

Mrs. Lorch: I have received letters from people who thought that those people were teachers. I would like to make it clear that no teachers were among those extremely rowdy individuals.

Chairman: As Chairman of this Committee I did not see any rowdiness here. I would not stand for any rowdiness. I thought it was a well conducted meeting. I saw you reading a paper and paying no attention and talking promiscuously to everybody around you and creating quite a disturbance. You were the only one that I could see out of order.

Mrs. Lorch: There was a great deal of hissing, booing and so on, and it was not stopped by the Chairman.

Chairman: I stopped it. The only one I spoke to was you, and you needed to be spoken to.

Mr. Norton: For the purpose of the record I object to firing a teacher who has married a soldier.

Chairman: For your information we have not fired any teacher. When they marry they automatically discharge themselves.

Mr. Norton: I take exception to each and every word that you state.

I object to firing a teacher when she marries a service man.

I have introduced my amendment. I take exception to anyone who says we do not fire teachers who marry. I take exception to the statement that the last meeting was properly conducted and merely refer to the newspaper accounts by those reporters who were here at that meeting.

Mr. White: I do not think you can pick out who was disorderly. I do not think you can identify them by name. The statement was made here that it was the opposition.

As a matter of fact, I move now that we postpone action on this and give an opportunity to the opposition to be heard.

Mr. Norton: Bring them in.

Mr. White: I am speaking of these accusations that are being made by one group as against the other. I could not say which group was the more disorderly. I heard two people behind me yelling at each other and they were on opposite sides.

A statement was made which might imply that the person who made the speech was in some measure responsible for the conduct with which fault was found, and the only exception to the charge of rowdiness was the teachers. Only in some instances could I distinguish those who were teachers. I thought Miss Birmingham conducted herself properly and made a very orderly presentation.

Mr. Norton: There is nobody making any objections to Miss Birmingham.

Mr. White: An inference was left here that there was rowdiness. A group in back of me was very noisy but I do not know who were in the group.

Chairman: Are the members prepared to vote on the motion for the suspension for the duration of the regulation which provides that the marriage of a woman teacher shall operate as her resignation?

As a result of roll call, the motion failed of passage by the following vote:

YEAS—Mr. Norton—1.

NAYS—Messrs. Foley, McDevitt, Ward and White—4.

SURVEY COMMITTEE

Mr. Norton: I am presenting this motion—that Professor Strayer be asked to place a Jesuit from Boston College on his Board that is making a survey of the Boston schools.

The Jesuits are among the world's greatest educators. Their impact upon Boston's secondary and collegiate education is second to none. Members of the Boston School Committee would like to have a Jesuit's opinion on the present Boston school set-up.

We asked that at the first meeting and, as I understand, it has not been done. There is a lay teacher on there.

Chairman: Does the Committee want to take this under advisement and look over the list?

Mr. White: I had nothing to do with the selector of Dr. Strayer. It seems to me that is beyond our jurisdiction.

Mr. Norton: This is merely a suggestion to him. On that Survey Board there are representatives of the various colleges.

There being no further objection, it was agreed to suggest to Dr. Strayer that a member of the Jesuit Order from Boston College be invited to assist him in the survey of the Boston Public Schools.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

CIVIL SERVICE EXAMINATIONS.
(STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

SOCIAL WORKER, DEPARTMENT OF CORRECTION, MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,440 a year plus a temporary increase of \$240; the maximum salary is \$2,160 a year.

Vacancies: At present there are the following vacancies:

One vacancy for a permanent Social Worker at State Prison.

One vacancy for a permanent Social Worker in the main office of the Department of Correction.

One vacancy for a male military substitute at Massachusetts Reformatory, due to induction into the service of the permanent employee.

One vacancy for a male military substitute at State Farm, due to induction into the service of the permanent employee.

Duties: To interview inmates for detailed information concerning personal history, family history, personality, etc., as a basis for field investigation; to contact by visit and correspondence sources of information such as police, courts, social agencies, family members, etc.;

to compose detailed case histories from field investigation notes and correspondence, concluding with diagnosis and suggested treatments; to consult with and advise officials concerning cases presenting special institutional problems; to organize investigation material so that decision can be made concerning classification and suitability for transfer or commitment to other institutions; to assist in the selection of inmates suitable for transfer and to prepare detailed transfer summaries on inmates transferred; to make special investigations in the cases of alcoholics sentenced to the State Farm and Reformatory for Women, to assist their families in meeting special problems which might arise, and to assist in the rehabilitation of the alcoholics following their release; to perform certain specific clerical duties relating to the records of the alcoholics, such as records of their transfers, paroles, parole violations, revocation warrants, etc., and to handle notifications and inquiries received from courts, police, Massachusetts Board of Probation, social agencies, etc., concerning the alcoholics under the care of the Massachusetts Department of Correction.

Entrance Requirements: Applicants who have not reached their twenty-second birthday or who have passed their forty-fifth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Applicants must have had at least two years of satisfactory, full-time paid experience within the last five years in any or all of the following: (1) in work in a penal, probational, parole, or correctional institution, department, or agency, including training schools; (2) in work in a social case work capacity with an acceptable agency dealing with family or individual problems of maladjustment. *Substitution:* Graduation from a recognized college with major study in the social sciences may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

STATISTICAL MACHINE OPERATOR (I. B. M. MACHINES), MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,140 a year plus a temporary increase of \$240; the maximum salary is \$1,440 a year.

Vacancies: From time to time.

Duties: To operate I. B. M. machines, punching cards from data previously coded; and to perform related work as required.

Entrance Requirement: Applicants must have had at least six months' full-time paid experience in the operation of I. B. M. machines.

Subjects and Weights: Training and experience, 2; practical questions, including practical tests in the operation of I. B. M. machines, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CIVIL SERVICE EXAMINATIONS.
(STATE AND CITY SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

TELEPHONE OPERATOR, APRIL 29, 1944.

Last date for filing applications, Monday, April 10, 1944, at 4.30 p. m.

This examination is to establish eligible lists for the State service, for all cities and for such towns as are classified under Civil Service.

Salary: For State service, the entrance salary, with maintenance, is \$480 a year plus a temporary increase of \$240; the maximum salary, with maintenance, is \$900 a year. The entrance salary, without maintenance, is \$340 a year plus a temporary increase of \$240; the maximum salary, without maintenance, is \$1,260 a year. For the various cities and towns the salary ranges vary.

Vacancies: From time to time.

Duties: To operate a telephone switchboard; to perform simple clerical work in connection therewith; and to perform related work as required.

Subjects and Weights: Training and experience, 5; memory test, 1; practical questions, 4; total, 10.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

RADIUM PHYSICIST, DEPARTMENT OF PUBLIC HEALTH, APRIL 29, 1944.

Last date for filing applications, Monday, April 10, 1944, at 4.30 p. m.

Salary: The entrance salary is \$2,400 a year, plus a temporary increase of 15 per cent; the maximum salary is \$3,000 a year.

Vacancies: At present there is one vacancy at Pondville Hospital.

Duties: To supervise and keep in repair the radium emanation plant of the Pondville Hospital, and to take off radon emanation as required for the use of the department; to measure radium and radon applicators used in the hospital in terms of gamma radiation; to confer with the medical staff of the hospital upon request in working out desired ranges of radiation therapy; to advise and assist in the necessary calibration of the X-ray therapy apparatus of the hospital; to advise on the selection of radiographic and roentgen therapy apparatus for the uses of the hospital; to advise on the proper protection of the hospital personnel from direct and from scattered radiation.

Examples of Duties: Take off radium emanation and the preparation of radon seeds; measurement of dosages of radiation therapy in treatment of patients; calibration of institutional radiographic and X-ray therapy units; measurement of scattered radiation in connection with therapy and protection of hospital personnel.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR PAINTING THE INTERIOR AND EXTERIOR AND FIRE ESCAPES AT THE BIGELOW SCHOOL, FOURTH AND E STREETS, SOUTH BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority invites sealed proposals for painting work at the school as listed above.

Proposals will be received until 12 o'clock noon, Wednesday, April 12, 1944, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Tuesday, April 4, 1944, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be the public interest so to do.

JAMES J. MAHAR,
Superintendent of Construction.

(April 1.)

CITY OF BOSTON.

BOARD OF REAL ESTATE
COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about seventy-two hundred twenty-one (7,221) square feet of land on the easterly side of Hano street, Brighton (formerly), numbered one hundred ten (110) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5614, page 448, on Tuesday, April 4, 1944, at 11 a. m., on the premises, at a minimum price of five hundred dollars (\$500).

A deposit required at the time and place of sale of one hundred dollars (\$100), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
Chairman.

(Mar. 25-Apr. 1.)

CITY OF BOSTON.

BOARD OF REAL ESTATE
COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about forty-four hundred eighty (4,480) square feet of land, with the buildings thereon, on the southwesterly side of Greenfield road, Dorchester, numbered sixty-six (66) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5809, page 340, on Thursday, April 13, 1944, at 11 a. m., on the premises, at a minimum price of thirteen hundred dollars (\$1,300).

A deposit required at the time and place of sale of two hundred dollars (\$200), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
Chairman.

(April 1-8.)

CITY OF BOSTON.

BOARD OF REAL ESTATE
COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about two thousand five hundred thirty (2,530) square feet of land on the northwesterly side of B street, South Boston, consisting of two parcels, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5690, pages 12, 14, on Thursday, April 13, 1944, at 10 a. m., on the premises, at a minimum price of two hundred and fifty dollars (\$250).

A deposit required at the time and place of sale of fifty dollars (\$50), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
Chairman.

(April 1-8.)

THE SCHOOL COMMITTEE OF THE
CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER.

PROPOSALS FOR FURNISHING ART EDUCATION AND MANUAL TRAINING SUPPLIES (INCLUDING CRAYONS FOR KINDERGARTENS) FOR THE BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing and delivering at the several schools and to the Supply Room of the School Committee, as directed by the Business Manager, Art Education and Manual Training Supplies (including crayons for use in Kindergartens) as per schedule. Proposal forms, for which a charge is made, are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Art Education and Manual Training Supplies (including Crayons for Use in Kindergartens)." The bid must be in duplicate. One copy, signed by the bidder and accompanied by a certified check, payable to the City of Boston in the amount of at least 5 per cent of the total bid, must be left at the office of the Business Manager on or before 12 o'clock m. on Monday, April 17, 1944. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock m. of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The School Committee reserves the right to reject any or all bids and to accept the bid or bids which it deems best for the interests of the city. The successful bidders will be required to furnish a bond for not less than 50 per cent of the amount of the contract.

ALEXANDER M. SULLIVAN,
Business Manager of the School Committee.
(April 1.)

CITY OF BOSTON.

POLICE DEPARTMENT.

PROPOSALS FOR GASOLINE.

The Police Department of the City of Boston invites proposals for furnishing and delivering gasoline. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for \$1,000, payable to and to become the property of the Police Commissioner for the City of Boston, if the proposal is not carried out. Proposals will be publicly opened and read on Thursday, April 6, 1944, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required of the successful bidder in an amount equivalent to 50 per cent of the estimated contract amount.

THOMAS F. SULLIVAN,
Police Commissioner.
(April 1.)

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING THIRTY TOLLMAN-GUARD UNIFORMS FOR PUBLIC WORKS DEPARTMENT, TRAFFIC TUNNEL.

The Supply Department of the City of Boston invites proposals for furnishing uniforms for the Public Works Department for use in Traffic Tunnel, as per specifications contained in proposals which may be obtained at the office of the Supply Department, Room 1001, City Hall Annex. There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. Both bids to be sealed in envelopes marked "Proposal for Uniforms." The bids will be publicly opened and read on Wednesday, April 12, 1944, at 12 m., at Room 1001, City Hall Annex. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

FRANCIS X. LANG,
Superintendent of Supplies.
(April 1.)

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

TO HORIZONTAL RETURN TUBULAR BOILER
MANUFACTURERS.

The Superintendent of Construction of the Department of School Buildings of the City of Boston invites sealed proposals for furnishing two (2) horizontal return tubular boilers for the Edward Everett School, Pleasant street, near Upham's Corner, Dorchester, Mass., and giving bond of a surety company, satisfactory to the Superintendent of Construction therefor, in the full amount of the contract price. Only proposals obtained at the office of the Superintendent of Construction, 26 Norman street, Boston, Mass., signed by the bidder and left before 2 o'clock p. m. of Tuesday, April 11, 1944, at said office, with a certified check for \$300, payable to the city if the proposal is not carried out, will then and there be publicly opened and read. The proposal shall be made in duplicate, the one with the check to be submitted as indicated above, the other to be deposited with the City Auditor, City Hall, previous to the time named for opening proposals. The Superintendent of Construction reserves the right to reject any or all proposals.

The above is subject to the approval of the War Production Board.

JAMES J. MAHAR,
Superintendent of Construction.
(April 1.)

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PAINTING CONTRACTORS.

INVITATION FOR PROPOSALS FOR PAINTING THE INTERIOR AND EXTERIOR OF THE AMOS WEBSTER SCHOOL, HILTON STREET, HYDE PARK DISTRICT, BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority invites sealed proposals for painting work at the school as listed above.

Proposals will be received until 12 o'clock noon, Wednesday, April 12, 1944, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after Tuesday, April 4, 1944, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

JAMES J. MAHAR,
Superintendent of Construction.
(April 1.)

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about forty-seven hundred twelve (4,712) square feet of land on the southeasterly side of West Selden street, Dorchester, being lot seventy-four (74), W. O. Badge plan, dated May 20, 1893, recorded with Suffolk Deeds, Book 2151, page 104, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5614, page 336, on Tuesday, April 4, 1944, at 12 noon, on the premises, at a minimum price of two hundred and thirty-five dollars (\$235).

A deposit required at the time and place of sale of seventy-five dollars (\$75), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
Chairman.

CORRECTION.

CITY OF BOSTON.

DEPARTMENT OF SCHOOL BUILDINGS.

PROPOSALS FOR FURNISHING AND DELIVERING METALWORKING MACHINES IN VARIOUS SCHOOLS, BOSTON, MASS.

The Superintendent of Construction, Department of School Buildings, City of Boston, invites sealed proposals for furnishing and delivering metalworking machines in various schools, Boston, Mass. Forms of proposals may be obtained at the office of the Superintendent of Construction, fourth floor, 26 Norman street, Boston, Mass. Each proposal must be signed by the bidder, placed in an envelope, properly sealed, and marked "Proposal for Furnishing and Delivering Metalworking Machines in Various Schools, Boston, Mass.," and left at the office of the Superintendent of Construction, fourth floor, 26 Norman street, Boston, Mass., before 12 noon Tuesday, April 18, 1944, accompanied by cash or certified check, payable to the City of Boston, in the sum of \$250, to become and be the property of the City of Boston as liquidated damages, if, after an award is made to him, the bidder shall fail to enter into the contract therefor within ten days after notice of said award has been mailed to him. Bid bonds will not be accepted. Said proposals will then and there be publicly opened and read. Proposals must be made in duplicate, one with cash, certified check or certificate of deposit to be left as above, the other without cash, certified check or certificate of deposit to be filed with the City Auditor, City Hall, Boston, before the time stated above for the opening of proposals.

Plans and specifications may be obtained at the office of the Superintendent of Construction, Department of School Buildings, fourth floor, 26 Norman street, Boston. All plans and specifications must be returned in good condition to said office at the time of the filing of bids.

A bond of a surety company, approved by the Superintendent of Construction, in the full amount of the contract, to secure the due performance of the contract and the full protection of the city, will be required. The Superintendent of Construction reserves the right to reject any and all bids if it be in the public interest so to do.

JAMES J. MAHAR,
Superintendent of Construction.
(April 1.)

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about twenty-seven hundred sixty-four (2,764) square feet of land, with the buildings thereon, on the westerly side of Kingston street, Boston, numbered twenty-three (23) to twenty-five (25) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5544, page 169, on Tuesday, April 4, 1944, at 10 a. m., on the premises, at a minimum price of seven thousand dollars (\$7,000).

A deposit required at the time and place of sale of fifteen hundred dollars (\$1,500), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR OA-3 OR OA-4 ROAD ASPHALT.

The Supply Department of the City of Boston invites proposals for furnishing and applying road asphalt for construction, OA-3 or OA-4, as per specifications, and as required by the Public Works Department. The bidder must use the form of proposal to be obtained at the office of the Supply Department, Room 1001, City Hall Annex. There will be a charge of twenty-five cents (\$0.25) for each blank proposal taken out. Deliveries to be made on such streets as may be designated within the city limits, to be delivered as required. Proposals, with a certified check for \$300, payable to and to become the property of the City of Boston if the proposal is not carried out, will be left at the office of the Superintendent of Supplies, Room 1001, City Hall Annex, until 12 m., Monday, April 10, 1944, at which time and place they will be publicly opened and read. The successful bidder must furnish a bond for one half the total estimated amount of the contract with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. A duplicate bid, without check, must be left with the City Auditor prior to the time named for opening bids. Envelopes containing both bids to be sealed and marked "Proposal for OA-3 or OA-4." The Superintendent reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

FRANCIS X. LANG,
(April 1.) Superintendent of Supplies.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

REPORT OF AUDIT OF CITY OF BOSTON TREASURY DEPARTMENT ACCOUNTS MADE TO MAYOR TOBIN AND CITY CLERK AFTER SUBMISSION TO STATE DIVISION OF ACCOUNTS—REPORT PRESENTED TO DIRECTOR OF ACCOUNTS THEODORE N. WADDELL BY ASSISTANT DIRECTOR HERMAN B. DINE.

AUDIT OF CITY ACCOUNTS.

A report of an audit of the accounts of the Treasurer of the City of Boston was made by the State Division of Accounts, and was submitted to the Mayor on March 28, 1944. A copy was furnished to the City Clerk and in accordance with the provisions of section 40 of chapter 44 of the General Laws the following summary of the essential features of the report is hereby published by him in the *City Record*.

THE COMMONWEALTH OF
MASSACHUSETTS.

DEPARTMENT OF CORPORATIONS AND
TAXATION.

DIVISION OF ACCOUNTS.

STATE HOUSE, BOSTON.

March 28, 1944.

To the HONORABLE MAURICE J. TOBIN,
Mayor, and the CITY COUNCIL,
Boston, Mass.

GENTLEMEN,—I submit herewith my report of an audit of the books and accounts of the Treasurer of the City of Boston for the period from January 1, 1941, to December 4, 1942, made in accordance with the provisions of chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,
Director of Accounts.

MR. THEODORE N. WADDELL, *Director of Accounts*, Department of Corporations and Taxation, State House, Boston.

SIR,—As directed by you, I have made an audit of the books and accounts of the Treasurer of the City of Boston for the period from January 1, 1941, to December 4, 1942, and report thereon as follows:

The cash book was footed throughout for the period of the audit, the receipts being analyzed and compared with the records of the City Collector's payments to the Treasurer and with other available sources from which money was paid into the treasury. The recorded payments were totaled and compared with the Auditor's records of payments and with the approved warrants.

The cash in the treasurer's office at the close of business on December 4, 1942, was counted, the cash vouchers representing expenditures and advances to the several departments for petty cash and travel expense were examined and listed, and the bank balances were verified by reconciling the statements received from the several banks wherein city funds are deposited.

In reconciling the bank accounts it was noted that the sum of \$2,305.48, representing a deposit in the First National Bank of checks which were drawn on three banks that closed prior to the clearance of the checks and for which credit had been withdrawn by the depositor, is still being carried as a credit on the Treasurer's books.

In connection with the foregoing it was found that several dividend checks payable to the city and amounting in the aggregate to \$1,488.13 had been received

from the closed banks, but are being held by the Treasurer pending decision as to the status of the accounts in question. Since these dividend checks are from five to ten years old, it is recommended that immediate action be taken relative to their disposition, as well as to the checks on closed banks referred to above.

In reconciling the treasury payments of warrants, several duplicate payments, as well as overpayments and underpayments, were found, which have subsequently been corrected.

The savings bank books and securities representing the investments of the trust, investment, and sinking funds of the city were examined and listed, any securities in the process of registration being confirmed. The income from investments was proved and the expenditures were verified.

It was found that several trust fund principal and income accounts had been carried in the city general cash as well as in the trust fund accounts, and therefore it was necessary to eliminate these from the general treasury cash balance.

As of January 1, 1943, a new system of accounts was installed in the treasurer's office and all transactions were recorded in the journal and ledger for the period from January 1 to May 31, 1943. As of June 1, 1943, an adjustment was made reducing the city general cash by the balances of the duplicated trust fund accounts, and thereafter no trust fund

receipts are to appear in the city general revenue accounts other than transfers to the city of income to be expended and of collections of trust funds and income by the City Collector.

Warrants payable accounts have been incorporated in the new system of accounts, which will eliminate the necessity of keeping the books open long after December 31 for payment of warrants chargeable to the appropriations of the prior year, as has been the practice in the past. The books may now be closed for payments on January 10 in accordance with section 56A, chapter 44, General Law, with all charges properly entered on the books, any unpaid items being reflected in the warrants payable account and shown as liabilities on the balance sheet.

Appended herewith are tables showing a reconciliation of the Treasurer's cash and warrants payable accounts, as well as summaries of the trust, investment, and sinking fund accounts in the custody of the Treasurer.

During the progress of the examination of the Treasurer's accounts cooperation was received from the Treasurer and all employees, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts.

RECONCILIATION OF TREASURER'S CASH.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

PARK DEPARTMENT.

Upon March 27 the Mayor approved a contract with Walter Reed Corporation for rebuilding of baseball fields at Columbus Park Stadium, Gibson Playground, Joseph Lee Playground and Fallon Field. Bids opened Thursday, March 2, were as follows:

Walter Reed Corporation, \$23,645; William P. Herlihy, \$28,350; Baker & Co., \$34,755; Charles Struzziery, \$35,835; Charles Capone, \$36,525.

SCHOOL COMMITTEE.

The School Committee opened proposals for cleansing, sterilizing and reconditioning football equipment for Boston public schools on Thursday, February 10. The only bid received was from the Ivory System. Contract was awarded to the Ivory System under date of March 9, 1944.

The School Committee opened proposals for furnishing groundwood-sulfite writing paper in packages and blocks for Boston public schools on Wednesday, March 15. Bids were received from the following firms:

E. E. Babb & Co., Inc., Gledhill Brothers, Inc., J. L. Hammett Company.

Award was made to the lowest responsible bidder in accordance with specifications and standards and contract executed as follows: March 24, 1944, J. L. Hammett Company, \$7,203.60.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors and commercial institutions for furnishing supplies, labor, etc. Communications from the heads of the several departments were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, March 22, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—I respectfully request your Honor's approval to an expenditure in excess of one thousand (1,000) dollars for the cost of fire insurance coverage on five schools which are now occupied by the United States Government for the duration and six months thereafter in the lease as listed below:

Christopher Columbus School, Tileston street, North End; John B. Cashman School, Paris street, East Boston; Ulysses S. Grant School, Paris street, East Boston; Cyrus Alger School, Seventh street, South Boston; Samuel G. Howe School, Fifth street, South Boston.

I have checked with the United States engineers and they inform me that to the best of their knowledge and belief the Government will use these five buildings during the year 1944.

In lieu of rent the United States Government pays a sum equal to the cost of the fire and boiler insurance. It is a reimbursable item of expense. As the rates for this type of insurance are the same in all companies, no benefit would result to the city by public advertising.

Respectfully submitted,

JAMES J. MAHAR,
Superintendent of Construction.

FIRE DEPARTMENT.

BOSTON, March 13, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Subject to your Honor's approval, I shall enter into an agreement with the Charlestown Five Cents Savings Bank for the rental of the garage at 176 Blue Hill avenue, Roxbury. The monthly rental will amount to \$225. In the event that the garage is leased, sold, or otherwise disposed of, the Charlestown Five Cents Savings Bank will give this department a ninety-day removal notice.

The garage contains 11,626 square feet and is in good condition, with the exception of the heating system. The Charlestown Five Cents Savings Bank has agreed to put this system in proper operation at no cost to the city.

At the present time we have about twenty-five pieces of motor equipment, including ladder trucks, hose cars, pumping engines, and passenger cars for which we have no storage place. In many instances they must be parked in the open air during the winter time. Neither is there any space available for this equipment in other city-owned garages.

All of our fire stations are occupied to capacity with apparatus in service, O. C. D. trailer pumps and other equipment which must be kept on hand in the event that it is required during a wartime emergency.

The location of the foregoing garage at 174 Blue Hill avenue is near enough to our Maintenance Division Repair shop so that apparatus equipment and mechanics can be transferred between the two points in a very short time.

Very truly yours,

W. A. REILLY,
Fire Commissioner.

HOSPITAL DEPARTMENT.

BOSTON, March 23, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Your approval is respectfully requested for the purchase of mothers' milk for use in the Pediatric Department of the Boston City Hospital for one year from April 4, 1944.

It can only be purchased from the Directory for Mothers' Milk, Inc. Our costs average between \$800 and \$900 per month. This authorization is being requested at a cost not to exceed \$1,000 per month.

We are at present purchasing under your authorization of April 24, 1943.

Respectfully yours,

CARL DREYFUS, President,
Boston City Hospital Trustees.

BOSTON, March 23, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Your approval of the rental of rooms at the Franklin Square House for student nurses without having a lease drawn up is respectfully requested.

The costs will vary according to the number of rooms required. From time to time there is an overlapping of students between classes and we may have some months where the cost will be in excess of \$1,000.

Your approval of the above procedure as provided in section 30 of chapter 486 of the Acts of 1909 and amendments thereto, is respectfully requested.

(Continued on page 298.)

CONTRACTS AWARDED WITHOUT ADVERTISING.

(Continued from page 297.)

The present authorization as approved of by you will expire April 3, 1944, and, therefore, your approval from April 4, 1944, is respectfully requested.

Very truly yours,

CARL DREYFUS, *President,*
Boston City Hospital Trustees.

SUPPLY DEPARTMENT.

BOSTON, March 23, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of February 8, 1944, this department opened publicly advertised bids for furnishing 75,000 yards of toweling to the Park Department, to be delivered to the Paris Street Gymnasium, East Boston. This department canvassed all concerns which would normally be interested in this bid but at the public opening no bids were received.

Subsequent to the public opening, this department contacted the contractor which furnished this material in 1943, the Sparrow Chisholm Company, 140 Essex Street, Boston, and it agreed to furnish and deliver the 75,000 yards of toweling at its contract price for 1943 of eight and three quarter cents per yard.

In view of the above, I would respectfully request that permission be granted me to award a contract without further public advertisement to the Sparrow Chisholm Company for furnishing and delivering 75,000 yards of toweling to the Paris Street Gymnasium, at a price of eight and three quarter cents per yard.

This concern at the present time has in its possession about 50,000 yards of toweling and will shortly receive the remaining 25,000 yards and, as the price is considerably lower than our estimate, I would respectfully request that the permission asked for be granted. The approximate total of the contract will be \$6,562.50.

Respectfully yours,

FRANCIS X. LANG,
Superintendent of Supplies.

EXTENSION OF CONTRACTS.

HEALTH DEPARTMENT.

Bell Linen Service, Inc., has been granted an extension of time relative to furnishing laundry and service for delivery to the Health Department at various locations to May 31, 1944.

SUPPLY DEPARTMENT.

H. A. Johnson Company has been granted an extension of time relative to the purchase of groceries, canned goods, etc., for delivery to the city departments to April 30, 1944.

SKELETON FORCE FOR CITY HALL FRIDAY P. M. AND SATURDAY.

BOSTON, April 5, 1944.

To Heads of Departments.

Please be advised that only a skeleton force of employees will be maintained at City Hall from three o'clock, Good Friday, April 7, until twelve noon on Easter Saturday, April 8, as under the laws City Hall cannot be closed.

JOHN E. KERRIGAN,
Acting Mayor.

STATEMENT BY MAYOR TOBIN ON COMMEMORATION OF BATAAN DAY, APRIL 9, 1944.

"We in America can never repay the debt we owe the heroes of Bataan. Their deeds are imperishably enshrined in the hearts of all Americans. It is eminently fitting, therefore, that we remember these heroes with appropriate exercises on Bataan Day, April 9. Those who did not fall in defense of their flag are now prisoners of the Japanese. We know the day will come—and we pray that it will be soon—when our victorious troops will free them from their oppressors. We must pledge ourselves anew to do all in our power to hasten the day of freedom."

COMMISSIONER HYLAND ORDERS ALL DIMOUT RESTRICTIONS ON STREET LIGHTS REMOVED.

Public Works Department Commissioner George G. Hyland has made public the following letter to the Boston Edison Company:

BOSTON, April 5, 1944.

BOSTON EDISON COMPANY, 39 Boylston Street, Boston, Mass.

Attention Mr. Edgar F. Stevens, Municipal Sales, Power Sales Division.

DEAR SIRs,—In the interests of public safety I request that immediate steps be taken to remove all existing dimout shields that are located on all the street lights in this city that are under your jurisdiction.

In issuing this order I realize that it will be impossible for you to replace all of the shields within the required twenty-four-hour period in the event that the dimout program is ordered resumed, at any time in the future, by a Federal order. While it will not be possible to replace the shields on all of the lights within such a period, you will be able to replace at least 10 per cent within such time, and all of the shields could be replaced, therefore, within a week or ten days after the effective date of the resumption of the dimout program.

Under such circumstances, pedestrians would be subjected to hazardous conditions for a period not in excess of a week or ten days, because it is my understanding that all lights that cannot be dimmed out within a twenty-four-hour period will have to be blacked out until such time as the shields have been replaced.

In view of this, therefore, and taking into consideration that the resumption of the dimout program is remote, I feel that the hazards that might possibly exist to pedestrians during the above-referenced week or ten days are more than offset by the hazardous conditions that will exist to pedestrians if the shields are allowed to remain on the lights for the duration of the war.

I feel, therefore, that it is in the interests of the safety of the general public to start immediately on the removal of all outside shields, and I issue this order with the understanding, as stated in a bulletin of December 23, 1943, that was issued by Daniel Needham, that the responsibility for this action will rest on the undersigned.

In order to provide for the replacing of these shields, in the event of the resumption of the dimout at any time in the future, kindly store them in a location where they will be easily accessible for use.

Yours very truly,

GEORGE G. HYLAND,
Commissioner of Public Works.

BUILDING DEPARTMENT.

APPLICATIONS RECEIVED BY THE BUILDING COMMISSIONER TO DO GAS FITTING FOR THE WEEK ENDING APRIL 5.

GAS FITTER.	Location.	Ward.	Nature.	Estimated Cost.

WARNS OF AUTO ACCIDENTS.

Traffic Commissioner William P. Hickey warns pedestrians to be more careful when crossing our streets and to be especially alert after dark.

Last year, in Boston, fifty-nine pedestrians were killed by motor vehicles. Thirty-nine of these deaths occurred between sunset and sunrise. More than 60 per cent of the pedestrian fatalities happened between intersections. Three out of every five pedestrians killed were over fifty years old.

The records show that women are more cautious than men. Three males were killed to every female. That agility is important is evidenced by the fact that no one between the ages of fourteen and thirty-six were killed.

FIRE DEPARTMENT ORDERS.

General Order No. 23.

I. ASSIGNMENTS OF MEN ON PROBATION.

The following-named military substitutes for firemen, who are now working in this department, will be assigned as men on probation, to take effect at 8 a. m., Wednesday, April 5, 1944:

Harold M. Magee, Engine Company 41.
Timothy J. O'Reilly, Jr., Engine Company 3.

Joseph R. Sullivan, Ladder Company 6.
Henry E. Sacco, Engine Company 11.

II. RETIREMENT.

The following retirement, which will become effective at 8 a. m., Wednesday, April 5, 1944, is hereby announced:

Hoseman Henry A. Kane, Engine Company 13.

Hoseman Kane was appointed to the department October 16, 1909, and he leaves the department with the best wishes of his associates.

III. RESIGNATIONS.

The following resignation, which became effective at 8 a. m., Thursday, March 30, 1944, is hereby announced:

Military Substitute Archibald A. MacInnes, Engine Company 49.

The following resignation, which became effective at 8 a. m., Saturday, April 1, 1944, is hereby announced:

P. M. S. Joseph Bonelli, Engine Company 40.

Military Substitute MacInnes was appointed to the department January 5, 1944, and he leaves the department in order to enter military service. P. M. S. Bonelli was appointed to the department November 17, 1943.

IV. ACTING DISTRICT CHIEF.

Captain Thomas M. Manning of Rescue Company 2 is hereby designated as Acting District Chief of District 8, effective as of March 8, 1944, in place of Capt. Walter E. Crouch, who was promoted to Military Substitute District Chief on that date.

V. INDEX TO GENERAL ORDERS.

The Index to General Orders for the year 1943 is being issued to the department today.

VI. A. D. T. ASSIGNMENT.

The following signal number is to be added to running cards of the A. D. T. Company in this department:

Signal 557, Robert Bishop Manufacturing Company, 157 West Sixth street. (Sprinkler System.) Apparatus to respond: Engine 1, Ladder 5, District Chief 6. Nearest box is 7226.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

WILLIAM F. QUIGLEY,
Acting Chief of Department.

RETIREMENT BOARD REPORT.

To the Auditor.

At meetings of the Boston Retirement Board held on the following dates, March 10, 15, 22, 24 and 29, the retirement from active service of the following-named employees of the Boston Retirement System was approved to become effective at the close of business March 31, 1944:

COLLECTING DEPARTMENT.

LeForrest A. Hall, bookkeeper and clerk, salary at time of retirement \$3,700 a year.

DEPARTMENT OF SCHOOL BUILDINGS.

Arthur T. Wilson, inspector, salary at time of retirement \$2,700 a year.

FIRE DEPARTMENT.

John E. Lamb, ladderman, salary at time of retirement \$2,300 a year.

HEALTH DEPARTMENT.

Edward C. Murphy, inspector, salary at time of retirement \$2,300 a year.

HOSPITAL DEPARTMENT.

Joseph Horgan, jobber, salary at time of retirement \$1,560 a year.

PUBLIC BUILDINGS DEPARTMENT.

Mary M. Isaac, cleaner, salary at time of retirement \$1,040 a year.

PUBLIC WORKS DEPARTMENT.

Storrs L. Durkee, supervisor, salary at time of retirement \$3,300 a year.

William Flaherty, gateman, salary at time of retirement \$2,158 a year.

James P. O'Mara, foreman, salary at time of retirement \$2,500 a year.

Charles A. Magee, chauffeur, salary at time of retirement \$1,800 a year.

SUFFOLK COUNTY.

Richard F. Tobin, court officer, salary at time of retirement \$2,500 a year.

Leo I. Thomas, watchman, salary at time of retirement \$1,664 a year.

Attest:

W. J. DOYLE, Chairman.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of construction of a concrete tunnel by the Hersey

Manufacturing Company, estimated to be sixty (60) days, vehicles are excluded from the following street, effective April 3, 1944:

Dresser Street, South Boston.
From E street to F street.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway construction, estimated to be thirty (30) days, the following rules are effective March 31, 1944:

The following street is one way in the direction indicated:

Washington Street, West Roxbury.
From Columbus avenue to School street.

Parking of vehicles is prohibited in the following street:

Washington street, West Roxbury.
Both sides, from Columbus avenue to School street.

The rule excluding heavy trucks from the following street is suspended:

School Street, West Roxbury.
From Amory street to Washington street:

Voted, That as urgently required by considerations of public safety and convenience, during the period of the Metropolitan Opera Season, the following rules are effective from April 10, 1944, to April 15, 1944, inclusive:

Parking of vehicles is prohibited at any time in the following streets:

Huntington Avenue, Roxbury.
North side, from No. 319 to Forsyth street.

Opera Place, Roxbury.

West side, from St. Stephen street to Huntington avenue.

St. Stephen Street, Roxbury.

South side, from Forsyth street to Opera place.

Parking of vehicles is prohibited in the following street, except during the following periods—8.15 p. m. to midnight on each day, 2.15 p. m. to 6 p. m. on April 12 and April 15, 1944:

East side, from St. Stephen street to Huntington avenue.

Vehicles shall be placed at an angle of forty-five (45) degrees to the curb, with left rear wheel to the curb, in the following street, during the following periods—8.15 p. m. to midnight on each day, 2.15 p. m. to 6 p. m. on April 12 and April 15, 1944:

Opera Place, Roxbury.
East side, from St. Stephen street to Huntington avenue.

The following street is one way in the direction indicated:

Opera Place, Roxbury.
From St. Stephen street to Huntington avenue.

POLICE DEPARTMENT ORDERS.

General Order No. 99.

The following transfer is hereby ordered, to take effect as of Friday, March 31, 1944, at 5.45 o'clock p. m.:

Patrolman John J. Madden, from Bureau of Criminal Investigation to Division 7.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 100.

Whereas, It appears that Patrolman Eric Mitchell of Traffic Division has performed faithful service in the Police Department for twenty-three and nine-twelfths years and that the Medical Board, provided for by chapter 521 of the Acts of 1922, has certified that the said Patrolman Mitchell is physically incapacitated, it is the judgment of the Police Commissioner that the said Patrolman Mitchell is permanently physically incapacitated for useful service in the Police Department on account of injuries received in the actual performance of duty as a police officer; therefore, it is hereby

Ordered, That, with the approval of his Honor the Mayor, the said Patrolman Mitchell be retired from active service in the Police Department under the provisions of chapter 353, Acts of the year 1892, as amended by chapter 6, Acts of the year 1920, and chapter 387, Acts of the year 1930, and that his name be placed upon the department pension roll with pay at the rate of eleven hundred and fifty (1,150) dollars per annum, said sum being one half of the amount of compensation received by him in the office from which he is retired.

The retirement of Patrolman Mitchell, as herein provided, will take effect at 7.45 o'clock a. m., Saturday, April 1, 1944.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 102.

The resignation of Provisional Temporary Patrolman George M. Coleman of Division 6 having been presented, it is hereby accepted, to take effect on Wednesday, April 5, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 103.

The resignation of Provisional Temporary Patrolman Frank B. Pietroski of Division 17 having been presented, it is hereby accepted, to take effect on Wednesday, April 12, 1944, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

THE AIRCRAFT CARRIER—AN AMERICAN IDEA.

No weapon has changed the history of modern times more than the aircraft carrier. America made the first ship-board takeoffs and landings. The first takeoff was by Eugene Ely flying a biplane in November, 1910. The first shipboard landing was made on an improvised deck installed on the U. S. S. Pennsylvania, two months later, January 18, 1911.

Today's modern American aircraft carrier is the largest ship afloat. She is fleet and well provided with hard-hitting anti-aircraft guns. She has both speed and striking power—for an aircraft carrier is the No. 1 objective of enemy bombers and torpedo planes.

CIVIL SERVICE EXAMINATIONS. (STATE AND CITY.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

STOREKEEPER, MAY 6, 1944.

Physical fitness to be determined by physical examination.

PROCEEDINGS OF CITY COUNCIL.

Monday, March 27, 1944.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. Scannell.

The meeting was opened with the salute to the Flag.

Coun. CAREY—Mr. President, I move, in the temporary absence of the chairman of the Committee on Appropriations, that we suspend for the time being.

President KERRIGAN—The Chair will suggest that we can go along in the meantime with other business, taking up the Appropriations later.

The motion was withdrawn.

ESTABLISHMENT OF RODENT EXTERMINATION DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Health Commissioner relative to your order of February 28, 1944, concerning the establishment of a rodent extermination department.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Health Department, March 20, 1944.
To Arthur C. Carey, Chief Clerk, Mayor's Office.
From G. Lynde Gately, M. D., Health Commissioner.

Subject: City Council Order Dated February 28, 1944, Regarding Establishment of a Rodent Extermination Department.

Dear Sir,—Your memorandum, accompanying City Council order re establishment of a permanent rodent extermination and prevention department, has been received. This is an extremely important order and I feel that considerable study will be necessary in order to properly express my views. I shall communicate with you further at the earliest possible date.

G. LYNDE GATELY, M. D.,
Health Commissioner.

Placed on file.

REDUCTION OF WATER RATES.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of March 13, 1944, concerning the reduction of the present water rates.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
March 27, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council on March 13:

"Ordered, That in view of the fact that the City of Boston is at present realizing a profit of approximately 20 per cent on water supplied to taxpayers, the Commissioner of Public Works be requested, through his Honor the Mayor, to take immediate steps to reduce the present excessive water rates proportionately."

The surplus resulting from the operation of the Water Service for last year totaled \$1,110,823.21, and the entire surplus under the present city administration totals \$4,886,784.72, as compared with a total deficit of \$734,113.06 that accumulated in the years 1931 to 1937, inclusive. I am making these comparisons only to show that under the present city administration the drive to make delinquent customers pay their bills and to operate the Water Service of this city on a sound business basis, has resulted in a substantial saving to the real estate owners in this city, and has been of benefit to those water customers who pay their bills on time, because, at the start of the present city administration serious consideration was given to increasing the water rates because of the deficit under which the Water Division of this department was operating.

Under the provisions of section 1 of chapter 324 of the Acts of 1914, the surplus income received each year from the operation of the Water Service is to be used to meet interest and sinking fund requirements, or serial loan payments on any bonded indebtedness of the City of Boston. Under the circumstances, therefore, a direct saving to the real estate owners of this city is accomplished by using Water Department surpluses for the latter-referenced purpose.

It is in the interests of the small home owner in this city to keep the present schedule of water rates in effect rather than to lower the rates, because, in my opinion, the increase in the real

estate taxes to the small home owner of this city will more than offset the saving that would result to him if the water rates were reduced. I might illustrate this point by the following example: The average home owner in this city, whose property is assessed for \$5,000, is required to pay approximately \$15 per year for water delivered to his premises. If the existing water rates were reduced 20 per cent, the same home owner would then be required to pay \$12 per year, but the total water revenue would be reduced approximately \$1,000,000 by this 20 per cent cut, with the result that the real estate taxes would have to be increased approximately 70 cents per \$1,000. Under the circumstances, therefore, the real estate tax bill of this small home owner would be increased \$3.50, which would more than offset the saving resulting to him by a decrease of 20 per cent in the water rates.

This increase in real estate taxes is due, in part, to the fact that the largest water consumers are not the home owners of this city, but industrial interests, and the Federal Government. The Federal Government is the biggest water customer that we have, and it is not required to pay any real estate taxes. Under the circumstances, therefore, a reduction in water rates would effect a direct saving to the Federal Government, but this saving would have to be made up entirely by real estate taxes.

In view of the circumstances, therefore, I feel that it is in the best interest of the property owners of this city—and particularly the small home owners—to keep the present schedule of water rates in effect.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

ERECTION OF VETERANS' HOSPITAL AND WAR MEMORIAL FROM WHITE FUND.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel regarding your order of February 7, 1944, concerning the erection of a veterans' hospital and a war memorial in Boston from the income of the George Robert White Fund.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, March 21, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—There have been transmitted for my consideration and report the following two orders of the City Council dated February 7, 1944:

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to make a ruling on the power of the George Robert White Fund Committee to use the funds of the George Robert White Fund to erect a veterans' hospital in the City of Boston; and be it further

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to make a ruling on the power of the George Robert White Fund Committee to use the funds of the George Robert White Fund to erect a war memorial in Boston."

Because of the number and variety of the special restrictive provisions in the will of the late George Robert White, governing the expenditure of the income of the trust fund therein created, it is difficult to make a "ruling" as to the eligibility of any particular project, in the absence of rather full and detailed specifications of the proposed project. Speaking generally, however, and without intending hereby to make a "ruling" in any technical sense, it is my opinion (1) that said trustees do have the power to use said income to erect a "war memorial" in Boston; and (2) that it is doubtful whether the trustees of the George Robert White Fund have the power to use the income thereof to erect a "veterans' hospital" in Boston.

The expenditure of the income of the George Robert White Fund is governed by the terms of Article Fourteenth of the Will of George Robert White. So far as here material said Article Fourteenth provides as follows:

"I do now give all the rest and residue of my property of every nature to the City of Boston, the same to be held as a permanent charitable trust fund to be known as the George Robert White Fund, and the net income only to be used for creating works of public utility and beauty, for the use and enjoyment of the inhabitants of the City of Boston. It is my intention that no part of said income, however, shall be used for a religious, political, educational or any purpose which it shall be the duty of the City in the ordinary course of events to provide."

"Any work or works established from the Fund may be improved, extended, enlarged or added to from time to time, but the current expense of their care and maintenance shall be borne by the City. I also direct that no part of said income shall be mingled with other funds

or applied in joint undertakings; but that each work established under this gift shall be separate and distinct, and shall always bear in a conspicuous place a suitable inscription identifying it as erected or established from said George Robert White Fund."

"While I think that Boston has now few, if any, superiors in beauty and in the many privileges it affords to its citizens, yet I believe it has greater possibilities for the future, and there are several public blessings among those afforded by other cities,—such as a zoological garden and handsome buildings therefor, an aquarium, a forum of substantial proportions for public gatherings, etc.—which we do not possess. It is with such things as these in mind that I have established the foregoing trust fund."

"I can conceive that pressure might be brought to bear to use the income of this Fund for small and comparatively unimportant needs, which might be equally deserving and technically within the general scope of the Trust as heretofore expressed. A use of it for such purposes to any substantial extent would be contrary to my intention, which is that its income, accumulated if need be for a time long enough to make it sufficient, should be used only for important civic improvements." (Emphasis supplied.)

The conditions which any project must fulfill in order to comply with the requirements of said Article Fourteenth may be summarized as follows: The project must be,—

- (a) for a public charitable purpose;
- (b) a work of public utility;
- (c) a work of beauty;
- (d) for the use and enjoyment of the inhabitants of Boston;
- (e) a work which is separate and distinct;
- (f) a work which constitutes an important civic improvement rather than one which is small and comparatively unimportant;
- (g) a work of such character that the current expense of maintenance thereof may be borne by the City.

The project, at the same time, must be such that it will not be in violation of the prohibitions of Article Fourteenth, that is:

The project must not be,—

- (a) religious in purpose;
- (b) political in purpose;
- (c) educational in purpose;
- (d) a joint undertaking, but must be a separate and distinct work;
- (e) one which it is the duty of the City in the ordinary course of events to provide.

I. The income of the George Robert White Fund may be expended, in my opinion, for the purpose of erecting a "war memorial" of suitable design, size and utility.

A "war memorial" would be for a public charitable purpose.

"Gifts for the furtherance and inculcation of patriotism are charitable. *Molly Varnum Chapter D. A. R. v. Lowell*, 204 Mass. 487; *Old South Association v. Boston*, 212 Mass. 299." *Thorpe v. Lund*, 227 Mass. 474, 479.

A "war memorial" could be a work of public utility if it served some useful public purpose, such as that of a forum for public gatherings, or the like; could be a work of beauty; would not be religious, political or educational in purpose; need not be a joint undertaking; could constitute an important civic improvement if of sufficient size and suitable design; and would clearly be for the use and enjoyment of all the inhabitants of the City of Boston. It is not such a work as it is the duty of the city in the ordinary course of events to provide. The city has permissive authority to erect a "war memorial," but is under no mandatory requirement to do so. Finally, the current expense of the maintenance of a "war memorial" may legally be borne by the city. See G. L. (Ter. Ed.), c. 40, s. 5, cl. (12).

There would be no difficulty in having such a work bear a suitable inscription identifying it as erected or established from the George Robert White Fund.

II. The single difficulty, in my opinion, affecting a "veterans' hospital" as an object of expenditure of the income of the George Robert White Fund, arises from the requirement that such project must be "for the use and enjoyment of the inhabitants of the City of Boston." I think that such a project is feasible with respect to the other requirements of the will. While there might be some practical difficulties in attempting to coordinate the functions of such a hospital with the functions of a Federal veterans' medical or rehabilitation program and at the same time avoid engaging in a joint undertaking, conceivably such difficulties could be overcome. The current expense of the care and maintenance of a hospital may legally be borne by the city. G. L. (Ter. Ed.), c. 40, s. 4, s. 5, clauses (19), (20). Moreover, it is not the duty of the city, in any mandatory sense, in the ordinary course of events to provide a hospital. See St. 1858, c. 113; St. 1901, c. 518.

However, the requirement that the project must be "for the use and enjoyment of the in-

habitants of the City of Boston" probably would be interpreted as intending a use and enjoyment by all of the inhabitants, that is, open to the public generally, without restriction as to class, economic status or military status. In this respect, I incline toward the views expressed in an opinion of October 7, 1922, of former Corporation Counsel E. Mark Sullivan, who ruled that while income from the White Fund could be used for the erection of health units "provided they are open to the public generally," that income could not be used for such health units if they were to be "restricted solely to the use of the poor."

I should be inclined to a different view if the question dealt with a hospital open to all of the inhabitants of Boston without restriction, even if veterans were to receive incidentally a benefit therefrom. But it is at least doubtful that a "veterans' hospital" as such, restricted solely to veterans, would not conflict with the provisions of the White Fund trust.

Yours very truly,
FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

RESURFACING OF CERTAIN WARD 17 STREETS.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner relative to your order of March 13, 1944, concerning the resurfacing of Hooper street and Wellesley park in Ward 17.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
March 21, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council under date of March 13:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface the following streets in Ward 17: Hooper street, Wellesley park."

A survey will be made of the above-referenced streets to determine the necessity of resurfacing them this year.

In the event that it is deemed practical to resurface them, consideration will be given to effecting the improvement during the current year, if contract labor will be available, and if the War Production Board approves the release of the necessary roadway material needed to do the resurfacing work.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

ESCALATOR, NORTHAMPTON STREET STATION.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the President of the Boston Elevated Railway relative to your order of March 13, 1944, concerning the erection of an escalator at the Northampton street elevated structure.

Respectfully,
MAURICE J. TOBIN, Mayor.

Boston Elevated Railway Company,
March 22, 1944.

Mr. Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—In reply to request in order of the City Council accompanying your letter of March 16, I would say that it can only be determined by special study whether conditions at Northampton street lend themselves to the installation of an escalator without extensive structural changes.

Escalators are expensive to install in any location and they are also expensive to maintain. They have only been provided where conditions, together with volume of traffic, justify their expense.

In view of restrictions imposed by the War Production Board in regard to purchase of materials, it would not be possible for us to install an escalator at Northampton street at the present time.

Very truly yours,
EDWARD DANA,
President and General Manager.

Placed on file.

HEAT FOR CLEVELAND CIRCLE BUS SHELTER.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Boston Park Department regarding your order of February 21, 1944, concerning heat for the bus shelter at Cleveland circle.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, March 22, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of February 29, with inclosure, order from the City Council that the Park Commission provide heat for the bus shelter at Cleveland circle.

Please be informed it is almost impractical and impossible to heat that shelter without inclosing the entire area.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

BURIAL PLOT, EAST BOSTON.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Board of Park Commissioners relative to your order of February 21, 1944, concerning the establishment of a burial plot in East Boston.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, March 21, 1944.

Mr. Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—Referring to your communication, relative to City Council order of February fourteenth, calling for the establishment of a plot 100 feet by 100 feet in, or adjacent to the City of Boston cemetery on Bennington street, East Boston, for the purpose of burying deceased veterans of the East Boston district who die without near of kin to provide for their burial, said order is returned herewith.

This department has set aside large plots at the Mount Hope Cemetery for the interment of Boston residents who are honorably discharged veterans.

On November 7, 1900, the Cemetery Trustees voted to set aside a large plot of land at Mount Hope Cemetery for the interment of deceased Spanish War veterans. Twice since that time the size of this plot has been increased—it was last increased on March 17, 1940—so there is plenty of room for burial of veterans of that war.

On May 25, 1920, the Mayor approved a City Council order dated May 10, 1920, and the money was later provided, for the laying out and the establishment of a burial plot, at Mount Hope Cemetery, for residents of Boston who were veterans of the World War. The site selected, and laid out, provided for about 3,500 graves, and up to this time 483 graves have been used for the burial of veterans of World War I. A portion of this large plot has been set aside for the burial of veterans of the present war, and fourteen veterans of the second World War have already been buried in this area set aside for them.

These veteran burial plots at Mount Hope Cemetery are large, have room for expansion, and are a credit to the City of Boston. Honorably discharged veterans of Boston have plots, which are most attractive, already set aside for their burial.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

FLAGPOLE, FENS STADIUM.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Board of Park Commissioners relative to your order of February 21, 1944, concerning the erection of a flagpole in the Fens Stadium.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, March 22, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of February 24, 1944, with inclosure, order from the City Council that the Park Commission erect a flagpole in the Fens Stadium.

Please be informed it is almost impossible to obtain flagpoles at the present time. A list of play areas without flagpoles was made up by

this department and forwarded to the proper authorities to erect flagpoles on all the areas under our jurisdiction.

If it possibly can be arranged, I will be very pleased to erect a flagpole in the Fens area when we are sodding same.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

REPAIR OF BENCHES, RONAN PARK.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Board of Park Commissioners relative to your order of January 24, 1944, concerning the repairing of fences and benches in Ronan Park, Ward 15.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, March 22, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—This is to acknowledge receipt of your memorandum of February 25, with inclosure, order from the City Council that the benches and fences in Ronan Park be taken care of.

Please be assured I will obtain bids immediately to have this work done and it will be attended to early in the spring.

Very truly yours,
WILLIAM P. LONG, Chairman.

LEGISLATION RE DERATting OF BUILDINGS PRIOR TO DEMOLITION.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel regarding your order of February 28, 1944, regarding the preparation for the next General Court of a petition for appropriate legislation to require the deratting of buildings prior to demolition thereof.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, March 13, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—This will acknowledge the receipt of your letter of March 10, asking my consideration and report with respect to the order of the City Council requesting that there be prepared for the next General Court a petition for appropriate legislation to require the deratting of buildings prior to demolition thereof.

The request for the suggested legislation has been placed in the legislative file and will be given attention and consideration when the petitions are being prepared for the next legislative session.

Yours very truly,
FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

SURVEY OF DILAPIDATED BUILDINGS.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Building Commissioner relative to your order of January 17, 1944, concerning dilapidated, unsafe and dangerous buildings in the City of Boston.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Building Department, March 9, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Subject: Progress Report—Dilapidated, Unsafe and Dangerous Buildings.

Dear Mr. Mayor,—Supplementing my letter to you of January 24, 1944, which stated that a survey of unsafe, dangerous and dilapidated buildings in the city would be made, I submit herewith a progress report which incorporates in it, ward by ward, the number of buildings and structures found to warrant action by this department. Said buildings are in two classifications, namely, A and B. A being those found to be unsafe and dangerous and requiring immediate attention; B being those found to be dilapidated and unfit for occupancy, which through deterioration or vandalism may become unsafe and dangerous.

As of this date, our recapitulation of the work of the various inspectors in their respective wards shows a number of buildings requiring action, either in A or B, totalling 624, 261 A's and 363 B's. Of this number the building inspectors recommend that 387 be razed; 552 of the buildings tallied are now vacant.

The City Council order requests information as to the number of city-owned and privately-owned buildings. The work of obtaining correct ownership of privately-owned buildings is tedious and slow; however, the final report will contain the information desired by the City Council.

It is understood that the progress report lists the buildings recorded to date only; same is not and should not be considered to be complete, as the survey is still in progress.

That the gentlemen of the City Council may be conversant with some of the requirements of law relative to Building Department procedure in razing either city-owned or privately-owned buildings and structures, I list below the various steps involved to make a complete record of each building razed:

1. Street address.
2. Ward.
3. Type of construction (I, II, III, IV, V, VI).
4. Recording of inspector's complaint with date thereof.
5. Photograph building.
6. Establish ownership by checking records in Suffolk Registry of Deeds.
7. Serve complaint, "Notice of Violation of Law," upon owner.
8. Post building with attested copy of complaint.
9. Serve second notice of violation of law upon owner.
10. Refer case to Law Department for prosecution.

11. Record disposition of case.
12. Inspection to determine if emergency action is required.
13. Obtain estimates for shoring, securing, boarding up, or razing.
14. Obtain insurance certificates from contractor.
15. Send notice to owner that building is to be razed with municipal funds.
16. Request Mayor's approval to shore, secure, board up or raze.
17. Request Mayor's approval to vacate building.
18. Serve notice to vacate upon owner and tenants.
19. Award contract.
20. Send service order to auditor.
21. Check application; issue permit.
22. Mayor's approval of contract procedure requested.
23. Record completion date of work.
24. Approve contractor's bill on completion of work.
25. Submit contractor's bill to auditor for payment.
26. Render to owner an account for expense incurred.
27. Account committed to City Collector.
28. Lien statement prepared and filed in Suffolk Registry of Deeds.
29. Forward copy of lien to City Collector.
30. Record date of payment of contract.

Respectfully yours,

JAMES H. MOONEY,
Building Commissioner.

OPERATION OF EGLESTON SQUARE TRAFFIC LIGHTS TILL MIDNIGHT.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Boston Traffic Commission relative to your order of February 21, 1944, concerning the extension of the "Stop" and "Go" traffic lights at Egleston square until 12 midnight.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Traffic Commission, March 14, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This is to acknowledge receipt of the following Council order dated February 21, 1944: "Ordered, That his Honor the Mayor request the Traffic Commissioner to extend the 'Stop' and 'Go' traffic lights at Egleston square until 12 midnight and thus reduce the hazards created by heavy flow of traffic at this intersection."

In 1942, Joseph B. Eastman, Director, Office of Defense Transportation, requested the Mayors of all the cities in the country to retime, shut off, or reduce the traffic signal cycles when possible so as to conserve gasoline and rubber.

In compliance with Mr. Eastman's directive, we made changes in the operation of all our traffic signals. During the past year the signals in Egleston square were automatic in operation from 7.00 a. m. to 7.00 p. m., and were on flashing from 7.00 p. m. to 7.00 a. m.

Counts made on March 13, 1944, from 7.00 p. m. to midnight showed the following number of vehicles passing through Egleston square:

7.00 to 8.00 p. m., 540
8.00 to 9.00 p. m., 576
9.00 to 10.00 p. m., 474
10.00 to 11.00 p. m., 432
11.00 to 12.00 p. m., 246

I have issued orders that the traffic signals in Egleston square be operated automatically from 7.00 a. m. to 11.00 p. m. and as flashing signals from 11.00 p. m. to 7.00 a. m.

Respectfully yours,
WILLIAM P. HICKEY,
Commissioner.

Placed on file.

PRESENTATION OF STAGE SHOWS ON SUNDAY EVENINGS.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Chief of the Licensing Division of the Mayor's Office relative to your order of February 28, 1944, concerning the presentation of legitimate stage shows on Sunday evenings in Boston.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Office of the Mayor, March 14, 1944.
Mr. Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—With reference to the order submitted by Councilor Hannon and approved by that body, please be advised that legitimate stage shows can at present be permitted in the theaters of Boston and elsewhere in the Commonwealth under licenses issued by local authorities for programs approved by the Commissioner of Public Safety, as provided by chapter 136 of the General Laws.

In recent weeks a travelling company has presented Gilbert and Sullivan operettas on Sundays at the Opera House, "The Family Carnovsky" and other Yiddish plays have been presented at the Copley and Plymouth Theatres and Italian productions are presented regularly on Sundays at the Casino Theatre by the Nazzaro Company.

It is my experience that the theater owners of Boston are not interested in Sunday productions except under unusual circumstances.

Respectfully,
JOHN J. SPENCER,
Chief, Licensing Division.

Placed on file.

PUBLIC REPRESENTATIVE ON BOARDS OF DIRECTORS OF INSURANCE COMPANIES.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel relative to your order of February 28, 1944, regarding the preparation of a petition for presentation to the next General Court requiring the admission to

membership on the Boards of Directors of insurance companies of a member whose function will be to represent the interests of the public.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, March 13, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—This will acknowledge receipt of your letter of March 10, 1944, requesting my consideration and report on the order of the City Council that the Corporation Counsel, through his Honor the Mayor, be instructed to prepare for presentation to the next General Court a petition for legislation requiring the admission to membership on the Boards of Directors of insurance companies of a member whose function will be to represent the interests of the public.

The request for the suggested legislation has been placed in the legislative file and will be given attention and consideration when the petitions are being prepared for the next legislative session.

Yours very truly,
FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

LIGHTING FACILITIES, SAVIN HILL SECTION.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Commissioner of Public Works relative to your order of March 6, 1944, regarding the improvement of the present lighting facilities in the Savin Hill section of Dorchester.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
March 27, 1944.

Mr. Arthur Carey,
Secretary, Mayor's Office.

Dear Sir,—This is in reference to the following order that was passed in the City Council on March 6:

"Ordered, That the Commissioner of Public Works be requested to improve the present lighting facilities in the Savin Hill section of Dorchester, particularly on Savin Hill avenue, near Dillingham street."

An immediate survey will be made to determine to what extent the present street lighting facilities in the above-referenced section should be supplemented. After the completion of this survey, a request will be made to the War Production Board for permission to install whatever additional lights are deemed necessary; and in the event the necessary permission is obtained, arrangements will be made with the Boston Edison Company for the installation of the lights.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

FREE TRANSPORTATION ON ELEVATED FOR UNIFORMED SERVICE MEN.

The following was received:

City of Boston,
Office of the Mayor, March 27, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the President of the Boston Elevated Railway relative to your order of February 21, 1944, concerning free transportation on the Elevated lines for uniformed service men.

Respectfully,
MAURICE J. TOBIN, Mayor.

Boston Elevated Railway,
March 15, 1944.

Mr. Arthur C. Carey,

Chief Clerk, Mayor's Office.
Dear Sir,—In reply to order of the City Council received with your letter dated February 24 (received March 13), I would say that our trustees have considered previous requests that men in the armed forces of the United States be permitted to ride free on the Elevated for the duration of the war.

They recognize the spirit which prompts the requests, but under existing laws and conditions with reference to deficits and their assessments on the taxpayers of the communities served they do not feel that they have authority to grant the requests.

As far as we have been able to determine from a survey made by the American Transit Association, there is but one system where service men in uniform are carried free. Apparently nearly all of the street railway companies, including the publicly owned street railway system in Toronto, Canada, do not give such free service. This is undoubtedly due to the fact that war conditions have placed additional expenses on the street railways and because in many cities,

such as Massachusetts, the law does not permit the giving of such free service except to specified classes, such as policemen and firemen while on duty and in uniform.

The Government can, of course, as it does with mail carriers, provide service men with tickets with which they can ride.

Very truly yours,
EDWARD DANA,
President and General Manager.

Placed on file.

APPROPRIATION FOR "CLEAN-UP" CAMPAIGN.

The following was received:

City of Boston,
Office of the Mayor, March 22, 1944.
To the City Council.

Gentlemen,—I again submit and recommend the immediate passage of the accompanying order authorizing the expenditure of \$5,000 in connection with the "Clean-up" campaign.

The work of cleaning the city presents at least two problems:

The jurisdiction of the municipality is limited to the public streets and public alleys, and the city has no control over back yards, private ways and alleys and other private property.

In the matter of cleaning the public streets it is obvious that the large expenditures of money by the city for this purpose have no permanent effect if the cleaning work is almost immediately rendered valueless by the carelessness and negligence of those who litter up the streets with various kinds of waste material.

The cleaning of the back yards, private ways and alleys and other private property is in the control of the property owners.

For these reasons I have requested this appropriation of \$5,000, which is to be expended in an attempt to obtain the active cooperation of our people, both adults and children, in making Boston a cleaner city and starting a campaign of education against carelessness and negligence which will have a permanent value.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That a sum not in excess of five thousand dollars be, and hereby is, appropriated, to be expended under the direction of the Mayor, for printing, advertising and other expenses involved in the 1944 "Clean-up" campaign, said sum to be charged to the Contingent Fund when established.

Referred to Executive Committee.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Harlan H. Ballard, Jr., for compensation for injuries caused by an alleged defect at 111 Bay State road.

Rose Cohen, for compensation for injuries caused by an alleged defect at 14 Vesta road, Dorchester.

Dora Diamond, for compensation for damage to property at 354 Walnut avenue, Roxbury, during construction work.

Carmelo DiNatale, for compensation for damage to property at 26 Pheasant street, West Roxbury, caused during blasting.

George J. Higgins, for compensation for damage to car by car of Fire Department.

Annie Kelliher, for compensation for injuries caused by an alleged defect at 98 Maywood street, Roxbury.

LaNotizia Publishing Company, for compensation for damage to property at 34 Battery street, caused by break in water main.

Elisabeth Lazzarone, for compensation for damage to car by city vehicle.

John J. Leonard, to be reimbursed for execution issued against him.

Mrs. Owen J. McKenna, for compensation for injuries caused by an alleged defect at 1427 Centre street.

Jason Norton, for compensation for damage to car by city truck.

Labeebe J. Saquet, for compensation for damage to property at 38 Hanson street, caused by water in cellar.

Mary C. Sethares, for compensation for damage to car by Fire Department car.

Josie L. Stewart, for compensation for injuries caused by an alleged defect at 102 Norway street.

U-Dryvit Auto Rental Company, Inc., for compensation for damage to truck by police wagon.

United Heel Company, for compensation for damage to car by police car.

Committee on Licenses.

Petition of Catherine Lee for driveway opening at Western avenue, Ward 22.

CHILDREN'S PERMITS.

A petition was received from D. Tierney for children under fifteen years of age to appear at Jordan Hall on March 31.

Permit granted under usual conditions.

MINORS' LICENSES.

Petitions were received for minors' licenses from six newsboys and one bootblack.

Permits granted under usual conditions.

REPORT OF COMMITTEE ON CLAIMS.

Coun. D. F. SULLIVAN, for the Committee on Claims, submitted the following:

Report on petition of Walter Murray (referred February 21) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor truck belonging to Paving Division, Public Works Department—recommending passage of the accompanying order, viz.:

Ordered, That the sum of one hundred fifty dollars and ninety-eight cents (\$150.98) be allowed and paid to Walter Murray in reimbursement for amount of execution issued against him on account of his acts as operator of a motor truck belonging to the Paving Division, Public Works Department, said sum to be charged to the Contingent Fund.

Report accepted; said order passed.

MOTION TO GO INTO EXECUTIVE SESSION.

Coun. TAYLOR—Mr. President, I move that we go into Executive Session.

Coun. CAREY—Mr. President, I think very likely we will take a recess later, but at the present time I think there is business to transact here before we go into Executive Session.

President KERRIGAN—The Chair will state that while we are in recess we might as well go into Executive Session.

Coun. CAREY—Mr. President, we are not in recess yet, are we?

Coun. COFFEY—Mr. President, I believe that before we go into recess there may be some orders here upon which we should act, and if we should go into recess at this time we might not have a quorum later on.

The motion to go into Executive Session was declared lost.

PENSIONS FOR CITY EMPLOYEES AFTER TWENTY YEARS.

Coun. COFFEY offered the following:

Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to prepare legislation for presentation at the next session of the Legislature whereby city employees may be permitted to accept a pension by the city on half-pay after twenty years of service in order to create vacancies for returning veterans.

Coun. COFFEY—Mr. President, a month ago I introduced this same order, and I now hope that his Excellency the Governor will in his wisdom see fit at this special session of the Legislature to introduce a bill somewhat along the line of the order I have introduced today, to allow city employees who want to take a pension after twenty years of service to do so. I have had several requests from city employees who would like to have a pension after their twenty years of service, because they think it would be a good thing to make way for the boys who will be returning after the war; and I feel that this will furnish an opportunity to the Governor to show his patriotic feeling for the boys who have returned and who may return in the future.

The order was passed under suspension of the rule.

BONUS TO MASSACHUSETTS VETERANS OF WORLD WAR II.

Coun. COFFEY offered the following:

Ordered, That his Excellency the Governor prepare and introduce legislation at the next session of the Legislature, to be called on April 4, whereby a bonus will be given to all Massachusetts veterans of World War II.

Coun. COFFEY—Mr. President, I shall be very brief on this order. I think this will be a good way of showing appreciation of the services of our boys on the far-flung battlefields of the world. I trust, therefore, that his Excellency the Governor will see fit this year and next year to do something for the boys who are fighting our battles for us, through legislation at the coming session of the Legislature this next week. I certainly feel that some sort of bonus should be provided for the boys, not only for their morale but also to show that we in Massachusetts are not going to forget them. We gave a \$100 bonus after the last war, and I hope that his Excellency will see fit to recommend that we now give a bonus of \$200 or \$300 to the boys at next week's session of the Legislature. I trust, therefore, that the order will be passed.

The order was passed under suspension of the rule.

BUILDING OF NEW AIRPORT.

Coun. COFFEY offered the following:

Ordered, That his Excellency the Governor be requested, through his Honor the Mayor, to

introduce legislation at the legislative session to be called on April 4 of this year relative to the building of an airport on vacant land between Boston and Worcester or Boston and Providence, thereby eliminating a great waste of money on the expansion of the East Boston airport.

Coun. COFFEY—Mr. President, my view is the view of some 70,000 people who live in the East Boston district. In our opinion, this is nothing but a steal on the part of his Excellency the Governor and the Legislature. There is no more need of extension of that East Boston airport than there is for building of a second State House up on Beacon Hill. The people of East Boston don't want it. I think we are entitled to some voice in the matter. It is just a question of the American Airlines having some control over the Governor or some members of the Legislature or the Legislature in its entirety. Every pilot that I have talked to, and I have made it my business to talk to several, has said that the East Boston airport is in the worst situated place any airport could possibly be in. They said that the airport should be built inland, not out toward the water, where there is bound to be fog. We have opposed it for years there, opposed it from the day it first started. We don't want it, and we think we are entitled to some consideration in the matter. Last week a bomber was landing—it was just a four-motored plane—and it landed in the trees on Wood Island Park. From the effect of that we can imagine what is going to happen in the near future when we have these passenger planes with as many as eight motors, and God knows how many tons they will carry. We want safety in our town, and they are spending this money foolishly. They are going to take Governor's Island and dispose of that. They are going to take the Wood Island Park section, with a hill some 200 feet high, and dispose of that on both sides. I think that they would save millions of dollars if they went inland and took some vacant land between Boston and Worcester or between Boston and Providence, and everybody knows how much vacant land there is there. The filling in of occasional swamp land, making their runways would amount to very little, and they would save the State of Massachusetts millions of dollars. They have \$4,100,000 to spend on runways in East Boston, and I will give you an example of what that means. They had bids opened to see who would build those four runways, and only one man made a bid, a man from New York, and he asked 25 per cent more than they are allowed to spend on not only the building of those runways, but also for the making of channels and the tearing down of Governor's Island, and also the tearing down of Wood Island Park. Now, I saw the plans—not the real plans that they are hiding—but I saw the plans they have for the examination by some of those that might be opposed. General Hale showed me those plans, and he agrees, the same as everybody I have talked to, that it is a good thing for the city and the state, but God help East Boston. They are going to take Wood Island Park, the most natural playground in this country. It has eight ball fields, four tennis courts, a handball court, a quarter-mile track, and a gymnasium second to none in the country, besides two bathing beaches; and they are all going to be taken from the people of East Boston and they cannot be replaced because we haven't proper facilities to replace them. In addition, they are going to take Amerino Park. General Hale also admits that in the near future they will have to take houses along Prescott street, and also on Neptune road, one of the nicest sections of the town. In some instances they will have to remove chimneys, and in some sections they will have to remove houses. That means that before they get through with that section they are going to spend \$50,000,000 in the extension of that airport, and after they do the people of East Boston are going to face the danger of freight planes coming in. Even when the mail plane leaves and takes off to go from the Navy Yard, it passes over my house and every pot or pan on the kitchen stove or in the sink will shake from the vibration. And that is only a three-motored plane, and they are talking about these big airliners that are going to carry some eight engines in the near future. So you can imagine what that will be. We have held some four meetings with the Department of Public Lands. We couldn't get anybody from the state department or the Public Works Department or a representative of the Governor's office, nor anybody from the Ways and Means Committee, to come down. They have just railroaded this thing through. MacDonald, of MacDonald & Company, that owns the East Boston Development Company and every piece of vacant land in East Boston, and hasn't paid a cent of taxes on that, is going to step in and cut up another cake for himself, like he did two years ago when the Government took over a parcel of his land and gave him \$396,000 for it. It is the same thing now,—land upon which he owes taxes and has never spent a penny on. I say that the Governor is responsible for this steal, and it is nothing but a steal. It is no place for an airport, to begin with. It is a place where we could have docks, and one boat could bring in more freight than any number of passenger planes in the near future. I should think the Governor would be man enough to hold open hearings in the Governor's Council, and tell the people what his plans are regarding the \$4,700,000 which has been appropriated and which no contractor would take to do the job that is supposed to be done for the extension of that airport. It is being done piecemeal. They

are going to build one runway, and then another, up until the \$4,700,000 is disposed of, and then there is nothing they can do but step in and ask for additional sums, which they will do from year to year, and then try to make that one of the greatest airports in the country. And they are only doing it for two air lines, and you can mark my words that it will never be open for competition from other air lines. This is a matter that should be investigated by the Attorney-General, but I don't suppose he will do it, because he is back in the Governor's lap again.

Coun. CAREY—Will the clerk read the order again?

(The order was read by the clerk.)

Coun. CAREY—Mr. President, we have had orders in here before introduced by the councilor from East Boston concerning the East Boston airport, and I, for one, think that the time has come when we ought to have a showdown by his Excellency the Governor. A lot of people of Boston who, after all, are going to patronize these air lines, should know what is going on. The councilor states that there are two air lines at the present time that have a monopoly of our transportation business. As I see it, there is only one line, the American Airlines, conducting passenger service out of Boston. We have heard a great deal recently about post-war expansion. Land is being taken away in East Boston. There are, from what the councilor says, certain deals that are going on that only a very small group, as a matter of fact, is in on. I don't know what we have a City Council in the City of Boston for, when the Governor of the State, with his few close associates and allies, can consent to plans and developments within the city, and keep from the residents of the city information as to just what is going on. Of course, we all want to know and I, as a member of the City Council—I will use the word "demand" but it is a word that has very little meaning—demand that the Governor let us know what is going on. Of course, we want more than one competitive line furnishing service out of the City of Boston. Boston is in a sad state today. It is the Rip Van Winkle of the United States, and is becoming sounder in its sleep as time passes. The Committee on Appropriations has spent considerable time in discussing whether we would do anything in reducing the budget of the Boston Port Authority. As a matter of fact, the committee have voted to make some reductions in their appropriation, and why? The Boston Port Authority was established in 1914. Up to a very few years ago, if I recall correctly, we had four steamship lines serving Boston from the South and Southwest—at least four, the Morgan, the Savannah, the Moore-McCormack and the Ocean. In addition to that, we have had three railroads, the New York, New Haven and Hartford, the Boston and Maine, and the Boston and Albany. We have had service to keep Boston going and make it a better Boston but, with all that, Boston has gone back in a way they might well be ashamed of. Now, I wonder if we are going to have this same situation prevailing from the air transportation standpoint that we have had from the standpoint of service furnished by the steamship companies and by the railroad companies. There is only one man—and I don't say this because he is here in the chamber at the present time—but there is only one man who is well versed as far as the city is concerned—and that is the Hon. John F. Fitzgerald—who has done any real yelling for the Port of Boston and for the city. We have been brutally and sadly awakened very recently because information has come to us telling what they are doing to develop other large cities in the country. The large cities have always had the drop, so to speak on the smaller communities, but Boston hasn't seemed to keep pace with what is going on. We have got to have an airport development. I don't know if East Boston can handle it all. I think the time has come when we might well consider the establishment of an airport other than at East Boston. But what we have got to do as members of the City Council is to insist that competition be provided. We want to make it possible for people in Boston who might commute to the various parts of this country to take a plane in Boston and go to Texas, or go to California, or go to Chicago or St. Louis, or to any large cities of the country, direct, without having to take the Toonerville trolley service to New York and make a change there. The councilor from East Boston is definitely right when he makes complaint regarding the large development of the East Boston airport. I say, too, the time has come when the Governor, if he wants to see Massachusetts go ahead should act—because if Boston doesn't, Massachusetts certainly won't. But the time has come when Governor Saltonstall should make known to the people of Boston what the developments are. Let us have proper development of our facilities, but let the people of Boston who, after all, are going to support these air lines—if there are land deals, let us all know it. We have some rights in the matter as members of the City Council, and I hope this order will not find its way to the waste basket. I say, too, that the Governor should take into his confidence the Mayor of the city and the members of the City Council and let us all know what is going on, let us all make suggestions, let us all get behind this thing.

Coun. COFFEY—May I just add that in my conversation with General Hale, who is drawing these plans up, I said to him, "In taking over Wood Island Park and Amerino Park you would have to have permission of the Mayor and the

Boston City Council." I said, "That would have to come under the heading of permissive legislation." He said, "Oh, no; we are going to take it, no doubt about that." There is a man who is appointed and naturally takes his orders from the man who appoints him, and he has said to me they don't have to have permission of the Mayor or the City Council. There is something that they are hiding. As I said, it is a steal, and the Governor is on in it from the beginning to the end, and we have proved in hearings that we have held before the Committee on Public Lands that certain groups were invited. For the first time in the history of the Legislature these groups got into private hearings, and it was all pertaining to the extension of the East Boston airport, all behind closed doors. I am asking whether Wood Island and Amerino parks are going to be taken away from the people of East Boston without the people having a vote on the matter. They are going to step in by taking them by eminent domain, whether this year or next. That is going to be done. But, as far as the City Council and the Mayor are concerned, we are not going to have even a voice in the matter.

Coun. HANNON—Mr. President, I am wholeheartedly in accord with the order introduced by the gentleman from East Boston, but I am in accord with it for entirely different purposes. I believe we must develop in order to keep pace with the trend of the times. I believe the airport must be developed. I agree with him that East Boston is not the proper location for the airport. You will recall, Mr. President, two or three times I have been on my feet here and suggested other locations. However, I think, as usual, the City of Boston is backward and the City of Boston is late. We are complaining now about the state developing our airport. That airport once belonged to us, once belonged to the City of Boston, and some one along the line, somebody in the city, was asleep and let the state take the airport back again. Now, we are hollering because the state is going to develop it. I believe in home rule. I believe the city should have its own airport. I don't believe that the state, the Commonwealth of Massachusetts, should control an airport located in the City of Boston. Every other big city in the country has its own airport. We are hollering here every so often about the domination of the state over the city. We complain that the Governor and not the Mayor appoints the Police Commissioner. We complain that the Governor and not the Mayor appoints the licensing authorities of the city. And yet we have turned over to the state our airport. We are going to be behind the times again because in ten or fifteen years we are going to be a city without an airport. The state is going to control whatever airport we have. I agree with the gentlemen from East Boston. The airport is not in the proper location. Authorities will tell you that there are more cancellations of planes going in and out of Boston than there are in any other city of the country, just because of the location of the East Boston airport. My complaint is with the city authorities. When we had an airport, why didn't we hang onto it? Are we going to find ourselves ten or fifteen years from now behind the times again, the only big city in the country without our own airport?

The order was passed under suspension of the rule.

SAFETY OF BYRON STREET BRIDGE.

Coun. COFFEY offered the following:
Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to inspect the Byron Street Bridge for the purpose of determining the approximate weight that it can hold and also its condition from a safety standpoint.
Passed under suspension of the rule.

ABIDING BY CIVIL SERVICE LISTS.

Coun. COFFEY offered the following:
Ordered, That the Mayor of Boston request his Excellency Governor Saltonstall, to instruct the new Civil Service Commissioner, whom I am informed will be appointed within the next two weeks, to abide by all civil service lists and not to give the Police Commissioner of Boston authority to jump the names on the list and pick out police for sergeant, lieutenant or captains because of their political affiliations.
Passed under suspension of the rule.

HONOR ROLL PLAQUE FOR CITY EMPLOYEES IN ARMED SERVICES.

Coun. DWYER, HANNON and COFFEY offered the following:
Ordered, That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to immediately provide for the erection of a suitable honor roll plaque, in front of City Hall, containing the names, branch of service, etc., of all city and county employees who are serving with the armed forces of our country in the present world war.
Passed under suspension of the rule.

SALE OF LIQUOR TO INTOXICATED PERSONS.

Coun. CHASE offered the following:

Ordered, That the Boston Finance Commission be requested, through his Honor the Mayor, to investigate the methods of administration and enforcement of the state laws by the law enforcement agencies of the City of Boston and the State of Massachusetts, relative to the sale of liquor to intoxicated persons, especially women in the City of Boston; and be it further

Ordered, That the Finance Commission be requested, through his Honor the Mayor, to report back to the City Council a complete report of its findings and recommendations.

Coun. CHASE—Mr. President, it was only last week that the City of Boston and the State of Massachusetts were shocked by the wicked murders of women who apparently were intoxicated at the time when they were killed. It was some of these murders that brought at least to my attention the fact that our law enforcement agencies apparently are not enforcing the law in such a way as our state laws call for. I know of many places in Boston, Mr. President, that are violating the law. I know there are many streets in Boston where on certain nights there will be a parade of intoxicated persons after the closing hours of these "honky-tonk" joints, so-called restaurants, which will probably have half a loaf of bread and a quarter of a pound of pressed ham available to cover the law so that they may dispense liquor, and where it is sold without any discretion whatever, so long as they are able to grab the coin. These restaurants create public nuisances and add in no small way to the possibility of women being raped and even murdered while intoxicated. I, for one, would like to know the reason why our law enforcement agencies of the state, including the A. B. C. Commission, for instance, have not done something about it. I know of a certain place in my district, sir, that could have been put out of business long ago if such agencies had properly exercised their powers and the influence exercised on behalf of such places must be strong indeed, because in spite of their violations of the law they are still in business and making such nuisances as I have referred to possible in this city, with the result that women who are intoxicated are raped and murdered by degenerates. It took the Coconut Grove disaster to strengthen the building laws of this Commonwealth. The investigation that followed showed the contributing causes to that disaster; and I say now, sir, that the recent murders in this city are traceable back to such joints as I have referred to, which could not be carried on with proper enforcement of the law by the enforcement agencies of the city and the state in the matter of the sale of liquor to intoxicated persons, especially women. Mr. President, our city should be conducted in the manner that the laws call for, and dictate, and I say to you that when people are permitted to run these joints as they do, for some unknown reason, with this resulting public nuisance and imposition on the taxpayers and property owners and the public in general, the law should be enforced. I think it is about time that this matter was directly called to the attention of those directly responsible for the conditions that exist, and I trust that something will be done as a result of the Boston Finance Commission conducting such an investigation as is proposed in my order.

The order was passed under suspension of the rule.

DEMOLITION OF UNSAFE BUILDINGS BY REAL ESTATE COMMISSIONERS.

Coun. KELLY offered the following:

Ordered, That the Board of Real Estate Commissioners be requested, through his Honor the Mayor, to immediately arrange for the demolition of all unsafe and obsolete structures which are under their control.

Coun. KELLY—Mr. President, I noticed in going around Dorchester this morning that we are in the middle of a "clean-up" campaign there, the same as it is all over the City of Boston. If, Mr. President, it is going to be a clean-up, let us make it a real clean-up; let us not stop at street cleaning, alley sweeping, and public building paintings; let us go whole hog or nothing. The situation that we are concerned with is not the dirt that covers Boston streets or the filth that is in our alleyways. It is all around us, and has been for years, and we and all our predecessors have practically ignored it while we have been in office. We could easily go about and start painting City Hall and possibly put a coat of gilt on it, but we can't hide anything that would be underneath this chemical veneer. We can sweep the streets of Boston until they are clean. We can decorate the street lamps of the city with silk shades. We can curtain our public buildings with the brightest of chintz. But we still haven't solved our most pressing problem. Let us start with these dwellings that nobody wants any more. The City of Boston is saddled today with property that they don't want. They can't sell it, they can't even give it away. All of us take the easiest course and look the other way when we pass these properties. These miserable houses, they are in every section of this city, unoccupied. Let us clean them out. Let us take our money wherever we can find it and rip down these places that have once housed human beings. Of the money that was appropriated this year for snow

removal there must be a heavy balance. Let us take that as a start and begin by ripping away the dirt of the miserable, ramshackle houses that we or nobody else wants. As long as we are in this clean-up campaign, let us be determined to really clean up. Don't let it be a lick and a promise job; let us put our hearts and souls into the effort. There is no reason why we can't do a thorough job, and the place to start is not on the surface. The place to start is underneath, in the run-down sections of the City of Boston. What this project would mean would mean more play yards, more parks, more recreation areas. And at what cost? Practically nothing. We have the area. This neglected property belongs to the City of Boston, and the City of Boston alone. We have taken it over for our city, as is our right. There would be no expensive land-takings involved. It can be accomplished right now. And I ask suspension of the rule and passage of the order.

Coun. CAREY—I want to commend Councilor Kelly for his order. One thing he can be proud of is that an appropriation has been asked of \$125,000, which the Committee on Appropriations has seen fit to O. K. in going over the budget. That \$125,000 has been appropriated as a result of a request made by members of the Council, and that will be used for the demolition of some 545 buildings. The Building Commissioner admits that 545 buildings should be taken down, and the Lord knows how many more. But the councilor is to be congratulated, and let us hope this clean-up campaign will not only clean up unsafe dwellings, but also foundations and cellars that are left once the structure is taken down. The large holes that are left after a building itself has been removed constitute as much of a danger to children and others as the building itself if allowed to stand. When a building is demolished it leaves an eyesore that should be dispensed with, and I hope when these buildings are taken down the Building Commissioner will also make some plans to fill in these cellars in order that the eyesore left as the result of that will no longer be apparent.

The order was passed under suspension of the rule.

EMERGENCY ALLOTMENT COMPENSATION FOR CERTAIN MEMBERS IN PRINTING DEPARTMENT.

Coun. CAREY offered the following:

Ordered, That the Superintendent of Printing be requested, through his Honor the Mayor, to restore to the sixty-four union members employed in his department the emergency compensation allotment of \$200 per year which was taken from them on February 15, 1944, and that the payments be resumed from that date.

Coun. CAREY—Mr. President, I don't know why on February 15 of this year some sixty-four union members employed in the Printing Department, affiliated with an organization of the Allied Printing Trades, had the allotment of \$200 per year taken from them. After all, the employees in the Printing Department are employees of the City of Boston. Those affected earn about \$45 to \$48 a week. Immediately upon their joining the union they lost the \$200 emergency compensation. We have in this city department heads who are earning far more than \$45 to \$48 a week, who are earning anywhere from \$6,000 to \$12,000 a year, and yet they have not forfeited the \$200 emergency allotment. I have as yet heard no reason why this \$200 emergency compensation allotment should not be granted to these members of the Printing Department, and I certainly hope it will be restored to them from the time when it was taken away. I think that should be done, and I move reference of the order to the Executive Committee.

The order was referred to the Executive Committee.

REPORT OF COMMITTEE ON APPROPRIATIONS ON 1944 BUDGET.

Coun. MUCHNICK, for the Committee on Appropriations, submitted the following:

The Appropriations Committee submits a report that the budget for the year 1944, as submitted by his Honor the Mayor, ought to pass with the following amounts deducted from the several departmental budgets therein submitted:

1. Snow Removal: The committee recommends that the sum of \$250,000 be cut from the appropriation for snow removal.

2. City Documents: The committee recommends that the sum of \$2,500 be cut from the "B-1" item of the appropriation.

3. Port Authority: The committee recommends that the "A" item be reduced by the sum of \$5,000 and that the sum of \$12,400 remain appropriated for this item. The committee further recommends that the "B-3" item be reduced from \$1,500 to \$500, that the "B-4" item be reduced from \$3,500 to \$3,000, and that the "D" item be reduced from \$1,000 to \$750. The committee wishes to state that if in the future the Port Authority will submit plans to the City Council for the improvement of the Port of Boston it will be pleased to recommend the appropriation of sufficient funds to cover the employment of a capable Public Relations Counsel and Office

Manager and to provide further funds needed and requested to bring about the enlargement of the Port.

4. City Council: The committee recommends that the "B-42" item be reduced from \$10,900 to \$8,000 and that the "D-1" item be reduced from \$3,600 to \$3,000.

5. City Record: The committee recommends that the sum of \$2,500 be cut from the "B-1" item of the appropriation.

The committee further recommends that departments, such as the Law Department, now housed in buildings outside of City Hall, attempt to secure quarters in buildings owned by the city, and thus save the rentals spent by the city.

The report was accepted, and the question came on the passage of the appropriation orders.

Coun. DWYER—Mr. President, I would like to have the various items in the budget brought up and treated individually, as I propose to make some amendments to some of the items that the committee has recommended.

President KERRIGAN—The clerk will call up the No. 1 item in the report of the committee.

(The No. 1 item is as follows: "Snow Removal. The committee recommends that the sum of \$250,000 be cut from the appropriation for snow removal.")

Coun. DWYER—Mr. President, I would like to amend the committee's report so that the sum to be cut from the appropriation for snow removal, instead of being \$250,000, will be \$320,000. The reason I move that amendment, sir, is this. The department estimate for 1944 was \$1,000,000, and his Honor the Mayor allowed \$500,000 for snow removal. At the present time, while the complete figures are not available, according to what has been told us by the office of the Commissioner of Public Works, the combined cost of the figures submitted for the snow removal in the last storm amounts to \$162,000 or \$163,000. That is according to the best information I have been able to receive. And so I say, Mr. President, if the city is going to spend only \$160,000-odd so far this year on snow removal, that will leave quite an amount for possible emergencies later in the year. I believe, therefore, that it behooves this Council to cut this item at least \$320,000, showing to the citizens and taxpayers of Boston that we are trying to do something to keep the tax rate down. In this proposed budget that the Mayor has submitted to us, if there are not cuts made I feel sure from every information I can receive that Boston will have a higher tax rate than it had last year. And that is with a lessened number in the city employ, and with absolutely nothing to show in the way of improvements on public works being carried through. And so I have been attempting to dig down and see what reductions could be made. I would move, therefore, at this time, sir, that the Council make the reduction I have here suggested in the snow removal item, and in the interest of the taxpayers and citizens generally. I trust that this cut will be made in the snow removal item, reducing it by \$320,000.

Coun. RUSSO—Mr. President, as a member of the budget committee I am very much surprised at the chairman of that committee presenting this budget to the Body at the present time. I don't know of any action taken by the committee, or any vote taken by them, upon this item, apart from the original amount agreed upon by which \$300,000 would be cut from snow removal, although I see that by the report the amount is cut down only \$250,000. I have here a statement submitted by the chairman of the committee which says that \$300,000 is to be deducted from the original \$500,000. I don't know what the position of other members of the committee may be in that respect. We are told that the committee has been polled. Well, at any time when a vote is to be taken, I would like to be notified, but we have here a change of which I have not been notified, of \$50,000, through a polling of the committee, which has just now been brought to my attention. I would move, therefore, that the report of the committee be sent back to the Committee on Appropriations and that an attempt be made to bring in properly before this Body any amendments that may be proposed, not having the thing brought to our attention in this way.

Coun. MUCHNICK—Mr. President, last week those comprising the Committee on Appropriations voted that a cut of \$300,000 be made from the snow removal item of the budget. Subsequently to that, after I had had a talk with a representative of the Public Works Department, I was informed that approximately \$180,000 has been already contracted for this year and that it would not be safe to cut the item to that extent, in view of what is quite likely to happen later in the year, in November and December. Therefore, by a poll of the committee, instead of reducing the amount of the item by \$300,000, it was decided to recommend its reduction by \$250,000, leaving an additional amount in the item, with a feeling that we were thereby better protecting the city. For that reason the item went into the report as presented.

Coun. CAREY—As a member of the committee I was not polled. I don't like to disagree with the chairman, but the committee did vote to remove the snow removal item by \$300,000. There has been, up to preceding the storm of last week, \$116,000 spent out of the \$500,000 appropriation. The Public Works Commissioner estimated that the storm last week would cost approximately \$40,000. With the rain and the sun clearing the snow, I don't think that that will

be spent. Allowing that \$40,000 would be necessary to be spent on it, that would make a total expenditure this year of \$156,000. And the committee felt that leaving \$44,000 balance would be sufficient. We all know, of course, if we should get snow in November or December, the Public Works Commissioner is empowered under his emergency rights to spend whatever is necessary, but it is my recollection that we did vote to reduce the budget by \$300,000. I don't like to disagree with the chairman, but I was not consulted when the committee was being polled relative to changing that reduction from \$300,000 to only \$250,000.

Coun. BAYLEY—I am another member of the Committee on Appropriations. Other members and I agreed thoroughly with what my fellow councilor from Ward 3 (Coun. Russo) has said. He suggested to the chairman when he conducted an unofficial poll here after two o'clock that we could have another meeting to go into the matter more thoroughly. We debated the subject more at length and decided on the \$300,000 cut. Most of us were present this morning, with the understanding if there was to be any change we would be on hand at 10.30 o'clock. I don't like this change made after two o'clock, when we were available this morning. This cut has apparently now been changed by an informal poll, and I wish to second Councilor Russo's motion that we have another meeting before action is taken on this.

Coun. HURLEY—Mr. President, I also am a member of the Committee on Appropriations. Last Friday I voted to have the committee pass the budget as recommended at that meeting, and I thought it was to be brought into the Council on Monday afternoon in that shape. I was very much surprised when informed later that there was a meeting again Saturday morning. I said, "There must be some mistake. We adjourned Friday, after acting on the budget, and I supposed that the next time it was to be discussed was at this meeting of the Council." "Well," I was told, "it was reconsidered after you left." In such action I thought the chairman was very wrong. Certain members had left after they had supposed definite action was taken, and I feel that different action should not have been taken, or there should not be reconsideration of the action taken without notifying other members who did not happen to be present. While I admire the chairman of the committee, I know that if I were chairman, there never would have been any motion to reconsider without contacting other members of the committee. I did feel, however, at the time of the meeting that the sum of \$250,000 was sufficient to take out of the budget for this purpose for 1944.

Coun. KEENAN—Mr. President, I too am a member of the Committee on Appropriations. I sat in at the various meetings, but I did not understand that this action had been taken on the snow removal item. I had a talk with the chairman this afternoon, however, and he told me that after a talk with Mr. Morrissey of the Public Works Department it has seemed that more should be left in. I voted for the \$250,000 cut.

Coun. TAYLOR—Mr. President, I am not so deeply interested in cutting the appropriation for the removal of snow. If the members feel that we can get along in November and December of this year, handling our snow problem with the smaller amount, well and good. But I am opposed to Councilor Russo's suggestion that the budget go back to the Appropriations Committee. I am informed by the Corporation Counsel, and I also understand that the City Auditor feels, that if the budget is not acted upon today there will be considerable hardship in certain quarters. Because of the new law which is in effect, men in many departments of the City of Boston will not receive their pay, for the reason that under the new law until the budget is passed the City Auditor can only, for the first three months of the year, pay out the average expenditure of the last three months of last year. Unfortunately, this year during January we had five pay days, and during March there have been five pay days with the result that, following out the procedure and taking the last three months of last year and comparing it with the first three months of this year, with compliance with the law many of the employees in different departments of the city will not receive their pay. I don't care whether the snow removal is cut \$50,000 more or not; the City of Boston undoubtedly will receive enough money to clean the streets of snow. But I do hope that this will not be referred now back to the Appropriations Committee. I don't think there is such a situation that the City Council today cannot take care of it, and I do feel that if action is not taken on the budget today it is going to jeopardize the wages and salaries of many employees of the City of Boston.

Coun. RUSSO—Mr. President, I realize fully that the cutting of this particular item really means nothing, because the commissioner has the right and power vested in him to spend money for the removal of snow at any time when a snow storm make it necessary. Therefore, so far as I am concerned, I am willing to cut the thing even further, because it really makes no difference. We are trying to reduce the budget if we possibly can, but I am opposed to the method that has been used, and that has been referred to, on the part of the chairman of any committee of which I am a member. I want it fully realized also that I was absent from some of the budget hearings, not because I did not want to attend them

but because I happened to be ill for three consecutive weeks in bed. But I attended as many hearings as I possibly could. I am willing to go along with anything once it has been explained satisfactorily to me, but I cannot and will not stand for any underhand action. I understand that other cuttings have been agreed upon that were not contained in the original recommendations as passed upon by the committee through recommendations made by the chairman of the committee. I want to be informed whether any new evidence has been presented. As a member of the committee I feel that I should be informed in regard to anything that has been done or suggested, so that I may be able to cast my vote intelligently one way or the other. In view of what we have been told here, I am opposed to accepting the committee's report as presented by the chairman, and I trust that the report will be sent back to the committee. I feel that the matter can be considered while we are in Executive, and that we will be able to sit down and discuss the matter intelligently and bring in a report today.

Coun. DWYER—Mr. President, I am not a member of the Committee on Appropriations, but I did attend the hearings before the committee faithfully, although naturally I was not present at the Executive meeting or meetings of the committee. When I offered this amendment cutting \$320,000 out of the snow removal item, I was not aware of what the committee had done. I see that they voted to cut \$250,000 from the appropriation for snow removal. Therefore, I am going to withdraw my motion to cut \$320,000 from the item, and am going to offer an amendment that the original proposed cut of \$300,000 stand. I do so, sir, because of the fact, well brought out by certain members, that if any emergency should arise, under the law the Public Works Commissioner would be able to afford relief by furnishing money to handle any snow storm that may arise. As a matter of fact, the Public Works Commissioner availed himself of that authority last year, transferring money from various purposes to this item. That is something that the commissioner has had the authority to do and has done in several years, as expenditures for December and January will show. I hope, therefore, that my amendment to cut out \$300,000 from this item will prevail.

Coun. CAREY—Mr. President, I will simply say that the Public Works Commissioner appeared before the budget hearing and said that he would under his emergency powers spend anything that was necessary in this line in November and December.

Coun. Russo's motion to refer the report back to the committee was lost.

The question came on Coun. Dwyer's amendment to reduce the item for snow removal by \$300,000. President KERRIGAN put the question and, being in doubt, ordered a roll call.

Coun. Dwyer's proposed amendment was lost, yeas 10, nays 10.

Yeas—Coun. Bayley, Carey, Chase, Dwyer, Feeney, Hanley, Hannon, Kelly, Kinsella, Russo—10.

Nays—Coun. Coffey, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—10.

President KERRIGAN—There being ten voting in the affirmative and ten in the negative, the motion is lost.

The question came on accepting the committee's recommendation, that the amount for the item for snow removal be \$250,000, as submitted by Chairman Muchnick.

The \$250,000 for the snow removal item prevailed, yeas 14, nays 2.

Yeas—Coun. Chase, Coffey, Hannon, Hurley, Keenan, Kelly, Kerrigan, Kinsella, McCormack, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—14.

Nays—Coun. Carey, Russo—2.
President KERRIGAN—And the item is reduced to \$250,000.

Coun. RUSSO—Mr. President, I would like to ask the chairman of the Committee on Appropriations if he will state who the members of the committee were who voted for the presentation of the budget as he has presented it. I would like to be informed as to the members of the committee who voted for it and the ones who did not.

Coun. MUCHNICK—Those in favor were Councilors Hurley, Coffey, Keenan and myself.

Coun. RUSSO—I understand that there were four votes in the affirmative and three in the negative?

Coun. MUCHNICK—I understood that the councilor only wished to know those who were in the affirmative.

Coun. RUSSO—Have you the ones who were in the negative?

Coun. MUCHNICK—If I remember correctly, those in the negative were Councilors Bayley, Carey and Russo.

Coun. BAYLEY—Mr. President, I wish it understood that I am on the negative on any proposed change.

Coun. RUSSO—And, as I have said, I am only opposed to the underhanded methods used.

Coun. HANLEY—Do I understand, Mr. President, that where there is a tie vote the chairman can cast a vote?

President KERRIGAN—There is no rule to the contrary.

Coun. HANLEY—I understand, but that rule prevails in other cases, with the presiding officer of the Senate and other parliamentary bodies, and I suppose it refers to the chairman of the committee also.

President KERRIGAN—There is no rule to that effect.

Coun. RUSSO—Mr. President, I am only surprised, so far as my colleagues are concerned, to have these methods prevail in the City Council.

President KERRIGAN—The second recommendation is: "City Documents. The committee recommends that the sum of \$2,500 be struck from the B-1 item of the appropriation."

Coun. DWYER—Mr. President, I move to amend the report of the committee, that the sum of \$5,000 be cut from this particular item. On this particular item, B-1, printing and binding, the request was for \$20,000, and they were allowed \$20,000. Last year the department asked for \$20,000, and they spent last year \$14,186.91. Therefore, after closing the examination of Mr. King when he appeared before the committee, I arrived at this figure, because Mr. King did not show your committee, sir, any reason why this expenditure should be any greater this year than it was last year. They spent last year \$14,186.91, or less than \$15,000, and I believe that amount will suffice for this year.

Coun. CAREY—Mr. President, I will say that I made a rather thorough study of this particular item, and I believe that they can stand a substantial reduction. I sincerely hope, as a member of the committee, that the Council will see fit to make some reductions, because the taxpayers and citizens are looking to us to take action which will reduce the burden upon them, and also save money which is not necessary for some purposes and use it for other purposes that are necessary.

President KERRIGAN—The question comes on reducing the item \$5,000, and the clerk will call the roll.

The Council refused to make the reduction, yeas 2, nays 16:

Yeas—Coun. Dwyer, Feeney—2.
Nays—Coun. Bayley, Chase, Coffey, Hannon, Hurley, Keenan, Kelly, Kerrigan, Kinsella, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—16.

The question came on the adoption of the item as reported by the committee.

Coun. HANLEY—Mr. President, I move that the roll be called.

The Council voted in favor of cutting out \$2,500 from the B-1 item of the City Documents appropriation, as recommended by the committee, yeas 18, nays 0.

Yeas—Coun. Bayley, Carey, Chase, Coffey, Hanley, Hannon, Hurley, Keenan, Kelly, Kerrigan, Kinsella, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—18.

Nays—0.
President KERRIGAN—The next item is No. 3, Port Authority, upon which "The Committee recommends that the A item be reduced by the sum of \$5,000 and that the sum of \$12,400 remain appropriated for this item. The committee further recommends that the B-3 item be reduced from \$1,500 to \$500, that the B-4 item be reduced from \$3,500 to \$3,000, and that the D item be reduced from \$1,000 to \$750. The committee wishes to state that if in the future the Port Authority will submit plans to the City Council for the improvement of the Port of Boston it will be pleased to recommend the appropriation of sufficient funds to cover the employment of a capable Public Relations Counsel and Office Manager and to provide further funds needed and reported to bring about the enlargement of the Port." Do you want them all together, or separate?

Coun. DWYER—I would just as soon offer my amendment, and you can decide, Mr. President. On the A-1 item, permanent employees, I move that the sum of \$7,600 be stricken from that item. Do you want me to take that up first?

President KERRIGAN—Yes, councilor.

Coun. DWYER—Mr. President, the reason I offer that amount is this, sir. At the present time the personnel of the Port Authority is one General Manager who receives a salary of \$6,000 a year. This gentleman is not a citizen of Boston. He lives in Newton. He is not a civil service employee, and he is at the present time assisted by one secretary who receives \$2,100. This secretary is not a citizen of Boston and is not a civil service employee. And also he has one stenographer-clerk at \$1,700 at the present time under him. The allowance allowed by his Honor the Mayor on salaries was \$9,800 for these present employees, plus two more outstanding positions, one an assistant office manager at \$4,500 a year, and one a public relations counsel at \$4,700 a year. Now, when Mr. Lane, the gentleman in charge of this department, appeared before us he said that the amount that was allowed by his Honor the Mayor—and I checked with the Budget Commissioner and found that that was so—was the salaries for these two positions for the balance of the year. And for the balance of the year for the assistant office manager at \$4,500 a year and for the public relations counsel at \$4,700 a year, it would amount to \$7,600. Mr. Lane said they had already picked out the public relations counsel, and he was a gentleman from Pittsfield, Massachusetts. He also said that they had picked out the assistant manager. Now, Mr. President, I maintain that with five in help in the office, one a manager, one a secretary, and one a stenographer—

clerk, to put in an additional assistant manager to carry on the duties that this young lady secretary carried on last year, and also to put in a public relations counsel, is absolutely not necessary. These two additional positions are absolutely not necessary. Therefore, Mr. President, since they have not been appointed, I hope their salaries will be stricken out and that they cannot make any appointments for same, and that the saving of \$7,600 will be granted to the taxpayers of the City of Boston.

Coun. CAREY—Unfortunately, at the hearing of the Boston Port Authority we didn't have before us a man who, I think, has done and has constantly been endeavoring to do, a splendid job for Boston in its port development. As I said a little earlier, Boston has been a Rip Van Winkle town for some years past, and the time has come when something has to be done to awaken it. I wasn't very well pleased with the way that Mr. Lane, the general manager of the Port Authority, presented his case when he appeared before the Council. His answers in many—in most—cases were delayed and he was anything but impressive. The members of the committee did have the pleasure of talking with former Mayor John F. Fitzgerald today, and he is strongly against making any cut in this item. He has been the Port Authority, as I see it, but he feels that he must groom somebody else to take his place. The Port Authority was established in 1914, and, as I also said earlier today, we have had in recent years four steamship lines running in and out of Boston to Atlantic and Gulf ports—the Morgan, the Ocean, the Savannah and the Moore-MacCormack. I think the Moore-MacCormack is the only line in Boston today. And that reminds you of what happened with the Port Authority. Perhaps it is only fair to say that if John F. Fitzgerald had not been on the job the port would have been locked up long before now, but we have got to do something about this city. God knows we have lost enough business. The only thing that is keeping the port going today is because—not disclosing any military secrets—it stands No. 1 in embarkations. It has been developed because there is a war on. If the war hadn't come on there would be no business out of this port, because, and I don't think I will be contradicted in this statement, practically all of the business being handled out of the port today is because of the war situation. I am reluctant after listening to former Mayor Fitzgerald to vote for any cut in that budget. I don't see, however, why there is necessity for having a General Manager who is being paid \$6,000 a year to oversee the work of the secretary and the stenographer. As a matter of fact, the committee didn't vote to take away the money from the A-1 item, but I did suggest that having done that they reduce other items in the budget because, with a smaller personnel there would be less necessity for large sums in traveling and advertising. But the Boston Port Authority has to show me, or as a member of the Council, next year I will vote to have it sent to oblivion altogether. I don't think that the former Mayor is being entirely cooperative—although he might dispute me on that. Perhaps it is because they haven't enough power down there like the City Council. The councilor from Ward 21 (Coun. Dwyer) is justified when he makes his criticism of what is going on down there, because, believe it or not, take the former Mayor John F. Fitzgerald out of the picture, and there certainly wouldn't be any Port Authority.

The roll was called and Coun. Dwyer's amendment to strike \$7,600 from the A-1 item was defeated, yeas 3, nays 16.

Yeas—Coun. Dwyer, Hannon, Shannon—3.
Nays—Coun. Bayley, Carey, Chase, Coffey, Feeney, Hurley, Keenan, Kelly, Kerrigan, Kinsella, McCormack, Muchnick, Russo, D. F. Sullivan, M. H. Sullivan, Taylor—16.

President KERRIGAN—The question comes on the recommendation of the committee to reduce the A-1 item by \$5,000.

Coun. RUSSO—Of course, as I stated before, I was not present at the time the Port Authority was before the budget committee to explain the necessity of maintaining their budget at that standard. I am one of the committee who on the recommendation of the other members of the committee, voted to reduce the budget; but, as Councilor Carey well stated here a moment ago, the Hon. John F. Fitzgerald appeared before us and explained the situation of the Port Authority and I believe that the man who has done a tremendous amount of work in the last half century for the Port of Boston and for Boston itself knows what he is talking about. He is very much opposed to any cut on the Port Authority. He wants the board to plan ahead on a post-war program. I don't think that the City Council at this time, when everybody in the country is thinking of post-war problems and programs, ought to make a cut now and not give them the opportunity to go ahead in order to develop the Port of Boston. I say that we have the most natural port in the entire nation. Yes, that was the port that when I came to this country thirty-odd years ago that I came into, the first time that I stepped out of a boat and came into the United States. I believe, as I stated a moment ago, that now, when everybody is thinking of post-war problems, we should give them the opportunity to go ahead and develop the port in the way it should be developed after this terrible war is over. Therefore, I urge this Council to vote for no reduction for the Port Authority for this year at least, and give them the

opportunity next year to come in and show a program which will be what the people of the city have been looking for for a long time.

Coun. COFFEY—I hope the committee at this time will see fit to reject any cuts in this appropriation. I was talking to former Mayor Fitzgerald a few moments ago, and he is so sincere and so honest in his efforts to do something for Boston regarding its port that I think we ought to give him a chance to go ahead. He has wonderful plans for a post-war program. As a member of the committee, I want to say, after talking with the former Mayor, that I am opposed to any cut, and I hope the entire Body will see fit not to make any cut at this time. Last year I was a member of the Appropriations Committee. I attended every meeting; I didn't miss one meeting,—not one meeting, not one minute—and there was no recommendation for any cut in that entire budget, as I recall. I hope the members will go along and not make any cuts at this time, and give the former Mayor a free hand to go ahead and see what he can do as to post-war plans, and that when our boys come home there will be some work at least around the Boston Port Authority for them to go to.

The question came on the amendment to cut the A-1 item \$5,000, and the amendment was voted, yeas 14, nays 6.

Yeas—Coun. Bayley, Chase, Dwyer, Hurley, Keenan, Kelly, Kerrigan, Kinsella, McCormack, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—14.

Nays—Coun. Carey, Coffey, Feeney, Hanley, Hannon, Russo—6.

President KERRIGAN—The next item, the committee further recommends that the B-3 item be reduced from \$1,500 to \$500.

Coun. HANNON—I would like to know what item B-3 is, and why the reduction is recommended.

Coun. RUSSO—I may give the gentleman the information. It is for advertising and posting. Of course, having now reduced the budget \$5,000 on the A-1 item, I suppose all these other cuts are due to the cutting of the A-1 item.

The question came on the amendment to cut the B-3 item from \$1,500 to \$500, and the amendment was declared rejected.

Coun. TAYLOR—I doubt the vote and ask for a roll call.

President KERRIGAN—On the question of accepting the report?

Coun. TAYLOR—I withdraw my doubt.

Coun. HANNON—I accept this motion and ask for a roll call.

Coun. HANLEY—What are we voting on at the present time?

President KERRIGAN—The Chair is about to state that the question is on the reducing of the B-3 item in the Port Authority budget from \$1,500 to \$500.

Coun. HANLEY—Is that under the title of advertising?

President KERRIGAN—Advertising and posting.

The roll was called, and the B-3 item was reduced from \$1,500 to \$500, yeas 12, nays 7.

Yeas—Coun. Bayley, Chase, Dwyer, Hurley, Keenan, Kelly, Kerrigan, Kinsella, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—12.

Nays—Coun. Carey, Coffey, Feeney, Hanley, Hannon, Kelly, Russo—7.

President KERRIGAN—We will next take up the recommendation that the Port Authority budget item B-4 be reduced from \$3,500 to \$3,000, and also that the D item in the Port Authority be reduced from \$1,000 to \$750.

Coun. MUCHNICK—The B-4 item, Mr. President, is the transportation of persons. It was felt that with a smaller personnel there would be less transportation, and the sum suggested is a little in excess of what was spent last year for the same purpose. The D-1 is for office supplies, and the cut from \$1,000 to \$750 is substantially more than was either appropriated or spent last year.

President KERRIGAN—The question is on the recommendation of the committee. The clerk will call the roll.

The roll was called, and the cuts in B-4 and D-1 were approved, yeas 11, nays 7.

Yeas—Coun. Bayley, Dwyer, Hurley, Keenan, Kerrigan, Kinsella, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—11.

Nays—Coun. Carey, Coffey, Feeney, Hanley, Hannon, Kelly, Russo—7.

Coun. DWYER—Mr. President, on the Port Authority, I move to amend that G, incidentals, where the sum of \$8,000 is allowed. That incidental is for the salary of a lawyer—I call it salary. I had some discussion with Mr. Lane about it when he was here. He called it by another term, but I believe that this \$8,000—\$6,000 of it goes for a lawyer who gets \$500 a month, and \$2,000 of it goes for travelling expenses on his part—should be cut. This man, as I understand it, has been working there for at least two years and at the present time Mr. Lane, when he was here, said he had very little work to do. I find out since that he is doing some work for the Law Department. Well, if they are going to be fussy whether it is salary or compensation, or whatever it is, the least they could do is have it up where we could see it and know what it is all about. G, incidentals, \$8,000. Mr. President, I move that \$5,000 of that \$8,000 be stricken from the budget. The Law Department is using this gentleman for special services. They have an additional fund they can take money out of to pay him.

Coun. TAYLOR—May I inquire from the chairman of the Appropriations Committee how much was spent during the year 1943 for the same purpose?

President KERRIGAN—Have you figures available?

Coun. MUCHNICK—Councilor Russo has the information.

Coun. RUSSO—In 1943 there was expended \$7,836.02.

Coun. TAYLOR—That is \$164 more this year.

President KERRIGAN—The question is on Councilor Dwyer's motion to reduce the item from \$8,000 to \$3,000. The committee made no report on this item.

Coun. TAYLOR—I rise to a point of information.

President KERRIGAN—State your point of information.

Coun. TAYLOR—I would like to know whether we are voting on the acceptance of the committee's report.

President KERRIGAN—We are voting on Councilor Dwyer's motion to reduce the item from \$8,000 to \$3,000. The committee made no report on this item.

Coun. HANLEY—I rise to a point of information.

President KERRIGAN—State your point of information.

Coun. HANLEY—Through you could I ask Councilor Dwyer if the person in question is on the pay roll of the Law Department at the present time?

Coun. DWYER—I couldn't answer that question.

The question came on the adoption of Coun. Dwyer's amendment to cut \$5,000 from the item G-3 and it was not adopted, yeas 6, nays 10.

Yeas—Coun. Dwyer, Hanley, Hannon, Keenan, Kelly, Shannon—6.

Nays—Coun. Bayley, Chase, Coffey, Hurley, Kerrigan, Muchnick, Russo, D. F. Sullivan, M. H. Sullivan, Taylor—10.

President KERRIGAN—On the B-42 item of the City Council budget. The committee recommends that B-42 item be reduced from \$10,900 to \$8,000, and that the D-1 item be reduced from \$3,600 to \$3,000.

The question came on adopting the recommendation of the committee.

Coun. HANNON—What are these items? Some of us fellows aren't members of the committee.

Coun. MUCHNICK—B-42 is miscellaneous services.

The recommendation to cut B-42 from \$10,000 to \$8,000 and D-1 from \$3,600 to \$3,000 was adopted.

President KERRIGAN—Further recommendation. "City Record." The committee recommends that the sum of \$2,500 be cut from the B-1 item of the appropriation.

Coun. MUCHNICK—B-1 item is printing and binding. Last year the sum of \$14,186 was spent. The year before \$16,640. The appropriation this year would be cut from \$20,000 to \$17,500.

The question came on adopting the recommendation to cut B-1 from \$20,000 to \$17,500 and it was so voted.

Coun. DWYER—I would like to offer some further amendments if I could. Mr. President, on the budget of the Commission for the Care and Control of the Suffolk County Court House, there is an item carried in there of \$4,500 for a custodian. That has been carried on the budget every year in its entirety since this position was created, but never accepted by the Council up to this year, and this year they are carrying \$2,000 of it. Last year the commission carried the entire sum. The commission came down here last year for an amount of money on a contract that they had asked bids for some years ago, and after asking bids on this particular contract to the sum of some \$13,000-odd, and the contract being signed by the Art Metal Company, the contract was never fulfilled. Last year they came down for an additional \$2,300-odd and stated to the committee and the Council if they received this \$2,300 the original contractors would go through with the contract at this time, and then they discovered they made a mistake and they needed \$300 more, so they got the \$2,600-odd out of this position of custodian, and this year the Budget Commissioner only carried \$2,000, because he knew it would take an act of the City Council to create this position as far as Boston is concerned, in accepting it. If we don't take this \$2,000 off this particular item they will spend it for some reason that they will dig up at the end of the year, and their budget is heavy enough. They are asking for a total, Mr. President, of \$445,878.40 to put that burden of the taxpayers of the county on the citizens of Boston, as they pay the expenses. So, Mr. President, I hope this \$2,000 will be stricken from this budget.

The question came on the adoption of Coun. Dwyer's amendment to strike \$2,000 from the budget of the Commission for Care and Control of Court House, and the motion was lost, yeas 7, nays 10.

Yeas—Coun. Bayley, Carey, Chase, Dwyer, Feeney, Hanley, Kelly—7.

Nays—Coun. Coffey, Hannon, Hurley, Kinsella, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, Taylor—10.

Coun. DWYER—Mr. President, under the budget of the Suffolk County Jail, I move that we strike the sum of \$5,000 from the D-2 item, the food and ice item. I move that, Mr. President, because last

year the sum of \$20,715.50 was expended. This year they have allowed the sum of \$25,000. When the Sheriff was here he admitted there are many fewer prisoners at the present time down there and therefore I maintain, Mr. President, if they have got a great many fewer inmates and if all they spent was \$20,715.50, that a reduction of \$5,000 will leave plenty this year, with a great many less to take care of. I also had in mind, Mr. President, when the Sheriff was here and he was discussing items on this particular budget that had been cut, and he was asked right out whether or not with the cut he received he would have sufficient to carry on his duties efficiently, he said he had saved, as he did last year, from one item to another, and he would transfer within the department. So, Mr. President, I move that \$5,000 be stricken from the D-2 item.

The question came on adoption of Coun. Dwyer's amendment, and the amendment was lost, yeas 4, nays 11:

Yeas—Coun. Carey, Dwyer, Feeney, Hanley—4.

Nays—Coun. Bayley, Chase, Coffey, Hannon, Hurley, Kinsella, McCormack, Muchnick, Russo, D. F. Sullivan, Taylor—11.

Coun. DWYER—Mr. President, I further move to amend the Jail Improvements special appropriation, the sum of \$24,000 being allowed this year, \$20,000 of it for a wall in the jail, and \$4,000 for a roadway in the jail yard, evidently, a total of \$24,000. These figures, Mr. President, are not the figures of any contractor. They are figures that the Sheriff himself arrived at, and I think \$5,000 could be saved to the taxpayers and the home owners of the City of Boston by striking \$5,000 off this particular special item. In a great many instances your committee had various department heads come before them requesting certain amounts for repairs that were drastically cut, and here is a man that comes in here and admits he is not an engineer, a contractor nor an architect, and he submits these figures of \$20,000 for wall repairs and \$4,000 for roadway. So I say at least we should try to save the taxpayers \$5,000 on this particular item, and I hope this proposed amendment of mine will prevail.

The question came on Coun. Dwyer's amendment to cut \$5,000 and the amendment was lost, yeas 7, nays 11:

Yeas—Coun. Carey, Dwyer, Feeney, Hurley, Keenan, Shannon, Taylor—7.

Nays—Coun. Bayley, Chase, Coffey, Hanley, Hannon, Kinsella, McCormack, Muchnick, Russo, D. F. Sullivan, M. H. Sullivan—11.

Coun. CHASE—I would like to ask, through you, Mr. President, of the chairman of the Committee on Appropriations how much is spent annually on bonds by the City of Boston.

President KERRIGAN—What kind of bonds? Coun. CHASE—I was perusing the budget hearing records, and I find considerable discussion of bonds. As I was chairman of the Committee on Appropriations in 1939, I may have overlooked something then, but I don't see why so much questioning should be done on the item of bonds. My curiosity is aroused as to what is actually spent by the city on bonds, and who gets it, and whether or not it is competitive bidding, or whether this is given to just any Tom, Dick or Harry. I thought perhaps the chairman of the Committee on Appropriations could enlighten me.

Coun. MUCHNICK—I don't know the exact sum of money spent by the City of Boston in bonding some of its employees. As chairman of the Committee on Appropriations, however, I felt that there should be a full and open public hearing, and that any councilor, whether a member of the committee or not, should ask as many questions as he wished, whether on the item of bonds, B-12, or any other item. One member of the Council was particularly interested in the bond item. If the Chair has no objection, I would just as soon that question was answered by that councilor rather than myself, because I don't know the answer to it.

Coun. CHASE—Mr. Chairman, may I ask the chairman of the Committee on Appropriations, through you, sir, if he couldn't give us an approximate figure of the annual cost to the city for bonds.

Coun. MUCHNICK—On that specific item I can't do it approximately. If I may, through you, Mr. President, answer the question by asking another. Possibly Councilor Dwyer would be able to answer.

Coun. DWYER—I don't refuse to answer any question that is propounded to me, and I have always answered questions to the best of my ability, but I, myself, don't know the amount of the bond premiums that are paid in the City of Boston, and I have never checked up in entirety to find out how many persons are bonded or what premiums are paid. I don't know why this sudden change in the subject in asking me a question of that kind. I am sure if the councilor is interested in finding out he has the same means and methods as any other councilor. As far as I am concerned, I, for one, don't know anything personally about it. I don't know about any one else, but a great many times, Mr. President, when somebody is too curious and somebody does suggest about another member answering, I wonder what their reasons are.

Coun. MUCHNICK—If this is a request for my reason, I was merely following along the question of Councilor Chase. The questions at the hearings of the committee were put mostly by Councilor Dwyer, and I assumed he would have the information if anybody would. I just

didn't know the answer and was trying to help Councilor Chase in seeking some information.

Coun. DWYER—Well, Mr. Chairman, if I was chairman of a committee, whether it was any member of that committee or any other councilor who was present, and he did ask any questions about any matter in the budget, I would come pretty near knowing what the answer was myself and be able to answer it, without suddenly throwing it off on some one's else back. I still maintain, Mr. President, there is a nigger in the woodpile somewhere.

Coun. MUCHNICK—Will the gentleman yield for a question?

Coun. DWYER—Yes.

Coun. MUCHNICK—As I recall the hearings, the different department heads stated that the sums planned this year were approximately the same as last year.

Coun. DWYER—I yielded for a question. I don't get any question there. I hope the gentleman won't make any speech there.

Coun. MUCHNICK—Will the councilor tell Councilor Chase and myself what the amount was that was spent last year?

Coun. DWYER—I would be most happy to tell the gentleman from the Back Bay if I had the information. As far as the chairman of the committee is concerned, I still maintain he should not have to ask me or any member of the Council what transpired.

Coun. HANLEY—I believe, Mr. President, that Councilor Chase is out of order at the present time. If he cares to, he can look up the stenographer's report as written by two capable persons before me. I don't think any member of the City Council should be put on the spot by innuendo. And the question propounded before you and given to Councilor Muchnick and then diverted on a lateral pass to Councilor Dwyer is taken unduly; and I move the question is out of order, and that we proceed with regular business.

Coun. CHASE—I don't think my question is out of order. I am a duly elected official of the taxpayers of Boston, and I am interested in the budget. The chairman of the Committee on Appropriations who presided over this committee during the hearings should have that information. I know there was considerable discussion on items of bonds in different departments, and my curiosity is now aroused. I would like to know why there was all the questioning of the items on bonds. I would like to know the annual expenditure and who gets the business.

President KERRIGAN—The Chair rules that the question is answered as far as possible. We will proceed with consideration of the budget.

Coun. DWYER—Mr. President, I move that in the Fire Department budget, under C-4, motor vehicles, the sum of \$100,000 which has been allowed have \$25,000 stricken from that item, and I do it for the following reasons: Last year, under C-4, the departmental allowance was \$140,350; the department spent the sum of \$32,331.31. Now, Mr. President, at the end of last year the Fire Department came before the Council and they agreed to having a large sum of money taken away out of this item and transferred altogether to another department in the city. And the Fire Commissioner was before us. He was interrogated about a contract that public bids were opened on last November, for three small tractors. I think the whole amount of the contract was somewhere in the neighborhood of \$20,000, and today that contract has not been awarded. It is going on to four months and no award has been made. Maybe it will be four months more before the award is made. The Fire Commissioner has made a recommendation, so he stated to the committee, but there has been no action taken on it, and there have been no awards made. Now, Mr. President, the Fire Commissioner also went into the situation that even after a contract was awarded he doesn't know how long it will take for the apparatus to be secured. The bids were opened last October. I presume the contractor, as I remember it, had something like ninety days, three months, to furnish the apparatus. It happens to be for tractors in this particular case. He stated that on the last apparatus where there was a bid, one concern was well over thirty days behind in their contract. So I say, Mr. President, that this money will probably never be spent, and if we do cut \$25,000 from this item we will be showing the taxpayers of Boston we are trying to help them to keep this tax rate down. I hope that this cut will prevail.

Coun. TAYLOR—I hope the councilor doesn't fool with fire. Evidently that money is put in there for the purpose of securing equipment. We know it has been difficult in the past to secure equipment, but I understand they are letting down the bars on it and much equipment can be secured which could not be secured before. It is a very dangerous thing to take away from the citizens of Boston any fire apparatus.

Coun. HANNON—Strange as it may seem, I agree with the statements of the two previous speakers. The gentleman over on my left (Coun. Taylor) says it is dangerous to take away from the citizens of Boston fire apparatus that they need. The gentleman on my right (Coun. Dwyer) says that money was appropriated last year to buy fire apparatus, and the apparatus was never purchased. Now, I know that to be a fact. We were painted a sordid picture of the condition of the apparatus in the City of Boston, and the picture didn't have to be painted. Any of us who have watched the apparatus of the Boston Fire Department going along the streets wondered many times how it

kept together, how it still operates. And yet last November bids were opened for three tractors to be purchased. They were necessary, we were told, and bids were opened legitimately, and the low bidder, unfortunately, didn't get the bid. Why? Nobody knows. I don't know, anyway. I have inquired of three or four sources. In fact, I was told that before any award would be made I was going to be shown a report of engineers, because, of course, those in authority always tell you that the bids will go to the lowest bidder unless there is some reason, some big reason, why the lowest bidder should not get the contract. The lowest bidder in this case was a local man, a man who pays taxes to the City of Boston, a man with a reputation, a man that has a firm behind him with an investment of over \$70,000,000, and yet, Mr. President, we find ourselves coming into April and that depleted apparatus has never been replaced. That contract has never been awarded, and why? I don't know. I was told, "Next week an engineer is going to have a report in here, and I am going to give it to the firm recommended by that engineer." Next week came and the engineer's report had not shown up, and again I was told, "Next week the engineer will have that report in, and between the apparatus recommended by the lowest bidder and that to be furnished by the second bidder we are going to have a contract." And that week passed by and the people of Boston are still suffering and still waiting for this dilapidated apparatus to be replaced by something modern and up-to-date. Oh, it isn't a story of not being able to get the apparatus. The apparatus is available. The bids have been opened. Their bonds have been furnished, and the apparatus will be turned over to the city just as soon as the orders are given to purchase the apparatus. The story I don't know. Apparently the low bidder is not in right. Doubtless there is something wrong. But if there is something wrong we should know it in black and white, and whoever or whatever engineer or firm was going to furnish that information it hasn't as yet been produced. So I don't know that we gain any benefit by cutting this item. As the gentleman from Ward 12 (Coun. Taylor) said, we do need apparatus. But as the gentleman from Ward 21 (Coun. Dwyer) has stated, if we do need it, why don't we buy it? If we are not going to buy it, why kid the people? Why put these matters out to public bid? Once they are open I feel it is an obligation on the city to follow through and give the contract to the lowest bidder unless there is a really justifiable reason why the lowest bidder shouldn't get it. You are right, councilor. We owe the people of the City of Boston some protection, but we owe it to them in many ways, and one way is to have proper apparatus, and the only way to have proper apparatus is to replace old, dilapidated, worn out apparatus. Bids were opened last November, and beyond, and I ask everybody in authority why haven't these contracts been awarded?

The question came on Coun. Dwyer's motion to reduce item C-4, Fire Department budget, by \$25,000 and it was lost, yeas 1, nays 19:

Yeas—Coun. Dwyer—1.

Nays—Coun. Bayley, Carey, Chase, Coffey, Feeney, Hanley, Hannon, Hurley, Keenan, Kelly, Kerrigan, Kinsella, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—19.

Coun. DWYER—Public Buildings Department, item B-39. The sum of \$50,000 has been allowed for general repairs to the commissioner of Public Buildings. Mr. President, when the commissioner of Public Buildings was before the committee, sir, I asked him specifically how he was going to spend this \$50,000 if the Council allowed it. I not alone asked him that, Mr. President, but after I asked him several members of the committee asked him, and the gentleman could only tell us how he proposed to spend \$2,500 of that amount. He did promise us faithfully, Mr. President, he promised me and he promised the committee, to give a breakdown of how he proposed to spend this \$50,000, to give this committee some idea on how he was going to spend \$50,000. Well, I have never seen his breakdown up to today, and I don't know whether he has given one or not. I have tried to contact him, and I did today, and I talked with the gentleman about this matter, and I said to him, "On the \$50,000, under B-39, for general repairs, you promised to give a breakdown on that." "Well," he said, "that is for emergencies." "Well," I said, "if it is for emergencies, you must have a complete list on just how you propose to spend it." And he said, "No, I haven't." He said, "In case some emergency arises." I said, "Your figures might be off, then, if you have no figures as to how you propose to expend it. Is that right?" And he said, "It could go more." I said, "Could it go less?" He said, "Yes, it could go less." I said, "Could it go considerably less?" And he said, "Yes, it could; but it could go more." I think if this gentleman is allowed \$30,000 for emergencies, that is plenty of money, and I hope, sir, that this particular item will be cut \$20,000, especially in view of the fact that the superintendent promised to give the committee a breakdown and tell us how he intended to spend it, and he can't do it.

The question came on Coun. Dwyer's amendment to cut item B-39, Public Buildings Department budget, from \$50,000 to \$30,000, and it was lost, yeas 7, nays 10:

Yeas—Coun. Bayley, Carey, Chase, Dwyer, Feeney, Hanley, Kelly—7.

Nays—Coun. Coffey, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Russo, D. F. Sullivan, M. H. Sullivan, Taylor—10.

Coun. DWYER—Under County Buildings, B-39, the sum of \$12,000 was allowed for general repairs on county buildings. Last year the gentleman spent \$6,376.33. I move Mr. President, that the sum of \$5,000 be stricken from the B-39 item under County Buildings, leaving \$7,000 in the department, more money than they spent last year. The gentleman also promised to give a breakdown on how he proposed to expend this money, and as of this date I have not received that.

The question came on Coun. Dwyer's amendment to cut \$5,000 from the B-39 item, County Buildings, and it was lost, yeas 6, nays 12.

Yeas—Coun. Bayley, Chase, Dwyer, Feeney, Hanley, Kelly—6.

Nays—Chase, Coffey, Hannon, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Russo, D. F. Sullivan, M. H. Sullivan, Taylor—12.

Coun. DWYER—Mr. President, the sum of \$275,000 is asked for in the Contingent Fund. I move that \$50,000 be stricken from this fund. I do that, Mr. President, in view of the fact that when the Law Department was before us it was brought out that practically one third of the Contingent Fund is spent by the Law Department. I have a breakdown here of some of the expenditures last year of the Law Department in the Contingent Fund, the sum of \$32,169.52, for the registration of titles in the Land Court. I presume if they have the same number they will have to spend the same amount in that. Services of experts before the Board of Tax Appeals, the sum of \$28,726.30 is there, Mr. President. Also services of writs and other legal expenditures, \$14,101.37. I presume they will have to have the same amount there if the same amount of business is done. Various other expenditures total a sum of \$94,993.01. Last year, Mr. President, the personnel of the Law Department was not at its peak, but this year the Law Department has an increased budget. It has several more working at the present time than they had last year, and they haven't the same number of cases before them that they had last year. Mr. President, from information that I received and in the reading of the papers, I believe that the Law Department will not be called upon to do the amount of work this year that they did last year, and so with their increased personnel, I think they could use some of those Assistant Corporation Counsels instead of going outside and hiring outsiders. Also under this item is the money that was paid out for legal services, the reimbursement of public officials' legal expenses for legal services, on the Building Code, an item of over \$10,000. And all the way down, it is a lengthy document; there are a great many things that appeared in it last year that won't appear in it this year. And I say, Mr. President, that this budget should start to be cut right on this Contingent Fund. Right here we can show the taxpayers and the people of Boston that we are on the level by taking the money right out of that and reducing that, and thereby showing good faith with the citizens of Boston. I hope, Mr. President, this will prevail.

Coun. CAREY—I sincerely hope that the Council will not discredit the suggestion made by the councilor from Ward 21 (Coun. Dwyer) relative to the proposed cut in the Contingent Fund. The Contingent Fund was \$325,000 last year. They spent \$308,000, but of that expense there was \$27,995.83, or practically \$28,000, spent in the Municipal Employment Bureau. That department is independent this year and has its own budget. In the Bureau of Americanization \$17,743.74 was spent. That department is independent this year. In many of these items there is no necessity for the amount allowed this year. I sympathize with the councilor from Ward 21. He is making a noble effort here, that is evident, to reduce the city's expenses and save the taxpayers some money. Some of the members are wondering why the committee didn't vote back some of these. As a matter of fact, the committee did vote \$25,000 in the Contingent Fund out, but the poll that was referred to previously by the chairman has made this in order today. This meeting after the meeting had been called apparently ruled out the cut made by the committee on Saturday morning to reduce that budget \$25,000. We have got to begin to save some money for the taxpayers. We have shown it is possible to do that. The allowances in every department this year are more generous than last year. Last year there was approximately \$500,000 unexpended December 31, and the previous year approximately \$1,000,000 was unexpended December 31. That goes to show how generous the City Council has been. This year the taxpayers, for the first time in history for many of them, were forced to meet Federal income and state taxes. The people of the city, as well as the entire country, are sick and tired of taxes, taxes that are being levied for the most part on people that can ill afford to pay them. The cost of government, of course, is way out of bounds. The time has come when the people are going to demand that there be cuts made here and there. We are going to have a tax rate this year of \$41 or over. Welfare expenses are down from \$6,000,000 to \$7,000,000. The Elevated deficit has been reduced. The city is receiving upwards of \$1,000,000 this year, as a

matter of fact. The tax figures indicate a tax of over \$41, and I can imagine what the people are going to say when they receive their tax bills. They ought to storm the City Hall and demand that something be done to help them. We have got to give attention to the expenses of running this city. Now, it is too bad that some of the recommendations made by the councilor from Ward 21 were not incorporated in the report here today. The committee didn't have enough time to sit down and dwell on this budget, as the committee should have had. We had a little time on Thursday and a little time on Friday and a little time on Saturday. I don't know that actually, Mr. President, eight hours was spent on going over the budget, a balloon budget, the highest in the history of the city, at any rate approximately \$45,000,000, and we are down here, elected from the various sections of the city, to honestly go before the people of this city, taking the part of the taxpayers wherever it is necessary to do so and doing something for them. We have many a noble widow who, as a good soldier, comes into City Hall and plunks her taxes down at City Hall every year. Why? Because she has that independence, that love for the city, and the desire to do her part. And if we refuse to go into this budget in the manner we should, in the manner of trying to save the taxpayers some money—

Coun. TAYLOR—I rise to a point of order.

President KERRIGAN—State your point.

Coun. TAYLOR—I don't like to interrupt a good speech, but I think that that should be saved until the end when we pass on the budget as a whole. This is only the Contingent Fund.

Coun. CAREY—Mr. President, the Contingent Fund is the Santa Claus fund of the city, and we are now taking it up, and I think it is time now to endeavor to stress upon the members of the Council here that the people of Boston are looking for some relief and they are not going to get it this year, if what I hear is true. There are too many ideas that are built up in the course of the year the expense of which, if they are put into operation, is taken out of the Contingent Fund. We don't need \$275,000 in the Contingent Fund this year. As I said a moment ago, last year there was \$500,000 in unexpended balances in the various departments, so if the Contingent Fund runs dry this year, and I hope it won't, there will be opportunities from other city departments to have some transfers made into it. We ought to be ashamed of ourselves in the budget represented this year—\$45,000,000—if we can't get at least \$500,000 off of it. But the way we are going here today we might as well not present it. However, I will stay until five o'clock tomorrow morning if I can do something for the taxpayers in my district. I hope, therefore, that the motion of the councilor, if it isn't carried out on the figure that he said, will be amended at least to \$25,000 or \$35,000 to be cut from the Contingent Fund budget.

Coun. RUSSO—I took it for granted when this decision was made by the committee that the members had enough knowledge presented to them at that time to reach the decision of deducting \$25,000 from this fund. I went along with the committee on voting to deduct \$25,000. As I stated before, I wasn't able to be present at the time of the hearings, due to illness. If there is any other information that has been presented to the chairman of this committee, I am only wondering why it has not been explained to the members of this committee. I would like to know if my vote, by voting either for or against, is going to be right, and I would like to make it right, if possible. But I wish that the chairman would give the members of the committee any new information that he might have in his possession, and if he hasn't, then I will go along to reduce the \$25,000 from the Contingent Fund.

Coun. MUCHNICK—For the sake of the record, I think it should be clearly understood that the item eliminating \$25,000 from the Contingent Fund was gone into and recommended by the Committee. Afterwards a poll was taken of the majority of the members of the Appropriations Committee which indicated their desire that the appropriation stand as submitted by his Honor the Mayor.

Coun. DWYER—I would like to withdraw my motion for a cut of \$50,000, and now make a motion that we make it \$25,000.

The question came on Coun. Dwyer's motion to cut \$25,000 from the Contingent Fund, and it was lost, yeas 8, nays 11:

Yeas—Coun. Bayley, Carey, Chase, Dwyer, Feeney, Hanley, Kelly, Russo—8.

Nays—Coun. Coffey, Hannon, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—11.

Coun. TAYLOR—I make a motion we take a recess for the purpose of going into Executive.

Coun. HANNON—I would like to stay here and complete the budget. Let us get it all through. We might be back tomorrow. As long as we are here now let us get it through. I think some of us have sat here and were ready to start the meeting on time. Some came in late and we lost an hour or two that way. As long as we are here, let us sit here and get it over with.

Coun. FISH—I rise to a point of order.

President KERRIGAN—State your point.

Coun. FISH—Isn't Councilor Dwyer recognized until he has finished his recommendations?

President KERRIGAN—No. Each item is a separate item.

Coun. TAYLOR—I think it would be rather a relief for the members to get away from these arduous duties and that they would welcome a change.

Coun. CAREY—I am here to try to give some relief to the people who are paying our salaries. We don't spend too much time here on Mondays. Let us give relief to them. I say it is too bad if we can't stay here and do something for these overburdened taxpayers, and let them not be any attempt to rush this thing through. I have in mind that if this is not acted upon it doesn't go into effect. Let us be fair with the people who are paying our salaries and give them a break one day in the year.

Coun. TAYLOR—I think the gentleman from Ward 10 (Coun. Carey) misunderstands me.

Coun. DWYER—In the past, Mr. President, I have always stayed through when any member of the Council had a matter he was discussing. True, I might not have a lot of support on the particular things I am trying to do for the taxpayers, but I think, Mr. President, if the members don't agree with me they should at least be fair and allow me to go through with what I have in mind. After all, I have always been courteous and listened to them, and I am one who attends meetings, and all meetings. I have put a lot of time into this budget and given it a lot of thought, and I am sincere when I say these items should be cut. And I am trying to do something for the taxpayers, and I hope, whether the councilors agree with me or not, they at least will be courteous and give me an audience. After all, I am just getting warmed up, and maybe I will be able to convince some councilors to my way of thinking if we go along.

Coun. BAYLEY—I am opposed to taking a recess at this time, and feel that we should finish the budget now before going into Executive Session. Certain members of the Appropriations Committee have worked very hard on this budget. Probably the most faithful were the two members who objected to having the report changed at the last minute—the councilor from Ward 10 (Coun. Carey) and myself. The councilor from Ward 21 (Coun. Dwyer) also attended very faithfully. I think it is too bad we have such motions coming up here—those of us who worked so hard, and the chairman did work hard, and the councilor from Ward 3 (Coun. Russo) was very faithful when he recovered from his illness. I think in fairness to those who worked so hard we should not railroad this budget through. I think we should have full discussion, no matter how long it takes.

Coun. FEENEY—I think it is only fair that we continue on this budget until we complete the various items in it, and I think it is only fair to the councilor who has been endeavoring to put into effect certain cuts in the Mayor's budget that we, out of common courtesy to a member who is working as hard as he is, sit here until we complete the business before us. I hope the members of the Council will go along and remain in session until they finish this budget.

Coun. CHASE—Mr. President, I see no harm in our acting favorably on the motion of the councilor from Ward 12 (Coun. Taylor). As far as I am concerned, I intend to sit here until midnight, if necessary, but I also have in mind that after we act on the budget maybe some of the boys who are in the habit of taking a walk would take a walk around the block. We have the Mayor's \$5,000 order for the "Clean-up" campaign. It was defeated last week because of the absence of two men, and I see no reason why we should not go into Executive Session and clean up that item and then come back and sit until midnight if necessary.

Coun. HANLEY—Mr. President, the councilor from Ward 4, Perlie Dyar Chase, has again used inference in castigating me because I happened to be one of the members that left the Boston City Council on last Monday. I owe no apologies to the councilor from Ward 4 at any time for my absence, my work or my deeds. I owe no apologies, councilor, at any time. Now, if you care to enter into debate, councilor, I will make you smaller physically than our Creator intended. The Executive Committee, Mr. President, is composed of twenty-two members of the Boston City Council and I have the distinct honor and privilege of being its chairman. I stated last Monday, and again it is repetitious, that I voted for the \$5,000 that his Honor the Mayor submitted, and I also voted for the \$1,000 that the distinguished councilor from Ward 10 (Coun. Carey) submitted as an amendment. And I stated also last Monday that I didn't believe that any other councilor should engage in debate when the four distinguished councilors, Councilors Dwyer, Feeney, Fish and Carey, were lacerated by the impetuous tongue of his Honor the Mayor. When I see four of my colleagues being lacerated by his Honor the Mayor and again amplified by you, Mr. Councilor, I take the floor. Now, never, never try, Mr. Councilor, and I am speaking through you, Mr. President,—never try inference with me, because, as I said one time before, I am a nervous man. And for all your legislative career I care not one iota. Your record as a public official is open at any time for debate, and even in your district, councilor, I could bring out some very colorful incidents in your career. For one thing, Mr. President, and I hope the councilors' article sensitivity is very acute. I never took a back seat from you or any one else in public life. I could debate with you on the rodents and the destructiveness of the black and the red rats, if I may use the vernacular. I hope it doesn't offend

you. Your knowledge of parliamentary procedure is practically nil. Your knowledge of government has been gleaned from books that are learned in the eighth grade. Your language, counselor, I could place in the vernacular, and your physical stature, counselor, I could place in the category of the Hitlers and the Napoleons who were about your same size, sir. But never try, counselor, to hurt me by any remarks in the City Council, because I would make you so small in about five minutes that even Councilor Russo in his professional career would have a hard time to dispose of you. Now, these remarks of mine are more fitted for the crowd, the angry crowd, the hoi polloi. They are not fitted for the members of the Boston City Council, and I apologize to the twenty-one members—or at least the twenty members. I will never apologize to the councilor from Ward 4 (Coun. Chase). A castigating tongue, counselor, can get you used up so small that you would have a hard time to go through the keyhole that Walter Winchell peeks through in order to make a Sunday night broadcast. I owe no apologies to you at any time for my vote. I owe no apologies to my constituents. I don't come in here with morsels in my cheek. I don't jump in from the door to find out from another member what we are voting on. I don't try to get under cover between the hours of two and the time of adjournment on Monday. I wonder, counselor, can you say the same? Now, counselor, the \$5,000 that his Honor the Mayor has requested was defeated decisively but it didn't stop his Honor the Mayor usurping the powers of this legislative body by having various things printed. It didn't stop him from starting his "Clean-up" campaign today. He utilized the dictator's role. He was going to call a special session when, if he ever read the rules of the City Council or the charter he had no more right nor power to call a special session than you have, counselor. That lies within the province of you, Mr. President, and the City Clerk, for certain specific purposes. I voted for the \$5,000 for his Honor the Mayor, and it is the likes of you, counselor, that makes the issue, and his Honor the Mayor has lost more friends by those who took the floor in his defence than by those who are for constructive criticism. And you, counselor, should be the last one to oppose a "Clean-up" campaign, morally or physically.

Coun. COFFEY—Mr. President, I think it might be a good thing at this time to ask that the appropriation of \$5,000 be taken from the Executive Committee and be brought back here now. I hope unanimously, so we can act upon it now and we won't have to leave the chamber to act on the budget. We can continue here with our business, because I don't think there is anything else in Executive that would call us out. I move that the \$5,000 be brought from Executive.

Coun. CHASE—Mr. President, it is regrettable that the gentleman from Roxbury (Coun. Hanley) has seen fit to make a personal issue of something that I honestly stated, as I have a right to state. Mr. President, I have been rendering service to the public of Boston in this Council now going on for the seventh year. I don't think, sir, any man can ever point a finger to me and say that I have not been an honest and conscientious public official. I don't think any can point a finger at me, Mr. President, and say that I have not been on the square with them. I have participated in many a battle in this Council, and I am not afraid of a fight with any person. When I think I am right I will fight. Now, I said, Mr. President, that I thought it was only proper for us to enter into Executive Session to pass on his Honor the Mayor's request for \$5,000, and I stated that I thought we should do this before some members of our Council might take a walk, the way it happened last week. And I submit to you that I made a true statement of the fact that occurred last week. I didn't intend to engage in any personal discussions with the gentleman from Roxbury, for whom I have the utmost respect. I think he is one of the ablest men that has ever entered this Council Chamber. I think he is a conscientious and hard working man, and I think he endeavors to do the right thing, and if I didn't think so I wouldn't be on the floor saying what I have to say about the gentleman. But I will go farther and in my honest statements I say this, that the gentleman has been misled on many occasions, and I don't say that in the spirit of antagonism; I say it in the spirit of brotherly love to him. I think the gentleman is a gentleman, and even though he has hurled sarcasm at me I hold no brief against the gentleman, because he is a gentleman. I have had more practical experience than he has had, and I think I understand the frailties of human nature better than he does, because of my seniority. I think I understand human nature. I understand when a man is on the level. I understand when a man is holding a gun to another, saying, "Give me this, or else." Mr. President, I have never engaged in that terrible art to gain or force my point. I have been a true public official. I say this to the gentleman from Roxbury, for whom I have the utmost respect. I think he is a fine man, and I think as the years go by he will acquire a high place in public office. But, Mr. President, I warn him that at times the finest of men are misled. I have on occasion gone so far as to say his Honor the Mayor has been misled, but his Honor the Mayor has not seen fit to take issue with me because I have differences with him. I am

surprised that the gentleman from Roxbury would take the floor and talk in the manner that he did because I, sir, have only the utmost of brotherly love toward him, the utmost of respect, and I wish him the best of luck in all of his public enterprises, but I repeat, there is many a good man who has been led into being a tool of those who would do the things that the public would not appreciate. I think, Mr. President, that most of the councilors here know what I have in mind when I talk in the manner that I do. Mr. President, I have never gone down, nor would I ever go down to the Mayor's office and say, "Mr. Mayor, you can have the whole City of Boston, I don't care; but you won't get it unless I get my cut." Now, Mr. President, that sort of business is repulsive to me. I don't like it. And again I repeat that the gentleman who has seen fit to talk on this floor in the manner that he did that I like him and I wish him the best of luck, because he is a good man, because he is a gentleman. But I sincerely hope, Mr. President, that he will not be misled.

Coun. HANLEY—I ask, Mr. President, a personal privilege in answering the eulogization aimed at me by the distinguished councilor from Ward 4 (Coun. Chase). Am I in order, Mr. President?

President KERRIGAN—The gentleman is asking for personal privilege?

Coun. HANLEY—Yes.

President KERRIGAN—You are in order.

Coun. HANLEY—Speaking through you, Mr. President, the word "maturity" means development. Now if the councilor from Ward 4 is more mature than I am, according to the age bracket that encompasses each of us, I agree with that. If he is more mature in his science of government than I, that is a point to debate. If he means that he is more mature in the legislative bodies of our country I will agree, because of his seniority, the number of years he has been in office. Whether you mean it or not, counselor, you utilized the word "two" and I was one of those who left the chamber on last Monday. The business that I had to conduct within a specific time is not open to the public. I am in the armed forces. I am in the United States Navy, and although you see me in civilian attire I have certain duties to perform, and I don't believe it is open for publicity by any member of the Council. If you say I am a gentleman, the word "gentleman" means one that doesn't cause his fellowman any harm. I have never caused any man any harm, physically, or otherwise, but I have a very sarcastic and stinging tongue and when I am hurt I utilize what nature gave me and what God allows me to use, and I will lash out with biting and stinging invective against any man, I care not what his name is, his political affiliation, his racial or religious profession. By inference you brought out, counselor, that I might be the puppet of some one else. I don't know whether you gathered that idea from some of the men whom I am very cordial with and whom I honor and respect. I was brought up in a glass house. It has never been my province to hurl or throw stones at another man's character, and if because of my association with certain men in this Council Chamber, or in private life, I am to be placed in the category of a puppet, then, counselor, you can have the better of the argument because I will not debate the issue with you. But no man in this Council, his Honor the Mayor or any man in public life can ever use me for a puppet or a tool for a price, or for friendship with contractors for the purpose of procuring remuneration. I believe, in reading back in one of your speeches, counselor, that you worked for a living, you worked for the education you received, and the people of your district saw that in you and they gave you the highest honor that a man in public or private life can attain, to be catapulted into the category of a public official. I too worked for a living and for an education. Without being egotistical, I can go to any part of the world, counselor, and ply my trade. Being in public life is something that I pass through. Whether I am a puppet or not is open to one set of persons, the people, but as a member of the Boston City Council my speeches and your speeches will remain until the end of the world. And any time I have taken the floor in defence of any one man or group that I belong to, it is for the purpose of protecting. I appreciate deeply the commendation that you have extended to me. It is part of the public record and I can assure you, counselor, that I shall never utilize it in order to further my political activities. If my life is open to me, as it was prior to December 28, I could say, counselor, that I would aspire for a higher office, and I would lay open with a sarcastic and stinging tongue to our American people the terrible war that we are engaged in because of servile and puppet politicians. But I am handicapped, counselor, because I have taken my oath of allegiance, and the reason I leave this chamber is that it suits my Government. I voted once for \$5,000. I also voted for \$1,000. I never duck a vote. I never duck a controversial speech, but I have seen no argument presented by the opponents or the proponents of the \$5,000 that can change my vote up to the present time. I thank you, counselor, through the Chair, for your commendation, and I hope that we shall never engage in verbal fisticuffs.

The question came on the motion to take a recess for the purpose of going into Executive Session. The motion was lost, yeas 7, nays 12:

Yeas—Coun. Chase, Coffey, Hurley, Kerrigan, Muchnick, D. F. Sullivan, Taylor—7.

Nays—Coun. Bayley, Carey, Dwyer, Feeney, Fish, Hanley, Hannon, Keenan, Kelly, McCormack, Russo, Shannon—12.

The question came on the motion to recall from the Executive Committee the Mayor's order for \$5,000 for "Clean-up" campaign.

Coun. DWYER—Speaking on the motion, I hope, Mr. President, that the motion does not prevail. As I said before, I am right in the midst of this budget and, without being selfish about the matter, I would like an opportunity of going along and finishing up what I have to say. I don't know, Mr. President, how long the discussion will take on the other matter, but I think it is a little unusual, on a matter like the budget, to interrupt it for a small item of a transfer of \$5,000. Why not let us continue with the budget, and when we get through with the budget then decide whether or not we will transfer sums. Mr. President, while I am on the floor here, I want to rise to a point of order. I thought that under the rules of the Council on transfers—Rule 32 of the Council—"Every application for an appropriation to be provided for by transfer shall be referred to the executive committee, unless otherwise ordered, and no such appropriation shall be made until the said committee has reported thereon." Now, Mr. President, you have ordered this matter before the Executive Committee and, therefore, sir, I think we would be violating Rule 32 of the Rules of the Council if we did attempt to take this matter on the floor of the Council.

President KERRIGAN—The Chair will rule it can be recalled by a two thirds vote. The question is on the motion.

The roll was called and the motion to take the appropriation of \$5,000 for "Clean-up" campaign from the Executive Committee was defeated (a two thirds vote being required), yeas 13, nays 7.

Yeas—Coun. Bayley, Chase, Coffey, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—13.

Nays—Coun. Carey, Dwyer, Feeney, Fish, Hanley, Hannon, Kelly—7.

Coun. DWYER—I now move, sir, that the amount of \$25,000 be stricken from the Reserve Fund.

Coun. CAREY—Is there any discussion on the motion? I want to call to the attention of the members of the Council, Mr. President, the fact that \$125,000 is allowed in the Reserve Fund this year. That is just another one of the Santa Claus funds, and apparently Christmas comes every day of the year. I don't like to make some of the statements I do make, but when one comes down here and has an opportunity to make certain observations, observations very seriously affecting the people who are paying the bills—in other words, the taxpayers—he seems forced to make them. Last year \$30,000 from the appropriation for the year of \$125,000 was eventually transferred to the Assessing Department; \$6,000 was eventually transferred to the Building Department; \$10,300 was transferred to Conventions and Entertainments. There was \$15,000 for Public Celebrations, \$28,000 to the Park Department. \$29,251 to the Public Buildings Department. In other words, Mr. President, practically all of the \$125,000 last year was transferred to departments that are amply supplied with funds to be used for the present year. But there is one thing I want to say, and I certainly don't like to say it. I have mentioned that \$10,300 was spent for entertainment, and \$15,000 for celebrations. Entertainment and celebrations at the expense of the taxpayers. The poor taxpayer of the City of Boston who has to do his own entertaining and his own celebrating at his own expense. And yet, in a year such as this when the budget should be considerably reduced, we are faced with the possibility of expending identical sums for the identical purposes this year. The remark has been made on the floor of the City Council that it would be a good idea to do away with the City Council, and I am beginning to believe that. I don't know what the twenty-two men are elected for when they haven't the courage, and if they have the courage, when they can't display that courage without fear of consequences. I want to be on good terms with the Mayor of the city and want to be on good terms with the people that give me the opportunity to be on good terms with the Mayor of the city, and those are the people in the Ward 10 section of the city. Those people out there and in the other twenty-one wards of the city are paying their own bills and supplying their own celebrations. Some might say, "You are trying to be rather picaresque." I don't say there shouldn't be money spent for certain forms of entertainment of distinguished guests of the city. It always has been done, but I do say that altogether too much of it is being spent for that purpose. In the entertainment and celebration item \$25,000 could easily be reduced from the amount that has been allowed, but, in addition to that, there are several other considerable items that will not have to come out of that fund this year. There is no necessity for any \$125,000 in the Reserve Fund. It seems to be an annual affair to accept the requests in the Contingent and Reserve Funds, but we could be a little bit different. I don't know why this Council can't show it has a little respect for the people paying the bills. It is an unholly shame that some consideration is not being given to those who are paying these bills.

\$100,000 will be more than ample for the requirements of the Reserve Fund this year, keeping in mind that last year at the end of the year approximately \$500,000 was unexpended in the various departments. I certainly hope, therefore, that the members of this Council will consider the taxpayers. We are not acting without having had some advice on this matter. I mean by that the members of the committee. We don't desire to make any cuts where an item cannot stand up under the cuts made, but the cut of \$25,000 certainly can easily be made from the Reserve Fund allowance, and I hope and trust that the members of the Council will make it.

Coun. M. H. SULLIVAN in the chair.

Coun. RUSSO—I stand on my feet and reiterate the words I spoke in regard to the Contingent Fund a moment ago. This is another item where I have been under the impression as a member of the Committee on Appropriations that we had agreed upon, taking out of that fund the sum of \$25,000. And lo and behold, at the last minute it doesn't appear in the committee's report submitted by the chairman of that committee. It is a serious affair. If we can allow any chairman of any committee to disregard his committee and present a report as he sees fit after the vote has been taken by the members of the committee, and bring it before the City Council and let the councilors go along in accepting the report of that chairman, it is a serious affair. I am for anything when I am convinced that the thing is right. I was convinced that \$25,000 should be deducted from the Reserve Fund, and I therefore voted to reduce the budget. I don't see any reason why this report was not presented, and I have had no new evidence so far as its remaining in the budget, as the chairman of that committee has reported. I haven't any new evidence and, therefore, I do hope the \$25,000 will be deducted from the Reserve Fund.

Coun. MUCHNICK—Mr. President, I don't wish to prolong this any more than is necessary, but the councilor from Ward 3 (Coun. Russo) says he doesn't see any reason why it was eliminated from the report of the Appropriations Committee. Again, for the sake of the record, let me state the chairman of the committee polled the committee and, if I remember correctly, on this specific item the vote was 5 to 2 in favor of letting it stand as submitted by the Mayor, and that was the reason why it was submitted in the form that it was.

Coun. RUSSO—Through you, Mr. President, may I ask the chairman of that committee to give the report as to the members of that committee that voted in favor, give the names of those members.

Chairman SULLIVAN—The Chair wishes to know if the councilor from Ward 14 (Coun. Muchnick) desires to answer the question.

Coun. MUCHNICK—I would just as soon answer the question. If my recollection is correct, Councilors Bayley, Coffey, Keenan and myself were in favor of leaving the Reserve Fund—

Coun. BAYLEY—From what source did the chairman of the Appropriations Committee get that impression when I told him I would not take any action whatever? I refuse to be misquoted. I say I will not be misquoted on my vote.

Coun. MUCHNICK—I don't wish to misquote the councilor from the Back Bay (Coun. Bayley), and I don't believe I am misquoting. It was pointed out to him that some of the funds from the Reserve Fund are used in maintenance and upkeep of playgrounds and other recreational facilities, and he said, "I am not against helping on playgrounds, of course." And that is what he said he would go along on, if my recollection is correct.

Coun. BAYLEY—I am very much in favor of playgrounds and recreation, as I guess every member knows, and I would never vote against any appropriation for playgrounds and recreation, for it has been my information and from close observation that playground equipment could be provided even with the \$25,000 cut which has been offered here and of which the committee was in favor, or intended to strongly vote in favor of the \$25,000 cut. And I am not convinced the \$25,000 is to be used solely for playgrounds. As a matter of fact, I believe it could be taken if we cut out expenditures that I consider unnecessary.

Coun. MUCHNICK—If the councilor from Ward 5 (Coun. Bayley) feels I have misquoted him, I apologize sincerely. It was not my intention to misquote him or anybody else in this body, but I still feel my recollection is correct.

Coun. FISH—Could I have read to the meeting what the rule is that permits a polling of a committee at two o'clock on a Monday afternoon?

Coun. MUCHNICK—I don't know what rule prohibits it, Mr. President.

Chairman M. H. SULLIVAN—I am informed it is customary usage and that there is no prohibition of it.

Coun. FISH—There is no prohibition that a committee can be polled regardless of what action was taken at a meeting of that committee two days previous?

Chairman M. H. SULLIVAN—It has been done by committees in the past.

Coun. FISH—Is there any rule permitting it?

Coun. MUCHNICK—Is there any rule prohibiting it?

Chairman M. H. SULLIVAN—I am informed, councilor, there is no rule prohibiting it.

Coun. FISH—Is there a rule that permits it?

Chairman M. H. SULLIVAN—Merely the rule of custom.

Coun. RUSSO—I rise to a point of information.

Chairman M. H. SULLIVAN—State your point of information!

Coun. RUSSO—Is it a rule that the chairman of a committee in polling a committee, goes to the members, one by one, and saying that others have voted for it?

Coun. TAYLOR—I rise to a point of order.

Chairman M. H. SULLIVAN—State your point.

Coun. TAYLOR—I don't think this discussion is in place on the floor. What difference does it make? The report of the committee is here now and we are acting on it.

Coun. RUSSO—I rise to a point of order.

Chairman M. H. SULLIVAN—State your point of order.

Coun. RUSSO—I think I am in order. The gentleman has stated this is a report of the committee, which I doubt, and that is the reason why I am on my feet. I doubt the report of the committee.

Chairman M. H. SULLIVAN—The Chair will rule that the councilor is in order.

Coun. RUSSO—I would like to have an explanation if it is the method of a chairman of a committee in polling a committee, to go to them one by one, separately, and say that other persons on the committee have voted for it?

Coun. MUCHNICK—That isn't the way it was done. To the first councilor who was approached it was not stated that anybody was in favor. To the second it was stated that the first was in favor, if he was, and so on down the line.

Coun. DWYER—I rise to a point of information.

Chairman M. H. SULLIVAN—State your point of information.

Coun. DWYER—I would like to ask, Mr. Chairman, if it is within the rules, if it is legally within the rules of the Council to bring a committee's report in when the committee has been polled on the day of the meeting, providing any one member of that committee objects to that report being brought in, a polled report?

Coun. M. H. SULLIVAN—The Chair will rule it is perfectly proper unless a majority is in opposition to such procedure.

Coun. DWYER—to bring a report in made up the day of the meeting?

Chairman M. H. SULLIVAN—There is no rule to the effect it cannot be done.

Coun. FISH—I rise to a point of information.

Chairman M. H. SULLIVAN—State your point of information.

Coun. FISH—Will you please inform me whether a member of the committee has to receive notice of a meeting, whether it be sitting down in the next room or polled,—how much notice each member of that committee has to receive? Is there any rule that regulates that?

Chairman M. H. SULLIVAN—No rule whatsoever, councilor.

Coun. FISH—Any member of a committee can be notified if they are met on School street or up here?

Chairman M. H. SULLIVAN—It hinges upon the activity of the chairman of the committee.

Coun. FISH—Can you prove to me that that is so, or is it just an opinion?

Chairman M. H. SULLIVAN—There being no ruling to the contrary, I cannot.

Coun. FISH—May I have read the rule of calling a meeting together?

Chairman M. H. SULLIVAN—I am informed, not from my own knowledge, but I am informed there is no such rule that can be read.

Coun. FISH—There are no rules?

Coun. D. F. SULLIVAN—I rise to a point of information.

Chairman M. H. SULLIVAN—State your point of information.

Coun. D. F. SULLIVAN—The committee holds a meeting, say on a Thursday and continues it until Monday, and again the committee takes a poll that Monday, whether, even though the members of the committee were not notified through the mail, it was just a continuation of the same committee meeting held over there.

Chairman M. H. SULLIVAN—The committee can ratify any action.

Coun. D. F. SULLIVAN—You misunderstand me. My main point here is relative to the poll taken today of members of the Appropriation Committee, that continued their hearings, I believe, until today.

Coun. CAREY—We did continue the meeting in the hope that there would be a meeting, but there was no meeting this morning.

Coun. D. F. SULLIVAN—That is the point that is brought out, the fact the committee meeting was to be held this morning and was called. Now, can that be done?

Chairman M. H. SULLIVAN—If there is no objection by a member of the aforesaid committee, by a majority.

Coun. CAREY—If the excuse of the committee so called today is that it is a custom, and I would say that it is a very poor custom, and I was severely berated the early part of last year because of my willingness to poll the committee on one occasion. The Committee on Appropriations met on Saturday morning and voted for recommendations that were to have been reported back for it by the chairman. Those recommendations were not reported back as voted upon Saturday morning. Now, when we met this afternoon

not only did the chairman poll the committee, but other members helped him poll it. It is about time we got down to a commonsense way of doing business in a group of twenty-two men past the age of seven many years ago. Let us do it by rule and not by custom, because it has been a very poor custom.

Coun. DWYER—I would like a ruling on Rule 30, committee meetings. "No meeting of any committee shall, without the consent of all the members thereof, be called upon less notice than twenty-four hours from the time the clerk shall have mailed the notices or dispatched them by special messenger, provided, however, that meetings of the executive committee may be held in the recess period of any meeting of the council without such consent or notice. No committee, unless authorized by an order of the city council, shall incur any expense. No committee meetings shall be called later than one hour immediately preceding the time set for any regular meeting of the city council, nor shall any committee remain in session later than the hour named for any such regular meeting." Now, the chairman of this committee said this polling business was done at 2:30 this afternoon and, under Rule 30, I question the legality of the report of the Committee on Appropriations.

Chairman M. H. SULLIVAN—The taking of the poll does not constitute necessarily a meeting of the committee.

Coun. FISH—I think this Council has a right to expect a report back from the committee when they sit in session of the opinion they arrive at, and not to circumvent it in the meantime. I think a proper report to this Council today is the vote they took sitting in committee, whether last Thursday or Friday, and they should not be polled just at two o'clock today to circumvent it.

Coun. MUCHNICK—It was felt that the Council could get a much clearer picture of the wishes of the committee if it received the total of the poll of seven members rather than the vote of three members, and it was with that in mind the poll was taken. The question before us now is a motion to cut \$25,000 from the Reserve Fund, regardless of what was done by the member or any member of it.

Coun. RUSSO—Mr. President, of course, as the chairman states, he polled the committee today, whether he has that right or not, I don't know—but I say it has been an unfair situation that has arisen, because, if I had been aware of the fact, I could have made a minority report of that committee and presented it the way it should be presented. I reiterate, I don't like the underhanded methods that have been used in railroadng this budget.

Coun. BAYLEY—I would have been very glad to join Councilor Russo in a minority report in that case, but when you have a poll at 2:30 o'clock it is hard to make a report of what was a minority. In fact, it was Councilor Russo and Councilor Carey and others that were here ready for that meeting, but the chairman didn't show up and we didn't proceed any further. I wish we had had a chance to make a minority report on this situation, especially of the three members who attended so faithfully and didn't just vote after two o'clock without having attended many of the meetings.

Coun. CAREY—I want to add that I certainly would have been part of the minority report if we had known beforehand that it was to be brought. There were four members, Councilors Bayley, Muchnick, Russo and myself present, and we voted unanimously to make these cuts, and we have had a polling of the committee today. Even the recommendations we voted on Saturday morning haven't been lived up to.

Coun. HANNON—I don't really think it makes much difference when the report was made, but I do feel that the chairman of any committee is bound to give each member twenty-four hours' notice of a committee meeting, and when a committee meets and a poll is made and a vote is taken, that matter is closed in so far as that meeting is concerned. In order to have another meeting, in order to take a fresh poll of the committee, I believe any member of the committee under our rules is entitled to twenty-four hours' notice. The only difference presented here is that the committee would be recommending a \$25,000 cut, rather than one individual, but I think in all fairness to every member, the chairman of any committee should follow the rules, and the rule specifically states that twenty-four hours' notice must be given before any committee meeting is called. And it further states that no committee meeting, even after this twenty-four hour notice, no committee can be called after one o'clock on Monday, or one hour before the opening of the session. Now, if a meeting has been held, and there has been no statement it was not held, and the members voted on it, that committee has performed its function; that meeting is over, and before any other meeting can be called each member of that committee is entitled to twenty-four hours' notice under the rules that each and every member of this Council is supposed to follow.

Coun. FISH—I think that Councilor Hannon has brought it out very clearly, and before I vote on this budget today I am going to ask that the real report of the committee be sent into this Council.

The question came on Coun. Dwyer's motion to cut the Reserve Fund by \$25,000, and the motion was lost, yeas 7, nays 11:

Yeas—Coun. Bayley, Carey, Dwyer, Feeney, Hanley, Hannon, Russo—7.

Nays—Coun. Chase, Coffey, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—11.

Coun. DWYER—I now move that under the City Planning Board, B-28, expert, the sum of \$2,800 be cut \$2,000. That particular item, Mr. President, is an item that is expended for a Technology professor, when the board wants some information. When they feel like having some conversation they call him up, and he comes over and at the rate of \$25 per conversation he gives them that conversation. Now, Mr. President, he has been giving that conversation for the past two years, but none of his conversations, as far as I could find out, related to any definite program that they were going to adopt. This man is not a resident of Boston. He is not a poor man. He isn't a man that works any set day or any set number of days, but he does get \$25 a day for coming over and conversing and talking things over with the City Planning Board. Well, Mr. President, I think it is high time that we cut this item of \$2,800 out. If he has done any conversing in the last two months, I am allowing \$800 in there for that, and I think you can well cut that \$2,000 and save the taxpayers that amount of money in this top-heavy budget.

The question came on Coun. Dwyer's motion to cut the B-28 item, City Planning Board, \$2,000, and the motion was lost, yeas 6, nays 11:

Yeas—Coun. Bayley, Dwyer, Feeney, Hanley, Hannon, McCormack—6.

Nays—Coun. Chase, Coffey, Hurley, Keenan, Kerrigan, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—11.

Coun. DWYER—Under Soldiers' Relief, special item, No. 8, the sum of \$480,000 has been allowed this year. The sum of \$590,000 was allowed in this item last year, and the department spent only \$402,856.33, or approximately \$188,000 less than allowed last year. The Commissioner of Soldiers' Relief and his chief clerk appeared before the Council and agreed to transfer \$160,000 of this appropriation—

Coun. HANNON—I rise to a point of order.

Chairman M. H. SULLIVAN—State your point of order.

Coun. HANNON—I rise to state that many of the boys are having sandwiches, and I suggest the absence of a quorum.

Chairman M. H. SULLIVAN—The clerk will call the roll. There is a quorum present.

Coun. HANNON—I would like a roll call to make sure.

The roll was called and a quorum was in attendance, Coun. Bayley, Carey, Chase, Coffey, Dwyer, Feeney, Fish, Hanley, Hannon, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor.

Coun. COFFEY—I move we go into Executive Session.

Coun. DWYER—I am not through.

Coun. CAREY—I rise to a point of order.

President KERRIGAN in the chair.

President KERRIGAN—State your point of order.

Coun. DWYER—Counselor Dwyer has the floor.

Coun. DWYER—Mr. President, this item, as I stated, No. 8, is for military aid, for soldiers' relief. Now, Mr. President, I for one would be the very last to cut any item for soldiers' relief. This department last year had the sum of \$590,000 and only expended \$402,856.33, and they were allowed this year the sum of \$480,000. I say, Mr. President, after talking with the Commissioner of Soldiers' Relief and checking on the expenditures in that particular department for the past two months, I believe that I am correct when I say that an amount of something like \$17,000—they are running behind in these last two months what they expended last year—I say this \$480,000 will not be needed this year, and if it is left in there they probably will come down and agree to transfer it to some other department, later on in the year. If it was to cut one cent of soldiers' relief I for one would oppose it, but I know they won't spend the \$480,000, because, as I have stated before, they are running \$17,000 behind the first two months of the year, and they will probably go a great deal further behind in their expenditures relative to what they spent last year as the months go on. I hope, Mr. President, that this item will be adopted, that the councilors will interest themselves in this and really look into it, and I hope my motion of cutting this amount \$40,000 will prevail, and that we will attempt to save the taxpayers \$40,000.

Coun. CAREY—One might be very hesitant in taking the floor relative to a reduction of this kind, but I have, too, talked with the Commissioner of Soldiers' Relief. I have always had the interest of the veterans at heart, and a few months ago, when there was an opening available in the Council, I was one of the few who went along with the veterans of the last war in voting to give a promotion to a man within the City Council department. I have no feelings against the man who got the position, because we are good friends and there is a mutual affection existing between us. But when that matter was before the Council, having in mind I wanted to do everything I could at every time for the veterans we hear so much about, I took the floor and argued at length and did my

best to promote within this department a veteran. And I mention that because I don't want anyone to consider any vote of mine here this afternoon on this particular item as one that might not be interested as not having an interest in the welfare of veterans at heart. I certainly have, and during the last few months have been successful with men in Congress at Washington in aiding the dependents of veterans here in the city who have to come to me, as a member of the City Council, and ask my help in order that pension payments might be made. So that I, in every way, shape and form, have the interests of the veterans at heart today, as always. But I talked with the Commissioner of Soldiers' Relief shortly before we came into the session, and he told me his expenditures for January of this year were \$7,500 under what they were for January a year ago. He further told me his expenditures for February of this year were \$5,000 under what they were for February a year ago. In other words, Mr. President, having in mind that \$402,000 was spent for that item last year, and keeping in mind also that an allowance has been made of \$480,000 this year, it was \$78,000 over what was spent last year, and keeping in mind also that the expenditures for the first two months of this year were \$12,500 under what they were for last year, that indicates to me—and, also keeping in mind that January and February are the two worst months of the winter season from the standpoint of demands made for relief for any purpose whatsoever—a saving of \$12,500 for two months represents a monthly saving of \$6,250. That, times twelve, twelve months of the year, indicates to me there will be a saving this year of approximately \$75,000 under what was spent last year. Now, if we deduct \$75,000 from the \$402,000 spent last year, we can anticipate that the Soldiers' Relief Department in that item will not need over \$350,000 for this year. Therefore, an allowance of \$480,000 indicates to me there are probably \$130,000 more in that item than is going to be necessary. I therefore think that the recommendation of the councilor from Ward 21 (Coun. Dwyer) is very conservative. As I say, to be repetitious, I don't want it to be construed that any act I take here today is against the veterans. I will always be with them, but we are here today to try to make whatever saving we can in this budget, and where indication is that there will be less spent this year I think the councilor is very reasonable in asking this cut of \$75,000.

Coun. TAYLOR—How anybody can get up on the floor of this Body and request a cut in the appropriation of those soldiers and sailors and marines who return that may be in need is beyond my comprehension. I have in mind that the Mayor must have been a little bit more farsighted than those seeking the reduction. He probably had in mind that as time goes by there are going to be more veterans returning, and as time goes on there are going to be more men enlisting in the United States armed forces. So that those men who return, or the dependents of those men that go, might have to come and seek aid. It can be an error to cut it down. It can never be a mistake to make it too much, because if it is too much, and I hope that it is for the soldiers and sailors, that money will go back into the treasury. I can't for the life of me see how any man who claims that he is interested in the people can get up on this floor with any excuse at all and object taxes or no taxes. It is just beyond my comprehension.

Coun. CAREY—I expected something just like that. Oh, it is a great thing to wave the Flag in this chamber here, and I have in mind the veteran of the last war. But I wonder that, when only \$402,000 was spent last year out of an appropriation of \$590,000 if we might have found some fault with the allowance. Now, I don't want to say that the Mayor is not generous, but I do want to say this to the members of the Council, that the Budget Commissioner when he was here gave me every reason to believe that the Mayor saw very little of this budget. If I am going to believe the Budget Commissioner, I don't think that the Mayor went over ten per cent of this total budget. I am just as liberal as the councilor from Ward 12, I come from a district quite similar, if not identical, to the district he represents. I come from a district where there are large families, from a district where there are children that have been born to the men in uniform; but, upon the words of the Soldiers' Relief Commissioner himself, there is no delay practically today in the matter of the forwarding of allotments to the families of those men to whom allotments are made. That was one reason why the Soldiers' Relief Department last year was able to turn back approximately \$175,000 of what had been allowed to them. I have given facts and figures. I will take the councilor from Ward 12 on any platform he wants to go on in this city, Symphony Hall or any place in Boston—Boston Garden, if he wants. I don't claim to be the best debater in the City of Boston, but I have always been able to defend my ground. I should say the gentleman from Ward 12 and I come from about the same circumstances of family. Perhaps he is a little better off than I am, personally and financially, but I am not one of those who wants to be niggardly with those boys out there that are fighting to save what is left of the so-called democracy we are supposed to exist and live under. I want to give them everything that is coming to them. When I was on the floor before, I acquainted the members of the Council with a case in point, where I as a City Councilor through contact in Washington

had to acquaint the Navy Department with the gross abuse relative to the delay in paying benefits to a widow of a man who was in the Navy and is now buried here in Boston, his remains having been brought back from the Pacific. I don't need to be told by anybody that I am not appreciative and a good fellow when it comes to taking care of these veterans. But I have given proof here on the advice of the Soldiers' Relief Commissioner himself that every indication is that there will be around \$75,000 at least saved this year against what was spent last year. The total expenditures last year were \$402,000, and the allowance this year is \$480,000. The indicated saving this year will be approximately \$175,000. Allowing that the City Council would approve a reduction of \$40,000 in that item, it would still leave \$42,000 to be spent, and every indication is that there won't be over \$325,000 spent in that item this year. I say, give to the veterans everything we possibly can give them, and a little more, a great deal more if it is necessary. I don't think I have to be at all reminded of the fact that they are out there trying to save us and save this country. I am for everything we can give them, but I would remind the members of the Council that if there isn't enough in the approximately \$440,000 that the Council would allow, that money can be found. The situation there is vastly different than in any other relief department of the city. The requirements for this year have been pretty well established in the Welfare Department. I can stand my ground any time, and I won't be a bit reluctant to leave this hall tonight and talk with any veterans' organization in this city and explain my position, and I am sure any liberal-minded veteran who keeps in mind the generosity of the City of Boston will agree with me I am well within reasonable judgment when I suggest we reduce by a mere \$40,000 a figure that indicates that less than three times that will be necessary to take care of their possible requirements this year.

Coun. DWYER—Just for the record and not to delay, I want it distinctly and thoroughly understood I for one am absolutely opposed to taking anything away from the veterans. The reason I offered this cut—I am not going through it in detail because Councilor Carey has ably taken care of the situation—is principally because the commissioner himself admits that the case load is getting lighter and they are not spending the same amount of money this year they spent last year over the corresponding time, and also they have a great deal more money allowed them this year than last year. And on top of that when a department can come in, like they did, and volunteer to give \$160,000 away from the veterans or money that was for them, if such a thing could happen that a lot of veterans need money, I think the Council would be only too happy to see they get it. I know that I for one would be willing to vote for any transfer that would help them. With this top-heavy budget, I think if we could cut this \$40,000, where they don't need it and aren't going to use it, it would be doing some good for the taxpayers of the city. I hope the motion will prevail.

Coun. CHASE—I would like to get more information on this matter before I cast my vote. As I see it, the United States Government is inducting men with large families into the services, and there will be a tremendous call within the next four or five months. I can see a possibility where the Soldiers' Relief Department will be called upon to give more assistance this year than they have in the past. I may be in error, and if I am I would like to be corrected by those who have had an opportunity to interrogate the commissioner. It seems to me, in view of the drastic draft among married people, the city department is going to be called on for assistance, more so than in other years. If I am wrong, I would be glad to be enlightened.

Coun. DWYER—For the information of the councilor who has previously spoken, I might state—and I have figures here if he cares to take them down—that last year this department spent a total of \$402,856.33. This year they have been allowed by his Honor the Mayor \$480,000, practically \$78,000 more than they spent last year. Now, Councilor Carey has corrected me on the figures. I stated what I thought was spent the first two months of the year, and I am going to accept his correction. According to Councilor Carey the Commissioner of Soldiers' Relief states that in the months of January and February they are running \$12,500 behind what they spent last year in the months of January and February. So if they have \$78,000 more to spend this year year than they had last year and in the first two months of the year they are running \$12,500 behind, and if that is any criterion, they are going to have an awful lot more money than they need, and they are going to spend a great deal less money than they spent last year. Now, when the chairman of that department was before us he admitted publicly that the case load is getting lighter and lighter all the time, and that is the only reason I suggest this cut,—because of the information I received from the gentleman who is chairman of the department, and on account of the figures before me of what was expended last year, what has been allowed for this year and what was spent the first two months of this year. I hope that information will help clear up what is in the gentleman's mind.

Coun. CAREY—I want to add also that these figures submitted by the Soldiers' Relief Com-

missioner were submitted last November and, if I recall, he said that if the budget were being submitted now he would have submitted a lower figure. All we have to go on is fact. The first two months there was spent \$12,500 less than was spent the first two months of last year. That, plus the fact that the Mayor has—or there has been allowed in the budget—\$78,000 more, making a total difference of \$148,000. We should keep that in mind here. Therefore, that is my reason for feeling—on the strength of what we have been told by the commissioner, who is in contact with what is going on, that the case load is constantly becoming lower, which he did say—that this cut can be made. It would still leave \$100,000 that I feel certain would be very ample for any emergency or any occasion that might arise.

Coun. CHASE—I believe under the circumstances that where the draft boards are inducting married men with families of four or five or six children, there is a possibility that a greater load will be required this year than previous years. And personally I don't think I care to vote against the particular item. I don't think it is wise under the circumstances. There are something like twelve million men in the service, and God only knows what the conditions will be four or five months from now. I vote to sustain the motion as is.

The question came on the motion to cut \$40,000 from the Soldiers' Relief budget, and the motion was lost, yeas 2, nays 16:

Yeas—Coun. Carey, Dwyer—2.

Nays—Coun. Bayley, Chase, Coffey, Feeney, Hanley, Hannon, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—16.

Coun. COFFEY—I move we go into Executive Session.

Coun. HURLEY—I wish that the councilor would withdraw his motion just one minute.

Coun. COFFEY—I withdraw the motion.

President KERRIGAN—We will now take up the City Council appropriation.

Coun. HURLEY—I was talking to the City Messenger and he said the Budget Commissioner and the Mayor had already slashed this. I make a motion that the Body reconsider and let the budget stand as submitted by the Mayor.

Reconsideration prevailed.

Coun. DWYER—On what item is that, please?

Coun. HURLEY—On B-42, \$10,900 to \$8,000, and B-1, \$3,600 to \$3,000.

President KERRIGAN—The question now comes on accepting this budget as originally submitted.

Coun. HANNON—Isn't the question on the committee's report, and if it is rejected? We are acting on the committee's report. I think the question before the Body is still the committee's report. We either accept or reject that.

President KERRIGAN—We have reconsidered and rejected it.

Coun. HANNON—We have reconsidered our acceptance. Now if we reject the committee's recommendation we automatically accept the recommendation of the Mayor.

President KERRIGAN—That is right.

Coun. HANNON—Let us have two votes, then, Mr. President.

President KERRIGAN—The committee's report was to reduce the budget. That was voted in the affirmative. We have reconsidered that vote. Now, what is the first thing you wish voted on?

Coun. HANNON—The question is still the same.

President KERRIGAN—The question now comes on the passage of the City Council budget as submitted by his Honor the Mayor.

Coun. FEENEY—The question is on the acceptance of the committee's report, the Committee on Appropriations, on that specific item dealing with the City Council. When we refuse to accept the committee's report, we have rejected the cuts.

President KERRIGAN—The question comes on the cuts recommended by the Appropriations Committee relative to the City Council budget be accepted. The clerk will call the roll.

Coun. HANLEY—I rise to a point of information. President KERRIGAN—State the point of information.

Coun. HANLEY—If we vote in the affirmative, are we accepting the report of the committee?

President KERRIGAN—You are voting now whether you will cut the appropriation or not.

Coun. HANLEY—A vote negatively would be against the committee itself?

President KERRIGAN—That is right.

The question came on the acceptance of the recommendations in the committee's report, and the motion was lost, yeas 4, nays 13:

Yeas—Coun. Bayley, Carey, Chase, D. F. Sullivan—4.

Nays—Coun. Coffey, Dwyer, Feeney, Hanley, Hannon, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Shannon, M. H. Sullivan, Taylor—13.

Coun. CAREY—Will you now tell me what the Council has done?

President KERRIGAN—Left the item just as it is.

Coun. COFFEY—I move we now go into Executive Session.

Coun. BAYLEY—Are we not allowed to present further cuts in the budget? I haven't had a chance to speak.

President KERRIGAN—You have a right to vote against the motion. The clerk will call the roll.

The question came on the motion to go into Executive Session, and the motion was lost, yeas 8, nays 11.

Yeas—Coun. Coffey, Hurley, Keenan, Kerrigan, Muchnick, Shannon, D. F. Sullivan, Taylor—8.

Nays—Coun. Bayley, Carey, Chase, Dwyer, Feeney, Fish, Hanley, Hannon, McCormack, Russo, M. H. Sullivan—11.

Coun. COFFEY—I ask reconsideration.

The motion to reconsider was lost, yeas 7, nays 11:

Yeas—Coun. Coffey, Hurley, Keenan, Kerrigan, Muchnick, D. F. Sullivan, Taylor—7.

Nays—Coun. Bayley, Carey, Chase, Dwyer, Feeney, Fish, Hurley, Hannon, McCormack, Russo, Shannon—11.

Coun. BAYLEY—I move that the Board of Appeal budget, the A-1 item, be cut \$11,700 to \$8,700. This cut is due to the fact that we have been asked to grant five members of the board —

Coun. TAYLOR—I wish the councilor would speak a little slower.

Coun. BAYLEY—I don't want you to miss a word, Councilor Taylor. If you don't want to hear me, you can leave. I move that the Board of Appeal budget, A-1, be cut \$11,700 to \$8,700. Originally there was a provision, which I read from the Municipal Register, that each member is paid \$10 per diem for actual services, but not more than \$1,000 in any one year, under the act. I understand under the new building code the Board of Appeal also has zoning hearings, but I don't see any reason why the limit of \$1,000 should not stay. They are paid the price of \$10 per diem whether they appear for one day or one hour. The Board of Zoning Adjustment meets without any compensation whatsoever, and I don't see any reason why the Board of Appeal, that has cases similar in nature, should get an increase that they are asking. I move the item be cut \$3,000 to \$8,700, which will permit each of the members to receive a limit of \$1,000 per year.

Coun. TAYLOR—I would like to know whether or not the councilor from Ward 5 (Coun. Bayley) understands that by reason of the fact we have a new building code we are having more appeals than we had formerly and as a result there are more meetings. I wonder if he has that in mind, —in view of the great building program taking place, particularly in the Back Bay section, under the new law,—as to whether or not he understands —

Coun. BAYLEY—The councilor from Ward 5 understands it as well, if not better, than the councilor from Ward 12 (Coun. Taylor).

The question came on the motion to cut \$3,000 from the A-1 item, Board of Appeal budget, and the motion was lost, yeas 4, nays 13:

Yeas—Coun. Bayley, Chase, Dwyer, Hanley—4.

Nays—Coun. Carey, Coffey, Feeney, Hurley, Keenan, Kelly, Kerrigan, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—13.

Coun. COFFEY—I now move that the item of \$5,000 for the "Clean-up" campaign be taken from Executive and brought back to the floor.

The question came on the motion, and the motion was lost, yeas 13, nays 7:

Yeas—Coun. Bayley, Chase, Coffey, Hurley, Keenan, Kerrigan, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—13.

Nays—Coun. Carey, Dwyer, Feeney, Fish, Hanley, Hannon, Kelly—7.

President KERRIGAN—The question now comes on the adoption of the budget as amended.

Coun. DWYER—Speaking on the motion, I sincerely hope, Mr. President, that this budget will not be adopted. Mr. President, I have submitted to the council, sir, amendments to this budget totaling some \$520,000 in cuts for the benefit of the taxpayers of the City of Boston.

I thought that, after carefully attending all of the hearings, public hearings, that were held on the budget by the Committee on Appropriations, and after listening to the members of the committee interrogate the various department heads who appeared in favor of the budget, and also after myself interrogating that these cuts could well be made. Mr. President, there was item after item where the department heads couldn't tell how they intended to spend the money if it was allowed. And another thing that compels me to ask your Council not to accept this budget is the fact that last year a large sum, a huge sum of money, was turned back to the City Treasurer after a great many unexpected items coming up that money had to be provided for. In the year previous there was over twice the amount turned back that was turned back last year.

Now, talking with the various city officers of the City of Boston who, I believe, know whence they speak as regards this proposed budget, they gave every indication that the citizens of Boston are going to be hit with a higher tax rate this year, particularly so if this is accepted. And I say if we are going to give any relief to the home owner and to the taxpayer now is the time to do it. And while your Council has been very patient and borne with me this afternoon, and I hesitate to delay the hearing any longer, I say that this is a grave and serious situation that confronts us, and if we are going to do anything to help the taxpayers and the home owners now is the time to do it. Unfortunately we have a budget submitted here by a committee, where I question the legality of the committee's report.

I think it is a serious thing when the Committee on Appropriations votes for a certain report, and that report is changed, according to my interpretation of the rules of this Council and the Charter of Boston much against every rule and regulation that there is. In fact, sir, I think that every rule and regulation has been broken when the committee was polled without the unanimous consent of the committee, and without the committee being notified. And I say, sir, that at least we should have had the original report of the Committee on Appropriations submitted to this Council. I hope that before any vote is taken on this particular budget as amended today by the Council that various members of the Council will take part in the discussion. And I hope that they will see the gravity of the situation and see that if they are going to do anything for the taxpayers and the home owners that now is the time to do it and that, instead of taking action on the budget at this time, they will return it to the Committee on Appropriations for further cuts. I so move, sir.

Coun. FISH—As far as I see it, I don't see that there is any necessity to refer it back to the committee. Personally, I don't think it has come out of the committee yet. We haven't the committee report. It is a one-man report. As far as I can judge, it is still in committee.

President KERRIGAN—The question comes on referring back to the Committee on Appropriations. All those in favor? All those opposed? It is not a vote.

The question now comes on adoption of the budget as amended.

Coun. FISH—I am not going into a lengthy discussion on this budget, but I think I should stand up here now and explain my quietness and indifference to it this afternoon on the various amendments. I didn't vote on any of them so nobody knows how I stood on them, but I will say that some of the cuts I would have voted against, but the majority of the cuts I would have voted for. So in spite of my quietness, I wish it understood that there is no apathetic feeling on my part toward a budget that is going to regulate the tax rate this year. And since I propose to vote against the entire budget, rather than go into the detail of what has been brought out so forcibly this afternoon, I will give just a couple of reasons. It offers no relief to the home owner from the present \$41 tax rate. No provisions are made for permanent increases or overtime pay to city and county employees, and I can't be a party to a budget that would deny them a permanent raise to meet the mounting costs of living. Much has been said about the soldiers here today. The soldiers are entirely dependent on post-war programs, and the City Planning chairman has openly stated before the Appropriations Committee that he has not one project planned for post-war. He further stated to me that he needs \$100,000 at least and he is denied that money. It is all right to talk about the soldiers, but talk is not going to feed them. Personally I don't think the budget is high enough. It can be cut in places, but it is not adequate, it doesn't provide for public safety. The Public Works Commissioner, George Hyland, states he needs \$100,000 for the purpose of public safety, \$100,000 more than he has been allowed. I don't think I have to go into the conditions at Long Island, but they were cut tremendously. Commissioner Long is allowed about \$2,500 for recreational purposes, and he stated, sitting right there, that he needed at least \$15,000. That was not allowed. He stated that his reason was to combat juvenile delinquency. I could go into others. I could tell you one department head whose policy is to give \$100 raises to single employees in the service twenty years, and \$200 increase to married employees. I heartily agree with him, but why should one man have the privilege to make a policy of that kind? Why shouldn't that be adopted throughout the city, and why shouldn't provision be made for it? I asked in the budget hearings that the Budget Commissioner submit to me the names of all who get increases ranging anywhere from \$100 to \$1,000. I thought I might dig something out that would be quite a revelation. As yet that has not been submitted. I could go on with many other reasons, but I think I have submitted enough. I did want to explain in some measure at least why I will not vote for this budget today.

The question came on the passage of the budget as amended, and the budget as amended was passed, yeas 15, nays 5:

Yeas—Coun. Bayley, Chase, Coffey, Hannon, Hurley, Keenan, Kelly, Kerrigan, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—15.

Nays—Coun. Carey, Dwyer, Feeney, Fish, Hanley—5.

Later in the session Coun. Kinsella was given unanimous consent to be recorded as voting in favor of the budget.

Coun. COFFEY—I move that we now go into Executive Session.

RECESS.

On motion of Coun. COFFEY the Council voted at 7:25 p. m. to take a recess, subject to the call of the Chair. The members reassembled and were called to order at 8 p. m. by President KERRIGAN.

EXECUTIVE COMMITTEE REPORTS.

Coun. HANLEY, for the Executive Committee, submitted the following:

1. Report on petition of Mary L. Haley (referred June 7, 1943) to be paid an annuity on account of death of her husband, Edward J. Haley, late member of the Fire Department—recommending the passage of the accompanying order:

Ordered, That under the provisions of chapter 366 of the Acts of 1943 an annuity of sixteen hundred dollars be allowed and paid to Mary L. Haley, widow of Edward J. Haley, a member of the Fire Department who died on June 10, 1942, on account of injuries received in the performance of his duty; said annuity being made up of allowances as follows:

For the widow, Mary L. Haley, so long as she remains unmarried—\$1,000 per annum;

For each of the following-named children during such time as he or she is under the age of eighteen or over said age and physically or mentally incapacitated from earning—\$200 per annum: Marie A. Haley, born May 1, 1926; William Haley, born October 20, 1927; Paul Haley, born March 24, 1929;

the payments to date from June 10, 1942, and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Report accepted; said order passed.

2. Report on message of Mayor and order (referred today) appropriating \$5,000 for "Clean-up" campaign—that same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. FEENEY—Mr. President, I don't think it is going to do a great deal of good at this late hour to try to defeat this \$5,000 appropriation of the Mayor's because we haven't got the votes. If we had the votes you can rest assured we would stay here until we beat it. I think it is the most asinine order, or request for appropriation, that I have ever seen since I have been a member of any legislative body. To this day I have yet to hear a good defence of it by any supporter of the Mayor. I don't know how long the taxpayers are going to stand for the boondoggling of this administration, and if this is not boondoggling I don't know what is. I sat as a member of a special committee appointed by you, Mr. President, early in the year. It was in the month of January, and we heard people from the Dorchester and Mattapan districts of this city coming into this Council Chamber, before that committee and revealing the filth and dirt and refuse and rubbish caused by the poor and inefficient job that was being done by the contractor who has that particular district. Now I don't think any moving picture educational program is going to clean up that situation. The people are not responsible for what these contractors do to dirty up our streets, and I can say they have contributed greatly to the filth of the streets of this city. In my own district this morning it was particularly noticeable along River street, one of the main thoroughfares of my ward, where the ashes and the papers have been lying in the gutters for weeks and months,—and perhaps years. Ever since I can recall, this administration has been indicted by public opinion for the filthy streets of our city. This is no time to be wasting the people's money. This is a time for entrenchment, and we are not doing it. The counselor Dwyer made a valiant effort to stem the tide today, and he certainly was ably assisted by Councilor Carey and others. They did a creditable job, and their districts should be proud of them. One councilor today made reference to men who hold guns at other people's heads. I don't know whom he referred to. I don't think it was I, because if it had been you would have heard from me. But I would like to make this observation, from what I can see. There are no guns at the heads of those who voted against the budget, and I am not referring to any man. I said a week ago that we were going to act independently, and I have. There is no halter around my neck, and there never will be. I tell you, Mr. President, that the people of Boston applauded the members of the Council for having defeated this order a week ago. It is high time that the small taxpayers of this city were given some consideration by this administration. This \$5,000, Mr. President, may be regarded by some as a small amount of money, but don't forget that it took only one straw to break the camel's back, and an appropriation like this will one of these days break the patience of the people. When these expenditures are allowed, through the vote of this Council, the people pay them, and they have been paying and paying. This may by some be considered a small amount, but it is added to what is being paid by our people right along in numberless ways. Just think of what an appropriation of this amount would do. It would rehabilitate a whole street in my district. You may say that the taxpayers can appeal to the Tax Appeals Board. But the small taxpayer does not know the ropes, and he cannot hire fancy lawyers to carry his fight before the Tax Appeals Board. The big operators in the city, however, are doing pretty well for themselves in that respect in this administration, Mr. President, if the information I get is correct, one of the big business concerns of this town saved \$30,000 last year. But there are many people in my community, people owning little homes, who file for tax abatements, and they haven't got three cents.

And so I am opposed to this kind of thing, and my opposition does not hurt me with the people of my district, or if they don't like my opposition, it has not been evident thus far. Mr. President, this is not good legislation and, mark my words well, such legislation is doing us no good. And bills like this represent foolish appropriations that will reflect against the administration when the people of the city awaken to what is causing the high tax rate of this city. I want to publicly thank Councilor Hanley for his words on the original appropriation two weeks ago. I thought it was a grand thing for him to do. I never thought to see the day when an administrator of this city would impugn in the newspapers members of this Council for having done what was the right thing to do, and get away with it. I said last week that the Mayor held us up to public ridicule, and he did. I think he has done more to disgrace this Council in what he has said than anything else that has been said in the city, and I resent it when he reflects on my integrity and says that I am not serving the people of my district to the best of my ability. I for one will not take it lying down; and I commend the councilor from Ward 11 (Coun. Hanley) for having that in his make-up which causes him to get up and resent it when members of this Body are unjustly attacked. That is a grand trait for any member to have, and I wish we all had it. If we stood together on this Council floor, we would be a powerful Body. As Councilor Coffey told us at the first of the year, "You have power if you want to exercise it. You can stand fast and make any Mayor respect you." Councilor Coffey knows that that is so, and he is right. I hope his Honor is defeated. I think if this Council will rise and send notice to the Mayor's office and let the whole city know that the members of the Boston City Council are going to stand by one another, we are going to be respected by public officials in the City of Boston. I hope, therefore, that this order and similar orders of this nature will be defeated, and that we will get together in bringing about such a defeat for three successive weeks, and longer if necessary. I am serving notice now and I think speaking for those who stand with me—Councilors Dwyer, Hanley, Carey and other members—that we are going to carefully scrutinize every appropriation order that may be sent in from now on, and that the Mayor had better itemize and render us a proper account on every appropriation order that comes in here. I, for one, will vote for no more blind checks, and this is a blind check. There is not a member of the Council who can tell me or who knows anything about this proposed \$5,000 appropriation. I hope the day will never come when the Mayor will condemn the City Council or any group of councilors who are acting in accordance with their own free will, of their own volition, exercising their independent thinking, when they are honestly acting for what they think are the best interests of the taxpayers and of the city as a whole.

Coun. CAREY—Mr. President, I don't desire to be too lengthy in my remarks, because I have already said my piece and have done all I could do to protect the taxpayers of the city. Most of what I could say here tonight would be repetition. But I am thoroughly convinced from what I have heard, beginning two weeks ago tomorrow morning, that the Mayor of Boston was off on this one, for two reasons. First, he is deliberately wasting the taxpayers' money, in that not a five-cent piece of this appropriation is to be spent for actual cleaning the dirt from the streets or in bettering filthy conditions, not only brought about by the taxpayers themselves but by those who visit us and do their shopping here. In the second place, if an intelligent public has ever been insulted it was insulted when the Mayor of the city decided that \$5,000 of the taxpayers' money was to be taken and not used for actually cleaning up the conditions that have been criticized, but to have an advertising and possibly a movie campaign in the matter. I have not been to the movies for some time, and I don't want to be too personal when I say this, but I do want to be truthful, and I am truthful when I say that more than one person has talked to me over the week-end and told me it was a long time since they enjoyed the movies or had had the laugh they have had at money of the city being used simply to forward the interests of the movie theaters of the city, during the past week-end. After all, I want to be friends with his Honor the Mayor. He comes from the district that I represent in the City Council. There is something about him that you have to like. He is a young fellow with the possibility of going places. But I am sorry to note that he does not respect differences of opinion that others have. I did not come into the City Council with a chip on my shoulder, and I am not and never have been antagonistic to the Mayor. He is a young man, and I do not want to do anything that might help to knock him off politically. But I respect the people of my district as I expect them to respect me, and I call things as I see them. This is not the first time I have opposed the Mayor, and sometimes perhaps he may get a little irritated and think I am against him. But if I don't agree with him I say so, and I don't care whether he holds it against me or not. It is the people of my district and the people throughout the city that I am wondering about, and I am interested in knowing what they think on any particular matter that comes before us. But their opinion in this matter seems clear enough.

As I said in the last meeting, I have had letters indorsing the position I have taken ever since I spoke in this Body. I have had telephone calls and have met people from every section of the city. I certainly feel that the Mayor muffed one and made a bad mistake when he publicly reprimanded the four councilors for the position they took two weeks ago today because they had refused to vote for the \$5,000 that he wanted for educational purposes. I say that because it was the evident consensus of opinion, not mine alone, but of all who got in touch with me in the past two weeks. The conditions in the City of Boston in regard to lack of cleanliness are well known, and we do not have to advertise them. If this money were to be spent to physically do the job, I would be willing to vote to increase the amount five times, ten times, twenty times or even more, if necessary. But if you call it cooperation with the War Production Board who a few days ago, through its chairman, saw fit to telegraph the Governor of the Commonwealth and ask for extra efforts to be made to increase the waste paper salvage campaign now going on, then I cannot really and thoroughly follow that reasoning. We need a better Boston; we need it sadly. We need a cleaner Boston. I don't have to be told by his Honor what the conditions are, because, like everybody else, I can see them every day in the week myself. I would not bother to speak upon this matter today, but I don't want to have it felt that after all I have folded up on it. I am just as strongly and vehemently against this proposed expenditure of \$5,000 of the city's money now as I was two weeks ago today; perhaps even more so, because the attitude of the people as it has been shown on the matter has a strongly increased bearing on my attitude, as I believe it must have on the attitude of all the members of this Body. I will not hesitate to let the public of Boston know whether the Mayor can take it or not. I am going to continue to do conscientiously what I feel that the people of my district and the people of the city want me to do. I think I can say honestly that the majority feeling of the entire community is against this order, because not one soul has reprimanded me for the attitude I have taken. I dare say, if we had the time and opportunity to take the matter to the floor of Boston Garden, the presence of the large part of the people of this city who are intensely interested would show the Mayor that he is not right all the time, that the taxpayers have some rights and that through their City Councilors is the opportunity for them to assert their rights. I hope the Mayor will accept the objection that has been raised by members of the City Council in the way and in the true spirit he should accept it, because, if the attitude and the sentiment that is prevalent in the city today continues to be as it clearly seems, he might just as well fold up.

Coun. FISH—Mr. President, for the third time in as many weeks I propose to vote against the use of this \$5,000 for any advertising or educational purposes. I know that what I say won't change the vote. I don't think the persuasive powers or the tongue of Daniel Webster, Julius Caesar or Mark Antony combined could change a vote in here today. I rise to my feet for one purpose. My vote is not motivated on any personal feeling. I resent what the Mayor said, but it doesn't guide my vote. I am voting only on the merit of this \$5,000 request as I see it. I have yet, no matter what my personal feelings may be,—I have yet to cast any belligerent vote. After six years of indifference and complete lack of cooperation on the part of this city, the Mayor now inaugurates a campaign of cleanliness to educate the people. Everybody knows that it is not the people who have been to blame for a dirty city, and I may say now to attempt to blame them at this late date, by forcing them to clean up, as he said, by the use of pledge cards—and if I am informed correctly, under threat of prosecution if they don't—then I think he has insulted the pride and the decency of every respectable citizen of the City of Boston, and I speak as a taxpayer, myself, if you don't care to accept it as a statement of one of the Council. I am one who has to, in his small way, contribute to this \$5,000. I am only the average citizen, and I don't need any councilor or Mayor Tobin to tell me to keep my house clean, especially when I have to pay more for it on the taxes. As I say, my vote is not a belligerent vote. It is based on the merits of this thing and, thank God, my opinion has been greatly reinforced by the hundreds who have voluntarily indorsed my action on this matter. No, it isn't my intention to in any way injure the Mayor. I think, unfortunately for himself, he has done a pretty good job on himself.

Coun. DWYER—Mr. President, I too am one who has to arise tonight and say that I will not vote for this transfer. I will not vote for this transfer, Mr. President, for two reasons. First of all, Mr. President, as has been ably explained time and time again by my fellow colleagues here, not one cent of it goes for actual work of clean-up and, in my opinion, the expenditure is a useless and a wasteful one. Secondly, Mr. President, as long as I am in the Council I think—whether it is his Honor the Mayor or whoever it might be that comes before us for a transfer, a department head or whoever it might be—I think they should at least give us the courtesy of a breakdown, how they intend to expend the money they are asking for. To date, as far as I am concerned, I don't know how this money is

going to be expended, and I feel that I am entitled, before voting for this transfer, to know how much is needed and where it is going. Therefore, without keeping the members of this Body any longer, I am going to move, for the reason that I want information and I think I am entitled to it, and the Council as a whole is entitled to it, that this matter lie on the table for one week, and that we secure the necessary information before we vote on it.

The motion to lay on the table was lost, yeas 7, nays 13:

Yeas—Coun. Bayley, Carey, Dwyer, Feeney, Fish, Hanley, Kelly—7.

Nays—Coun. Chase, Coffey, Hurley, Keenan, Kerrigan, Kinsella, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—13.

Coun. HURLEY—I move the previous question. Coun. KELLY—I rise to a point of personal privilege.

President KERRIGAN—State your point. Coun. KELLY—I am going to ask Councilor Hurley to withdraw his motion for a couple of minutes.

President KERRIGAN—That is not a point of personal privilege, councilor.

Coun. KELLY—I ask unanimous consent to make a statement.

Coun. TAYLOR—I rise to a point of order.

President KERRIGAN—State your point of order.

Coun. TAYLOR—Isn't there something before the Body?

President KERRIGAN—The motion before the Body is the previous question. All those in favor? All those opposed? The Chair is in doubt and will ask for a roll call.

Coun. KEENAN—I rise to a point of information.

President KERRIGAN—State your point of information.

Coun. KEENAN—What are we voting on?

President KERRIGAN—We are voting on the previous motion, the motion for the previous question.

The question came on the motion for the previous question, and the motion was lost, yeas 10, nays 10:

Yeas—Coun. Hurley, Keenan, Kerrigan, Kinsella, McCormack, Muchnick, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—10.

Nays—Coun. Bayley, Carey, Chase, Coffey, Dwyer, Feeney, Fish, Hanley, Kelly, Kinsella—10.

Coun. KELLY—Talking on the order,—I won't be long. I know the hour is getting late,—since I have been a member of the Council in the past seven years I have always seen fit to vote the way the people of my ward wanted me to. I say today, as I have said on a few other occasions on the floor of the Council, I think I know what the sentiments of the people of my ward are because I have held open house every night for the past seven years with the exception of about three months when I was confined to the Boston City Hospital, so in that way I am meeting the people of my district every day of the year. When any matter comes up, where I am not sure of the sentiments of the people of my district, I call two or three public hearings, as I did on the question of Federal housing, to get the sentiment of the people of my district. I said last week that I saw, after nosing around my district, and people calling me on the telephone and coming into my home,—that I knew that the sentiment of the people of my ward, anyway, was against this particular \$5,000 order. I came in here last week and voted against it. I said last week, as I am saying today, that no pressure or persuasion would make me vote against the wishes of the people of my district. I don't care what the personal gain might be for myself, as long as I am satisfied within my own conscience that I vote the way they want me to. They are the only people I have to answer to. I don't hold any brief against any councilor that might come into the Council and might have some reason for voting for the order. That is his own personal business, and good luck to him, even though the people of his district might think differently than he did. That is his business. He is accountable for his vote, as I am for mine. But since last Monday I have had many letters, especially from the wards in Dorchester, all complimenting me on my vote against this order. I have had many telephone calls, not alone from my own ward, but every ward in Dorchester, telling me I did the right thing, so I am satisfied today that I know what the sentiments of the people of my district are. I am satisfied, after seven years in the Boston City Council, that no one of my votes have been criticized on the floor of the Council or in any part of Dorchester, or by any one of my opponents who saw fit to contest the office of City Councilor with me. So I am satisfied I voted right, and I reiterate today that the reason I asked Councilor Hurley to withdraw his motion was that I wanted to get up on the floor and have my few words put in the record. This is a vote, in my opinion, that will be well talked about and well discussed in the next year or two to come. I predicted that the vote on Federal housing would be well discussed in the years to come in the City Council. I predicted some five years ago when Federal housing was inaugurated in the City of Boston, that those apartments would not be for the City of Boston, the families of the City of Boston, but families outside the City of Boston would be allowed to come into those apartments, apartments that belonged to the poor of the City of Boston. And I was told at that time that

I was crazy. A great picture was painted to me as to how it would be political suicide if I attempted to vote against it. I guess it was the best vote I ever cast, from the reception I have always received from the poor districts of my district. I guess it is a vote that they will always appreciate. If the people don't want anything in my ward, I am not going to jam it down their throats, and I don't care what the personal gain might be for me. I come into this Council, and I am in the same business as when I came into this Council and I will be when I go out. I don't hold any enmity against anybody. I have never criticized any councilor for a vote he might cast, and I never will. Everybody has to answer for himself, but I can appreciate the feelings of those people in all the wards of Dorchester who have contacted me the past week and who would rise up and protest if there was a public hearing called on this matter. The Boston Garden, in my opinion, would not be big enough for the audience you would have. And I say that without fear of any contradiction, because, as the senior members of this Council know, when I was in my second year in the Council and I told them I would call a public hearing on Federal housing at less than twenty-four hours' notice, in the middle of the summer, some laughed at me and told me I was crazy and wouldn't get ten people to come into the hall and listen. And that public hearing is a matter of record. In Grover Cleveland School in the middle of the summer, 900 were jammed into the school when we only had seating capacity for 700,—on a hot night in the middle of summer. So you see the people are thinking all the time, and they know what is going on. And that is why I am tickled to death that this matter was a roll call vote. I would like to have every matter that comes up before the Boston City Council decided by a yes and no vote. I like to have a roll call on everything. Then you always can refer back to it. And as I said before, whenever I know the sentiment of what the people are in my district, I am going to vote along with them. And, in my way of thinking, this is a vote against the people. If I was voting for this \$5,000 I would be voting against the people who made it possible for me to come into the City Council. Those are the people to whom I am indebted because without their help I would not be a member of the City Council, and without their help, Mr. President, you would not be a member of the City Council. nor would any other member of this City Council be a member of the Council. And I don't think there is a member of the City Council sitting in his chair here tonight that would stand before a crowded audience in any school in the district and tell the audience, at least during election time, tell those people who are responsible for his coming into the City Council, that he had come into the City Council and voted for something they didn't want—at least not during election time. But I am a fellow that won't do it after election. I am the people's councilor fifty-two weeks of the year—not alone election week—and that is why I have been successful out my way. As long as I know what the sentiments of the district are and the sentiments of the people of Ward 15 are, I will vote that way. And the entire Dorchester district is definitely against this \$5,000 order, and that is why I am voting against it.

Coun. HANLEY—Mr. President, I will be very brief. Two weeks ago I voted for the original \$5,000 asked by his Honor the Mayor on the amendment offered by the distinguished councilor from Ward 10, Councilor Carey. I voted also for that \$1,000. When it was defeated, Councilor Taylor from Ward 12 asked reconsideration, and the fifteen members that were present at that meeting all voted in accord with the distinguished councilor from Ward 12. In the height of emotionalism his Honor the Mayor directed a verbal thrust at four members of the Council. My name could have been included with the four, or any other of the twenty-two members. I considered it an affront to the legislative body of the city. I considered it an insult to the intelligence of the people, and I considered it not only my right, but my duty, to defend the four members of the Boston City Council. Since that time his Honor the Mayor has submitted another order, and it was defeated last week by one vote. On the following day, according to press release, he suddenly called a special session, a special meeting of the Boston City Council, because he said there were members absent whom he knew would vote for the \$5,000. Regardless of debate, he knew by the sixth sense he himself had given himself that these members who would come to a special session would vote according to the way he cracked the whip. But evidently somebody gained his ear and told him that he had no right, and he had no power, to call a special meeting. His Honor the Mayor as the Chief Executive has certain rights and certain duties, according to the Charter of the City of Boston. But he has taken it upon himself to usurp the powers of this legislative body, and I for one will not sit idly by and allow a man to enter into contracts without the approval of the legislative body known as the City Council. His Honor the Mayor has insulted his office; he has insulted his constituents; and he has insulted the City Council of Boston, by usurping powers that were never given to him by directive or by a city charter. In Congress, President Roosevelt utilizes strong language, and he indicted the 531 members that went to make up the Congress of the United States of America. And Senator Albin Barkley, a devotee of President

Roosevelt for the past twelve years, took to his feet and gave one of the greatest speeches that was ever given, or ever heard, in the Congressional halls. Not because of the man that was involved, not because of his title, but because he was trying to usurp the powers and the functions of a legislative body. And since his Honor the Mayor has not apologized, by the same token that he criticized the four members, I will vote against the \$5,000. My vote will be recorded, and I will be able to defend it at any time.

The question came on the passage of the order and the order was passed, yeas 14, nays 6:

Yeas—Coun. Bayley, Chase, Coffey, Hurley, Keenan, Kerrigan, Kinsella, McCormack, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—14.

Nays—Coun. Carey, Dwyer, Feeney, Fish, Hanley, Kelly—6.

ROPING OFF STREETS APRIL 1.

Coun. CAREY, HANLEY, MCCORMACK, SHANNON offered the following:

Ordered, That the City Messenger be requested to arrange for the roping off of the streets at the points necessary along the route of the annual race conducted by the Reddish A. A. on April 1, 1944, the expense of same to be charged to the City Council appropriation for Stakes, Ropes and Flags.

Passed under suspension of the rule.

WARD 18 IMPROVEMENTS.

Coun. FEENEY offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to construct tarvia sidewalks on the southerly side of Canterbury street, from Hyde Park avenue to Poplar street, in the Roslindale section of Ward 18.

Passed under a suspension of the rule.

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Rosa street, in the Hyde Park section of Ward 18, and also to construct suitable sidewalks thereon.

Coun. FEENEY—Mr. President, I have submitted this order because of two important reasons. First, Rosa street is one of the most neglected streets in my ward and has been the source of many complaints during recent years. The residents are forced to walk in the middle of the street at all times, so wretched is the condition of the gravel sidewalks. To neglect the repair of this street and the installation of badly needed sidewalks any longer would, in my mind, constitute an injustice to the home owners and taxpayers who reside there. Secondly, Rosa street happens to be the main entrance to the Corporal Wesley G. Ross Playground, a great athletic field, which takes its name from the first Hyde Park boy to give his life in this present world conflict and who died in the Pearl Harbor bombing of 1941. The people of Hyde Park take just pride in this great playground located in their midst and are justified in their respect that a suitable entrance to the same be constructed by the Public Works Department of the City of Boston at the earliest possible time.

The order was passed under a suspension of the rule.

CLOSING OF CITY HALL ON GOOD FRIDAY.

Coun. CAREY offered the following:

Ordered, That his Honor the Mayor be requested to order the closing of City Hall all day on Good Friday, April 7, 1944.

Passed under suspension of the rule.

Adjourned, on motion of Coun. HANLEY, at 9.18 p. m., to meet on Monday, April 3, 1944, at 2 p. m.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

LAND-TAKING IN SOUTH BOSTON.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land as follows:

December 16, 1943.

Ordered, That due notice be given that this Board is of the opinion that, in said city, public improvements should be made, consisting of:

The discontinuance, as highways, of such portions of F street, G street and I street, South Boston district, as were included in takings made by the United States of America;

The discontinuance, as a highway, of all that part of H street (if any), South Boston district, running northerly from Dorchester street;

substantially as shown on plans in the office of this Board, that it intends to pass orders for making said improvements, and that it appoints 11 o'clock a. m. of January 4, 1944, and the office of this Board, 401 City Hall Annex, as the time and place for public hearings in the matters.

A true copy of an order passed by said Board on said day.

Attest:

EDWARD P. FOGARTY,
Acting Secretary.

IN BOARD OF STREET COMMISSIONERS OF THE CITY OF BOSTON,

March 16, 1944.

Ordered, That this Board, having passed the order of notice relating to the public improvements hereinafter described, and having caused a copy of said order to be published December 17, 18, and December 20, 21, 1943, in the *Boston Post* and the *Boston Globe*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city of the public improvements, shown on a plan, marked "City of Boston, Dorchester Street, F Street, I Street, K Street, South Boston, December 15, 1943, William J. Sullivan, Chief Engineer, Street Laying-Out Department," deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

A part of the highway named F street is hereby discontinued, from West First street to Reserved Channel.

Said part of said highway, as hereby discontinued, is bounded:

Southwesterly by West First street, fifty feet; northwesterly by the northwesterly line of said F street as hereby discontinued, thirteen hundred seventy-seven and 95-100 feet; northerly by Reserved Channel, sixty-seven and 61-100 feet; and southeasterly by the southeasterly line of said F street as hereby discontinued, fourteen hundred twenty-three and 47-100 feet, containing seventy thousand and thirty-six square feet, more or less.

A part of the highway named G street is hereby discontinued, from West First and East First streets to E street.

Said part of said highway, as hereby discontinued, is bounded:

Part between West First and East First streets and F street:

Southerly by East First street, thirty-nine and 7-100 feet; southwesterly by West First street, fourteen and 78-100 feet; westerly by the westerly line of said G street as hereby discontinued, five hundred twenty-three and 72-100 feet;

northwesterly by F street, seventy-four and 30-100 feet; and easterly by the easterly line of said G street as hereby discontinued, five hundred eighty-eight and 62-100 feet, containing twenty-eight thousand and two square feet, more or less.

Part between F street and E street:

Southeasterly by F street, seventy-four and 30-100 feet; westerly by the westerly line of said G street as hereby discontinued, seven hundred forty-four and 45-100 feet; northwesterly by E street, seventy-four and 30-100 feet; and easterly by the easterly line of said G street as hereby discontinued, seven hundred forty-four and 45-100 feet, containing thirty-seven thousand two hundred and twenty-three square feet, more or less.

A part of the highway named I street is hereby discontinued, from the northwesterly line of Dorchester street to Reserved Channel.

Said part of said highway as hereby discontinued is bounded:

Southeasterly by another part of said I street, seventy-four and 28-100 feet; westerly by the westerly line of said I street as hereby discontinued, five hundred eighty-six and 12-100 feet; northerly by Reserved Channel, fifty feet; and easterly by the easterly line of said I street as hereby discontinued, five hundred thirty-one and 19-100 feet, containing twenty-seven thousand nine hundred and thirty-three square feet, more or less.

A part of the highway named H street is hereby discontinued northerly from land supposed to belong to The Lumsden and Van Stone Company to Reserved Channel.

Said part of said highway as hereby discontinued is bounded:

Southwesterly by land supposed to belong to The Lumsden and Van Stone Company, sixty-nine and 87-100 feet; westerly by the westerly line of said H street as hereby discontinued, seven hundred ninety-eight and 79-100 feet; northerly by Reserved Channel, fifty feet; and easterly by the easterly line of said H street as hereby discontinued, eight hundred forty-seven and 60-100 feet, containing forty-one thousand one hundred and fifty-nine square feet, more or less.

These discontinuances are made subject to all rights of the City of Boston to lay and maintain sewer and water pipes and all rights of public utilities companies now existing therein.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

To raze the building at 977 Columbus avenue, Ward 9, by an agreement with the New England Building Wrecking Company, 31 State street, Boston.

To order the building at 71 Perkins street, Ward 2, to be vacated forthwith as the occupancy of the building has been changed from a one-family dwelling to a seven-family apartment house and there is no second means of egress above the second story.

To raze the building at 103 D street, Ward 6, by an agreement with the Central Building Wrecking Company, 141 Boston street, Everett.

To raze the building at 20 Everett street, Ward 1, by an agreement with the New England Building Wrecking Company, 31 State street, Boston.

To raze the building at 27 Chadwick street, Ward 8, by an agreement with the

Mystic Building Wrecking Company, 203 Everett avenue, Chelsea.

To raze the building at 25 Chadwick street, Ward 8, by an agreement with the Mystic Building Wrecking Company, 203 Everett avenue, Chelsea.

To vacate the building at 60 Bromley street, Ward 10, until such time as the structure is repaired to the satisfaction of the Building Commissioner.

To vacate the second and third floors of the building at 406 Cambridge street, Ward 21, occupied by the V. F. W. Post 669, as the floor framing has been overloaded and dancing on third floor has caused the floors to deflect at bearing partitions on second and third floors near rear wall.

To vacate the Cocktail Room of the Club Mayfair, 54 Broadway, Ward 5, as the said portion of the premises is not provided with exits satisfactory to the Building Commissioner as a result of alterations incorporated in the structure without a permit from this department.

To enter the premises at 69 School street, Ward 2, and remove the building, inasmuch as it is in an unsafe and dangerous condition.

CIVIL SERVICE EXAMINATIONS. (STATE AND CITY.)

X-RAY TECHNICIAN, QUINCY CITY HOSPITAL, MAY 6, 1944.

Physical fitness to be determined by physical examination.

CITY OF BOSTON.

INSTITUTIONS DEPARTMENT.

PROPOSALS FOR TEST BORINGS AT THE SITE OF THE LONG ISLAND VIADUCT, BOSTON HARBOR, MASS.

The Commissioner of Institutions of the City of Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for test borings at the site of the Long Island Viaduct, Boston Harbor, Mass. Proposals will be received until 12 o'clock noon, Tuesday, April 25, 1944, at the office of the Awarding Authority, eighth floor, 809 City Hall Annex, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in the sum of \$300, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, carpenters, engineers and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specification.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract and sufficient proof of the compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do.

HUGH J. CAMPBELL,
(April 8.) *Commissioner of Institutions.*

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about forty-five hundred seventy-one (4,571) square feet of land, with the buildings thereon, on the southeasterly side of Washington street, West Roxbury, numbered four thousand three hundred four (4304), four thousand three hundred two (4302), forty-three hundred (4300), forty-two hundred ninety-eight (4298), forty-two hundred ninety-six (4296), in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5545, page 504, on Thursday, April 13, 1944, at 12 noon, on the premises, at a minimum price of two thousand dollars (\$2,000).

A deposit required at the time and place of sale of three hundred dollars (\$300), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
(April 1-8.) *Chairman.*

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR EARTH EXCAVATION AND REFILLING TO ALLOW WATER DIVISION EMPLOYEES TO INSTALL, REGULATE OR REPAIR WATER DIVISION STRUCTURES, ALSO FOR THE INSTALLATION OF WOODEN BOXES AND ESTABLISHING POST HYDRANTS IN WEST ROXBURY (WATER DIVISION) DISTRICT.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for earth excavation and refilling, etc., in the West Roxbury (Water Division) district. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Earth Excavation and Refilling, etc., in the West Roxbury (Water Division) District," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Friday, April 14, 1944, with a certified check for eight hundred fifty (\$850) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
(April 8.) *Commissioner of Public Works.*

CITY OF BOSTON.

POLICE DEPARTMENT.

PROPOSALS FOR BITUMINOUS COAL.

The Police Department of the City of Boston invites proposals for furnishing and delivering bituminous coal. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for \$1,000, payable to and to become the property of the Police Commissioner for the City of Boston, if the proposal is not carried out. Proposals will be publicly opened and read on Friday, April 14, 1944, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required of the successful bidder in an amount equivalent to 50 per cent of the estimated contract.

THOMAS F. SULLIVAN,
(April 8.) *Police Commissioner.*

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about forty-four hundred eighty (4,480) square feet of land, with the buildings thereon, on the southwesterly side of Greenfield road, Dorchester, numbered sixty-six (66) in the numbering of said street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5809, page 340, on Thursday, April 13, 1944, at 11 a. m., on the premises, at a minimum price of thirteen hundred dollars (\$1,300).

A deposit required at the time and place of sale of two hundred dollars (\$200), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
(April 1-8.) *Chairman.*

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about two thousand five hundred thirty (2,530) square feet of land on the northwesterly side of B street, South Boston, consisting of two parcels, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5890, pages 12, 14, on Thursday, April 13, 1944, at 10 a. m., on the premises, at a minimum price of two hundred and fifty dollars (\$250).

A deposit required at the time and place of sale of fifty dollars (\$50), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
(April 1-8.) *Chairman.*

POLICE DEPARTMENT.

PROPOSALS FOR ANTHRACITE COAL.

The Police Department of the City of Boston invites proposals for furnishing and delivering anthracite coal. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for \$1,000, payable to and to become the property of the Police Commissioner for the City of Boston, if the proposal is not carried out. Proposals will be publicly opened and read on Friday, April 14, 1944, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston, Mass. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required of the successful bidder in an amount equivalent to 50 per cent of the estimated contract.

THOMAS F. SULLIVAN,
(April 8.) *Police Commissioner.*

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about ten thousand nine hundred ninety (10,990) square feet of land, with the buildings thereon, on the southeasterly side of C street, South Boston, making the southerly corner of Cypher street, unnumbered, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5613, page 226, on Thursday, April 20, 1944, at 10 a. m., on the premises, at a minimum price of seventy-five hundred dollars (\$7,500).

A deposit required at the time and place of sale of fifteen hundred dollars (\$1,500), in cash or certified check, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
(April 8-15.) *Chairman.*

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 36.

SATURDAY, APRIL 15, 1944.

No. 16

MAYOR TOBIN PAYS TRIBUTE TO GREEKS IN THEIR RESISTANCE TO NAZI INVADERS OF THEIR LAND—ALSO TO CIVIC ENTHUSIASM OF BOSTON CITIZENS OF GREEK DESCENT WHO HAVE ENLISTED IN THE SERVICES OF THE UNITED STATES, AND THEIR RELATIVES AND FRIENDS WHO ARE GIVING OF THEMSELVES IN WAR INDUSTRIES AND OTHER INTERESTS THAT DEMOCRATIC CIVILIZATION MIGHT BE SAVED—JOINS IN CELEBRATING GREEK INDEPENDENCE DAY IN SYMPHONY HALL MEETING.

In his address at the celebration of Greek Independence Day, Symphony Hall, on Sunday, March 26, Mayor Tobin spoke as follows:—

Mr. Chairman, the Vice President of the United States, the Ambassador from Greece, the Archbishop of the Greek Orthodox Church of North and South America, other Distinguished Guests, Ladies and Gentlemen.

I am happy indeed to participate, as Mayor of Boston, in this greatest of all Greek-American celebrations giving welcome to each of you, straight from the hearts of our people.

Greece, from ancient time, has been honored as the birthplace and homeland of many of civilization's highest ideals. The early Greek concepts of individual liberty, combined with high standards of true public service, have influenced the whole course of humanity's struggle upward from primitive darkness into the full light of Christendom.

After the Golden Age, as you know, Greece suffered bitter, seemingly endless periods of foreign conquest and oppression. Moslem invaders overran the Greek Isles in 1453, and for nearly four centuries Greece bore a heavy yoke of alien and tyrannous rule.

And then, 123 years ago, the heroes of Greece were roused from long slumber to fight once more for Greek Independence. For seven years, a small band of Greek patriots carried on an epic struggle for freedom against fifty million Mohammedans.

The Greek fight for freedom stirred warm response throughout the Christian world. Here in the United States, President James Monroe did not hesitate to come out openly for Greek freedom. President Monroe said in his message to Congress on December 3, 1822, and I quote his exact words: "The mention of Greece fills the mind with the most exalted sentiments. A strong hope is entertained that these people will recover their independence and resume their equal station among the nations of the earth. That they may obtain that rank is the object of our most ardent wishes."

Distinguished Guests Present.

Today, we are exceptionally honored and happy to have present on this platform distinguished men — men of the highest official responsibility — who can well appreciate the declaration made six score and more years ago by President Monroe. The Vice President of the United States today, and his Excellency, the Greek Ambassador to Washington, know well how significant, how remarkable, it was that our nation's fifth Chief Executive should have taken this open official stand on behalf of Greece, even at the time when the young United States was doing everything possible to avoid any risk of foreign embroilments.

While this bold position was taken at Washington on behalf of Greek freedom, very soon after America had won independence, likewise let me say that nowhere in the United States was greater enthusiasm aroused for the Greek cause than here in the old town of Boston. Meeting after meeting was held in Faneuil Hall, America's own Cradle of Liberty, to raise money for the patriot-warriors of modern Greece, and to support the relief work so nobly conducted in Greece by the courageous Bostonian, Dr. Samuel Gridley Howe.

Now, in our own day and age, the citizens of Boston know and remember the thrill felt by every American heart when the Army and people of Greece rose up, like lions, against the mighty forces of invasion hurled against them on October 28, 1940.

For six steady months the heroic Greeks, under General Metaxas, held back the crushing tide of attack. They not only staved off their foes, but for a time they altogether defeated the dictator, Mussolini, and all his boasted power, until Hitler himself had to rush to the aid of his discomfited Axis partner.

Mr. Ambassador, let me say that I agree most heartily with a statement published by you this month in the journal of the *American Academy of Political Science*. The Ambassador there points out that the Greeks "fought desperately against vastly superior forces and equipment." And he goes on to say that this Greek resistance had the effect of "dispelling for the first time the myth of Axis invincibility" and of "giving to the Allies their first victory after a series of defeats."

Mr. Ambassador, I not only agree with that statement, I go further and say that the heroic Greek resistance completely upset the Axis timetable for the winter months of 1940 and the spring of 1941. The bravery and self-sacrifice of the Greeks served to delay the Nazi invasion of Russia, and thus gave Russia a better chance to prepare for its part in the struggle, with favorable effects on the course of this gigantic war ever since.

(Continued on page 323.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

CITY RECORD.

Published weekly in Boston by the Board of Trustees of the Statistics Department of the City of Boston, under the direction of the Mayor, in accordance with legislative act and city ordinance.

JOSHUA H. JONES, Editor.
P. NICHOLAS PETROCELLI, Associate Editor.
EDWARD F. O'DOWD, Business Agent, 73 City Hall, Boston.

IN ADVANCE.

STREET AGENCIES.

Old South News Stand, Old South entrance to subway. Also News Stand, first floor, City Hall Annex.

Advertising.

A rate of \$2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, 73 City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, April 17, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

MAYOR TOBIN PAYS TRIBUTE TO GREEKS.

(Continued from page 321.)

HEROIC SACRIFICES.

The agony of hunger and persecution, which the Greek people have endured since 1941, beggars description. It was declared last November that 80,000 men, women and children have died of starvation in Greece during the Nazi occupation. Over 100,000 have been exterminated by being driven from their fertile farms, and some 25,000 Greeks have been the victims of stark massacre by the Nazis.

And yet what a wonderful account still comes to us from Greece even in this time of agony! Not only is the Greek government functioning well at its headquarters in Egypt, with many thousands of soldiers in active combat, but also we know that resistance to the Nazis still continues in the Greek homeland. The proud Greek people have utterly refused to cooperate with the Nazis. They exert courageous passive resistance against every Nazi decree. At the same time, patriots working underground have heavily sabotaged Nazi installations and troop movements. Bands of guerrilla warriors are still active in many a region. Even hundreds of women, as I read the other day, are fighting desperately with the Greek guerrilla groups.

But, as to all these current reports of Greek heroism, official spokesmen are present here today, who are qualified to tell you this story on the highest authority.

For my own part, as Mayor of Boston, I would like to say in closing that, no matter how impressive the statements of our distinguished guests may be, the noble quality of the Greeks' resistance to the Nazi invaders does not surprise me. Mr. Chairman, during my service as Mayor, I have observed time and again the patriotic devotion, the civic enthusiasm, of Boston's many thousands of loyal citizens who are of Greek descent. I know how many of them were quick to enlist in the armed services within a very short time after the United States entered the war. I know how well the Greek-American citizens of Boston are supporting the war bond campaigns—how generously they have given of their funds to the Red Cross—how constantly they are doing everything in their power to help America's war effort, both as individuals and as members of the various Hellenic social organizations and civic clubs.

This great meeting today is a most tangible proof of the remarkable work now being done by these Hellenic societies—how they can recruit this splendid audience here today from all parts of New England—how they secure for Boston the privilege of welcoming as guests and speakers some of the most eminent and officially responsible men in America.

To Vice President Wallace, I would like especially to speak for a moment of one of Boston's most cherished civic traditions. After Dr. Samuel Gridley Howe had helped Greece in her War for Independence 123 years ago, he brought back with him to Boston a young native of Greece, Michael Anagnos. And these two men, as every Bostonian knows, were the founders and co-makers of one of the finest and greatest philanthropic institutions America has ever known. I speak of the immensely useful Perkins Institution for the Blind, for many years located in South Boston and now continuing its priceless service in beautiful buildings in Watertown.

FIRST BOSTON CITIZENS.

This merciful and very constructive educational work for the blind, forever associated with the name of one of Boston's first Greek-American citizens, will appeal especially, I know, to Vice President Wallace.

In this connection, I cannot forget a tribute paid to Henry Wallace in that thoughtful and broad-minded weekly periodical called *The Commonwealth*. On July 30, 1943, *The Commonwealth* said: "There can be little doubt that Wallace is one of the very best men in the American government. He has brains, ability, moral integrity of a high order, and an apparently genuine feeling for the ethical and social principles of Christianity." "It is easy to have noble thoughts," *The Commonwealth* went on to say, "but it is not so easy to cling to them through ten years of life in Washington." It is so unusual to hear the Works of Mercy out of the mouth of a high-placed politician that we cannot resist quoting from a recent speech by Vice President Wallace: "The gospel of Christ was to feed the hungry, clothe the naked, comfort the sick, and visit those who were in hard luck. He said that treating your neighbor decently was the way to show that you love God. The neighborhood in Christ's day was only a few miles in diameter. Today the airplane has made the whole world a neighborhood. The Good Neighbor Policy, whether at home or abroad, is a Christian Policy."

Mr. Vice President, even as the young Greek citizen of Boston, the beloved Michael Anagnos, practised the "Good Neighbor Policy" here a century ago, sheltering and educating little children and others born blind, so do we give our pledge now to help Greece to the utmost in her present affliction. We will do all in our power, as friendly Americans, to help rehabilitate Greece, after the victory in this huge conflict shall have been won. We, as Americans, will stand firm now, as America stood 123 years ago, for the Freedom of Greece and the fulfillment of all her legitimate national aims.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

SUPPLY DEPARTMENT.

Upon March 15 the Mayor approved a contract with lowest bidders as indicated for furnishing surgical dressings for the city departments, as required, from January 1, 1944, to March 31, 1944. The approximate totals of awards were as follows: Thomas W. Reed Company, \$14,778.80; T. J. Noonan Company, \$9,990.11; E. F. Mahady Company, \$1,610; Parke, Davis & Co., \$216.

Bids, opened December 30, 1943, were as follows:

Item 1.—10 Dozen Gauze Bandages in 10-Yard Lengths, 1-Inch Rolls, Per Dozen.—McKesson & Robbins, Inc., Eastern Drug Division, 52 cents; Johnson & Johnson, 52 cents; Thomas W. Reed Company, 52 cents*; Bauer & Black, Division of the Kendall Company, 52 cents; T. J. Noonan Company, 52 cents; E. F. Mahady Company, 52 cents.

Item 2.—20 Dozen Gauze Bandages in 10-Yard Lengths, 2-Inch Rolls, Per Dozen.—McKesson & Robbins, Inc., Eastern Drug Division, 97 cents; Johnson & Johnson, 97 cents; Thomas W. Reed Company, 97 cents*; Bauer & Black,

Division of the Kendall Company, 97 cents; T. J. Noonan Company, 97 cents; E. F. Mahady Company, 97 cents.

Item 3.—20 Dozen Gauze Bandages in 10-Yard Lengths, 10-Inch Rolls, Per Dozen.—McKesson & Robbins, Inc., Eastern Drug Division, \$1.49, 3-inch; Johnson & Johnson, \$1.49, 3-inch, J. & J.; Thomas W. Reed Company, \$1.49*; Bauer & Black, Division of the Kendall Company, \$1.49, 3-inch; T. J. Noonan Company, \$1.49, 3-inch; E. F. Mahady Company, \$1.49, 3-inch.

Item 4.—10,000 Band-aids, Per C.—McKesson & Robbins, Inc., Eastern Drug Division, 45 cents; Johnson & Johnson, 45 cents, 100 to box, 1-inch by 3-inch; Thomas W. Reed Company, 45 cents*; Bauer & Black, Division of the Kendall Company, 45 cents, Handitapes; T. J. Noonan Company, 45 cents; E. F. Mahady Company, 45 cents.

Item 5.—10,000 Rolls Bellevue Rolls, 36-Inch Gauze, Break-off, 1 Yard by 10 Yards, 28 by 24, Cut 2, 3, 4 Inches as Needed, Per Roll.—McKesson & Robbins, Inc., Eastern Drug Division, 49 cents; Johnson & Johnson, 49 cents, J. & J., Nu-Wrap; Thomas W. Reed Company, 49 cents; Bauer & Black, Division of the Kendall Company, 49 cents, Curity No. 50 Readicut; T. J. Noonan Company, 49 cents*; E. F. Mahady Company, 49 cents.

Item 6.—7,000 Pounds Cellu Cotton, 2 or 8-Pound Cellu Rolls as Needed, Each Roll Entirely Covered by Wrapper in Even Layers, 12 Inches by 18 Inches Wide, Curity, J. & J., or Equal, Per Roll.—McKesson & Robbins, Inc., Eastern Drug Division, 18 cents per pound, 2-pound rolls; 17 cents per pound, 8-pound rolls; Johnson & Johnson, 18 cents per pound, 2-pound rolls, J. & J., 12 inches wide; 17 cents per pound, 6½-pound rolls, J. & J., 12 inches wide; Thomas W. Reed Company, 18 cents per pound, 2-pound rolls, 12 inches wide; 17 cents per pound, 6½-pound rolls, 12 inches wide; Bauer & Black, Division of the Kendall Company, 18 cents per pound, 2-pound rolls; 17 cents per pound, 8-pound rolls; T. J. Noonan Company, 18 cents per pound, 2-pound rolls; 17 cents per pound, 6½-pound rolls; E. F. Mahady Company, 15.25 cents per pound, Forest Fleece as had.*

Item 7.—100 Cartons Chux, 500 to Case, Regular, Per Carton.—McKesson & Robbins, Inc., Eastern Drug Division, \$10.25, J. & J., 600 to case; Johnson & Johnson, \$10.25, 600 to case; Thomas W. Reed Company, \$10.25*; T. J. Noonan Company, \$10.25.

Item 8.—25 Cartons Chux, 400 to Carton, Per Carton.—McKesson & Robbins, Inc., Eastern Drug Division, \$9.75, large, J. & J.; Johnson & Johnson, \$9.75; Thomas W. Reed Company, \$9.75; T. J. Noonan Company, \$9.75.*

Item 9.—2,000 Rolls Absorbent Cotton, 12 Inches Wide, 1 Pound, Per Pound.—McKesson & Robbins, Inc., Eastern Drug Division, 31 cents; Johnson & Johnson, 31 cents,† J. & J., Brunswick; Thomas W. Reed Company, 31 cents,† Brunswick; Bauer & Black, Division of the Kendall Company, 31 cents, Curity Practical Grade; T. J. Noonan Company, 31 cents,*† Brunswick; E. F. Mahady Company, 31 cents.

Item 10.—50 Pounds Absorbent Cotton, J. & J., Red Cross, or Equal, 1-Pound Rolls for Eye Work, Per Pound.—McKesson & Robbins, Inc., Eastern Drug Division, 60 cents; Johnson & Johnson, 60 cents; Thomas W. Reed Company, 60 cents*; T. J. Noonan Company, 60 cents; E. F. Mahady Company, 60 cents.

POLICE DEPARTMENT ORDERS.

General Order No. 106.

Patrolman George F. Dyer, attached to Division 16, is commended for meritorious police duty performed in the early morning of April 2, 1944, in connection with the capture of a man whom he discovered in a liquor store while trying doors on his route.

The patrolman upon entering the premises was struck by a piano stool and several bottles were hurled at him by the culprit. The officer then discharged his service revolver five times in the direction from which the bottles were thrown and upon investigation found a man lying on the floor in the rear of the premises.

The Commissioner is pleased to commend Patrolman Dyer for his initiative and devotion to duty shown on this occasion, disregarding his own safety to accomplish the arrest of this dangerous felon.

In addition, Patrolman Dyer is hereby granted one week's extra vacation.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 107.

The resignation of Provisional Temporary Patrolman Patrick Hayes of Division 10, having been presented, it is hereby accepted to take effect on Friday, April 14, 1944, at 7.45 o'clock, a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CIVIL SERVICE EXAMINATIONS.
(STATE SERVICE.)

NOTE.—Applicants are advised to file applications early. In event of a tie on the eligible list, the applicant who filed his application first will be given precedence.

SOCIAL WORKER, DEPARTMENT OF CORRECTION, MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,440 a year plus a temporary increase of \$240; the maximum salary is \$2,160 a year.

Vacancies: At present there are the following vacancies:

One vacancy for a permanent Social Worker at State Prison.

One vacancy for a permanent Social Worker in the main office of the Department of Correction.

One vacancy for a male military substitute at Massachusetts Reformatory, due to induction into the service of the permanent employee.

One vacancy for a male military substitute at State Farm, due to induction into the service of the permanent employee.

Duties: To interview inmates for detailed information concerning personal history, family history, personality, etc., as a basis for field investigation; to contact by visit and correspondence sources of information such as police, courts, social agencies, family members, etc.; to compose detailed case histories from field investigation notes and correspondence, concluding with diagnosis and sug-

gested treatments; to consult with and advise officials concerning cases presenting special institutional problems; to organize investigation material so that decision can be made concerning classification and suitability for transfer or commitment to other institutions; to assist in the selection of inmates suitable for transfer and to prepare detailed transfer summaries on inmates transferred; to make special investigations in the cases of alcoholics sentenced to the State Farm and Reformatory for Women, to assist their families in meeting special problems which might arise, and to assist in the rehabilitation of the alcoholics following their release; to perform certain specific clerical duties relating to the records of the alcoholics, such as records of their transfers, paroles, parole violations, revocation warrants, etc., and to handle notifications and inquiries received from courts, police, Massachusetts Board of Probation, social agencies, etc., concerning the alcoholics under the care of the Massachusetts Department of Correction.

Entrance Requirements: Applicants who have not reached their twenty-second birthday or who have passed their forty-fifth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Applicants must have had at least two years of satisfactory, full-time paid experience within the last five years in any or all of the following: (1) in work in a penal, probational, parole, or correctional institution, department, or agency, including training schools; (2) in work in a social case work capacity with an acceptable agency dealing with family or individual problems of maladjustment. *Substitution:* Graduation from a recognized college with major study in the social sciences may be substituted for the required experience.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

STATISTICAL MACHINE OPERATOR (I. B. M. MACHINES), MAY 6, 1944.

Last date for filing applications, Monday, April 17, 1944, at 4.30 p. m.

Salary: The entrance salary is \$1,140 a year plus a temporary increase of \$240; the maximum salary is \$1,440 a year.

Vacancies: From time to time.

Duties: To operate I. B. M. machines, punching cards from data previously coded; and to perform related work as required.

Entrance Requirement: Applicants must have had at least six months' full-time paid experience in the operation of I. B. M. machines.

Subjects and Weights: Training and experience, 2; practical questions, including practical tests in the operation of I. B. M. machines, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CIRCULAR LETTER NO. 2.

CITY OF BOSTON,
MAYOR'S OFFICE, April 3, 1944.

To the Heads of Departments.

GENTLEMEN,—You are hereby directed to grant leave of absence without loss of pay to employees of the city, who are of Jewish faith, for their observance of the Feast of the Passover, Saturday, April 8, and Sunday, April 9.

Respectfully,

MAURICE J. TOBIN, Mayor.

PROCEEDINGS OF CITY COUNCIL.

Monday, April 3, 1944.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. McCormack and Scannell.

The meeting was opened with the salute to the Flag.

Coun. D. F. SULLIVAN in the chair.

JURORS DRAWN.

Jurors were drawn, Coun. RUSSO presiding at the jury box in the absence of the Mayor, viz.:

Sixty-one traverse jurors, Superior Criminal Court, to appear May 1, 1944:

Alexander Alterisio, Ward 1; Bartolo Ardagna, Ward 1; Henry V. Demontreux, Ward 1; Joseph Savio, Ward 1; John L. Cronin, Ward 2; Jeremiah F. Healy, Ward 2; Joseph Cohen, Ward 3; James D. Brown, Ward 4; Earl H. Field, Ward 4; William R. Ryder, Ward 4; Charles E. Bradley, Ward 5; James J. Courtney, Ward 5; Edward K. Meador, Ward 5; Adolph Reich, Ward 5; William C. Murray, Ward 6; Walter J. Braudis, Ward 7; Antoine J. Cote, Ward 7; Joseph J. O'Brien, Ward 7; James L. Allen, Ward 8; Edward Doherty, Ward 8; George J. Donnelly, Ward 8; James P. Fowler, Ward 8; Albert L. Gramer, Ward 9; Samuel P. Perry, Ward 9; Louis Gallo, Ward 10; Patrick J. Norton, Ward 10; Kenneth J. Ryan, Ward 10; Joseph L. Smith, Ward 10; Bernard L. McElhinney, Ward 11; William J. Miller, Ward 11; Curtis L. Bartlett, Ward 12; William T. Christensen, Ward 12; Frank B. Howland, Ward 12; Henry H. Rogers, Ward 12; John Arthur Bourque, Ward 13; John F. Joyce, Ward 13; Thomas E. Lawless, Ward 14; Nelson E. Aldrich, Ward 16; Charles F. Corcoran, Ward 16; Daniel J. Delay, Ward 16; William P. Igoe, Jr., Ward 16; John C. Lombard, Ward 16; Charles A. Prentiss, Ward 16; Morris Kaitz, Ward 17; Frank Osterberg, Ward 17; James H. Sullivan, Ward 17; James W. Ego, Ward 17; Arthur Bloomberg, Ward 18; Abner Gray Messinger, Ward 18; Edward R. Slein, Ward 18; Herbert A. Stowe, Ward 18; Louis A. White, Ward 19; Joseph F. Cronin, Ward 20; Daniel J. Driscoll, Ward 20; Edward Myers, Ward 20; Richard Wilson, Ward 20; Frank Elkins, Ward 21; A. Lincoln Johnston, Ward 21; George S. Prager, Ward 21; Joseph A. Smith, Ward 21; Irving A. Beaton, Ward 22.

One hundred four traverse jurors, Superior Civil Court, April Sitting, to appear May 1, 1944:

Albert Belgiorno, Ward 1; Joseph LeGallo, Ward 1; Patrick O'Halloran, Ward 1; Edward B. Powers, Ward 1; John J. Allen, Ward 2; Michael J. Murphy, Ward 2; Lawrence J. Wiemert, Ward 2; Anthony DiMinico, Ward 3; John H. Johnson, Ward 3; Louis Springer, Ward 3; Anthony J. Berenius, Ward 4; Paul L. Fedorovsky, Ward 4; Adam Rice, Jr., Ward 4; James Bardho, Ward 5; Theodore J. Kundsinn, Ward 5; Edward J. Stevens, Ward 5; Andrew Lakus, Ward 6; Anthony Tota, Ward 6; John Bolger, Ward 7; Joseph W. Downes, Ward 7; Linton E. Everett, Ward 7; Russell W. Ross, Ward 7; Oscar W. Shepard, Ward 8; Charles R. Jones, Ward 9; Daniel Keel, Ward 9; Louis D. Montplaisier, Ward 9; William J. Clerkin, Ward 10; Theodore H. Cotto, Ward 10; James J. Foley, Ward 10; Daniel J. McCarthy, Ward 10; Daniel F. O'Neil, Ward 10; Peter M. Shea, Ward 10; John Broderick, Ward 11; Boris Cort, Ward 11; Martin G. Donnelly, Ward 11; Russell L. Fales, Ward 11; John H. Goldrick, Ward 11; Karl S. Lindholm, Ward 11; Stephen F. Madden, Ward 11; Harry A. McCarten, Ward 11; Hyman Langhort, Ward 12; Frederick W. Olsen, Ward 12; George W. Waldman, Jr., Ward 12; Joseph J. Waldman, Ward 12; William F. Hurley, Ward 13; Victor F. Lamy, Ward 13; John F. Pimenthal, Ward 13; Abraham Bikofsky, Ward 14; Edward J. Cadigan, Ward 14; George J. Gibbs, Ward 14; Ralph Greenberg, Ward 14; Max Holtzman, Ward 14; Sydney Prikepe, Ward 14; George Linda, Ward 14; James F. McBride, Ward 14; John J. Worswick, Ward 14; Charles H. Foster, Jr., Ward 15; George H. Lang, Ward 15; John C. McCluskey, Ward 15; Thomas J. Caulfield, Ward 16; Philip J. Lane, Ward 16; Ernst L. Schultz, Ward 16; John W. Tivnan, Ward 16; William J. Baker, Jr., Ward 17; William E. Beck, Ward 17; James E. Campbell, Ward 17; John J. Curley, Ward 17; John W. Lane, Ward 17; John H. Nichols, Ward 17; James S. Tentoni, Ward 17; Robert E. Warbin, Ward 17; James L. Bannon, Ward 18; Perry W. Linacott, Ward 18; John J. Madden, Ward 18; Johann Schlecht, Ward 18; Harold H. Starr, Ward 18; Michael Waman, Ward 18; Daniel Hughes Cunningham, Ward 19; George W. Cunningham, Ward 19; William F. Murphy, Ward 19; Sydney S. Sharpe, Ward 19; Michael Tojlian, Ward 19; Francis L. Caruso, Ward 20; Howard D. Farrant, Ward 20; Joseph E. Fava, Ward 20; Everett A. Griffin, Ward 20; Thomas J. Lydon, Ward 20; William B. Minor, Ward 20; John H. O'Keefe, Ward 20; Joseph P. Sullivan, Ward 20; Herschel C. Thompson, Ward 20; James E. Walsh, Ward 20; Jack Abraham, Ward 21; Henry J. Burns, Ward 21; Pierre P. Gagnon, Ward 21; Julius Kalman, Ward 21; Joseph F. Ryan, Ward 21; Brendon Shea, Ward 21; Clarence E. Wheeler, Ward 21;

George L. Garvey, Ward 22; Weiklo Lief, Ward 22; James F. McHugh, Ward 22; Daniel W. McNeill, Ward 22; Arthur Pierson, Ward 22.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Paul F. Cole, for compensation for damage to car by police car.

Joseph M. Connor, for compensation for loss of clothing while patient at City Hospital.

East Bridgewater Savings Bank, for compensation for damage to property at 139-147 Blackstone street, caused by snow removal equipment.

Howard A. McViney, to be reimbursed for execution issued against him.

Howard A. McViney, to be reimbursed for execution issued against him.

M. G. Yardume, for compensation for damage to property at 558 Tremont street, caused by water from street.

Executive.

Petition of Boston National League Baseball Club for permit for Sunday sports.

Licenses.

Petitions for driveway openings:

Old Colony Trust Company, Medford street, Ward 3.

Herbert F. Mullen, 540 Summer street, Ward 1.

APPOINTMENT OF JOHN P. KENNEY.

Notice was received from the Board of Assessors of appointment of John P. Kenney, 1 Weld street, Roslindale, as permanent First Assistant Assessor, effective March 31, 1944, at salary of \$1,700 plus \$200 war emergency allotment.

Placed on file.

ABSENCE OF MAYOR FROM CITY.

Notice was received from the Mayor of his absence from the city from March 28 until April 5.

Placed on file.

SPECIALISTS FOR SCHOOL SURVEY.

The following was received:

City of Boston,

Finance Commission, March 30, 1944.

To the Honorable the Mayor and City Council.

Gentlemen,—The Finance Commission desires to record with you the list of specialists selected to make the general survey of the Boston School System for which provision was made by you in a special appropriation. In accordance with the terms of the contract made with Dr. George D. Strayer, the selection of the educators retained is entirely the responsibility of Doctor Strayer as director. The commission believes the list speaks for itself, containing as it does not only nationally known experts in educational administration and policy but many who are well acquainted with local conditions and aims. The list follows:

Akerly, Mr. Harold E., Assistant Superintendent of Schools, Rochester, N. Y.

Brownell, Dr. S. M., Professor of Educational Administration, Yale University.

Chase, Dr. W. Linwood, Professor of Education, School of Education, Boston University.

Connor, Mr. W. L., formerly Director of Research, Cleveland Public Schools.

Cotton, Dr. Dana, Director of Vocational Guidance, State Department of Education, Augusta, Maine.

Elicker, Dr. Paul T., Executive Secretary, National Association of Secondary School Principals.

Essert, Dr. Paul L., Superintendent of Schools, Board of Education, Grosse Pointe, Michigan.

Herlihy, Dr. Charles M., President, State Teachers College, Fitchburg, Mass.

Kellar, Dr. Wylma R., Assistant Professor of Education, Boston College.

Lewis, Mr. John W., Assistant Superintendent of Schools, Baltimore, Maryland.

Nelson, Mr. Edwin F., Assistant Superintendent in Charge of Business Affairs, Hartford, Conn.

Nichols, Dr. F. C., Associate Professor of Education, Graduate School of Education, Harvard University.

Nichols, Mr. John E., Supervisor, School Buildings and Plans, Hartford, Conn.

Peik, Dr. W. E., Dean of School of Education, University of Minnesota.

Rankin, Dr. Paul T., Assistant Superintendent of Schools, Detroit, Michigan.

Sheehan, Rev. Arthur J., S. J., General Prefect of Studies of the New England Province.

Simpson, Alfred D., Associate Professor of Education, Harvard University.

Sullivan, Dr. Helen B., Associate Professor of Education, Boston University.

Thurston, Dr. Lee M., Professor of Education, University of Pittsburgh.

Young, Dr. William E., Director of Elementary Education, State Department of Education, Albany, N. Y.

Research workers:

Andrews, Mr. Wendell B., State Department of Education, New York.

Flanders, Dr. J. K., State Normal School, Oswego, N. Y.

Koch, Mr. Wayne S., High School Principal, Phillipsburg, Pa.

Moulton, Mr. John K., High School Principal, Rockport, Mass.

Respectfully submitted,

ALEXANDER WHEELER, Chairman.

JOHN F. CUSICK,

LEO J. DUNN,

FREDERICK DEANE,

EDWARD F. MULLEN,

The Finance Commission.

Placed on file.

AUDIT OF CITY TREASURER'S ACCOUNTS.

The following was received:

City of Boston,

City Clerk's Office, April 3, 1944.

To the City Council.

Gentlemen,—On March 28, 1944, a report of an audit of the accounts of the Treasurer of the City of Boston for the period from January 1, 1941, to December 4, 1942, made by the State Division of Accounts under chapter 44 of the General Laws, was submitted to the Mayor. A copy of the report was furnished to me by the Division of Accounts, and in accordance with section 40 of said chapter 44 I am publishing a summary of its essential features in the *City Record* of April 8, 1944.

Respectfully,

W. J. DOYLE, City Clerk.

Placed on file.

SOLDIERS' RELIEF.

Coun. KEENAN, for the Committee on Soldiers' Relief, submitted report recommending passage of order for payment of aid to soldiers and sailors and their families for the month of April.

Report accepted; said order passed.

BOMBING OF ROME.

Coun. DWYER offered the following:

Whereas, Rome, the Eternal City, symbol of Christianity, is now in imminent danger of destruction; and

Whereas, Rome, City of Churches, has, through the centuries, become the storehouse of the art treasures of the civilized world; and

Whereas, Rome, with neutral Vatican City, has a large civilian population, many of whom are non-combatant women and children; be it

Resolved, That the Boston City Council, through his Honor the Mayor, Maurice J. Tobin, respectfully petitions the President of the United States to give earnest consideration to the plea of his Holiness Pope Pius XII and the reverend members of the Catholic hierarchy in the United States, that Rome be not bombed; and be it further

Resolved, That the Boston City Council respectfully requests the President of the United States to use the good offices of neutral diplomatic sources to secure the evacuation from Rome of all troops, military installations and supplies; and be it further

Resolved, That the President of the United States instruct our own brilliant American generals to devise a way for declaring Rome an open city.

Coun. DWYER—Mr. President, in recent weeks all loyal Americans have been heartened by the glad tidings which tell us that throughout the world our boys in the service are carrying on in true American fashion, giving their all that America might be victorious and you and I might continue to enjoy those freedoms which are guaranteed by our Constitution and by our American method of life. We rejoice in this news. We exult in these victories. We are proud of our boys and proud of their accomplishments. However, there is one phase which casts a shadow over us all, Mr. President, and that phase is the need or necessity of the bombing of Rome. I, therefore, Mr. President, do rise, as a Christian gentleman, to request that on that road to victory the Eternal City of Rome be spared unless its destruction is essential to insure that victory. Rome is not an ordinary city. Rome is not merely an Italian city. Rome belongs to the world. Rome belongs to every Christian, yea, even to every believer in a Divine Being. Mr. President, you know how, as youngsters, we were taught the value of the art treasures and the churches of the city of Rome. We were taught then that these did not belong to Rome alone, but to you and to me—to all the people of all the world. You will recall that we were taught in our youth that Rome was the center of culture—the symbol of our progress in civilization—that culture and that civilization which we adopted and developed. And now gentlemen, all this is threatened with destruction. The treasures, the churches, the culture and the very civilization which we have come to respect and to love, will be destroyed in one fell swoop unless we can forestall the bombing of Rome. This cannot be

accomplished if such a bombing is essential to victory. But the press last week in its news on the war carried the story that the military leaders were considering the possibility of declaring Rome an open city. If that be so, let us cooperate. If that be so, then I believe I speak for the rank and file of Christendom when I ask that this be granted and Rome be declared safe from all bombing. The destruction of any city is a sorrowful and appalling sight. If we can win and also save Rome let us do so, Mr. President, for Rome is Rome, the Eternal City, the pride and the joy and the property of all men throughout the world.

The resolutions were passed under suspension of the rule.

REPORT OF COMMITTEE ON APPROPRIATIONS.

Coun. MUCHNICK, for the Committee on Appropriations, submitted the following:

Report on message of Mayor and order (referred February 7) appropriating \$60,000 from income of Cemetery Fund, to be expended under direction of Park Commissioners, for Cemetery Division, Maintenance and Improvement—that same ought to pass.

Report accepted; order passed, yeas 15, nays 0:
Yeas—Coun. Bayley, Carey, Chase, Coffey, Fish, Hanley, Hannon, Keenan, Kinsella, Muchnick, Russo, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—15.
Nays—0.

INDORSEMENT OF H. R. 3761.

Coun. HANNON offered the following:
Resolved, That the Boston City Council go on record as favoring the adoption by the Federal Government of H. R. 3761, the Bolton Bill, so called, which provides equal military rank for members of the Army Nurse Corps; and be it further

Resolved, That a copy of this resolution be forwarded to all members of the Massachusetts delegation in Congress.

The resolutions were passed under suspension of the rule.

LEAVE OF ABSENCE, EASTER WEEK-END.

Coun. HANNON offered the following:
Ordered, That his Honor the Mayor be requested to grant a leave of absence to employees of City Hall from Good Friday at noon to Easter Monday morning.

Passed under suspension of the rule.

AMENDMENT OF VOTING LAWS BY LEGISLATURE.

Coun. HANNON and FISH offered the following:

Resolved, That the members of the Boston City Council, in meeting assembled, request that as part of the business of the next special session of the Legislature, the present voting laws be amended to make it possible for members of the armed forces, who are residents of Massachusetts, to vote in the coming election.

Passed under suspension of the rule.

TEMPORARY BATH HOUSE, SAVIN HILL BEACH.

Coun. HANNON offered the following:
Ordered, That his Honor the Mayor direct the Park Commissioner to construct a temporary bath house at Savin Hill out of the block garages located on Denny street, which property is now owned by the City of Boston, Real Estate Department, and which, for the most part, is unoccupied.

Passed under suspension of the rule.

NAME OF SOLDIERS' RELIEF DEPARTMENT.

Coun. FISH offered the following:
Ordered, That the department now known as the "Soldiers' Relief Department of the City of Boston" be changed in name by dropping the word "Relief" and be known as the "Veterans' Aid and Pension Department," or some similar and more appropriate name.

Referred to Committee on Ordinances.

STATE BONUS TO MASSACHUSETTS VETERANS.

Coun. FISH and HANNON offered the following:

Resolved, That the Boston City Council, in meeting assembled, favor and request that legislation providing for a payment of a state bonus to all honorably discharged veterans of World War II, residing in Massachusetts, be part of the business to be acted upon by the Massachusetts Legislature

during its special session called by his Excellency Governor Saltonstall; and be it further

Resolved, That a copy of this resolution be forwarded to the Secretary of State.

Coun. COFFEY—Mr. President, I believe this will give an opportunity to the Governor to show whether he is animated by patriotism or not.

Coun. FISH—Mr. President, I think Councilor Coffey's speech is as good as a three-hour discussion!

Coun. BAYLEY—Mr. President, I think there is a question whether this is properly Council business, the City Council telling the Legislature what it ought to do.

The resolutions were passed under suspension of the rule.

OPPOSITION TO INDEXING OF HONORABLY DISCHARGED VETERANS BY CERTAIN SOCIAL AGENCIES.

Coun. FISH offered the following:

Resolved, That the Boston City Council, in meeting assembled, go on record as being opposed to the indexing of honorably discharged veterans or members of their family by any social agency working out of the City of Boston Rehabilitation Center upon invitation of his Honor the Mayor, and for which center the City Council approved an appropriation of \$25,000.

Passed under suspension of the rule.

TRANSFER OF STUDENT NURSES WITHIN CITY HOSPITAL.

Coun. KELLY offered the following:

Ordered, That the trustees of the Boston City Hospital be requested, through his Honor the Mayor, to devise some plan whereby the excessive number of student nurses in the South Department may be transferred to other sections of the hospital in order that the present nursing staff may be more equitably distributed.

Coun. KELLY—Mr. President, I understand that a condition exists at the Boston City Hospital which, in my opinion, should be immediately remedied. I understand from pretty good authority that there are at least 100 student nurses in the South Department with practically little more than 100 patients there. That figures out practically one student nurse to one patient. I understand further that in many wards of the City Hospital there are as few as one student nurse on duty from 3.30 p. m. to 11 p. m., a graduate nurse and only one student nurse from 11 p. m. to 7 a. m. to take care of thirty to forty patients. I am going to ask that this order be referred to the Committee on Hospitals and that the head nurses be sent for and Doctor Manary, to see whether that situation cannot be straightened out so that the hospital will have adequate nursing service.

The order was referred to the Committee on Hospitals.

RENTALS OF BOSTON HOUSING AUTHORITY.

Coun. CAREY offered the following:
Ordered, That the Boston Housing Authority be requested, through his Honor the Mayor, to delay putting into effect the increases in rent that have been recently announced until such time as each tenant has been given a fair opportunity to thoroughly make known his or her circumstances and inability to pay the increased rent.

Coun. CAREY—Mr. President, very recently a new schedule of rents has been put into effect for many of the tenants in the housing units throughout the city, and in some cases the increases, to my way of thinking, are grossly exorbitant. As a matter of fact, on all the cases that have been brought to my attention—and there have been several over the week-end—the tenants will be unable to pay the increases and therefore will be forced to move from the housing unit and go elsewhere which, having in mind the present housing shortage in Boston, will mean a serious threat to hundreds and thousands of families who are tenants of these housing units, who will be unable to meet the increased demand. I have in mind two or three illustrations that can be used to show the unfairness of some of the increases. In one case, for example, the family of a service man, the husband is not home at the present time, and the mother is taking care of the family. The rent is just about double. In that particular case the earnings are not great, the husband having an income of something like \$80 a month. The wife's mother is living there and makes some contribution, but the jump of almost 100 per cent in that rent is certainly most unfair. I have in mind another case where there are six children in the family and the rent is increased practically to 100 per cent, to \$55 a month. In another case where there are six children in the family, the father's earnings are slightly over \$2,000 a year, but there has been a great deal of sickness in the family. The mother is at the hospital, and one of the youngsters has been taken to the hospital this week to have a lung removed. Another one has been in the hospital practically all his life, being about eight years of age, and the physical condition of the family is such that twelve quarts of milk have to

be purchased every week. Just keep in mind that milk, if you go to the store for it, costs 15 cents a quart, at the present time. I do not believe the Housing Authority has gone into the circumstances that prevail with tenants who have had their rent practically doubled in the last few days. I am not here to speak for those tenants of housing units who can well afford to pay high rents and who could find homes outside the housing units. But I am here to try to do something for the families of whom I have given an example, and I might mention other cases. It seems to me, therefore, that his Honor the Mayor should at least take action looking into a delay in putting into effect the increases in rents that have been recently announced until such time as the tenants have been given a fair opportunity to thoroughly make known their circumstances and inability to pay the increased rent. The matter should be taken up with the managers of the various units and the cards laid on the table. I am sure that serious attention should be given to the matter before increases are put into effect which will practically mean doubling the rent, which seems to be the case in most of the families I am interested in here today.

The order was passed under suspension of the rule.

NAMING OF GEORGE T. SCOTT SQUARE.

Coun. D. F. SULLIVAN and HANLEY offered the following:

Ordered, That the square at the junction of Cedar and Highland streets be named and known as George T. Scott square, in honor of George T. Scott, Jr., a member of the United States Naval Reserve who lost his life in the service of his country on June 2, 1943.

Referred to the Executive Committee.

REPORT OF COMMITTEE ON CLAIMS.

Coun. D. F. SULLIVAN, for the Committee on Claims, submitted the following:

1. Report on petition of John J. Hanlon (referred March 13) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor truck belonging to Water Division, Public Works Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of two hundred thirty-four dollars and seventy-four cents (\$234.74) be allowed and paid to John J. Hanlon in reimbursement for amount of execution issued against him on account of his acts as operator of a motor truck belonging to the Water Division, Public Works Department, said sum to be charged to the Contingent Fund.

Report accepted; order passed.

2. Report on petition of Lieutenant Charles Connors (referred February 28) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor vehicle belonging to Fire Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of forty dollars (\$40) be allowed and paid to Lieutenant Charles Connors in reimbursement for amount of execution issued against him on account of his acts as operator of a motor vehicle belonging to the Fire Department, said sum to be charged to the Contingent Fund.

Report accepted; order passed.

3. Report on petition of Thomas J. Reilly (referred March 13)—to be reimbursed for amount of execution issued against him on account of his acts as operator of motor vehicle belonging to Police Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of one hundred seventy-five dollars (\$175) be allowed and paid to Thomas J. Reilly in reimbursement for amount of execution issued against him on account of his acts as operator of a motor vehicle belonging to the Police Department, said sum to be charged to the Contingent Fund.

Report accepted; order passed.

4. Report on petition of William F. Frieburger (referred February 28) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor truck belonging to Sanitary Division, Public Works Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of eighty-eight dollars and sixty-eight cents (\$88.68) be allowed and paid to William F. Frieburger in reimbursement for amount of execution issued against him on account of his acts as operator of a motor truck belonging to the Sanitary Division, Public Works Department, said sum to be charged to the Contingent Fund.

Report on petition of William F. Frieburger (referred February 28) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor truck belonging to Sanitary Division, Public Works Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of one hundred thirty-seven dollars and two cents (\$137.02) be allowed and paid to William F. Frieburger in reimbursement for amount of execution issued against him on account of his acts as operator of a motor

truck belonging to the Sanitary Division, Public Works Department, said sum to be charged to the Contingent Fund.

Report on petition of William F. Frieberger (referred February 28) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor truck belonging to Sanitary Division, Public Works Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of one hundred thirty-three dollars and seventy-seven cents (\$133.77) be allowed and paid to William F. Frieberger in reimbursement for amount of execution issued against him on account of his acts as operator of a motor truck belonging to the Sanitary Division, Public Works Department, said sum to be charged to the Contingent Fund.

Reports accepted; said orders severally passed.

SIDEWALKS, WARD 17.

Coun. KEENAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on the following streets in Ward 17: Bailey street, Idaho street.

Passed under suspension of the rule.

COMMEMORATION OF "BATAAN DAY."

Coun. HANLEY offered the following:

Resolved, That the Boston City Council record itself in full accord with the proposed plans to commemorate "Bataan Day" in Boston on Easter Sunday, April 9, thus giving external testimony of a grateful people to those courageous men who were killed, or captured by the Japanese, in their heroic stand against overwhelming odds of men and materials. Their brave and heroic deeds are recorded, not alone in the annals of American history, but in the history of the world as the factor that saved Western civilization.

Coun. HANLEY—Mr. President, this week is memorable in the history of the Jew and the Christian. It is the week that we commemorate the Passover from Egypt into the Land of Plenty, when the Jews, under the leadership of their greatest leader, Moses, left the sands of Egypt and went into the Promised Land. It is memorable to the Christian because two thousand years ago the gentle Master was a Jew and proved his divinity on Easter Sunday and broke asunder for all time the tentacles of death that overshadowed man. It is memorable on this particular Easter Sunday to American people because, according to newspaper accounts, we are going to celebrate Bataan Day, the isle of Bataan, that saw the death march of those men who protected our type of government from oriental civilization and allowed General Douglas MacArthur, the greatest general our country has produced since Washington, to be shuttled through the skies and to land on the tip of Australia, and thus protect not only us but the entire occidental civilization. Last year President Franklin Delano Roosevelt, in collaboration with Secretary Stimson, refused to commemorate the heroic stand of the men on the isle of Bataan, but since that time they were utilized in order to broadcast the Fourth War Loan, which was known as the death march from the isle of Bataan. And I know that we, as the members of the Boston City Council, should record ourselves in favor of the celebration to take place on next Easter Sunday, especially here in Boston, the scene of American liberty and American sacrifices. And I am sure, regardless of political partisanship, of racial or religious creed, we all bow our heads in commemoration of those men who gave us the life-giving embers of Americanism, and protected it, not only for us but for all future generations. Today General Douglas MacArthur is coming back once again to rescue the Philippines from the filthy hands of the Nipponese. I ask suspension of the rule and passage of the order.

The order was passed under suspension of the rule.

RECESS.

The Council voted at 3.10 p. m., on motion of Coun. COFFEY, to take a recess. The members reassembled at 4.25 p. m. and were called to order by Chairman D. F. SULLIVAN.

EXECUTIVE COMMITTEE REPORTS.

Coun. HANLEY, for the Executive Committee, submitted the following:

1. Report on order (referred today) that square at junction of Cedar and Highland streets be named George T. Scott square—that same ought to pass.

Report accepted; said order passed.

2. Report on petition of National League Baseball Club (referred March 27) for permit for Sunday sports—that same ought to pass.

Report on petition of Boston American League Baseball Company (referred March 20) for permit for Sunday sports—that same ought to pass.

The reports were accepted and the question came on granting the licenses.

Coun. MUCHNICK—Mr. President, last week I wrote a letter to the owners of the two major league ball teams of this city, stating to them the reasons why I intended to vote against granting Sunday baseball licenses to them, and I would like at this time to have that letter read into the record.

(At this point Coun. Muchnick submitted to the clerk, and the clerk read, the following letter:

"March 29, 1944.

Mr. Thomas Yawkey, Red Sox Club, Jersey Street, Boston, Mass.

Dear Mr. Yawkey,—According to the information which I have at my disposal, it would appear that Major League Baseball discriminates against the employment of colored people as ball players. It seems to me, and I am sure you will agree, that this practice is contrary to the spirit of the 'Four Freedoms' and to the general concept of Americanism. Surely a continuation of this practice is not what American boys are fighting for and dying for all over the world.

It further seems to me that baseball, which prides itself and not without justification, on being the national sport of our country, should have taken the lead not only in discontinuing this kind of discrimination, but in leading the fight against it. Baseball would thus have shown itself to be a true champion of the American ideal of sportsmanship.

In protest against the failure of baseball so to act, I shall vote against the granting by the City of Boston of the usual license to permit your Club or the 'Braves' to play Sunday baseball. I shall do this not because I am opposed to baseball, but on the contrary because of my great love for this sport and all others and because I feel that the sport of baseball should be the standard bearer of the true American ideal of sportsmanship.

I have taken the liberty of communicating with you and I am sending a similar letter to Mr. Quinn of the 'Braves' so that my position in the matter may be clearly understood.

I believe that if you and Mr. Quinn would immediately initiate a movement for the discontinuance of the un-American practice referred to above, you would gain an enviable niche not only in the history of baseball and sportsmanship, but in the ranks of great Americans who have persistently and successfully advocated the furtherance of those ideals which have made our country great.

Respectfully yours,
ISADORE H. Y. MUCHNICK."

Coun. MUCHNICK—I also sent a copy of the same letter to Mr. Quinn of the Braves.

Coun. HANNON—Mr. President, I am against the inclusion of that letter in the record because I think the letter starts off by saying, "According to the information which I have at my disposal, it would appear that Major League Baseball discriminates against the employment of colored people as ball players." That is, it says definitely that discrimination has been practiced. I don't know of discrimination having been practiced, and when we vote to include that letter in the record it means that twenty-two members vote that discrimination has been practiced by the Boston baseball authorities against colored players. I don't think there is any such evidence here and I, for one, am going to vote against the inclusion of that letter in our record.

Coun. TAYLOR—Mr. President, we see here rather a strange anomaly in this baseball situation, when we are fighting a global war for democracy. As I understand democracy, it means freedom to all, and not for any special group. I have risen on this floor on many occasions to say something that might in some way assist in striking at something that might mean racial discrimination or religious discrimination of any kind, whether it concern Jew, Gentile or colored. I certainly am happy to get on this floor and voice my sentiments against any racial discrimination against Jew or Gentile, Catholic or Protestant. I am not a Gentile and I am not colored, but you can rest assured that, if there were any opportunity or occasion for it, I would be one of the first to get on the floor and oppose discrimination of any kind toward such groups. But we cannot be blind to everything when we say there is no discrimination against colored baseball players in the big leagues. There has never been one colored ball player in those leagues within my memory, on any team at all. We have read statements of owners of baseball teams who have admitted that there is such discrimination, although they might personally be willing to accept colored baseball players on their teams.

Coun. COFFEY—Mr. President, will the gentleman yield for a question?

Coun. TAYLOR—Yes.

Coun. COFFEY—Mr. President, will the gentleman give his authority for that, where he speaks about the position of these owners of baseball teams?

Coun. TAYLOR—Well, Mr. President, I have read such a statement in the papers, but I would have to look up the record in order to be specific and state definitely. I am depending on quotations from the newspapers. I did not hear it from the gentlemen personally. But, going back to the subject, are we not here to try to do everything we can for all the people who live in the City of Boston and who want to see baseball

on Sunday? We must have in mind, however, that there is a great principle involved here and that we who represent the people must voice our opinions and sentiments so that the battle for freedom and against discrimination may be carried on, hoping that some time in the future the bars will be let down so that anyone in the community can work and live the kind of life he sees fit. We certainly feel hurt in our respective groups when anybody says or does anything against Jews, Catholics, or Protestants, and we should appreciate the position of the Negroes. We feel badly when we come up against discrimination, because we feel that we are being deprived in a matter of this kind of an opportunity to earn our living in a particular business, whatever it may be. The same thing applies to baseball as to any other business.

The colored people have developed good baseball players, as they have developed good players in other forms of sports, and certainly, from what we have seen and known, and what we have read in the newspapers, members of the colored race would be stars if they had an opportunity to play in organized baseball. But they are never given the opportunity, because of their color. We find that the managements go to Tennessee and other states and pick up young white men and put them on their pay roll with an opportunity to earn \$5,000, \$10,000 and \$20,000 a year; and yet, because of the feeling of those white people who do not wish to associate with people of a different color, we are told that we must cater to their whims if we are going to be good, loyal Americans. I would like to know why good, colored ball players should not be allowed an opportunity to play baseball in the big leagues. Why don't the managers open their hearts and let them in? But, no, they are influenced by this feeling that we find in certain quarters against the colored people, and they simply recognize and follow a practice that they think is going to fill their treasuries. They don't fool you or me, however, when they take the attitude they do and do not state the real reason for their action. Therefore, I am going to vote against this report, because I believe organized baseball should act fairly with good Americans who desire to play the game and who may wish, like others, to derive support from it. I am going to vote against the reports, because I think these leagues are not complying with the true traditions of Americanism. I know that they will pass, but still, if we show organized baseball that it should change its methods in this respect, by refusing to grant such licenses, we would be standing up and doing something that should be done. While these colored boys are fighting our battles in various parts of the world, showing that they are good, loyal Americans, let us for our part do something to show that we appreciate their efforts on our behalf and that we object to the discrimination against them.

Coun. COFFEY—Mr. President, of course, all this talk about discrimination in this matter is out of order. We are not in favor of discrimination against any race, and that is not what we are voting on, but on an order which is brought in year after year and which has nothing whatever to do with much of the talk we have heard here today. One of the speakers uses the argument against it that they don't let children in to these games at a reduced price. Well, that has nothing to do with the question of whether we allow Sunday games or not. As far as I am concerned, if that has anything to do with the question, I certainly wish that we could convince the baseball magnates that they should allow children in to the baseball games for 25 cents not on Sunday alone, but on the other days of the week. The gentleman from Ward 12 (Coun. Taylor) has brought up here the question of racial discrimination, so far as baseball is concerned. So far as the gentleman from Ward 14 (Coun. Muchnick) is concerned, we know that he is to be the candidate this fall for the Senate, and that he is now appealing to the Negro vote. There is no doubt of it, this is politics, to get the Negro vote. But the argument that has been raised here has nothing whatever to do with the question before us, which is simply whether we shall have ball games on Sunday. Are you going to take that pleasure away from the people of Boston? As I have said before, we are acting on only one thing here, and that is whether we are going to grant Sunday baseball or not. The discrimination question should never have been brought into it. The question is simply, are we going to grant permission to the general public of greater Boston and of New England to enjoy Sunday baseball, or stop them from enjoying Sunday baseball?

Coun. BAYLEY—Mr. President, the previous speaker seemed to intimate that baseball is un-American. I do not agree. It is decidedly American, and freedom to enjoy baseball and to enjoy other occupations in which the American people are interested is one of the things for which our boys are fighting all over the world. There is need in wartime of sports like this that will help to occasionally take our minds off other things. One of the things for which our boys are fighting is to keep a free America, and to come home as soon as possible. Some of the speakers believe that we are trying to hamstring baseball if we refuse this license. Baseball affords a certain relaxation, relieves the tension of people's minds at a time like this, and it is a game that is enjoyed even while the war is going on by our service men, those on the battlefields and those who at present are among us. Therefore, I say

everything possible should be done to encourage the playing and the enjoying of baseball by the service men on every day, including Sundays. I agree with the councilor from Ward 1 (Coun. Coffey) that I would like to see boys admitted to the games at a small price or free, on Sunday and on other days. I believe that baseball helps to make America great, and it helps our service men to endure the trials that they have to go through. We should not hamstring it, but should do everything we can to encourage it, for the people of our community and for the service men, in this war. It will help carry the boys through to victory, and I ask the gentlemen here to vote that these petitions be granted.

Coun. TAYLOR—Mr. President, I want to just reply to a certain inference that might be drawn from Councilor Coffey's remarks. I don't think it means a political play on anybody's part, because Councilor Muchnick does not come from a district where the colored vote is prominent, and it certainly will figure very little in any campaign he may have in mind. I might say that in Ward 12 there are 300 to 400 colored Democrats, who might play an important part in an election.

Coun. COFFEY—Will the gentleman tell me how many Republican votes there are?

Coun. TAYLOR—Well, I don't think it would make any difference.

Coun. MUCHNICK—Mr. President, in answer to Councilor Bayley, I agree heartily that the boys are fighting across seas to keep America free. One of the things they are not fighting for, however, is a continuance of discrimination of this kind or of other kinds in this country, and it is for that reason I am taking the position I am against granting these licenses.

Coun. CHASE—Mr. President, frankly I feel, Boston being the original place of Garrison, Shaw and other men who led the fight for the emancipation of Negroes, colored men and myself having gone to the public schools and participated in sports and activities with the colored boys and having inculcated in me the spirit of sportsmanship and understanding its meaning, we should continue to carry on in that spirit and, therefore, I am inclined to be in full accord with the gentlemen from Roxbury and Dorchester. True sportsmanship allows no room for discrimination, and certainly there is discrimination in the professional field of baseball. Discrimination does not exist in general in our athletic games, or in our schools and colleges in this state. The college man, white and colored, enjoys an opportunity for full and fair competition between the various races, and I see no reason why we should have discrimination in professional baseball. I think it is un-American to have discrimination not only in baseball but in any other field in which our boys may seek to participate and compete. There are millions of colored people in the United States, and they are being inducted into the armed services the same as other Americans. The colored man is being called upon to sacrifice as are others in the United States, and he is fighting for the freedom that we are supposed to give to the peoples of this country through our democratic form of government. Inasmuch as such free and open competition is the result of our democratic system, I feel that we, as representatives of the people of Boston, should welcome the opportunity to take the floor and protest against the granting of these licenses. The professional baseball manager, of course, has the constitutional right to do business with any man he sees fit, and there is no way by which we can force him to take the colored men. But, Mr. President, we also have as much right in the exercise of our voting privilege on this floor. We are perfectly within our rights in deciding, so far as we are concerned, representing the public of Boston, whether these professional baseball managers should receive such a license as they seek from the City Council. I think it is only proper that we should at this time protest against the denying of the colored man of the right to participate in a sport which the American people love so much. The colored man was good enough to be called upon to represent the United States in the Olympic games, and it was a colored man, Owens, who won first place against world competition in those games. I submit to you, sir, therefore, that if the colored man was good enough to represent the citizens of these United States against the world in such competitions, he is good enough to be represented in the American sport of baseball. I believe the gentleman from Dorchester (Coun. Muchnick) is to be commended for initiating this move to prevent the people of any particular race from being discriminated against in this country, a discrimination that is un-American and contrary to the spirit of our institutions. I hope, Mr. President, that we in our official capacity will see fit, in behalf of the colored man, to take action which will help towards his obtaining his proper place in the world, that we will do something to help him in that line. Let us try to do something for the colored men whom we represent as representatives of the citizens of this city.

Coun. COFFEY—Mr. President, I rise to a point of order. The gentleman is not talking to the order. We are not discussing discrimination. We are considering whether we are or are not going to grant a petition for Sunday baseball.

Coun. CHASE—Mr. President, my remarks are leading up to the reasons why I shall vote against the granting of these licenses. I believe I have

the right to explain why I shall vote against granting the licenses and that I have a right to reason with my colleagues in urging them to vote against the licenses. I sincerely hope that the City Council will see fit, as a protest against the un-American policies practiced by the baseball magnates of America, in preventing the colored man from obtaining employment in professional baseball, to vote against granting these licenses.

Coun. HANNON—Mr. President, just to clarify my vote, and I think to clarify the position of the majority members here, as has been said, the question before us is the approval or non-approval of Sunday licenses for these ball teams. It is not a question of practicing discrimination, and nothing has been presented here which shows that discrimination exists. Of course, it is fine to raise the flag and holler about discrimination, but these fellows who are hollering are no better Americans than the rest of us. Nobody here is in favor of discrimination, but the question here is whether we will or will not grant a license for playing baseball on Sundays. It is not a question of colored people playing ball, but of granting these licenses, and I don't know why the gentlemen from Wards 12, 14 and 4 should indulge in this talk about discrimination. If they are really against discrimination, the way they should show their feeling in that matter is to bring in an order here against such a type of discrimination. But the question before the Body is simply whether we shall or shall not grant licenses for Sunday baseball. If they wish to introduce an order against the discrimination that they claim, such an order as I suggest will be all right. But I do not believe in drawing red herrings across the trail by bringing in these arguments against discrimination, and trying to get people to believe that those who vote for licenses for Sunday baseball are voting for discrimination. That is not the question that is presented to us; it is nothing like that. The question before us is whether or not we want to permit the playing of baseball on Sunday, and not the question of discrimination, and I believe that those speakers who have expressed themselves as against discrimination here today should file a separate order. I don't think discrimination has any place in the question now before us. If an order is presented here by these members against all kinds of racial discrimination, I certainly will vote for it. I am against that sort of thing, also. But I wonder if the gentleman from Ward 4 (Coun. Chase), the gentleman from Ward 12 (Coun. Taylor) or the gentleman from Ward 14 (Coun. Muchnick) had occasion to employ a stenographer or somebody in his business, and two people came down looking for the job, one white and the other colored, which one of the two they would hire?

Coun. MUCHNICK—Mr. President, the councilor from Ward 13 (Coun. Hannon) has just stated that if an order were introduced in the Council stating that the Council was against discrimination, he would vote for the order and against discrimination. I have no doubt of that. But when we have a chance such as is offered here to implement a report of this kind in such a way that it will operate against discrimination, through voting against the issuance of such a Sunday license, why should we not avail ourselves of that opportunity, which is thus presented in a practical way? The issue here is not simply against the granting or the issuance of the proposed licenses, but it is a question of whether, in voting to grant the licenses, we shall also take the opportunity to stand by certain principles.

Coun. HANNON—Mr. President, I would like to have the clerk read the question, so that the gentleman from Ward 14 (Coun. Muchnick) may know what it is.

Coun. M. H. SULLIVAN in the chair.

Chairman SULLIVAN—The question is on granting licenses for Sunday baseball.

Coun. MUCHNICK—Mr. President, it seems to me, that being the question, the reasons for one's vote for or against the granting of such licenses is very much in issue; and I would like to repeat that my reason for voting against the granting of the licenses, as is pointed out by the councilor from Ward 4 (Coun. Chase) is that it is my feeling that there is discrimination against colored persons as ball players.

Coun. CAREY—Once again, Mr. President, we have a matter come before the City Council, and once again we have certain individuals in the Council that want to get off the track, looking for a fight, so to speak, and creating bad feelings, and when they leave the chamber everything is "hunky-dory," and they shake hands. Now, I have some colored people in my district. I am going to vote for the granting of this license and, in voting for the granting of this license, I don't want it interpreted—and I don't believe the good colored people in my ward are going to interpret it—that in doing that I am voting against them. The question here today is clearly not racial discrimination. It has been my privilege on numerous occasions to help colored people. In the last five or six weeks, I can produce on the floor of the Council a colored man who will tell on the floor of the Body that I went through fighting in a glorious way in order that his rights might be preserved. But we have to have irritating and agitating influences prevailing here at all times. We can't do everything. We see a movement that would close two baseball parks in the City of Boston. Boston has already lost altogether too

much industry and too many means of providing revenue for the city. You would think, to hear councilors talk, that the Boston Red Sox and the Boston Braves are using the grounds out there and that there is no income derived to the city from that use. They are a large part of the existence of this city, and their baseball plants out there furnish a great deal of revenue to the City of Boston. Of course, Sunday is a great day for them. Let anyone go to the ball parks on most any week day and they will find practically empty grandstands out there. They need a Sunday or a holiday in order to replenish their treasury out there. I think it is a shame that any man in this Council should raise an issue in connection with the granting of these licenses that it is most unfair to raise. I am for the colored people. They were created by the same Creator I was created by, and who am I that I should make any attempt to discriminate against them? It is no more their fault that they are colored than it is mine that I am white. We can go to baseball parks on Sunday and see a large number of colored people out there. This issue has been most unfairly raised here today. As was well suggested, a suggestion I was going to make myself, by the councilor from Ward 13, why not introduce an order here asking that the owners of the big league baseball teams here in Boston consider the admission of colored ball players? I am sure every one of us would vote for it. I have watched colored teams play in this city and have enjoyed watching them. But when an issue such as one of racial discrimination is raised in connection with this question here, I think it is most unfair. I am going to vote for the granting of this license, and the only reason I have taken the floor is that I want it known as a matter of record I am doing that so that my vote won't be interpreted as one against the colored man.

Coun. D. F. SULLIVAN—Mr. President, I represent the ward that has the largest colored population of any ward in Boston, and if we had before us a question of discrimination against the colored people in baseball or anything else, I would be the first to take the floor and object. Many of them are my friends, and I know that if I should speak on anything that concerned their real interests at any time they would pay attention to me. So my feeling for the colored people is the feeling of a councilor who has the largest number of colored people of any member in the Council in his district, and who considers himself their friend. If I really felt that there was any discrimination against them involved in this matter before us I would be against it. We have heard here from the councilors from Wards 4, 12 and 14, who seem to feel that there is discrimination involved in this question on which we are to pass today. I don't believe the colored people are being discriminated against, and, in any event, that is not the question before the Body. If there is any question of discrimination on the part of certain members, let them put in an order to that effect. I think if the colored people of my district felt that there was discrimination against them, they would come to me about it, and they have not done so. Of course, the two gentlemen on my right who are so opposed to granting the licenses (Coun. Muchnick and Taylor) have a perfect right to state their feelings in this Body. They seem to feel that the colored people are being discriminated against in baseball; nothing has been brought to mind that indicates that in any way whatever, and if there is anything of that kind, it should be made the subject of action apart from what is proposed here today, which is simply a question of granting a license for Sunday baseball games. I believe, of course, that every member has a right to stand up when any matter is being discussed here and to state his views, and he has a perfect right in this matter to state whether he is for or against granting the license; but I do not believe that the matter of discrimination should be brought in at this time. It is simply a question of granting or not granting the licenses for Sunday baseball. Only awhile ago the gentleman from Ward 12 got up here and spoke on an order which, in his view, was aimed at discrimination in the School Committee. He did not exactly know what it was, but he wanted this Body to go on record against it. I voted against it, representing the district with the largest colored population, but we don't know what the whole story is. I say to the colored people that they are doing a good job. They are fighting their own battles and don't need anybody else to do it. The Irish here many years ago had their troubles. Notices were plastered about, "No Irish need apply." But the Irish did not bother greatly about that. They did not practice birth control, and they didn't start birth control, either. However, I feel that some of the members here have been getting away from the real question before us, which is on granting licenses for Sunday baseball, and nothing else. I move, therefore, that all the remarks that have been made upon this matter, including the letter that was introduced, be stricken from the record.

Chairman M. H. SULLIVAN—The question before the house is on striking the remarks from the record.

Coun. KINSELLA—I had rather hoped I wouldn't get into this today, and I don't want to be contentious, but there has been talk of discrimination. Several councilors have said, very correctly, that discrimination is not the subject

under discussion. I do not disagree with them when I say the rumor of discrimination is definitely under discussion. Councilor Muchnick went just a little far in his letter when he said, "at his disposal information." The word "disposal" is his own. I believe there is one way all the orders and resolutions come in here, and that is to go along with any man who embraces in a signed written statement certain charges. Presumably the original of the letter is signed. The burden of proof is on Councilor Muchnick if the local baseball functionaries want to put him to test in proving the discrimination which he says exists. I think I have a right, probably more so than any member of the Body, in asking that we go along and give him exactly what he wants,—put the burden of proof squarely on him, as it was on me when I made certain quotations last September about the Navy Yard. I was prepared to prove my statements, but I wanted an expression of support from my colleagues. I never got the expression of support from my colleagues, so the burden of proof was removed from me. I think if he is so determined as to offer a letter, which he signs, and in which he states arbitrarily, willingly and wittingly that information of discrimination is at his disposal, why not give him what he wants—give him the opportunity to prove it? It does not commit us to prove that discrimination is being practiced in Boston, and, truly, I don't think it is, but I can bark back to something said within the hour in the executive chamber. You throw a capable ball player into the face of either one and show them the ability that you say he has got, and they won't hesitate to put him on the rolls, I don't think. Of course, I have not heard in a long time, and I don't want to flatter the Body or an individual member, but I have not heard more sensible expressions of opinions in a long time. It seems as though even the antis have something to recommend their side, and those in condemnation of the side that the antis take have been very intelligent and very lucid in offering their position, but I would like to have it within my exclusive power to require a man who makes statements on the floor or in writing over his own signature, which is considered to be far more deliberative than anything said orally,—I would like to have it in my power to grant him the opportunity to prove the charges he makes. We are not called upon to supply evidence. Councilor Muchnick will have to do that. I am going to vote for Sunday baseball, although I cannot tell you whether Babe Ruth is any longer playing ball or not. I know nothing about it, but I won't be a party to depriving the overwhelming majority of Boston people, and people from all over New England of enjoying on their day off, their day of leisure, the game that most appeals to them. But we ought to find some way to make councilors who are going to make statements, especially in writing, to make them prove the truth or falsity of their charges, and the only way we can do that is to support their plea. We don't become a party to the charges, Mr. President. We simply say, "You have brought these charges, councilor, and we recognize your integrity. Now you have to substantiate them when these people ask for a proof that you claim you have." I am going to vote for the passage of the order.

Coun. TAYLOR—Mr. President, I will try to sum up my reasons why these remarks should not be stricken from the record. In the first place, I resent the statement of the gentleman from Ward 10 (Coun. Carey), who takes the floor and says there are certain individuals or small groups who like to get up on the floor and bring up issues of this kind to start a fight. Well, we are an elected body of officials, and, thank God, we are not all of the same opinion. I don't know what might happen if we were all in love with the same woman! But we do not all have the same opinions and we all have to learn to respect the opinions of others with whom we have to live. When I get up on this floor for the purpose of coming to the defense of some minority race, you can believe that I am sincere. I know what it is to be a member of a minority race; I know how it feels to have my relations and friends discriminated against. Over three million Jews have already been exterminated in Europe, and many more will be. We are living here under the great American Constitution, and I hope that that Constitution which says that all men were created equal, will forever be kept alive in this great country of ours. It protects my wife, my children and my friends. We can all depend upon it, and while I have a drop of red blood in my veins I will get up and defend it, whatever the consequences, and whether or not some people may like my attitude. If they don't like it, they can retire me to private life. And so I am willing to take the chances, even if it may seem like fighting an uphill fight. I am not willing to lie down. We all know about the bitter experiences of the Jews across the water. Even Jews have been compelled to cry "Heil Hitler!" across the sea. But I am not going to sit quietly and silence even my little voice in this matter of racial discrimination. Would that my voice might be magnified, if it were possible, in this great country of ours. The Irish have been mentioned, when we talk of discrimination. Have they had to fight discrimination in this country? You bet your boots they have, and they fought it well, and I give them credit for it. I hope that they have now won their battle, but it was not done by sitting idly by, and I don't intend to sit idly by when I see discrimination against the colored

people: The colored people of this country cannot fight their own battles. They are a minority race, and they need help from others. They have got to have support from those who are not being discriminated against, those who are liberal minded, but who are not blind to conditions as they exist. You say that discrimination is not implied in this matter before us? Those are only words. Don't tell me that the colored people have not been discriminated against. Some of us recall the Scottsboro case. From that day down they have been discriminated against. You say there is no discrimination involved here? Well, you might be able to fool a school child, but you can't fool mature people in this matter. It is all well and good to talk the way you have, but I believe in concrete action. There was a great Irishman by the name of John Boyle O'Reilly, and his words were words of wisdom at all times. When there was a massacre of colored men at Carrollton, Mississippi, and there was an indignation meeting of the colored citizens of Boston assembled in the Phillips Street Baptist Church, O'Reilly vented his righteous indignation at the perpetrators of the atrocity and uttered these timely words of sympathy and encouragement to his colored hearers. It was, of course, many years ago, but the words spoken are just as fitting today as they were then.

Coun. HANNON—Mr. President, what has that meeting at the Phillips Street Baptist Church got to do with the question of Sunday baseball?

Coun. TAYLOR—Mr. President, I think it does have something to do with the matter before us.

Coun. COFFEY—Mr. President, I rise to a point of order. I think we are getting off the track. The question before us is on the acceptance of the report granting Sunday baseball licenses to the big leagues.

Chairman M. H. SULLIVAN—The question before us is on striking all remarks from the record.

Coun. TAYLOR—Mr. President, I don't want to strike the remarks from the record, and I am trying to assign my reasons why.

Coun. COFFEY—And I don't think the remarks should be stricken from the record, Mr. President, but I do believe that we are getting off the question before us.

Coun. TAYLOR—Mr. President, John Boyle O'Reilly said—

Coun. COFFEY—Mr. President, the gentleman is not talking on the subject matter.

Coun. TAYLOR—Well, Mr. President, the other speakers have been given an opportunity to speak. Does the councilor wish to deny me that opportunity?

Coun. COFFEY—Mr. President, I have never tried to shut off any speaker when he was speaking on a matter before the Body. But it is not a question here now whether we are in favor of the Negro race or not. We are getting off the subject, and I say, let us get back to it.

Coun. HURLEY—Mr. President, I think the gentleman from Ward 12, when he is quoting John Boyle O'Reilly, cannot be wrong!

Coun. COFFEY—Mr. President.

Coun. TAYLOR—Mr. President, I hope the councilor from Ward 1 (Coun. Coffey) will allow me to proceed.

Coun. COFFEY—Mr. President, will the gentleman yield while I make a brief statement of less than a minute?

Coun. TAYLOR—Yes.

Coun. COFFEY—Mr. President, it is not that I have tried to stop anybody from speaking here. Everybody will agree that I have fought like hell so that anybody could speak, at any time. Even though it means busting my head off I will fight. But this thing has been twisted and pushed around to the likings of those who wanted to do it. Now we are going to read in the papers and in the minutes—and it doesn't mean a damned thing—that we are voting for the Negro race or against the Negro race. That, Mr. President, is not the question at all. The question is simply on the acceptance of the report granting Sunday licenses to these ball clubs.

Coun. TAYLOR—Mr. President, I will make a statement here and now. I don't believe that the members who vote for these baseball licenses believe in discrimination against the Negro. But I just want to advance my reasons while I will not vote for these particular licenses, and I say that with all sincerity.

Chairman M. H. SULLIVAN—The gentleman is entitled under normal circumstances to express an opinion, but he will kindly confine himself to the subject matter, which is not the merits of the question, but the question of striking the remarks from the record.

Coun. TAYLOR—Mr. President, John Boyle O'Reilly said—

Coun. COFFEY—Mr. President, John Boyle O'Reilly? We are away out to hell in left field now. I don't want to shut the gentleman off. I think he should have a right to express himself on matters properly before the Body, the same as everybody else. But that is not the matter before the Body.

Coun. TAYLOR—Mr. President, certain statements have been made and certain inferences have been drawn about my conduct on this floor, and I think I ought to have an opportunity to defend myself and to quote a distinguished gentleman with whom I agree.

Coun. COFFEY—The gentleman can have John Boyle O'Reilly's speech incorporated in the record, if he wants to.

Coun. TAYLOR—Mr. President, I would like to read it.

Chairman M. H. SULLIVAN—The gentleman may proceed.

Coun. TAYLOR—(Reading):

"I know nothing and care nothing about your politics or party preferences; but I know that if I were a colored man I should use political parties, as I would a club or a hatchet, to smash the prejudice that dared to exclude my children from a public school, or myself from a public hall, theater, or hotel. The interest you have to protect and defend is not that of a party, but of your own manhood. Use party as they use you—for your own best interests.

"But the thing that most deeply afflicts the colored American is not going to be cured by politics. You have received from politics already about all it can give you. You may change the law by politics; but it is not the law that is going to insult and outrage and excommunicate every colored American for generations to come. You can't cure the conceit of the white people that they are better than you by politics, nor their ignorance, nor their prejudice, nor their bigotry, nor any of the insolencies which they cherish against their colored fellow-citizens.

"Politics is the snare and delusion of white men as well as black. Politics tickles the skin of the social order; but the disease lies deep in the internal organs."

Coun. BAYLEY—Mr. President, is the gentleman going to read the whole book?

Coun. TAYLOR—Mr. President, there is one page left. (Reading):

"Social equity is based on justice; politics change on the opinion of the time. The black man's skin will be a mark of social inferiority so long as white men are conceited, ignorant, unjust, and prejudiced. You cannot legislate these qualities out of the white—you must steel them out by teaching, illustration, and example.

"No man ever came into the world with so grand an opportunity as the American negro. He is like new metal dug out of the mine. He stands on the threshold of history, with everything to learn and less to unlearn than any civilized man in the world. In his heart still ring the free sounds of the desert. In his mind he carries the traditions of Africa. The songs with which he charms American ears, are refrains from the tropical deserts, from the inland seas and rivers of the dark continent.

"At worst, the colored American has only a century of degrading civilized tradition, habit, and inferiority to forget and unlearn. His nature has only been injured on the outside by these late circumstances. Inside he is a new man, fresh from nature,—a color-lover, an enthusiast, a believer by the heart, a philosopher, a cheerful, natural, good-natured man. He has all the qualities that fit him to be a good Christian citizen of any country; he does not worry his soul today with the fear of next week or next year. He has feelings and convictions, and he loves to show them. He sees no reason why he should hide them.

"The negro is the only graceful, musical, color-loving American. He is the only American who has written new songs and composed new music. He is the most spiritual of Americans, for he worships with his soul and not with his narrow mind. For him, religion is to be believed, accepted, like the very voice of God, and not invented, contrived, reasoned about, shaded, altered, and made fashionably lucrative and marketable, as it is made by too many white Americans. As Mr. Downing, who preceded me, has referred to the Catholic religion, I may be pardoned for saying that there is one religion that knows neither race, nor class, nor color; that offers God unstintedly the riches and glories of this world in architecture, in painting, in marble, and in music and in grand ceremony. There is no other way to worship God with the whole soul; though, there are many other ways of worshipping him with the intellect at so many dollars an hour, in an economical church, a hand-organ in the gallery, and a careful committee to keep down the expenses. The negro is a new man, a free man, a spiritual man, a hearty man; and he can be a great man if he will avoid modeling himself on the whites. No race or nation is great or illustrious except by one test—the breeding of great men. Not great merchants or traders, not rich men, bankers, insurance mongers, or directors of gas companies."

Take note, Mr. Bayley. "But great thinkers, great seers of the world through their own eyes, great tellers of the truth and beauties and colors and equities as they alone see them. Great poets—ah! great poets above all—and their brothers, great painters and musicians and fashioners of God's beautiful shapes in clay and marble and bronze.

"The negro will never take his stand beside or above the white man till he has given the world proof of the truth and beauty and heroism and power that are in his soul. And only by the organs of the soul are these delivered: by the self-respect and self-reflection, by philosophy, religion, poetry, art, sacrifices, and love. One poet will be worth a hundred bankers and brokers, worth ten presidents of the United States to the negro race. One great musician will speak to the world for the black man as no thousand editors or politicians can."

Mr. President, I feel proud to quote these words of John Boyle O'Reilly at this time as expressing

the feeling I have in regard to the actions of the leaders of organized baseball.

Coun. HANLEY—I am speaking on the motion of striking remarks from the record. I believe each and every one within this hallowed chamber is over twenty-one years of age, and we possess the intelligence that an omnipotent Creator endowed us with. When we rise we have full reflection of the will. No one—at least I have never noticed it—was ever refused the opportunity when he wants to speak. I believe that every word that a man utters in public life should be recorded in the minutes of the meeting. That is your public record and, therefore, you are held up to ridicule or castigation at any time by any man or any person who may oppose you for your position. As Councilor Coffey well said, and other councilors, we have gone far afield from the particular petitions of the American League and the National League. Racial and religious discrimination has been brought up, and by inference a certain minority race has been castigated, and I don't believe that we are helping ourselves or our Honorable Body by indulging in such verbal assaults. I have said on so many occasions that it is nauseating both to myself and to your ears, but no one, regardless, has any power over his race. That is determined by nature and the Author of nature. Your religion is that which you are born into and which you embrace through your free will or by conversion. Now, the black man is black because of atmospheric and climatic reasons. The Irish race question has been raised here today. As I said a year and a half ago, there are more Irishmen of the black race in the West Indies than the total population in north Ireland. That is not open to refutation; that is based on fact. It is because the Irish were despoiled of their heritage and transplanted in the West Indies in order to die a natural death and to exterminate the Irish race, but it was done by fools whose bodies are now six feet under the English soil. There are more Irishmen in South and Central America than there are in the small island which today is a shining symbol of neutrality against the onrush of Communism and Nazism. Councilor Feeney three weeks ago brought in a resolution asking that the neutrality of Ireland be upheld, and it was passed unanimously. The Jewish race—I have fought for them on the Council floor. I fought for them a year and a half ago when I was labeled the cause of disunity. I speak on principle, Mr. President. Principle never changes over the course of years. Today Palestine is closed to the Jewish people because of Great Britain's policy of divide and rule. Councilor Taylor and Councilor Muchnick are well equipped, verbally and intellectually, to amplify the voice of those whom they espouse. They need no feeble utterance of mine to ever amplify their voices. No man or no person should be persecuted or prosecuted because of his race and his religion. We are guaranteed under the Stars and Stripes that all men are created equal. That was a Christian principle excoagitated in the mind of an Irish bishop and stolen by the pen of Thomas Jefferson. This week, as I have said previously, is Holy Week. It is also notable for the Jews as the Passover. But on the first Good Friday, without entering into the realm of religion, there was a countless multitude, and a young man of thirty-three years of age struggling up the heights of New Calvary in order to be crucified because of his principles—his principles of brotherly love. And of that multitude there was no one, including his own apostles, that helped him carry His cross except a black man, Simon of Cyrena. Even though that man healed the blind and fed the hungry and helped the poor, the downtrodden, the oppressed, there was only one man who aided and assisted him—Simon of Cyrena, a black man. I shall always take my feet in public assembly, in public hall or on public platform, to protect minorities, and try to the best of my ability to show the first axiom of Christianity, brotherly love. But I don't believe, Mr. President, that discrimination should enter into the granting of this petition. We either accept it or reject it, upon our vote, and now, Mr. President, without asking for the shutting off of debate, I will move the previous question.

Coun. D. F. SULLIVAN—Mr. President—

Coun. HANLEY—If I am to impugn the debating quality of any of my colleagues, I withdraw that motion.

(Motion withdrawn.)

Coun. D. F. SULLIVAN—Mr. President, the reason I ask that these remarks be stricken from the record, answering my colleague from Ward 12 (Coun. Taylor) who read from the book relative to John Boyle O'Reilly fully two pages, I told you, gentlemen, about the colored people in a few sentences. Coming back to the remarks and the matter of having them stricken from the record, the topic we discussed here this afternoon has nothing at all to do with the licenses before us. Back some months ago there was another discussion similar to what we are discussing here with regard to discrimination, and it was passages of those remarks that were taken from the city record. And back here a month ago over the radio certain of those passages taken from our record, supposed to be quoted by one particular councilor, were broadcast all over this country. Those were not his entire remarks. They just took out the ones they wanted to take out and broadcast them all over the country. That same program was to be renewed tomorrow night at 11.30 o'clock, but since last week it has been can-

celed, and they are not having any program such as "World at War" or "Assignments, U. S. A." on the radio program tomorrow night at 11.30 o'clock. That was a program that condemned the Irish here in Boston, and it is such words as we put into the record here today that they take out and use any way they want to, because they don't go into it fully, the way they should. And, Mr. President, as I cited in my remarks when I first took the floor, I represent the largest colored population in this city. I have more colored people in my ward than all other wards combined. I cited also a case at the first of the year where the councilor from Ward 12 (Coun. Taylor) asked that this Body go on record favoring some resolution relative to discrimination that was before the School Committee. That order was defeated here, and only three voted for the resolution. But they went out into my district, and the two colored newspapers editorially condemned me. Is there any way at all you can rectify that with the colored people? That is all I am asking, to have these records here stricken from the record, because certain people will get these records and say that Dan Sullivan is against the colored people, when it is the other way round. Those two that are fostering or bringing this "red herring" in here are the ones that are doing more harm to the colored people than Dan Sullivan will ever do, and I am asking you sincerely and from my heart to strike out the remarks from the record.

Coun. KINSELLA—Consistently for over two years I have opposed striking from the record, and it was in my mind when I was talking last to refresh the memories of two councilors who were with me prior to last January, that I have never once supported a motion to strike from the record. I am in a peculiar position now, because in order to prove the merit of my stand, I must say certain things, and I intend to be moderate in my remarks. I advise Councilor Dan Sullivan very strongly to be guided by the experience I have had. I ask Councilor Dan Sullivan to withdraw his motion for one reason, unselfishly to myself, or eventually he will have to undergo the treatment I had to undergo prior. I was accused three times of having removed surreptitiously from the record certain statements. I give my word here I didn't know what the charge was based upon at the time. Then after this present Council came into being, the charge was made twice more, and it became such a sore spot with me I checked and investigated and found out that the remarks I am supposed to have removed surreptitiously from the record were made August 31, 1942. And lo and behold, on that day I was in conflict with Councilor Coffey in defense of an order that the gentleman had put in. As a result of a lot of acrimonious statements—and the record here is inviolable—on motion of Councilor Scannell it was voted "all debate concerning the foregoing be stricken from the record." And I was accused of surreptitiously removing remarks from the record. After two years I come across the truth of the good sense in my stand, never to oppose anything that has been said that should go into the record, for a variety of reasons, mainly to afford the man who makes the statement a chance to point to the black and white of his own utterances, or to the deletion caused on some one else's motion, not his own, and not by any tricky, underhanded practices—mind you, underhanded practices,—if the gentleman were right, with the connivance of the stenographers and the City Clerk,—if the gentleman were right. He did not malign me alone. I strongly advise you, Councilor Sullivan, to leave every word in that record today, or in three or four months, you will find yourself put to the necessity, after the gallery—and it is never the same gallery the second time—walks out from here with the misapprehension that you are a sneak, that you are a rogue and a practitioner of sharp practices. Don't say it if you are going to divert from it, and when you once take a stand maintain it against all opposition unless your conscience and the superior knowledge that comes to you later urges upon you the good judgment and the sportsmanship of changing your mind. I don't think a word said here today has been so bitterly personal or acrimonious that it ought to be stricken from the record by both of the very men who have enjoyed themselves in making the statements. You have said them; now abide by them. I hope the motion is lost.

Coun. COFFEY—Mr. President, I hope that Councilor Kinsella when the vote is taken will reconsider the remarks he made. For four and a half years I have gone along the same way he has and opposed and voted against striking from the record at any and all times, but Councilor Dan Sullivan is most sincere when he asks us here to strike from the record today. So I am going to vote the way Councilor Dan Sullivan wants me to vote, evidently, by the statement he made, and I don't think it is because of anything he said, because anything he has said so far will do him credit among the Negro and white races; but only because of the fact, as he has said, that on a previous occasion two papers in his district had condemned him, and evidently they must have condemned him on sincere statements made in the record, statements they could pick out, statements I have had used against me, and statements I don't give a damn about, because I think I can go into more homes in my ward than any other person in my ward, so I don't fear the stand I have taken here. But because of the section that Dan Sullivan comes from, because of certain statements made here, because certain people

have access to those statements and can pick as they so please certain things out and just use those certain things, I think in the case of Dan Sullivan, who has in his ward the biggest Negro population in the entire city, I think for courtesy the members here, for once, should go on record and have those statements stricken from the record, for his sake,—not that he has said anything but what will do him credit. In closing, I would like to ask one question about the minority races. I would like to ask this, and I ask it in all sincerity, "Who in hell in this country is a majority race?" I mean that. According to the last census there are supposed to be something like twenty-two million Negroes in the United States. That is four times the French population, the Italian population, or the Jewish population, and I don't consider them a minority. They have better than one sixth of the population of this country,—almost down to one fifth of the population—so I don't consider them a minority. As I have said before, this thing has gone too far afield. It was brought in here as to whether we were going to grant petitions for Sunday baseball or not, and, as Councilor Hannon has well brought out, if an order is to be introduced opposing discrimination against all races in this country, naturally we will all oppose discrimination. Don't have it misconstrued we are going on record as not favoring baseball because baseball is going to stop the Negroes from participating in that sport. I am going to ask you, and I have never asked you before not to go along with people,—but I am going to ask you to strike everything said here today from the record for Councilor Dan Sullivan's sake.

Coun. HANLEY—Mr. President, my reason for rising at the present time is that I had the distinct honor and pleasure of representing Councilor Daniel F. Sullivan at the opening of the U. S. O. on Ruggles street in Roxbury about three months ago. I say it was a distinct honor and pleasure for me to represent my colleague, Councilor Daniel F. Sullivan. It was the first U. S. O. that was ever opened up for the Negro race within the boundaries of our country, and the speech that I delivered was given to me by Councilor Daniel F. Sullivan. I delivered it upon the platform before approximately 800 persons of the Negro race, and the remarks that I made were commended by the distinguished members of that honorable race within the confines of his ward. And if the councilor at any time is the target for vituperative tongues that for political purposes try to single him out, I shall, to the best of my ability, defend him on that same platform in the center of the Negro population of Boston. His remarks were centered around the Great Emancipator, Abraham Lincoln, who broke asunder for all time the tentacles of human bondage which drag a man down because of the color of his skin. And to you, Councilor Daniel F. Sullivan, I am saying to you that my words were applauded by every member present at that gathering, and those words were your words. I was merely your recording voice, and I say from my association with you that no one can ever point a finger of scorn or castigation at your love for your fellow man, regardless of what his race is, or his religious convictions.

Coun. CAREY—I, too, am going to vote against striking any remarks from the record here today, and I want to say to Councilor Daniel Sullivan that the words he uttered the last time he was on the floor here, a few minutes ago, he can depend upon it may well stand in his stead as the days go by. His defense of his position is one that deserves commendation, and I am sure if the necessity ever arises where reference must be made to the meeting of the City Council today, he may well be proud of what he said on the floor a few minutes ago. In answer to the gentleman from Ward 12 (Coun. Taylor), I am very sorry he is so thin skinned. I did use the words, I believe, that there is a minority group here in this Council. In this particular instance I would like to change those particular words by saying that there are at times certain members of this Council who seem to insist on starting discussions here within this chamber that have no result but the creating of very bad feeling instead of a friendship that some day, if cemented properly, might prove very valuable to each and every member of this Body. I made no reference when I was on the floor before to the Irish race. That remark had been made by another councilor, but I want to say to the councilor from Ward 12 that I come from the Irish race, and not only today but for centuries past, the Irish race has definitely been persecuted; but they had to take it on the chin, and do their best to defend themselves. You are always going to have discrimination, as I have said on this floor on one or two previous occasions, whether it will be discrimination against the Jew, the Catholic or the colored man. Human nature never will change. But I would like to see the day come when the members of this Council, as might well have been done in this instance here, if they want to attempt to make a name for themselves with the colored people of Boston, might resort to the press or other means. Councilor Muchnick, for instance, could have written to the owners of the Boston Red Sox and the Boston Braves and asked them as true Americans if they wouldn't consent to relaxing the present restriction, or whatever you might call it, and permit the colored people, the good ball players—and there are no doubt many, I have seen them myself—to play with the Red Sox and the Braves this year. But, no, you have the same old story. Instead of certain members of this Council treating a matter

like that individually, and by themselves, what do they do? The only place they can get publicity and get it into the record, I guess, is here on the floor of the Council, so they throw discrimination to the winds. I know there are certain members here today who deeply resent bringing this matter on the floor of the Council. There was no necessity for it. Why didn't Councilor Muchnick, as I say, write to the Braves or the Red Sox, write to Commissioner Landis, or whoever he wanted to ask to have those restrictions relaxed. But no, the sounding board had to be used, and I wonder sometimes who cares how the Boston City Council is going to vote on this matter today. The colored people in my district know me, thank God; and the Jewish people in my district also know me, thank God. They know me because they have had dealings with me, and they know that when there is an opportunity for Councilor Carey to help either the colored man or the Jew he is right there to do it, and he goes through for them. But while certain members of this Council continue to be members of this Council, we are going to have nothing but repetition of what we have had here today. I will vote against striking from the record, but I want to repeat that my vote today for the granting of this license can never be interpreted as one against the colored men.

Coun. RUSSO—I suppose there are many times in our lives when we are called upon to make decisions and make them according to the dictates of our conscience and mind, and not try to be persuaded by any emotion that is not just. I am opposed to striking anything from the record because I believe, as I have stated many, many times on this floor, that before I take my feet to say anything, I ought to know what I am speaking about. I have in mind, Mr. President, the many colored people that live in my district. And, having in mind that, as I stated before and have repeated on this floor time and time again, we all ought to be contented with our race, color or creed, and in particular with our color, because that was not our wish. That was the wish of God, and He Himself had the power of creating us whatever we are. No one should be ashamed of his color and no one should be ashamed of his race. I know, Mr. President, in so far as the arguments advanced here in behalf of the colored people are concerned, that I firmly believe it was not the proper time and the proper occasion to bring it up. If we want to speak in so far as minorities are concerned, I believe that I perhaps am one of a minority group, but one who has always fought for anything that I have had, and for anything that my children will have. I will always fight for some one else who may be tomorrow deprived of those things. I was reading some time ago the history of Giuseppe Garibaldi, one of the greatest friends that Abraham Lincoln ever had. They were two men who wanted to free the slaves, and it was on the recommendation of Giuseppe Garibaldi that Abraham Lincoln thought of freeing the slaves. I know, Mr. President, that if there was any discrimination, or is any discrimination that can be proven—and I hate the word "discrimination"—I say there is favoritism, and favoritism has been used since the dawn of day. The question here before us is only whether we are going to allow Sunday baseball. So I say to Councilor Daniel Sullivan that he ought to be proud he has stated on this floor what he has said, but I believe that those words will be to his benefit instead of being detrimental to him. Therefore, I am opposed to striking out anything from the record.

Coun. KINSELLA—I would like to say for the benefit of Councilor Daniel Sullivan and those within hearing of my voice that Dan is not known as an orator, and that isn't meant as a left-handed compliment. But I want to tell Dan Sullivan today, and for no use in the future, either, that I never heard a more magnificent statement of principle than he advanced. His construction was faultless, and his idea was eminently sensible, and I really mean it as a friend when I say if he denies publication of this city record he is going to deny himself the possibility of those people out there whose interest he has at heart, and no mistake about it, the opportunity of knowing how magnanimously he spoke of them. I would like to be able to persuade him to let his remarks stay in the record, along with the remarks of the rest of us. It will be a long time, councilor, before you make such a magnificent speech again, and I still hope that the motion to strike out is defeated.

Coun. D. F. SULLIVAN—I bow to the better judgment of my colleagues, who have shown me the light of day, and I am going to withdraw my motion. In doing so, I wish to add, Mr. President, that the colored people in my ward know that at no time have I ever brought orders here relative to discrimination against colored people. When there has been any discrimination brought to my attention I have always gone to the source so as never to bring that question of discrimination into this Body. I have done, as far as I know a good job for the colored people. The votes of the past two elections in my district show it. Assuming they are only human, they are going to vote for one of their own when one of them is on the ballot. There is no colored person that can say I have refused to see them here in the Council or at my home. My friends in the colored district are many. The reason I was asking that these remarks be stricken from the record was because when I read the editorials in those two

newspapers condemning me I knew they were condemning me unjustly, leaving those people who had faith in me to think I had no faith in the colored people, and was definitely against the colored people, which was not true. I feel that the colored people have a tough road ahead of them. They have had it for years, but they are making a steady climb, and it is only going to be a question of time when the colored people or the colored boys are going to be seen on our big league baseball teams. The colored people didn't ask the two councilors from Wards 12 and 14 to take up their cudgels. They didn't ask me, either, and most of the leaders come from my district. The colored people are making a valiant fight in their own behalf. They are not asking any one of any other race or creed to help them out. When they find that there is a little assistance somebody can give them, they don't want any publicity, they want to go along and do it the right way. They don't want to be tied in with any other group, and they are forced to do it when they are appointed to these various committees. There is no discrimination against the colored people, as some people would lead you to believe. They have their troubles, the same as any other race have. They have their own leaders that are out fighting every day for them, but they are not looking for publicity to bring it to the forefront, because they know that the worst thing they can do in claiming discrimination is bringing it out into the newspapers, bringing it out into the forefront, because there is one word that every man despises and hates, and that is the word "discrimination." And when anyone comes to us and uses that word, saying that they have been discriminated against because of a race or religion, we immediately despise them for saying that word. And the same thing goes on in our city departments. One particular group of people have said when they didn't get their way that they are discriminated against, and it is fortunate that they have two men in public office here in the city that fit in on the second floor that put those department heads, as they call it, in their place. I have had department heads come to me—not come to me, but in the course of a discussion tell me, that certain people had come to them and looked for things, and they said, "I can't do it." The same as you or I or any employee in that department may go and ask for something, and they tell them honestly it can't be done, and immediately they raise the question of discrimination, and it is being worked to death. Mr. President, that is the reason why I don't like to see this brought in here, relative to this order, relative to the colored people. The colored people didn't ask me or anybody, and they have never asked me or anybody to take the floor of this Council and have this Body go on record that they are being discriminated against in any branch of our government or private industry. And I will say this for the colored people and their leaders, that they are doing a fine job, and if they are left alone they will continue to do that fine job and take their places in public life and private industry, and right along the line. They don't need the assistance of me or any other race, and they are doing a fine job. I withdraw my motion to have the remarks stricken from the record, and I want to thank my colleagues for showing me the light of day in asking me to withdraw my motion and in stating their reasons for not having these remarks withdrawn.

The question came on the granting of both licenses, and a rising vote was asked.

Coun. COFFEY—To save time, I ask for a roll call.

The permits were granted, yeas 18, nays 4:
Yeas—Coun. Bayley, Carey, Coffey, Dwyer, Feeney, Fish, Hanley, Hannon, Keenan, Kelly, Kinsella, McCormack, Russo, Shannon, D. F. Sullivan, M. H. Sullivan—18.

Nays—Coun. Chase, Kerrigan, Muchnick, Taylor—4.

Report on order (referred March 27) requesting restoration of Emergency Compensation Allotment to certain employees of Printing Department—recommending passage of accompanying new draft, viz.:

Ordered, That the Superintendent of Printing be requested, through his Honor the Mayor, to restore to the sixty-four Union members employed in his department the Emergency Compensation Allotment of \$200 per year which was taken from them on February 15, 1944, and that the payments be resumed from that date; and that the Police and Fire Commissioners be requested, through his Honor the Mayor, to restore the Emergency Compensation allotments to the uniformed forces of their departments.

The report was accepted and the question came on the passage of the order.

Coun. CAREY—Mr. President, on the original order, without going into any lengthy talk, I only want to say it is very difficult for me to understand why, in view of the fact that the employees in the Printing Plant were given pay increases that brought them up to the pay scales of union help, they were simultaneously denied the \$200 emergency compensation allotment that was allowed to every other city employee. And also, while the police and firemen were given \$200 permanent increase, they were simultaneously denied the \$200 emergency compensation allotment that had been previously allowed to them. On the word of Mr. Twomey, Superintendent of the Printing Plant, the highest pay earned by any employee of his plant is \$48.60 a week. There is no doubt in my mind that had employees of the Printing Plant

been receiving at the time the emergency compensation allotment became effective the same pay they had been receiving before bringing their pay up to the union scale, they would have been given the emergency allotment the same as the other city employees. Those employees earn a maximum of \$48.60 a week, and the policemen and firemen receive a maximum of \$2,300 a year, those receiving the maximum; and, of course, those who haven't received their maximum, whose scale of wages goes down to \$1,800, have been denied the \$200 emergency compensation allotment. It is difficult to understand why such action was taken. The policemen and firemen are underpaid, as we all know. According to the admission of the Printing Plant officials, their employees were not receiving the pay that was being given to union employees. Now, the policemen and the firemen and the employees of the Printing Plant are employees of the City of Boston, and they are being paid out of the city treasury funds each week, and I for one cannot understand why they were denied the emergency compensation allotment when they were given those pay increases. I sincerely hope that the order will pass.

The order was passed.

SURVEY OF LOWER EGLESTON SQUARE TERMINAL.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Boston Elevated officials to conduct a survey of the lower Egleston square terminal for the purpose of protecting the people from the swing of the Mattapan cars, and to provide properly marked-off areas for persons waiting for all street cars.

Passed under suspension of the rule.

IMPROVEMENT OF CERTAIN BASEBALL DIAMONDS.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Park Commissioner to improve the baseball diamonds on John W. Murphy and John J. Connolly Playgrounds.

Passed under suspension of the rule.

CLEANING OF CATCH-BASINS, WARD 11.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Public Works Commissioner to clean all catch-basins in Ward 11.

Passed under suspension of the rule.

PAINTING OF CROSSWALKS, WARD 11.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Public Works Commissioner to paint crosswalks at dangerous intersections, also in front of churches and schools in Ward 11.

Passed under suspension of the rule.

DUST NUISANCE, CORNWALL STREET PLAYGROUND.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Park Commissioner to make plans for the removal of the dust nuisance from Cornwall Street Playground.

Passed under suspension of the rule.

Adjourned, on motion of Coun. COFFEY, at 6.43 p. m., to meet on Monday, April 10, 1944, at 2 p. m.

\$50,000,000 WATER-SUPPLY PROJECT IN CALIFORNIA.

The city of San Jose has entered into contract with the Water Properties Company, Ltd., of San Francisco, to provide the city water from the head waters of the American river in the vicinity of Lake Tahoe. The agreement is for thirty years, during which time the municipality will acquire title to the local distribution system and receive a proportionate share of the production and transmission systems.

PROCEEDINGS OF SCHOOL COMMITTEE.

Mar. 21, 1944.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6.47 P. M., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Norton, Ward and White.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

APPROPRIATIONS—LAND AND BUILDINGS

The following communication was received:

CITY OF BOSTON—DEPARTMENT OF SCHOOL BUILDINGS

March 21, 1944.

Louise Kane, Secretary
Boston School Committee,
15 Beacon Street,
Boston, Massachusetts.

My dear Miss Kane:—

Under date of March 21, 1944, you forwarded to the Board of Commissioners of School Buildings, the appropriation order as follows:—

ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, the following appropriation is hereby made to meet the estimated cost of "construction and furnishing of new school buildings, both temporary and permanent, including the taking of land therefor, and for school yards and the preparing of school yards for use, and for rent of hired school accommodations" for the fiscal year 1944:—

LAND AND BUILDINGS FOR SCHOOLS
Item 1—Rent of Hired Accommodations \$17,040.69

The above sum of \$17,040.69 appropriated for land and buildings is obtained as follows:—

a. From the amount available under the \$.50 allowance None
b. From unexpended balance from 1943 \$17,040.69

At a meeting of the Board of Commissioners of School Buildings held this date, it was voted as provided in Chapter 351 of the Acts of 1929, to report favorably on the above appropriation order

Respectfully submitted,

(Signed) Andrew J. Dazzi,
Chairman, Board of Commissioners of School Buildings.
Placed on file.

The following statement was ordered spread upon the records:

ESTIMATED TOTAL MONEY AVAILABLE FOR LAND AND BUILDINGS 1944.

Amount available under the provisions of section 2 of Chapter 224 of the Acts of 1936, viz., \$.50 on each \$1,000 of the average valuation \$719,463.81
Unexpended balances, 1943:
a. Rent of Hired Accommodations 17,040.69

Total money available for appropriating purposes \$736,504.50

The following was offered:
ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, the following appropriation is hereby made to meet the estimated cost of "construction and furnishing of new school buildings, both temporary and permanent, including the taking of land therefor, and for school yards and the preparing of school yards for use, and for rent of hired school accommodations" for the fiscal year 1944:

LAND AND BUILDINGS FOR SCHOOLS
Item 1—Rent of Hired Accommodations \$17,040.69

The above sum of \$17,040.69 appropriated for land and buildings is obtained as follows:

a. From the amount available under the \$.50 allowance 0
b. From unexpended balance from 1943 \$17,040.69

The order passed by the following vote:

YEAS—Messrs. Foley, McDevitt, Norton, Ward, and White—5
NAYS—0.

APPROPRIATIONS—ALTERATIONS AND REPAIRS

The following communication was received:

CITY OF BOSTON—DEPARTMENT OF SCHOOL BUILDINGS

March 21, 1944

Louise Kane, Secretary
Boston School Committee,
15 Beacon Street,
Boston, Massachusetts.

My dear Miss Kane:—

Under date of March 21, 1944, you forwarded to the Board of Commissioners of School Buildings, the appropriation order as follows:—

ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, the following appropriations are hereby made to meet the estimated cost of "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards," for the fiscal year 1944, based on the accompanying detailed estimates:

A. Administration Expenses, Salaries \$173,765.00
A1. Emergency Compensation Allotment 12,000.00
B. Administration Expenses, Office Expenses and Other Items 18,000.00
C. Alterations, furniture and equipment for special educational needs 71,860.00
D. Tools, materials and trucking in connection with the W. P. A. program
E. General alterations and repairs 528,500.00
Grand Total for Alterations and Repair of School Buildings \$804,125.00

The above total of \$804,125.00 appropriated for "alteration and repair of school buildings," etc., is obtained as follows:—

a. From the amount available under the \$.85 allowance \$751,268.59
b. Unexpended balances of 1943:—
Administration Expenses, Salaries \$15,264.31
Emergency Compensation Allotment 1,188.73
Administration Expenses, Office Expenses and Other Items 4,841.62
Alterations, furniture and equipment for special educational needs 10,436.43

Tools, materials and trucking in connection with W. P. A. program 20,589.34
General Alterations and Repairs 535.98 52,856.41
Total \$804,125.00

The statutory allowance for alterations and repairs based on the \$.85 allowance would provide an appropriation of \$1,223,088.48. The amount to be raised by taxation, namely \$751,268.59, represents approximately 52 cents of the 85 cents statutory allowance.

At a meeting of the Board of Commissioners of School Buildings held this date, it was voted as provided in Chapter 351 of the Acts of 1929, to report favorably on the above appropriation order.

Respectfully submitted,

(signed) Andrew J. Dazzi,
Chairman, Board of Commissioners of School Buildings.

Placed on file.

The following statement was ordered spread upon the records:

ESTIMATED TOTAL MONEY AVAILABLE FOR ALTERATIONS AND REPAIRS 1944

Amount available under the provisions of section 2 of Chapter 224 of the Acts of 1936, viz., \$.85 on each \$1,000 of the average valuation \$1,223,088.48
Unexpended balances, 1943:

a. Administration Expenses, Salaries \$15,264.31
b. Emergency Compensation Allotment 1,188.73
c. Administration Expenses, Office Expenses and Other Items 4,841.62
d. Alterations, furniture and equipment for special educational needs 10,436.43
e. Tools, materials and trucking in connection with W. P. A. program 20,589.34
f. General alterations and repairs 535.98
52,856.41

Total money available for appropriating purposes \$1,275,944.89

The following was offered:

ORDERED, That in accordance with the provisions of Section 2 of Chapter 224 of the Acts of 1936, the following appropriations are hereby made to meet the estimated cost of "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards," for the fiscal year 1944, based on the accompanying detailed estimates:

A. Administration Expenses, Salaries \$173,765.00
A1. Emergency Compensation Allotment 12,000.00
B. Administration Expenses, Office Expenses and Other Items 18,000.00
C. Alterations, furniture and equipment for special educational needs 71,860.00
D. Tools, materials and trucking in connection with the W. P. A. program
E. General alterations and repairs 528,500.00
Grand Total for Alteration and Repair of School Buildings \$804,125.00

The above total of \$804,125.00 appropriated for "alteration and

repair of school buildings," etc., is obtained as follows:

a. From the amount available under the \$35 allowance	\$751,268.59
b. Unexpended balances of 1943:	
Administration Expenses, Salaries	\$15,264.31

APPROVAL OF STATE-AIDED WORK

A communication was received from M. Norcross Stratton, Director, Division of Vocational Education, under date of Mar. 3, 1944, reporting that the establishment of courses in Job Instruction Training for supervisory personnel in the retail selling department of the Boston Part-time and/or Evening Distributive Occupations Schools has been approved in accordance with plans set forth and submitted in memoranda on file in the office of the Division of Vocational Education in the Department of Education.

If the plans as submitted are carried out, the work of these courses will be given approval and the City of Boston recommended for: reimbursement from George-Deen Funds in the sum of 100 per cent of salaries of teachers for that part of the program which is recommended for approval through Dec. 31, 1943, thereafter in the sum of 50 per cent, in accordance with agreements made and on file; and reimbursement in accordance with provisions of Section 9, Chapter 74, and Section 6 of the Federal (George-Deen) Act, such reimbursement to date from Mar. 3, 1943.

Placed on file.

RESIGNATIONS

The following resignations, reported by the Superintendent, to take effect on the dates stated, were presented:

Roxbury Memorial High School (Girls)—Marguerite E. Loehr, assistant, Mar. 10, 1944.

Patrick F. Gavin Intermediate District—Mary B. Epstein, teacher, intermediate, Feb. 28, 1944.

Roger Wolcott District—Mary A. Fitzsimons, teacher, elementary, Mar. 14, 1944.

Department of Household Science and Arts—Frances A. Watson, teacher of sewing, elementary, Mar. 3, 1944.

Accepted.

APPOINTMENTS

The following appointments by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

(BY PROMOTION)

(To fill vacancy caused by resignation).

Hyde District—Violet I. Meredith, vice principal (from teacher, elementary, Rice District), Mar. 27, 1944.

The rules were suspended and the appointment approved.

LIST OF TEACHERS APPROVED FOR TEMPORARY SERVICE

The Superintendent submitted, under the provisions of section 265, paragraph 3 of the regulations, the following list of teachers approved by him from which assignments may be made for temporary service:

Day High Schools—Virginia Higgins Burke, Marion T. Costello, Phyllis M. Crowley, Louise Casey Doherty, Gertrude Goldman Eyges, Edna C. Haviland, Therese Gulmi Jacques, Ida Wilsker Meisner, William L. Mulcahy, Jr.

Day Intermediate Schools—Rosalie Dundon Buckley, Virginia Higgins Burke, Phyllis M. Crowley, Helen Whipple Dunkel, Gertrude Goldman Eyges, Francis J. Gilligan, Ruth McLaughlin McCaffrey, Marie Mann McMath, William L. Mulcahy, Jr., Sylvia Mullaney Pernokas, Beryl Yancey

Robinson, Alice Moulton Sharpe, M. Eileen Bowers Vollmar, Marion Davis Wechsler, Helen F. Woods.

Day Elementary Schools—Agnes Fitzsimmons Buckley, Miriam Levins Cohen, Marion T. Costello, Phyllis M. Crowley, Anna Lynch Delaney, Mary McElaney, Virginia H. Moody, Helen A. Mullett, Edith Purciello, Beryl Yancey Robinson, Lucile Choate Smith, Beatrice Segall Snyder, Bertha McGinty Sugrue, Lucy A. Tagariello, K. Mildred Trask, Marion Davis Wechsler.

Special Classes—Lucy A. Tagariello.

Speech Improvement Classes — Eleanor Look Bonzey, Elaine C. Smith.

Classes for Conservation of Eyesight — Martha Volk Mealwitz, Constance Elaine Murphy, Florence Russell Walsh.

Department of Household Science and Arts — Rosalie Dundon Buckley, Virginia Higgins Burke, teachers of cookery, Virginia Higgins Burke, Therese Gulmi Jacques, teachers of sewing.

Department of Physical Education—Virginia Higgins Burke, Joan Beauregard Steinberger.

Approved.

STUDENT ASSISTANT (New appointment)

Mechanic Arts High School—Harry J. Norton, mechanical department, Mar. 2, 1944.

Approved.

TOOLKEEPER (New appointment)

Brandeis Vocational High School—John A. Vitiello, toolkeeper, Mar. 3 1944.

Approved.

EVENING SCHOOLS Term 1943-44

Dorchester Evening Commercial High School—Marion F. Alebord, assistant, Mar. 9, 1944 (one evening).

Brighton Evening School—George F. Aherne, assistant, Mar. 9, 1944.

Franklin Evening School—Charles A. Packard, assistant, Mar. 2, 1944.

Grover Cleveland Evening School—Margaret M. Hosman, assistant, Mar. 9, 1944 (one evening).

Joseph H. Barnes Evening School—John J. Connelly, assistant, Mar. 14, 1944.

Patrick T. Campbell Evening School—John P. Sweeney, assistant, Mar. 13, 1944 (one evening); Florence I. Walsh, assistant, Mar. 14 and 16, 1944 (two evenings).

Roslindale Evening School—Harold A. Curtis, assistant, Mar. 2, 1944.

William Blackstone Evening School—Mary G. Farley, assistant, Mar. 2 and 6, 1944 (two evenings); John P. Sweeney, assistant, Mar. 2 to 7, 1944 (three evenings); Florence I. Walsh, assistant, Mar. 7, 1944 (one evening).

Approved.

Boston Trade High School (Evening Classes)—Frederick Schyn-del, toolkeeper, Mar. 2, 1944.

Approved.

Evening Opportunity School—Leonard O. Levy, toolkeeper, Mar. 2, 1944.

Approved.

DEPARTMENT OF EXTENDED USE OF THE PUBLIC SCHOOLS

Assignments

Leaders—Barbara A. Caliri, Jan. 28, 1944; Jared W. Davis, Feb. 18, 1944; Margaret E. Foster, Feb. 18, 1944; Ruth E. Lane, Feb. 18, 1944; John W. Long, Mar. 1, 1944; William J. Pepicelli, Mar. 8, 1944; Ruth A. Randall, Feb. 23, 1944; George A. Reardon, Feb. 18, 1944; Louise J. Soter, Jan. 21, 1944; Helen M. Spellman, Mar. 3, 1944.

Assistant Leaders—Thomas J. Feeney, Mar. 6, 1944; Louise J. Soter, Mar. 6, 1944.

General Helpers—Thomas J. Feeney, March 6, 1944; John W. Long, Feb. 29, 1944; Frank S. VanWart, Feb. 9, 1944.

Helper—Nicholas J. Mulcahy, Mar. 2, 1944.

Approved.

TEACHER OF PHYSICALLY HANDI- CAPPED CHILDREN

A communication was received from the Superintendent, under date of Mar. 21, 1944, reporting that subject to the approval of the School Committee, he has assigned the following-named temporary teacher for home instruction to physically handicapped children, to take effect Mar. 13, 1944:

Catherine M. MacDonald.

Approved.

LEAVES OF ABSENCE

On the report of the Superintendent, leaves of absence for military service, without pay, were granted each of the following-named persons, to take effect on the dates stated, and to continue for the duration of the war, unless earlier terminated by the Superintendent with the approval of the School Committee:

Washington Allston District—Freda F. Weinberger, teacher, elementary, Mar. 13, 1944.

Department of School Hygiene—Maurice L. Silverstein, M. D., school physician, Mar. 1, 1944.

A communication was received from the Superintendent, under date of Mar. 21, 1944, recommending that Elizabeth H. Gilligan, teacher, intermediate, Thomas A. Edison Intermediate District, be granted leave of absence, without

pay, for service in the National Catholic Community Service of the U.S.O., to take effect Mar. 2, 1944, and to continue for the school year ending Aug. 31, 1944, unless earlier terminated by the Superintendent with the approval of the School Committee.

Placed on file and leave of absence without pay granted for the period specified.

DESIGNATION

A communication was received from the Superintendent, under date of Mar. 21, 1944, reporting that he has made the following designation of a teacher to serve in the position indicated until such time as it shall be filled otherwise in accordance with the rules and regulations but not beyond Aug. 31, 1944:

Michelangelo Intermediate District—William M. Rogers, cooperative instructor, as acting submaster (vice William F. Barry, absent on leave), Feb. 28, 1944.

Placed on file.

WARTIME CHILD CARE CEN- TERS

A communication was received from the Superintendent, under date of Mar. 21, 1944, reporting that subject to the approval of the School Committee, he has appointed as provisional appointee the following-named person for service in the Wartime Child Care Centers, to take effect on the date stated:

Assistant teacher—June L. Wentzell, Mar. 15, 1944.

Approved.

CLOSING EXERCISES, EVE- NING SCHOOLS

On motion, the order passed on Mar. 7, 1944 (see p. 38), advancing the date of the closing exercises of the evening schools, was rescinded.

The Superintendent offered the following:

ORDERED, That the graduating exercises of the evening commercial high schools, the evening elementary schools, and the Evening Opportunity School, shall be held on Tuesday evening, Apr. 11, 1944.

The rules were suspended and the order passed.

EMERGENCY EMPLOYMENT IN AFTERNOON KINDER- GARTENS

On motion of the Superintendent, it was

ORDERED, That the emergency employment of the following-named kindergarten teachers is hereby authorized in the kindergartens indicated for the periods specified, and that they be allowed and paid for this emergency service additional compensation at the rate of two dollars (\$2) per session:

Nora Levine, kindergarten teacher, George Bancroft School,

PROCEEDINGS OF SCHOOL COMMITTEE.

(Continued from page 338.)

Rice District, in the afternoon session in the Philip H. Sheridan School, Emerson District, Mar. 7 to 10, 1944, inclusive.

Mary Pendergast, kindergarten teacher, Hobart Street School, James A. Garfield District, in the afternoon session in the Winchell School, Wendell Phillips District, Mar. 9, 1944.

EMERGENCY EMPLOYMENT IN A SPECIAL CLASS

On motion of the Superintendent, it was

ORDERED, That the emergency employment of the following-named kindergarten teacher is hereby authorized in the special class indicated for the period specified, and that she be allowed and paid for this emergency service additional compensation at the rate of two dollars (\$2) per session:

Marjorie T. Kelley, kindergarten teacher, Eliot School, Eliot-Hancock District, in the afternoon session, special class, in that district, Jan. 26 to Feb. 11, 1944, inclusive.

ATTENDANCE AT CONVENTIONS

On motion of the Superintendent, it was

ORDERED, That Frederick J. Gillis, Assistant Superintendent, is hereby authorized to attend the National Convention of the American Association for Health, Physical Education and Recreation, to be held in New York City, Apr. 24 to 27, 1944, inclusive, at an expense to the city not to exceed seventy dollars (\$70).

On motion of the Superintendent, it was

ORDERED, That Joseph McKenney, Associate Director, Physical Education, is hereby authorized to attend the National Convention of the American Association for Health, Physical Education and Recreation, to be held in New York City, Apr. 24 to 27, 1944, inclusive, at an expense to the city not to exceed seventy dollars (\$70).

REINSTATEMENT OF JAMES J. MAHAR

A communication was received from the Superintendent, under date of Mar. 21, 1944, reporting that subject to the approval of

the School Committee, he has reinstated James J. Mahar as Engineer in the office of the Superintendent of Public Schools for the period of one day, Mar. 8, 1944.

The reinstatement is made in order to protect the Civil Service status of Mr. Mahar, who has been granted leave of absence by the School Committee, without pay, beginning Mar. 5, 1938, and continuing during the period that, and as long as, he holds the office of the Superintendent of Construction in the Department of School Buildings.

Placed on file and the reinstatement of Mr. Mahar approved for the date stated.

APPROPRIATIONS AND EXPENDITURES TO MAR. 1, 1944

A communication was received from the Business Manager, under date of Mar. 21, 1944, submitting, pending the adoption of the maintenance budget, a statement showing the expenditures for maintenance of the public schools for the first two drafts of the current fiscal year, the expenditures for the first two drafts of the fiscal year 1943, and the increases and decreases in the several items.

Placed on file.

STATEMENT OF BUILDING OPERATIONS IN THE CITY OF BOSTON.

The following is a statement showing the number of new buildings for purposes of habitation, together with the number of family accommodations provided thereby, for the erection of which applications were filed with the Building Department of the City of Boston during the

MONTH ENDING MARCH 31, 1944.

No new housing construction during March, 1944.

LEAVES OF ABSENCE TO
CUSTODIANS

A communication was received from the Acting Schoolhouse Custodian, under date of March 21, 1944, recommending that the following-named custodians be granted leaves of absence on one-half compensation for the periods specified because of personal illness:

John J. Carleton, senior custodian, Prince School-house, March 26 to April 30, 1944.

James E. Quinn, junior custodian, Mary E. Curley School-house, April 1 to 30, 1944.

James L. Shaughnessey, senior custodian, Henry Grew School-house, March 29 to April 30, 1944.

George A. Whittemore, junior custodian, Dorchester High School for Boys, March 29 to April 30, 1944.

John J. Della, senior custodian, Henry Vane School-house, April 1 to 30, 1944.

Placed on file and leaves of absence on one-half compensation granted for the periods specified.

TRANSFERS OF CUSTODIANS

A communication was received from the Acting Schoolhouse Custodian, under date of Mar. 21, 1944, recommending that the following-named senior custodians, who stand at the head of their respective lists, be transferred to positions indicated, to take effect Mar. 26, 1944:

William P. O'Brien, from the Longfellow to the custodianship of the Bigelow School-house.

Francis J. Wachenheim, from the Ellis Mendell to the custodianship of the Hyde School-house.

Placed on file and the transfers approved, to take effect on the date stated.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

VOTE FOR PRESIDENT IN MASSACHUSETTS, NOVEMBER 3, 1936.

Vote in the State for President: 942,716 for Roosevelt (Dem.); 768,613 for Landon (Rep.); 118,639 for Lemke (Union); 5,111 for Thomas (Soc.); 2,930 for Browder (Comm.); 1,305 for Aiken (Soc. MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

(STATE.)

STATE EXAMINERS OF ELECTRICIANS, 1944.

Examinations will be held at the following points and on the following dates:

BOSTON, Wednesday, May 3.
 WORCESTER, Thursday, May 4.
 BOSTON, Wednesday, June 7.
 BOSTON, Wednesday, September 6.
 WORCESTER, Thursday, September 7.
 SPRINGFIELD, Wednesday, October 4.
 PITTSFIELD, Thursday, October 5.
 BOSTON, Wednesday, November 1.
 LOWELL, Thursday, November 2.
 BOSTON, Wednesday, December 6.
 NEW BEDFORD, Thursday, December 7.
 NEW BEDFORD, Friday, December 8.

Rules for Examinations.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined either for a Master or Journeyman Certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examinations will be held and only those so notified will be examined on that day.

STEPHEN C. GARRITY,
 JULIUS E. WARREN,
 ULYSSES J. LUPIN,
 BERTRAM L. WHITEMORE,
 SAMUEL J. DONNELLY,
State Examiners of Electricians.

For application blanks or other information apply to State Examiners of Electricians, Room 406, 15 Ashburton place, Boston, Mass.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

HEAD HOUSEKEEPER, MAY 6, 1944.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

CITY OF BOSTON.

PARK DEPARTMENT.

PROPOSALS FOR REPAIRS TO PIER AND MEN'S BATH HOUSE, NORTH END PARK, BOSTON.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for repairs to pier and men's bath house, North End Park, Boston, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Repairs to Pier and Men's Bath House, North End Park, Boston, Mass.," and left before 2 o'clock on Thursday, April 27, 1944, at the office of the Park Department with a certified check for \$800, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 162 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

WILLIAM P. LONG, *Chairman*,
 THEODORE C. HAFFENREFFER,
 FRANK R. KELLEY,
 (April 15-22.) *Commissioners.*

MONEY IN CIRCULATION.

Money in circulation in the United States reached a new national high of \$19,250,000,000 in October, 1943. This new peak for money in circulation represents an increase of \$410,000,000 over September, 1943, the previous high.

—Office of War Information.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING AND RELAYING WATER PIPES IN GREYMER ROAD AND LAND OF BOSTON CENACLE SOCIETY, BRIGHTON.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying and relaying water pipes in Greymer road and land of Boston Cenacle Society, Brighton. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying and Relaying Water Pipes in Greymer Road, Etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Monday, April 24, 1944, with a certified check for one hundred (100) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 162 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.

(April 15.)

BOND SALES.

Labor, farm, school and women's groups were responsible for 1943's greatest sale of E Bonds.

Using the person to person approach, Payroll Savings added two million workers—bringing its ranks to 26.4 million. Payroll Savings allotments jumped from 355 million in December, 1942, to 445 million in October, 1943. Thousands of labor-management War Bond committees were organized.

Farm committees worked intensively through personal solicitation and farmers organizations to convert a large share of the largest farm income in history into War Bonds.

In the schools, the nation's youngest group of Bond buyers is rapidly enlisting every pupil in America.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CONSTRUCTION OF ARTIFICIAL STONE SIDEWALKS IN AVERTON STREET, WARD 20, WASHINGTON STREET TO WALTHAM STREET; HYDE PARK AVENUE, WARD 18, FROM NO. 1434 TO RESERVATION ROAD; HYDE PARK AVENUE, WARD 18, FROM NO. 936 TO NO. 942; KITTREDGE STREET, WARD 18; BEACH STREET TO CORNELL STREET; REDLANDS ROAD, WARD 20, CENTRE STREET TO ALAMEDA STREET; ROSLINDALE AVENUE, WARD 20, ALBANO STREET TO DURNELL AVENUE; SELDEN STREET, WARD 17, MILTON AVENUE TO CAFEN STREET; SEMONT ROAD, WARD 16; DORCHESTER AVENUE TO ST. MARKS ROAD; WELD STREET, WARD 20; BONAD ROAD TO RUSSETT ROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction of artificial stone sidewalks in Averton street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Construction of Artificial Stone Sidewalks in Averton Street, Etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, April 27, 1944, with a certified check for five hundred and fifty (\$550) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.
(April 15.)

ALMOST 3,000,000 IN NAVAL SERVICES.

By the end of 1943 it was estimated that the following totals of personnel were on active duty in the U. S. Navy, U. S. Marine Corps and the U. S. Coast Guard:

	U.S.Navy	U.S.M.C.	U.S.C.G.	Total
Officers	201,000	29,700	10,500	241,200
Enlisted	2,093,000	370,000	161,000	2,624,000
Total	2,294,000	399,700	171,500	2,865,200

CITY RECORD

OFFICIAL CHRONICLE OF BOSTON MUNICIPAL AFFAIRS.

VOL. 36.

SATURDAY, APRIL 22, 1944.

NO. 17

BOSTON OBSERVES 169TH ANNIVERSARY OF PATRIOTS' DAY WITH PARADE AND MILITARY SPECTACLES SHARED IN BY MAYOR TOBIN AS HONORARY CHAIRMAN—FLAGS RAISED AT CITY HALL—PARADE TO NORTH SQUARE FOR START OF REVERE'S RIDE AND MARCH TO COMMON FOR DRILLS AND OTHER FEATURES BY ARMED FORCES MAKE DAY MOST MEMORABLE—CITIES OF MIDDLESEX COUNTY SHARE IN EXERCISES.

Boston joined with cities of Middlesex County, on Wednesday, April 19, to make the observation of Patriots' Day in 1944 one of the most notable and significant ever held in the history of such observances. This was the 169th such observation and was featured by the presence of several branches of the Armed services sharing, as well as patriotic organizations.

In Boston the day began with a flag-raising at City Hall and a parade to Paul Revere Mall on Hanover street. Marchers included Mayor Tobin and his staff, WACS, Marines, WAVES, Coast Guardsmen, MWDC, the Red Cross and the United American Veterans.

The addresses took the scene back 169 years.

Frederick J. Masucci, American Legion Post 53 commander, introduced Mayor Tobin, who entrusted to Paul Revere a message for officials of each town he was to visit.

At City square, Charlestown, John J. Rea, past commander, Charlestown V. F. W. Post, greeted the celebrants. Francis Doherty, Mayor of Boystown, spoke, as did Councilor Michael L. Kinsella and State Senator Robert Lee.

At Eliot square, Roxbury, where Dawes began his ride, more than 5,000 persons witnessed the unveiling of a service flag, testimony to the fact that 570 local men now serve in the nation's armed forces.

Lieut. Lawrence Lewis, Massachusetts State Guard, was grand marshal of the Roxbury parade, in which Boy and Girl Scouts and American Legion and Mission Bands participated. George Vaccaro, president of the Roxbury Patriots' Day Association, presided at the speaking program held from the balcony of the Norfolk Young Men's Association Building, during which Mayor Tobin spoke.

The program was as follows:

9.45 A. M.— City Hall Flag Raising Ceremonies, School street (Assembly, at 9.30).

Musical selections by Port of Boston Band, U. S. Coast Guard.

Raising of National Flag by the Mayor and Flag of City of Boston by Committee Chairman.

10.00 A. M.— Parade immediately following flag raising.

10.30 A. M.— Start of "Ride of Paul Revere"—re-enacted for the 28th year. Rider in Colonial dress, on horseback, with cavalry escort, taking message from the Mayor of Boston to Mayors and Selectmen of cities and towns on route to Lexington and Concord.

Start at Paul Revere Mall and Statue, Hanover street, North End.

10.30 A. M.— Start of "Ride of William Dawes, Jr."—re-enacted for the 24th year—in the same manner as the Revere ride—from John Eliot square, Roxbury.

10.35 A. M.— Parade resumes march immediately after departure of rider and escort.

10.45 A. M.— Memorial Exercises at King's Chapel Burying Ground, Tremont street, as parade arrives and halts briefly.—Honors to William Dawes, Jr., by Ancient and Honorable Artillery Company.—Placing of official city wreath on tomb.—Taps by trumpeter.

10.55 A. M.— Memorial Exercises at Granary Burying Ground, Tremont street, as parade arrives and halts briefly.—Honors to Colonial patriots, Samuel Adams, John Hancock and Paul Revere, by Lexington Minute Men, Inc.—Placing of official city wreath.—Taps by trumpeter.

11.05 A. M.— Revolutionary Soldiers' Memorial at Central Burying Ground, Boston Common, at Park square corner.—Placing of city wreath.—Taps by trumpeter.—Placing of flags of 1775 by Sons of the American Revolution.

1.45 to 5.30 P. M.— Military Demonstration—Boston Common.

Band Concert by U. S. Army Band.—Display of equipment.—Battle action illustrated by State Guard and Army Units.—Patriotic exercises.—Salute to the Flag.

(Continued on page 347.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

From Boston Centennial Poem by

NATHAN HASKELL DOLE.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, April 24, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

Concord (from Lexington) — Mr. Fahey — Mr. Iannelli.

Afternoon Military Demonstration — Captain Adams — Mr. Brennan — Mr. Mero.

Publicity Program — Special Features — Mr. Mero — with Director, President and Chairman.

PAN-AMERICAN UNION PROCLAMATION.

Whereas, The 14th day of April marks the anniversary of the founding of the Pan-American Union, that great institution which has endured and prospered throughout fifty-four years as a constant expression of the spirit of peace and good-will among sister Republics of the Western Hemisphere; and

Whereas, The Governments of all the twenty-one American Republics have set apart this date to be observed as Pan-American Day; and

Whereas, It is most important that the spirit of good understanding, friendly intercourse, commerce and peace among the two Americas be strengthened and perfected; now, therefore,

I, MAURICE J. TOBIN, Mayor of the City of Boston, do hereby proclaim Friday, April 14th, to be observed as Pan-American Day in this municipality, and I call upon our schools, civic associations, women's clubs, study groups and citizens generally to observe the day with appropriate ceremonies, making manifest the amity which the people of this community feel toward the people of the other Republics of the Western Hemisphere.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon April 7 the Mayor approved a contract with Albert D. Howlett Company for painting the interior, exterior and fire escapes of the Prince School, the lowest bidder, in the sum of \$4,839. The following bids were opened on March 15:

Albert D. Howlett Company, \$4,839; C. Dale Garbutt, \$5,830; J. D. Ahern, \$5,710; J. S. Leonard, \$5,122; Bay State Painting Company, \$4,870; Bond Brothers, \$5,630; M. L. McDonald, \$5,440.

EXTENSION OF CONTRACT.

PUBLIC WORKS DEPARTMENT.

W. H. Ellis & Son Company have been granted an extension of the time of completion of the contract for repairs to the draw tender pier at the Chelsea Bridge North, over the Mystic river, from April 15, 1944, to June 15, 1944. This extension is requested for the reason that the contractor was delayed in receiving materials on account of war priorities.

TRAFFIC COMMISSION RULING.

Voted, That as urgently required by considerations of public safety and convenience, during the period and on the days of baseball games at Fenway Park the following temporary rules are effective from April 15, 1944, to September 10, 1944, inclusive:

Parking of vehicles is prohibited in the following street:

Jersey Street.

Both sides, from Boylston street to Brookline avenue.

The following street is one way in the direction indicated, from 1 p. m. to 6 p. m.

Jersey Street.

From Boylston street to Brookline avenue.

FIRE DEPARTMENT ORDERS.

General Order No. 25.

I. WILLIAM F. FARLEY.

It is with deep regret that the Fire Commissioner announces the death, on April 8, 1944, of Hoseman William F. Farley of Engine Company 31. Hoseman Farley was appointed to the department February 25, 1918.

The funeral was held from his late home, 32 Monument street, Charlestown, at 8.15 a. m., Wednesday, April 12, 1944, followed by services at St. Catherine's Church, Charlestown, at 9 a. m.

The chief of department made the customary detail to act as funeral escort and the members of Engine Company 31 were excused from duty in order to attend the funeral services.

II. ASSIGNMENTS OF PROVISIONAL MILITARY SUBSTITUTES.

The following assignments of provisional military substitutes for firemen, which became effective at 8 a. m., Wednesday, April 5, 1944, are hereby announced: Thomas Sheehan to Engine Company 13.

Leo J. Walker to Engine Company 28.

III. CANCELLATION OF ASSIGNMENT.

The following assignment of a provisional military substitute for fireman, which was announced in General Orders No. 22, c. s., is hereby canceled, effective as of 8 a. m., April 5, 1944:

William A. Connell to Ladder Company 27.

IV. RETIREMENTS.

The following retirements which will take effect at 8 a. m., Monday, May 1, 1944, are hereby announced:

Hoseman David J. Keller, Engine Company 10.

Ladderman John J. Scanlan, Ladder Company 1.

Hoseman Keller was appointed to the department February 1, 1924, and Ladderman Scanlan was appointed to the department March 9, 1923. Both these men leave the department with the best wishes of their associates.

V. RESIGNATIONS.

The following resignation which became effective at 8 a. m., Wednesday, April 5, 1944, is hereby announced:

Hoseman Charles A. Newell, Engine Company 1.

Hoseman Newell was originally appointed to the department July 15, 1942, and he resigned on January 16, 1943. He was re-instated January 26, 1944, and has resigned in order to enter the armed forces of the United States.

The following resignation which will take effect at 8 a. m., Saturday, April 15, 1944, is hereby announced:

Provisional Military Substitute John J. Madden, Engine Company 10.

Provisional Military Substitute Madden was appointed to the department November 17, 1943, and leaves the department in order to enter the military service of the United States.

VI. A. D. T. ASSIGNMENT.

The following signal number is to be added to the running cards of the American District Telegraph Company in this Department:

Signal 569, Davidson Rubber Company, 50 Brighton street. Sprinkler System.) Apparatus to respond: Engine Company 32, Ladder Company 9, District Chief 2. Nearest box is 4178.

VII. HOUSE JOURNALS.

Company commanders shall forward to Headquarters, on or before April 18, 1944, requests for the annual supply of house journals, required from June 1, 1944.

VIII. COMMENDATION.

Military Substitute Robert J. Gettens of Engine Company 25 is hereby commended for responding to and working at fire, Box 7421, two alarms, on April 4, 1944, while off duty.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 108.

The resignation of Provisional Temporary Patrolman Frank E. Tracy of Division 18, having been presented, it is hereby accepted to take effect on Saturday, April 15, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 109.

The resignation of Provisional Temporary Patrolman John W. Jefferson of Division 10, having been presented, it is hereby accepted to take effect on Wednesday, April 19, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 110.

The resignation of Provisional Temporary Patrolman John W. Anderson of Division 10, having been presented, it is hereby accepted to take effect on Thursday, April 20, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

LAND-TAKING IN WEST ROXBURY.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for public improvement, consisting of the laying out of Hopkins road, West Roxbury district, as a highway, without construction, from Pond street to boundary line between West Roxbury and Brookline, bounded and described as follows:

A highway named Hopkins road is hereby laid out, from Pond street to boundary line between West Roxbury and Brookline (without construction).

Said highway and the land, exclusive of trees or structures standing upon or affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwesterly by Mt. Walley avenue, forty and 38-100 feet; northerly by the line of Hopkins road as hereby estab-

AUTHORITY TO DO WORK.

PUBLIC WORKS DEPARTMENT.

The Progressive Iron Works, Inc., has been allowed to make repairs to the end truss members of Charlestown Bridge, damaged March 1, 1944, by oil truck owned by Mary B. Fraser, 419 Broadway, Somerville, Mass., without inviting proposals therefor by advertisement, the cost for labor and material being \$1,411.05.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of the Marathon Run on Wednesday, April 19, 1944, between the hours of 1 p. m. and 4 p. m., vehicles are excluded from the following streets:

Beacon Street.
South roadway, from St. Mary's street to Park Drive.

Beacon Street.
From Park Drive to Commonwealth avenue.

Commonwealth Avenue.
South roadway, from Beacon street to Exeter street.

Exeter Street.
From Commonwealth avenue to Huntington avenue.

Parking of vehicles is prohibited between the hours of 9 a. m. and 4 p. m. in the following streets:

Beacon Street.
South roadway, both sides, from St. Mary's street to Park Drive.

Commonwealth Avenue.
South roadway, both sides, from Beacon street to Exeter street.

Exeter Street.
Both sides, from Commonwealth avenue to Huntington avenue.

These rules shall not apply to official vehicles of the Boston Athletic Association.

Voted, That as urgently required by considerations of public safety and convenience, during the period and on the days of Baseball games, parking of vehicles is prohibited in the following street, from April 21 to October 1, 1944, inclusive:

Gaffney Street.
East side, from Commonwealth avenue to Boston and Albany Railroad.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

To vacate the building at 12 Hudson street, Ward 3, as the said building is in an unsafe and dangerous condition.

To vacate the building at 27 Garden street, Ward 5, as the building is not provided with exits satisfactory to the Building Commissioner.

Due to the structurally unsafe condition of the building at 884 Adams street, rear, Ward 16, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 42 Lovering street, Ward 3, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 46 Lovering street, Ward 3, to enter the premises and remove the building.

To vacate the third floor of the building at 168 Humboldt avenue, Ward 12, as the said portion of the building is not provided with exits satisfactory to the Building Commissioner.

To vacate the building at 8 Hudson street, Ward 3, as the said building is in an unsafe and dangerous condition.

Due to the structurally unsafe condition of the building at 21 Chadwick street, Ward 8 to enter the premises and remove the building.

Based on the approval by John E. Kerrigan, Acting Mayor, request for permission to raze the building at 46 Lovering street, Ward 3, by an agreement with the New England Building Wrecking Company, 31 State street, Boston.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

DIETITIAN, BOSTON CITY HOSPITAL, MAY 27, 1944.

Last date for filing applications, Monday, May 8, 1944, at 4.30 p. m.

Salary: \$1,500 a year.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

MONEY IN CIRCULATION.

Money in circulation in the United States reached a new national high of \$19,250,000,000 in October, 1943. This new peak for money in circulation represents an increase of \$410,000,000 over September, 1943, the previous high.

—Office of War Information.

FOOD INSPECTIONS.

Seventeen inspectors were employed in this division of the Boston Health Department in 1942 for the purpose of insuring the food supply of the city. During 1942 the various activities of the Division were as follows:

Inspections in market area, 75,916; inspections of markets, 17,729; inspections in districts outside of market area, 22,769; reinspections, 1,450; inspections of food terminals, 184; inspections of peddlers' vehicles, 13,579; inspections of food stands, 6,987; inspections for victualers' licenses, 932; inspections of bakeries, 1,834; inspections of ice cream plants and stores, 4,193; inspections, special, 798; inspections of retail milk establishments, 4,791; complaints adjusted, 280; nuisances abated, 390.

MILK PLANT INSPECTION SERVICES IN BOSTON FOR THE YEAR 1942.

Total number of services, 170,516; dairies inspected, 126; inspections of country creameries, 1,054; bacteriological examinations at country creameries, 8,931; milk cans inspected, 108,371; milk cans condemned, 6,443; milk temperature tests, 47,804; inspections of licensed dealers, 2,563; inspections of establishments for pasteurization of milk, 1,414; inspections of ice cream plants, 98; investigation of high counts, 149; laboratory inspections, 6; abatement notices served on licensed dealers, 719; dairies excluded because of poor quality milk, 945; dairies readmitted after compliance with requirements, 822.

SLAUGHTERING OF ANIMALS IN BOSTON.

In Boston all slaughtering of animals and dressing of meat must be conducted at the Brighton Abattoir. This establishment, known officially as the Butchers' Slaughtering and Melting Association, was founded in 1870 by an act of the General Court in order to prevent the existence of numerous slaughterhouses within the city limits. Private individuals, if living within six miles of Faneuil Hall, were required to bring their animals to Brighton for slaughter. This step was taken since the very nature of the business frequently gives rise to public health problems, chief of which are noxious odors and rodent control.

In 1876 an inspector of the Board of Health was first stationed at the Abattoir to supervise slaughtering operations and to prevent the use of diseased or under age animals for food purposes. At that time the Abattoir was the main source of meat supply for the entire city, since transportation facilities did not yet permit the shipment of dressed meat for any distance. During 1876 approximately 74,000 cattle, 274,000 sheep and 8,000 calves were slaughtered. In 1942 the Brighton Abattoir handled a total of 149,948 animals.

Animals Slaughtered.

Cattle, 43,158; calves, 75,675; swine, 27,505; sheep, 3,012; goats, 598.

Total Weight of Condemned Animals and Parts.

Whole animals, 21,676 pounds; parts of animals, 20,211 pounds; putrid meat, 615 pounds. Total, 42,502 pounds.

SEEKS COMMUNITY AID IN ARMY CAMP CITIES.

The army welcomes the aid of civic organizations in helping to protect soldiers from intemperance and vice when they are away from their duty stations.

The War Department is endeavoring in various ways to protect its personnel from temptations while at military posts and camps. Healthful and wholesome entertainment is furnished. Commissioned officers are charged with the responsibility for the men in their commission. Understanding leaders offer them advice and counsel, and medical officers guard their physical well-being. —*American City Magazine.*

MODEL FOR BLACKOUT ORDINANCES.

The National Institute of Municipal Law Officers has prepared a blackout ordinance, approved by the Office of Civilian Defense; it delegates reasonable administrative powers to the proper executive officer and contemplates both actual air raid conditions and those of practice blackouts. Several state leagues of municipalities have also prepared model ordinances.

The first city to enact a blackout ordinance was Seattle, Washington, early last year. Many others have done so more recently, the ordinances ranging in character from the type that delegates all authority to the mayor or city manager to those providing no delegation of power but outlining completely the rules for civilian conduct during blackouts. In some cases, at least, the city is declared not liable for damage to persons or property resulting from an authorized blackout. —*Municipal Review.*

STATE AID AND LOCAL REVENUE.

Study of the Division of State and Local Government from the Bureau of the Census shows that in 1941 state aid took 29.5 per cent of the revenues of the forty-eight states and amounted to 24.3 per cent of the total revenues of local governments.

The relative importance of state aid to local government varied widely from state to state, however, ranging from a low in Oregon, where only 5.9 per cent of state revenues were turned over to the localities and accounted for only 6.1 per cent of all local revenues, to a high in Colorado, where state aid took 44.5 per cent of all state revenues and accounted for 36.6 per cent of all local revenues. In Delaware state aid accounted for the highest percentage of local revenues—48.8 per cent, but it represented only 33 per cent of the state's revenues. In all, the study shows, state aid to local governments amounted to \$1,697,814,000.

ODD ITEMS FOR WAR PRODUCTION.

Many an unusual item has crept into the shopping lists of automobile purchasing agents as a result of war production needs.

Toothpicks, dish mops, pure mutton tallow, dry ice, canvas foot covers, police whistles and razor blades are just a few of such implements being used by one company in its production of aircraft engines and combat vehicles. Toothpicks are used by the first-aid departments for medical dressings.

1943 GREAT LAKES COAL AND GRAIN TRAFFIC.

For the 1943 season of navigation, through December 4, coal forwarded to Great Lakes docks from American ports on Lake Erie totaled 45,518,603 tons, according to a report by Solid Fuel Administrator Ickes. This was 1,858,604 tons less than in 1942, the report said. Lake navigation began a month later than it did in 1942 and strikes in the coal producing areas in May and June and in October and November temporarily reduced the flow of coal toward the Lake Erie ports. Coal received at American docks on Lake Superior, according to the report, totaled 11,111,625 tons in the 1943 season of navigation, 15 per cent above the 9,823,000 tons received there in 1942. The 1943 total, it said, exceeded the season's quota by more than 300,000 tons.

War Food Administration officials expressed the opinion that final figures would show a total of 190,000,000 bushels of grain moved via the Great Lakes to northeast ports for domestic consumption in 1943. This was greatly in excess of the 135,000,000 bushels set as the year's quota. The War Shipping Administration said that the larger quota had been set in view of added facilities to be available in 1944. These included thirteen vessels returned to the Great Lakes from ocean service by the W. S. A. and the completion by November 30, 1943, of sixteen new ore carriers for the Maritime Commission, all of which would be available for Great Lakes transportation in 1944.

MASSACHUSETTS BAY COLONY.

The first chartered colony in New England, charter granted by Charles I on March 4, 1629. About a year before, a patent had been granted to six prominent men of Dorchester, west of England, among whom was Capt. John Endicott. He sailed in June, 1628, with a party of fifty or sixty persons, arriving in September and settling at Naumkeag, afterward named Salem. In the spring of 1629, the Bay Company fitted out three ships conveying about four hundred persons and arriving at Salem in June. Endicott sent a small party to effect a settlement on the Bay in Mishawum, afterward named by the settlers Charlestown, the first town in New England to assume the town policy, Plymouth and Salem being governed by a governor and council. Endicott was appointed in London as the first resident governor on April 30, 1629. The Massachusetts Bay Company was reorganized in London on October 20, 1629, when John Winthrop was chosen as governor. He arrived at Salem on June 12, 1630, soon proceeded to Charlestown with a large following and finding that place unsuitable, finally settled in Boston. Winthrop served thirteen years as governor in four different periods ending in 1649 and Endicott fifteen years at various times ending in 1665. Other governors were Thomas Dudley, Richard Bellingham, John Haynes, Henry Vane, John Leverett and Simon Bradstreet, the latter serving twelve years until 1692 when the Bay Colony and the Plymouth Colony were merged, becoming the Royal Province of Massachusetts Bay, which existed eighty-two years to 1774, the governors being appointed by the King.

The name, Massachusetts, is Indian and signifies "near the big hills."

MERCHANT SHIP PRODUCTION.

Merchant vessels built in the United States in 1943 numbered 1,896 with a total deadweight tonnage of 19,239,626, according to a report by Admiral Land, chairman of the Maritime Commission and administrator of the War Shipping Administration. Of these, 208, aggregating 2,044,238 deadweight tons, were completed in December. Of the 1943 production, 1,238 vessels were Liberty ships; 70 C-1 cargo ships, 53 C-2 cargo ships; 39 C-3 cargo ships; 5 C-4 cargo ships; 167 tankers; 28 coastal tankers; 57 Liberty tankers; 3 passenger-cargo vessels; 33 coastal cargo ships, including two concrete barges; 16 ore carriers; 27 concrete barges; 46 seagoing tugs; 114 military types, not transports; 53 special types and a considerable number of smaller types, including tugs, barges, etc. Late in 1943, Admiral Land said 2,900 ships were under control of the War Shipping Administration, operated by some 76 general agents of the W. S. A.

PORT STORAGE IMPORT ORDER.

The Office of Defense Transportation, in an amendment to its general order No. 16, has instituted a permit system for acceptance by railroads or truckers of shipments of domestic or import freight to specified port areas for storage for the account of a government agency in a public warehouse in such area. Growing volume of imports, due to decline in ship losses, the O. D. T. said, was putting added strain on port storage facilities, thus making the institution of a permit system necessary.

The application for the port storage forwarding permit the order says, must be made by the government agency for whose account the freight is to be stored, in accordance with procedures prescribed by the director of the division of storage of the O. D. T., in an administrative order.

The following port areas were named in the order: Baltimore, Bellingham, Wash., Boston, Camden, Everett, Wash., Galveston, Houston, Jacksonville, Los Angeles, Mobile, New Orleans, Newport News, New York, Norfolk, Oakland, Cal., Olympia, Wash., Pensacola, Philadelphia, Portland Ore., Portsmouth, Va., Richmond, Cal., San Francisco, Savannah, Seattle, Tacoma, Tampa, Vancouver.

SEA-GOING DRY DOCKS.

Bigger than a battleship! That's the rough proportion of some of the new Navy floating dry docks which can be towed or self-propelled at speeds sufficient to follow our fleet into action. Indeed, the dry docks are large enough to handle even a mighty battleship when it needs repairs or overhauling.

Never before have floating dry docks been built so large, taken so far. Never before have docks of this character been so mobile. The Navy has spent upward of \$300,000,000 on their floating dry dock program and it has been a shrewd investment. Now, instead of damaged warships traveling the thousands of miles from the theaters of action to an American coastal dry dock for repairs, it can be placed in a floating dry dock on the spot in a matter of hours, thus saving precious time.

TRANSPORTATION STATISTICS.

A recent analysis of surface transportation by John A. Beeler, transit engineer and consultant, reveals noteworthy performance by trolley coaches in comparison to other public transportation vehicles. Comparison of results of operation of trolley coaches with those of street cars on four different lines in as many different cities, shows, according to Beeler, that trolley coaches are eight times as good.

The analysis shows that in 1942, 25,449 street cars carried 5,171,000,000 revenue passengers; 3,363 trolley coaches carried 765,000,000; and 42,458 motor coaches carried 5,427,000,000 revenue passengers; the average fare being 6.66 cents, 6.89 cents and 6.72 cents, respectively; and the revenues being \$344,600,000, \$52,700,000 and \$365,000,000, respectively. Average revenue passengers per street car was 203,191; per trolley coach 227,475; and per motor coach 127,820.

AIRCRAFT MATERIAL PRODUCTION 41 PER CENT OF TOTAL AUTOMOTIVE WAR JOB.

Behind current attempts to knock Germany out of the war by means of airpower, stands the teamwork of the automotive industry, which has done much to get bombers in the air over Hitler's domain.

The motor industry, starting as a scrub team in the aircraft field a year before Pearl Harbor has since attained major league stature.

In the two years since December 7, 1941, the industry's output of bombers and fighters has constantly soared. Measured in dollar volume, it rose from \$400,000,000 annual rate of production on the day of the Japs' assault to \$4,300,000,000 on the second anniversary of that "day of infamy."

The same upward spiral took place in deliveries of all forms of war materials by automotive plants. When Pearl Harbor news struck, they had reached an annual production rate of \$1,777,000,000 for all forms of military requirements: aircraft, military vehicles, tanks, guns, ammunition, marine engines and other equipment. Today the annual production rate tops the \$10,000,000,000 mark.

PROCEEDINGS OF CITY COUNCIL.

Monday, April 10, 1944.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. Hurley, Muchnick, Russo, Seannell.

The meeting was opened with the salute to the flag.

Coun. D. F. SULLIVAN in the chair.

ANNUAL LIST OF MINOR OFFICERS.

Subject to confirmation by the City Council, the Mayor submitted the annual list of weighers of coal, goods, and other minor officers paid by fees, for the term of one year beginning with the first day of May, 1944, as contained in City Document 44.

Laid over for one week under the law.

IMPROVEMENTS AT ROBERTS PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, April 10, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the chairman of the Boston Park Department, relative to your order of March 13, 1944, concerning certain improvements at the Roberts Playground in Ward 17.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Park Department, March 27, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—This is to acknowledge your memorandum of March 15, with inclosure, order from the City Council, that the Park Commission be requested to immediately arrange for the following improvements at the Roberts Playground in Ward 17:

Repair tennis courts, install additional drinking fountains, re-sod and grade the entire playground. I am forwarding you copy of a letter I sent to Councilor Keenan, in answer to his inquiry regarding the proposed improvements at the Roberts Playground.

Very truly yours,
WILLIAM P. LONG, Chairman.

City of Boston,
Park Department, March 22, 1944.

William J. Keenan,
City Councilor.

Dear Councilor,—I have your letter of March 16, regarding your interest in the Roberts Playground on Dunbar avenue and Washington street.

I know of your deep interest and the four playgrounds we have selected to be sodded this year will use up all the appropriation we have. It would require an appropriation of at least \$10,000 to do what is necessary on the Roberts Playground, and I regret to inform you we haven't that money at the present time.

I know of his Honor the Mayor's interest in Dorchester and I will be pleased to take this matter up with him at the earliest opportunity.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

ERECTION OF FENCE AT NORTH FERRY.

The following was received:

City of Boston,
Office of the Mayor, April 10, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Department regarding your order of January 24, 1944, concerning the erection of a fence at the North Ferry.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department, March 28, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council: "Ordered, That his Honor the Mayor contact the officials of the Navy Department in an effort to obtain a fence at the North Ferry."

Apparently the area referred to is the property located north of and adjacent to the property of the North Ferry, because the property formerly used in connection with the operation of the North Ferry has been turned over to the United States Navy, and it is entirely inclosed with a 6-foot high chain link fence.

The adjacent property, however, is privately owned and does constitute a hazard to the safety of the children of the district because it is not fenced in, and the abandoned piers and wharves

are easily available to the children as play areas. The use of them by the children, however, should be discouraged, because of the existing hazards to the children's safety. In view of this, the area should be fenced in with at least a 6-foot high fence, built on the back of the sidewalk line.

The responsibility, however, for erecting this fence, rests with the owners of the private property, and it is my understanding that an opinion has been requested from the Law Department as to the steps that should be taken to force the owner of the property to erect a fence in the interests of the safety of the children of the area.

In the event that it is found impossible to force the owner to erect a fence, this department will gladly take steps to provide for the erection of a fence on the curb line, or parallel with the curb line, at the middle point of the sidewalk. The erection of the fence by department forces in either of the latter two referenced locations would be necessary because we cannot erect such a fence on private property, and the erection of it on the public sidewalk area would be just as effective as erecting it on private property adjacent to the public sidewalk.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

SUFFICIENT FOOD, DORCHESTER SCHOOLS.

The following was received:

City of Boston,
Office of the Mayor, April 10, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the Boston School Committee, relative to your order of February 7, 1944, concerning the provision of sufficient food for the Junior High and High Schools in Dorchester.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
School Committee, March 27, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—At a conference of the School Committee held on last Tuesday evening, the committee received the order passed by the City Council, February 7, 1944, requesting the Committee, through your Honor, to see to it that sufficient food is provided for the Junior High and High Schools in Dorchester to meet the needs of the children attending same.

The School Committee would respectfully report that in its opinion the school cafeterias serve good, wholesome, well-prepared and attractive food at low cost. The impact of rationing and food shortages has resulted in a streamlined menu with fewer choices and more meat alternates but the responsibility of keeping within ration allowances, and at the same time furnishing adequate and sufficient food to the children, is a challenge which has been met in the school cafeterias with success. The Director of School Lunches reports that there has not been a shortage of food at any time. The committee would point out that pupils still have the privilege of bringing their own luncheons to school.

Respectfully yours,
LOUISE KANE, Secretary.

Placed on file.

PURCHASE OF LUNCHEONS OUTSIDE SCHOOLS.

The following was received:

City of Boston,
Office of the Mayor, April 10, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the Boston School Committee, relative to your order of February 7, 1944, concerning the advisability of instructing the Masters of Junior High and High Schools to permit students who are unable to obtain lunch at school to leave the building for such reasonable time as may be necessary to purchase their lunch outside of school.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
School Committee, March 27, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—At a conference of the School Committee held on last Tuesday evening, the committee received the order passed by the City Council, February 7, 1944, requesting the committee, through your Honor, to consider the advisability of instructing the Masters of Junior High and High Schools to permit students who are unable to obtain lunch at school to leave the building for such reasonable time as may be necessary to purchase their lunch outside of school.

The School Committee would respectfully report that all school principals are cognizant of

the fact that it is within their power to allow children to go out during the luncheon period if, due to an emergency, or conditions beyond their control, there is not sufficient food available in the school cafeterias for school children.

Respectfully yours,
LOUISE KANE, Secretary.

Coun. KELLY—I ask unanimous consent to make a statement.

Chairman D. F. SULLIVAN—Is there any objection? The Chair hears none.

Coun. KELLY—Mr. President, some time in the first part of February—February 7, to be exact,—I introduced an order which was passed under suspension of the rules by this Honorable Body, requesting the School Committee, through his Honor the Mayor, to see to it that sufficient food is provided for the Junior High and the High Schools in Dorchester to meet the needs of the children attending the same. By the answer I got, either the councilor from Ward 15 doesn't know what is going on in Dorchester or somebody in the School Committee is very lax in his duties. In defense of the councilor from Ward 15, I might say to the School Committee that I happen to know what is going on in Ward 15 and other wards in Dorchester, because I am there seven days a week. I got this answer, Mr. President, "The School Committee would respectfully report that in its opinion the school cafeterias serve good, wholesome, well-prepared and attractive food at low cost." And then the Director of School Lunches reports that there hasn't been any shortage of food at any time. Well, Mr. President, if these people from the School Committee would only go out into these Intermediate Schools and High Schools in Dorchester and go in on the second lunch period and see what the girls and boys have to eat in the second lunch period, and if they did that for about six days, then they would be in some hospital through starvation, because the boys and girls in Dorchester who go to school and are unfortunate enough to be given their lunch periods in the second part have very little to eat. Now, as far as the second letter received from the School Committee is concerned, the committee would point out that the pupils have the privilege of bringing their own lunches to school. What a sensible answer to give anybody. The taxpayers of the City of Boston contribute some \$10,000 a year to the Women's Educational Association to see that these pupils are properly fed in the City of Boston. We all know that the children can bring their own lunch. We all know that. We could start out from our homes every morning coming in to City Hall, and we could bring our lunch. It isn't what the children can do, Mr. President. It is what the boys and girls today, who are the men and women of tomorrow,—it is what they need. Then they go along and say: "The school principals have the power of allowing the children to go out during their lunch period." There isn't a child in any school in Dorchester, in the Intermediate, the Junior High School or High School, that is allowed to leave during the lunch period. As far as my children are concerned, I told them to go out if there wasn't enough food. I told them to go out and buy food. I took the responsibility as the father of six children, and I am not going to see my children starve. I know what is going on in Dorchester, and I defy any member of the Boston School Committee, or anybody else in the Boston School Committee, to make a tour of the schools and try to get an adequate meal—not for themselves, but the children—that is what I am interested in. It is all right to say, and all right for members of the School Committee to say that this matter is taken care of. I don't think this matter has had any investigation, because if it had and things are as they say they are today, there would be a lot of mistakes to correct. I am surprised at this letter signed by Louise Kane, secretary of the School Committee. I don't know who investigated this. Those children some day are going to rise up in arms and walk out of the school, and then what will we do if they don't have some good food for them to eat? In my opinion, Mr. President, the School Committee didn't do anything with this but to streamline it up for seven or eight weeks and send back a false number. If the members of the School Committee are on the job and these people are investigating these things, they would investigate these matters in every school in Dorchester and see that these children have adequate food.

Placed on file.

BROADCAST "WORDS AT WAR, ASSIGNMENT U. S. A."

The following was received:

City of Boston,
Office of the Mayor, April 10, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel relative to your order of March 6, 1944, concerning the obtaining of an electrical transcription or script of the broadcast given through the National Broadcasting Company on February 22, 1944, under the title, "Words at War, Assignment U. S. A."

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Law Department, March 27, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—This is in reply to your communication of March 10, 1944, containing the following order of the City Council of March 6, 1944, which has been forwarded to me for my consideration and report:

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to obtain an electrical transcription or script of the entire broadcast given through the National Broadcasting Company on February 22, 1944, 11.30 p. m., under the title 'Words at War, Assignment U. S. A.', and that the Corporation Counsel inform the members of the City Council just what action, if any, the city can take in behalf of those persons who have been maligned."

I understand that Mr. William O'Donnell, the City Messenger, by letter, has requested the National Broadcasting Company for a copy of the program involved, and that he has been advised that the company is unable to comply with his request.

From an examination of the applicable law and the Rules and Regulations of the Federal Communication Commission, it appears that radio stations are not required to preserve copies, either by way of transcription or written script, of local or net work broadcasts; nor are radio stations required to supply either a recording or copy of the script of a program to a person requesting the same.

On February 1, 1944, the commission announced a proposed addition to its Rules and Regulations which would require the preservation of a recording of every radio program broadcast over a regional or national network by the station in which the program originates, unless the program itself is a recorded transcription. A hearing was held on March 15, 1944, on the proposed rule, but no decision has been announced up to the present time.

For the reasons stated, there has been no opportunity to advise the City Council with respect to the matter contained in its order.

Very truly yours,

FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

STREET LIGHT ON BREED STREET, WARD 1.

The following was received:

City of Boston,
Office of the Mayor, April 10, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order regarding the installation of a street light on Breed street, around the corner from Leyden street, Ward 1.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
March 31, 1944.

Arthur C. Carey,

Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to install a street light on Breed street, around the corner from Leyden street, Ward 1."

I made a personal visit to the above-referenced location and agree that the existing street lighting conditions are inadequate and present a hazard to the safety of pedestrians who have occasion to use Breed street in going to and from the Gladstone street area to Leyden street.

In view of this, it is my intention to request the Boston Edison Company to provide for the installation of an additional 250 candle power light on Breed street, half-way up the hill, between Leyden street and Gladstone street.

It will be necessary for the Boston Edison Company to obtain the approval of the War Production Board before the proposed new light can be installed, and, in view of this, I can give no definite assurance at this time that the light will be installed as proposed.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

FENCE AT MILTON AND WOODROW AVENUES.

The following was received:

City of Boston,
Office of the Mayor, April 10, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the New York, New Haven and Hartford Railroad Company, relative to your order of March 13, 1944, concerning the erection of a fence

at the corner of Milton and Woodrow avenues, as a means of protecting the lives of children in that neighborhood.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

The New York, New Haven and Hartford Railroad
Company,
New Haven, Connecticut,
March 28, 1944.

Mr. Arthur C. Carey,

Chief Clerk, Mayor's Office.

Dear Sir,—Referring to yours of March 15, concerning City Council order of March 13, 1944, requesting erection of a fence at the corner of Milton and Woodrow avenues, as a means of protecting the lives of children in that neighborhood.

We are arranging to have our Engineering Department erect the fence, as you request. It should be up shortly.

Yours very truly,

R. L. PEARSON,
Vice President.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz:

Claims.

George Levine Company, for compensation for damage to property at 15 Cornhill, caused by water from street.

Frank McGinley, for compensation for loss of teeth while patient at City Hospital.

Agnes MacRae, for compensation for damage to hot water boiler at 141 West Selden street, caused by leak in water main.

Worth of Boston, for compensation for damage to property at 410 Boylston street, caused by water entering cellar.

PERMITS FOR CHILDREN.

Petition of Skating Club of Boston for children to appear at Skating Club Rink on April 21, 22, 23. Permits granted under usual conditions.

BONDS OF BASEBALL CLUBS.

The bonds of the Boston American League Baseball Company and the National League Baseball Club of Boston, Inc., were submitted and approved by the Council.

APPOINTMENT OF JOHN QUINCY.

Notice was received from the Board of Assessors of appointment of John Quincy, 93 Lyndhurst street, Dorchester, as permanent first assistant assessor effective March 31, 1944.

Placed on file.

SURVEY OF SCHOOL JANITORIAL SYSTEM AND SERVICES.

Coun. HANNON offered the following:

Ordered, That his Honor the Mayor request the Finance Commission to include in the list of those making the survey of the School System of Boston, a competent qualified individual, such as Patrick Connolly, to survey the janitorial system and services.

Passed under suspension of the rule.

McCONNELL PARK IMPROVEMENTS.

Coun. HANNON offered the following:

Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to make necessary repairs and alterations at McConnell Park, Dorchester.

Passed under suspension of the rule.

USE TAXES ON CERTAIN HORSES RUNNING ON BOSTON TRACKS

Coun. M. H. SULLIVAN offered the following: Ordered, That the Corporation Counsel be requested to seek to introduce legislation at the present session of the General Court which would give to Boston the right to assess use taxes on owners of horses running at Boston race tracks, where such owners do not reside in Boston, such legislation to be similar in nature and effect to the 1 per cent tax now being assessed upon the owners of similar properties participating in events on New York race tracks.

Coun. M. H. SULLIVAN Mr. President, during the past week it has been brought to my attention that the city of New York is assessing the use tax on horses on the New York race tracks which are owned by people not residing in the city of New York. People not residing in Boston are bringing into our city each year for

racing purposes horses that run on our tracks and that, on the same theory, could be assessed a use tax here, a tax which, as in the case of New York City, would be assessed on horses, the owners of which do not reside in our city. From such a tax we could derive quite a considerable income, a use tax which would be assessed on the basis of the value of the horses, prior to their running on the tracks here, and under a state law to this effect they could be taxed inside the City of Boston and, where they race outside of the city, could also be taxed a use tax there. The New York law I refer to has been set up there and it is the means of bringing a very appreciable income to the city of New York. I believe Boston should be empowered to assess such a tax in cases where the horses are not owned by Boston people, in which case they would be subject to a property tax here. I think it is about time that the City of Boston should levy some assessment on people coming into the city in this way, and the people not living within the corporate limits of Boston should pay a use tax where such horses are entered into races here. I think it is about time that such horse owners residing outside of our city should pay something toward the maintenance of our city government. The order was passed under suspension of the rule.

REDUCTION OF WATER RATES.

Coun. FISH offered the following:

Ordered, That the Public Works Commissioner be instructed by his Honor the Mayor to reduce the water rates by 20 per cent, thereby eliminating the present 20 per cent overcharge to its consumers. Passed under suspension of the rule.

RESURFACING OF WHITFIELD STREET.

Coun. KEENAN offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Whitfield street, Ward 17. Passed under suspension of the rule.

OPPOSITION TO INCREASED RENTS IN HOUSING PROJECTS.

Coun. CAREY offered the following:

Ordered, That in the interest of fair play the officials of the Boston Housing Authority be requested to delay putting into effect the recent increases in rent established in the various units, and that tenants be not forced to sign the new leases until such time as the officials of the Boston Housing Authority have appeared before the Boston City Council.

Coun. CAREY—Mr. President, there is a great deal that can be said upon that order if we had the time to discuss it, but I do feel that this request should be made of the Boston Housing Authority, that they delay putting into effect the recent increases in rents established in the various units and that tenants be not forced to sign the new leases until such time as the officials of the Boston Housing Authority have appeared before the Boston City Council. I believe, speaking on behalf of the tenants in the various units, that the officials of the Boston Housing Authority should appear here and discuss with us the recent increases in the rents, having in view the gross injustices that have been foisted upon a great many of the tenants—as a matter of fact, most of the tenants—in the various units. I don't think the officials of the Boston Housing Authority considered any phase of the situation or had in their minds anything but one idea, which was to raise the rent regardless of the ability of the tenants to pay the increased amount. You cannot tell me, Mr. President, that in these days, when the cost of living has been greatly increased over that prevailing at the time when the rents were first established, and having in mind the large number of children in the families of most of the occupants and the physical condition of many of the tenants, and their children as well, that the Boston Housing Authority was acting fairly with the tenants in imposing these greatly increased rents, and there can be no doubt that many of the tenants, faced with the increased rents, will be forced out. The officials of the Housing Authority have tried to cover up the increase by saying that the Federal Government has been subsidizing the tenants in the different units, and now that conditions are better, in that some of the tenants are earning more money, the subsidizing is going to cease. Therefore, if a tenant cannot meet the increase, there is but one thing left for him to do, and that is to get out. I wonder if the officials of the Housing Authority have kept in mind the fact that in going into these various units tenants have had to dispose of considerable furniture, which cannot be replaced today, for more than one reason. I wonder if they have in mind, taking a section of my own district as an example, that the few outside apartments available to tenants are not fit for human habitation. And still, the officials of the Boston Housing Authority have said to these tenants, in putting these increases into effect, "If you cannot meet the increases, you are going to move." This is not the first increase that has been put into effect. In talking with a number of the tenants they tell me that, with some

hardship, they did meet the increase that was put into effect a year ago, but that they cannot possibly meet this new increase, and they have asked me pathetically, "If we have to move, where can we go?" I cited a few examples at our meeting last Monday, and during the past week I have had other examples brought to my attention. One is the case of a young man who has received an increase of just about \$150 in his income, and the Housing Authority has increased his rent \$10 a month, or \$120 a year, which leaves him only \$30 a year better off than he was before his earnings were increased \$150 a year. The employer increased his earnings \$150 a year realizing that it was costing that man more to keep his family together, and then the Housing Authority comes along and takes \$120 away from that \$150. The officials of the Housing Authority practically say to the tenants, "After all, we are in business to make money, in spite of the fact that we told the members of the City Council a few years ago, when we were starting these housing units, that housing conditions in Boston were terrible and that we wanted to relieve them. We did not, however, tell the members of the City Council at that time that we were going to engage in the business of housing to make money. But now we see an opportunity to get more money from these units." Well, as I said last week, I am not here fighting the battle of those in the units who can stand an increase in rents and who can find apartments outside of the units for which they have to pay an even higher rental. But I am here to say and do all that that I can for the large number of cases of tenants who positively cannot meet this increased rent. I certainly feel that the officials of the Boston Housing Authority have been most unfair in telling these tenants that they must pay on the line or get out. These leases have to be signed, I understand, by April 15. I suppose the Housing Authority officials will tell us that they gave the tenants plenty of notice, that they had information about the matter for about six weeks. But it is only within the last ten days that they have informed the tenants of the increase in rent, and the tenants have had no more than ten or fifteen days to make up their mind to sign the lease or find some other place to go. When I, as a member of the Boston City Council, voted for housing in 1938, I did so because I wanted to get a large number of families out of sub-standard homes, but I did not at that time have reason to think that at the first opportunity the Boston Housing Authority was simply going to make money out of these tenants. I sincerely hope, therefore, that the request I have made in this order, that there be delay in putting into effect the recent increases in rents in the various units, may prevail, and that tenants will not be forced to sign the new leases until such time as the officials of the Housing Authority have appeared before the Council. I sincerely trust, therefore, that more attention will be paid to this order than to the order I introduced a week ago, to which we have had no answer. I certainly trust that this order will be recognized and that the officials of the Housing Authority will recognize the injustice of forcing these tenants to sign these new leases by April 15, when they are not in a position to pay the advance in rent that is required of them. I therefore demand, in fairness to the large majority of tenants in these units, that the officials of the Boston Housing Authority will not maintain its "hands up" attitude until each individual case has been gone over thoroughly, asking them to keep in mind such cases as I mentioned last week and as I have referred to here today. I told the members of the Council last Monday of a family of seven children which has to purchase twelve quarts of milk a day, at \$1.80 a day, and \$12.60 a week; and yet, because the father of that family has had a small increase in pay, the officials of the Housing Authority have demanded an increase in rent which may well result in putting this family, with its small children, on the street. I wonder if they do not realize the unfairness and injustice of their attitude toward these unfortunates, practically saying to them, "Either pay on the line or get out!" I ask the passage of the order under suspension of the rule.

Coun. KINSELLA—Will the clerk read the order again, please?

(The order is read.)

Coun. KINSELLA—This is the order Councilor Carey filed last week, to be sure, but I think that in view of certain facts that have developed in the meantime it might have been worded a little differently, because it comes definitely to my attention now that there was a tremendous spread between the lowest and highest figures within the various brackets. For example, three rooms in the project in Charlestown—and I presume the situation is the same in the other places—cost \$31 a month. Now, that rent is applicable to the income bracket of \$1,300 minimum and \$1,750 maximum per year. In other words, the couple that receive for a total income in one year \$1,300 pay \$31 a month. They pay exactly, penny for penny, what is expected from and collected from the couple getting \$450 a year more,—\$9 a week, if not more. Now, I offered the suggestion unofficially to one of the housing agents the other day that a more equitable way of arriving at rents would be to establish the rent at one quarter of the gross income. I don't think there is anything radical or unfair about that, because one quarter of \$1,300 income would be \$325 a year. Broken down into twelve monthly payments, it

would approximate about \$27 a month. One quarter of \$1,750 a year would be about \$425. Broken down into twelve monthly payments it would be approximately \$36 a month. I think the Council can understand the good sense and good logic of that, because a man getting \$450 more than his neighbor finds himself with \$36 a month more although his family responsibility may not be any more in view of the fact that both occupy the same number of rooms. But I believe if Councilor Carey would accept it, that might be a good amendment to offer to his present order, or I shall make it the subject of another order. It has also come to my attention, beginning May 1st, that the Housing Authority intends to charge for the first ten months, after May 1st, a charge of \$1 per month until a fund of \$10 has been established for each family. This \$10 is never thereafter added to. In other words, when it reaches the \$10 mark it stops there and is credited to the family, and is returnable to the family when the family leaves the project for any reason, good or bad. The purpose of the \$10 is to compensate in some measure for damage done to the property. Upon notice by the applicant that he or she intends to vacate the property the people in authority in the project will go and investigate the apartment to see if any appliances are missing or broken, in which case the \$10 will be forfeited in order to make replacements. If they find there has been no destruction of any magnitude, if there are no broken appliances, such as faucets or handles of gas stoves, or handles of refrigerators, and so forth, then the \$10 will be in *to* restored to the tenant. That is a valid charge. I don't think anybody objects to that because those items are expensive and very likely would cost in some instances more than \$10. But please understand the thing correctly. After the \$10 is established to their credit, it isn't added to thereafter. It becomes a reserve then for any damages caused by the tenant. If the Chair rules that this is a fit amendment, I offer it for consideration of the members,—that one quarter of the total income be established as the rent.

Coun. CAREY—I have no objection to the amendment. As I said in the beginning, I didn't mean to be as lengthy as I was when I was last on the floor, but I think if we could get the officials of the Authority up here that Councilor Kinsella might well lay the whole information before them regarding the suggestion he has just given us. Amongst themselves down there at Post Office square apparently they don't listen to anything.

Chairman D. F. SULLIVAN—The Chair will rule it will be more proper to have a separate order.

Coun. COFFEY—I want to congratulate Councilor Carey for his persistence in trying to get the officials of the Housing Authority before us. I think that is the only way we will get anywhere with this order. I just want to cite one case—there probably will be others—that I can cite to the members of the Housing Authority once we get them down and get them into executive session. Last Tuesday, when I took my boy up to the Out-Patient Department of the City Hospital, a little fellow that was being treated with him was on the same bench with us. I got talking to his mother, and she told me that she had two children. Both of the children had just come from the hospital. Her husband is a sailor, and her total income is \$80 a month, and she has received notice that her total rent was to be increased \$11 a month. I don't know how in the name of God that woman is going to pay that increase of \$11. So I think it is only fit and proper that the Housing Authorities come down here and let us take these cases individually, and at that time I will be glad to name the woman in executive session, and tell the circumstances and conditions. There will be others of the members who will have the same opportunity to present cases they have in housing projects in their districts. I hope for the sake of these people and especially the sake of the case I have just mentioned, and the cases that Councilor Carey has mentioned, the Housing Authority will see fit to come down next Monday.

Coun. CAREY—I would like to withdraw my motion for suspension of the rule, and ask that the order be referred to executive.

The order was referred to the Executive Committee.

ROPING OFF STREETS APRIL 19.

Coun. BAYLEY and DWYER offered the following:

Ordered, That the City Messenger be, and he hereby is, directed to rope off the streets along the route of the 48th Annual Marathon Race to be conducted by the Boston Athletic Association on Wednesday, April 19, the expense of same to be charged to the City Council appropriation for Ropes, Flags and Stakes.

Passed under suspension of the rule.

REPORT OF COMMITTEE ON PUBLIC LANDS.

Coun. M. H. SULLIVAN, for the Committee on Public Lands, submitted the following:

The Committee on Public Lands, to whom was referred January 31, 1944, communication and

order from his Honor the Mayor relative to transfer of certain title interest held by the City of Boston in that portion of the premises situated on the easterly side of 350 Atlantic avenue, having considered the same, respectfully recommends that the order be changed to read \$500 instead of \$1.

Coun. M. H. SULLIVAN—Mr. Chairman, some weeks ago there was referred to us an application on the part of one Daniel Hill and a party by the name of Wheelwright, requesting the purchase from the city for a nominal sum of a strip of land formerly known as Belcher's lane, one hundred years ago, in the middle of Rowe's Wharf, bordered on both sides by properties owned by the trustees, approximately 13 feet in width and about 30 feet in length, a part of which was under water. The committee conferred with the trustees upon several occasions and has held several meetings during the past few weeks. I think it is to the credit—and I don't want to claim any of it—but it is to the credit of yourself, Mr. Chairman, and to Councilor Kelly, as members of the committee, who were able to exact from the trustees the agreement to raise the price from \$1 to \$500, and who in addition fought to have them agree to withdraw from the Board of Tax Appeals an application for an abatement on the property, which is now pending before them. The committee, some members of which surveyed the properties a week ago, came to the more or less inevitable conclusion that the property is valueless so far as the city is concerned, being only 13 feet in width. We went down and talked later with the commander of the port, who apprised us of his efforts to clear the possible fire hazards out of the waterfront,—and incidentally he has done a good job on it. It seems that the property was abandoned by the Narrow Gauge Railroad and reverted to the City of Boston when it was abandoned. One hundred years ago it was taken over by eminent domain, and prior to that had been a way by the name of Belcher's lane, and was used for the boarding of the ferryboats by persons going to the railroad across the harbor, running to Revere and Lynn. I feel that the committee has done a fine job on this, with the result that \$500 is obtained rather than \$1. And in addition I might stress that \$500 does not represent the total price that the city will arrive at. Through an error the entire property was assessed and they were taxed for the portion owned by the city, \$5,100 in back taxes is to be obtained, and only about \$3,500 of that is on the property owned by the trustees. The remainder is owned by the City of Boston, but the trustees likewise agreed to pay the \$1,700, approximately, that has been wrongfully assessed to them. We came to the conclusion this property is to be sold at \$11,500, and the trustees broke down their costs on the matter. \$5,100 was to be paid in back taxes; and in addition, until the deed goes through to the ultimate purchasers, taxes for January, February, March and possibly April of this year. In addition to that there are the attorneys' costs, the cost of recording the deed, so that less than \$5,000 total profit will be derived from the sale of this land in the sale price. Of this \$5,000 or less profit the city will derive \$1,700 in taxes which never should have been assessed and were wrongfully assessed. The city will derive \$500 from the amended price recommended by us and by Mr. Driscoll, who made the investigation. The city likewise exacts a promise from them to withdraw from the Board of Appeal the application for abatement on past taxes. Accordingly, the city will receive \$2,200 of the approximate \$5,000 profits, and the city will likewise receive the advantages to be received by withdrawal of the application for abatement before the State Board of Appeal. Fifteen votes will be needed, and in view of the fact that I don't believe there are fifteen in the room at the present time—well, I have done my best on it, and that is that.

Coun. KELLY—Mr. Chairman, as a member of the Committee on Public Lands I want to explain my position in the matter. When the matter came before the committee I never saw an attorney appearing for a trustee or any other person before the committee that made such a poor impression as Mr. Hill made. As far as Mr. Hill is concerned, I would definitely vote against the matter today, on account of his attitude toward the committee. You would think the way he acted he was doing the City of Boston a favor, when in reality it was a steal. However, on my tour of Boston Harbor last Wednesday I had the pleasure of meeting Mr. Davis and Mr. John Levins, a member of the Port Authority, whom I know well, from Dorchester. They made a very favorable impression upon me. I know the order is not going to go through today. I am going to vote for it because it was raised from \$1 to \$500. In my opinion, \$500 is not enough for the property, but I made a promise to Mr. Davis and Mr. Levins I would go along after my tour, and I want to keep my word with them. There is only one person to blame if this order does not go through, and that is this same gentleman, Mr. Hill, who takes the attitude when he appears before the committee that he is doing the taxpayers of Boston a favor, and in my opinion it was one of the—I won't say the biggest—but it was a land steal from the taxpayers of the City of Boston. In my opinion, \$500 is not enough for the strip of land. They are taking out \$1,700 in back taxes they are paying the City of Boston. They are making

approximately somewhere in the neighborhood of \$3,000 on the deal. I suggested to Mr. Hill that the trustees turn over the land to the City of Boston and, in turn, the City of Boston would give them \$2 for their two thirds share; then let the City of Boston sell the land for \$11,500, where he was so much in favor of the fact that he was making such a reasonable and such an acceptable offer to the City of Boston for the land, namely, \$1. So, as I say, I am going along with the \$500 price, but I never saw a gentleman in my seven years in the Boston City Council that took the attitude Mr. Hill took in appearing before the committee. In my opinion, Mr. Hill didn't have one vote on the committee. I think anybody who votes on the order will vote for it on account of some member of the Boston Port Authority or somebody else having asked him to vote for the order. In my opinion it is a steal on the taxpayers of the City of Boston, but I am going to vote for it because I promised Mr. Levens and Mr. Davis, and because I think it would be a good thing for the Boston Port, even though the city didn't get the money it is entitled to.

Coun. CAREY—I will ask the chairman of the committee who gave us some facts to again detail to the Council the important facts in connection with it. I don't think he said at that time what price was being received, the overall price, for the property. He did mention the fact there were some taxes to be paid, and that there was an increase at one meeting from \$1 to \$500. Councilor Kelly perhaps has something. There has been a clearing away of the Elevated structure. That is supposed to have, as a result, increased in valuation all property in that neighborhood. I didn't get sufficient information from what the chairman gave us, and I would like to have it.

Coun. M. H. SULLIVAN—I think I omitted that very essential fact. The trustees are to sell this in the event they get it, which I don't think they will. A private enterprise is to build a shop there. The cost of the land to new purchasers would be \$11,500.

Coun. CAREY—Do I understand that some one is going to buy some property for \$500 and turn around and sell it for \$11,500?

Chairman D. F. SULLIVAN—I believe you should give the Council the whole picture.

Coun. M. H. SULLIVAN—\$11,500 represents not only the purchase price for the city's property, but likewise two abutting parcels on each side of city property. About 100 years ago—I am not exact as to the date—this land was taken over by right of eminent domain as an easement for the egress and ingress of passengers to the ferry that were going over to the Narrow Gauge Railroad, across the harbor. When the Narrow Gauge Railroad ceased its transportation activities, about three years ago, the land reverted back. Mr. Hill and Mr. Wheelwright entered into a tentative bill of sale with a prospective purchaser, and in looking up the title they arrived at the realization that the parcel of land now in use here reverted back also, but reverted back to the City of Boston. It was an accepted street known as Belcher's lane. The city neglected to note that, and assessed the property to Mr. Hill and Mr. Wheelwright, trustees, and they were assessed \$1,700 on that on their own tax bills, where, as a matter of fact, the properties were unassessable where they were owned by the city. Accordingly, in order to make the land a prospect for sale, they went to the Law Department and asked for the sale of the land at a nominal sum. When the report came to us here and it was reported at \$1, there was no statement relative to any appeals before the Board of Tax Appeal, and the two members of the committee worked hard. I felt that the development might justify the sale of the land, and I favored the sale at \$1 at the start. The two members that I have named fought to have it raised to \$500, and it was finally agreed to do so. Then last Thursday we had a meeting and it was brought up that there was pending before the Board of Tax Appeal an application for abatement on the properties that might cause a substantial decline in revenue to be obtained as a result. In view of the present condition of the property it seemed possible to members of the committee that such abatement would be granted. I saw Mr. Hill and asked him if he would agree to withdraw the application for abatement. He said he would, provided it went through today, because the option would expire shortly, and he felt if it could be done today they wouldn't have to pay the extra month's taxes in view of their renewing the option.

Coun. CAREY—One question I would like to ask the chairman of the committee. Are these taxes he is now speaking about necessary to be paid if the option is not exercised immediately? Is that the same strip the city has been assessing illegally?

Coun. M. H. SULLIVAN—These taxes are on the three parcels, including the city's property.

Coun. FISH—I am quite suspicious of the whole thing. In view of the fact that it came before us, the Committee on Public Lands has done, apparently, according to themselves a pretty good job in bringing it up to \$500, and this small parcel, with the small adjoining parcel, is possibly going to be sold at \$11,000. I would be suspicious of the jump from \$1 to \$11,000. Until I get more information, I refuse to approve this.

Coun. M. H. SULLIVAN—I would be glad to give the councilor any information at my disposal if he wishes it.

Coun. FISH—You have been very willing to give it, but I don't think you have got all the information.

Chairman D. F. SULLIVAN—The question is on the amendment, striking out \$1 and inserting the price of \$500.

The amendment was adopted.

The question came on the passage of the order as amended, and the order was rejected (fifteen votes being necessary for passage), yeas 11, nays 3.

Yeas—Coun. Bayley, Coffey, Hannon, Keenan, Kelly, Kinsella, McCormack, Shannon, D. F. Sullivan, M. H. Sullivan, Taylor—11.

Nays—Coun. Dwyer, Fish, Hanley—3.

Coun. FISH—I said I wanted further information and, for fear this may kill the thing entirely, the only way I can get further information is to ask reconsideration and that it come up again at a little later date. Therefore, I am asking reconsideration.

Reconsideration was granted, and Coun. FISH moved assignment of the order to the next meeting.

Later in the session Coun. M. H. SULLIVAN said:

Mr. President, I move that the order which has been tabled for one week, relating to the sale of property on Atlantic avenue, be now referred back to the Committee on Public Lands for the purpose of holding a meeting here Thursday afternoon at 2 o'clock p. m.

The motion was carried, and the matter was referred back to the Committee on Public Land.

RENTS IN BOSTON HOUSING PROJECT.

Coun. KINSELLA offered the following:

Ordered, That his Honor the Mayor be requested to confer with the Boston Housing Authority relative to a more equitable manner of determining the rents to be paid by the tenants in the Boston Housing Authority projects, and that some careful consideration be given to establishing 25 per cent of the gross yearly income as the rental (in twelve payments) for any tenant.

Coun. KELLY—Before we have suspension of the rule and passage of the order, I don't want to be any part of advising the Housing Authority, or suggesting to the Housing Authority, how much rent they charge for any apartment in the City of Boston. I was one of the few members of the Boston City Council that voted against Federal housing five years ago. My vote still stands. I am against Federal housing the way it is conducted in the City of Boston. I don't want to be any part of advising the Housing Authority what rents they are going to charge for these people who are going to take apartments in any of the Federal housing projects. So, before you ask suspension of the rules and passage of the order, I want to ask a roll call on the matter.

Coun. KINSELLA—Just for Councilor Kelly's benefit, I don't think he was here before when I spoke. I spoke, Councilor Kelly, of the inequality of the rents established for the brackets in the various projects. For instance, I took a case of a \$31 a month rent for three rooms which was applicable in the bracket of \$1,300 minimum and \$1,750 maximum. I tried to show, by arriving at something which resembled one quarter of the income as rent, instead of the family with an income of \$1,300 paying \$31, the same as the family with an income of \$1,750, there would be about \$27 for the family getting \$1,300, and there would be about \$36 for the family getting \$1,750. Whereas, under present conditions, as I said, they each now pay \$31, and that is entirely inequitable. I made the suggestion of a percentage of the gross yearly income being broken down into twelve monthly payments, which would be far more in keeping with justice.

The order was referred to the Executive Committee.

USE OF VACANT LOTS FOR VICTORY GARDENS.

Coun. KELLY offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to plow up vacant lots throughout the city in order that they may be used for victory gardens, as was done in 1943.

Passed under suspension of the rule.

RECESS.

On motion of Coun. COFFEY the Council voted at 3.13 p. m. to take a recess subject to the call of the Chair. The members reassembled and were called to order by Coun. D. F. SULLIVAN at 3.33 p. m.

REPORT OF COMMITTEE ON COUNTY ACCOUNTS.

Coun. SHANNON, for the Committee on County Accounts, submitted the following:

Report on message of Mayor and order (referred November 15, 1943) re amendment in classification plan for compensation of organist at House of Correction from \$500 to \$900—that same ought to pass.

The report was accepted, and the question came on the passage of the order.

Coun. KELLY—Will the chairman explain what the order is and what it is for, and the difference between the two amounts?

Chairman D. F. SULLIVAN—The clerk will read the order.

(The order is read by the clerk.)

Coun. FISH—Does this apply to just one position?

Chairman D. F. SULLIVAN—Just one position.

Coun. DWYER—Councilor Fish has asked the question that I had in mind.

The question came on the passage of the order, and the order was passed.

CLOSING OF DORCHESTER SCHOOLS AT LUNCH PERIOD.

Coun. KELLY offered the following:

Ordered, That the School Committee be requested, through his Honor the Mayor, to close Junior High and High Schools in Dorchester during the noon hour so that students attending same may have an opportunity to go home or outside to lunch.

Coun. KELLY—It seems to me the only way to enable these boys and girls of Dorchester to get their lunches they are entitled to or that they need in order to hold up is to close these Junior High Schools and High Schools of Dorchester during the lunch period and enable the children to have enough time to go home to their homes or go outside and buy their lunch in lunch rooms where they have a variety of food to choose from and where they will be suitably fed. I am not at all satisfied with the two answers from the Boston School Committee, and I think if the School Committee will do this and close up the schools the residents of Dorchester will be sure these pupils get enough food to eat. As far as I am concerned, I am going to see that my children get enough food and that they will be properly fed, whether they go home or outside to lunch rooms, but I think there should not be any exception made for my children as compared to others. I think everybody should have the same opportunity, so I am asking that the schools be closed during the noon recess and that the children be allowed to go outside or to their homes, then we will be certain they will be properly fed.

The order was passed under suspension of the rule.

Adjourned, at 3.38 p. m., on motion of Coun. HANNON, to meet on Monday, April 17, 1944, at 2 p. m.

SHIPBUILDING IN 1943.

In 1943 the privately operated shipyards of America came up with another miracle, shattering all world records, producing merchant shipping of approximately 19,000,000 deadweight tons, a volume equal to one fifth of total world shipping at the outbreak of the war and about two and a half times the tonnage built in 1942. Private shipyards also built about 90 per cent of all of the new U. S. Navy ships built during the year. If the man-hours utilized in building naval ships could be translated into merchant ships, the combined volume would be in excess of 40,000,000 deadweight tons. Privately operated ship repair yards repaired and made seaworthy about 23,000 ships in all classes during the year. Total employment generated by the industry is approximately 3,000,000. Private yard and Navy yard 1943 pay rolls, at the prevailing wage rates, are more than \$4,300,000,000 paid to labor and shared by almost every state.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

(STATE.)

STATE EXAMINERS OF ELECTRICIANS, 1944.

Examinations will be held at the following points and on the following dates:

BOSTON, Wednesday, May 3.
 WORCESTER, Thursday, May 4.
 BOSTON, Wednesday, June 7.
 BOSTON, Wednesday, September 6.
 WORCESTER, Thursday, September 7.
 SPRINGFIELD, Wednesday, October 4.
 PITTSFIELD, Thursday, October 5.
 BOSTON, Wednesday, November 1.
 LOWELL, Thursday, November 2.
 BOSTON, Wednesday, December 6.
 NEW BEDFORD, Thursday, December 7.
 NEW BEDFORD, Friday, December 8.

Rules for Examinations.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined either for a Master or Journeyman Certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examinations will be held and only those so notified will be examined on that day.

STEPHEN C. GARRITY,
 JULIUS E. WARREN,
 ULYSSES J. LUPIN,
 BERTRAM L. WHITTEMORE,
 SAMUEL J. DONNELLY,
State Examiners of Electricians.

For application blanks or other information apply to State Examiners of Electricians, Room 406, 15 Ashburton place, Boston, Mass.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

ASSISTANT STOREKEEPER, BOSTON FIRE DEPARTMENT, JUNE 3, 1944.

Last date for filing applications, Monday, May 15, 1944, at 4.30 p. m.
 Salary: \$1,600 a year.

Vacancies: From time to time.

Duties: To assist in the stockroom, to deliver materials to workmen on order, and to receive, handle and store materials from vendors, and to perform related work as required. Applicants should have a knowledge of automotive parts of American LaFrance engines, of supplies and materials necessary for their repair, and of supplies and materials for maintenance of fire houses.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

SQUARE DEAL IN ASSESSMENTS FOR TAXATION.

Many cities are finding it greatly to their advantage to have their tax valuations periodically overhauled. The first criterion of any assessment is equity. For every citizen who wants through "pull" or however else to get off easy, there are twenty, nay a hundred, who want a fair and square deal for all.

The appraisal of city real estate is a highly technical affair.

Few things are more important than the equalization of assessments. Particularly in cities that are cramped by an inflexible debt or tax limit, an honest, full value assessment may be a great boon. Without the slightest raise in the tax rate a substantially greater tax yield may be had.

BOND SALES.

Labor, farm, school and women's groups were responsible for 1943's greatest sale of E Bonds.

Using the person to person approach, Payroll Savings added two million workers—bringing its ranks to 26.4 million. Payroll Savings allotments jumped from 355 million in December, 1942, to 445 million in October, 1943. Thousands of labor-management War Bond committees were organized.

Farm committees worked intensively through personal solicitation and farmers organizations to convert a large share of the largest farm income in history into War Bonds.

In the schools, the nation's youngest group of Bond buyers is rapidly enlisting every pupil in America.

VOTE FOR PRESIDENT IN MASSACHUSETTS, NOVEMBER 3, 1936.

Vote in the State for President: 942,716 for Roosevelt (Dem.); 768,613 for Landon (Rep.); 118,639 for Lemke (Union); 5,111 for Thomas (Soc.); 2,930 for Browder (Comm.); 1,305 for Aiken (Soc. Lab.); 1,032 for Colvin (Proh.); all others, 11; total votes, 1,840,357; blanks, 34,768. Plurality for Roosevelt, 174,103. There were 18,097 more ballots cast for President than for Governor.

CITY OF BOSTON.

POLICE DEPARTMENT.

PROPOSALS FOR FURNISHING AND INSTALLING SAFETY DEVICES ON WINDOWS.

The Police Department of the City of Boston invites proposals for furnishing and installing safety devices on windows at Police Headquarters. The bidder must use the form of proposal to be obtained at the office of the Property Clerk, Room 105, 154 Berkeley street, Boston, and deposit with his bid, at the office of the Police Commissioner, a properly certified check for \$100, payable to and to become the property of the Police Commissioner for the City of Boston, if the proposal is not carried out. Proposals will be publicly opened and read on Friday, April 28, 1944, at 12 o'clock noon, at the office of the Police Commissioner, 154 Berkeley street, Boston. The Police Commissioner reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the Police Department of the City of Boston. Surety bond will be required of the successful bidder in an amount equivalent to 50 per cent of the estimated contract.

(April 22.) THOMAS F. SULLIVAN,
Police Commissioner.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR MAKING WASH BORINGS AT THE MERIDIAN STREET BRIDGE OVER CHELSEA CREEK.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for making wash borings at the Meridian Street Bridge over Chelsea Creek. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Making Wash Borings at the Meridian Street Bridge over Chelsea Creek" and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Wednesday, May 3, 1944, with a certified check for one hundred and fifty (150) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

(April 22.) GEORGE G. HYLAND,
Commissioner of Public Works.

CITY OF BOSTON.

HEALTH DEPARTMENT.

PROPOSALS FOR FURNISHING LAUNDRY AND SERVICE.

The Health Department of the City of Boston invites proposals for furnishing laundry and service, as per specifications contained in proposals which may be obtained at the office of the Health Department, Haymarket square. The bidder must leave his proposal with a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above office. A duplicate bid, without check, must be left at the office of the City Auditor prior to the time named for opening bids. *Envelopes containing bids to be sealed and plainly marked "Proposal for Laundry and Service."* The bids will be publicly opened and read Wednesday, May 3, 1944, at 12 m., at Health Department, Haymarket square. The successful bidder must furnish a bond for one thousand dollars (\$1,000), with a surety company authorized to do business in Massachusetts as surety for the faithful performance of the contract. The Commissioner reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

G. LYNDE GATELY, M. D.,
(April 22.) Health Commissioner.

CITY OF BOSTON.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR CONSTRUCTION OF ARTIFICIAL STONE SIDEWALKS IN BAILEY STREET, WARD 17, WASHINGTON STREET TO DORCHESTER AVENUE; MILLMONT STREET, WARD 9, HIGHLAND STREET TO LAMBERT AVENUE; SEAVERN AVENUE, WARD 19, CENTRE STREET TO ELM STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for construction of artificial stone sidewalks in Bailey street, Ward 17, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Construction of Artificial Stone Sidewalks in Bailey Street, Ward 17, Etc.," and left at Room 508, fifth floor City Hall Annex, before 12 m. of Wednesday, May 3, 1944, with a certified check for nine hundred (900) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
(April 22.) Commissioner of Public Works.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN FLEET STREET, WARD 3, COMMERCIAL STREET TO HANOVER STREET; HAMPODEN STREET, WARD 8, ALBANY STREET TO DUDLEY STREET; HANOVER STREET, WARD 3, COMMERCIAL STREET TO 354 FEET NORTHEAST-ERLY; MILK STREET, WARD 3, INDIA STREET TO ATLANTIC AVENUE.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Fleet street, Ward 3, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Fleet Street, Ward 3, Etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Thursday, May 4, 1944, with a certified check for fourteen hundred (1,400) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. CITY OF BOSTON.

SUPPLY DEPARTMENT.

PROPOSALS FOR FURNISHING COAL.

The Supply Department of the City of Boston invites proposals for furnishing and delivering best quality anthracite and semi-bituminous coal. The bidder must use the form of proposal to be obtained at the office of the Supply Department, Room 1001, City Hall Annex, and deposit his bid with a certified check for \$500, payable to and to become the property of the City of Boston if the proposal is not carried out, at the above-named office. *There will be a charge of fifty cents (\$0.50) for each set of blank proposals taken out.* A duplicate bid, without check, must be left at the office of the City Auditor, prior to the time named for opening bids. *Both bids to be sealed in envelopes, marked "Proposal for Coal."* Proposals will be publicly opened and read on Thursday, May 4, 1944, at 12 m., at the Supply Department, 1001 City Hall Annex. The Superintendent reserves the right to accept or reject any or all bids, or any part of a bid, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder. Surety bond will be required for one half the total estimated amount of the contract.

FRANCIS X. LANG,
(April 22.) Superintendent of Supplies.

CITY OF BOSTON.

PARK DEPARTMENT.

PROPOSALS FOR REPAIRS TO PIER AND MEN'S BATH HOUSE, NORTH END PARK, BOSTON.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for repairs to pier and men's bath house, North End Park, Boston, Mass. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed, and marked "Proposal for Repairs to Pier and Men's Bath House, North End Park, Boston, Mass.," and left before 2 o'clock on Thursday, April 27, 1944, at the office of the Park Department with a certified check for \$800, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits, under chapter 152 of the General Laws (the Workmen's Compensation Law so called), to all persons to be employed under the contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

No. 18

MAYOR TOBIN AND CITY DEPARTMENTS PRAISED FOR SUCCESS OF CLEAN-UP CAMPAIGN—FINANCE COMMISSION COMMENDS OFFICIALS FOR EFFECTIVE WAY WORK WAS DONE THROUGH COOPERATION OF CITIZENS AND DEPARTMENT EMPLOYEES WITH SO LITTLE ADDITIONAL EXPENSE INCURRED—URGES THAT ALL FORCES JOIN IN EFFORT TO KEEP CITY IN PRESENT STATE OF CLEANLINESS BY CONSTANTLY HIGH TEMPO OF ACTIVITY.

The Finance Commission of the City of Boston has addressed the following communication to the Mayor and City Council on the present "Clean-up Drive":

BOSTON, April 20, 1944.

To the Honorable the Mayor and City Council.

GENTLEMEN,—During the past three months the city has witnessed probably the greatest physical clean-up in its history of the streets, private ways, alleys, back yards, and vacant lots. Beginning with the removal of litter which had been carelessly or maliciously discarded, scattered, or loosely stored here, there, and everywhere in many sections of the city, the finishing touches of the campaign to eradicate the reputation which had been given to Boston as "a dirty city" amounted almost to a scrubbing of sidewalks and a polishing of pavements. Court actions are still pending against some property owners who have remained obdurate to city demands "to clean up," but despite some few unclean yards, the owners of which have as yet declined to give cooperation, for the most part the cleaning process has been complete.

Yet all this has been accomplished without the aid of any new law, any new ordinance, or any "get busy-or" orders to policemen to enforce the old laws or ordinances. Neither has it been necessary for the city to enlarge its force beyond its normal limitations, to add new equipment, or to impose any unwarranted burden upon the old employees or equipment.

To accomplish this sudden transition, the health inspectors merely made the ordinary inspections which are required to be a routine of the Health Department work; then, took the steps always provided by law or ordinance to enforce compliance with the rules and regulations. The Public Works Depart-

*Mayor Maurice J. Tobin's
Tribute to
Cardinal O'Connell*

Few men have shown the brilliance and vision that were Cardinal O'Connell's. Few have been blessed with the great qualities of leadership that were his. Yet, throughout his long career he practised the lessons of saintly humility and devotion that he learned at his mother's knee.

Today, as men of all faiths bow their heads in tribute, we share the knowledge that death has taken from us one of the truly great of our time. He was a great Prince of the Church. He was a true man of the people. Truly, may it be said, the Church and the Nation have lost a loyal and devoted son.

Here in Boston his death will be felt more keenly and more poignantly because we knew him so well; because we have owed so much to the work to which he devoted his long and glorious career.

With tens of thousands of others throughout the archdiocese of Boston I join in prayer for a man who has truly been the leader of his flock.

ment inspectors and executives were finally goaded by expressed public opinion to make the observations which are a part of their routine duty and as a result began, where necessary, to compel contractors

engaged in collection of refuse to live up to the obligations of their contracts; also, the Public Works Department supervisors made the rounds of service yards and followed work groups in action, as the system of operating the street cleaning service originally intended, and compelled city employees, regularly paid to keep the city clean, to do the work for which they were hired and paid.

The only extra city expense to this date in all these revived activities has been the printing of posters and cards which have been nailed up here and there in conspicuous locations within the city. A little extra work has been contributed to the drive by private agencies without charge, such as the use of billboards "to urge and warn," and to show special films containing the same kind of admonitions in the motion picture theaters. In other words, the city agents did what is expected of them and the city was made clean in short order.

Contributory Causes.

Experience has now shown that there have been several causes of, or contributory factors to, the unclean condition of the city. A comprehensive analysis of the situation follows:

1. City Failure. The city departments involved in keeping the public ways clean are the Health, the Fire, the Public Works and the Police. Each has its part to play in the maintenance of sanitation and each is equipped with sufficient authority to make its contribution whether it be in enforcing rules or administering collection. Lack of enforcement and lack of cooperation were the chief weaknesses in this relationship.

(a) The Health Department has an adequate force of inspec-

(Continued on page 363.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"
From Boston Centennial Poem by
NATHAN HASKELL DOLE.

STREET AGENCIES.

Old South News Stand, Old South entrance to subway. Also News Stand, first floor, City Hall Annex.

Advertising.

A rate of \$2 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. Advertising and other copy must be in hand by Thursday of each week to insure its publication in the Saturday issue.

Copies for sale at the Statistics Department, 73 City Hall.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, May 1, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

PRINTING DEPARTMENT

Finance Commission On Clean-up Campaign.

(Continued from page 361.)

tors and constables whose duty it is to discover unclean conditions within private property. If they are fully and conscientiously engaged in the work required of them, filth cannot remain long in private yards or alleys. Yet, that many yards and alleys were filthy is now well established.

(b) Fire Prevention inspectors cannot overlook rubbish piles. Any rubbish pile is a potential fire hazard. Dilapidated buildings, which are often the refuge of uncontrolled youth and vagrants, also constitute a fire menace as well as a disease menace. The Fire Prevention officials can start proceedings which, with the cooperation of other agencies, would result in the demolition of such buildings. The existence of many litter-laden dilapidated buildings was well established.

(c) The Public Works Department has direct responsibility for the conditions of the public ways. The frequency of the finding of littered streets is indication that the street cleaning work has not been constant or complete.

It is significant that the Public Works Department recognized that a potential cause of uncleanness is inefficiency or carelessness in refuse collection work and as a result inserted in the city contracts the following explicit direction:

The contractor shall provide brooms and shovels on each truck, and shall remove all refuse dropped from the trucks or from the containers.

It has been evident that the inspectors paid no attention to this requirement. Moreover, the Commission investigator seldom found an inspector supervising collection.

Not Fully Equipped.

Of more significance, however, is the fact that where the city collects rubbish, the city trucks were not equipped with shovels and brooms. Rubbish which fell into the streets in the process of emptying the containers into city trucks was allowed to remain where it fell.

Enforcement of the time schedule of collection was ignored. Often rubbish dutifully placed out for collection was not picked up until several days after the pre-

scribed date. Meanwhile the elements and malicious individuals had scattered much of it all over the neighborhood.

(d) Finally, police officers ignored the ordinance which prohibits the littering of streets. This ordinance (chapter 39, section 41) reads as follows:

Section 41. No person shall throw or sweep into, or place or drop and suffer to remain in, any street, any piece of hoop, board, wood, wire, paper, or any nail, sweepings, sawdust, soot, ashes, cinders, shavings, hair, manure, oyster-shell, clam-shell, lobster-shell, glass, card, handbill, or rubbish or filth of any kind, or any noxious or refuse liquid or solid matter; or distribute to persons on a street, handbills, cards, circulars, or papers of any kind except newspapers.

Until the recent wave of public opinion forced attention to the fact of wholesale violation of this ordinance, there were no prosecutions or threats of prosecution of storekeepers or others who found the public ways the most convenient place to deposit their rubbish.

2. Contractors' lapses. Some of the contractors have been irregular in collection schedules. This permits excessive accumulation of refuse at curb with consequent scattering. One of the contractors contended that shortage of manpower was the cause, yet the city was able to provide sufficient manpower in his district to bring collection up to date.

Contractors' Failures.

Some of the contractors habitually fail to meet contract requirements relative to "clean" collections, *i. e.*, making a complete removal from the curb and picking up refuse which may fall in the process. In short order such fallen debris becomes scattered.

3. The Public's Part.

(a) Storekeepers.

Frequently storekeepers offend by carelessly piling litter in front of establishments or by sweeping debris originating in the stores into gutters. Some, in order to avoid payment of the small fee charged for commercial collection, place their rubbish on vacant lots or in front of vacant stores. The experienced contractors al-

ways decline to pick up such rubbish and again, the elements and malicious persons scatter it about the neighborhood.

(b) Residents.

1. Residents in many cases failed to provide adequate containers for refuse and were careless or downright lawless in other ways. In many places it was apparent that rubbish had been thrown from windows into the street; that rubbish was dumped into the gutter of streets.

In the North End and the West End, hucksters' decayed fruits and vegetables were often deposited in the streets, and frequently were used as missiles by children at play.

2. Residents employing servants failed to oversee the practice of the latter in getting rid of rubbish. This resulted in some of the most extraordinary examples of unsightliness.

Conclusion.

In the very nature of things, maintenance of community cleanliness is a constant struggle by all agencies involved and by the public. Unless a certain tempo of activity is maintained, ground is quickly lost and becomes increasingly hard to regain.

The administrative pattern of the city government through the Health, Fire, Public Works and Police departments has been set up and clothed with adequate authority to attain a desirable standard of cleanliness. The recent successful clean-up drive represented the proper functioning of those several agencies. It represented also the cooperation of the public, an essential element in the picture. If the condition of the streets is not to slip back into its former state, the tempo of activity of these departments must be kept constant.

Respectfully submitted,

ALEXANDER WHEELER,
Chairman.

CONTRACTS AWARDED WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with several contractors and commercial firms for labor, supplies, etc. Requests for approval have been given in confirmation of the following communications from the heads of the departments interested:

PENAL INSTITUTIONS DEPARTMENT.

Boston, March 31, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Your permission is respectfully requested to award the contract, without advertising, for emergency repairs to Eastern Avenue Wharf, to William H. Ellis & Son Company, 479 Meridian street, East Boston, not to exceed \$1,302.

The condition of the flooring and underpinning of the wharf is such that serious damage could happen to a heavily laden truck, numerous trucks necessarily drive on the wharf each day.

The emergency repairs are as follows: Renewing old broken piles, oak braces, and other debris that overhangs the dock; install new piles in fender pier; install new walens; bolt up old piles adjacent to drop in main wharf and renew fender piles; fender chocks and other miscellaneous work.

The William H. Ellis & Son Company has done similar work for the city previously and is equipped to do the work well.

Very truly yours,

JOSEPH P. DONAHOE,
Penal Institutions Commissioner.

PUBLIC WORKS DEPARTMENT.

Boston, April 11, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Since 1941, so-called water waste surveys have been conducted for the department by The Pitometer Company of New York City, in Charlestown, City Proper, South Boston and the South End.

These surveys have revealed a considerable volume of underground leakage and also under-registration in the larger-sized meters, most of which measure the flow of water delivered to industrial properties. All of the contracts involving the above-referenced water waste surveys contained a provision to the effect that the City of Boston would pay only on the basis of water waste actually located and limiting the city's obligation to a specified amount, no matter how much waste water was located, in excess of the value represented by this specified amount. In each of the contracts, water waste was uncovered which represented a value to the department greatly in excess of the amount specified in each contract as the city's obligation. These surveys, therefore, have proved profitable to the department and it is my opinion that they should be extended to other sections of the city.

I have received a proposal from The Pitometer Company offering to conduct a water waste survey in the East Boston and Roxbury districts, with a stipulation that the city will pay only for water waste actually located and limiting the city's obligation in the two

districts to the sum of \$10,000. I feel that it is to the best interests of the city to accept this proposal, and I so recommend. There would be no advantage in publicly advertising for work of this kind because it is of a highly specialized and technical nature, and the price submitted would not be an important factor in considering the award of a contract.

I respectfully recommend, therefore, that you approve the awarding of a contract, without publicly advertising for bids, in the amount of \$10,000, to The Pitometer Company of 50 Church street, New York City, for conducting a Pitometer Water Waste Survey in so-called section No. 5 in the Roxbury district, and so-called section No. 14 in the East Boston district.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

BOSTON, April 18, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Under date of February 11 of the current year, your Honor approved the awarding of a contract, without publicly advertising for bids, but on the basis of public bids that were received last September 15, to the Rufo Construction Company of 1 Allen road, Brighton, in the estimated amount of \$8,500, for resurfacing the roadway of the Sumner Tunnel.

The maximum allowable amount of the above-referenced contract has been expended in prosecuting the work provided under the contract document, but the repair work has not been completed. It is absolutely essential, in the interests of public safety, to effect all necessary repairs to the roadway surface of the tunnel, and, in view of this, the work provided under the above-referenced contract must be continued.

After the maximum allowable amount of the contract had been expended by the contractor, we issued a service order to him in the amount of \$961, for effecting additional repairs, based on the contract prices, but this amount will not provide for the repairing of all defects in the roadway surface.

We estimate that it will cost an additional \$1,500 to complete the work, and I respectfully request, therefore, that you approve the issuing of service orders in the total amount of \$2,461, which includes the service order already issued, to provide for the repairing of defects in the roadway of the Sumner Tunnel at the current contract prices, to the Rufo Construction Company of 1 Allen road, Brighton.

It would not be practical nor advisable to publicly advertise for bids for this work, because the prices for which the contractor is now doing the work are reasonable, and it is essential to provide for a continuity in the roadway repair work. The present contractor has his equipment and materials on the job, is doing the work very satisfactorily, and it is reasonable to assume, therefore, that his present prices are less than could be obtained if we advertised for proposals for this work.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

POLICE DEPARTMENT ORDERS.

General Order No. 111.

The Superintendent of Police is hereby directed to make the following details for duty at the Presidential Primaries in this city on Tuesday, April 25, 1944.

1. Three patrolmen for duty in the office of the Board of Election Commissioners, 111 City Hall Annex, on arrival of ballots for the Presidential Primaries at 10 o'clock a. m., Monday, April 24, 1944, such details to continue until all ballots cast at the primaries have been received.

2. A detail of one patrolman for duty in parking area surrounding City Hall Annex at 4 o'clock p. m., Monday, April 24, 1944 (the night before primary day), to keep the entire area clear for the following morning, so that motor trucks, coming to the Election Commissioners' office for ballots at early hours on primary morning, will be able to park without interference or delay.

As twenty-four trucks arrive practically simultaneously in the early hours on Tuesday, it is essential that the entire area surrounding the Annex be kept clear throughout the night.

Note.

The Board of Election Commissioners states that the Traffic Commission has been written to for "No Parking" signs, to reserve space necessary for motor vehicles assigned to the Board on Tuesday, April 25, for election purposes.

3. An officer of rank above that of sergeant for duty at the City Hall Annex, to supervise the police detail for motor trucks from 5 o'clock a. m., Tuesday, April 25, 1944, until relieved, and a patrolman from 4 o'clock p. m., on the same date, until relieved, for duty at the same place, to keep clear the approaches to the office of the Board of Election Commissioners for motor vehicles returning from the polling places with ballot boxes, etc.

4. The necessary number of patrolmen from the several police divisions to attend the several polling places in this city on Presidential Primaries Day, to preserve order and protect voters in the full exercise of their rights.

Note.

The Superintendent will arrange for an interchange of patrolmen at the respective polling places on Presidential Primaries Day, as the Board of Election Commissioners has written to this office it has found that arrangement to be most satisfactory.

5. Twenty-four sergeants, one to a motor vehicle, to report at the office of the Board of Election Commissioners in ample season to be prepared to leave that office for their respective destinations, according to the following schedule, in such vehicle with ballot boxes, ballots, etc., and deliver such ballot boxes, ballots, etc., to the police officer detailed in each precinct.

SCHEDULE FOR HOURS OF DEPARTURE OF
SERGEANTS SO DETAILED FROM OFFICE
OF BOARD OF ELECTION COMMISSION-
ERS ON MORNING OF APRIL 25, 1944.

(One motor vehicle for each of the twenty-two wards, excepting Ward 1, East Boston, and excepting, also, Ward 18, Hyde Park, for which two trucks have been respectively engaged.)

Wards 1 to 7, both inclusive, 6 a. m.
Wards 8 to 10, both inclusive, 5.30 a. m.
Ward 11, 5 a. m.
Ward 12, 5.45 a. m.

Wards 18 to 17, both inclusive, 5.30 a. m.
Ward 18, 5.15 a. m.
Wards 19 and 20, 5.20 a. m.
Ward 21, 5.25 a. m.
Ward 22, 5.30 a. m.

6. For proper coordination in the delivery of ballot boxes, ballots, etc., by the sergeants, as herein set forth, to the police officers detailed at the various precincts, it is of the utmost importance that such sergeants leave the City Hall Annex promptly on time as per schedule.

7. One patrolman to report at each of the three hundred and ninety-five precincts, as hereinafter set forth, on Tuesday, April 25, 1944, to receive ballot boxes, ballots, etc., from the sergeants detailed on motor trucks.

From the opening to close of the polls, there shall be detailed an additional police officer outside of each of the three hundred and ninety-five (395) polling places in the city.

This provision is made to prevent alleged continued violations of the election laws relative to distribution of campaign literature within 150 feet of a polling place, and to remedy conditions at polling places, reported by the Board of Election Commissioners, which have brought complaints from voters to the effect that campaign workers and loiterers outside of the polls have hampered their progress to and from voting.

Note.

The Board of Election Commissioners points out that a candidate running on stickers (or his representative) may stand at the entrance to the polling place to distribute stickers.

In Ward 22, Precinct 3, from the opening to close of the polls an additional officer will be detailed outside the polling place, making two officers, in all, on the outside, at that location.

SCHEDULE OF THE HOUR FOR OFFICER TO REPORT IN EACH OF THE PRECINCTS TO RECEIVE BALLOT BOXES, BALLOTS, ETC., FROM SERGEANTS DETAILED ON MOTOR TRUCKS.

Ward 1, Precincts 9 to 11, both inclusive, Precincts 13 to 19, both inclusive, and Precinct 22, 6.15 a. m.
Ward 1, Precincts 1 to 8, both inclusive, and Precincts 12, 20, 21, 23 and 24, 6.30 a. m.
Ward 2, 6.30 a. m.
Ward 5, 6.30 a. m.
Wards 3, 4, 6 and 7, 6.45 a. m.
Ward 8, Precincts 1 to 6, both inclusive, and Precincts 15 and 16, 6 a. m.
Ward 8, Precinct 7, 6.15 a. m.
Ward 8, Precincts 8 to 14, both inclusive, 6.20 a. m.
Ward 9, Precincts 1 to 6, both inclusive, 6 a. m.
Ward 9, Precincts 7 to 16, both inclusive, 6.30 a. m.
Ward 10, Precincts 1 to 4, both inclusive, 6 a. m.
Ward 10, Precincts 5 to 11, both inclusive, and Precinct 17, 6.15 a. m.
Ward 10, Precincts 12 to 16, both inclusive, 6.30 a. m.
Ward 11, Precinct 1, 5.45 a. m.
Ward 11, Precincts 2 to 4, both inclusive, 6.30 a. m.
Ward 11, Precincts 5 to 12, both inclusive, 6.15 a. m.
Ward 11, Precincts 13 to 16, both inclusive, 6.30 a. m.
Ward 12, Precincts 1 to 4, both inclusive, 6 a. m.
Ward 12, Precincts 5 to 8, both inclusive, 6.15 a. m.
Ward 12, Precincts 9 to 11, both inclusive, 6.30 a. m.
Ward 12, Precincts 12 to 19, both inclusive, 6.45 a. m.
Ward 13, Precincts 1 to 5, both inclusive, 6 a. m.
Ward 13, Precincts 6 and 7, 6.15 a. m.
Ward 13, Precincts 8 to 12, both inclusive, 6.30 a. m.
Ward 13, Precincts 13 to 16, both inclusive, 6.45 a. m.

 Ward 22, Precincts 10 to 12, both inclusive, and Precincts 15 to 17, both inclusive, 6.40 a. m.
 Ward 22, Precincts 13 and 14, 7 a. m.

8. Commanding officers are to take notice that it is of the greatest importance, also, that the patrolmen herein detailed report at the polling places in the various precincts promptly according to schedule.

• Failure for any reason of an officer to be on hand at a polling place at the appointed time delays the sergeant in the motor vehicle in his delivery of the ballot boxes, ballots, etc., and interferes as is plainly seen, with the balance of the delivery schedule.

9. This detail of patrolmen at the various precincts will continue until the ballots are counted and the results declared. The officers are then to bring the ballots and returns to the Election Commissioners' office.

10. Cards with the ward and precinct number and location of voting booth printed thereon will be forwarded to the several police divisions, on which the division commander will write the name, the division number, and the number of the officer detailed at the time stated on the morning of April 25, 1944, at the voting booth of each respective precinct on his division. This card, to be given to the officer so detailed at the voting booth, will be retained in his possession until delivered by him to an employee of the Board of Election Commissioners, who will arrive accompanying a sergeant on motor vehicle from

the Election Commissioners' office on the morning of April 25, 1944, with the ballot boxes, ballots, etc., as hereinbefore stated.

This card, when returned by such employee to the office of the Election Commissioners will be its receipt that the ballot boxes, ballots, etc., have arrived at their proper destination.

11. On receipt by the patrolman from the sergeant, detailed on motor vehicle, as herein provided, of registering ballot box, ballots, voting lists and such other documents as may have been received from the Election Commissioners, the patrolman detailed at polling place will deliver same to the warden or clerk of the precinct, allowing no person to take or handle them before such delivery, and hand the key of the registering ballot box to the warden. On delivery of the ballots to the warden, the patrolman will take from him a receipt for the same, which receipt will be returned to the Election Commissioners.

12. After the warden has opened the box and allowed the election officers and the public to see that it is empty, the box is to be again locked and the key given to the patrolman who is to retain it until after the polls have closed, except that, at the request of the warden, the patrolman may allow him to open the box for the purpose of pressing down the ballots, in order to make room for more ballots after which the patrolman will see that the box is again locked, and the key returned to the police officer.

13. The patrolman will obtain from the warden copies of poster, which will be sent to the latter, in relation to smoking and the use of liquor in polling places, and post same in conspicuous places where they may be easily read. Tacks will be sent for the purpose.

14. The warden will deliver to the patrolman detailed at the polling place for his use at that place a copy of the descriptive voting list, which must be returned to the warden at the close of polls.

15. When the polls are opened, the patrolman will mark in the place indicated on tag attached to the key the figures which the register shows before any ballots are cast.

16. At 8 p. m., Tuesday, April 25, 1944, when the polls close, one sergeant will report in each of the 22 wards (excepting Ward 1, East Boston, and Ward 18, Hyde Park, for which wards two sergeants and two motor trucks, each, are provided), to meet motor vehicle at last point of morning distribution; thence to proceed to each of the several precincts in his respective ward, and receive registering ballot box (which must be locked) and key thereof, voting lists envelope, signed by the warden and other election officers, receipts for ballots, unused ballot box, sealed and certified (containing unused and spoiled ballots), stamps for marking spoiled ballots and check-lists, carry them to the Election Commissioners' office and deliver same to some member of the Board of Election Commissioners.

17. When the polls are closed, the patrolman will mark on the same tag the figures which the register shows after all ballots have been cast. He will then hand the key to the warden, who will open the box and take out all the ballots to be sorted and counted. The warden will then cause the voting lists,

including the list used by the police officer, to be sealed up in an envelope and the envelope certified by the signatures of himself and the other election officers and the same returned to the Election Commissioners, as described in section 16 of this order. The patrolman will not allow this envelope to be put into the ballot box. The sergeant who will report on motor vehicle will keep it about his person until delivery at the office of the Election Commissioners. The unused and spoiled ballots are then to be put into the box for unused ballots and the box sealed and certified, to be delivered to the office of the Board of Election Commissioners as set out in the paragraph immediately preceding.

18. When returning from polls, all motor vehicles must drive to the easterly side of City Hall Annex, Court square, where ballot boxes will be conveyed by chute to the basement.

19. It is important that the patrolman sees that the voting lists envelope is signed by the warden, clerk and all the inspectors. The patrolman will also see that the special book for signatures of voters is returned in the registering ballot box.

20. In case a patrolman is detailed to relieve another after the close of the polls, the commanding officer will see that he is properly instructed as to the duty of bringing the official return, the box of ballots cast, and the press return to the Election Commissioners' office as soon as they are delivered to him by the election officers.

21. When the ballots have all been counted, the ballots thus counted, tally sheets and nothing else (the ballots to be in their separate party boxes or envelope), shall be placed by the warden in the leatheroid box for that purpose, which must be sealed up and signed by all the election officers. The patrolman will particularly see that this box is properly sealed up and that all the election officers have signed their names to the certificate on the box. The patrolman will then bring the box, official return, record book and press return to the City Hall Annex, Court square, and deliver same to the Election Commissioners.

The patrolman is directed not to allow the official return, press return or record book to be placed in the leatheroid box with ballots cast, but are to be returned by the officer to the Board of Election Commissioners.

22. While the polls remain open, an officer of rank will visit the polling place in each division at stated intervals, to be designated by the captain, and in case of any disturbance will report the fact to the commanding officer of the station house without delay. If additional men are needed beyond the number available in that division, the officer in charge will communicate immediately with Headquarters.

23. Attention is called to the fact that the polls at the Presidential Primaries on Tuesday, April 25, 1944, shall open at 8 o'clock a. m., and close at 8 o'clock p. m.

24. Commanding officers of divisions will see that the officers detailed for duty on Presidential Primaries Day are furnished with a copy of the circular issued by the Board of Election Commissioners, entitled: "Instructions to Police Officers on . . . Primary Days."

25. The counting of ballots will be done on one table only with two inspectors counting and two inspectors watching the count.

Notes.

(A) Attention is again called to the last paragraph of the circular, "Instructions to Police Officers on . . . Primary Days," which reads: "The police officer is directed not to allow the official return, press return or record book to be placed in the leatheroid box."

On this subject the Board of Election Commissioners wrote on a previous occasion:

" . . . This matter is very important and we have stressed it for years; still we have difficulty in respect to it at every primary and election. This year we are again giving our election officers special instructions, and we believe that if the officer is alert he can remind the precinct workers that the three items named . . . (official return, press return and record book) are to be given to him to return to the office of the Election Commissioners."

The officer of rank who will visit the polling places in each division (provided for in section 22 of this order) shall, at an appropriate time, call to the attention of the police officer and of the warden on duty at the polls, that the official return, press return and record book are not to be placed in the leatheroid box.

They shall be handed to the police officers who will deliver them as set out in paragraph immediately following.

(B) The officer going to the office of the Board of Election Commissioners with the leatheroid box, after the counting of the ballots, will take with him, in a separate package, the official return, press return and record book, which he shall safely deliver to the Election Commissioners with the leatheroid box, as provided in section 21 of this order.

(C) The police shall enforce the order that smoking is prohibited within the confines of the polling places, during the entire day, while the polls are open, as well as after they are closed.

The Board of Election Commissioners makes special request that the officers detailed at the 395 precincts be instructed to see that this is enforced.

As polling places and their approaches and exits are, in many instances, in buildings used for places of religious worship, to say nothing of the danger to valuable property from careless persons, the importance of these instructions is apparent.

Commanding officers will take notice of the following comments contained in a letter to the Police Commissioner, dated October 23, 1942, from the Board of Election Commissioners:

"The law prohibits smoking in any polling place—after the polls are closed as well as while they are open.

"We request that the officers be reminded that it is their duty to assist the warden in enforcing this law. Since the recent primaries we have received several complaints from owners of private property used for polling to the effect that smoking was prevalent at the primaries. This violation of the law must not be permitted to continue. We have had letters from members of the boards of two churches warning us that if smoking continues we will have to vacate the premises.

"We trust that you will stress this matter with the officers."

(D) The following matter was on a previous occasion brought particularly to

the attention of the Police Commissioner in writing by the Board of Election Commissioners.

Commanding officers will see that this cause of complaint, if it again occurs, is corrected.

"During the hours from 6 p. m. to 8 p. m. there has been a large increase in the number of persons who congregate outside the polling places. This makes it disagreeable to voters who are entering and leaving the polling places. May we ask that the police use every effort to relieve this congestion?"

(E) Under date of October 27, 1939, the Board of Election Commissioners wrote to the Police Commissioner as follows:

"We also request that the officers assigned to the polls be reminded that it is the privilege of the voters to watch the count of votes cast; the law specifically states 'The voting lists and all ballots removed from the ballot box shall be kept in open view of the voters present until enclosed and sealed up, and all proceedings in the canvass and counting of votes shall be public and in open view of the voter.'

"It is understood, of course, that no disturbance or crowding is to be allowed and that the voters are to remain outside the rails."

(F) In letter dated April 3, 1944, to the Police Commissioner from the Board of Election Commissioners, the following comment was made:

"We also request that the officers be reminded of the necessity of handling ballot boxes with care.

"Under present conditions, this is more essential than ever, since we find that it is very difficult to replace boxes because of wartime shortages of materials."

(G) The Board of Election Commissioners calls attention to the fact that in three instances there are two precincts now located in the same building.

The Board is of opinion that officers assigned should be apprised of this fact, so that they may assist voters who are confused by proximity of the two polling places. The locations are as follows:

Ward 3. Precincts 13 and 14 are in the Health Unit on North Margin street (in this case, the two precincts are in different ends of the same room).

Ward 5. Precincts 14 and 15 are in the Martin Milmore School (Precinct 15 to use the Peterborough-street entrance and Precinct 14 to use the Kilmarnock-street entrance).

Ward 16. Precincts 18 and 19 are in the Old Dorchester Post, 500 Gallivan Boulevard (Precinct 18 is on the first floor and Precinct 19 on the second floor of the building).

Change in the Law.

(H) The Board of Election Commissioners, under date of April 3, 1944, wrote to the Police Commissioner as follows:

"The officers should be reminded of a change in the law affecting the closing of the polls. (This law was operative at the City Election in November, but we feel it is well to bring it to the attention of the men again at this time.)

"At the close of the polls all voters who are waiting to vote (including any who might be in line at the entrance to the polling place) are to be given cards bearing their names by the Warden and placed in a line.

"A police officer is to stand at the end of the line to be certain that persons not present at the close of the polls are not permitted to join the line.

"All voters in the line are to be permitted to vote, and when the last group enters the marking compartments they are to be permitted five minutes to mark their ballots."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 112.

Daniel F. Curran, former member of the Police Department of the City of Boston, retired under General Order No. 34, effective as of December 29, 1943, for physical disability, having under the provisions of chapter 3 of the Acts of 1929 submitted to an examination by the Medical Board designated by said act, and having been certified by said board as both physically and mentally fit for service in the Police Department of the City of Boston, is hereby restored to duty as a patrolman in the Police Department of the City of Boston, in the same grade as at the time of his retirement, with pay at the rate of \$2,300 per annum.

The said Daniel F. Curran will be notified in writing by the Superintendent of Police to report for duty at Station 3, Monday, April 24, 1944, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 113.

The resignation of Provisional Temporary Patrolman Haleem M. Abusheery of Division 6 having been presented, it is hereby accepted, to take effect as of Wednesday, April 19, 1944, at 7.45 o'clock a. m., seven days' notice waived.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 114.

The resignation of Provisional Temporary Patrolman John E. Doran of Division 11 having been presented, it is hereby accepted, to take effect on Sunday, April 30, 1944, at 7.45 o'clock a. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

TRAFFIC COMMISSION RULING.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be two (2) weeks, vehicles are excluded from the following street, effective April 18, 1944:

Stuart Street, Boston Proper.

From Dartmouth street to Huntington avenue.

PROCEEDINGS OF CITY COUNCIL.

Monday, April 17, 1944.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. Fish, Hurley, Scannell.

The meeting was opened with the salute to the Flag.

Coun. D. F. SULLIVAN in the chair.

DEMOLITION OF UNSAFE STRUCTURES.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Board of Real Estate Commissioners, relative to your order of March 27, 1944, regarding the demolition of all unsafe and obsolete structures which are under their control.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Real Estate Commission, April 5, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

My dear Mr. Mayor,—In answer to the City Council order of March 27, 1944, requesting that this department arrange for the demolition of all unsafe and obsolete structures which are under our control, I wish to state that this office is constantly on the lookout for unsafe and unsound buildings under our jurisdiction.

All such buildings are immediately demolished, and to the best of our knowledge we haven't any of these buildings under our control at the present time.

Very truly yours,

DANIEL M. DRISCOLL, Chairman.
Placed on file.

PENSION ON HALF PAY AFTER TWENTY YEARS' SERVICE.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel, relative to your order of March 27, 1944, regarding legislation, whereby city employees may be permitted to accept a pension by the city on half pay after twenty years of service in order to create vacancies for returning veterans.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Law Department, March 31, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—This will acknowledge receipt for my consideration and report of the order of the City Council of March 27, 1944, requesting that a petition be prepared for presentation to the next General Court, seeking legislation permitting the City of Boston to retire on pension at one-half of their compensation employees who have been in the service of the city for twenty years, in order that vacancies may be thereby effected to be filled by returning veterans.

This matter has been placed in the legislative file of this department and will receive consideration when the legislative program for the next General Court is being prepared.

Yours very truly,

FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

ASSISTANCE TO OLD AGE ASSISTANCE RECIPIENTS.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Welfare Department, relative to your order of March 13, 1944, regarding arrangements for a system whereby there will be prompt and efficient assistance given to Old Age Assistance recipients who are in need of false teeth, eyeglasses and other necessities which they are entitled to under the old age assistance law.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Overseers of Public Welfare,
April 10, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—This department has received your communication of March 15, 1944, with inclosed copy of the order of the City Council dated March 13, 1944, reading as follows:

"Ordered, That the Boston Overseers of Public Welfare be requested, through his Honor the Mayor, to make arrangements for a system whereby there will be prompt and efficient assistance given to Old Age Assistance recipients who are in need of false teeth, eyeglasses and other necessities which they are entitled to under the old age assistance law."

The Board of Overseers of the Public Welfare wishes to advise the Council, through you, that every attention is given in all cases that are handled through this department to see that medical appliances, dentures, eyeglasses, etc., are given as soon as proper medical certification for the need is complete.

Sincerely yours,

WILLIAM G. O'HARE, Secretary.

Placed on file.

SIDEWALKS ON CANTERBURY STREET, WARD 18.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order of March 27, 1944, regarding the construction of tarvia sidewalks on the southerly side of Canterbury street, from Hyde Park avenue to Poplar street, in the Roslindale section of Ward 18.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
April 3, 1944.
To Arthur C. Carey, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.

Subject: Canterbury Street, Ward 18.
I return herewith order in City Council that the Commissioner of Public Works construct tarvia sidewalks on the southerly side of Canterbury street, from Hyde Park avenue to Poplar street, in the Roslindale section of Ward 18, and this will advise you that this street and some adjoining streets that were used by the contractors in the hauling of filling to the Navy Base during the past three years were submitted to the War Production Board for approval for reconstruction during the year 1943.

The approval was received too late to advertise for bids to do the work last fall and it is the intention of this department to construct these streets during the year 1944.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

PAYMENT FOR OVERTIME.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Budget Commissioner, relative to your order of March 6, 1944, regarding the payment of overtime to city and county employees instead of time off.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Budget Department, March 23, 1944.
To Hon. Maurice J. Tobin, Mayor, Mayor's Office.
From Herman L. Bush, Commissioner, Budget Commissioner.

Subject: City Council Order March 6, 1944, Regarding the Payment of Overtime to City and County Employees Instead of Time Off.

With reference to the subject covered above, permit me to state that payment of overtime is now being paid, and has been for some time, to city and county employees wherever practical.

HERMAN L. BUSH,
Budget Commissioner.

Placed on file.

BASEBALL DIAMONDS ON MURPHY AND CONNOLLY PLAYGROUNDS.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, relative to your order of April 3, 1944, regarding improvements to the baseball diamonds on the John W. Murphy and John J. Connolly Playgrounds.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Park Department, April 13, 1944.
Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—I have your memorandum of April 6, with inclosure, order from the City

Council regarding improvements to the baseball diamonds on the John W. Murphy and John J. Connolly Playgrounds.

I have issued instructions to the Director of Recreation to have these playgrounds cared for immediately.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

RESURFACING OF CERTAIN WARD 15 STREETS.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order of March 20, 1944, regarding the resurfacing of streets in Ward 15.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
April 3, 1944.
To Arthur C. Carey, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.

Subject: Streets in Ward 15.
I return herewith order in City Council that the Commissioner of Public Works resurface the following streets in Ward 15:

Blakeville street, Clarkson street, Stonehurst street, Speedwell street, Longfellow street.

This will advise you that these streets will be given consideration for construction this year.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

DUST NUISANCE, CORNWALL STREET PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Department, relative to your order of April 3, 1944, regarding the removal of dust nuisance from the Cornwall Street Playground.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Park Department, April 13, 1944.
Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—I have your memorandum of April 6, with inclosure, order from the City Council regarding the removal of dust nuisance from the Cornwall Street Playground.

Please be assured the Park Department will make arrangements to spread calcium chloride over this area at a later date when the conditions warrant it.

Very truly yours,
WILLIAM P. LONG, Chairman.

Placed on file.

BYRON STREET BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order of March 27, 1944, regarding the inspection of the Byron Street Bridge for the purpose of determining the approximate weight that it can hold and also its condition from a safety standpoint.

Respectfully,

JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
April 12, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council under date of March 27:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to inspect the Byron Street Bridge for the purpose of determining the approximate weight that it can hold and also its condition from a safety standpoint."

The above-referenced bridge was constructed over the right-of-way of the Boston, Revere Beach & Lynn Railroad, about 1890, and since that time has been kept in repair by the city. The last major repairs were effected in 1933, and a recent examination discloses that only minor repairs are necessary at the present time, and this work will be done by department forces in the near future.

The bridge, from a structural point of view, is safe, and is capable of supporting conventional truck loadings not in excess of twelve tons.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

MOTORCYCLE PATROL IN SUMNER TUNNEL.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order of February 7, 1944, regarding the assignment of a motorcycle patrol to the Sumner Tunnel during rush hours week days.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
April 10, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council: "Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to assign a motorcycle patrol to the Sumner Tunnel during rush hours on week days."

Motorcycles, in my opinion, are a hazard, not only to the operator, but also to the operators of other vehicles when they are used on the public highways, and they would present a distinct hazard if operated through the tunnel as a patrol. In view of this, I do not feel that it is advisable to comply with the above-referenced provisions.

Steps are being taken, however, to provide for the assignment of a vehicle to the tunnel which not only will act in the capacity of a patrol car, but which can also be used as a vehicle to shift guards assigned to the cat-walk, and also as an ambulance capable of transporting three stretcher cases. One of the ambulance bodies given to the local Safety Committee by the O. C. D. in Washington is to be installed on one of the department's chassis, and is to be used for the above-referenced purposes. The ambulance body, normally, is capable of handling four stretcher cases, but we have removed one of the stretchers and we have substituted a bench for it, in order that it can be utilized in shifting the tunnel guards. The ambulance will still be able, however, as stated above, to handle three stretcher cases, and it can be used not only in connection with accidents that might occur in the tunnel, but also as an auxiliary to the ambulances stationed at the East Boston and North End police stations.

As soon as the above-referenced combination ambulance-patrol car is ready for use, I shall notify the police captains in the North End and East Boston stations to that effect, and inform them that it will be available for their use as an auxiliary to the combination patrol car-ambulance assigned to each of the two police stations.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

GRANOLITHIC SIDEWALKS, WARD 17.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order of April 3, 1944, regarding the installation of granolithic sidewalks on streets in Ward 17.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
April 10, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council under date of April 3:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install granolithic sidewalks on the following streets in Ward 17: Bailey street and Idaho street."

An immediate survey will be made to determine the necessity of installing granolithic sidewalks in the above-referenced streets.

If the investigation determines that the above-referenced work is necessary, every reasonable effort will be made to have the improvements effected during the current year, consistent with the budgetary appropriation for the installation of granolithic sidewalks.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

RESURFACING OF ROSA STREET, WARD 18.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order of March 27, 1944, regarding the resurfacing of Rosa street in the Hyde Park section of Ward 18, also the construction of suitable sidewalks thereon.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
April 13, 1944.

To Arthur C. Carey, Chief Clerk, Mayor's Office.
From George G. Hyland, Commissioner, Public Works Department.
Subject: Rosa Street.

I return herewith order in City Council that the Commissioner of Public Works resurface Rosa street, in the Hyde Park section of Ward 18, and also to construct suitable sidewalks thereon.

The public part of this street will be given consideration for construction this year.

As to the sidewalks, this will advise you that we are unable to construct a new concrete sidewalk on any street without the approval of the War Production Board.

This work would be assessable to the abutting owners.

GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

CLEANING OF CATCH-BASINS, WARD 11.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Public Works Commissioner, relative to your order of April 3, 1944, regarding the cleaning of all catch-basins in Ward 11.

Respectfully,
JOHN E. KERRIGAN,
Acting Mayor.

City of Boston,
Public Works Department,
April 10, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Mr. Carey,—This is in reference to the following order that was passed in the City Council on April 3:

"Ordered, That his Honor the Mayor request the Public Works Commissioner to clean all catch-basins in Ward 11."

There is no appropriation in the current budget providing for the cleaning of catch-basins under the contract system. Under the circumstances, therefore, all catch-basins to be cleaned this year must be done by department forces. We have not the personnel nor the equipment to clean all of the 23,000 catch-basins that are located in the city, nor could we, in fairness to the other wards, concentrate our activities in Ward 11.

In view of this, it will be impossible for the department to comply with the provisions of the above-referenced order, although we will make a survey in Ward 11 to determine what catch-basins are blocked and need cleaning. I assume that we shall be able to clean all basins that do not discharge surface water that flows to them.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

CONSTABLES AUTHORIZED TO SERVE CIVIL PROCESS.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Subject to confirmation by your Honorable Body, I hereby appoint the following-named persons, constables of the City of Boston for the term of one year, beginning with the first day of May, 1944, authorized to serve civil process upon filing bond.

The commissions of constables authorized to serve civil process not named herein expire on April 30, 1944, and such constables are hereby removed from office from and after May 1, 1944, for the good of the service.

Respectfully,
MAURICE J. TOBIN, Mayor.

Laid over for one week under the law.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Willmar O. Damm, for compensation for loss of clothing at City Hospital.

James W. Fennell, to be reimbursed as result of accident which occurred while in performance of duty.

Fred A. Guinasso, for compensation for damage to uniform by paint at City Hall.

Anne A. Kelley, for compensation for injuries caused by an alleged defect in Frawley street.

Carl Leoncello, for compensation for damage to property at 78 Business street, Hyde Park, caused by water from street.

Joseph L. McGovern, to be reimbursed as result of accident which occurred while in performance of duty.

Vincent J. Shanley, to be reimbursed as result of accident which occurred while in performance of duty.

Helena R. Wessling, for compensation for injuries caused by an alleged defect at 1882 Centre street.

Ethel H. Hindley, for compensation for damage to property at 30 Chestnut street, caused by ash truck.

CHILDREN'S PERMIT.

A petition was received of the Community Recreation Service for certain children to appear at New England Mutual Hall on April 27, 28, 29, 1944, and it was voted that a permit be granted on the usual conditions.

CONFIRMATION OF APPOINTMENTS.

Chairman D. F. SULLIVAN called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on annual list of appointments by the Mayor of Weighers of Coal and other minor officers paid by fees, as contained in City Document No. 44.

The question came on confirmation of the appointments. Committee, Coun. McCormack and Kinsella. Whole number of ballots 12; yes 12, and the appointments were confirmed.

PHOTOSTATING DISCHARGE PAPERS OF VETERANS.

Coun. McCormack, for Coun. SHANNON, offered the following:

Ordered, That his Honor the Mayor be requested to direct some city department having appropriate facilities to photostat free of charge the discharge papers of all veterans desiring said service.

Passed under suspension of the rule.

REPAIR OF BENCHES, CHARLESTOWN.

Coun. KINSELLA offered the following:
Ordered, That the Board of Park Commissioners be instructed, through his Honor the Mayor, to proceed to the repair of benches, etc., in the Doherty Heights Playground and in the Training Field in Charlestown.
Passed under suspension of the rule.

NOTIFICATION OF COUNCILORS OF REAL ESTATE TRANSACTIONS.

Coun. DWYER, for Coun. HANNON, offered the following:
Ordered, That his Honor the Mayor direct the Supervisor of the City Real Estate Division to notify the councilor representing the district before entering into any binding agreement for the lease or sale of property located within that district.
Passed under suspension of the rule.

RECESS.

The Council voted at 2.31 p. m., on motion of Coun. TAYLOR, to take a recess subject to the call of the Chair. The members reassembled and were called to order by Chairman D. F. SULLIVAN at 5.15 p. m.

REPORT OF COMMITTEE ON CLAIMS.

Coun. KELLY, for the Committee on Claims, submitted the following:

1. Report on petition of Howard A. McViney (referred April 3) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor vehicle belonging to Police Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of two hundred fifty dollars (\$250) be allowed and paid to Howard A. McViney in reimbursement for amount of execution issued against him on account of his acts as operator of a motor vehicle belonging to the Police Department, said sum to be charged to the Contingent Fund.

Report on petition of Howard A. McViney (referred April 3) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor vehicle belong to Police Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of seventy-five dollars (\$75) be allowed and paid to Howard A. McViney in reimbursement for amount of execution issued against him on account of his acts as operator of a motor vehicle belonging to the Police Department, said sum to be charged to the Contingent Fund.

Report on petition of Howard A. McViney (referred April 3) to be reimbursed for amount of execution issued against him on account of his acts as operator of motor vehicle belonging to Police Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of fifty dollars (\$50) be allowed and paid to Howard A. McViney in reimbursement for amount of execution issued against him on account of his acts as operator of a motor vehicle belonging to the Police Department, said sum to be charged to the Contingent Fund.

2. Report on petition of John J. Leonard (referred March 27) to be reimbursed for amount of execution issued against him on account of his acts as a member of Police Department—recommending passage of accompanying order, viz.:

Ordered, That the sum of six hundred fifty-two dollars and twenty-three cents (\$652.23) be allowed and paid to John J. Leonard in reimbursement for amount of execution issued against him on account of his acts as a member of the Police Department, said sum to be charged to the Contingent Fund.

Reports accepted; said orders passed.

EXECUTIVE COMMITTEE REPORTS.

Coun. HANLEY, for the Executive Committee, submitted the following:

1. Report on petition of Annie F. Fleming (referred January 17) to be paid annuity on account of death of her husband, Charles J. Fleming, late member of Fire Department, recommending passage of accompanying order, viz.:

Ordered, That under the provisions of chapter 306 of the Acts of 1943 an annuity of one thousand dollars be allowed and paid to Annie F. Fleming, widow of Charles J. Fleming, a member of the Fire Department, who died on December 11, 1943, on account of injuries received in the performance of his duty, said annuity to continue so long as she remains unmarried; the payments to date from December 11, 1943, and to be charged to the appropriation for Fire Department, Pensions and Annuities.

Report accepted; said order passed.

2. Report on order (referred April 10) that Mayor be requested to confer with Housing Authority relative to more equitable manner of determining rents to be paid by tenants, etc.—that same ought to pass.

Report accepted; said order passed.

3. Report on order (referred April 10) that Housing Authority delay putting into effect recent increases in rent, etc.—that same ought to pass.

Report accepted; said order passed.

URGING OF PASSAGE OF BONUS, REHABILITATION AND HOSPITAL BILLS FOR VETERANS.

Coun. KELLY offered the following:
Whereas, There are hundreds of thousands of service men and women residents of Boston and Massachusetts ready to give their lives to protect us;

Whereas, These patriotic service men and women have made all kinds of sacrifices and for the duration of the war will continue to make sacrifices, including permanent injuries and death to many thousands;

Whereas, It is of major importance to keep the morale of our service men and women at the highest possible level and let them publicly know that we at home wholeheartedly appreciate all their sacrifices;

Whereas, Last week the Massachusetts Legislature (which is still in session) heartlessly and thanklessly defeated many worthy veterans' bonus bills; be it

Resolved, That the Boston City Council wholeheartedly favors the immediate passage by the Massachusetts Legislature of an appropriate soldiers' bonus bill. Also an intelligent rehabilitation program for returning veterans and an adequate construction plan for sufficient hospital facilities so that our wounded and sick veterans who are returning daily and who will continue to return in greater numbers daily to our city and state, may be properly cared for; be it further

Resolved, That on passage of this resolution a copy be immediately forwarded to all members of the Massachusetts Legislature so that before adjournment they may reconsider their votes against the interests of the veterans; be it further

Resolved, That his Excellency the Governor, as Commander in Chief of our Commonwealth, be advised not to prorogue the Legislature until they have approved a fair bonus bill for the veterans and have enacted laws providing for veterans' rehabilitation and proper hospital facilities.

Coun. KELLY—Mr. President, I know that the hour is getting late. But the Legislature is still in session and will be in session tomorrow. Therefore, I ask a suspension of the rule and the passage of the resolution, and that copies of same be sent to members of the Massachusetts Legislature.

The rule was suspended and the resolutions were passed.

REGULATIONS RE STORAGE AND DISPOSAL OF MANURE.

Coun. McCORMACK offered the following:
Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to immediately adopt suitable and proper regulations pertaining to stables and the handling, storage and disposal of manure, and to duly publish and promulgate such regulations.

Passed under suspension of the rule.

STAGNANT POOLS OF WATER, WARD 18.

Coun. FEENEY offered the following:
Ordered, That the Health Commissioner be requested, through his Honor the Mayor, to immediately remedy the unhealthy condition existing in the lowlands of the Wood avenue district of Ward 18, bounded by Edwards street,

Fraser street and Wood avenue, by eliminating the stagnant pools of water which are breeding places for mosquitoes and whose bites may possibly result in malaria infections.

Passed under suspension of the rule.

BUS STOP AT CROSS AND HANOVER STREETS.

Coun. COFFEY, for Coun. RUSSO, offered the following:

Ordered, That the Boston Elevated Railway Trustees be requested, through his Honor the Mayor, to consider the advisability of making an additional stop on the bus line for passengers at Cross street, corner of Hanover street, who are en route to Haymarket square.

Passed under suspension of the rule.

COMMEMORATION OF MEN IN MERCHANT MARINE.

Coun. COFFEY offered the following:
Whereas, The men in the Merchant Marine are engaged in conveying troops and merchandise to the far flung battle fronts of the world; and

Whereas, The men in the armed forces who gave their lives for their country have been honored by a scroll on the Boston Common; and

Whereas, Many merchant seamen from this area have paid the supreme sacrifice in the service of their country; be it

Resolved, That the members of the Boston City Council in meeting assembled go on record as advocating the same honor for the men in the Merchant Marine; and be it further

Resolved, That this commemoration take place on Maritime Day.

Coun. COFFEY presented letters in support of the resolution and on motion of Coun. COFFEY the resolutions were passed and the letters were ordered printed in the minutes.

National Maritime Union of America,
Affiliated With the Congress of Industrial Organizations,
National Headquarters,
346 West 17th Street,
New York, N. Y.

April 14, 1944.

Hon. James S. Coffey,
City Council.

Dear Mr. Coffey,—In support of the resolution which was presented to you yesterday, we inclose herewith, a letter from Telfair Knight, Assistant Deputy Administrator of Training, War Shipping Administration.

We also wish to send to you the following statement of facts:

Over 2,200 seamen who live in the Greater Boston Area were shipped through the NMU hall in the past year. We estimate that 1,000 to 2,000 seamen additionally from the Greater Boston Area are members of our Union but shipped from other ports during the past year.

Seafaring has been the foundation of our New England prosperity.

Four hundred ninety-three Massachusetts men are dead, missing or prisoners of war at the end of February, 1944, which is the second highest state death toll.

Fraternally,
ROBERT MILLS,
Port Agent.

COMPARISON OF GROSS INCOME OF MERCHANT SEAMEN WITH NAVY ENLISTED MEN AFTER DEDUCTION OF INCOME TAXES.

	Navy Seaman 1/c.	Navy Petty Officer 2/c.	Ordinary Seaman.	Able Seaman.
Monthly Pay (wife and two children).....	\$157 20	\$193 20	\$197 50	\$231 25

Income after Tax.....	\$1,886 40	\$2,308 68	\$1,897 70	\$2,132 28

It will be noted that the ordinary seaman and seaman, first class, compare favorably, as do the petty officer, second class, and the able seaman.

There are some other major differences on the question of compensation which are not direct pay but still are definite factors. A merchant seaman who is totally and permanently disabled will be paid benefits at the rate of \$100 per month until the disability has ceased or until a total of \$5,000 is paid, whichever first occurs. Where the disability has been established so that it will continue to remain permanent, an additional benefit of \$100 per month is paid to the insured until a total of \$2,500 more is paid. Payment then stops with no further extension of benefits. The cash value of such insurance which provides for only seventy-five monthly payments of \$100 to one who is totally or permanently disabled is \$6,290. A member of the Armed Guard who is a petty officer, third class (medium grade for Armed Guard), who is physically incapacitated and medically surveyed will receive a payment of \$58.50 per month for so long as he lives. At the age of twenty-five the cash value of such an annuity is approximately \$11,500. It will be noted above that the merchant seaman must be *totally and permanently* disabled, while the Navy man needs only to be *physically incapacitated* and can supplement his pension by working at a civilian job which cannot be done by a merchant seaman who is *totally and permanently* disabled.

To the dependents of merchant seamen killed goes a flat sum of \$5,000. To the dependents of a Navy man killed goes the base pay for six months. This, for the petty officer, third class, would be \$468. However, his dependents would be eligible for pensions for the rest of their lives on varying scale but roughly as follows:

Wife, \$50; first child, \$20; second and additional children, \$10 each.

The wife would draw this pension for life or until she remarries. The children would draw the pension until their eighteenth birthday.

If a man leaves a wife, age twenty-five (life expectancy 44.73 years) she would receive, if she remained unmarried, \$50 per month for forty-five years, or the sum of \$27,000. Taking remarriages into consideration, the average widow would receive a total of \$15,350. If he leaves in addition, two children, five and three years of age, they would receive totals of \$3,120 and \$1,800. The amount of money to purchase an annuity based on the above averages would be \$15,300 which could be called insurance.

In addition, the Navy seaman has the privilege of purchasing additional National Service Life Insurance up to an amount of \$10,000 for a premium of less than \$1 per month per \$1,000. This low priced insurance he may continue to carry even after leaving the service. A merchant seaman is permitted to purchase additional insurance up to an amount of \$15,000 for which a premium of \$2 per month per \$1,000 is charged. However, this insurance is on a month to month basis and cannot be continued while the seaman is ashore. The insurance applies only while on the vessel. If a merchant seaman is hit by a truck while ashore, he receives no compensation for being incapacitated even though injuries received make him totally incapacitated. A Navy man's insurance is applicable in such a case.

In addition to all the above very material differences, there are many other benefits accruing to Navy personnel which have a definite monetary value. Some of these are free medical attention for the dependents of Navy seamen and the privilege of hospitalization of dependents at the very nominal rate of \$3.75 per day for any cause. This includes all medical attention, medicine and other expenses. Confinement cases for wives of petty officers, third class, and below are free of charge. A Navy man below chief petty officer receives an initial issue of approximately \$133 worth of clothing. Every quarter after the first year he receives an allowance of \$8.75 for clothing. The merchant seaman pays for his own. The Navy man who elects to make a career of the Navy is also eligible for a pension upon his retirement after a specified number of years of service. There is no provision by which merchant seamen can serve any number of years or be eligible for any pension. Free postage, the reduced furlough rates for travel, reductions on theater tickets and on meals while traveling, and other privileges are benefits which in time do total an appreciable amount.

We realize that this is a rather lengthy letter, but we also feel sure that in all fairness you will appreciate being advised of the facts. The commonly accepted opinion that merchant seamen are too well paid is thus seen to be a myth, and it would be appreciated if the American Legion could help to dispel this myth by advising all its posts of the true facts in the case. The men who are merchant seamen are men from the same towns and homes as the men in the Army and Navy. Their services to their nation are important, and we feel sure you will agree now that the facts are known that they are not overpaid. Many are sons of members of the American Legion and many are veterans of the last war. I, myself, am a member of the American Legion and know that the Legion is interested in fair play and justice.

Your cooperation in dispelling the misconception in regard to merchant seamen's pay will be greatly appreciated.

Very truly yours,
TELFAR KNIGHT,
Assistant Deputy Administrator for Training.

RESURFACING SUMMIT STREET, WARD 18.

Coun. FEENEY offered the following:
Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to resurface Summit street, in the Roslindale section of Ward 18.

Passed under suspension of the rule.

REPAIR OF YARD IN REAR OF PIERCE SCHOOL, WARD 17.

Coun. KEENAN offered the following:
Ordered, That the Department of School Buildings be requested, through his Honor the Mayor, to arrange for the prompt repair of the yard in the rear of the Henry L. Pierce School on Washington street, Ward 17.

Passed under suspension of the rule.

TWENTY-FOUR-HOUR OPENING OF EAST BOSTON RELIEF STATION.

Coun. COFFEY offered the following:
Ordered, That the trustees of the Boston City Hospital be requested, through his Honor the Mayor, to reopen the East Boston Relief Station on a twenty-four-hour a day basis.

Passed under suspension of the rule.

GARBAGE REMOVAL, WARD 11.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor request the Public Works Commissioner to compel the contractor or contractors to comply with their contract of removing the garbage in Ward 11.

Passed under suspension of the rule.

HOUSING FACILITIES FOR FAMILIES OF SERVICE MEN.

Coun. CHASE offered the following:
Whereas, There are thousands of Boston families of men in the armed services who are having extreme difficulty in securing proper housing facilities due to their inability to pay normal rents; and

Whereas, This inability is due to the fact that their husbands and fathers and sons are in the armed services of the United States and their government allotments are insufficient to pay normal rents; therefore, be it

Resolved, That the Boston City Council in regular meeting assembled respectfully urges the United States Congress to conduct an immediate investigation of Federal Housing Projects in Boston with a view to ousting high salaried war workers and replacing them with needy families of the men in the armed forces of the United States; and be it further

Resolved, That a copy of this resolution be sent to the Massachusetts members of the United States Congress.

The resolutions were passed under suspension of the rule.

REQUESTED REDUCTION OF POINTS FOR MEAT AND BUTTER.

Coun. HANLEY offered the following:
Ordered, That his Honor the Mayor consider the advisability of requesting the O. P. A. to reduce the number of points required for meat and butter or declare a moratorium period, thus removing a prevalent glut on the market, stop spoilage and lessen the temptation of Black Market.

Passed under suspension of the rule.

REQUESTED INVESTIGATION OF APPELLATE TAX BOARD.

Coun. HANLEY offered the following:
Ordered, That the Boston Finance Commission conduct an immediate and thorough investigation of the Appellate Tax Board in view of the constant number of appeals each year since its inception, the number of decisions rendered in favor of the petitioner with the corresponding loss in taxation to the city, thus bringing it to the brink of financial chaos.

Passed under suspension of the rule.

PAINTING OF CROSSWALKS, WARD 7.

Coun. D. F. SULLIVAN, for Coun. KERRIGAN, offered the following:

Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to repaint all cross walks in Ward 7, South Boston and Dorchester.

Passed under suspension of the rule.

CLEANING OF WARD 7 CATCH-BASINS.

Coun. D. F. SULLIVAN, for Coun. KERRIGAN, offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately arrange for the cleaning of all catch-basins in the Ward 7 section of South Boston and Dorchester.

Passed under suspension of the rule.

REMOVAL OF RESTRICTIONS ON COLUMBIA ROAD.

Coun. D. F. SULLIVAN, for Coun. KERRIGAN, offered the following:

Ordered, That the Park Commission be requested, through his Honor the Mayor, to remove all existing restrictions on Columbia road, between G and I streets, South Boston.

Passed under suspension of the rule.

Adjourned, on motion of Coun. KEENAN, at 5.40 p. m., to meet on Monday, April 24, 1944, at 2 p. m.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

To vacate the basement of the building as it is not provided with exits satisfactory to the Building Commissioner and the use of the said basement as a woodworking shop constitutes a danger to the occupants.

Based on the approval by John E. Kerrigan, Acting Mayor, to raze the building at 42 Lovering street, Ward 3, an agreement with the New England Building Wrecking Company, 31 State street, Boston, has been approved.

On March 1, 1944, it was reported by the district building inspector that sections of the underpinning of the building at 111 Cowper street, Ward 1, had been removed, leaving the structure in danger of collapse. Therefore, for the protection of the public, the Mystic Building Wrecking Company of 203 Everett avenue, Chelsea, was ordered to enter the premises and remove the building.

Demolition operations have been completed in accordance with the regulations of the Boston Building Department and a bill in the amount of \$45 submitted for work performed has been approved.

On February 3, 1944, to provide for the safety of the public, A. J. McGillivray of 14 Kenwood street, Dorchester, was ordered to board up and secure all windows and doors in the cellar and on the first floor of the building at 2 Mystic street, Ward 2, reinforce existing ties in the front wall, remove glass in entrance doors and replace same with wood panels.

Work was completed to the satisfaction of the Boston Building Department and a bill in the amount of \$52.50 submitted and approved.

Due to the structurally unsafe condition of the building at 168 Centre street, Ward 11, to enter the premises and remove the building.

Due to the structurally unsafe condition of the building at 45 Wall street, Ward 3, to enter the premises and remove the building.

Due to the structurally unsafe condition of the retaining wall at 187 Highland street, Ward 11, which retains the soil of the lot numbered 185 Highland street, to enter the premises and make safe the retaining wall.

PROCEEDINGS OF SCHOOL COMMITTEE.

Apr. 4, 1944.

A meeting of the School Committee of the City of Boston was held in the Administration Building, 15 Beacon Street, at 6:05 p. m., the Chairman presiding.

Present: Messrs. Foley, McDevitt, Norton, Ward and White.

APPROVAL OF MINUTES

The reading of the minutes of the previous meeting was omitted, the Committee approving them as printed.

On motion, the minutes of the previous meetings were amended as follows:

Feb. 1, 1944, on page 23, to provide that the leave of absence granted Theodore C. McCarthy, supervisor of attendance, because of personal illness, from Jan. 3 to Feb. 29, 1944, shall read "from Jan. 3 to Feb. 12, 1944, without loss of pay, because of accident sustained in the performance of his duties."

Mar. 7, 1944, on page 39, to provide that the appointment of Josephine A. Kelley, as assistant librarian, Roslindale High School, to take effect Mar. 13, 1944, shall read "Josephine C. Kelley."

RE-ELECTION OF ASSISTANT SUPERINTENDENT

On motion, the Committee proceeded to the election of an Assistant Superintendent of Public Schools.

Mr. Ward moved the nomination of Edward J. Muldoon.

A roll call being ordered, the Secretary proceeded to call the roll with the following result:

For EDWARD J. MULDOON—Messrs. Foley, McDevitt, Norton, Ward, and White—5.

The Chair thereupon declared Edward J. Muldoon unanimously re-elected Assistant Superintendent of Public Schools for a period of six years beginning Sept. 1, 1944.

Mr. Norton: Thirty-eight years ago a teacher in the Boston schools used to take a rowboat and row to Long Island. He is still here as one of our assistant superintendents. His name is Edward J. Muldoon. He is a very fine man and I am glad to vote for his reappointment.

Hardly a month goes by that I do not run into somebody who was a pupil of his 30 or 35 years ago, including Mr. White, who speaks highly of him. His Eminence, the Cardinal, has selected one of our Boston boys, Father John Wright, as his secretary. On meeting Father Wright's mother, one of her questions was about the health of Mr. Muldoon. I asked, "How do you know Mr. Muldoon?" She said that he was in charge of that district when her son attended school in Mattapan.

I get that every so often. It shows that they remember Mr. Muldoon, who is a very fine man.

Chairman: The Chair feels that Assistant Superintendent Muldoon is without a peer in the field of education. I was very proud to vote for his reappointment as Assistant Superintendent of Schools of the City of Boston.

DEATHS

The Superintendent reported the death of the following-named teacher, who had been retired on pension:

Frank V. Thompson Intermediate District—Mary M. Glennon, Jan. 27, 1944.

Placed on file.

RESIGNATIONS

The following resignations, reported by the Superintendent, to take effect on the dates stated were presented:

Thomas A. Edison Intermediate District—Anna K. McDonough, teacher, intermediate, Mar. 21, 1944.

Speech Improvement Classes—Margaret P. Mulien, assistant. Feb. 29, 1944.

Accepted.

APPOINTMENTS

The following appointments by the Superintendent, certified by him as being in accordance with the rules and regulations, to take effect on the dates stated, were presented:

(ADVANCEMENTS WITHIN THE SERVICE)

Department of Physical Education—Robert V. Dallahan, junior master, military drill (from instructor, military drill), Apr. 1, 1944.

East Boston High School—Lillian A. Belanger, assistant (from assistant instructor, commercial branches), Apr. 1, 1944.

The rules were suspended and the appointments approved.

(TEACHER OF SEWING, INTERMEDIATE)

Department of Household Science and Arts—Jennie Zinkowski, teacher of sewing, intermediate (from teacher of sewing, elementary), Apr. 1, 1944.

The rules were suspended and the appointment approved.

LIST OF TEACHERS APPROVED FOR TEMPORARY SERVICE

The Superintendent submitted, under the provisions of section 265, paragraph 3 of the regulations, the following list of teachers approved by him from which assignments may be made for temporary service:

Day High Schools—Jeanne Matthews Doyle, Alice Moulton Sharpe, Rita Hennessey Sherry.

Day Intermediate Schools—Giocchino T. Barresi, Eleanor Look Bonzey, Imelda M. Munsing, Martha Sharp Nicholas.

Day Elementary Schools—Gertrude Goldman Eyges, Muriel Preble Loring, Martha Sharp Nicholas, Ruth McLaughlin McCaffrey, Antoinette W. Finkler Wormstead.

Kindergartens—Ellen Palaima Kalishes.

Classes for Conservation of Eyesight—Mary Jenkins Moran, Anne L. O'Neill.

Horace Mann School—Ellen Palaima Kalishes, Bertha Loriaux Williams.

Special Classes—Eleanor Look Bonzey, Muriel Preble Loring, Jennie VanHeysen McCrillis, Helen A. Mullett.

Speech Improvement Classes—Ruth Vincent Williams.

Department of Household Science and Arts—Jennie VanHeyson McCrillis, Rita Hennessey Sherry, teachers of cookery; Rosalie Dundon Buckley, Jeanne Matthews Doyle, Helen A. Mullett, Muriel Preble Loring, teachers of sewing.

Department of Physical Education—Wade Cline Riggs, Richard M. Walsh, Jr.

Approved.

TEMPORARY TEACHERS

Mechanic Arts High School—Winford J. Keay, instructor, mechanic arts, Feb. 28, 1944.

Department of Manual Arts—Grace Correnti Micozzi, assistant, manual training, elementary, Feb. 1, 1944.

Approved.

STUDENT ASSISTANTS (New Appointments)

Mechanic Arts High School—Daniel L. Jong, mechanical department, Mar. 2, 1944; Roxbury Memorial High School (Girls); Philomena A. Rossi, industrial department, Mar. 6, 1944.

Approved.

DEPARTMENT OF EXTENDED USE OF PUBLIC SCHOOLS Term 1943-44

A communication was received from the Superintendent, under date of Apr. 4, 1944, reporting that subject to the approval of the School Committee he has assigned the following-named persons to serve in the Department of Extended Use of the Public Schools, for the term 1943-44:

Assignments

Leaders—Josephine Lanzillo, Jan. 14, 1944; Eleanor H. Matson, Feb. 25, 1944; Marjorie A. McGee, Feb. 4, 1944; Martha A. McGee, Feb. 4, 1944; Jean S. Paige, Mar. 3, 1944; Mildred S. Palaza, Feb. 9, 1944; Naomi Rubin, Mar. 10, 1944; Sarah E. Stansil, Mar. 10, 1944.

Assistant Leaders—Bartholomew P. Bowen, Apr. 3, 1944; Arthur C. Cooper, Mar. 22, 1944; Sarah E. Stansil, Mar. 15, 1944; Helen A. Waters, Mar. 22, 1944.

General Helpers—Bartholomew P. Bowen, Mar. 31, 1944; Arthur C. Cooper, Mar. 24, 1944.

Reassignments

Assistant Leader—Francis J. Linehan, Feb. 9, 1944.

Helper—Marion E. Wightman, Feb. 25, 1944.

Approved.

LEAVES OF ABSENCE

A communication was received from the Superintendent, under date of Apr. 4, 1944, reporting that, subject to the approval of the School Committee, he has discontinued the leave of absence for military service granted Francis E. Winch, sub-master, James P. Timilty Intermediate District, at the meeting of Nov. 5, 1942 (see p. 207), said discontinuance to take effect Mar. 31, 1944.

Placed on file and the discontinuance approved from the date stated.

On report of the Superintendent, leave of absence was granted the following-named teachers, under a suspension of the regulations for the term specified:

Jeremiah E. Burke High School for Girls—Adelaide T. Keiran, industrial instructor, Jan. 13 to June 22, 1944, without loss of pay.

Department of School Hygiene—Agnes G. Kelleher, school nurse, Nov. 1, 1943, to June 22, 1944, without loss of pay.

A communication was received from the Superintendent, under date of Apr. 4, 1944, recommending that leave of absence, without pay, in order that he may serve in the Army Transport Service (Merchant Marine), be granted George C. McKeen, shop instructor, Department of Manual Arts, to take effect Mar. 31, 1944, and to continue for the duration of the war, unless earlier terminated by the Superintendent with the approval of the School Committee.

Placed on file and leave of absence without pay granted for the period specified.

A communication was received from the Superintendent, under date of Apr. 4, 1944, recommending that Elizabeth R. Kearns, teacher, intermediate, James P. Timilty District, be granted leave of absence without pay, in order that she may serve as a civilian instructor with the First Service Command Training Center, to take effect Apr. 3, 1944, and to continue for the school year ending Aug. 31, 1944, unless earlier terminated by the Superintendent with the approval of the School Committee.

Placed on file and leave of absence without pay granted for the period specified.

ASSIGNMENTS

A communication was received from the Superintendent, under date of Apr. 4, 1944, reporting that subject to the approval of the School Committee, he has made the following assignments

of teachers as indicated, without change of rank or salary, to take effect on the dates stated and to continue for the school year ending Aug. 31, 1944, unless earlier terminated by the Superintendent with the approval of the School Committee:

Mary F. Kelly, assistant, East Boston High School, to Joseph H. Barnes Intermediate District, Apr. 10, 1944.

Alice M. Willard, assistant, East Boston High School, to Joseph H. Barnes Intermediate District, Apr. 10, 1944.

Placed on file and the assignments approved, to take effect on the date stated.

DESIGNATION

A communication was received from the Superintendent, under date of Apr. 4, 1944, reporting that he has made the following designation of a teacher to serve in the position indicated until such time as it shall be filled otherwise in accordance with the rules and regulations, but not beyond Aug. 31, 1944:

Mather District—Anna E. McFarland, teacher, elementary, as acting vice-principal, (vice A. Loretta Garrity, absent on leave), Mar. 21, 1944.

Placed on file

WARTIME CHILD CARE CENTERS

A communication was received from the Superintendent, under date of Apr. 4, 1944, reporting that subject to the approval of the School Committee, he has appointed as provisional appointees the following-named persons for service in the Wartime Child Care Centers, to take effect on the dates stated:

Head teacher—Mary Fitzgerald (from assistant teacher), Apr. 3, 1944.

Assistant teacher—Miriam Gibbs Ogilvie, Apr. 3, 1944.

Helpers—Agnes Mealey, Mar. 30, 1944; Edna L. Harrison, Apr. 3, 1944.

Cook—Lucy E. Wilson, Mar. 31, 1944.

Approved.

PLAYGROUNDS, SEASON OF 1944

The Superintendent offered the following:

ORDERED, That for the current calendar year, the playground term shall be as follows:

Spring Season: April 17 to June 16, 1944, inclusive.

ORDERED, That variations in the established dates for beginning and terminating playground activities may be allowed in the discretion of the Superintendent on recommendation of the Director of Physical Education.

ORDERED, That the Director of Physical Education is hereby

authorized to conduct playground activities in such school yards, children's corners and athletic fields as may be approved by the Superintendent during the Spring Season of 1944.

ORDERED, That the Superintendent is hereby authorized to change the days and hours on which each playground may be conducted at his discretion.

ORDERED, That the Superintendent is hereby authorized to make such emergency appointments as may be necessary for service in the playgrounds during the Spring Season, 1944.

ORDERED, That any teacher whose name appears on the list of teachers appointed in playgrounds for the Spring Season of 1944 may be transferred by the Superintendent from one position to another for which said teacher holds the required certificate and said teacher shall be paid according to the schedule established for the position actually filled during any day or part of the day certified to by the Director of Physical Education.

ORDERED, That the sessions of the playgrounds shall be as follows:

Spring Season—April 17, 18, 20, 21—9:45 A. M. to 5 o'clock P. M.; April 24 through June 16—from 4 o'clock P. M. to 6 o'clock P. M. on school days; Saturdays—9:45 o'clock A. M. to 1 o'clock P. M.

The seven orders passed collectively.

Kathleen T. Murphy, kindergarten teacher, Benjamin Pope School, Gaston-Oliver Hazard Perry District, in the afternoon session in the Lowell Mason School, James J. Chittick District, Mar. 13, 1944.

Esther L. Quane, kindergarten teacher, David L. Barrett School, Thomas Gardner District, in the afternoon session in the Winchell School, Wendell Phillips District, Mar. 13 and 14, 1944.

Katherine D. Warren, kindergarten teacher, Bennett School, Bennett District, in the afternoon session in the Winship School, Bennett District, Mar. 13 and 14, 1944.

GRADUATING EXERCISES

On motion of the Superintendent, it was

ORDERED, That the Department of School Buildings is hereby requested to secure the use of the accommodations indicated for the graduating exercises of the several high schools on the dates specified:

Brighton High School—Capitol Theater, Friday morning, June 9, 1944.

Charlestown High School—Faneuil Hall, Tuesday evening, June 6, 1944.

Dorchester High School for Girls—Symphony Hall, Thursday afternoon, June 8, 1944.

English High School—Tremont Temple, Thursday evening, June 8, 1944.

Girls' High School—Tremont Temple, Wednesday evening, June 7, 1944.

Jeremiah E. Burke High School for Girls—Symphony Hall, Wednesday afternoon, June 7, 1944.

Mechanic Arts High School—Fenway Theater, Wednesday morning, June 7, 1944.

Roslindale High School—Jamaica Theater, Monday morning, June 5, 1944.

Roxbury Memorial High School (Girls)—Symphony Hall, Friday afternoon, June 9, 1944.

APPOINTMENTS OF ASSISTANTS IN OFFICES OF SUPERINTENDENT-SECRETARY

A communication was received from the Secretary, under date of Apr. 4, 1944, reporting that subject to the approval of the School Committee and with the approval of the Division of Civil Service, she has appointed Mary J. Carrigan, as assistant, Group D, in the offices of the Superintendent-Secretary, to take effect Apr. 12, 1944.

Placed on file and the appointment approved to take effect on the date stated.

On motion, it was

ORDERED, That the salary of Mary J. Carrigan, assistant, Group D, in the offices of the Superintendent-Secretary, is hereby estab-

lished at the rate of twenty dollars (\$20) per week, to take effect Apr. 12, 1944.

A communication was received from the Secretary, under date of Apr. 4, 1944, reporting that subject to the approval of the School Committee and with the approval of the Division of Civil Service and the Chairman of the Department of Industrial Accidents, she has appointed Eleanor A. Curran, as assistant, Group D, in the offices of the Superintendent-Secretary, by transfer from the Department of Industrial Accidents, Commonwealth of Massachusetts, to take effect Apr. 10, 1944.

Placed on file and the appointment approved to take effect on the date stated.

On motion, it was

ORDERED, That the salary of Eleanor A. Curran, assistant, Group D, in the offices of the Superintendent-Secretary, is hereby established at the rate of twenty dollars (\$20) per week, to take effect Apr. 10, 1944.

A communication was received from the Secretary, under date of Apr. 4, 1944, reporting that subject to the approval of the School Committee and with the approval of the Division of Civil Service and the Commissioner of Corporations and Taxation, she has appointed Mary Lydon, as assistant, Group D, in the offices of the Superintendent-Secretary, by transfer from the Department of Corporations and Taxation, Commonwealth of Massachusetts, to take effect Apr. 10, 1944.

Placed on file and the appointment approved to take effect on the date stated.

On motion, it was

ORDERED, That the salary of Mary Lydon, assistant, Group D, in the offices of the Superintendent-Secretary, is hereby established at the rate of twenty dollars (\$20) per week, to take effect Apr. 10, 1944.

SALE OF LAND

On motion, it was

ORDERED, That it is advisable to sell the following-named property which is not now required for school purposes, in accordance with the provisions of Chapter 259 of the Acts of 1906:

A parcel of land situated at the corner of Elm and Everett Streets, Jamaica Plain, containing approximately 18,613 square feet.

LEAVES OF ABSENCE

A communication was received from the Business Manager, under date of Apr. 4, 1944, recommending that leave of absence without pay for military service be granted to John J. McCarty, assistant, Group C, in the office of the Business Manager, to take effect Mar. 29, 1944, and to continue for the

duration of the war, unless earlier terminated by the Superintendent with the approval of the School Committee.

A communication was received from the Acting Schoolhouse Custodian, under date of Apr. 4, 1944, recommending that William E. Murphy, Abraham Lincoln School, be granted leave of absence without loss of pay, for the period beginning Mar. 6, (one-half day), to and including June 30, 1944, because of injury received in the performance of his duties.

Placed on file and leave of absence without loss of pay granted for the period specified.

A communication was received from the Acting Schoolhouse Custodian, under date of Apr. 4, 1944, recommending that James J. Tracey, senior custodian, Benjamin Dean School, be granted leave of absence without pay, for the period Apr. 17, 1944, to Apr. 16, 1945, inclusive.

Placed on file and leave of absence without pay granted for the period specified.

TRANSFERS OF CUSTODIANS

A communication was received from the Acting Schoolhouse Custodian, under date of Apr. 4, 1944, recommending that the following-named senior custodians, standing at the head of their respective lists, be transferred to the positions indicated, to take effect Apr. 9, 1944:

Jeremiah J. Boyle from the Samuel G. Howe to the custodianship of the George Frisbie Hoar School-house.

Arthur B. Callahan from the Horace Mann to the custodianship of the Edmund P. Tileston School-house.

John A. Callanan from the Edward Southworth to the custodianship of the Benjamin Pope School-house.

Placed on file and the transfers approved, to take effect on the date stated.

SUSPENSION OF SESSIONS OF ALL DAY SCHOOLS; CLOSING OF ADMINISTRATIVE OFFICES

The following was offered:

ORDERED, That the sessions of all day schools are hereby suspended at twelve o'clock noon on Thursday, Apr. 6, 1944.

The order passed, Mr. White dissenting.

The following was offered:

ORDERED, That the administrative offices and supply room of the School Committee are hereby closed on Thursday, Apr. 6, 1944, at twelve o'clock noon.

The order passed, Mr. White dissenting.

On motion, it was

ORDERED, That the administrative offices and supply room of the School Committee are hereby closed on Friday, Apr. 7, 1944.

The Committee adjourned.

Attest:

LOUISE KANE, Secretary.

BE KIND TO ANIMALS PROCLAMATION.

More than sixty years ago, George Thorndike Angell, founder of the Massachusetts Society for the Prevention of Cruelty to Animals and the American Humane Education Society, organized here in Boston the first American Band of Mercy, pledging children to be kind to animals and to protect them from cruel usage. That pledge is familiar to thousands of Massachusetts sons and daughters.

Today more than 300,000 of these Bands of Mercy have been organized, through the efforts of the above-named societies, in practically every state in the union and in almost every civilized country in the world. They are implanting and fostering in the minds of the young the great principles of justice, fair play, and kindness toward every form of life, human and sub-human. They are quickening and inculcating the spirit of chivalry and humanity which characterizes the best citizenship of the world, whose influence and leading will finally put an end to wars, and steadfastly prevent lawlessness, anarchy and cruelty.

It is altogether fitting, therefore, that Boston should join in the nation-wide celebration of a week dedicated to the welfare of our animal friends, so, as Mayor of the City of Boston, I do hereby urge the fullest observance of Humane Sunday, April 23rd, and the week of April 24-29, 1944, as "Be Kind to Animals Week," and call upon the citizens, young and old, to remember to apply the Golden Rule to animals as well as to their fellow human beings,

and I particularly request that teachers in all our schools, especially in the elementary grades, observe a Humane Day with appropriate exercises.

MAURICE J. TOBIN,
Mayor of Boston.

SALVAGE COMMITTEE AWARDS BONDS.

Four War Bonds were awarded by the Boston Salvage Committee in the final drawing held in connection with the City-wide Salvage Drive that produced 1,436,325 pounds of waste paper for the war effort.

Twenty-two \$25 War Bonds have been awarded by the Salvage Committee during the past week, one to a family in each ward of the city, as a result of drawings from the names of the persons who contributed paper that is needed for vital war purposes.

The last drawing was from the names of the paper contributors in Wards 19, 20, 21 and 22. The Bond winners in those wards were:

Warren McPherson, 107 Whitcomb avenue, Jamaica Plain, Ward 19.

Mrs. George W. Jones, 160 Weld street, Roslindale, Ward 20.

Mrs. James K. Hiscock, 52 Brainerd road, Allston, Ward 21.

Mariann MacDonnell, 24 Matchett street, Brighton, Ward 22.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

On February 16, 1944, for the protection of the public, Daniel Marr & Son Company, Inc., 384 Dorchester avenue, South Boston, was ordered to shore the front wall of the building at 755 Tremont street, Ward 4, as it was bulged and in danger of falling to the street.

Work has been completed in accordance with the regulations of the Boston Building Department and a bill in the amount of \$205.22 submitted, with the understanding that there will be an additional charge for rental of materials of \$20 for each month that the shores remain in place after the first thirty days. Agreement has been approved.

POLICE DEPARTMENT ORDERS.

General Order No. 115.

It is hereby ordered that vacations for members of the force for 1944 shall begin May 11th and end December 10th, and not more than one-twelfth of the whole number attached to any division shall be absent on vacation at the same time.

The time for each vacation shall be determined by lot in the usual manner on Tuesday, May 2, 1944.

Patrolmen appointed after April 1, 1944, and up to July 1, 1944, will be allowed one week, to be taken at such time as the commanding officers of divisions shall designate.

Patrolmen appointed after July 1, 1944, will not receive any vacation.

Five days before each vacation begins, commanding officers shall forward to the superintendent a list, in triplicate, giving the names of all officers who will be on that vacation. One day before the vacation begins, command-

ing officers shall forward to the superintendent a list, one original copy, giving the names and emergency addresses of the officers who are going on vacation.

Commanding officers of divisions and units shall not allow vacations to interfere with the proper operation of their organization, making shifts in day and night duty and taking such other steps as may be necessary to provide adequate protection and proper functioning of the force under their control.

No days of relief will be allowed to members of the force on June 16th and 17th, July 3rd and 4th, State Primary Day, July 11th, and State Election Day, November 7th, 1944.

Vacations to begin at 7.45 a. m. and end at 7.45 a. m. as follows:

- No. 1, May 11 to May 27.
- No. 2, May 31 to June 16.
- No. 3, June 16 to July 2.
- No. 4, July 12 to July 28.
- No. 5, July 28 to August 13.
- No. 6, August 13 to August 29.
- No. 7, August 29 to September 14.
- No. 8, September 14 to September 30.
- No. 9, September 30 to October 16.
- No. 10, October 16 to November 1.
- No. 11, November 8 to November 24.
- No. 12, November 24 to December 10.

Two copies of this General Order are sent to each division and unit, so that one copy may be placed on the bulletin board for the direct notice of all officers.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 116.

A trial board, consisting of Captains McNabb, Masuret and DiSessa, having heard by reference a complaint made by Thomas G. Duggan, captain, Division 10, against Parker A. Coleman, patrolman, Division 10, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge: Neglect of duty.

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented, finds the said Patrolman Parker A. Coleman guilty as charged and respectfully recommends that he be suspended from duty for a period of fifteen days, with loss of pay, effective as of Friday, April 21, 1944, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension he be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Parker A. Coleman be suspended from duty for a period of fifteen days, with loss of pay, effective as of Friday, April 21, 1944, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Parker A. Coleman perform 210 hours' punishment duty.

General Laws, chapter 31, section 46C, as amended, requires approval of the Director of Civil Service before reinstatement.

Chapter 31.

"Section 46C (as amended). An officer or employee of the commonwealth or of a city or town who has become

separated from the classified civil service through fault or delinquency of his own shall, within thirty days after the filing of a written request by the appointing officer, be entitled to a hearing before the director. Upon good cause shown the director may, subject to section 46G, authorize his reinstatement in the same position or in a position in the same class and grade as that formerly held by him."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 117.

A trial board, consisting of Captains McNabb, Masuret and DiSessa, having heard by reference a complaint made by Thomas G. Duggan, captain, Division 10, against Waldo B. Horton, patrolman, Division 10, for alleged violation of the Rules and Regulations of the Police Department, to wit:

Charge: Neglect of duty.

has submitted the following finding and recommendation:

"The Board, having heard and carefully considered all the evidence as presented, finds the said Patrolman Waldo B. Horton guilty as charged and respectfully recommends that he be suspended from duty for a period of fifteen days, with loss of pay, effective as of Friday, April 21, 1944, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension he be ordered to perform 210 hours of punishment duty."

The commissioner accepts the finding and the recommendation of the Trial Board and hereby orders that the said Patrolman Waldo B. Horton be suspended from duty for a period of fifteen days, with loss of pay, effective as of Friday, April 21, 1944, at 5.45 o'clock p. m., and that at the expiration of the said period of suspension the said Patrolman Waldo B. Horton perform 210 hours' punishment duty.

General Laws, chapter 31, section 46C, as amended, requires approval of the Director of Civil Service before reinstatement.

Chapter 31.

"Section 46C (as amended). An officer or employee of the commonwealth or of a city or town who has become separated from the classified civil service through fault or delinquency of his own shall, within thirty days after the filing of a written request by the appointing officer, be entitled to a hearing before the director. Upon good cause shown the director may, subject to section 46G, authorize his reinstatement in the same position or in a position in the same class and grade as that formerly held by him."

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CLAIMS ALLOWED.

Upon recommendation of the Corporation Counsel the Mayor has approved the following claims:

Mrs. James Gallahue, 372 Quincy street, Dorchester, in the sum of \$75, as

compensation for personal injuries caused when she was struck by a motor truck belonging to the Water Division, Public Works Department, operated by John McLaughlin, a city employee, September 10, 1943.

Mabel Lindquist, 30 Walnut street, Arlington, in the sum of \$90, as compensation for personal injuries and damage to clothing caused by hole in sidewalk on Walnut street, between Redfield street and Neponset avenue, September 24, 1943.

Mary G. Donahue, 716 East Seventh street, South Boston, in the sum of \$57, as compensation for personal injuries caused by falling on icy sidewalk on East Sixth street, near the corner of Peters street, in front of premises owned by the Foreclosed Real Estate Division of the City of Boston, December 11, 1943.

Anna J. Callahan, 123 Cushing avenue, Dorchester, in the sum of \$150, as compensation for personal injuries caused by depression in sidewalk at curb in front of 123 Cushing avenue, July 30, 1943.

Anna Puccia, 152 Salem street, Boston, in the sum of \$60, as compensation for damage to property in cellar of above premises caused by water from broken water main, November 10, 1943.

Paul F. Liston, 89 Perthshire road, Brighton, in the sum of \$11, as compensation for damage to automobile caused by hole in highway in front of 71 Carver street, September 14, 1943.

Joseph W. O'Brien, 64 Percival street, Dorchester, to be reimbursed in the sum of \$33, as the result of an accident which occurred on December 28, 1943, when motor vehicle belonging to the Fire Department, which he was operating, collided with an automobile owned by Charles J. Larsen.

Matteo Arimento, 185 Maverick street, East Boston, in the sum of \$2, as refund of fee paid for soft drink license on March 12, 1943, which was returned to the Licensing Board a few days later unused.

Isabel E. Livingston, 1572 Commonwealth avenue, Allston, in the sum of \$100, as compensation for personal injuries and damage to clothing caused by hole in sidewalk in front of 1572 Commonwealth avenue, June 12, 1943.

Jeremiah Murnane, 7 Cushing avenue, Dorchester, to be reimbursed in the sum of \$5, as the result of an accident which occurred on December 21, 1943, when motor vehicle belonging to the Penal Institutions Department, which he was operating, collided with an automobile owned by Carmela Torrisi.

John J. Regan, 695 Washington street, Dorchester, in the sum of \$45.45, as compensation for damage to property at above address caused when employees of the Water Division shut off water to repair leak in meter without proper notice, resulting in the collapse of hot water boiler, December 8, 1943.

Samuel Holmes, Inc., 17-25 Faneuil Hall Market, Boston, in the sum of \$485, as compensation for damage to property in basement of above premises caused by water from a defective sewer during the latter part of 1942.

Lillian Ford, 148½ M street, South Boston, in the sum of \$50, as compensation for personal injuries caused by defective sidewalk in front of 740 East Broadway, November 13, 1943.

Walter C. Mackie, 32 Rockdale street, Mattapan, to be reimbursed in the sum of \$30, as the result of an accident which occurred on November 15, 1943, when motor truck belonging to the Sanitary Division, Public Works Department, collided with premises owned by Irene Capone at 17 Snow Hill street.

Rita M. McInnis, 857 Beacon street, Boston, in the sum of \$25, as compensation for personal injuries caused by hole in sidewalk in front of 130 Beacon street, October 9, 1943.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

TOOLKEEPER, LONG ISLAND HOSPITAL, BOSTON INSTITUTIONS DEPARTMENT, JUNE 10, 1944.

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN RUTHERFORD AVENUE, WARD 2, FROM CHAPMAN STREET TO CAMBRIDGE STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Rutherford avenue, Ward 2, from Chapman street to Cambridge street. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Rutherford Avenue, Ward 2, from Chapman Street to Cambridge Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. of Tuesday, May 9, 1944, with a certified check for three thousand (\$3,000) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
Commissioner of Public Works.

(April 29.)

CITY OF BOSTON.

BOARD OF REAL ESTATE COMMISSIONERS.

PUBLIC AUCTION.

The City of Boston will sell at public auction all its right, title and interest in and to about twelve hundred sixty-eight (1,268) square feet of land, with the buildings thereon, on the southerly side of Chatham street, Boston, numbered sixty-six (66) in the numbering of said street, making the southwesterly corner of and numbered four (4) to eight (8) Commercial street, and more fully described in a tax deed recorded with Suffolk Deeds, Book 5670, page 284, on Thursday, May 4, 1944, at 10 a. m., on the premises, at a minimum price of six thousand dollars (\$6,000).

A deposit of one thousand dollars (\$1,000), in cash or certified check, is required at the time and place of sale, balance to be paid in thirty (30) days.

Further particulars from Chairman, Board of Real Estate Commissioners, 47 City Hall, Boston, Mass.

DANIEL M. DRISCOLL,
Chairman.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, May 8, at 2 p. m.

Meetings of the Transit Department are held on Monday and Thursday of each week at 11 a. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such official to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways, the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped area for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in

public streets; the making of specific repairs in public streets; the naming of public streets; the planting and removal of trees in public ways; the issuing of licenses for the storage of gasoline, oil, and other inflammable substances or explosive compounds; the use of the public ways for any permanent or temporary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railways or illuminating purposes, signs, marqueses, bay windows, coal holes and vaults.

TO THE BOSTON TRAFFIC COMMISSION, 134 North street, for information relative to regulation of vehicular street traffic on all or any streets, ways, highways, roads and parkways under the control of the City of Boston, the issuing of all permits in connection therewith.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases, of public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth Avenue, Back Bay Fens, Marine Park, and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made

to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts, also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 15 Beacon street, for information relative to the operation of the schools of the city.

TO THE DEPARTMENT OF SCHOOL BUILDINGS, 11 Beacon street, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 907, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down buildings.

TO THE STATISTICS DEPARTMENT, 73 City Hall, for historical, geographical, political and population facts about Boston; the personnel and accomplishments of present and past municipal administrations; and such similar information as may be found concerning other American municipalities in its Municipal Officials' Reference Library.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, 60 Bristol street, for all information relative to the erection of poles, building of conduits, the installation of all overhead and underground construction and electrical apparatus, as well as for general information relative to the entire division. To Room 103, City Hall Annex, for permits for the installing of wires and electrical apparatus within buildings of the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must be paid in advance.

TO THE BOARD OF ZONING ADJUSTMENT, 43 City Hall, relative to changes in the boundary lines of zoning districts of the City of Boston as established by chapter 488 of the Acts of 1924, and amendments thereto.

MORTALITY REPORT.

RETIREMENT BOARD REPORT.*To the Auditor.*

At meetings of the Boston Retirement Board held on the following dates, April 5, 14 and 26, the retirement from active service of the following-named employees of the Boston Retirement System was approved to become effective at the close of business April 30, 1944:

FIRE DEPARTMENT.

David J. Keller, hoseman, salary at time of retirement \$2,300 a year.

John J. Scanlan, ladderman, salary at time of retirement \$2,300 a year.

HOSPITAL DEPARTMENT.

Catherine E. Sullivan, cleaner, salary at time of retirement \$1,014 a year.

POLICE DEPARTMENT.

Royal L. Atwood, patrolman, salary at time of retirement \$2,300 a year.

Thomas F. Patten, patrolman, salary at time of retirement \$2,300 a year.

Vaughan McA. Hewey, patrolman, salary at time of retirement \$2,300 a year.

PUBLIC WORKS DEPARTMENT.

Joseph G. Curry, draftsman, salary at time of retirement \$2,100 a year.

William C. Hughes, carpenter, salary at time of retirement \$1,672 a year.

John F. Higgins, foreman, salary at time of retirement \$2,500 a year.

SCHOOL DEPARTMENT.

Joseph Dowd, acting engineer, salary at time of retirement \$4,000 a year.

Jacob Mayer, custodian, salary at time of retirement \$3,549 a year.

Alice R. Norton, clerical assistant, salary at time of retirement \$1,440 a year.

Emily A. Snow, school nurse, salary at time of retirement \$1,920 a year.

Florence E. Bryan, vice principal, salary at time of retirement \$3,072 a year.

Dorothy A. Brennan, elementary assistant, salary at time of retirement \$2,304 a year.

Attest:

W. J. DOYLE, *Chairman.***PROCLAMATION ON NOISE ABATEMENT.**

Whereas, The National Noise Abatement Council has designated the week of April 30 to May 6 as National Noise Abatement Week; and

Whereas, It has been shown that noise adversely affects civilian health and morale, lessens the productive efficiency of both manual and brain workers; that it interferes with the rest of night-shift war workers, and otherwise slows the war effort; and

Whereas, The object of National Noise Abatement Week is to encourage the elimination of needless noise that the war effort may, thereby, be aided and the health and morale of our citizens benefited; now, therefore,

I, MAURICE J. TOBIN, *Mayor of the City of Boston*, do hereby proclaim the week of April 30 to May 6 as Noise Abatement Week in the City of Boston and urge all citizens to join in this nation-wide effort to abate needless noise.

LONG ISLAND HOSPITAL NEEDS NURSES AND ATTENDANTS.

The need of nurses and attendants at Long Island Hospital, Boston Harbor, has become very acute. An appeal is made by Commissioner Hugh J. Campbell to the general public for employees or volunteers.

Long Island Hospital cares for over five hundred elderly and chronically sick patients. For a greater part, these people are helpless and require twenty-four hours' care daily. The present staff, because of nurses and attendants entering the military service of our country, has reached a critically low level. It is severely overtaxed. This work must continue. The aged, poor, and sick must be provided for and must be made comfortable.

It is a patriotic duty for people at home to fight battles on the homefront just as our soldiers fight on the battlefield. The personnel of Long Island Hospital will fight a losing battle in their efforts to care for the invalid and the aged unless volunteers, attendants, nurses' aides, ward-maids, etc., are obtained to help. This is a worthy and a noble cause. Any woman over seventeen years of age, with or without experience, is urged to call Granite 2382 or Laf. 5100, extension 370.

MAYOR TOBIN MOURNS PASSING OF SECRETARY KNOX.

Upon the news of the passing of Secretary of the Navy Knox Mayor Tobin issued the following statement:

The news of the passing of my personal friend, Secretary Frank Knox, comes to me as a great shock. Our country has suffered the loss of a courageous leader at a time when his outstanding services can ill be spared. What Secretary Knox has accomplished since Pearl Harbor will live long in the memory of Americans and will always be a testimonial of his brilliancy and efficiency. Our Commander-in-Chief will find it extremely difficult to find a man of equal stature. My deepest sympathy is extended to Mrs. Knox.

MAYOR TOBIN SHORTENS TIME LIMIT FOR MAXIMUM PAY FOR FIRE AND POLICEMEN.

To THOMAS F. SULLIVAN, *Police Commissioner.*

To WILLIAM ARTHUR REILLY, *Fire Commissioner.*

Subject: Revision of Sliding Scale Increase of Uniformed Forces of Fire and Police Departments.

Pursuant to an Executive Order of his Honor the Mayor, you are hereby notified that the period of time for sliding scale increases to the uniformed forces of the Police and Fire Departments is hereby reduced from five years to three years.

This order is effective on the anniversary dates of each individual from January 1, 1944. Each employee receiving less than the maximum of \$2,300 per annum shall receive on his anniversary date an increment of \$200 instead of \$100, as heretofore, until his maximum shall have been reached.

HERMAN L. BUSH,
Budget Commissioner.

PROCLAMATION ON CHILD HEALTH.**HEALTHY CHILDREN MAKE A HEALTHY NATION.**

I, Maurice J. Tobin, Mayor of Boston, realizing the importance of creating and maintaining the best health of our younger citizens, hereby proclaim May 1, 1944, as Child Health Day and, pursuant to this proclamation, impress upon parents, teachers and all those who have the responsibility of guiding children, to take advantage of every help which science and the Medical Profession offer to protect the health of the child.

Proper nutrition, fresh air, adequate sleep, plentiful sunshine, care of the teeth, proper care of the eyesight, attention to defective hearing, immunizations to protect the child against smallpox, diphtheria, and whooping cough are particularly recommended.

MAURICE J. TOBIN,
Mayor of Boston.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

Demolition operations have been completed in accordance with the regulations of the Boston Building Department and a bill in the amount of \$145 submitted for work performed was approved.

An inspection of the premises at 28 Terrace street, Ward 10, made February 29, 1944, disclosed that the building was in such a structurally unsafe condition as to require emergency action to provide for the safety of the public. Therefore, the Mystic Building Wrecking Company, Inc., 203 Everett avenue, Chelsea, was ordered to enter the premises and remove the building.

Demolition operations have been completed in accordance with the regulations of the Boston Building Department and a bill in the amount of \$290 submitted to this department for work performed has been approved.

TRAFFIC COMMISSION RULING.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, estimated to be one (1) week, vehicles are excluded from the following street, effective April 2, 1944: Stuart Street, Boston Proper.

From Clarendon street to Dartmouth street.

CONTRACTS AWARDED.

Permission to award contracts for work, materials and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon May 1 the Mayor approved a contract with C. Dale Garbutt for painting interior, exterior and fire escapes of the Bigelow School, the lowest responsible bidder, in the sum of \$5,333. The following bids were opened on April 12:

C. Dale Garbutt, \$5,333; Bay State Painting Company, \$5,400; M. L. McDonald Company, \$5,428; John S. Leonard, \$5,785; Albert D. Howlett Company, \$6,336; Russell E. McCussey, Inc., \$7,500.

Upon May 1 the Mayor approved a contract with the Hodge Boiler Works for furnishing two horizontal return tubular boilers at the Edward Everett School, Pleasant street, Dorchester, the lowest responsible bidder, in the sum of \$5,425. The following bids were opened on April 1:

The Hodge Boiler Works, \$5,425;
Phillip E. Conners, \$12,000.

Upon May 1 the Mayor approved a contract with Russell E. McCassey, Inc., for painting the interior and exterior of the Amos Webster School, the lowest responsible bidder, in the sum of \$1,526. The following bids were opened on April 12:

Russell E. McCassey, Inc., \$1,526;
Albert D. Howlett Company, \$1,690;
Bay State Painting Company, \$1,780;
M. L. McDonald Company, \$1,782; C. Dale Garbutt, \$1,930; John M. Kennedy, \$2,572; John S. Leonard, \$2,645.

Upon May 1 the Mayor approved a contract with the MacKenzie Machinery Company and the Packard Machinery Company according to the following request:

BOSTON, April 26, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston,

MY DEAR MR. MAYOR,—Under date of March 23, 1943, this department received proposals for furnishing and delivering metal working machinery in various schools, Boston, Mass. These proposals were received in answer to an advertisement in the *City Record*, March 13, 1943.

The attached schedule gives a summary of the proposals received.

Based on these proposals, the Supervisor of Contracts was instructed by me to formulate the necessary letters to your Honor, requesting that awards be made to the MacKenzie Machinery Company and to the Packard Machine Company for the respective items on which they were the lowest bidders.

Under date of June 23, 1943, purchase orders No. 4579 and No. 4580 were issued to the Packard Machinery Company and purchase orders No. 4581 and No. 4582 were issued to the MacKenzie Machinery Company. These orders in each instance requested the companies to deliver as per specifications and contract the various items upon which their proposals showed them to be the lowest bidders.

Both companies proceeded in good faith to fulfill their orders which they felt were based on a fully executed contract and did furnish and deliver all items of machinery. Some of the machinery was delivered in the latter part of 1943 and the remainder during the first months of 1944. In order that the financial phase of the transaction would be complete, I requested the City Auditor to set aside sufficient funds from the 1943 budget item in order to provide for the payment of these contracts during the early part of 1944. The City Auditor as always was most cooperative and did set up the sum of \$8,673.81 for the liquidation of these contracts.

After all of these arrangements had been made I now find that because of negligence on the part of the Supervisor of Contracts, permission was never requested by this office for your Honor's approval to make the awards and that no formal contracts were ever presented to your Honor for final approval.

As the matter now stands all of the items of machinery have been delivered

to the various buildings and are now operating for National Defense Training and that no payments have been made to either of the contractors concerned. I have just received from both concerns demands that if payment is not made forthwith they will be compelled to remove from the premises all of the machinery furnished by them.

Under present war conditions the department was most fortunate in receiving these machines. I am of the opinion that both concerns acted in good faith and for the best interests of the City of Boston and should be paid immediately for the material they delivered.

In view of the foregoing, I respectfully request your Honor's approval to enter into contracts without advertising, however, based on the proposal received on

March 23, 1943, with these two concerns as follows:

With the Packard Machinery Company, 343 Main street, Cambridge, Mass.

Item A-4, \$828.50; Item A-5, \$504.80; Item A-6, \$866.75; Item A-7, \$513; Item C-1, \$2,991; Item C-2, \$473; total, \$6,177.05.

With the MacKenzie Machinery Company, 36 Oliver street, Boston, Mass.:

Item A-2, \$516.50; Item A-8, \$35; Item A-9, \$24; Item B-1, \$892.16; Item B-2, \$543.10; total, \$2,010.76.

NOTE.—No awards are to be made on Item A-1 and A-3.

Respectfully submitted,

JAMES J. MAHAR,
Superintendent of Construction.

BRANDEIS VOCATIONAL HIGH SCHOOL.

ITEM A.	Packard Machinery Company.	Stedfast & Roulston, Inc.	MacKenzie Machinery Company.
1.— 2 pedestal grinders, including equipment.....		\$402 80	\$395 00

2 10-inch 4-jaw independent chucks fitted.....	134 00	164 00	
Total price.....	*\$473 00	\$549 20	

* Awarded to Packard Machinery Company.

† Awarded to MacKenzie Machinery Company.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms and contractors for labor, supplies, etc. Communications from the heads of the several departments interested were as follows:

BOARD OF REAL ESTATE COMMISSIONERS.
BOSTON, April 18, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—Your permission is respectfully requested to approve an expenditure in excess of five thousand dollars (\$5,000) to various contractors to clean city-owned lots under my jurisdiction.

Consistent with the "Keep Boston Clean Campaign" it is absolutely imperative for me to clean approximately 300 lots against which the Health Department has issued complaints in various sections of the city.

I have worked out a plan whereby the average cost per lot will be twenty-five dollars (\$25), except where a lot is unusually large. I feel that such a plan will accelerate the program and at the same time obtain the best value for the city.

Inasmuch as I am not using one contractor but several and because time is of the essence, I see no advantage to the city to advertise bids for this work.

Very truly yours,

DANIEL M. DRISCOLL, *Chairman.*

BOSTON, April 18, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—I respectfully request your permission to grant without advertising various contracts to furnish drinking water at the Houghton Dutton building, which will, for the year 1944, be in excess of one thousand dollars (\$1,000).

The lease to the Federal Government, for space in the Houghton Dutton Building, requires that drinking water be supplied. Our original plan called for electric coolers to be installed, but due to the strict priorities, we were unable to purchase them. It is my intention to remove this expense as soon as the War Production Board releases electric coolers.

I see no advantage to advertising for bids because of the scarcity of this equipment and also, no one concern is receiving more than one thousand dollars (\$1,000).

Very truly yours,

DANIEL M. DRISCOLL, *Chairman.*

BOSTON, May 3, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—Your permission is respectfully requested to award a contract, without advertising, to the Rugo Construction Company of Boston, Mass., for the approximate sum of \$5,685.37.

This contract is for the alterations, repairs and additions to an area known as No. 451 to No. 496, inclusive, on the fourth floor of the National War Agencies Building (formerly the Houghton & Dutton building) on Beacon, Tremont and Somerset streets, Boston. This area will be used to house the Soldiers' Relief Department within the Boston Veterans Reception and Information Center.

It would be for the best interest of the city that your permission for this request be granted for the following reasons:

1. Time is of the essence because daily hundreds of men are being discharged from the armed services who will be aided by the establishment of the new bureau. Any delay in completing the arrangements for the Soldiers' Relief Department would result in retarding the services that would be rendered to the discharged veterans of World War II through this new bureau.

2. Economically, it is for the best interests of the city because Rugo Construction Company will use the same unit prices submitted in March, 1943, which in my opinion, would be hard to duplicate because of increased costs during the past year.

Also, inasmuch as this contractor is still on the premises and the new work is similar to the work already performed, it would greatly expedite matters by allowing Rugo Construction Company to do this additional work.

Very truly yours,

DANIEL M. DRISCOLL, *Chairman.*

INSTITUTIONS DEPARTMENT.

BOSTON, April 13, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—On January 15 last the steamer "O'Meara" of this department underwent its annual inspection and repairs as required by the U. S. Steamboat Inspectors at the Bethlehem Shipbuilding Corporation of Boston. The original specifications called for an expenditure of \$5,620.

Due to wartime activity and extraordinary demands on drydock facilities, the Bethlehem Shipbuilding Corporation being the only one in a position to perform this most necessary work, and since nothing was to be gained by advertising, your Honor granted my request to dispense with advertising and to award the contract to the Bethlehem Shipbuilding Corporation in the above amount.

After being placed in drydock, subsequent unanticipated repairs were ordered by the U. S. Steamboat Inspectors in the amount of \$5,984.

Accordingly, I would request your authority to dispense with advertising in the matter of this sum of \$5,984, for the same reasons, and to award the contract to the Bethlehem Shipbuilding Corporation for the total amount of \$11,604.

Respectfully,

HUGH J. CAMPBELL, *Commissioner.*

OVERSEERS OF PUBLIC WELFARE.

BOSTON, March 14, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—The Board of Overseers of the Public Welfare respectfully requests your permission to award contracts for the year 1944, without advertising, to the following undertakers for the burial of poor persons who have no one to assume the cost of their burials:

Paul Cuddy, John L. Doran, Kirby Brothers, Gerald F. Seally, John E. Shea, and Matthew J. Walsh.

The amount of each contract will apparently exceed \$1,000. The board feels that due to the nature of the services to be performed it is not advisable to publicly advertise for bids.

Sincerely yours,

JOSEPH H. SASSERNO, *Chairman.*

PARK DEPARTMENT.

BOSTON, April 26, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—John P. Burke of 43 Bracburn road, Hyde Park, has had the concession at Franklin Park Refectory Building for many years. Since 1935 he has paid an annual rental of \$6,000 for this refreshment privilege, and he has always paid it promptly.

Since the advent of the war his business has fallen off to a great extent due to blackout regulations, the entry of many of the younger people into the armed services, and the lessening of automobile traffic to recreation centers. Owing to these conditions which are beyond his control, Mr. Burke has requested a reduction in his rental to \$5,000 per year.

It would seem only fair that we should give serious consideration to Mr. Burke's request because of the fact that he has been such an excellent tenant for the city.

Accordingly, the Board of Park Commissioners ask your approval to a reduction in the rental of this concession to \$5,000 per year, starting with 1944 and continuing to the end of the present lease, September 30, 1946.

Respectfully yours,

WILLIAM P. LONG, *Chairman.*

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, March 8, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR SIR,—Owing to a recent law passed, chapter 69, Acts of 1941, which provides "that all persons committed for any crime unless the Court otherwise orders, take or cause to be taken his name, age, height, weight, photograph and general description and copies of his fingerprints in accordance with the fingerprint system of identification of criminals. All such photographs and identifying matter shall be transmitted forthwith to the Commissioner of Public Safety." The above law took effect as of June 8, 1941, and it is compulsory that all inmates be photographed upon commitment on and after that date.

In accordance with the above law, I therefore respectfully request permission to award a contract without publicly advertising to the Fay Foto Service Company for the performance of taking photographs of all persons committed to the House of Correction, Deer Island, in the sum of \$1.75 for each set of two pictures of each person photographed. Estimated cost will exceed \$1,000.

This type of work is necessarily of a very confidential nature. The Fay Foto Service Company has done this work for the past seven years in a highly satisfactory manner. Because this company has guarded carefully these confidences, and because confidential matter is best intrusted to one company, I feel that the city's interest will be best served by continuing their services.

Respectfully yours,

JOSEPH P. DONAHOE, *Commissioner.*

PUBLIC WORKS DEPARTMENT.

BOSTON, April 14, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR. Under date of December 22, 1943, your Honor approved the awarding of a contract, without publicly advertising for bids, for reasons as outlined in my communication of December 10 that I sent to you regarding

this matter, to the contracting firm of Baker & Co., 1335 Hyde Park avenue, for assisting department forces in removing and replacing two 36-inch gates located at Massachusetts avenue and Tremont street, and doing other related work, the total cost of the contract not to exceed \$2,500.

I have been informed by Division Engineer Sullivan that the actual cost of the work amounted to \$2,940.98.

I respectfully request, therefore, your permission to amend the above-referenced contract by substituting the amount of \$3,000 as the total allowable maximum of the contract, in place of the maximum amount of \$2,500 previously approved by you under date of December 22.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

SUPPLY DEPARTMENT

BOSTON, April 24, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—Permission is respectfully requested to award a contract to the Harry B. Liggett Company, 949 Commonwealth avenue, Boston, for furnishing one Studebaker Champion two-door sedan to the Health Department as per the following specifications and equipment:

Factory list, \$767; transportation allowance, \$40.29; delivery and handling, \$40.36; right windshield wiper, \$5; increment, O. P. A., \$207.09; heater and defroster, \$27.50; total unit price, \$1,087.24—exclusive of tax—less: one 1940 Chevrolet coach, motor No. B156600 to be traded in, \$525—\$562.24; no cash or trade discount.

This department canvassed approximately all automobile dealers in the Boston district as shown below:

Lalime & Partridge, Inc., \$675.34; Harry B. Liggett Company, \$562.24; Bowers Motor Sales, no bid; Brodigan Motor Sales, no bid; Cote Motor Sales, no bid; Jackson Chevrolet Company, no bid; Lawton Hevessey Company, no bid; Prescott Motor Company, no bid; Stilphen Motor Company, no bid; J. W. Stoddard, no bid; Massachusetts Motor Car Company, no bid; Hoovers Motors, Inc., no bid.

The Harry D. Liggett Company was the lowest bidder, and as they are direct agents for Studebaker cars no advantage would accrue from publicly advertising for bids.

Respectfully yours,

FRANCIS X. LANG,
Superintendent of Supplies.

BOSTON, April 24, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

MY DEAR MR. MAYOR,—Permission is respectfully requested to award a contract, without publicly advertising for bids, to the Harry B. Liggett Company, 949 Commonwealth avenue, Boston, for furnishing one Studebaker Champion four-door sedan to the Sanatorium Division of the Hospital as per the following specifications and equipment:

Factory list, \$797; transportation allowance, \$40.67; delivery and handling, \$41.88; right windshield, \$5; increment, O. P. A., \$215.19; heater and defroster, \$27.50; 600/16 tires, \$7.50; total unit price, \$1,134.74—exclusive of tax—less: one 1937 V-8 Ford, No. 18-3480920 to be

traded in, \$25; net cash delivered price, \$1,109.74; no cash or trade discount.

This department canvassed approximately all automobile dealers in the Boston district as shown below:

Harry B. Liggett Company, \$1,109.74; Bowers Motor Sales, no bid; J. J. Brodigan, no bid; Cote Motor Company, no bid; Jackson Chevrolet Company, no bid; Lalime & Partridge, Inc., no bid; Lawton Hevessey Company, no bid; Prescott Motor Company, no bid; Stilphen Motor Company, no bid; J. W. Stoddard, no bid; Massachusetts Motor Company, no bid; Hoovers Motors, Inc., no bid.

The Harry B. Liggett Company was the only bidder, and as they are direct agents for Studebaker cars no advantage would accrue from publicly advertising for bids.

Respectfully yours,

FRANCIS X. LANG,
Superintendent of Supplies.

BOSTON, April 27, 1944.

HON. MAURICE J. TOBIN,
Mayor of Boston.

DEAR MR. MAYOR,—Permission is respectfully requested to award a contract without publicly advertising for bids, to the Congras Motors Company of Hartford, Conn., for furnishing the following to the Fire Department:

One new 1942 Lincoln Zephyr, four-door custom sedan, motor No. 131518, with the following equipment: Overdrive, custom interior, hot water heater, chrome wheel hand and wheel locks, spare wheel, four 7.00 x 15 tires, and other standard equipment; car to be painted deep maroon as per Fire Department specifications, \$2,690.91.

Quotations were solicited from all leading Lincoln dealers in Metropolitan Boston and New England and the above bid from Congras Motors Company was the only bid received. Since this is the only available source of supply of this make and model of car in New England, no advantage would be gained through public advertisement.

Priority to purchase this car was obtained through the Regional Office of the Office of Price Administration's "Certificate to Purchase," No. 244745A, dated April 11, 1944, on the strength of application from the Fire Commissioner and Superintendent of Supplies.

The approximate amount of the contract will be \$2,690.91.

Respectfully yours,

FRANCIS X. LANG,
Superintendent of Supplies.

NO DAMAGES AWARDED.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That this Board determines that no person sustains damages by the making of the public improvements, consisting of the discontinuance of parts of the following highways in the South Boston district: F street, from West First street to Reserved Channel; G street, between West First and East First streets and E street; I street, from Dorchester street to Reserved Channel; H street, northerly from land of The Lumsden and Van Stone Company to Reserved Channel; under the order of the Board of March 16, 1944, and awards no damages therefor.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

TOOLKEEPER, LONG ISLAND HOSPITAL, BOSTON INSTITUTIONS DEPARTMENT, JUNE 10, 1944.

Last date for filing applications, Monday, May 22, 1944, at 4.30 p. m.

AMENDED NOTICE.

(Note correct salary.)

CAFETERIA MANAGER, BOSTON SCHOOL DEPARTMENT, JUNE 3, 1944.

Last date for filing applications, Monday, May 15, 1944, at 4.30 p. m.

Salary: For Type A Lunch Room, \$1,196 a year plus a temporary increase of \$200. For Type B Lunch Room, \$988 a year plus a temporary increase of \$200.

(Classification of Lunch Rooms is based on the volume of business.)

Vacancies: From time to time.

Duties: To be responsible for the ordering of all food supplies required; to receive and record all supplies received in bulk as ordered through the office of the Business Manager; to train adult assistants in the preparation and serving of food. Applicants should have a knowledge of market prices, food values, and well-balanced menus.

Entrance Requirement: Applicants who have passed their fiftieth birthday on the date of examination will not be eligible to apply. A certificate of date of birth must be filed with the application unless one has been filed with a previous application.

Subjects and Weights: Training and experience, 2; practical questions, 3; total, 5.

Passing Requirements: Applicants must obtain at least 70 per cent in each subject in order to become eligible.

Physical fitness to be determined by physical examination.

VOTE FOR PRESIDENT IN MASSACHUSETTS, NOVEMBER 3, 1936.

Vote in the State for President: 942,716 for Roosevelt (Dem.); 763,613 for Landon (Rep.); 118,639 for Lemke (Union); 5,111 for Thomas (Soc.); 2,930 for Browder (Comm.); 1,305 for Aiken (Soc. Lab.); 1,032 for Colvin (Proh.); all others, 11; total votes, 1,840,357; blanks, 34,768. Plurality for Roosevelt, 174,103. There were 18,097 more ballots cast for President than for Governor.

POLICE DEPARTMENT ORDERS.

General Order No. 118.

The transfer of the following-named person, now serving in the armed forces of the United States, is hereby ordered, to take effect on Thursday, April 27, 1944, at 7.45 o'clock a. m.:

Patrolman Donald D. Penny, from Division 1 to Superintendent's Office.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 119.

Acting under provisions of chapter 521, Acts of 1922, as amended, creating the Contributory Retirement System, the Boston Retirement Board has notified this department that it has approved for retirement, on account of accidental disability, the following-named police officers, members of said Contributory Retirement System; to take effect at the close of business, Sunday, April 30, 1944.

Wherefore, In view of this operation of law, the Police Commissioner states that on and after April 30, 1944, at the hour stated, the said police officers shall no longer be active members of this department, and it is hereby ordered that its records be so amended.

Royal L. Atwood, patrolman, Division 2.

Thomas F. Patten, patrolman, Division 4.

Vaughn McA. Hewey, patrolman, Division 17.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 120.

A trial board consisting of Captains McNabb, Masuret and DiSessa, having heard by reference a complaint against Patrolman James E. McPhee of Division 14, charging him with neglect of duty, has reported to the commissioner a finding of not guilty and recommends that the complaint be dismissed. In accordance with which it is hereby ordered that the complaint against the said Patrolman James E. McPhee be dismissed, and that he be restored to duty, effective as of Monday, May 1, 1944, at 5.45 o'clock p. m.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 121.

The commissioner desires to express his deep appreciation to all officers who performed many extra hours of duty cheerfully and willingly in the policing of various events, including Police Listing beginning January 3, 1944, and the Presidential Primaries on April 25, 1944.

The commissioner is not unmindful of the fact that officers were obliged to sacrifice their regular periods of relief as well as regular hours for meals and rest in the performance of these extra duties.

In consideration of the extra services performed so efficiently by members of

POLICE DEPARTMENT ORDERS.

(Continued from page 387.)

the Force, the commissioner is pleased to commend the personnel for their unselfish devotion to duty and grants all of them three days' extra vacation.

Commanding officers of divisions and units are hereby instructed to permit officers entitled to this extra vacation to take it in such manner and at such times that the efficiency of the department will not be impaired in any way.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 26.

I. ASSIGNMENT OF PROVISIONAL MILITARY SUBSTITUTES.

The following assignments of provisional military substitutes for firemen, which became effective at 8 a. m. Thursday, April 20, 1944, are hereby announced:

John W. Duggan to Ladder Company 3.

Arthur J. Mahoney to Ladder Company 22.

The following assignments of provisional military substitutes for firemen, which will become effective at 8 a. m. Wednesday, April 26, 1944, are hereby announced:

William Albanese to Engine Company 1.

Salvatore M. DiStefano to Engine Company 14.

William J. McGowan to Engine Company 10.

II. CANCELLATION OF ASSIGNMENT.

The following assignment of a man on probation which was announced in General Orders No. 3 (c. s.), and which become effective at 8 a. m. Wednesday, January 12, 1944, is hereby canceled, effective as of that date:

Edward J. Gibbons of Engine Company 18.

III. NEW PAGE FOR G. A. C. ASSIGNMENT BOOK.

A new page, No. 11, dated April, 1944, for the G. A. C. assignment book, is being issued to the department today. This page will replace old page 11, dated July, 1941, which is to be returned to Headquarters in the envelope provided on or before Monday, May 1, 1944.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

General Order No. 27.

I. WILLIAM CARDINAL O'CONNELL, ROMAN CATHOLIC ARCHBISHOP OF BOSTON. (1859-1944.)

The tribute paid by religious and civic leaders of the nation, in commenting upon the passing on April 22, 1944, of the late William Cardinal O'Connell, Roman Catholic Archbishop of Boston, reveals that one of the most illustrious citizens of our time has departed from this life.

As a means of participation in the civic mourning for the late Cardinal

Archbishop, whose life and works have left such an indelible impression and benefit upon our community, the Boston Fire Department has been privileged to be represented in the official Guard of Honor, which will stand at the bier while the body lies in state at the Holy Cross Cathedral from Monday, April 24, at 4 p. m., to Friday, April 28, at 10 a. m.

In addition, flags at all stations shall be flown at half-mast during the daytime hours from Monday, April 24, to Friday, April 28, 1944.

All officers and members of Districts 5, 6, 7 and 8, on the 8 a. m. to 6 p. m. tour of duty, April 26, 1944, shall report to the quarters of Engine Company 3 in full uniform, including sack coat and white gloves, at 6 p. m. on that day. Officers and members in these districts who are on the opposite shift are requested to report for duty at 5.30 p. m. on April 26 in order that the members on the 8 a. m. to 6 p. m. tour can be relieved from duty at 5.30 p. m. The officers and members so relieved shall report to the quarters of Engine Company 3 at or before 6 p. m. to form a delegation which will be led by the Fire Commissioner, Chief of Department, and Department Chaplain to officially visit the bier of the late Cardinal as representatives of the department. Other members of the department wishing to join this delegation are welcome to do so.

At 10 a. m. Friday, April 28, 1944, the hour of the funeral Mass, apparatus in all stations of the department shall be drawn across the threshold and the bells tolled for a period of one minute.

II. TRIBUTE OF THE FIRE COMMISSIONER.

To us all, and to succeeding generations, will come an ever-increasing consciousness of the greatness of this churchman, scholar and patriot, who, until lately, walked among us in the pathways of this life.

We shall continue to find inspiration and courage in his example.

He was a man of Faith—with firm faith in the providence of God and the dignity of man.

He was a man of Hope—pointing out always the hope that religion holds for all mankind, and that the Articles of our Constitution of the United States hold for our fellow citizens among the nations of the world.

He was a man of Charity—a charity of the kind that is reflected in compassion for the poor, the ill and the unfortunate.

He was a man of Strength—with tremendous vitality of intellect, body, character and courage.

He was Just—in his administration of affairs of church policy and personal relationships.

He was Tolerant—of the creeds and beliefs of others, opposing bigotry and religious persecution wherever and whenever he found it being nurtured, yet he was uncompromising in opposing all things which in the guise of "fashion" or economic expediency might directly or indirectly tend to weaken the fibre of morality in the people of our day.

He was Majestic—in the broad sweep of his personality, whether in the company of dignitaries or the average working men.

He was Humble—in his personal way of life and his constant recourse to prayer and meditation.

He was Wise—with the wisdom of learning and the fruits of sound reasoning.

He was Eloquent—in the behalf of every cause promoting the spiritual welfare of his fellow man.

He was Artistic—with a delicate sensitivity for the place of order, proportion, and form in all things.

He was Realistic—in facing the practical problems of the day.

He was profoundly Pious—in thought, in word, and in deed.

In short, he was a man of greatness, the like of whom this generation may never see again. R. I. P.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

General Order No. 28.

I. RESIGNATION.

The following resignation, which became effective at 8 a. m., Tuesday, May 2, 1944, is hereby announced:

Provisional Military Substitute
Thomas P. Burke, Engine Company 35.

P. M. S. Burke was appointed to the department September 1, 1943.

II. A. D. T. ASSIGNMENT.

The following signal number is to be added to running cards of the A. D. T. Company in this department:

Signal 225, Rand Avery-Gordon Taylor, Inc., 871 Commonwealth avenue. (Sprinkler System.) Apparatus to respond: Engine 41, Ladder 14, District Chief 11. Nearest box is 511.

III. DISCONTINUANCE OF BOSTON AUTOMATIC SIGNAL.

Notice has been received from the Boston Automatic Fire Alarm Company that the following Boston Automatic Signal has been discontinued as of May 1, 1944:

Signal 618, building, 50 Federal street.

IV. COMMENDATIONS.

Hoseman Edward J. Hurley of Rescue Company 3 and Ladderman Harold T. Matulaitis of Ladder Company 1 are hereby commended for responding to and working at fire, Box 3468, five alarms, on April 23, 1944, while off duty.

Ladderman Martin A. Callaghan of Ladder Company 14 is hereby commended for preventing the spread of a fire at Box 5235, April 28, 1944, before arrival of apparatus and working at said fire, April 28, 1944, while off duty.

By order of Fire Commissioner
WILLIAM ARTHUR REILLY.

SAMUEL J. POPE,
Chief of Department.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

(STATE.)

STATE EXAMINERS OF ELECTRICIANS, 1944.

Examinations will be held at the following points and on the following dates:

BOSTON, Wednesday, June 7.

BOSTON, Wednesday, September 6.

WORCESTER, Thursday, September 7.

SPRINGFIELD, Wednesday, October 4.

PITTSFIELD, Thursday, October 5.

BOSTON, Wednesday, November 1.

LOWELL, Thursday, November 2.

BOSTON, Wednesday, December 6.

NEW BEDFORD, Thursday, December 7.

NEW BEDFORD, Friday, December 8.

Rules for Examinations.

All examinations shall be given in English.

Applicants for Class B or journeyman's certificate must be at least eighteen years of age and have had at least two years' practical experience or the equivalent in the installation of wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Applicants for Class A or master's certificate must be at least twenty-one years of age and have had at least two years' experience in the business of installing wires, conduits, apparatus, fixtures and other appliances for carrying or using electricity for light, heat or power purposes.

Examinations shall consist of applicant's knowledge of the National Electrical Code and practical electrical work.

All persons desiring to be examined either for a Master or Journeyman Certificate shall have application on file at least ten days previous to the date of such examination.

Applicants for examination will be required to obtain at least 70 per cent in order to obtain a certificate.

Applicants who fail to obtain the required 70 per cent will not be entitled to re-examination until a period of three months has elapsed, and those who receive less than 50 per cent, or who fail on the practical demonstration, will not be re-examined for a period of six months.

Any person found referring to notes or books, or misbehaving during an examination, will be debarred from that examination.

Notice will be sent to applicants for certificates when and where examinations will be held and only those so notified will be examined on that day.

STEPHEN C. GARRITY,
JULIUS E. WARREN,
ULYSSES J. LUPIN,
BERTRAM L. WHITEMORE,
SAMUEL J. DONNELLY,
State Examiners of Electricians.

For application blanks or other information apply to State Examiners of Electricians, Room 406, 15 Ashburton place, Boston, Mass.

PROCEEDINGS OF CITY COUNCIL.

Monday, April 24, 1944.

Regular meeting of the City Council in the Council Chamber, City Hall, at 2 p. m., President KERRIGAN in the chair. Absent, Coun. Hurley and Scannell.

The meeting was opened with the salute to the Flag.

APPOINTMENT OF CONSTABLES.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.
To the City Council.

Gentlemen,—Subject to confirmation by your Honorable Body, I hereby appoint the following-named persons constables of the City of Boston for the term of one year, beginning with the first day of May, 1944, without power to serve civil process and to serve without bond.

The commissions of all constables not named herein expire on April 30, 1944, and such constables are hereby removed from office from and after May 1, 1944, for the good of the service.

Respectfully,
MAURICE J. TOBIN, Mayor.

LEGISLATION RE USE TAX ON HORSES OWNED BY NONRESIDENTS.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel, relative to your order of April 10, 1944, regarding the introduction of legislation at the present session of the General Court which would give to Boston the right to assess use taxes on owners of horses running at Boston race tracks, where such owners do not reside in Boston, such legislation to be similar in nature and effect to the 1 per cent tax now being assessed upon the owners of similar properties participating in events on New York race tracks.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, April 14, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I have received for my consideration and report your letter of April 12, 1944, containing copy of the order of the City Council as follows:

"Ordered, That the Corporation Counsel be requested to seek to introduce legislation at the present session of the General Court which would give to Boston the right to assess use taxes on owners of horses running at Boston race tracks, where such owners do not reside in Boston, such legislation to be similar in nature and effect to the 1 per cent tax now being assessed upon the owners of similar properties participating in events on New York race tracks."

I have asked Mr. Harry Kalus, Legislative Counsel of the city, to make inquiry of the Rules Committee of the Legislature as to the possibility of introducing at the present special session legislation on the matters referred to in the Council order. I have been advised by him that the Rules Committee will not permit the introduction of a petition seeking legislation on the subject referred to in this order. Under the circumstances the order will be filed in the legislative file of this department and will be considered at the time petitions for legislation are being prepared and drafted to be presented to the next General Court.

Yours very truly,
FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

SURVEY OF LOWER EGLESTON SQUARE TERMINAL.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Boston Elevated Railway, relative to your order of April 3, 1944, regarding a survey of the lower Egleston Square Terminal for the purpose of protecting the people from the swing of the Mattapan cars, and to provide properly marked-off areas for persons waiting for all street cars.

Respectfully,
MAURICE J. TOBIN, Mayor.

Boston Elevated Railway Company,
April 18, 1944.

Mr. Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—A survey has been made of the signs and safety lines at Egleston Station as requested in order of the City Council received with your letter of April 10, and they will be repainted.

Very truly yours,
EDWARD DANA,
President and General Manager.

Placed on file.

REPAIRS AT MCCONNELL PARK, DORCHESTER.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Commissioner relative to your order of April 10, 1944, regarding repairs and alterations to be made at McConnell Park, Dorchester.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, April 14, 1944.

Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of April 12, with inclosure, order from the City Council regarding repairs and alterations to be made at McConnell Park, Dorchester.

This order is very vague, but I will be very glad to place the area in proper condition at the earliest possible moment.

Very truly yours,
WILLIAM P. LONG, Chairman.
Placed on file.

PAYMENT TO DEPENDENTS OF CITY EMPLOYEES OF EMERGENCY ALLOTMENT COMPENSATION.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944;
To the City Council.

Gentlemen,—I transmit herewith communication from the Corporation Counsel, relative to your order of February 28, 1944, regarding the purpose of establishing the legality and practicability of paying to the dependents of city employees who go into the armed services, the \$200 emergency allotment granted by his Honor the Mayor, one year ago.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Law Department, March 31, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—I am in receipt of the following order of the City Council of February 28, 1944, for my consideration and report:

"Ordered, That his Honor the Mayor be requested to confer with the City Auditor, the Corporation Counsel and the Budget Commissioner, for the purpose of establishing the legality and practicability of paying to the dependents of city employees who go into the armed services, the \$200 emergency allotment granted by his Honor the Mayor, one year ago."

In reply, I confine myself to that part of the order which refers to the question whether the City of Boston legally may pay to the dependents of those city employees who have gone into the armed services the \$200 emergency allotment payable in 1943. The emergency allotment, so called, was a temporary increase in compensation of \$200 each to employees of the City of Boston and County of Suffolk provided for in a supplementary appropriation order submitted by the Mayor to the City Council on March 1, 1943, and which was passed by the City Council on the same day.

I have considered the question in the light of the applicable provisions of law and am of the opinion that the payment suggested in the order of the City Council legally may not be made.

The authority of a city to appropriate and expend money raised by taxation is derived from the statutes of the Commonwealth. Such money can be expended only for public purposes sanctioned by law. General Laws, chapter 40, deals with the powers and duties of cities and towns and contains the purposes for which cities and towns may appropriate and expend money. Section 5 of chapter 40, the provisions of which apply to Boston, in part provides:

"A town may . . . appropriate money for the following purposes:

"For the compensation of all town officers whose election or appointment is authorized or required by law, and for all other necessary charges arising in such town." (Italics supplied.)

The question whether money raised by taxation for the purpose of increasing the compensation paid to the employees of the city and of the county may legally be paid to the dependents of such employees who go into the armed services of the Nation, depends, in my opinion, upon the power of the city to appropriate money "for all other necessary charges arising in such . . . (city)."

The words "all other necessary charges" have been construed by the Supreme Judicial Court of Massachusetts on several occasions. In *Waters v. Bunnouloir*, 172 Mass. 286, at page 288, the court stated the words have the following meaning:

"Necessary charges are confined to matters in which a town or city has a duty to perform, an interest to protect, or a right to defend." (Italics supplied.)

Again, in *Leonard v. Middleborough*, 198 Mass. 221, at page 223:

"But the statute giving towns power to appropriate money provides that, in addition to the cases therein specified, towns may raise and appropriate money 'for all other necessary charges arising in such town.' . . . This has been construed to authorize a town to raise and appropriate money in respect to matters where it has a corporate duty, right or interest to perform, defend or protect." (Italics supplied.) The duty, right or interest must be that of the city as a municipal corporation,—a subdivision of the Commonwealth vested with governmental powers—not that of an aggregation of individual inhabitants. The distinction suggested between

the duties, rights and interests of a municipal corporation on the one hand and those of the inhabitants of the municipality, on the other, might on first impression seem to be a "distinction without a difference." The line of demarcation is not readily apparent. But with respect to the power of the city to expend money for a purely public purpose the distinction is fundamental. It may best be shown, perhaps, by illustration, and for that purpose appropriate and timely recourse may be had to the language of the Supreme Judicial Court in *Flood v. Leahy*, 183 Mass. 232, at page 234:

"It is to be noticed that the duty, right or interest must be corporate, as distinguished from the individual duty, right or interest of the inhabitants of the town. *No matter how important or general these individual rights or duties are, they do not thereby become corporate rights within the meaning of the rule.* There can be no doubt, for instance, that in the case of threatened incursion of an enemy in time of war, it would be of the highest importance to the individual interests of the inhabitants that proper steps should be taken for defense; and yet it was held in *Stetson v. Kempton*, 13 Mass. 272, that, *there being no corporate duty resting upon the town to provide for the defense, it could not lawfully raise money by taxation for that purpose.*" (Italics supplied.)

It is clear from the authorities referred to that unless the payment suggested falls within the limits of the rule, it is illegal. It must be borne in mind that if the provisions for payment to the dependents of an employee during the time he was doing no work in the service of the city or county amounted to no more than a *pure gift* to an individual from money raised by taxation, it would be beyond the power not only of the city but also of the Legislature. *Opinion of the Justices*, 175 Mass. 599; *Opinion of the Justices*, 240 Mass. 616.

The payment suggested by the order of the City Council is a gratuity. There is nothing contained in the order by way of a recital of facts or a statement of reasons from which it might be determined whether the payment proposed, even though a gratuity, was for a public purpose, that is, for or with respect to a matter in which the city has a duty to perform, an interest to protect or a right to defend. There exist no facts of common knowledge which, in my opinion, would support a finding that the suggested payment was one for a public purpose.

While there can be no doubt that attempts made to render aid and assistance to the dependents of those called into military service can spring only from praiseworthy motives, and for that reason such efforts, in addition to being accorded commendation and general approbation, should also be given weight in considering whether the payment may legally be made, yet if no public purpose is served thereby the expenditure is unauthorized. The language in *Whittaker v. Salem*, 216 Mass. 483, at pages 484-485, indicates that the court would be likely to take such a view of the suggested payment:

"However meritorious the project may appear to be either in its *practicable or ethical or sentimental* aspects, if it is in essence a gift to an individual rather than a furthering of the public interest, money raised by taxation cannot be appropriated for it." (Italics supplied.)

Yours very truly,

FRANK J. MURRAY,
Corporation Counsel.

Placed on file.

EXTENSION OF TENEAN BEACH AS POST-WAR PROJECT.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.

To the City Council.

Gentlemen,—I transmit herewith communication from the City Planning Board, relative to your order of February 14, 1944, regarding the planning and consideration of post-war projects the extension to Tenean Beach northward along the waterfront to the Tenean Creek outlet at Freepoint street, the major portion of property involved being the property of the City of Boston.

Respectfully,

MAURICE J. TOBIN, Mayor.

City of Boston,
City Planning Board,
April 14, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mayor Tobin,—In reply to the City Council order of February 14, 1944:

"Ordered, That the City Planning Board be directed, through his Honor the Mayor, to include in their planning and consideration of post-war projects the extension to Tenean Beach northward along the waterfront to the Tenean Creek outlet at Freepoint street, the major portion of property involved being the property of the City of Boston," the Board recommends that property previously owned by Edward S. and George P. Hamlin and now in possession of the city through tax foreclosure be held for the expansion of Tenean Beach and that plans be prepared for this beach as a post-war project, financed by the Metropolitan District Commission.

Tenean Beach is a local beach comprising an area of twenty acres with about 400 feet of shore

line opposite open water and about 400 feet bordering Pine Neck Creek. The area bordering the creek is not too desirable for bathing and, during the war, bathers are restricted from using that part of the beach because of the war work being carried on at Lawley's shipyard on the other side of the creek.

This beach is about three-quarters of a mile south of Malibu Beach, a Metropolitan Reservation, and 1 1/2 miles from the City of Boston Strandway Beach in South Boston. The beach is also about one-half mile from the city boundary on the south and only a little over a mile north of Quincy Shore Beach in Quincy.

Under date of November 10, 1933, the City Planning Board submitted a report to his Honor the Mayor concerning the advisability of extending the beach in a northerly direction. At that time the land under consideration amounted to about eighteen acres, and belonged to Edward and George P. Hamlin, and the land and buildings were assessed for \$90,000. About one-half of the land is upland and one-half flats.

The year previous, 1932, the Clark property to the south, amounting to nearly four acres, had been added to the playground property, and the Park Department at the time deemed it adequate for beach and playground facilities, with ample space for parking.

However, it was felt that the beach would be seriously hurt if the Hamlin property to the north were developed for waterfront or industrial purposes, and though acquisition for purposes of protection would be desirable the straightened economic condition of the city at that time would not justify the purchase of the additional property.

In the past ten years there has been practically no change in the conditions as presented in the aforementioned report except for the all-important fact that the Hamlin property, comprising eighteen acres, has fallen into the hands of the city through tax foreclosure. Considering these facts, that we have a large amount of unused industrial property; that the beach, though not always filled to excess, is nevertheless overcrowded on a few of the hottest days in the year, and that ownership of the adjoining vacant property by the city is desired in order to protect the present beach; it is logical that the property remain under permanent ownership of the city and be developed for beach purposes.

The addition of this property will double the present beach facility and raises the point as to whether it might not be developed as a part of the Metropolitan Beach System, for the following reasons:

1. There is another tract of unused shore property, mostly water, just to the north of the property in question. This property, amounting to another twenty acres in area and now assessed for \$30,000, is a connecting link between city property and Metropolitan Park property.

2. The acquisition of this last mentioned property would provide a total beach length of over one-half mile near the city boundary, which would undoubtedly be patronized by residents of the southern metropolitan area.

3. It would relieve, to some extent, the congestion of metropolitan and local beaches to the south in Quincy.

4. Old Colony Parkway, which flanks the beach, is a part of the Metropolitan System.

5. In a joint report of the State and City Planning Boards to a Legislative Recess Commission, entitled, "A Survey of Governmental Units," dated June 10, 1940, it was shown that Boston contributes a much larger share of the expense of Metropolitan beaches, such as Nantasket and Revere Beaches, than its percentage of users justifies.

6. The proposed extension has excellent beach characteristics, being centrally located in regard to the Metropolitan area, and should be conserved for the people's use.

It is therefore recommended that proper procedure be taken toward enlargement and development of Tenean Beach as a part of the Metropolitan System.

Through inability to secure a meeting of the board to which this matter could be referred, the chairman of the board and the chairman of the Board's Recreation Committee have directed me to submit the above report in order to bring it to your Honor's attention without further delay.

Very truly yours,

FRANK H. MALLEY,
Executive Director.

Placed on file.

TRANSFER FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Park Commissioners requesting the transfer of the sum of \$30,000 from the income of the George F. Parkman Fund to the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

I submit herewith an appropriation order and respectfully recommend its passage by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, April 6, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$30,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance and
Improvement of.....\$30,000

When making up the budget estimates for the year 1944, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from the A-1, Permanent Employees, with the understanding that this deduction was to be replaced by the total yearly income of said Parkman Fund for 1944, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,
WILLIAM P. LONG, Chairman.

Ordered, That the sum of \$30,000 be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on
January 12, 1887, Maintenance and
Improvement of.....\$30,000

Referred to Committee on Parkman Fund.

TRANSFER TO CITY COUNCIL, CONTRACTUAL SERVICES.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.

To the City Council.

Gentlemen,—I am in receipt of the attached communication from the City Messenger requesting an additional appropriation of \$3,500 in order to meet obligations for stenographic reports for the year 1944.

In compliance with this request there is forwarded herewith an order transferring this sum from the Reserve Fund, and I respectfully recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
City Council, April 14, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—The original City Council appropriation for stenographic reports for the year 1944 was \$1,500.

Up to the present the cost of reports of hearings conducted by the City Council has far exceeded this amount and therefore in order to meet outstanding bills and to carry on this service for the remaining months of 1944 I respectfully request an additional appropriation of \$3,500.

Very truly yours,

WILLIAM J. O'DONNELL,
City Messenger.

Ordered, That under authority of section 3B of chapter 604 of the Acts of 1941 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$3,500, to the appropriation for City Council, B, Contractual Services, \$3,500.

WELFARE APPROPRIATION FROM SURPLUS IN FEDERAL COMMODITY STAMP PLAN.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.

To the City Council.

Gentlemen,—Under the provisions of chapter 65 of the Acts of 1941, any balance remaining in the fund originally established in connection with the operation of the Federal Surplus Commodity Stamp Plan may, when the plan is no longer operative, be appropriated for any public welfare purpose. At the present time a balance of \$239,705 is available in the fund and since operation of the plan has been discontinued by the Federal Government I propose, with the approval of your Honorable Body, to apply this balance against appropriations already made in the current year for public welfare, thus relieving the tax levy in an amount equivalent to the balance previously mentioned. I submit herewith an appropriation order for this purpose and respectfully recommend its adoption.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That in accordance with the provisions of chapter 65 of the Acts of 1941, the balance of \$239,705 remaining in the special account Installation of Federal Surplus Commodity Stamp Plan be, and the same hereby is, appropriated to be used for meeting appropriations heretofore made for the "Special Items" group in the budget of the Public Welfare Department, Central Office.

Referred to Executive Committee.

LOAN FOR CONSTRUCTION OF PUBLIC WAYS.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Commissioner of Public Works in which it is requested that a loan authorization of \$1,500,000 be made available for the construction of public ways.

In the budget adopted by your Honorable Body earlier in the year provision was made for an appropriation from taxes for this purpose, as required under the provisions of section 5 of chapter 224 of the Acts of 1936. The appropriation requested by the Commissioner of Public Works is necessary to maintain the streets of the city in proper condition.

I respectfully recommend immediate consideration and adoption of the accompanying order by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Works Department,
April 24, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—Under date of April 10, I wrote to you, in substance, requesting that an order be introduced in the Council authorizing the issuance of bonds in the amount of \$1,000,000 under the so-called Public Ways, Construction of, Loan, for the construction of public ways or permanent pavement.

In the above-referenced communication I also informed you that it would cost considerably more than that amount to put the public streets of this city in a good condition, but that we probably could not expend more than \$1,000,000, in view of the current manpower shortage. There is a possibility, however, that we might be able to expend—judiciously—in excess of that amount during the current year and, in view of this, I recommend that the above-referenced amount be increased to \$1,500,000.

The bonds will be issued only as we need the money and in view of this, therefore, only that amount of bonds will be issued this year to pay for the cost of the street construction and reconstruction work that we will be able to effect during the current year. In view of this, therefore, there is no disadvantage in authorizing the issuance of bonds in the amount of \$1,500,000, but the issuance of bonds in this latter-referenced amount has the advantage of providing for the maximum amount of street construction and reconstruction work that can advantageously be effected during the year.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

City of Boston,
Public Works Department,
April 10, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—In November of 1942 an order, which was approved by your Honor on November 10 of the same year, was passed by the City Council authorizing the issuance of bonds in the amount of \$500,000, to be expended for the construction and reconstruction of public ways, under the provisions of section 5 of chapter 224 of the Acts of 1936.

The above-referenced amount has been almost entirely expended, however, and it will be necessary, therefore, to make provisions for an appropriation of at least \$1,000,000 to provide for the street construction and reconstruction work that it will be necessary for the department to do in the current year.

For the past two years, due to restrictions placed on road materials by the War Production Board, the street reconstruction work has been curtailed to a substantial extent, with the result that a great number of our streets are in a poor condition and should be resurfaced as soon as possible.

During normal years, the department should expend at least \$1,000,000 to maintain the streets in a proper condition, and during the current year an amount greatly in excess of that would have to be expended to put the street surfaces in good condition. In view of the manpower shortage, however, and the difficulties that contractors have in obtaining labor, I do not feel that we will be able to expend in excess of \$1,000,000, and for this reason I am asking only for that amount, although unquestionably we could—judiciously—as stated above, expend in excess of that amount to resurface all of the streets where such work is essential.

I respectfully recommend, therefore, that an order be introduced in the City Council authorizing

the issuance of a so-called Public Ways, Construction of, Loan in the amount of \$1,000,000, as provided under the provisions of section 5 of chapter 224 of the Acts of 1936, to be expended for the construction of public ways or permanent pavement.

Incidentally, the so-called down-payment of \$148,748.62 has been appropriated in the current budget of the Paving Service of this department in anticipation of the authorization by the City Council for the issuance of bonds in the above-referenced amount.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Ordered, That under the provisions of section 5 of chapter 224 of the Acts of 1936, and under the provisions of chapter 393 of the Acts of 1906, the sum of one million five hundred thousand dollars (\$1,500,000) be, and the same is hereby, appropriated, to be expended for the construction of public ways or permanent pavement, and that the City Treasurer be authorized to issue, from time to time, upon request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to Committee on Finance.

ESTABLISHMENT OF COUNTY CONTINGENT FUND.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.
To the City Council.

Gentlemen,—Several bills have been submitted by the Attorney General for expenses incurred in County matters, and also bills by the District Attorney during the month of December, 1943, in connection with cases under consideration in the District Attorney's office. Further bills along this line are expected. Since these bills were incurred in accordance with an enacted statute of the Commonwealth, it is apparent that they are obligations which must be discharged.

At the time of the preparation of the budget and the closing of the 1943 accounts no knowledge was had of the pendency of these bills, and, therefore, no provision was made in the 1943 or the 1944 budgets.

I have been advised by the City Auditor and the Budget Commissioner that a separate County Contingent Fund should be included in the County budget to meet the unanticipated expenses of the Attorney General and the District Attorney, as it appears that County expenses should be met from County appropriations. As these expenses are similar to the city expenses provided by the appropriation of the Contingent Fund for the city, I hereby recommend the passage of the accompanying order appropriating the sum of \$5,000 for the establishment of a County Contingent Fund.

Respectfully,
MAURICE J. TOBIN, Mayor.

Ordered, That the sum of \$5,000 be, and hereby is, appropriated, to be expended as hereinafter specified, said sum to be raised by taxes on the polls and estates in the City of Boston, and that all orders heretofore passed by the City Council relating to appropriations, taxes and interest thereon apply to the appropriation and taxes herein provided for.

County of Suffolk.

Contingent Fund..... \$5,000
Referred to Executive Committee.

APPROPRIATION FOR BOARD OF ZONING ADJUSTMENT.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Board of Zoning Adjustment in which it is requested that an appropriation of \$8,000 be made available to permit of a re-study of the Boston Zoning Map, made necessary by amendments to the Zoning Law passed in 1941 by the Legislature. The Board also requests an appropriation of \$1,500 to carry on its routine work.

I submit herewith an order providing for an appropriation of \$9,500 from the Contingent Fund, and recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Board of Zoning Adjustment,
January 13, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mayor Tobin,—The request of this Board for allocation of funds for its activities, which was approved by your Honor on August 5, 1943, was held by the Appropriation Committee of the City Council past the end of the year, and I am informed by the City Clerk and Auditor that it is necessary again to request this transfer of funds, not only to cover operation of the Board for the

coming year but also to cover outstanding commitments for the last quarter of 1943.

Fifteen hundred dollars of the requested \$9,500 was for routine operation of the Board. The remaining \$8,000 was to cover a very necessary re-zoning study, funds for which have been requested of your Honor by the Board for the past three consecutive years. Copies of the Board's requests of June 28, 1943, May 7, 1942, and March 11, 1941, stating in detail the reasons for the re-zoning study are appended.

Your Honor's approval of the request of the Board in its votes of June 11, 1943, for \$1,500 for its routine operation and for \$8,000 for a re-zoning study are urgently recommended.

Very truly yours,
FREDERIC H. FAY,
Chairman, Board of Zoning Adjustment.

City of Boston,
Board of Zoning Adjustment,
June 28, 1943.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mayor Tobin,—At its meeting on June 11th the Board, after thorough consideration, voted to again request of your Honor that the sum of \$8,000 be made available to the Board for the prosecution of a re-study of the Boston Zoning Map. Similar requests were made under date of March 11, 1941, and May 7, 1942, copies of which are inclosed.

These previous requests were predicated on the fact that while the Zoning Statute has been kept up to date by amendments regularly made by the Legislature, the Zoning Map, designating the Use Districts of the city, has had no major changes to keep it current since its adoption in 1924; and that the anticipated adoption of the Building Code, which would automatically make effective the modern, far-reaching amendments to the Zoning Law passed in 1941 (chapter 373) made essential a reappraisal of the Zoning Map.

Acceptance of the Building Code on June 15th caused the pending amendments to become automatically effective. These amendments provide, among other things, that all nonconforming uses shall be terminated by April 1, 1961, leaving, now, an eighteen-year period for amortization of location of such uses. In fairness to property owners it is highly desirable that the Zoning Map be reappraised and necessary changes made to the end that owners of nonconforming uses may have the maximum time to plan for conversion of their properties. In addition to this fact and the reasons contained in detail in the inclosed previous requests of the Board, it is unquestionably to be expected that early in the post-war period there will be a very heavy increase in building construction. The Board strongly urges that this study be completed prior to this expanded building activity to the end that such construction will be for the best general interest of the municipality and will avoid undesirable developments such as those of the past which have contributed so heavily to the difficult problem of the city, particularly in real estate valuation.

In addition to the above the appropriation of the Board is exhausted except for an uncommitted balance of approximately \$100. At the meeting on June 11th, it was:

"Voted, That the board request of his Honor the Mayor the transfer of \$1,500 from available sources for routine operation of the board for the ensuing year."

The entire amount requested herein will be expended substantially as follows:

1 Planning Assistant at \$2,400 for 8 months.....	\$1,600
2 Planning Assistants at \$2,400 for 7 months.....	2,800
Consultant, 8 days per month for 6 months.....	2,400
Materials and Publication.....	1,200
Total for Re-Zoning Study.....	\$8,000
Routine Operation of the Board.....	1,500
Grand total.....	\$9,500

Your Honor's approval of the above request is urgently recommended by the board.

Very truly yours,
FREDERIC H. FAY,
Chairman, Board of Zoning Adjustment.

City of Boston,
Board of Zoning Adjustment,
May 7, 1942.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mayor Tobin,—In order to prevent undesirable development of vacant areas or regrettable redevelopment of property in the city, the Board of Zoning Adjustment believes that a reappraisal of the Zoning Map should be made at this time in order that it may be brought up to date for effective implementation of the direction of the future growth and progress of the city.

In 1940 a Joint Re-Zoning Committee of the Board and the City Planning Board prepared amendments to the text of the Zoning Law to effect a more adequate protection to property. These amendments were enacted into law by the Legislature and now await becoming effective. The Zoning Map, however, remains substantially as it was adopted by the Legislature in 1924.

During 1940 and 1941 at this Board's request the City Planning Board sponsored a W. P. A.

Project which tabulated all necessary information in support of a re-study of the Zoning Map. This tabulation shows, for example, that while only 1,433 acres are zoned for single residences there are 3,159 acres in actual single family use; in the general residence districts 14,838 acres are so zoned but only 4,949 are devoted to such use; there is twice as much business area or three and one half times as much business frontage zoned as there is used for business; industrial and unrestricted districts have about the same ratio as found in business districts. This means, for instance, that residences built in business zones do not have required protection from depression of values caused by adjacent business uses, while the zoning tends to inflate the assessed values of the same property.

Under date of March 11, 1941, a request was made to your Honor for a transfer of \$8,500 to be used in the prosecution of this study. This request your Honor was unable to grant at that time.

The situation caused by the construction of defense housing projects creates a present need for additional protection in order that such developments will not conflict with existing or proposed municipal improvements. The amendments to the Zoning Law, if in effect, together with an adequate up-to-date Zoning Map would give much of the necessary protection against projects of this type being placed in undesirable locations.

The maintenance of an up-to-date Zoning Map is also an important part of the Master Plan studies being made by the City Planning Board which involve the extremely desirable Rehabilitation Study and the Post Defense Public Works Program. We are informed that the City Planning Board is handling the greatest possible amount of work in connection with the above studies and the many Public Safety activities in which it is engaged. This, together with the long experience of this Board in handling zoning matters, leads us to the belief that a re-zoning study should be under the direction of this Board.

At a meeting of the Board May 1st it was:

"Voted, That the Board communicate with his Honor the Mayor informing him of the present condition of the Zoning Map and the necessity for its reappraisal in the light of eighteen years' experience by the Board, and to request the sum of \$7,000 for the prosecution of such a re-study."

In addition to the above the appropriation of the Board is exhausted except for a small balance of \$30.03 now on hand. At the meeting of the Board on May 1st it was unanimously:

"Voted, That the Board request of his Honor the Mayor the transfer of \$1,500 from available sources for routine operation of the Board for the coming year."

The work contemplated above will be directed by the staff of the City Planning Board which now handles the routine activities of this Board.

The entire request of the Board contained herein will be expended substantially as follows:

1 Planning Assistant at \$2,000 for 8 months.....	\$1,333
2 Planning Assistants at \$2,000 for 7 months.....	2,333
Consultant, 8 days per month for 6 months, 2,400	
Materials and Publication.....	934

Total for Re-Zoning Study..... \$7,000
Routine Operation of the Board..... 1,500

Grand total..... \$8,500

A copy of our letter of March 11, 1941, outlining this study in somewhat greater detail is appended.

Yours very truly,

FREDERIC H. FAY, Chairman.

City of Boston,
Board of Zoning Adjustment,
March 11, 1941.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mayor Tobin,—The Boston Zoning Law, chapter 488 of the Acts of 1924, together with the accompanying Zoning Map, has been in effect for seventeen years and is in urgent need of a comprehensive reappraisal in order that it may conform to present and future conditions more accurately than it now does.

This need is evidenced, for example, in the report of the City Planning Board to your Honor dated May 23, 1939, relating to the need of further protection for the Back Bay district; the request of the Assessing Department in June of 1939 for a study of zoning in its relation to assessed values; the recognition, ever since 1924, of the fact that the Zoning Map, as adopted, was in some respects a compromise between conflicting points of view and the fact that these points of view have undergone development and change; and, finally, in connection with the Rehabilitation Study being prosecuted by the City Planning Board at the present time by direction of your Honor necessitating all possible controls, including zoning, to prevent further loss of real values and attempt to recapture some of the unnecessary losses.

With these points in mind the Board of Zoning Adjustment instituted a re-study of the problem in 1939 and was joined by the City Planning Board in 1940. Recognizing that the problem resolved itself into two major phases (1) that of amendments to the law itself, and (2) that of advisable changes in the Zoning Map, the two Boards acting jointly proceeded to reappraise the law and the

City Planning Board initiated a W. P. A. Project to assemble statistics in support of necessary changes in the Map.

Through a tremendous amount of time given by the unpaid members of the two Boards a bill (H-1174) is now before the Legislature to bring the law up-to-date and to correlate it with the pending Building Code. This still leaves to be considered among other things the zoning of the Back Bay in general; the areas bordering on recent recreational or thoroughfare construction; ribbon zoning for local business along thoroughfare frontages; and the adaptability of existing open areas for multiple family or other dwellings.

In regard to the Map changes, the Work Projects Administration has allocated a total of over \$50,000 of Federal funds for the assembly of factual material relating to actual land use vs. zoning in 1923 and in 1935. This is supplemented by an analysis of buildings and demolition of structures by types and by years from 1924 to 1938. This project must necessarily confine itself to the accumulation of statistics and cannot do analysis or make recommendations.

To finish this work, which the Board deems most important, will necessitate the presentation, analysis and development of recommendations, together with the execution of these recommendations by the Board of Zoning Adjustment. This is a matter needing intensive, continuous application which is not possible by the members of the Board.

To make this study effective and thereby gain for the city essential improvement in conditions it will be necessary to (1) prepare maps and charts graphically presenting the statistical material of the W. P. A. project, including maps showing new construction and demolition; (2) prepare certain supplementary land use maps; (3) analyze this material in the light of changing population and probable growth of business and industry to the end that population can be evenly distributed, and that sufficient, but not too much, area may be available for present and future business and industry in proper location, that rehabilitated areas throughout the city may have adequate protection, and that traffic arteries can have all possible protection from uses causing unreasonable congestion; and (4) execute the necessary changes in the Zoning Map to accomplish the desired results.

This material will also be of great value for the continued work of the Joint Zoning Committees.

The above work in addition to the routine of the Board of Zoning Adjustment in handling the usual public hearings for petitions for changes in the Zoning Map will necessitate approximately the following personnel and finances:

1 Planning Assistant at \$1,800 for 10 months.....	\$1,500
1 Planning Assistant at \$1,800 for 9 months.....	1,350
1 Planning Assistant at \$1,800 for 8 months.....	1,200
Consultant, 8 days per month for 8 months.....	3,200
Materials and Publication.....	1,250
Total for Study.....	\$8,500
Routine Operation of the Board.....	1,500
Grand total.....	\$10,000

In view of the above, the Board, at a meeting on March 7, 1941, passed the following vote:

"Voted, That the Board of Zoning Adjustment respectfully requests his Honor the Mayor to make available by transfer the amount of \$10,000 for the completion of the several zoning studies in order that this highly important work shall proceed without interruption and for routine operation of the Board."

FREDERIC H. FAY, Chairman.

Ordered, That the sum of ninety five hundred dollars (\$9,500) be, and the same hereby is, appropriated, to be expended under the direction of the Board of Zoning Adjustment, said sum to be charged to the Contingent Fund.

Referred to Executive Committee.

TRANSFER OF \$10,000 FOR CHESTNUT HILL FIRE HOUSE ALTERATIONS.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the Superintendent of Public Buildings in which it is requested that the additional sum of \$10,000 be made available to permit the completion of alterations to the Old Fire House No. 29, Chestnut Hill avenue, Brighton, so that it can be opened for public use.

In compliance with this request I submit an order providing for the transfer from the Reserve Fund of the sum requested, and respectfully recommend adoption by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Public Buildings Department,
April 3, 1944.

Hon. Maurice J. Tobin,

Mayor of Boston.

Dear Mr. Mayor,—In order to complete the alterations at Old Engine No. 29, Chestnut Hill avenue, Brighton, now the Brighton Municipal Building, and to equip with furniture and furnishings before it can be opened for public use it will be necessary to obtain the sum of ten thousand dollars (\$10,000).

This building is practically complete except for a few items. When finished it will certainly add to the civic health and recreation activities of the people in the Brighton district.

I therefore respectfully request your approval of this additional sum for the completion of this building.

Yours very truly,
LEO F. POWER,
Superintendent of Public Buildings.

Ordered, That under authority of section 3R of chapter 604 of the Acts of 1941 the City Auditor be, and hereby is, authorized to transfer:

From the appropriation for Reserve Fund, \$10,000, to the appropriation for Public Buildings Department, Old Fire House, Chestnut Hill Avenue, Brighton, Alterations and Additions, \$10,000.

Referred to the Executive Committee.

APPROPRIATION FOR REPAIR OF CITY MONUMENTS.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.
To the City Council.

Gentlemen,—I am in receipt of the attached communication from the chairman of the Art Commission which contains a list of certain city monuments that need repair and attention.

According to the records of the City Auditor, there is a balance in excess of seventy-five hundred dollars in the Phillips Street Fund, Income, account. Under the original bequest of Jonathan Phillips the income of the fund may be used "to adorn and embellish the streets and public places" of the city.

I feel that the work which the Art Commissioner desires to be performed comes within the terms of this bequest and therefore recommend adoption of the accompanying order.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Art Department, March 20, 1944.
Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Mr. Mayor,—Your Honor has requested a list of certain city monuments that need attention. The most pressing is the Brewer fountain on the Common.

Then there are the portrait busts of John Boyle O'Reilly and Patrick Collins on their respective monuments in the Fenway. The bronze is disagreeably stained about the faces and needs treatment. We get letters of complaint.

Likewise the Shaw monument is disfigured by pigeon droppings which should be removed.

The bronze sword of General Glover on Commonwealth avenue needs replacing.

We estimate that \$1,000 (from the Phillips Street Fund) would be necessary to fix up these monuments and allow for emergencies.

Yours respectfully,
ROBERT P. BELLOWES, Chairman.

Ordered, That the sum of one thousand dollars be, and the same hereby is, appropriated, to be expended under the direction of the Art Commission, for necessary repairs and improvements on monuments and fountains in various public places throughout the city, said amount to be charged to the Phillips Street Fund, Income.

Referred to Executive Committee.

CHANGING NAME OF WIRE DIVISION.

The following was received:

City of Boston,
Office of the Mayor, April 17, 1944.
To the City Council.

Gentlemen,—I am in receipt of communications, herewith attached, from the Fire Commissioner and from the Superintendent of the Fire, Wire Division, in which it is proposed that the name of the Wire Division be changed to that of Electrical Inspection Division.

The desirability, or necessity, for this change in name, as set forth in the attached communications, is sufficient, in my opinion, to give affirmative action to this proposal. The proposed change in the title of this division will in no way affect the Civil Service status of employees, nor will it have any effect on the duties of the division.

I am in favor of the proposed change in the title of this division, and respectfully request the adoption of the accompanying ordinance by your Honorable Body.

Respectfully,
MAURICE J. TOBIN, Mayor.

City of Boston,
Fire Department, April 11, 1944.

Hon. Maurice J. Tobin,
Mayor of Boston.

Dear Sir,—The inclosed communication from the Superintendent of the Wire Division is self-explanatory.

I have consulted with the Director of Civil Service and he informs me that the proposed change will not have any effect on the Civil Service status of employees of the present Wire Division, provided there is no change in their duties. Inasmuch as no change in duties is contemplated it is apparent that there will be no Civil Service complications in changing the title of this division of our department.

Inasmuch as the proposed change will make the description of this division consistent with that of similar departments in other cities doing the same work and it will be more consistent in a description of the type of duties performed by this division, I recommend that this matter be submitted to the City Council for an ordinance permitting this change in name.

With the expansion of the electrical industry through new inventions and the increased variety of types of inspections required of our present Wire Division, the new title will be found especially appropriate and will avoid much confusion which now exists whereby matters within the jurisdiction of our Wire Division are accidentally referred to the Fire Alarm Division or the Building Department by various persons seeking information or submitting complaints.

The desired amendment of the present ordinances would be as follows:

Amend the present ordinance of the City of Boston as contained in chapter 15 of the Revised Ordinances of 1925 by striking out section 10 and inserting in place thereof the name "Electrical Inspection Division" wherever "Wire Division" appears at present.

Accordingly, I respectfully request that you submit this proposal to the City Council for their consideration.

We are planning the printing of various document forms and stationery at the present time and we shall hold printing orders as long as possible in order to incorporate the new title of this division if this proposal meets with your approval.

Respectfully yours,

WM. A. REILLY,
Fire Commissioner.

City of Boston,
Fire Department, February 21, 1944.
From Superintendent, Wire Division.
To the Fire Commissioner.

Subject: Change in Title of Wire Division.

I respectfully request your permission to have the name of the Wire Division changed to that of Electrical Inspection Division, with the approval of the Mayor and the City Council, feeling that this will be for the good of the service to both the personnel of the division and to those who seek information regarding electrical inspection.

The Wire Department was originally created for the sole purpose of supervising the burying of wires in streets and changing service wires and locations of wires on outside construction by the various utilities companies.

But through the years a doubt as to the true identity of the division has caused considerable comment and criticism by the many branches of the industry and the general public.

Many queries by telephone for the Fire Alarm Division and the Water Division have been received, the pronunciation of the words fire, wire and water being very often mistaken for one another, causing delay in efficiency of service.

I feel that this suggested change will be to the advantage of all interested parties, and that no material amount of expense will be involved in the printing change.

I might also add that this title as suggested is used in some of the larger cities of the country.

Respectfully,

BERNARD B. WHELAN,
Superintendent, Wire Division.

An Ordinance Concerning the Electrical Inspection Division of the Fire Department.

Be it ordained by the City Council of Boston, as follows:

Chapter fifteen of the Revised Ordinances of 1925 is hereby amended by striking out section ten and inserting in place thereof the following:

Section 10. The fire commissioner shall exercise the powers and perform the duties imposed by law upon the wire commissioner, and shall establish in the fire department a division to be known as the electrical inspection division. The electrical inspection division shall be in charge of a deputy appointed by the fire commissioner, who, under the direction of the fire commissioner, shall carry out the provisions and requirements of law relating to wires and inspection of wires, and the installation and use of electric conductors and appliances in buildings in the city of Boston. The salary of the deputy shall be fixed by the fire commissioner, subject to the approval of the mayor.

Referred to Committee on Ordinances.

PLOUGHING OF VACANT LOTS FOR VICTORY GARDENS.

The following was received:

City of Boston,
Office of the Mayor, April 24, 1944.
To the City Council.

Gentlemen,—I transmit herewith communication from the Park Commissioner, relative to your order of April 10, 1944, regarding the plowing up of vacant lots throughout the city in order that they may be used for victory gardens, as was done in 1943.

Respectfully,

MAURICE J. TOBIN, Mayor.

City of Boston,
Park Department, April 14, 1944.
Arthur C. Carey,
Chief Clerk, Mayor's Office.

Dear Sir,—I have your memorandum of April 12, with inclosure, order from the City Council in regard to vacant lots in the city to be ploughed up for victory gardens.

Please be assured all lots we used last year were ploughed by the city and will be ploughed again this year and as many additional lots as are possible for us to acquire, that are large enough to permit our tractor ploughs to go in and plough.

Very truly yours,

WILLIAM P. LONG, Chairman.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Edward Ambrogna, for compensation for eyeglasses broken caused by defect in Endicott street.

Joshua J. Bradbury, for compensation for damage to car caused by an alleged defect on Chelsea Street Drawbridge.

Helen S. Brown, for compensation for injuries caused by an alleged defect in Weld Hill Street.

Mary E. Dawson, for compensation for injuries caused by an alleged defect at 1409 Centre street.

James A. Howlett, for compensation for damage to car by street sweeper.

Philip J. Murphy, to be reimbursed for execution issued against him.

Rosalie L. Weaving, for compensation for damage to property at 51 Union park, caused by overflow of sewage.

Executive.

Petition of Marguerite J. White to be paid annuity on account of death of husband, Edward J. White, late member of Fire Department.

Petition of Agnes J. Finnerty, to be paid annuity on account of death of husband, Edward A. Finnerty, late member of Fire Department.

PERMIT FOR CHILDREN.

Petition of Maria Paporello for children under fifteen years of age to appear at places of public amusement.

Permit granted under usual conditions.

FINANCE COMMISSION REPORT ON CITY CLEAN-UP.

The following was received:

City of Boston,
Finance Commission, April 20, 1944.
To the Honorable the Mayor and City Council.

Gentlemen,—During the past three months the city has witnessed probably the greatest physical clean-up in its history of the streets, private ways, alleys, back yards, and vacant lots. Beginning with the removal of litter which had been carelessly or maliciously discarded, scattered, or loosely stored here, there, and everywhere in many sections of the city, the finishing touches of the campaign to eradicate the reputation which had been given to Boston as "a dirty city" amounted almost to a scrubbing of sidewalks and a polishing of pavements. Court actions are still pending against some property owners who have remained obdurate to city demands "to clean up," but despite some few unclean yards, the owners of which have as yet declined to give cooperation, for the most part the cleaning process has been complete.

Yet all this has been accomplished without the aid of any new law, any new ordinance, or any "get busy-or" orders to policemen to enforce the old laws or ordinances. Neither has it been necessary for the city to enlarge its force beyond its normal limitations, to add new equipment, nor to impose any unwarranted burden upon the old employees or equipment.

To accomplish this sudden transition, the health inspectors merely made the ordinary inspections which are required to be a routine of the Health Department work; then, took the steps always provided by law or ordinance to enforce

compliance with the rules and regulations. The Public Works Department inspectors and executives were finally goaded by expressed public opinion to make the observations which are a part of their routine duty and as a result began, where necessary, to compel contractors engaged in collection of refuse to live up to the obligations of their contracts; also, the Public Works Department supervisors made the rounds of service yards and followed work groups in action, as the system of operating the street cleaning service originally intended, and compelled city employees, regularly paid to keep the city clean, to do the work for which they were hired and paid. The only extra city expense to this date in all these revived activities has been the printing of posters and cards which have been nailed up here and there in conspicuous locations within the city. A little extra work has been contributed to the drive by private agencies without charge, such as the use of billboards "to urge and warn," and to show special films containing the same kind of admonitions in the motion picture theaters. In other words, the city agents did what is expected of them and the city was made clean in short order.

Causes.

Experience has now shown that there have been several causes of, or contributory factors to the unclean condition of the city. A comprehensive analysis of the situation follows:

1. City Failure. The city departments involved in keeping the public ways clean are the Health, the Fire, the Public Works and the Police. Each has its part to play in the maintenance of sanitation and each is equipped with sufficient authority to make its contribution whether it be in enforcing rules or administering collection. Lack of enforcement and lack of cooperation were the chief weaknesses in this relationship.

(a) The Health Department has an adequate force of inspectors and constables whose duty it is to discover unclean conditions within private property. If they are fully and conscientiously engaged in the work required of them, filth cannot remain long in private yards or alleys. Yet that many yards and alleys were filthy is now well established.

(b) Fire Prevention inspectors cannot overlook rubbish piles. Any rubbish pile is a potential fire hazard. Dilapidated buildings, which are often the refuge of uncontrolled youth and vagrants, also constitute a fire menace as well as a disease menace. The Fire Prevention officials can start proceedings which, with the cooperation of other agencies, would result in the demolition of such buildings. The existence of many litter-laden dilapidated buildings was well established.

(c) The Public Works Department has direct responsibility for the conditions of the public ways. The frequency of the finding of littered streets is indication that the street cleaning work has not been constant or complete.

It is significant that the Public Works Department recognized that a potential cause of uncleanliness is inefficiency or carelessness in refuse collection work and as a result inserted in the city contracts the following explicit direction:

The contractor shall provide brooms and shovels on each truck, and shall remove all refuse dropped from the trucks or from the containers.

It has been evident that the inspectors paid no attention to this requirement. Moreover, the commission investigator seldom found an inspector supervising collection.

Of more significance, however, is the fact that where the city collects rubbish, the city trucks were not equipped with shovels and brooms. Rubbish which fell into the streets in the process of emptying the containers into city trucks was allowed to remain where it fell.

Enforcement of the time schedule of collection was ignored. Often rubbish dutifully placed out for collection was not picked up until several days after the prescribed date. Meanwhile the elements and malicious individuals had scattered much of it all over the neighborhood.

(d) Finally, police officers ignored the ordinance which prohibits the littering of streets. This ordinance (chapter 39, section 41) reads as follows:

Section 41. No person shall throw or sweep into, or place or drop and suffer to remain in, any street, any piece of hoop, board, wood, wire, paper, or any nail, sweepings, sawdust, soot, ashes, cinders, shavings, hair, manure, oyster-shell, clam-shell, lobster-shell, glass, card, handbill, or rubbish or filth of any kind, or any noxious or refuse liquid or solid matter; or distribute to persons on a street, handbills, cards, circulars, or papers of any kind except newspapers.

Until the recent wave of public opinion forced attention to the fact of wholesale violation of this ordinance, there were no prosecutions or threats of prosecution of storekeepers or others who found the public ways the most convenient place to deposit their rubbish.

2. Contractors' lapses. Some of the contractors have been irregular in collection schedules. This permits excessive accumulation of refuse at curb with consequent scattering. One of the con-

tractors contended that shortage of manpower was the cause, yet the city was able to provide sufficient manpower in his district to bring collection up to date.

Some of the contractors habitually fail to meet contract requirements relative to "clean" collections, i. e., making a complete removal from the curb and picking up refuse which may fall in the process. In short order such fallen debris becomes scattered.

3. The Public's Part.

(a) Storekeepers.

Frequently storekeepers offend by carelessly piling litter in front of establishments or by sweeping debris originating in the stores into gutters. Some, in order to avoid payment of the small fee charged for commercial collection, place their rubbish on vacant lots or in front of vacant stores! The experienced contractors always decline to pick up such rubbish and again, the elements and malicious persons scatter it about the neighborhood.

(b) Residents.

(1) Residents in many cases failed to provide adequate containers for refuse and were careless or downright lawless in other ways. In many places it was apparent that rubbish had been thrown from windows into the street; that rubbish was dumped into the gutter of streets. In the North End and the West End, hucksters' decayed fruits and vegetables were often deposited in the streets, and frequently were used as missiles by children at play.

(2) Residents employing servants failed to oversee the practice of the latter in getting rid of rubbish. This resulted in some of the most extraordinary examples of unsightliness.

Conclusion.

In the very nature of things, maintenance of community cleanliness is a constant struggle by all agencies involved and by the public. Unless a certain tempo of activity is maintained, ground is quickly lost and becomes increasingly hard to regain.

The administrative pattern of the city government through the Health, Fire, Public Works and Police departments has been set up and clothed with adequate authority to attain a desirable standard of cleanliness. The recent successful clean-up drive represented the proper functioning of those several agencies. It represented also the cooperation of the public, an essential element in the picture. If the condition of the streets is not to slip back into its former state, the tempo of activity of these departments must be kept constant.

Respectfully submitted,
ALEXANDER WHEELER, Chairman,
JOHN F. CUSICK,
LEO J. DUNN,
FREDERICK DEANE,
EDWARD F. MULLEN,
The Finance Commission.

ROBERT E. CUNIFF,
Secretary.

Placed on file.

SOLDIERS' RELIEF.

Coun. KEENAN, for the Committee on Soldiers' Relief, submitted report recommending payment of aid to soldiers and sailors and their families in the City of Boston for the month of April.

Report accepted; said order passed.

PROPOSED ACTION ON CONSTABLE APPOINTMENTS.

Coun. TAYLOR called up, under unfinished business, No. 1 on the calendar, viz.:

1. Action on annual list of appointments by the Mayor of Constables not connected with official positions and authorized to serve civil process upon filing bonds, as contained in City Document No. 45.

Coun. HANLEY—Mr. President, I rise to a point of information. This refers to City Document No. 45. Are we supposed to be in possession of that document?

President KERRIGAN—I think there are copies of the document in last week's minutes.

Coun. HANLEY—Mr. President, there are a few names there in regard to which I should like to have more knowledge than I have at the present time.

President KERRIGAN—The gentleman can move postponement.

Coun. HANLEY—Mr. President, I am not fully aware of the customary procedure in these matters. I believe that last year this document was laid over after its presentation, so that the members of the Body might be more fully aware of who they were voting upon, and I think that the members should have that opportunity. Apparently the names are put in alphabetical order and not in the order of the different wards from which they come. I believe the matter should be laid over for a week, until we may know whom we are voting for.

Coun. TAYLOR—Mr. President, I would like to reply —

Coun. FISH—Mr. President, I rise to a point of order. Is debate allowed on a motion to lay on the table?

Coun. TAYLOR—Mr. President, it is not a question of laying on the table. I was simply going to suggest that it might be sent in to Executive where we might have time to pick out names that members wished to pick out, not holding up everybody. May 1st, the time for which these appointments are supposed to be made, is almost here, and certainly some action in the way of confirmation should be taken. Otherwise, there will be nobody in the City of Boston who can legally serve writs, and that would be a serious injustice to the people of Boston. I would suggest, therefore, simply holding the matter up a short time, so as to give every member a chance to look over the list. I am not in favor of laying it over for one week.

Coun. HANLEY—Mr. President, I simply rise as a result of information I have received. In view of the fact that these appointments are of constables not connected with official positions, I withdraw my former motion; but, for the information of myself, as well, I believe, as other members of the Body, I believe that when the names of those constables connected with official positions are submitted by the Mayor and come before us, an opportunity should be given to us to examine the list before taking action to confirm the appointees. As far as these names here are concerned, I withdraw my former motion.

Coun. KELLY—Mr. President, upon what are we acting?

President KERRIGAN—No. 1 on the calendar. Coun. KELLY—There is no report of the Committee on Constables, Mr. President.

President KERRIGAN—Councilor Taylor called the matter up.

Coun. TAYLOR—Mr. President, I did not make any report. I simply moved that it be taken off the calendar. That is all I know about it.

Coun. KELLY—Mr. President, it is still before the Committee on Constables, and I will have a report ready at next Monday's meeting. I will have a meeting of the committee during the week.

President KERRIGAN—Does any member of the Council move that any action be taken?

Coun. KELLY—Mr. President, I make a motion that action be postponed until our meeting next week.

The Council voted, on motion of Coun. KELLY, that action be assigned to the next meeting.

RESOLUTION ON DEATH OF CARDINAL O'CONNELL.

Coun. M. H. SULLIVAN offered the following: Whereas, His Eminence, William Cardinal O'Connell, priest and prince of the Roman Catholic Church has departed this life, therefore be it

Resolved, That the City Council of the City of Boston, in meeting assembled, does hereby express its deep sorrow at the passing of this world-renowned nobleman of the Catholic Church, whose long and saintly career in the service of God, and whose untiring zeal for the betterment and eternal happiness of all God's creatures of whatever faith and whatever nationality, have earned for him a high place among the select in Heaven, and an immortal place in the memorial halls of great Americans.

The resolution was adopted by a unanimous rising vote.

Coun. HANNON—Mr. President, I now move that we adjourn out of respect to the memory of our late lamented Cardinal.

The Council voted at 2.40 p. m., to adjourn to Monday, May 1, 1944, at 2 p. m.

BUILDINGS RAZED.

The Mayor has approved the request of the Building Commissioner to raze the following structures as fire menaces or nuisances:

Due to the structurally unsafe condition of the building at 138 Terrace street, Ward 10, to enter the premises and remove the building.

On the night of March 8, 1944, it was reported that some bricks had been removed from the wall of the building at 9 Fellows street, Ward 8. An inspection of the premises was made by a supervisor of construction and the street was roped off. On the following morning, to provide for the safety of the public, the City Building Wrecking Company, 185 Somerville avenue, Somerville, was ordered to enter the premises and remove the building.

Demolition operations have been completed in accordance with the regulations of the Boston Building Department and a bill in the amount of \$397 submitted for work performed has been approved.

Many complaints have been registered in the Building Department relative to the structural condition of the building at 43 Village street, Ward 5, and to provide for the safety of the public A. J. McGillivray of 14 Kenwood street, Dorchester, was ordered to board up all openings on the first, second and third floors of the building, also door on roof penthouse, to prevent trespass.

The work was completed under a permit from the Building Department and a bill in the amount of \$49.50 submitted for labor and materials has been approved.

On February 29, 1944, the district building inspector reported that the three top courses of the corbel of chimney at 38 Russell street, Ward 2, had fallen, and that the remaining portion of the chimney was in an unsafe condition and in danger of falling to the street. Therefore, the City Building Wrecking Company, 185 Somerville avenue, Somerville, was ordered to take down the remaining portion of the chimney.

Work has been completed to the satisfaction of the Building Department and a bill in the amount of \$35 submitted has been approved.

On Friday afternoon, February 25, 1944, it was reported that the building located at 58 Bromley street, Ward 10, was in danger of collapse. An inspection disclosed that the structure was open to trespass, partitions were partly removed, front wall was cracked, bulged and loose, and the rear wall separated allowing the outside 4 inches to fall into the rear yard, the remaining 4 inches of wall being held only by strapping and plaster.

Therefore, for the protection of the public, the New England Building Wrecking Company, 31 State street, Boston, was ordered to place a watchman on the premises immediately to prevent trespass, and on the following morning the City Building Wrecking Company, 185 Somerville avenue, Somerville, the low bidder, was ordered to enter the premises, shore the rear wall, and remove the building.

Shoring operations have been completed in accordance with the regulations of the Boston Building Department and the following bills submitted:

New England Building Wrecking Company in the amount of \$23.70 (watchman).

City Building Wrecking Company in the amount of \$98 (shoring).

The City Building Wrecking Company has been unable to proceed with the razing of the building because of the structural condition of the adjoining building at 60 Bromley street, which has been ordered vacated.

On March 24, 1944, it was reported that the building at 105 Dresser street, Ward 6, was in an unsafe and dangerous condition, and an inspection disclosed that its structural condition was such as to require emergency action to provide for the safety of the public. Therefore, the Mystic Building Wrecking Company, 203 Everett avenue, Chelsea, was ordered to enter the premises and remove the building.

NOTICE OF TAX TAKING.

THE COMMONWEALTH OF MASSACHUSETTS.

CITY OF BOSTON.

OFFICE OF THE COLLECTOR OF TAXES.

May 6, 1944.

TO THE OWNERS OF THE HEREINAFTER DESCRIBED PARCELS OF LAND SITUATED IN THE CITY OF BOSTON, IN THE COUNTY OF SUFFOLK, AND THE COMMONWEALTH OF MASSACHUSETTS, AND TO ALL OTHERS CONCERNED.

You are hereby notified that on Wednesday, the twenty-fourth day of May, 1944, at 9:30 o'clock a. m., pursuant to the provisions of General Laws (Ter. Ed.), chapter 60, section 53, and by virtue of the authority vested in me as Collector of Taxes, it is my intention to take for the City of Boston the following parcels of land for non-payment, after demand, of the taxes thereon as defined in General Laws, chapter 60, section 43, with interest and all necessary intervening charges, or any unpaid balance of said taxes, unless the same shall have been paid before that date.

WARD ONE.

Giovanni and Adelaide C. Bellizia—About 2,397 feet of land on the northeasterly side of Maverick street, being a lot shown on Sidney W. McLean plan, dated December 20, 1905, registered in the Suffolk Registry District of Land Court, certificate number 16730, Book 79, page 130, tax for 1942. . . . \$36 90

Antonio Bonaccorso—Land, with buildings thereon, on the southeasterly side of Cottage street, numbered 75, between an estate of Victoria DeRota and an estate of Pasquale A. Costanza, and supposed to contain 983 feet, water and costs for 1941. . . . \$67 49
Paid on account. . . . 48 00

Balance due. . . . 19 49

Blanche Bowers—Land, with buildings thereon, on the northerly side of East Eagle street, numbered 210 and 210A, between another estate of said Bowers and an estate of Antonio Pagliarulo, and supposed to contain 2,187 feet, tax for 1942. . . . 168 10

Samuel Bowie—Land, with buildings thereon, on the northerly side of Falcon street, numbered 156, between an estate of Frank Snidoni and others and an estate of Nicholas DeNietolis and another, and supposed to contain 2,187 feet, tax for 1942. . . . 176 30

Mary A. Boyle—Land, with buildings thereon, on the southerly side of Falcon street, numbered 195, between an estate of Mary J. Cardoza and an estate of Mary Driscoll, and supposed to contain 1,833 feet, tax for 1942. . . . 12 30

Barney Brown—About 1,500 feet of land lying on the southwesterly side in the rear of 21 Porter street, bounded and described as follows: Northeasterly by an estate of F. W. Woolworth Company; southeasterly by estates of Lena Cetata and Nicola Marino; southwesterly by an estate of Saverio Penta and another; northwesterly by an estate of Samuel H. Boiarsky, tax for 1942. . . . 123 00

Theresa Capodilupo, Trustee for Joseph and Leonard Capodilupo—Land, with buildings thereon, on the northwesterly side of Cottage street, numbered 14, between an estate of Mary DeSimone, trustee, and an estate of Louisa Gravalles and another, and supposed to contain 1,660 feet, water and costs for 1941. . . . 32 41

Vincent Carbone—Land, with buildings thereon, on the northeasterly side of Everett street, numbered 6, between an estate of Giuseppe Capone and an estate of Rosa De Stefano, and supposed to contain 1,000 feet, tax for 1942. . . . \$106 60
Paid on account. . . . 21 81

Balance due. . . . 84 79

Mabel E. Chadwick—About 1,560 feet of land on the northwesterly side of Morris street, bounded and described as follows: Northwesterly by an estate of Michael L. DeAngelico and another; northeasterly by an estate of Margaret A. Kelly; southeasterly by Morris street and southwesterly by an estate of Rebecca Aptaker, tax for 1942. . . . 16 40

Mary and Fioravanti Ciampa—Land, with buildings thereon, on the northwesterly side of Bremen street, numbered 30, between an estate of Filippo Gentile and another and another estate of said Ciampa and another, and supposed to contain 1,320 feet, water and costs for 1941. . . . 28 58

Loretta and Helen Dalton—Land, with buildings thereon, on the northwesterly side of Lexington street, numbered 290, between an estate of Harold Goldberg and an estate of Albert A. Hanlon, and supposed to contain 1,278 feet, tax for 1942. . . . 65 60
Water and costs for 1941. . . . 11 00

Matthew J., Ella E. and Mary G. Darcy—Land, with buildings thereon, on the northerly side of Marginal street, numbered 282, between an estate of Samuel Hewitt and an estate of Raphael DeCunto, and supposed to contain 2,625 feet, tax for 1942. . . . 123 00

Michael D'Errico—Land, with buildings thereon, on the northeasterly side of Saratoga place, numbered 2, between an estate of Samuel Geleman and an estate of said D'Errico, and supposed to contain 1,000 feet, tax for 1942 \$82 00
Paid on account. . . . 40 00

Balance due. . . . 42 00

Also land, with buildings thereon, on the northeasterly side of Saratoga place, numbered 3, between two other estates of said Michael D'Errico, and supposed to contain 1,000 feet, tax for 1942. . . . \$82 00
Paid on account. . . . 40 00

Balance due. . . . 42 00

Also land, with buildings thereon, on the northeasterly side of Saratoga place, numbered 4, between two other estates of said Michael D'Errico, and supposed to contain 1,000 feet, tax for 1942. . . . \$82 00
Paid on account. . . . 40 00

Balance due. . . . 42 00

Josephine DeNunzio—Land, with buildings thereon, on the southwesterly side of Lexington place, numbered 7, between two other estates of said Josephine DeNunzio, and supposed to contain 2,001 feet, water and costs for 1941. . . . 10 45

Also land, with buildings thereon, on the southerly side of Gladstone street, numbered 40, between an estate of Nicholas Cardinale and an estate of Angelina DiGregorio, and supposed to contain 4,153 feet, moth assessment for 1942. . . . 1 00

Katherine DeStefano—About 7,800 feet of land on the southerly side of Orient avenue, being lot 32, shown on assessors' plans, volume 5, page 45, on file with Suffolk Deeds, tax for 1942. . . . 16 40

Giuseppina DiBello—Land, with buildings thereon, on the northeasterly side of Webster street, numbered 102 rear, 102 and 100, between an estate of Salvatore Greco and an estate of Mary Grallo, and supposed to contain 5,625 feet, tax for 1942. . . . \$426 40
Paid on account. . . . 258 12

Balance due. . . . 168 28

Edward J. and Michael Doherty—Land, with buildings thereon, on the northwesterly side of Bremen street, numbered 62, between an estate of Pasquale Pulumbo and another and an estate of George Porcoro and another, and supposed to contain 2,127 feet, water and costs for 1941. . . . 25 17

John M. Driscoll—Land, with buildings thereon, on the southeasterly side of Princeton street, numbered 9, between an estate of Robert Bonney and an estate of Sarah M. Gowdy, and supposed to contain 2,333 feet, water and costs for 1941. . . . 22 69

Cora Belle Dryden—Land, with buildings thereon, on the southeasterly side of Chelsea street, numbered 431, between an estate of Bennington Realty Corp. and an estate of Carmine Mancino and another, and supposed to contain 1,195 feet, tax for 1942. . . . 28 70

Belonia Farina—Land, with buildings thereon, on the northeasterly side of London court, numbered 1, between an estate of Mary Fernia and an estate of Sebastian Costa, and supposed to contain 688 feet, tax for 1942. . . . 28 70

Leona E. Fine (reassessed from Margaret A. Kelly)—Land, with buildings thereon, on the northwesterly side of Morris street, numbered 102 and 104,

between two other estates of said Fine and supposed to contain 3,000 feet, tax for 1942. . . . 82 00

Ivory J. Frisbee—About 4,905 feet of land on the southerly side of Montmorenci avenue, being lot 30, Whitman and Breck plan, dated 1876, recorded with Suffolk Deeds, at end of Book 1286, tax for 1942. . . . 12 30

Apportionment of sewer assessment for 1942. . . . 7 11
